("CGML" or the "CGMFL Guarantor")

This document constitutes a base prospectus (the "**Base Prospectus**") according to Art. 8 of the Regulation (EU) 2017/1129 of the European Parliament and of the Council, as amended, (the "**Prospectus Regulation**") for the issuance of single underlying and multi underlying securities, which may be issued as notes (the "**Notes**") or certificates (the "**Certificates**"), each as specified in the applicable Final Terms, from time to time by each of the Issuers under the Programme (each a

"**Security**" and together the "**Securities**" and each holder of such Security a "**Securityholder**" and together the "**Securityholders**").

This Base Prospectus supersedes and replaces in its entirety the Base Prospectus dated 19 July 2021.

The payment and delivery of all amounts due in respect of the Securities issued by CGMHI only will be unconditionally and irrevocably guaranteed by the CGMHI Guarantor pursuant to a deed of guarantee dated 21 December 2015 (the "**CGMHI Deed of Guarantee**").

The payment and delivery of all amounts due in respect of the Securities issued by CGMFL only will be unconditionally and irrevocably guaranteed by the CGMFL Guarantor pursuant to (i) a deed of guarantee dated 25 January 2019 (the "**CGMFL Deed of Guarantee**") and (ii) a guarantee relating to all sums payable by CGMFL in respect of any liability of CGMFL dated 11 May 2017 (the "**All Monies Guarantee**"), each as amended and/or supplemented and/or replaced from time to time executed by the CGMFL Guarantor (together, the "**CGMFL Deeds of Guarantee**").

CGMHI, CGMFL, the CGMHI Guarantor and the CGMFL Guarantor each has a right of substitution as set out in the Terms and Conditions of the Securities set out in this Base Prospectus.

IMPORTANT NOTICES

Distribution of Securities

Securities may be issued on a continuing basis to CGML, Citigroup Global Markets Europe AG and/or any additional dealer appointed under the Programme (each a "**Dealer**" and together the "**Dealers**"). In relation to each issue of Securities, any Dealer will be specified in the applicable Final Terms (as defined below). However, each Issuer reserves the right to sell Securities directly on its own behalf to other entities and to offer Securities in specified jurisdictions directly to the public through distributors, in accordance with all applicable rules and regulations. The Securities may be offered and sold on a private placement basis, in accordance with all applicable rules and regulations.

Pursuant to this Base Prospectus, Securities may be issued whose return (in respect of any interest payable on such Securities and/or their redemption amount) is linked to one or more security indices ("**Security Index Linked Securities**") or one or more inflation indices ("**Inflation Index Linked Securities**") or one or more commodities ("**Commodity Linked Securities**") or one or more shares ("**Share Linked Securities**") or one or more depositary receipts ("**Depositary Receipt Linked Securities**") or one or more exchange traded fund ("**ETF**") shares ("**ETF Linked Securities**") or one or more mutual funds ("**Mutual Fund Linked Securities**") or one or more currency exchange rates ("**FX Rate Linked Securities**") or one or more Dividend Futures Contracts ("**Dividend Futures Contract Linked Securities**") or one or more interest rates ("**Interest Rate Linked Securities**") each a "**Security**" and together "**Structured Securities**", as more fully described in this Base Prospectus.

Securities may provide that settlement will be by way of cash settlement ("**Cash Settled Securities**") or physical delivery ("**Physical Delivery Securities**") as provided in the Valuation and Settlement Schedule and the applicable Final Terms.

Benchmarks Regulation statement in relation to administrator's registration – Amounts payable or assets deliverable under the Securities may be calculated by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 (the "**Benchmarks Regulation**"). In this case the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (the "**ESMA**") pursuant to Article 36 of the Benchmarks Regulation. Transitional provisions in the Benchmarks Regulation may apply such that the administrator of a particular "benchmark" is not required to be included in the register of administrators and benchmarks at the date of the applicable Final Terms.

Prospective investors should note that the Events of Default in respect of the CGMHI Guarantor are limited to the events stated in General Condition 7(a)(i) and 7(a)(ii) (*Events of Default*) relating to default in payment of principal or interest in respect of the Securities but will not include the insolvency or bankruptcy of the CGMHI Guarantor (or any similar event), any other default of the CGMHI Guarantor or the deed of guarantee dated 21 December 2015, as amended and/or supplemented and/or replaced from time to time (the "**CGMHI Deed of Guarantee**") executed by the CGMHI Guarantor and not being (or being claimed not to be) in full force and effect. Therefore, even though the CGMHI Guarantor may be declared insolvent or have entered into bankruptcy proceedings or disclaimed the CGMHI Deed of Guarantee, holders of Securities issued by CGMHI will not be able to trigger an Event of Default under the Securities and thus will not be able to cause the Securities to be immediately due and payable, and the Securities will not redeem until maturity (unless there has been an Event of Default due to non-payment of interest or principal or bankruptcy or other default of CGMHI in the meantime). It is possible that holders may receive a lower return

at maturity than if they were able to accelerate the Securities for immediate repayment in such circumstances.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Securities may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET

The Final Terms in respect of any Securities may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the *Financial Conduct Authority ("FCA") Handbook Product Intervention and Product Governance Sourcebook* (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.

PRIIPS REGULATION / EEA RETAIL INVESTORS

If the Final Terms in respect of any Securities include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Where such a Prohibition of Sales to EEA Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling such Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

UK PRIIPS REGULATION / UK RETAIL INVESTORS

If the Final Terms in respect of any Securities include a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For the purposes of this provision the expression "retail investor" means a person who is one (or more) of the following: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. Where such a Prohibition of Sales to UK Retail Investors is included in the Final Terms, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Approval of the Base Prospectus

Each of the CGMHI Base Prospectus and the CGMFL Base Prospectus has been approved as a base prospectus by the Central Bank of Ireland ("**CBI**") as the competent authority under the Prospectus Regulation. CBI only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of any of the Issuers, the CGMHI Guarantor, or the CGMFL Guarantor or of the quality of the Securities that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Securities.

Such approval relates only to Securities which are to be admitted to trading on a regulated market for the purposes of MiFID II or which are to be offered to the public in any member state of the EEA in circumstances that require the publication of a prospectus. However, there can be no assurance that such applications will be approved or that, if approved, any such approval will be given within a specified timeframe.

Application will be made for the Securities to be listed on the Open Market (Regulated Unofficial Market) (*Freiverkehr*) of the Frankfurt Stock Exchange (*Börse Frankfurt Zertifikate AG*) ("**FWB**") but there can be no assurance that any such listing will occur on or prior to the date of issue of any Securities, as the case may be, or at all. Application will also be made to the Irish Stock Exchange plc, trading as Euronext Dublin, ("**Euronext Dublin**") for the Securities issued during the period of twelve months after the date of the Base Prospectus to be admitted to the official list (the "**Official List**") and to trading on its regulated market but there can be no assurance that any such listing will occur on or prior to the date of issue of any Securities, as the case may be, or at all. An electronic copy of the Base Prospectus will be published on the website of Euronext Dublin at <https://live.euronext.com/en/site-home-page>. Application will also be made to the Luxembourg Stock Exchange for the Securities issued during the period of twelve months after the date of the Base Prospectus to be admitted to the official list and to trading on its regulated market but there can be no assurance that any such listing will occur on or prior to the date of issue of any Securities, as the case may be, or at all. An electronic copy of this Base Prospectus, the relevant documents incorporated by reference herein, and the Final Terms of such Securities will be published on the

website of the Luxembourg Stock Exchange at www.bourse.lu, for so long as the Securities are listed on the Luxembourg Stock Exchange. The CBI may, at the request of the relevant Issuer, send to a competent authority of another member state of the EEA (i) a copy of the Base Prospectus, and (ii) a certificate of approval pursuant to Article 25 of the Prospectus Regulation attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation. In relation to the aforementioned and for the purpose of passporting the Base Prospectus to Luxembourg, Germany and Austria, the Issuers will request the CBI to send to the respective competent authorities (i) a copy of the Base Prospectus, and (ii) a certificate of approval pursuant to Article 25 of the Prospectus Regulation attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Regulation.

The Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Securities which are to be admitted to trading on a regulated market in the EEA. The obligation to supplement the Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when the Base Prospectus is no longer valid.

This Base Prospectus is drawn up in the English language. In case there is any discrepancy between the English text and the German text, the English text stands approved for the purposes of approval under Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC. The non-binding German translations included in this document are for convenience only and have not been reviewed or scrutinised by the Central Bank of Ireland.

Securities are issued in Series (as defined in this Base Prospectus) and each Series may comprise one or more Tranches (as defined in this Base Prospectus) of Securities. Each Tranche is the subject of a final terms document (the "**Final Terms**").

Arthur Cox Listing Services Limited is acting solely in its capacity as listing agent for the relevant Issuer in relation to Securities issued under the Programme and is not itself seeking admission of Securities issued under the Programme to the Official List of Euronext Dublin or to trading on the regulated market of Euronext Dublin for the purposes of the Prospectus Regulation.

Linklaters LLP, Luxembourg, is acting solely in its capacity as listing agent for the relevant Issuer in relation to Securities issued under the Programme and is not itself seeking admission of Securities issued under the Programme to the Official List of the Luxembourg Stock Exchange or to trading on the regulated market of the Luxembourg Stock Exchange for the purposes of the Prospectus Regulation.

The Final Terms will specify with respect to the issue of Securities to which they relate, inter alia, the specific designation of the Securities, the aggregate principal amount and type of the Securities, the date of issue of the Securities, the issue price, the relevant interest provisions (if any), and the redemption amount of the Securities and, as relevant, the underlying security, share, bond, asset, index, commodity, rate, contract, currency or other item(s) (each an "**Underlying**") to which the Securities relate and certain other terms relating to the offering and sale of such Securities. The issue price and amount of the Securities of any Tranche will be determined by the relevant Issuer and the relevant Dealer(s) at the time of the issue of such Tranche in accordance with prevailing market conditions.

The Terms and Conditions of the Securities will be as set out in "*General Conditions of the Securities*" and in the relevant Schedule(s) thereto.

PROSPECTIVE PURCHASERS OF SECURITIES SHOULD ENSURE THAT THEY UNDERSTAND THE NATURE OF THE RELEVANT SECURITIES AND THE EXTENT OF THEIR EXPOSURE TO RISKS AND THAT THEY CONSIDER THE SUITABILITY OF THE RELEVANT SECURITIES AS AN INVESTMENT IN LIGHT OF THEIR OWN CIRCUMSTANCES AND FINANCIAL CONDITION. IT IS THE RESPONSIBILITY OF PROSPECTIVE PURCHASERS TO ENSURE THAT THEY HAVE SUFFICIENT KNOWLEDGE, EXPERIENCE AND PROFESSIONAL ADVICE TO MAKE THEIR OWN LEGAL, FINANCIAL, TAX, ACCOUNTING AND OTHER BUSINESS EVALUATION OF THE MERITS AND RISKS OF INVESTING IN THE SECURITIES AND ARE NOT RELYING ON THE ADVICE OF THE RELEVANT ISSUER, THE GUARANTOR OR ANY DEALER IN THIS REGARD. SECURITIES MAY INVOLVE A HIGH DEGREE OF RISK, INCLUDING THE PRINCIPAL NOT BEING PROTECTED. POTENTIAL INVESTORS MAY SUSTAIN A LOSS OF ALL OR PART OF THEIR INVESTMENT IN THE SECURITIES. SEE "RISK FACTORS" SET OUT THIS BASE PROSPECTUS.

U.S. notices

None of the Securities, the CGMHI Deed of Guarantee and the CGMFL Deeds of Guarantee has been nor will be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States. Securities may be offered and sold outside of the United States to non-U.S. persons in reliance on Regulation S under the Securities Act ("**Regulation S**"). Securities will not be offered and sold in the United States or to, or for the account or benefit of, U.S. persons at any time. The Securities, the CGMHI Deed of Guarantee, the CGMFL Deeds of Guarantee and any Entitlement do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act, as amended (the "**CEA**"), and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "**CFTC**") pursuant to the CEA.

The Securities may not be offered or sold to, or acquired by, any person that is, or whose purchase and holding of the Securities is made on behalf of or with "plan assets" of, an employee benefit plan subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), a plan, individual retirement account or other arrangement subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") or an employee benefit plan or other plan or arrangement subject to any laws, rules or regulations substantially similar to Title I of ERISA or Section 4975 of the Code.

In connection with the investor's acquisition of Securities issued under this Base Prospectus, an affiliate of the relevant Issuer may provide product and sales services to the investor ("**Services**"). Accordingly, a portion of the revenue received by the relevant Issuer from the investor in respect of the Securities is allocable to such affiliate(s) and is received by the relevant Issuer on behalf of such affiliate(s). None of the Issuers and Guarantors will provide any post issuance information, except if required by any applicable laws and regulations.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF SECURITIES

Withdrawal rights

Subject to and in accordance with Articles 8(11) and 23(2a) of the Prospectus Regulation, investors who have already agreed to purchase or subscribe for Securities offered to the public in a member state of the EEA before this Base Prospectus is published have the right, exercisable within three working days after the publication of this Base Prospectus, to withdraw their acceptances, unless the Securities have already been delivered to them at the time this Base Prospectus is published. For the avoidance of doubt, the final date on which eligible investors may exercise such right of withdrawal is 20 July 2022. Investors who wish to exercise such right of withdrawal may contact the relevant Authorised Offeror (as defined below).

Restrictions on Non-exempt Offers of Securities in member states of the EEA

Tranches of Securities with a denomination of less than EUR 100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a "**Non-exempt Offer**". The Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Securities. However, any person making or intending to make a Non-exempt Offer of Securities in any member state of the EEA may only do so if the Base Prospectus has been approved by the competent authority in that member state (or, where appropriate, approved in another member state and notified to the competent authority in that member state) and published in accordance with the Prospectus Regulation, if the relevant Issuer has consented to the use of the Base Prospectus in connection with such offer as provided below under "*Consent given in accordance with Article 5(1) of the Prospectus Regulation (Retail Cascades)*" and the conditions attached to that consent are complied with by the person making the Non-exempt Offer of such Securities.

Save as provided above, none of the Issuers, the CGMHI Guarantor (where the Issuer is CGMHI), the CGMFL Guarantor (where the Issuer is CGMFL) or any Dealer have authorised, nor do they authorise, the making of any Non-exempt Offer of Securities in circumstances in which an obligation arises for the relevant Issuer, the Guarantor or any Dealer to publish or supplement a prospectus for such offer.

Consent given in accordance with Article 5(1) of the Prospectus Regulation (Retail Cascades)

In the context of a Non-exempt Offer of such Securities, the relevant Issuer, the CGMHI Guarantor (where the Issuer is CGMHI) and the CGMFL Guarantor (where the Issuer is CGMFL) accept responsibility, in the jurisdictions to which the consent to use the Base Prospectus extends, for the content of this Base Prospectus under Article 11 of the Prospectus Regulation in relation to any person (an "**Investor**") who acquires any Securities in a Non-exempt Offer made by any person to whom the Issuer has given consent to the use of this Base Prospectus (an "**Authorised Offeror**") in that connection, if the conditions attached to that consent are complied with by the Authorised Offeror. The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

None of the Issuer, the CGMHI Guarantor (where the Issuer is CGMHI), the CGMFL Guarantor (where the Issuer is CGMFL) or any Dealer make any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuer, the CGMHI

Guarantor (where the Issuer is CGMHI), the CGMFL Guarantor (where the Issuer is CGMFL) or any Dealer have any responsibility or liability for the actions of that Authorised Offeror.

Save as provided below, none of the Issuer, the CGMHI Guarantor (where the Issuer is CGMHI), the CGMFL Guarantor (where the Issuer is CGMFL) or any Dealer have authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Securities. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and none of the Issuer, the CGMHI Guarantor (where the Issuer is CGMHI), the CGMFL Guarantor (where the Issuer is CGMFL) or any Dealer accept any responsibility or liability for the actions of the persons making any such unauthorised offer. If, in the context of a Non-exempt Offer, an Investor is offered Securities by a person that is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of Article 11 of the Prospectus Regulation in the context of the Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

Consent

Each of the Issuers consents to the use of the Base Prospectus to the extent, and subject to any conditions, indicated in the respective Final Terms, and accepts responsibility for the contents of the Base Prospectus, including in respect of any subsequent resale or final placement of Securities by financial intermediaries who have received consent to the use of the Base Prospectus. The consent to the use of the Base Prospectus applies for the period of validity of the Base Prospectus. Consent may, as specified in the respective Final Terms, be given to all financial intermediaries (general consent) or only to one or several financial intermediaries (each an Authorised Offeror) (individual consent) and apply for Ireland, Luxembourg, Austria and Germany (each a "**Public Offer Jurisdiction**"), as specified in the respective Final Terms. Consent as described above is given subject to compliance with the selling restrictions applying to the Securities and all provisions of law applicable in each case. The consent to the subsequent resale or final placement of the Securities by financial intermediaries may be given either for the period of validity of the Base Prospectus or for a different period as specified in the respective Final Terms. All financial intermediaries are under an obligation to distribute the Base Prospectus to potential investors only together with any supplements (if there are any).

In the event that a financial intermediary makes an offer, that financial intermediary will inform investors at the time the offer is made of the terms and conditions of the offer as set out in the Final Terms.

If the respective Final Terms provide that all financial intermediaries in the Public Offer Jurisdictions are given consent to the use of the Base Prospectus (general consent), any financial intermediary using the Base Prospectus has to state on its website that it uses the Base Prospectus in accordance with the consent of the relevant Issuer and the conditions attached thereto.

If the respective Final Terms provide that one or several financial intermediaries are given consent to the use of the Base Prospectus in the Public Offer Jurisdictions (individual consent), any new information to financial intermediaries that was unknown at the date of approval of the Base Prospectus, or, where applicable, the date on which the respective Final Terms were delivered, will be published on the website <https://de.citifirst.com> (on the respective product site (retrievable by entering the relevant securities identification number for the Security in the search field)) respectively on the website specified in the applicable Final Terms.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY SECURITIES IN A NON-EXEMPT OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH SECURITIES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS AND SETTLEMENT ARRANGEMENTS. THE RELEVANT ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE NON-EXEMPT OFFER OR SALE OF THE SECURITIES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE AUTHORISED OFFEROR WILL PROVIDE SUCH INFORMATION TO THE INVESTOR AT THE TIME OF SUCH OFFER AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NONE OF THE RELEVANT ISSUER, THE GUARANTOR AND ANY DEALER (EXCEPT WHERE SUCH DEALER IS THE RELEVANT AUTHORISED OFFEROR) HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

The S&P ratings have been endorsed by S&P Global Ratings Europe Limited ("**SPGRE**"). SPGRE is established in the European Union and registered under the EU CRA Regulation. As such SPGRE is included in the list of credit rating agencies published by the ESMA on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the EU CRA Regulation. ESMA has indicated that ratings issued in the United States of America which have been endorsed by SPGRE may be used in the European Union by the relevant market participants. On 1 January 2021, a new UK credit rating agency, S&P Global Ratings UK Limited ("**SPGRUK**") has been registered with the Financial Conduct Authority ("**FCA**") so that the credit ratings issued or endorsed by SPGRUK may be usable for certain regulatory purposes in the UK under the UK CRA Regulation. The ratings issued by such credit rating agency cannot be used for regulatory purposes in the EU unless endorsed by an EU credit rating agency. ⁴ "A+" by S&P: An obligor rated "A" has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The addition of a plus sign shows the relative standing within the rating category (source: www.standardandpoors.com). "A" by Fitch: "A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings (source: www.fitchratings.com). "F1" by Fitch: Indicates the strongest intrinsic capacity for timely payment of financial commitments (source: www.fitchratings.com).

SECTION A – GENERAL DESCRIPTION OF THE PROGRAMME

Under the Programme, each Issuer may from time to time issue Notes or Certificates which will be denominated or payable in any currency, subject as set out in this Base Prospectus.

The applicable terms of any Security will be agreed between the relevant Issuer and, where applicable, the relevant Dealer prior to the issue of the Securities and will be set out in the terms and conditions of the Securities which shall mean the "*Terms and Conditions of the Securities*", as completed by Part A of the applicable Final Terms.

SECTION B – RISK FACTORS

In purchasing Securities, investors assume the risk that the relevant Issuer and, where CGMHI is the Issuer, the CGMHI Guarantor or, where CGMFL is the Issuer, the CGMFL Guarantor may become insolvent or otherwise be unable to satisfy their obligations in respect of the Securities. There is a wide range of factors which individually or together could result in the relevant Issuer and, where CGMHI is the Issuer, the CGMHI Guarantor or, where CGMFL is the Issuer, the CGMFL Guarantor becoming unable to satisfy their obligations in respect of the Securities. It is not possible to identify all such factors, as the relevant Issuer and, where CGMHI is the Issuer, the CGMHI Guarantor or, where CGMFL is the Issuer, the CGMFL Guarantor may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the relevant Issuer's and, where CGMHI is the Issuer, the CGMHI Guarantor's or, where CGMFL is the Issuer, the CGMFL Guarantor's control. The relevant Issuer and, where CGMHI is the Issuer, the CGMHI Guarantor or, where CGMFL is the Issuer, the CGMFL Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due under, or to deliver assets on or in connection with, the Securities.

Each of the risks highlighted below could adversely affect the trading price of the Securities and, as a result, investors could lose some or all of their investment.

In addition, factors which are material for the purpose of assessing the market risks associated with Securities issued under this Base Prospectus are also described below.

Prospective investors must read the detailed information set out elsewhere in this Base Prospectus including any documents incorporated by reference in it and reach their own views prior to making any investment decision.

INVESTORS MAY LOSE THEIR ENTIRE INVESTMENT OR PART OF IT AS THE CASE MAY BE. EACH OF THE ISSUERS DOES NOT REPRESENT THAT THE LIST BELOW IS COMPREHENSIVE. PROSPECTIVE INVESTORS SHOULD READ THE BASE PROSPECTUS IN ITS ENTIRETY AND FORM THEIR OWN CONCLUSIONS REGARDING THE RELEVANT ISSUER.

Risks Relating to CGMHI, CGMFL, the CGMHI Guarantor and the CGMFL Guarantor

Set out below are certain risk factors which could have a material adverse effect on the business, operations, financial condition or prospects of CGMHI, CGMFL, the CGMHI Guarantor and/or the CGMFL Guarantor and cause one or more of CGMHI's, CGMFL's, the CGMHI Guarantor's and/or the CGMFL Guarantor's future results to be materially different from expected results. CGMHI's, CGMFL's, the CGMHI Guarantor's and/or the CGMFL Guarantor's results could also be affected by competition and other factors. The factors discussed below should not be regarded as a complete and comprehensive statement of all potential risks and uncertainties CGMHI's, CGMFL's, the CGMHI Guarantor's and the CGMFL Guarantor's businesses face. Each of CGMHI, CGMFL, the CGMHI Guarantor and the CGMFL Guarantor have described only those risks relating to its operations that they consider to be material. There may be additional risks that CGMHI, CGMFL, the CGMHI Guarantor and/or the CGMFL Guarantor currently considers not to be material or of which they are not currently aware, and any of these risks could have the effects set forth above. Investors should note that they bear the relevant Issuer's, the CGMHI Guarantor's (where the Issuer is CGMHI) and the CGMFL Guarantor's (where the Issuer is CGMFL) solvency risk.

The ability of CGMHI to fulfil its obligations under the Securities is dependent on the earnings of Citigroup Inc.'s subsidiaries

The ability of CGMHI to fulfil its obligations under any Securities issued by it will be dependent on the group entities to which it on-lends the funds raised through the issue of such Securities performing their obligations in respect of such funding in a timely manner. Accordingly, investors should consider the risk factors applicable to Citigroup Inc. and its subsidiaries (together the "**Group**") as set out elsewhere in this section of the Base Prospectus. If such group entities are unable to perform their obligations in respect of such funding, CGMHI's ability to fulfil its own obligations under the Securities issued by it may be adversely affected, and consequently the value of and return on such Securities may also be adversely affected.

The ability of CGMFL to fulfil its obligations under the Securities issued by it is dependent on the CGMFL Guarantor performing its counterparty obligations owed to CGMFL

CGMFL is subject to intra-group credit risk. From time to time, CGMFL enters into derivative transactions with the CGMFL Guarantor to offset or hedge its liabilities to securityholders under securities issued by it (which may include the Securities). As such, CGMFL is exposed to the credit risk of the CGMFL Guarantor in the form of counterparty risk in respect of such derivative transactions. In particular, CGMFL's ability to fulfil its obligations under the Securities is primarily dependent on the CGMFL Guarantor performing its counterparty obligations owed to CGMFL in respect of such derivative transactions in a timely manner, and any failure by the CGMFL Guarantor to do so will negatively affect the ability of CGMFL to fulfil its obligations under the Securities. Securityholders will not have any recourse to the CGMFL Guarantor under any such derivative transactions.

Rapidly evolving challenges and uncertainties related to the COVID-19 pandemic in the U.S. and globally will likely continue to have negative impacts on the Group's businesses and results of operations and financial condition

The COVID-19 pandemic has affected all of the countries and jurisdictions in which the Group operates, including severely impacting global health, financial markets, consumer and business spending and economic conditions. The extent of the future pandemic impacts remain uncertain and will likely evolve by region, country or state, largely depending on the duration and severity of the public health consequences, including the duration and further spread of the coronavirus as well as any variants becoming more prevalent and impactful; further production, distribution, acceptance and effectiveness of vaccines; availability and efficiency of testing; the public response; and government actions. The future impacts to global economic conditions may include, among others:

- further disruption of global supply chains;
- higher inflation;
- higher interest rates;
- significant disruption and volatility in financial markets;
- additional closures, reduced activity and failures of many businesses, leading to loss of revenues and net losses;
- further institution of social distancing and restrictions on businesses and the movement of the public in and among the U.S. and other countries; and
- reduced U.S. and global economic output.

The pandemic has had, and may continue to have, negative impacts on the Group's businesses and overall results of operations and financial condition, which could be material. The extent of the impact on the

Group's operations and financial performance, including its ability to execute its business strategies and initiatives, will continue to depend significantly on future developments in the U.S. and globally. Such developments are uncertain and cannot be predicted, including the course of the coronavirus, as well as any weakness or slowing in the economic recovery or a further economic downturn, whether due to further supply chain disruptions, inflation trends, higher interest rates or otherwise.

The pandemic may not be sufficiently contained for an extended period of time. A prolonged health crisis could reduce economic activity in the U.S. and other countries, resulting in additional declines or weakness in employment trends and business and consumer confidence. These factors could negatively impact global economic activity and markets; cause a continued decline in the demand for the Group's products and services and in its revenues; further increase the Group's credit and other costs; and may result in impairment of long-lived assets or goodwill. These factors could also cause an increase in the Group's balance sheet, risk-weighted assets and allowance for credit losses, resulting in a decline in regulatory capital ratios or liquidity measures, as well as regulatory demands for higher capital levels and/or limitations or reductions in capital distributions (such as common share repurchases and dividends). Moreover, any disruption or failure of the Group's performance of, or its ability to perform, key business functions, as a result of the continued spread of COVID-19 or otherwise, could adversely affect the Group's operations.

The impact of the pandemic on the Group's consumer and corporate borrowers will vary by sector or industry, with some borrowers experiencing greater stress levels, particularly as credit and customer assistance support further winds down, which could lead to increased pressure on their results of operations and financial condition, increased borrowings or credit ratings downgrades, thus likely leading to higher credit costs for the Group. These borrowers include, among others, businesses that are more directly impacted by the institution of social distancing, the movement of the public and store closures. In addition, stress levels ultimately experienced by the Group's borrowers may be different from and more intense than assumptions made in prior estimates or models used by the Group, resulting in an increase in the Group's allowance for credit losses or net credit losses, particularly as the benefits of fiscal stimulus and government support programs diminish.

Ongoing legislative and regulatory changes in the U.S. and globally to address the economic impact from the pandemic could further affect the Group's businesses, operations and financial performance. The Group could also face challenges, including legal and reputational, and scrutiny in its efforts to provide relief measures. Such efforts have resulted in, and may continue to result in, litigation, including class actions, and regulatory and government actions and proceedings. Such actions may result in judgments, settlements, penalties and fines adverse to the Group. In addition, the different types of government actions could vary in scale and duration across jurisdictions and regions with varying degrees of effectiveness.

The Group has taken measures to maintain the health and safety of its colleagues; however, these measures could result in additional expenses, and illness of employees could negatively affect staffing for a period of time. In addition, the Group's ability to recruit, hire and onboard colleagues in key areas could be negatively impacted by pandemic restrictions as well as the Group's COVID-19 vaccination requirement.

Further, it is unclear how the macroeconomic or business environment or societal norms may be impacted after the pandemic. The post-pandemic environment may undergo unexpected developments or changes in financial markets, fiscal, monetary, tax and regulatory environments and consumer customer and corporate client behaviour. These developments and changes could have an adverse impact on the Group's results of operations and financial condition. Ongoing business and regulatory uncertainties and changes may make the Group's longer-term business, balance sheet and strategic and budget planning more difficult or costly. The Group and its management and businesses may also experience increased or different competitive and other challenges in this environment. To the extent that it is not able to adapt

or compete effectively, the Group could experience loss of business and its results of operations and financial condition could suffer.

Any negative impact of the COVID-19 pandemic on the Group, including the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor, could adversely affect the ability of the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor to fulfil its obligations under the Securities, and consequently the value of and return on such Securities may also be adversely affected.

Any negative impact of the COVID-19 pandemic on the Group, including the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor, could adversely affect the ability of the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor to fulfil its obligations under the Securities, and consequently the value of and return on such Securities may also be adversely affected. The inclusion of contractual stay provisions in the terms and conditions of the Securities could materially adversely affect the rights of Securityholders in a resolution scenario

In the autumn of 2017 the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation and the Office of the Comptroller of the Currency issued rules ("**QFC Stay Rules**") designed to improve the resolvability and resilience of U.S. global systemically important banking organizations ("**G-SIBs**") and the U.S. operations of foreign G-SIBs, by mitigating the risk of destabilizing closeouts of qualified financial contracts ("**QFCs**") in resolution. Citigroup Inc. and its subsidiaries, including CGMHI, CGMFL and the CGMFL Guarantor, are "**covered entities**" subject to the QFC Stay Rules. Certain of the Securities (such Securities, "**Covered Instruments**"), the CGMHI Deed of Guarantee and the CGMFL Deeds of Guarantee – to the extent the guarantee relates to Covered Instruments – may qualify as QFCs.

The QFC Stay Rules seek to eliminate impediments to the orderly resolution of a G-SIB both in a scenario where resolution proceedings are instituted by the U.S. regulatory authorities under the Federal Deposit Insurance Act or the Orderly Liquidation Authority under Title II of the Dodd Frank Act ("**OLA**") (together, the "**U.S. Special Resolution Regimes**") as well as in a scenario where the G-SIB is resolved under ordinary insolvency proceedings. To achieve this, the QFC Stay Rules require covered entities (such as CGMHI, CGMFL, the CGMHI Guarantor and the CGMFL Guarantor) to ensure that their QFCs subject to the QFC Stay Rules (including any Securities which are Covered Instruments) (i) contain an express contractual recognition of the statutory stay-and-transfer provisions of the U.S. Special Resolution Regimes and (ii) do not contain cross-default rights against the covered entity based on an affiliate becoming subject to any type of insolvency proceeding or restrictions on the transfer of any related credit enhancements (including a guarantee) issued by an affiliate of the covered entity following the affiliate's entry into insolvency proceedings.

To address these requirements, the terms and conditions of the Securities contain an express contractual recognition that, in the event any of the relevant Issuer, the CGMHI Guarantor and the CGMFL Guarantor becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer of Securities which are Covered Instruments and (in relation to Covered Instruments) the CGMHI Deed of Guarantee and the CGMFL Deeds of Guarantee (and the transfer of any interest and obligation in or under such Covered Instruments, the CGMHI Deed of Guarantee or the CGMFL Deeds of Guarantee) from the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor, as applicable, will be effective to the same extent as the transfer would be effective under such U.S. Special Resolution Regime. In addition, the terms and conditions of the Securities contain an express contractual recognition that, in the event any of the relevant Issuer, the CGMHI Guarantor, the CGMFL Guarantor or any of their affiliates becomes subject to a proceeding under a U.S. Special Resolution Regime, default rights against the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor with respect to the Covered Instruments, the CGMHI Deed of Guarantee or the CGMFL Deeds of Guarantee are permitted to be exercised to no greater extent

than they could be exercised under such U.S. Special Resolution Regime. For these purposes, "default rights" include the right to terminate, liquidate or accelerate a QFC or demand payment or delivery thereunder. See General Condition 18 or 19 (*Acknowledgement of the United States Special Resolution Regimes*), respectively.

Each of Citigroup Inc., as a U.S. entity incorporated in Delaware, and CGMHI, as a U.S. entity incorporated in the State of New York, could be placed into proceedings under OLA if certain determinations are made by the applicable U.S. regulatory authorities. However, under the law in effect as at the date of this Base Prospectus, although CGMFL and the CGMFL Guarantor are each "covered entities" for the purposes of the QFC Stay Rules and are required to include the above-described acknowledgements in relevant QFCs, neither CGMFL nor the CGMFL Guarantor, as non-U.S. entities, are eligible to be placed into proceedings under the U.S. Special Resolution Regimes.

The exercise of any power under the U.S. Special Resolution Regimes could materially adversely affect the rights of the holders of Securities issued by CGMHI (e.g. in respect of the right to demand payment), and accordingly, the price or value of their investment in any such Security and/or the ability of the relevant Issuer to satisfy its obligations under such Securities.

As at the date of this Base Prospectus, interpretation of the application of the relevant requirements and market practice is continuing to evolve. If investors are in any doubt about the categorisation of any Securities as QFCs and the effect of any proceeding under a U.S. Special Resolution Regime on such Securities, they should take advice from such professional advisers as they may deem necessary.

Ability to Substitute the CGMHI Guarantor or the CGMFL Guarantor in Insolvency

The terms and conditions of the Securities explicitly provide that nothing in General Condition 11 (*Substitution of the Issuer, the CGMHI Guarantor and the CGMFL Guarantor*) shall limit the ability of the CGMHI Guarantor or the CGMFL Guarantor to be substituted upon or following the relevant entity becoming subject to a resolution, restructuring, or reorganization or similar proceeding. This means any such substitution of the CGMHI Guarantor or the CGMFL Guarantor does not have to comply with the substitution criteria set out in General Condition 11 (*Substitution of the Issuer, the CGMHI Guarantor and the CGMFL Guarantor*). Any such substitution could adversely affect the rights of the Securityholders, the price and/or value of their investment in the Securities and/or performance under the CGMHI Deed of Guarantee or the CGMFL Deeds of Guarantee, as the case may be.

A reduction of the relevant Issuer's and/or, where the Issuer is CGMHI, the CGMHI Guarantor's and/or, where the Issuer is CGMFL, the CGMFL Guarantor's ratings may reduce the market value and liquidity of the relevant Securities

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the relevant Issuer's, the CGMHI Guarantor's, the CGMFL Guarantor's and/or their affiliates' creditworthiness. Such perceptions are generally influenced by the ratings accorded to the outstanding securities of the relevant Issuer, the CGMHI Guarantor, the CGMFL Guarantor and/or any of their affiliates by standard statistical rating services, such as Moody's, S&P and Fitch. A reduction in the rating, if any, accorded to outstanding debt securities (if any) of the Issuers, the CGMHI Guarantor, the CGMFL Guarantor and/or the securities issued by any of their affiliates by one of these rating agencies could result in a reduction in the trading value of the Securities.

Each rating agency may reduce, suspend or withdraw any credit ratings of an Issuer, the CGMHI Guarantor and/or the CGMFL Guarantor at any time in the future if, in its judgment, circumstances warrant a change. No rating agency is obligated to maintain its ratings at their current levels. The rating agencies continuously evaluate Citigroup Inc. and its subsidiaries, and their ratings of Citigroup Inc. and its subsidiaries' long-term and short-term debt are based on a number of factors, including financial

strength, as well as factors not entirely within the control of Citigroup Inc. and its subsidiaries, such as conditions affecting the financial services industry generally. If a rating agency reduces, suspends or withdraws its rating of an Issuer and/or, where the Issuer is CGMHI, the CGMHI Guarantor and/or, where the Issuer is CGMFL, the CGMFL Guarantor, and/or any affiliate thereof, the liquidity and market value of the Securities and, where applicable, the CGMHI Guarantor's or the CGMFL Guarantor's ability to fulfil its guarantor obligations are likely to be adversely affected.

In addition, ratings downgrades by Fitch, Moody's or S&P could have a significant and immediate impact on Citigroup Inc.'s funding and liquidity through cash obligations, reduced funding capacity and derivative triggers and additional margin requirements. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. Some entities may also have ratings limitations as to their permissible counterparties, of which Citigroup Inc. may or may not be aware. A reduction in Citigroup Inc.'s or its subsidiaries' credit ratings could also widen Citigroup Inc.'s credit spreads or otherwise increase its borrowing costs and limit its access to the capital markets. Any of the foregoing factors may negatively impact the value of and return on the Securities.

For information on the credit ratings of the Issuers, the CGMHI Guarantor and the CGMFL Guarantor, please refer to the section entitled "*Credit Ratings*" at page 12 above.

Actions taken under the Banking Act in relation to the CGMFL Guarantor could materially adversely affect the value of and return on Securities issued by CGMFL

Under the Banking Act 2009 (the "**Banking Act**"), substantial powers are granted to HM Treasury, the Bank of England, the Financial Conduct Authority and the Prudential Regulation Authority (together, the "**Authorities**") as part of a special resolution regime (the "**SRR**"). These powers may be exercised in respect of certain UK entities (each a "**Relevant Entity**"), including UK investment firms such as the CGMFL Guarantor.

The SRR consists of five stabilisation options and two special insolvency procedures (bank administration and bank insolvency). The stabilisation options provide for: (i) private sector transfer of all or part of the business of the Relevant Entity; (ii) transfer of all or part of the business of the Relevant Entity to a bridge bank wholly owned by the Bank of England; (iii) transfer of all or part of the business of the Relevant Entity to an asset management vehicle owned and controlled by the Bank of England; (iv) writing down certain claims of unsecured creditors of the Relevant Entity and/or converting certain unsecured debt claims to equity, (the "**Bail-in Option**"), which equity could also be subject to any future cancellation, transfer or dilution; and (v) temporary public ownership (nationalisation) of all or part of the Relevant Entity or its UK holding company. In each case, the Authorities have wide powers, for example to modify contractual arrangements or disapply or modify laws with possible retroactive effect.

The relevant stabilisation options may be exercised if (a) the relevant Authority is satisfied that a Relevant Entity is failing or likely to fail, (b) following consultation with the other Authorities, the relevant Authority determines that it is not reasonably likely that (ignoring the stabilising options) action will be taken that will result in the condition referred to in (a) ceasing to be met and (c) the Authorities consider the exercise of the stabilisation options to be necessary, having regard to certain public interest considerations. The stabilisation options could be exercised prior to insolvency, and payments to Securityholders may be delayed or less than expected.

By way of example, exercise of the stabilisation options could involve (among other things) modifying or disapplying the terms of the CGMFL Deeds of Guarantee without Securityholders' consent. This could adversely affect their rights, the price or value of their investment and the ability of the CGMFL Guarantor to satisfy its obligations.

In addition, if the CGMFL Guarantor were subject to a partial transfer of its business to another entity, the quality of the assets and the quantum of the liabilities not transferred (which may include the CGMFL Deeds of Guarantee) would negatively affect its creditworthiness. As a result, the CGMFL Guarantor may be unable to meet its obligations in respect of the CGMFL Deeds of Guarantee or subject to administration proceedings.

In certain circumstances, while Securityholders may have a claim for compensation under the Banking Act, they may not recover compensation promptly or equal to losses incurred.

Action taken under the BRRD in relation to CGMFL could materially adversely affect the value of and return on Securities issued by CGMFL

Directive 2014/59/EU of the European Parliament and of the Council of 15 May 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms, as amended (the "BRRD") was implemented by the Luxembourg act dated 18 December 2015 on the resolution, reorganisation and winding up measures of credit institutions and certain investment firms and on deposit guarantee and investor compensation schemes, as amended (the "BRR Act 2015"). Under the BRR Act 2015, the competent authority is the *Commission de surveillance du secteur financier* (the "CSSF") and the resolution authority is the CSSF acting as resolution council (*Conseil de résolution*) (the "**Resolution Council**").

The BRR Act 2015 contains four resolution tools and powers which may be used where the Resolution Council considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest.

The BRR Act 2015 provides for the power to impose a suspension of activities, including a partial or complete suspension of the performance of agreements entered into by a Luxembourg incorporated in-scope entity (such as CGMFL). The BRR Act 2015 also grants the power to the Resolution Council to take a number of other resolution measures including (i) a forced sale of all or part of the business of a Luxembourg incorporated in-scope entity, (ii) the establishment of an entity wholly or partially in public control (a **bridge institution**), which may limit the capacity of a Luxembourg incorporated in-scope entity to meet its repayment obligations or, (iii) the forced transfer of all or part of the assets, rights or obligations of a Luxembourg incorporated in-scope entity and (iv) the application of the general bail-in tool to write down certain claims of unsecured creditors (including to zero) and to convert certain unsecured debt claims to equity or other instruments of ownership, which equity or other instruments could also be subject to any future cancellation, transfer or dilution.

If Securities issued by CGMFL are subject to the bail-in tool, holders of such Securities may lose some or all of their investment. The terms of the obligations under the Securities may also be varied by the Resolution Council (e.g. suspension of payments). In addition, more recent amendments to the BRRD and other related pieces of EU legislation provide for a new pre-resolution moratorium tool and new powers to suspend performance of agreements (including payment) by the relevant institution (such as CGMFL).

The exercise of the above powers could materially adversely affect the rights of the holders of Securities issued by CGMFL, the price or value of their investment in any such Securities and/or the ability of CGMFL to satisfy its obligations under any such Securities. In certain circumstances, while Securityholders may have a claim for compensation under the BRR Act 2015, they may not recover compensation promptly or equal to losses incurred.

Anti-tax avoidance directives

Directive 2016/1164/EU, the so-called anti-tax avoidance directive ("**ATAD**"), was adopted on 12 July 2016 to implement in the EU member states' domestic legal frameworks common measures to tackle tax

avoidance practices. ATAD lays down (i) controlled foreign company rules, (ii) anti-hybrid mismatches within the EU context rules, (iii) general interest limitation rules, (iv) a general anti-abuse rule, and (v) exit taxation rules. Following the adoption of ATAD, the EU member states decided to go further as regards hybrid-mismatches with third countries, and adopted the Directive 2017/952/EU ("**ATAD 2**") amending the ATAD provisions with respect to anti-hybrid mismatches, on 29 May 2017. ATAD must be implemented by the EU member states as of 1 January 2019, and ATAD 2 as of 1 January 2020. Luxembourg adopted (i) the Law of 21 December 2018 implementing ATAD with effect as of 1 January 2019 and (ii) the Law of 20 December 2019 implementing ATAD 2 with effect as of 1 January 2020 (except for the reverse hybrid mismatch rules, which apply as of 1 January 2022). These rules could increase the taxable base of the Securities issued by the relevant Issuer and/or reduce amounts available for distribution to Securityholders.

The military action by Russia in Ukraine, and related sanctions, export controls and similar actions or laws could adversely affect the Groups' business activities and customers

Following the military action by Russia in Ukraine, the U.S. has imposed, and is likely to impose material additional, financial and economic sanctions and export controls against certain Russian organisations and/or individuals, with similar actions implemented and/or planned by the European Union, the UK and other jurisdictions. The Group's ability to engage in activity with certain consumer and institutional businesses in Russia and Ukraine or involving certain Russian or Ukrainian businesses and customers is dependent in part upon whether such engagement is restricted under any current or expected U.S., European Union, UK or other countries' sanctions and laws, or is otherwise discontinued in light of these developments. Sanctions and export controls, as well as any actions by Russia, could adversely affect the Group's business activities and customers in and from Russia and Ukraine. Any negative impact of Russia's actions in Ukraine, and related sanctions, export controls and similar actions or laws on the Group, including the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor, could adversely affect the ability of the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor to fulfil its obligations under the Securities, and the value of and return on the Securities may also be adversely affected.

Risks relating to Securities generally

An investment in Securities involves risks (as further described in the paragraphs below) and should only be made after assessing the direction, timing and magnitude of potential future market changes (e.g. in the value of the security indices, inflation indices, commodities, shares, depositary receipts, exchange traded funds, mutual funds, currencies, dividend futures contracts, interest rates or other items which comprise or relate to the Underlying(s)), as well as the terms and conditions of the Securities. More than one risk factor may have simultaneous effects with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect, which may not be predictable.

Potential loss of some or all of the investment

Investors should be prepared to sustain a total or partial loss of the purchase price of their Securities.

Other than any Securities having a scheduled minimum redemption value, Securities purchased may be worthless on redemption. In addition, the Securities will only redeem at an amount equivalent to at least the issue price if the applicable Final Terms provide that the Redemption Amount at maturity is an amount equivalent to at least such amount. If the Securities provide that the Redemption Amount may be less than the issue price, such Securities may be redeemed at an amount less than such price. If the Securities are redeemed at less than the issue price or the Securities are cancelled or repaid early in accordance with their terms, the amount received by the Securityholder may be less than its initial investment.

Furthermore, the Securities may be traded in the secondary market or redeemed early, and if so, the price for which a Security may be sold or redeemed early may be less than the principal amount of such Security and/or the initial investment by the investor in such Securities.

For Securities which are linked to Underlying(s), in order to recover and realise a return upon his investment, a purchaser of a Security must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Underlying(s). Assuming all other factors are held constant, the more a Security is "out-of-the-money" and the shorter its remaining term to maturity, the greater the risk that purchasers of such Securities will lose all or part of their investment. The only means through which a Securityholder can realise value from a Security prior to the maturity date in relation to such Security is to sell it at its then market price in an available secondary market (if any). Fluctuations in the value or the yield (if applicable) or the relevant rates of exchange (if applicable) of the relevant Underlying(s) will affect the value of the relevant Securities. Purchasers of Securities risk losing their entire investment if the value of the relevant Underlying(s) does not move in the anticipated direction.

Further, Securityholders may receive no interest during the term of the Securities.

Securities are unsecured obligations and subject to the credit risk of the relevant Issuer, the CGMHI Guarantor and/or the CGMFL Guarantor

All Securities will be unsecured and unsubordinated obligations of the relevant Issuer and all Securities issued by it will rank equally among themselves and with all other unsecured and unsubordinated obligations of the relevant Issuer. The obligations of the CGMHI Guarantor under the CGMHI Deed of Guarantee will be unsecured and unsubordinated and will rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of the CGMHI Guarantor. The obligations of the CGMFL Guarantor under the CGMFL Deeds of Guarantee will be unsecured and unsubordinated and will rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of the CGMFL Guarantor. See General Condition 2 (*Status*). The relevant Issuer's obligations under the Securities issued by it, the CGMHI Guarantor's obligations under the CGMHI Deed of Guarantee and the CGMFL Guarantor's obligations under the CGMFL Deeds of Guarantee represent general contractual obligations of each respective entity and of no other person. Only Securities issued by CGMHI will be guaranteed by the CGMHI Guarantor. Only Securities issued by CGMFL will be guaranteed by the CGMFL Guarantor.

Accordingly, all payments under the Securities are subject to the credit risk of the relevant Issuer and, where the Issuer is CGMHI, of the CGMHI Guarantor or, where the Issuer is CGMFL, of the CGMFL Guarantor. Securityholders will not have recourse to any secured assets of the relevant Issuer and, where the Issuer is CGMHI, of the CGMHI Guarantor or, where the Issuer is CGMFL, of the CGMFL Guarantor in the event that the relevant Issuer or the relevant Guarantor is unable to meet its obligations under the Securities, including e.g. in the event of an insolvency, and therefore risk losing some or all of their investment.

A sale of Securities prior to their scheduled redemption may result in a loss to the investor

The value of Securities prior to their scheduled redemption varies as the price or level of the Underlying(s) varies, as well as due to a number of other interrelated factors, including (i) the trading price of the relevant Securities, (ii) the value and volatility of the Underlying(s), (iii) the remaining tenor, (iv) in the case of Cash Settled Securities, the probable range of any Redemption Amounts, (v) any change(s) in interim interest rates and dividend yields if applicable, (vi) any change(s) in currency exchange rates, (vii) the depth of the market or liquidity of the Underlying(s) and (viii) any related transaction costs. Depending on the above factors (e.g. if movements in the price or level of the Underlying(s) reduce the probable range of any Redemption Amounts), a sale of Securities prior to their scheduled redemption may be at a substantial discount from the original purchase price and the investor may lose some or all of its investment.

Securities which are issued at a substantial discount or premium

The market value of any Securities issued at a substantial discount or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing Securities. Generally, the longer the remaining term of such Securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities. Such price volatility could lead to a greater loss than otherwise on any sale of the Security prior to its scheduled redemption or an inability to sell the Security in the secondary markets.

Impact of fees, commissions and/or inducements on the Issue Price and/or offer price

The Issue Price and/or offer price of Securities may include fees and/or other commissions and inducements (e.g. placement fees, distribution fees, structuring fees). Any such fees and/or other commissions and inducements will not be taken into account for the purposes of determining the price of such Securities in the secondary market and will result in a difference between the Issue Price and/or offer price of the Securities and the bid/offer price quoted by any intermediary in the secondary market. Any such difference will result in a decrease in the value of an issue of Securities and consequently a loss to the investor, particularly in relation to any such Securities sold immediately following the issue date or offer period relating to such Securities.

The secondary market

Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold their Securities until maturity. If a market does develop, it may not be very liquid and may be sensitive to changes in financial markets and investors may not be able to find a timely and/or suitable purchaser. If it is possible to sell Securities, they would be sold for the prevailing bid price in the market and may be subject to a transaction fee. The prevailing bid price may be affected by several factors including the performance of any relevant Underlying, prevailing interest rates at the time of sale, the time remaining to the stated maturity date, the creditworthiness of the relevant Issuer and/or, where the Issuer is CGMHI, the CGMHI Guarantor or, where the Issuer is CGMFL, the CGMFL Guarantor and factors affecting the capital markets generally. The introduction of additional or competing products in the market may also have a negative effect on the price of any Securities. Consequently, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market or at prices higher than the relevant investor's initial investment and in fact any such price may be substantially less than their original purchase price. Therefore, in establishing their investment strategy, investors should ensure that the term of the Securities is in line with their future liquidity requirements. This is particularly the case should the relevant Issuer be in financial distress, which may result in any sale of the Securities having to be at a substantial discount to their principal amount or issue or offer price, or for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Securities. The liquidity of Securities is also influenced by the type of investor to whom such Securities are sold. To the extent that an issue of Securities is or becomes illiquid, investors may have to hold the relevant Securities until maturity before they are able to realise value.

The relevant Issuer may, but is not obliged to, list an issue of Securities on a stock exchange or regulated market. If Securities are not listed or traded on any stock exchange or regulated market, pricing information for the relevant Securities may be more difficult to obtain and the liquidity of such Securities may be adversely affected.

If Securities are not listed or traded on a stock exchange or regulated market, they may be traded on trading systems governed by the laws and regulations in force from time to time (e.g. multilateral trading

systems or "MTF") or in other trading systems (e.g. bilateral systems, or equivalent trading systems). In the event that trading in such Securities takes place outside any such stock exchange, regulated market or trading systems, the manner in which the price of such Securities is determined may be less transparent and the liquidity of such Securities may be adversely affected. Investors should note that neither the relevant Issuer nor the Guarantor nor any Dealer grants any warranty to Securityholders as to the methodologies used to determine the price of Securities which are traded outside a trading system. However, where the relevant Issuer or any of its affiliates determines the price of such Securities, it will take into account the market parameters applicable at such time in accordance with applicable provisions of law. Even if Securities are listed and/or admitted to trading, this will not necessarily result in greater liquidity.

Each of the relevant Issuer, (if applicable) the Guarantor and any Dealer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. If such Securities are surrendered for cancellation, then the number of Securities outstanding will decrease, which will reduce liquidity for the outstanding Securities. Any such activities may have an adverse effect on the price of the relevant Securities in the secondary market and/or the existence of a secondary market.

Any of the relevant Issuer, (if applicable) the Guarantor or any Dealer or affiliate of any such entity, as, where applicable, part of its activities as a broker and dealer in fixed income and equity securities and related products or otherwise, may make a secondary market in relation to any Securities and may provide an indicative bid price on a daily basis. Any indicative prices so provided shall be determined by the relevant party in its sole discretion taking into account prevailing market conditions and shall not be a representation by such party that any Securities can be purchased or sold at such prices (or at all) and any of the parties specified above may suspend or terminate making a market and providing indicative prices without notice, at any time and for any reason. In these circumstances, there may be no market for the relevant Securities and investors should not assume that such a market will exist. Accordingly, an investor must be prepared to hold the Securities until the maturity date and may not be able to sell them prior to such date or, if it can, it may only be able to do so for a loss.

Risks related to implementation of regulatory reform

Implementation of U.S. federal financial reform legislation may affect the value of Underlying(s) and the ability to hedge the relevant Issuer's obligations under the Securities. This may in turn affect the market value, trading price and viability of, and return on, the Securities. This is because the amounts received and/or value of assets deliverable under the Securities will depend on (among other things) the performance of any such Underlying(s) and the Securities may be subject to early redemption as a result of events related to hedging arrangements. In addition, amounts and/or assets due under the Securities may be reduced to reflect costs related to hedging arrangements.

For example, the Dodd-Frank Act would, upon full implementation, impose limits on the maximum position that could be held by a single dealer in certain of the Underlying(s) and may subject certain transactions to new forms of regulation that could create barriers and increase costs in relation to some types of hedging activity by the relevant Issuer and/or any Hedging Party or any of their respective affiliates. Other provisions of the Dodd-Frank Act could require certain Underlying(s) or hedging transactions to be cleared, traded on a regulated exchange and reported to regulators, central data repositories and, in some cases, the public, which may also affect their value, viability and cost. The Dodd-Frank Act also expands entity registration requirements and imposes business conduct requirements on persons active in the swaps market (which may include new capital and margin requirements), which may affect the value of the relevant Underlying(s) or value and/or cost of hedging transactions. Such regulation may consequently affect the market value, trading price and viability of, and return on, the Securities.

Changes in exchange rates and exchange controls could result in a loss of the value of the Securities and payments in respect thereof in relation to the currency of the jurisdiction of an investor

An investment in Securities denominated in a Specified Currency and/or payable in a currency other than the currency of the jurisdiction of a particular investor (the "**investor's currency**") entails significant risks that are not associated with a similar investment in a security denominated in the investor's currency. These risks include, but are not limited to:

- the possibility of significant market changes in rates of exchange between the investor's currency and the Specified Currency and/or payment currency;
- the possibility of significant changes in rates of exchange between the investor's currency and the Specified Currency and/or payment currency resulting from the official redenomination or revaluation of the Specified Currency and/or payment currency; and
- the possibility of the imposition or modification of foreign exchange controls by either the investor's jurisdiction or foreign governments.

These risks generally depend on factors over which neither the relevant Issuer nor (if applicable) the Guarantor has any control and which cannot be readily foreseen, such as economic and political events and the supply of, and demand for, the relevant currencies.

In recent years, rates of exchange between some foreign currencies in which the Securities may be denominated and/or payable have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Security. Depreciation of the Specified Currency and/or payment currency of a Security against the investor's currency would result in a decrease in the effective yield of such Security below its coupon rate (if applicable) and could result in a substantial loss to the investor in terms of the investor's currency.

Governments and monetary authorities have imposed from time to time, and may in the future impose, exchange controls that could affect applicable exchange rates as well as the availability of a Specified Currency and/or payment currency at the time of payment of any amounts on any Security. There can be no assurance that exchange controls will not restrict or prohibit payments under the Securities which are denominated in any such Specified Currency and/or payment currency.

Even if there are no actual exchange controls, it is possible that a Specified Currency and/or payment currency would not be available to the relevant Issuer and/or, where the Issuer is CGMHI, the CGMHI Guarantor, and/or, where the Issuer is CGMFL, the CGMFL Guarantor when payments on a Security are due because of circumstances beyond the control of the relevant Issuer and/or the CGMHI Guarantor and/or the CGMFL Guarantor. Any such restriction, prohibition or unavailability of the relevant currency may negatively affect the value of and return on the Securities, and could result in a substantial loss to the investor.

The above risks may be increased if any Specified Currency and/or payment currency and/or the investor's currency is the currency of an emerging market jurisdiction.

The unavailability of currencies could result in a loss of value of the Securities and payments thereunder

The currency in which payments on a Security are required to be made may be redenominated, for example, because such currency is:

- unavailable due to the imposition of exchange controls or other circumstances beyond the relevant Issuer's and/or, where the Issuer is CGMHI, the CGMHI Guarantor's and/or, where the Issuer is CGMFL, the CGMFL Guarantor's control;
- no longer used by the government of the country issuing the currency; or
- no longer used for the settlement of transactions by public institutions of the international banking community.

Where the currency in which payments in respect of a Security are required to be made is officially redenominated, other than as a result of Economic and Monetary Union, such as by an official redenomination of any such currency that is a composite currency, then the payment obligations of the relevant Issuer and/or, where the Issuer is CGMHI, the CGMHI Guarantor and/or, where the Issuer is CGMFL, the CGMFL Guarantor on such Security immediately following the redenomination will be the amount of redenominated currency that represents the amount of the relevant Issuer's and/or, where the Issuer is CGMHI, the CGMHI Guarantor's and/or, where the Issuer is CGMFL, the CGMFL Guarantor's obligations immediately before the redenomination.

The Securities will not provide for any adjustment to any amount payable as a result of:

- any change in the value of the Specified Currency and/or payment currency of those Securities relative to any other currency due solely to fluctuations in exchange rates; or
- any redenomination of any component currency of any composite currency, unless that composite currency is itself officially redenominated.

Accordingly, a currency redenomination may result in a material adverse loss of the value of and return on the Securities.

Certain considerations relating to public offers of Securities in the EEA and the UK

As described in the applicable Final Terms, Securities may be distributed by means of a public offer made in the specified member state(s) of the EEA or the UK during an offer period specified in the applicable Final Terms. During such offer period, the relevant Issuer and/or any other person specified in the applicable Final Terms may reserve the right to cancel such offer and/or to scale back applications for such offer in the event of over-subscription or such other circumstances as are specified in the applicable Final Terms. In such circumstances, an applicant investor may not be issued any Securities or may be issued a number of Securities which is less than the amount for which such applicant investor applied. Any payments made by an applicant investor for Securities that are not issued to such applicant investor for any such reason will be refunded. However, there will be a time lag in making any reimbursement, no interest or compensation will be payable in respect of any such amounts and the applicant investor may be subject to reinvestment risk.

In addition, the relevant Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur, even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached and, in such circumstances, the early closing of the offer may have an impact on the aggregate number of Securities issued. This may in turn have an adverse effect on the liquidity of the relevant Securities, with the result that an Investor may not be able to sell the Securities prior to the maturity date or, if it can, that it may only be able to do so for a loss.

Further, investors should note that, in certain circumstances, Securities may not be issued on the originally designated issue date, for example because either the Issuer and/or any other person specified in the applicable Final Terms has reserved the right to postpone such issue date or, following the

publication of a supplement to this Base Prospectus the Issuer has decided to postpone such issue date to allow investors who had made applications to subscribe for Securities before the date of publication of such Supplement to exercise their right to withdraw their acceptances. In the event that the issue date is so delayed, no interest shall accrue (if applicable) until the issue date of the Securities and no compensation shall be payable.

Determinations and potential conflicts of interest

The terms of the Securities confer on the relevant Issuer, the Calculation Agent and certain other persons some discretion in making judgments, determinations and calculations in relation to the Securities including, inter alia, Underlying(s) and the occurrence of various events. The relevant Issuer, the Calculation Agent or such other persons will act in good faith and in its reasonable discretion (§§ 315, 317 German Civil Code), but there can be no assurance that the exercise of any such discretion will not affect the value of the Securities or result in the occurrence of an early repayment at an amount less than an investor's initial investment.

Where the Calculation Agent is an affiliate of the relevant Issuer, potential conflicts of interest may exist between the Calculation Agent and Securityholders, including with respect to such judgments, determinations and calculations that the Calculation Agent may make pursuant to the Securities that may influence the amount receivable or specified assets deliverable in respect of the Securities.

Any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor and/or their affiliates and/or any third parties or entities which are not subject to regulation under the laws of the United States, the EEA or the United Kingdom may be the sponsor of an Underlying and may publish values or prices or other projections of creditworthiness in respect of an Underlying. Any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor and/or any of their affiliates, may also from time to time engage in transactions involving Underlying(s) for their proprietary accounts or for other accounts under their management, subject to requirements of all applicable laws and regulations. Any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor and/or their affiliates may also issue other derivative instruments in respect of any Underlying(s). Any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor and/or their affiliates may also act as underwriter or counterparty in connection with future offerings of shares or other securities related to an issue of Securities or may act as financial adviser to certain companies or companies whose securities are Underlying(s) in respect of one or more issues of Securities or in a commercial banking capacity for such companies. These activities may have negative effect on the value of the relevant Underlying(s) and consequently upon the value of the Securities.

Any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor any Dealer and/or any of their affiliates may at the date of this Base Prospectus or at any time hereafter be in possession of information in relation to an Underlying that is or may be material and may or may not be publicly available to Securityholders. There is no obligation on any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor or any Dealer to disclose to any potential investors in Securities or to Securityholders any such information.

Any of CGMHI, the CGMHI Guarantor, CGMFL, the CGMFL Guarantor any Dealer and/or any of their affiliates may have existing or future business relationships with the issuer of, or other entity associated with, any Underlying(s) (including, but not limited to, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Securityholder, which could have a material adverse impact on the value of and return on the Securities.

Where Securities are offered to the public, as the relevant Dealer(s) and any distributors act pursuant to a mandate granted by the relevant Issuer and they receive fees on the basis of the services performed and the outcome of the placement of such Securities, potential conflicts of interest could arise.

Substitution of the CGMFL and/or the CGMFL Guarantor

Investors should note that, in relation to any Securities where the Issuer is CGMFL, either of the Issuer and/or the CGMFL Guarantor may, without the consent of the holders but subject to certain conditions, substitute for itself in respect of such Securities or in respect of the CGMFL Deeds of Guarantee any affiliate which is, on the date of such substitution, in the opinion of the Issuer or the CGMFL Guarantor, as the case may be, of at least equivalent standing and creditworthiness to it. Any such substitution could have a material adverse impact on the rights of Securityholders, the value of and return on the Securities and/or performance under the CGMFL Deeds of Guarantee.

Realisation Disruption

If a Realisation Disruption Event occurs (being, in summary, either (i) an event which imposes restrictions or taxes, charges or deductions in respect of the Securities and/or on hedging arrangements in respect of the Securities which would materially restrict, or materially increase the cost of, the relevant Issuer's obligations under the Securities or materially restrict, or materially increase the cost of, any Hedging Party's obligations under any such hedging arrangements or (ii) the occurrence or existence of any event which either materially restricts the exchange, delivery or transfer of the currency of payment of the Securities or of any hedging arrangements in respect of the Securities or restricts the determination of any exchange rate in relation to any such currency), then either (a) the terms of the Securities (including any payment or delivery obligations) may be adjusted in order to reflect the economic effect of the particular Realisation Disruption Event or (b) the relevant Issuer may redeem the Securities.

Any such adjustments by the Calculation Agent may include: (i) payments under the Securities being made in a different currency to the previously specified payment currency of the Securities; (ii) deduction of applicable taxes, charges or deductions from payments due in respect of the Securities resulting in reduced amounts paid in respect of the Securities or delivery of any Entitlement being subject to payment by the relevant Securityholder of an amount equal to a pro rata portion of any such tax, charge or deduction; (iii) delay of payments or deliveries in respect of the Securities until the relevant restrictions are lifted; (iv) determination of relevant exchange rates by the Calculation Agent taking into consideration all available information that it deems relevant, which may result in a different rate to that which would have applied had the Realisation Disruption Event not occurred and (v) (where legally permissible) in lieu of paying any cash amounts in respect of the Securities, procuring the physical delivery of any Underlying(s) (or vice versa). All the above could produce a materially different redemption to that originally anticipated in respect of the Securities and could have a material adverse impact on the value of and return on the Securities.

If the Securities are redeemed early pursuant to (b) of the first paragraph above, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor would therefore sustain a loss.

See further Valuation and Settlement Condition 2(h) (*Realisation Disruption*).

Illegality in relation to Securities

If "Illegality" is specified as being applicable in the applicable Final Terms and the relevant Issuer determines that the performance of its obligations under an issue of Securities or, where the Issuer is CGMHI, the CGMHI Guarantor determines that the performance of its obligations under the CGMHI Deed of Guarantee in respect of such Securities or, where the Issuer is CGMFL, the CGMFL Guarantor determines that the performance of its obligations under the CGMFL Deeds of Guarantee in respect of such Securities has become illegal in whole or in part for any reason, the relevant Issuer may redeem the Securities early and, if and to the extent permitted by applicable law, will pay to each Securityholder (i) in respect of Structured Securities in respect of each Calculation Amount held by such Securityholder,

an amount calculated in respect of such Calculation Amount, notwithstanding such illegality, in accordance with the method specified in the applicable Final Terms and (ii) in respect of Securities other than Structured Securities, an amount calculated pursuant to the relevant Condition or as specified in the applicable Final Terms. The amount repaid to investors could be substantially less than the investor's initial investment and the investor would therefore sustain a loss.

Section 871(m) Event

In circumstances that constitute a "Section 871(m) Event" (being the occurrence at any time of circumstances in which the relevant Issuer, and/or the relevant Guarantor and/or any Hedging Party is (or, in the determination of the Calculation Agent, there is a reasonable likelihood that, within the next 30 Business Days, the relevant Issuer and/or the relevant Guarantor and/or any Hedging Party will become) subject to any withholding or reporting obligations pursuant to Section 871(m) (as described in *Section F.4 – Taxation – United States Federal Income Tax Considerations – Other U.S. Federal Tax Considerations for Non-U.S. Holders – Section 871(m) Withholding on Dividend Equivalents*) with respect to the relevant Securities and/or the relevant Deed(s) of Guarantee and/or any underlying Hedging Positions), if specified as applicable in the applicable Final Terms, an Early Redemption Event will occur in which case the relevant Securities may be redeemed as more fully set out in the terms and conditions of such Securities.

If the Securities are so redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, or such other amount as is specified in the Valuation and Settlement Schedule and in the applicable Final Terms. The amount repaid to investors could be substantially less than the Securityholder's initial investment and the Securityholder could therefore sustain a loss.

Green Bonds, Social Bonds and Social Finance Bonds

For information relating to Green Bonds, Social Bonds and Social Finance Bonds (each as defined in the "Investment Considerations" section) and any relevant frameworks please refer to the "Investment Considerations" section of this Base Prospectus.

Whilst it is the intention of the Group to apply an amount equivalent to the net proceeds of any Green Bonds, Social Bonds or Social Finance Bonds in, or substantially in, the manner described in this Base Prospectus and/or the applicable Issue Terms, any relevant investment may not provide the results or outcome originally expected or anticipated by the relevant Issuer or meet the goals of the relevant frameworks and/or it may not be possible for the relevant Issuer or any of its affiliates to invest an amount equal to such net proceeds in accordance with any particular timing schedule relevant to you or the Securities. In addition, a relevant framework may be amended by the Group from time to time in a manner which may affect the value of relevant Green Bonds, Social Bonds or Social Finance Bonds, as applicable.

There is currently no clear definition (legal, regulatory or otherwise) of, or market consensus as to what constitutes, a "green", "social", "inclusive", "sustainable" or any equivalently-labelled project or asset or as to what precise attributes are required for a particular project or asset to be defined as "green", "social", "inclusive", "sustainable" or any such other equivalent label. A clear definition or consensus may not develop or if market consensus is developed, such consensus may be different from the relevant framework or may significantly change over time which may affect the value of any Green Bonds, Social Bonds or Social Finance Bonds. Consequently, investments in businesses or projects described in the relevant framework agreements and any related opinions and/or reports may not meet your expectations, taxonomies or standards or other investment criteria or guidelines regarding such "green", "social", "inclusive", "sustainable" or other equivalently-labelled performance objectives or any binding or non-

binding legal or other standards regarding any direct or indirect environmental impact (including any present or future applicable law or regulations or by-laws or other governing rules, policies or investment mandates applicable to you) and there can be no assurance that adverse social, environmental and/or other impacts will not occur from such businesses or projects. You should have regard to any descriptions of the relevant projects and eligibility criteria in any applicable framework agreement and the applicable Issue Terms and determine for yourself the relevance of such information and such opinions and/or reports and whether all your applicable standards will be met.

Any opinion, certification or report of any third party (whether or not solicited by the Group) that may be made available in connection with Green Bonds, Social Bonds or Social Finance Bonds (including with respect to whether any businesses or projects fulfil any green, social, inclusive, sustainability and/or other criteria) may be withdrawn, subject to amendment or may not be maintained. In addition, the provider of any such opinion, certification or report may not be subject to any specific oversight or regulatory regime. Green Bonds, Social Bonds or Social Finance Bonds may also be listed or admitted to trading on a dedicated "green", "environmental", "social", "inclusive", "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), but you should be aware that the criteria for such listings or admission to trading may vary and may not meet your expectations and there is a risk that any such listing or admission to trading may not be maintained by the relevant Issuer or may be withdrawn. This may adversely affect the market value of any Green Bonds, Social Bonds or Social Finance Bonds with the effect that you may be unable to realise all or part of your investment.

Failure by the relevant Issuer or any other relevant entity to allocate (or cause allocation of) an amount equal to the net proceeds as described in the relevant framework or provide reports, or the failure of any external assurance provider to opine on any relevant framework or on any report's conformity with the Group's sustainability strategy or the relevant framework or the withdrawal of any report or any certification that the Group is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying, as the case may be, will not constitute an event of default under or trigger any early redemption rights (whether by the relevant Issuer or any Securityholder). In addition and for the avoidance of doubt, the proceeds of any Green Bonds, Social Bonds or Social Finance Bonds will not be segregated by the relevant Issuer or any other entity in the Group from its capital and other assets and there will be no direct or contractual link between any Green Bonds, Social Bonds or Social Finance Bonds and any Eligible Green Assets, the Affordable Housing Bond Asset Portfolio, or Social Finance Assets, respectively.

Any of the above factors (and any events that negatively affect the value of any other Securities of CGMHI that are intended to finance "green", "social", "inclusive", "sustainable" or equivalently-labelled projects or assets) could have a material adverse effect on the value of such Securities and investors may be unable to realise all or part of their investment.

Risks relating to the United States Tax Treatment of the Securities

Possible U.S. Federal Withholding Tax under Section 871(m)

Section 871(m) of the United States Internal Revenue Code of 1986, as amended (the "Code"), imposes a 30 per cent. (or lower treaty rate) withholding tax on certain "dividend equivalents" paid or deemed paid to Securityholders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities under certain circumstances. United States Treasury regulations promulgated under Section 871(m) may require withholding on Securityholders in respect of dividend equivalents deemed paid under certain Securities, regardless of whether the Securities are issued by the U.S. Issuer or the Non-U.S. Issuer (as defined under "*Section F.4—Taxation*" in this Base Prospectus"). Under these

regulations, this withholding regime generally applies to Securities that substantially replicate the economic performance of one or more underlying U.S. equities, as determined based on one of two tests set forth in the regulations. However, based on an Internal Revenue Service (the "IRS") notice, Securities issued prior to 2023 will generally be subject to withholding tax only if they have a "delta" of one with respect to the relevant underlying U.S. equity. The regulations provide certain other exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the regulations as well as instruments linked to securities that track such indices. The relevant Issuer will not be required to pay any additional amounts in respect of amounts withheld under Section 871(m), and the Securityholder may therefore receive a substantially reduced return on the Securities as compared to the return the Securityholder would receive in the absence of such withholding.

Prospective purchasers of the Securities should consult their tax advisers regarding the potential application of Section 871(m) to a particular Security.

If the relevant Issuer determines that amounts paid with respect to the Securities or any underlying hedging arrangements of the relevant Issuer in respect of the Securities will be subject to any withholding or reporting obligations pursuant to Section 871(m), the relevant Issuer may redeem such Securities and, if and to the extent permitted by applicable law, may pay to each Securityholder in respect of each Security an amount equal to the fair market value of such Security, and may also deduct the cost to the relevant Issuer and/or its affiliates of unwinding any underlying related hedging arrangements from such amount. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

The United States Tax Treatment of Certain Securities is Unclear

For U.S. federal tax purposes, the proper treatment and characterisation of Securities that are not treated as debt instruments (generally, Securities that do not provide for the return at maturity of a holder's investment) are unclear. As a result, the timing and character of income on such a Security are uncertain, and for a non-U.S. investor there is a risk that payments on such a Security may be subject to withholding tax. If withholding tax applies to a payment on such a Security, the relevant Issuer will not be required to pay additional amounts in respect of amounts withheld, and investors may therefore receive a substantially reduced return on the Securities as compared to the return investors would receive in the absence of such withholding.

In addition, even if the Issuer's treatment of the Securities is respected, certain modifications to the terms of the Securities could be treated as "significant modifications" of the Securities for U.S. federal income tax purposes, in which case the Securities would generally be treated, in whole or part, as retired and reissued. Significant modifications could include a designation by the Issuer of a substitute for itself and certain modifications to the Underlying with respect to a Security. The event of a significant modification could affect the Security's U.S. federal tax treatment, potentially resulting in adverse withholding tax consequences to Non-U.S. Holders. Prospective purchasers should consult their tax advisers regarding the risk of such an event.

The U.S. Treasury Department and the IRS have requested comments on various issues regarding the U.S. federal income tax treatment of "prepaid forward contracts" and similar financial instruments and have indicated that such transactions may be the subject of future regulations or other guidance. In addition, members of the Congress have proposed legislative changes to the tax treatment of derivative contracts. Any legislation, Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the Securities, possibly with retroactive effect.

Potential U.S. Federal Withholding Taxes on Interest Payments

The treatment of certain Securities for U.S. federal income tax purposes is unclear. In particular, the U.S. federal withholding tax treatment of interest payments by CGMHI on Securities that are not treated as debt instruments is uncertain.

In the case of Securities issued by CGMHI that are treated as prepaid forward contracts or options with associated periodic payments, CGMHI intends to withhold on interest payments on such Securities, generally at a rate of 30%, except to the extent that an investor is eligible for the benefits of an income tax treaty that would reduce or eliminate such withholding.

In the case of Securities issued by CGMHI that are treated as Put Options and Deposits, CGMHI does not intend to withhold on interest payments on such Securities, provided that the second paragraph under *Section F.4—Taxation – United States Federal Income Tax Considerations – Securities Issued by the U.S. Issuer – Securities Treated as Debt* are met. However, because of the uncertain treatment of such payments, it is possible that an applicable withholding agent could treat the payments as subject to withholding tax (generally at a 30% rate). Moreover, CGMHI could determine in the future that withholding is required.

Prospective Securityholders should review the discussion under *Section F.4—Taxation – United States Federal Income Tax Considerations – Securities Issued by the U.S. Issuer* and consult their tax advisors regarding these potential withholding tax considerations. Neither CGMHI nor the CGMHI Guarantor will be required to pay any additional amounts in respect of these withholding taxes.

Reportable Transactions

In 2015, the U.S. Treasury Department and the IRS released notices designating certain "basket options", "basket contracts" and substantially similar transactions as "reportable transactions". The notices apply to specified transactions in which a taxpayer or its "designee" has, and exercises, discretion to change the assets or an algorithm underlying the transaction. While an exercise of the type of discretion that would give rise to such reporting requirements in respect of the Securities is not expected, if the relevant Issuer, an Index Sponsor or calculation agent or other person were to exercise discretion under the terms of a Security or an index underlying a Security and were treated as a Securityholder's "designee" for these purposes, unless an exception applied, certain holders of the relevant Securities would be required to report certain information to the IRS, as set forth in the applicable Treasury regulations, or be subject to penalties. The relevant Issuer might also be required to report information regarding the transaction to the IRS.

Prospective purchasers of the Securities are urged to consult their tax advisers regarding the U.S. federal tax consequences of an investment in the Securities.

Risks relating to Securities linked to Underlying(s)

General risks relating to Securities linked to Underlying(s)

An investment in Securities linked to Underlying(s) has significant risks that are not associated with a similar investment in a conventional security (e.g. a debt instrument that has a pre-determined specified principal amount, is denominated in the investor's currency and bears interest at either a fixed or a floating rate based on nationally published interest rate references), as amounts due or assets deliverable in respect of such Securities are linked to the performance of the relevant Underlying(s).

The risks associated with a particular Security linked to Underlying(s) will depend on factors over which none of the Issuers, the CGMHI Guarantor and the CGMFL Guarantor has any control and which cannot readily be foreseen, and the return on Securities linked to Underlying(s) may attract certain of the same risks as an actual investment in the relevant Underlying(s). These risks include economic and political events and the supply of, and demand for, any relevant Underlying(s).

Each of these risks may have an impact on the level, price, rate or other applicable value of an Underlying, which may go down as well as up throughout the term of the Securities, and such fluctuations may affect the value of and return on the Securities.

Furthermore, in recent years, prices for various Underlying(s) have been highly volatile. Such volatility may be expected in the future. Fluctuations in the rates, levels or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Securities linked to Underlying(s).

In addition, the value of any relevant Underlying(s) may be determined or published by any Issuer, the CGMHI Guarantor and/or the CGMFL Guarantor or an affiliate of any such entity or determined or published by third parties or entities which are not subject to regulation under the laws of the United States, the EEA or the United Kingdom.

The risk of loss as a result of linking principal, interest and/or termination payments to Underlying(s) can be substantial and the payment of principal, interest and/or termination amounts may be contingent on the occurrence of certain events in respect of Underlying(s) which may not occur.

No rights of ownership in Underlying(s)

The Securities do not create an actual interest in, or ownership of, the relevant Underlying(s). Except in certain circumstances where the Securities are Physical Delivery Securities, a Security will not represent a claim against any Underlying and, in the event that the amount paid on redemption of the Securities is less than the nominal amount of the Securities, the Securityholder will not have recourse under any relevant Security to any security indices, commodities, shares, depositary receipts, exchange traded funds, mutual funds, currencies, dividend futures contracts, interest rates or other items which may comprise the relevant Underlying(s) in respect of such Securities. The exposure to the relevant Underlying(s) is notional and an investment in the Securities is not an investment in the relevant Underlying(s). Although the performance of the relevant Underlying(s) will have an effect on the Securities, the relevant Underlying(s) and the Securities are separate obligations of different legal entities. Investors will have no legal or beneficial interest in the relevant Underlying(s). Accordingly, an investor may receive a lower return on the Securities than it would have received had it invested directly in the Underlying(s) or through another product.

Risks associated with Securities relating to Security Indices

The level of a security index is generally based on the value of the component securities of that index although investors should note that the level of a security index at any time may not include the reinvestment of the yield on the component securities. global economic, financial and political developments, among other things, may have a material effect on the value of the component securities and/or the performance of a security index, and this may in turn affect the value of and return on the Securities.

The risks of a particular Security linked to a security index will depend on the terms of that Security. Such risks may include the possibility of significant changes in:

- the prices of the component securities and the weighting of each component security within the relevant index or indices;
- other objective prices; and
- economic or other measures making up the relevant security index or indices.

Market volatility reflects the degree of instability and expected instability of the performance of a security index and the component securities. The level of market volatility is largely determined by the prices for financial instruments supposed to protect investors against such market volatility. The prices of these

instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, economic factors and speculation. In recent years, currency exchange rates and prices for component securities have been highly volatile. Such volatility may be expected in the future. Fluctuations in the rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Security relating to security indices.

The above factors may have an effect on the performance of a security index, and this may in turn affect the value of and return on the Securities.

Investors should note that any dividends, other distributions assets and/or amounts paid to holders of the component securities will not be paid to the relevant Issuer, the CGMHI Guarantor (where the Issuer is CGMHI), the CGMFL Guarantor (where the Issuer is CGMFL) or to the Securityholders. The return on Securities will thus not reflect any such assets and/or amounts which would otherwise be paid to investors that have made a direct investment in any such component securities. Consequently, the return on Securities may be less than the return from a direct investment in any such component securities.

In considering whether to purchase Securities relating to security indices, each investor should be aware that the calculation of amounts payable or, as applicable, assets due on Securities relating to security indices may involve reference to:

- an index determined by an affiliate of the relevant Issuer, the CGMHI Guarantor (if applicable) and/or the CGMFL Guarantor (if applicable); or
- prices that are published solely by third parties or entities which are not regulated by the laws of the United States, the EEA, the United Kingdom or the jurisdiction of the particular investor.

Accordingly, investors may receive a lower return on Securities linked to a Security Index than they would have received if they had invested in the components of such index directly or in another product.

See Underlying Schedule 1 (*Security Index Conditions*) for the specific terms and conditions in respect of Securities linked to security indices.

The type and rules of the Security Index (or Security Indices) to which the Securities are linked may have an adverse effect on the value of and return on the Securities

Price Return and Total Return Indices

The rules governing the composition and calculation of the relevant Security Index may stipulate that dividends paid on its components are included in the calculation of the index level (a "Total Return" Index) or are not included in the calculation of the index level (a "Price Return" Index).

Where Securities are linked to a "price return" index, holders of the Securities will not participate in dividends paid on the components comprising the Security Index. As a result, holders of Securities linked to such Security Index would lose the benefit of any dividends paid by the components of the Security Index and such Securities may not perform as well as a position where such holder had invested directly in such components or where they invested in a "total return" version of the Security Index, or in another product.

In the case of Securities linked to a "total return" index, net dividends (in the case of a "net total return" index) or gross dividends (in the case of a "gross total return" index) paid on its components are included in the calculation of the index level. In the case of a "net total return" index, dividends paid on its components may not be fully reinvested in the Security Index and accordingly, you may receive a lower return on Securities linked to such Security Index than you would have received if you had invested in the components of such Security Index directly or in another product.

Decrement Indices

If the Security Index has a "decrement" feature, the return on such Security Index will be calculated by reinvesting net dividends or gross dividends (depending on the type and rules of such Security Index) paid by its components and by subtracting on a daily basis a pre-defined amount (a **Synthetic Dividend**). The Synthetic Dividend may be defined as a percentage of the index level or as a fixed number of index points. Investors should note that any of the following factors, where applicable, could adversely affect the value of and return on Securities linked to a "decrement" index:

A Security Index with a "decrement" feature will underperform a "total return" index that is used as a base index to calculate such Security Index since the latter is calculated without the deduction of a Synthetic Dividend. Similarly, where such Security Index tracks the performance of a single component security, the Security Index will underperform a direct investment in such component security as such investment would benefit from dividends paid by the component security without the deduction of a Synthetic Dividend.

A Security Index with a "decrement" feature will underperform the corresponding "price return" index if the amount of dividends paid by the components of such Security Index is less than the amount of the Synthetic Dividend deducted. Where such Security Index tracks the performance of a single component security, the Security Index will underperform a direct investment in such component security as such investment would benefit from dividends paid by the component security without the deduction of a Synthetic Dividend.

Where the Synthetic Dividend is defined as a fixed number of index points (as opposed to a percentage of the index level), the Synthetic Dividend yield (calculated as the ratio of the fixed index point decrement to the relevant decrement index level) will increase in a falling equities market as the Synthetic Dividend is a fixed amount. In such scenario, the fixed deduction will have a greater negative impact on the index level of the relevant Security Index than if the Synthetic Dividend was defined as a percentage of the index level. It is even possible that in a steeply falling market scenario the index level could become negative, since the amount of decrement expressed in index points will not vary with the level of the decrement index.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to Security Indices

As the terms and conditions of Securities relating to security indices include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Securities may have an adverse effect on the value of such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for a security index in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of any security index (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities, or a Hedging Disruption or an Increased Cost of Hedging; (b) such security index (i) not being calculated and announced by or on behalf of the relevant index sponsor but instead being calculated and announced by or on behalf of a successor to the relevant index sponsor or (ii) being replaced by a successor index; or (c) any Additional Disruption Event specified in the applicable Final Terms), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event or the Calculation Agent may replace the security index the subject of the

Adjustment Event with a new security index using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the level of such security index. Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If the Calculation Agent determines that a Security Index Adjustment Event occurs (being, in each case if applicable, in respect of a security index, the relevant index sponsor announcing that it will make a material change to a relevant security index, the index sponsor permanently cancelling the index and no successor index existing or the index sponsor or any other person or entity acting on its behalf failing to calculate and announce the relevant index), then the Calculation Agent may determine whether such Security Index Adjustment Event has a material effect on the relevant Securities and, if so, shall either (A) calculate the relevant level of such security index in accordance with the formula for and method of calculating the relevant security index last in effect prior to the applicable change, cancellation or failure and/or (B) substitute the affected security index with a replacement index using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the level of such security index and determine any adjustment necessary to the terms of the Securities to account for such substitution and/or (C) make such adjustments to the terms of the Securities as it determines necessary or appropriate to account for the effect of such Security Index Adjustment Event. Any such calculation, substitution and/or adjustment may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no calculation or substitution can reasonably so be made, such Security Index Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances in which the Calculation Agent determines that no adjustment or substitution can reasonably be made following an Adjustment Event, (b) no calculation or substitution can reasonably be made following a Security Index Adjustment Event, (c) a Section 871(m) Event or (d) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to the investors may be less than the investor's initial investment and the investor may therefore sustain a loss.

Risks associated with Securities linked to Inflation Indices

The risks of a particular Security relating to inflation indices will depend on the terms of that Security. Many economic and market factors may influence an inflation index and consequently the value of Securities relating to inflation indices, including general economic, financial, political or regulatory conditions and/or events; and/or fluctuations in the prices of various assets, goods, services and energy resources (including in response to supply of, and demand for, any of them); and/or the level of inflation in the economy of the relevant country and expectations of inflation. In particular, the level of an inflation index may be affected by factors unconnected with the financial markets. Any such factor may either offset or magnify one or more of the other factors.

The performance of an inflation index will affect the amounts payable in respect of Securities relating to inflation indices and may result in investors receiving less than their original investment and/or no return on their investment, or in certain circumstances zero.

The rate of interest (if any) payable in respect of inflation index-linked interest Securities will vary for each interest payment due and may be less than that which would be payable on a conventional fixed rate, non-callable debt security of the relevant Issuer of comparable maturity.

See Underlying Schedule 2 (*Inflation Index Conditions*) for the specific terms and conditions in respect of Securities linked to inflation indices.

Adjustment Events and Early Redemption Events in relation to Securities linked to inflation indices

If an underlying closing level for an inflation index for a specified reference month has not been published or announced by five business days prior to the relevant payment date, then the Calculation Agent shall determine a substitute index level. Any such substitution may have an adverse effect on the value of such Securities.

Investors should note that certain events may not be applicable, depending on whether these are specified as applicable in the applicable Final Terms. Accordingly, certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for an inflation index in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of any inflation index (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or, a Hedging Disruption or, an Increased Cost of Hedging, or (b) the imposition of increased or unexpected fees and costs for the use of such index on the relevant Issuer and/or any of its affiliates by the relevant index sponsor which the Calculation Agent deems material), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event including, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If "Revision" is specified as applicable for an inflation index in the applicable Final Terms, then any revision to an underlying closing level of an inflation index occurring before the relevant revision cut-off date shall be considered final and conclusive for the purpose of any determination made in respect of the Securities. If "No Revision" is specified as applicable in the applicable Final Terms (or if "Revision" is not specified as applicable) then the first publication and announcement of an underlying closing level for such inflation index shall be final and conclusive. Further, if the Calculation Agent determines that the index sponsor of an inflation index has corrected an underlying closing level for such index to correct a manifest error no later than the earlier to occur of the relevant manifest error cut-off date and thirty calendar days following the first publication and announcement of such level, then the Calculation Agent may use the corrected level of such inflation index for the purposes of any calculation in respect of the relevant payment date. In the event of inconsistency between a revision and a manifest error correction, the manifest error correction shall prevail. Any such adjustment (or absence of an adjustment, for the purpose of the Securities) to any level of an inflation index may have an adverse effect on the value of the Securities.

If the Calculation Agent determines that either (a) a level for an inflation index has not been published or announced for two consecutive months and/or (b) the relevant index sponsor announces that it will no longer continue to publish or announce such inflation index and/or (c) the relevant index sponsor cancels such inflation index then the Calculation Agent may replace the originally designated inflation index

with a successor index. Any such adjustment may have an adverse effect on the value of the Securities and, if no successor index can be determined, then an Early Redemption Event shall occur with respect to the Securities.

If an index sponsor announces, in respect of an inflation index, that it will make a material change to a relevant inflation index then the Calculation Agent shall make such consequential adjustments to the terms of the Securities as are consistent with any adjustment made to any relevant fallback bond or as are necessary for such modified inflation index to continue as an inflation index for the purpose of the Securities. Any such adjustments may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, then an Early Redemption Event shall occur with respect to the Securities.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances in which the Calculation Agent determines that no adjustment can reasonably be made following an Adjustment Event, (b) no successor index can be determined or no adjustment can reasonably be made following a material change to a relevant inflation index, (c) a Section 871(m) Event or (d) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to the Securityholders in respect of each Calculation Amount held by any Securityholder an amount calculated in accordance with the method specified in applicable Final Terms, as determined by the Calculation Agent. The amount repaid to the investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to Commodities

Movements in the price of any relevant commodities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of a commodity or commodities may affect the actual yield of the Securities, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the commodities, the greater the effect on yield of the Securities.

Commodity futures markets are highly volatile. Commodity markets are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programmes and policies designed to influence commodity prices, world political and economic events, and changes in interest rates. Moreover, investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited). A holder of a futures position may find such position becomes illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits, during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavorable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the liquidation of unfavorable positions and could therefore have a material adverse impact on value of and return on the Securities.

See Underlying Schedule 3 (*Commodity Conditions*) for the specific terms and conditions in respect of Securities linked to commodities.

Risk related to the possible rolling mechanism of commodity futures contracts

The yield on Securities relating to commodities may not perfectly correlate to the trend in the price of the underlying commodities as the use of such future commodity contracts generally involves a rolling mechanism. This means that the commodity futures contracts which expire prior to the relevant payment date under the relevant Securities are replaced with future commodity contracts that have a later expiry date. Investors may therefore only marginally benefit from any rise/fall in prices on such commodities.

Investors should also consider that the commodity futures contracts could have a trend which differs significantly from that of the commodity spot markets. The trend in the price of a commodity futures contracts compared to the underlying commodity is closely linked to the present and future level of the production of the underlying commodity or to the level of estimated natural reserves, particularly in the case of energy commodities. In addition, the price of the relevant commodity futures contract may not be considered an accurate prediction of a market price, since it also includes the so-called "carrying costs" (such as, for example, warehouse costs, insurance covering the goods, transportation etc.), which also contribute toward the determination of the price of the commodity futures contracts. These factors which directly influence the commodities prices substantially explain the imperfect correlation between the commodity spot markets and the commodity futures contracts. Accordingly, Investors may receive a lower return on Securities linked to one or more commodity futures contracts than they would have received if they had invested in relevant commodity spot market(s) or in another related product.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to Commodities

As the terms and conditions of Securities relating to commodities include alternative provisions for valuation and/or provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such alternative provisions for valuation or postponement may have a material adverse effect on the value of and return on such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for commodities in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of any commodity (being, in each case if applicable, the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event including, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances in which the Calculation Agent determines that no adjustment can reasonably be made following an Adjustment Event, (b) the occurrence of a disruption event and any relevant disruption fallbacks fail (or are deemed to fail) to provide a relevant price in respect of a commodity and a valuation date, (c) any Additional Early Redemption Event specified in the applicable Final Terms (being an "abandonment of scheme" in relation to commodities that are emissions) the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the

Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to Shares

Securities linked to shares will give rise to obligations of the relevant Issuer and, where the Issuer is CGMHI, the CGMHI Guarantor or, where the Issuer is CGMFL, the CGMFL Guarantor and will not give rise to any obligations of any share company, and accordingly investors will have no recourse against any (such) share company.

No issuer of such shares will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Securities and none of the relevant Issuer, the CGMHI Guarantor (if applicable), the CGMFL Guarantor (if applicable) and any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Final Terms) that would affect the trading price of the share will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the shares and therefore the trading price of the relevant Securities.

Except as provided in the applicable Final Terms in relation to Physical Delivery Securities, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Securities relate. The return on such Securities may thus not reflect any dividends or other distributions which would be paid to investors that have made a direct investment in the relevant shares. Consequently, the return on Securities linked to shares may be less than the return from a direct investment in the relevant shares.

The risks of a Security relating to shares will depend on the terms of that Security. Such risks may include, but are not limited to, the possibility of significant changes in the price(s) of the share or shares. The value of shares may go down as well as up and the value of any share on any date may not reflect its performance in any prior period. There can be no assurance as to the future value of any share or of the continued existence of any share or share company. Accordingly, before making an investment decision with respect to Securities, prospective investors should carefully consider, among other matters, the value and price volatility of the relevant shares, as this may affect the value of and return on the Securities.

In addition, the calculation of amounts payable on such Securities may involve reference to the performance of one or more shares over a period of time and to shares, the issuer(s) of which are incorporated outside the United States, the EEA and the United Kingdom.

Accordingly, investors may receive a lower return on Securities linked to one or more shares than they would have received if they had invested directly in the shares or in another product.

See Underlying Schedule 4 (*Share Conditions*) for the specific terms and conditions in respect of Securities linked to shares.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to Shares

As the terms and conditions of the Securities relating to shares include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Securities may have an adverse effect on the value of such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for a share in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of a share (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging, or (b) a corporate action, de-listing, insolvency, merger event, nationalisation, tender offer and/or any Additional Disruption Event specified in the applicable Final Terms), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event or the Calculation Agent may replace the share that is the subject of the Adjustment Event with a new Share selected by the Calculation Agent from an applicable reference index. Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustment(s) or substitution may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment(s) or substitution can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances where the Calculation Agent determines that no adjustment or substitution can reasonably be made following an Adjustment Event, (b) a Section 871(m) Event or (c) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to Depositary Receipts

Securities linked to depositary receipts will give rise to obligations of the relevant Issuer and, where the Issuer is CGMHI, the CGMHI Guarantor or, where the Issuer is CGMFL, the CGMFL Guarantor and will not give rise to any obligations of any depositary or any underlying share company, and accordingly investors will have no recourse against any such depositary or underlying share company.

No issuer of such depositary receipts or any underlying shares related to such depositary receipts will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Securities and none of the relevant Issuer, the CGMHI Guarantor (if applicable), the CGMFL Guarantor (if applicable) nor any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any depositary or any related underlying share company contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Final Terms) that would affect the trading price of the depositary receipt or the underlying share will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such depositary or underlying share company could affect the trading price of the depositary receipts and therefore the trading price of the relevant Securities.

Except as provided in the applicable Final Terms in relation to Physical Delivery Securities, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant depositary receipts and/or underlying shares to which such Securities

relate. The return on such Securities may thus not reflect any dividends or other distributions which would be paid to investors that have made a direct investment in the relevant depositary receipts and/or underlying shares. Consequently, the return on Securities linked to depositary receipts may be less than the return from a direct investment in the relevant depositary receipts and/or underlying shares.

The risks of a Security relating to depositary receipts will depend on the terms of that Security. Such risks may include, but are not limited to, the possibility of significant changes in the price(s) of the depositary receipts. The value of depositary receipts may go down as well as up and the value of any depositary receipt on any date may not reflect its performance in any prior period. There can be no assurance as to the future value of any depositary receipts or of the continued existence of any depositary and/or underlying share company. Accordingly, before making an investment decision with respect to Securities, prospective investors should carefully consider, among other matters, the value and price volatility of depositary receipts and relevant underlying shares, as this may affect the value of and return on the Securities.

In addition, the calculation of amounts payable on such Securities may involve reference to the performance of one or more depositary receipts and the related underlying shares over a period of time and to depositary receipts and/or underlying shares, the issuer(s) of which are incorporated outside the United States, the EEA and the United Kingdom.

Accordingly, investors may receive a lower return on Securities linked to one or more depositary receipts than they would have received if they had invested directly in the depositary receipts or in another product.

See Underlying Schedule 5 (*Depositary Receipt Conditions*) for the specific terms and conditions in respect of Securities linked to depositary receipts.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to Depositary Receipts

As the terms and conditions of the Securities include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Securities may have a material adverse effect on the value of and return on such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for a depositary receipt in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of a depositary receipt and/or an underlying share (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging or (b) a corporate action, delisting, insolvency, merger event, nationalisation, tender offer, written instructions being given by an underlying share company to the relevant depositary to withdraw or surrender underlying shares or the termination of a relevant deposit agreement and/or any Additional Disruption Event specified in the applicable Final Terms), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event or the Calculation Agent may replace the depositary receipt and/or the underlying share that is the subject of the Adjustment Event with a new depositary receipt selected by the Calculation Agent (referencing, where "same underlying share and currency" is specified as the Depositary Receipt Substitution Criteria in the applicable Final Terms, the same underlying share and denominated in the same currency as the previous depositary receipt (and, if no such depositary receipt is selected or available, then the underlying share shall be substituted and a

new depositary receipt selected in respect of such new underlying share)) and/or a new share selected by the Calculation Agent from an applicable reference index. Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustment(s) or substitution may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment(s) or substitution can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances where the Calculation Agent determines that no adjustment(s) or substitution can reasonably be made following an Adjustment Event, (b) a Section 871(m) Event or (c) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to ETF Shares

Securities linked to ETF shares will give rise to obligations of the relevant Issuer and, where the Issuer is CGMHI, the CGMHI Guarantor or, where the Issuer is CGMFL, the CGMFL Guarantor and will not give rise to any obligations of the issuer of any ETF shares, and accordingly investors will have no recourse against any such issuer.

No issuer of ETF shares will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Securities and none of the relevant Issuer, the CGMHI Guarantor (if applicable), the CGMFL Guarantor (if applicable) nor any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any such issuer of ETF shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Final Terms) that would affect the trading price of the ETF share will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of ETF shares could affect the trading price of the ETF share and therefore the trading price of the relevant Securities.

Except as provided in the applicable Final Terms in relation to Physical Delivery Securities, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant ETF shares to which such Securities relate. The return on such Securities may thus not reflect any dividends or other distributions which would be paid to investors that have made a direct investment in relevant ETF shares. Consequently, the return on Securities linked to ETF shares may be less than the return from a direct investment in the relevant ETF shares.

The risks of a Security relating to ETF shares will depend on the terms of that Security. Such risks may include, but are not limited to, the possibility of significant changes in the price(s) of the ETF shares. The value of ETF shares may go down as well as up and the value of any ETF share on any date may not reflect its performance in any prior period. There can be no assurance as to the future value of any ETF share or of the continued existence of any ETF share or the issuer of such ETF share. Accordingly, before making an investment decision with respect to Securities, prospective investors should carefully consider, among other matters, the value and price volatility of ETF shares, as this may affect the value of and return on the Securities.

In addition, the calculation of amounts payable on such Securities may involve reference to the performance of one or more ETF shares over a period of time and to ETF shares, the issuer(s) of which are established outside the United States, the EEA and the United Kingdom.

Accordingly, investors may receive a lower return on Securities linked to one or more ETF Shares than they would have received if they had invested directly in the ETF Shares or in another product.

See Underlying Schedule 6 (*Exchange Traded Fund (ETF) Share Conditions*) for the specific terms and conditions in respect of Securities linked to ETF shares.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to ETF Shares

As the terms and conditions of the Securities relating to ETF shares include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Securities may have a material adverse effect on the value of and return on such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for an ETF share in the applicable Final Terms. While ETF shares are traded on an exchange and are therefore valued in a similar manner as a Share traded on an exchange, the Adjustment Events in relation to Securities linked to ETF shares include certain adjustments which would be applicable to Securities linked to an underlying fund.

If the Calculation Agent determines that an Adjustment Event occurs in respect of an ETF share (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging; (b) a corporate action, delisting, insolvency, merger event, nationalisation, tender offer, fund modification, strategy breach, regulatory action, cross-contamination and/or any Additional Disruption Event specified in the applicable Final Terms), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event or the Calculation Agent may replace the ETF share that is the subject of the Adjustment Event with a new ETF share selected by the Calculation Agent (which shall be an ETF share which, where a "related index" is specified in the applicable Final Terms, tracks such related index, or an index substantially similar in formula and calculation method). Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustment(s) or substitution may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment(s) or substitution can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances where the Calculation Agent determines that no adjustment(s) or substitution can reasonably be made following an Adjustment Event, (b) a Section 871(m) Event or (c) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to Mutual Fund Interests

Securities linked to mutual fund interests will give rise to obligations of the relevant Issuer, and, where the Issuer is CGMHI, the CGMHI Guarantor or, where the Issuer is CGMFL, the CGMFL Guarantor and will not give rise to any obligations of any mutual fund administrator, adviser or manager in respect of a mutual fund, and accordingly you will have no recourse against any such mutual fund administrator, adviser or manager.

No mutual fund administrator, adviser or manager in respect of a mutual fund will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Securities and none of the relevant Issuer, the CGMHI Guarantor (if applicable), the CGMFL Guarantor (if applicable) and any Dealer will make any investigation or enquiry in connection with such offering with respect to the information concerning any such mutual fund contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph or in any applicable Final Terms) that would affect the value of the mutual fund interest will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such mutual fund could affect the value of the mutual fund interest and therefore the trading price of the Securities.

Except as provided in the applicable Final Terms in relation to Physical Delivery Securities, Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant mutual fund interests to which such Securities relate. The return on such Securities may thus not reflect any dividends or other distributions which would be paid to you if you had made a direct investment in relevant mutual fund interests. Consequently, the return on Securities linked to mutual fund interests may be less than the return from a direct investment in the relevant mutual fund interests.

The risks of a Security relating to mutual fund interests will depend on the terms of that Security. Such risks may include, but are not limited to, the possibility of significant changes in the value(s) of the mutual fund interests. The value of mutual fund interests may go down as well as up and the value of any mutual fund interest on any date may not reflect its performance in any prior period. There can be no assurance as to the future value of any mutual fund interest or of the continued existence of any mutual fund interest or the issuer of such mutual fund interest. Accordingly, before making an investment decision with respect to Securities, you should carefully consider, among other matters, the value and price volatility of the relevant mutual fund interests, as this may affect the value of and return on the Securities.

In addition, mutual funds may trade and invest in a broad range of investments such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. Mutual fund interests may be illiquid and may only be traded on an infrequent basis. The trading strategies of mutual funds are often opaque. Mutual funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. Further, the value of mutual fund interests may be affected by the performance of the relevant fund service providers and in particular the relevant fund adviser.

For the foregoing reasons, investing directly or indirectly in mutual funds is generally considered to be risky. If the underlying mutual fund does not perform sufficiently well, the value of the Securities will fall, and may in certain circumstances be zero.

In addition, the calculation of amounts payable on such Securities may involve reference to the performance of one or more mutual fund interests over a period of time and to mutual fund interests, the issuer(s) of which are established outside the United States, the EEA and the United Kingdom.

Accordingly, investors may receive a lower return on Securities linked to one or more mutual fund interests than they would have received if they had invested directly in the mutual fund interests or in another product.

See Underlying Schedule 7 (*Mutual Fund Conditions*) for the specific terms and conditions in respect of Securities linked to mutual fund interests.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to Mutual Fund Interests

As the terms and conditions of the Securities relating to mutual fund interests include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of such Securities may have an adverse effect on the value of such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for a Mutual Fund Interest in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of a mutual fund interest (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging, or (b) a corporate action, insolvency, merger event, nationalisation, adviser resignation event, fund modification, strategy breach, regulatory action, reporting disruption, cross-contamination, failure by a fund service provider and/or any Additional Disruption Event specified in the applicable Final Terms), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event or the Calculation Agent may replace the mutual fund interest that is the subject of the Adjustment Event with a new mutual fund interest selected by the Calculation Agent (in a fund which provides daily liquidity, the shares or units of which may be subscribed, sold to or redeemed by the fund (subject to giving no more than two fund business days' notice and no charges being imposed by the fund), and which in the determination of the Calculation Agent, has the same or substantially similar strategies, and the same currency as, the affected mutual fund). Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustment may also include a monetisation whereby the Calculation Agent shall determine the value of the mutual fund interest affected by the relevant Adjustment Event on a date selected by the Calculation Agent and shall make such adjustments to the terms of the Securities so that the Securities reference such value (and interest thereon) rather than such mutual fund interest. Any such adjustment(s) or substitution may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment(s) or substitution can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances where the Calculation Agent determines that no adjustment(s) or substitution can reasonably be made following an Adjustment Event, (b) the Calculation Agent determines that no Monetisation can reasonably be effected, (c) a Section 871(m) Event or (d) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to you could be substantially less than your initial investment and you could therefore sustain a loss.

Risks associated with Securities linked to currency exchange rates

An investment in Securities linked to currency exchange rates may bear similar market risks to a direct investment in foreign exchange.

Movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the currency exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In addition, Securities linked to currency exchange rates may be linked to emerging market currencies and, as such, may experience greater volatility and less certainty as to future levels or as against other currencies. Emerging market currencies are highly exposed to the risk of a currency crisis happening in the future and this could result in the occurrence of a Disrupted Day – see "*Disrupted Days*" below.

Fluctuations in exchange rates and implied volatility of the relevant currency (or basket of currencies) will affect the value of the relevant Securities. Currency values may be affected by complex political and economic factors, including governmental action to fix or support the value of a currency/currencies, regardless of other market forces, which could have a material adverse effect on the value of and return on the Securities of the relevant Securityholder (see "*Changes in exchange rates and exchange controls could result in a loss of the value of the Securities and payments in respect thereof in relation to the currency of the jurisdiction of an investor*" above).

Accordingly, investors may receive a lower return on Securities linked to one or more currency exchange rates than they would have received if they had invested directly in the relevant currency or currencies or in another product.

See Underlying Schedule 8 (*FX Rate Conditions*) for the specific terms and conditions in respect of Securities linked to currency exchange rates.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to currency exchange rates where the EMTA Provisions are not specified as applicable in the applicable Final Terms

As the terms and conditions of the Securities relating to currency exchange rates include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day, such postponement or any alternative provisions for valuation provided in the terms and conditions of the Securities may have a material adverse effect on the value of and return on such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for currency exchange rates in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of a currency exchange rate (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging or (b) a relevant country has lawfully converted or exchanged its currency for a successor currency), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event including, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustment(s) may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment(s) can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances where the Calculation Agent determines that no adjustment(s) can reasonably be made following an Adjustment Event, (b) a Section 871(m) Event or (c) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to currency exchange rates where the EMTA Provisions are specified as applicable in the applicable Final Terms

The terms and conditions of the Securities include provisions dealing with the consequences of a Disrupted Day. These consequences shall be determined in accordance with the Disruption Fallbacks specified in the applicable Final Terms and may include (i) where Valuation Postponement is specified in the applicable Final Terms, postponement of a Valuation Date due to the occurrence of a Disrupted Day, (ii) where First Fallback Reference Price or Second Fallback Reference Price is specified in the applicable Final Terms, determination of the Underlying Closing Level for the relevant Valuation Date by reference to alternative prices for the applicable currency exchange rate, and (iii) where Calculation Agent Determination is specified as applicable in the applicable Final Terms, the Calculation Agent determining the Underlying Closing Level for the relevant Valuation Date. Such alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities. The Valuation Postponement provisions, if applicable, may result in a Securityholder receiving payments in respect of the Securities after the originally scheduled date for payment.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for currency exchange rates in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of a currency exchange rate (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging or (b) any relevant rate which as of the Trade Date is reported, sanctioned, recognised, published, announced or adopted (or similar action) by the relevant Government Authority and any such rate cease to be so reported, sanctioned, recognised, published, announced or adopted (or similar action), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event including, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs) and in the case of a successor rate, determination of the relevant rate by reference to the official successor rate. Any such adjustment(s) may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment(s) can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances where the Calculation Agent determines that no adjustment(s) can reasonably be made following an Adjustment Event, (b) a Section 871(m) Event or (c) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the

terms and conditions of the relevant Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor would therefore sustain a loss.

Currency Settlement Disruption Event

If, in the opinion of the Calculation Agent, payment of any amount due in respect of the Securities cannot be made by it in the Specified Currency on any date on which payment is scheduled to be made under the Securities due to the occurrence of a Currency Settlement Disruption Event (being (a) the imposition of restrictions on the transferability, purchase and holding of the Specified Currency, (b) its non-acceptance by a clearing system or its disuse, (c) its illiquidity in the relevant market or (d) any other circumstances beyond the relevant Issuer's control), then the relevant Issuer shall be entitled to satisfy its obligations to the Securityholders by either (i) delaying any such payment until after the Currency Settlement Disruption Event ceases to exist, or (ii) making such payment in United States dollars on, or as soon as reasonably practicable after, the relevant payment date. Any such delayed payment or payment in United States dollars will not constitute a default and Securityholders shall not be entitled to further interest or any other payment in respect of such delay.

See further FX Rate Condition 5(c) (*Settlement Disruption*) of Part A of Underlying Schedule 8 (*FX Rate Conditions*), and FX Rate Condition 5(e) (*Settlement Disruption*) of Part B of Underlying Schedule 8 (*FX Rate Conditions*).

Risks associated with Securities relating to Dividend Futures Contracts

If investing in Securities relating to dividend futures contracts, investors should be familiar with investments in global capital markets and with equity index dividends derivatives generally. The value of a dividend futures contract will generally track the dividends paid by the companies (each a "**Relevant Company**") comprised in the equity index (the "**Relevant Index**") relating to the relevant dividend futures contract from time to time during one calendar year. global economic, financial and political developments, among other things, may have a material effect on the performance of such Relevant Companies and therefore on the value of the dividends paid by such Relevant Companies and the value of the relevant dividend futures contract, and this may in turn have a material adverse effect on the value of and return on the Securities.

Securities relating to dividend futures contracts will give rise to obligations of the relevant Issuer and, where the Issuer is CGMHI, the CGMHI Guarantor or, where the Issuer is CGMFL, the CGMFL Guarantor and will not give rise to any obligations under the relevant dividend futures contract or any obligations of any Relevant Company, and accordingly investors will have no recourse against any sponsor of such dividend futures contract or any such Relevant Company. No sponsor of the relevant dividend futures contract will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Securities.

Not all types of dividends paid by a Relevant Company may be relevant for the purpose of determining the price of a dividend futures contract (for example, in general, ordinary dividends declared by a Relevant Company (paid in cash or shares) are considered as realised dividends, which, if so provided in the contract specifications for the relevant dividend futures contract, are relevant for the purpose of determining the price of dividend futures contracts, whereas special or extraordinary dividends are not generally considered as realised dividends and therefore, if so provided in the contract specifications for the relevant dividend futures contract will not be relevant for the purpose of determining the price of such dividend futures contract). Further, the Relevant Companies may change from time to time in accordance with the rules of the Relevant Index and such a change in Relevant Companies may have an adverse effect on the price of the dividend futures contract and amounts payable in respect of the

Securities. Investors should refer to the contract specifications for the dividend futures contract and the index rules relating to the Relevant Index for details regarding the calculation methodologies (including which dividends will be included in the calculation of the dividend futures contract) and adjustments which may be made thereto (including to the Relevant Companies to be included in the Relevant Index). Investors should note that the performance of similar dividend futures contracts in respect of prior contract periods will not necessarily be indicative of the performance of the relevant dividend futures contract to which the Securities relate.

The market value of the Securities may, at any time, be affected by certain factors relating to dividend futures contracts which may include, but are not limited to, the possibility of significant changes in:

- the Relevant Companies comprised in the Relevant Index and expectations relating to the dividends to be announced in relation thereto;
- market interest and yield rates;
- the time remaining to the final settlement date of the relevant dividend futures contract; and
- economic, political and macro-economic factors.

Accordingly, before purchasing Securities relating to dividend futures contracts, prospective investors should carefully consider, among other matters, the value and price volatility of dividend futures contracts and the performance of the Relevant Companies comprised in the Relevant Index by reference to which amounts payable under the relevant Securities are calculated, as this may affect the value of and return on the Securities.

In addition, the value of the dividends paid by the Relevant Companies may be influenced by many factors, including the earnings and dividend policy of each such Relevant Company, changes in applicable laws and regulations, global economic, financial and political developments and structural supply and demand factors. Relevant Companies may pay reduced dividends or no dividends in respect of the relevant contract period. The amount of dividends paid by Relevant Companies in respect of similar periods may bear no relation to dividends paid during the relevant contract period. Any such changes may have an adverse effect on the amount of relevant dividends paid by Relevant Companies and, in turn, the price of the relevant dividend futures contract and amounts payable in respect of the Securities.

Accordingly, investors may receive a lower return on Securities linked to one or more dividend futures contracts than they would have received if they had invested directly in the dividend futures contracts or in another product.

See Underlying Schedule 9 (*Dividend Futures Contract Conditions*) for the specific terms and conditions in respect of Securities linked to dividend futures contracts.

Adjustments to Valuation Dates, Adjustment Events and Early Redemption Events in relation to Securities linked to Dividend Futures Contracts

As the terms and conditions of Securities relating to dividend futures contracts may include provisions dealing with the postponement of a Valuation Date due to the occurrence of a Disrupted Day or the variation of a Valuation Date following the announcement by the relevant dividend futures contract sponsor that the expiry date of a dividend futures contract will occur on an alternative date to that originally contemplated, such postponement, variation or any alternative provisions for valuation provided in the terms and conditions of such Securities may have a material adverse effect on the value of and return on such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for dividend futures contracts in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of any dividend futures contract (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging, (b) such dividend futures contract (i) not being calculated and announced by or on behalf of the relevant dividend futures contract sponsor but instead being calculated and announced by or on behalf of a successor to the relevant dividend futures contract sponsor or (ii) being replaced by a successor dividend futures contract), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event including, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments may have an adverse effect on the value of the Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If a Dividend Futures Contract Adjustment Event occurs (being, in each case if applicable, in respect of a dividend futures contract, (i) the relevant exchange and/or dividend futures contract sponsor, as the case may be, announcing that it will make a material change or modification to a relevant dividend futures contract, (ii) the relevant exchange and/or the dividend futures contract sponsor, as the case may be, permanently cancelling or discontinuing the dividend futures contract or there otherwise being a permanent discontinuation in trading or trading never commencing in such dividend futures contract and no successor dividend futures contract existing, or (iii) any "final settlement price" not being displayed or published on the relevant electronic page or by the exchange at the relevant valuation time), then the Calculation Agent may determine whether such Dividend Futures Contract Adjustment Event has a material effect on the Securities and, if so, shall either (A) calculate the "final settlement price" of such dividend futures contract by calculating the value of the relevant dividends for the applicable contract period for such dividend futures contract by reference to the formula for and the method of calculation last in effect of any related dividend point index or such other sources as it deems appropriate and/or (B) make such adjustments to the terms of the Securities as it determines necessary or appropriate to account for the effect of the relevant Dividend Futures Contract Adjustment Event and/or (C) in the case of (iii) above only, substitute such dividend futures contract with a replacement dividend futures contract and determine any adjustment necessary to account for such substitution. Any such calculation, substitution and/or adjustment may have an adverse effect on the value of the Securities and, if the Calculation Agent determines that no calculation, adjustment or substitution can reasonably so be made, such Dividend Futures Contract Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable (a) circumstances in which the Calculation Agent determines that no adjustment or substitution can reasonably be made following an Adjustment Event, (b) no calculation, substitution or adjustment can reasonably be made following a Dividend Futures Contract Adjustment Event, (c) a Section 871(m) Event or (d) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set out in the terms and conditions of the Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to Interest Rates

The market value of the Securities may, at any time, be affected by certain factors relating to interest rates which may include, but are not limited to, the possibility of significant changes in the level of the interest rate, macroeconomic, political or financial factors, speculation and central bank and governmental intervention.

Fluctuations that have occurred in any interest rate in the past are not necessarily indicative, however, of fluctuation that may occur in the interest rate during the term of any Security. Accordingly, before purchasing Securities, prospective investors should carefully consider, among other matters, the value and price volatility of the relevant interest rates, as this may have a material adverse effect on the value of and return on the Securities.

Depending on the terms of the Securities, investors may receive no amount(s) or assets because of the performance of the relevant interest rates and they may lose a substantial portion of their investment. In addition, investors should ensure that they review the terms of the Securities in question as these may provide for amounts due or assets deliverable to be determined by reference to an option or formulae linked to the relevant interest rate rather than being a conventional debt security referencing an interest rate, such as one which bears interest at a specified floating rate of interest. Accordingly, investors may receive a lower return on Securities linked to one or more interest rates than they would have received if they had invested in another product referencing an interest rate.

See Underlying Schedule 10 (*Underlying Interest Rate Conditions*) for the specific terms and conditions in respect of Securities linked to interest rates.

Disrupted Days, Adjustment Events and Early Redemption Events in relation to Securities linked to Interest Rates

As the terms and conditions of Securities relating to interest rates include provisions dealing with the consequences of a Disrupted Day, including referring to alternative price sources or determination of the relevant interest rate by the Calculation Agent or by reference to quotes from reference dealers, such alternative provisions for valuation provided in the terms and conditions of such Securities may have a material adverse effect on the value of and return on such Securities.

Certain events or occurrences described below will only be relevant if the associated Adjustment Events and Early Redemption Events are specified as being applicable for interest rates in the applicable Final Terms.

If the Calculation Agent determines that an Adjustment Event occurs in respect of any interest rate (being, in each case if applicable, the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities or materially increasing the relevant Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event. Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.

If an Early Redemption Event occurs (being, in each case if applicable, (a) circumstances in which the Calculation Agent determines that no adjustment or substitution can reasonably be made following an Adjustment Event, (b) a Section 871(m) Event or (c) a Hedging Disruption Early Termination Event (if specified as applicable in the applicable Final Terms)), the Securities may be redeemed as more fully set

out in the terms and conditions of the Securities. If the Securities are redeemed early, the relevant Issuer will pay to each Securityholder in respect of each Calculation Amount held by such holder an amount calculated in accordance with the method specified in the applicable Final Terms, as determined by the Calculation Agent. The amount repaid to investors could be substantially less than the investor's initial investment and the investor could therefore sustain a loss.

Risks associated with Securities linked to rates, benchmark reform and the discontinuance and replacement of "IBORS"

The unavailability, disruption or discontinuance of any interest rate to which the Securities are linked will result in the application of certain fallback provisions

In relation to any event or circumstance affecting an interest rate, the fallback provisions described in Valuation and Settlement Condition 9 will be applied in the order set out therein, in each case where applicable for the relevant rate and the event or circumstance. If the first applicable option shown does not apply to the relevant interest rate and the relevant event or circumstance then the next option which does should be applied. It is possible that, following the application of such fallback provisions, the relevant rate could be determined on a different day than originally intended and/or may be determined by the Calculation Agent in its discretion. There is a risk that the determination of the relevant interest rate in accordance with any of these fallback provisions may result in lower amounts payable to investors under the Securities and a reduction in their market value.

Any adjustments to the terms and conditions of the Securities (including the determination of any spread or factor howsoever defined) which the Calculation Agent determines are necessary or appropriate pursuant to the provisions of the USD LIBOR Fallback Provisions, the Reference Rate Event Provisions and the Administrator/Benchmark Event provisions shall be made to the extent reasonably practicable, but also taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market) and may include, where applicable and without limitation:

- technical, administrative or operational changes that the Calculation Agent decides are appropriate;
- the application of any adjustment factor or adjustment spread; and
- (subject to compliance with applicable laws and/or regulatory guidance in the relevant jurisdiction) adjustments to reflect any increased costs to the Issuer of providing exposure to the replacement or successor rate(s) and/or benchmark(s).

Such adjustments may also be applied on more than one occasion, may be made as of one or more effective dates, may but do not have to involve the selection of a successor or replacement rate which is determined on a backwards-looking compounding basis by reference to a "risk-free rate" and which, unless the context otherwise requires or it is inappropriate, will be the relevant rate in relation to the then current and all future determination days.

Investors should refer to "*Section C – Investment Considerations – Application of Fallback Provisions in respect of Reference Rates and Benchmarks*" for an overview of how and when such fallback provisions apply.

If a floating rate becomes unavailable it may be determined in the Calculation Agent's discretion or by alternative methods

If the relevant rate is unavailable and the Screen Rate Determination provisions of Valuation and Settlement Condition 3(a) apply, subject as provided in Valuation and Settlement Condition 9, the Calculation Agent shall determine the relevant rate in good faith and in a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market), which determination may be made by reference to quotations provided by third party banks. As a result, the return on the Securities may be lower than expected and/or the value of the Securities may be adversely affected and the Calculation Agent will have no responsibility to the Issuer or any third party as a result of having acted on any such quotations.

If the relevant rate is unavailable and the USD LIBOR Screen Rate Determination provisions of Valuation and Settlement Condition 3(a) apply, subject as provided in Valuation and Settlement Condition 9, the relevant rate of interest will be determined by reference to quotations provided by third party banks and the Calculation Agent will have no responsibility to the Issuer or any third party as a result of having acted on any such quotation. Further, if the relevant rate of interest cannot be determined by reference to bank quotations, then the rate of interest will be determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). As a result, the return on the Securities may be lower than expected and/or the value of the Securities may be adversely affected.

If the ISDA Determination provisions of Valuation and Settlement Condition 3(a) apply, subject as provided in Valuation and Settlement Condition 9, if the relevant rate of interest cannot be determined by reference to the relevant ISDA Definitions (including the temporary cessation provisions set out in such ISDA Definitions, which may include reference bank quotations), then the rate of interest will be that determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to alternative benchmarks then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

If the relevant rate is unavailable and the SFRD (Non-Index) Fallback Provisions of Valuation and Settlement Condition 3(a)(i) apply, subject as provided in Valuation and Settlement Condition 9, the amount of interest payable on such Securities will be determined using (a) the Bank of England's Bank Rate (for the purposes of this paragraph, the "**Bank Rate**") for such day plus the mean of the spread of the SONIA rate to the Bank Rate, or (b) if the Bank Rate is not available on such day, the SONIA rate published for the first preceding London Banking Day on which the SONIA rate was published. In respect of (a), there is no assurance that the characteristics of the Bank Rate and spread calculation will be similar to, or will produce the economic equivalent of, the SONIA rate upon which compounded daily SONIA is based. If the said rate and spread calculation provisions or alternative provisions for determining the SONIA rate in respect of a particular day become applicable, this could result in adverse consequences to the amount of interest payable on the Securities, which could adversely affect the return on, value of and market for the Securities.

If the relevant rate is unavailable and the SFRD (Index) Fallback Provisions of Valuation and Settlement Condition 3(a)(i) and/or the SOFR Floating Rate Determination provisions of Valuation and Settlement Condition 3(a)(i) apply, subject as provided in Valuation and Settlement Condition 9, the relevant SONIA Index value, or SOFR or SOFR Index value, as applicable, will be determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

Failure by the Calculation Agent and/or the Issuer to give notice

Pursuant to the USD LIBOR Fallback Provisions, the Reference Rate Event Provisions and the Administrator/Benchmark Event provisions, the Calculation Agent is required to notify the Issuer of certain determinations made in accordance with such provisions, and the Issuer is required to notify the Securityholders thereof or of certain elections to redeem the Securities. However, failure by the Calculation Agent to so notify the Issuer or failure by the Issuer to so notify the Securityholders will not affect the validity of any such determination or election. Any determination or election may result in payments under the Securities being lower than those originally anticipated or the Securities being redeemed early, and this could have a material adverse effect on the value of and return on the Securities.

The regulation and reform of "benchmarks" may adversely affect the value of and return on Securities linked to or referencing such "benchmarks"

Interest rate benchmarks play an important role in financial markets and it is therefore critical that benchmarks which are used extensively are robust and are based on active, liquid underlying markets. As a consequence, interest rates and indices or other figures which are deemed to be "benchmarks" (including, but not limited to the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**")), have been the subject of recent national and international regulatory scrutiny and reform and certain benchmarks such as LIBOR have been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. Contrary to benchmarks such as LIBOR, 'risk-free rates', such as SONIA and SOFR, represent deep underlying markets where data inputs can evolve over time to ensure that such benchmarks adapt to future changes in money markets and continue to be robust. The reliance of risk-free rates on actual transactions as opposed to expert judgement also reduces the conduct risks associated with such benchmarks.

Regulatory authorities and central banks view the overnight risk-free rates as providing the most robust benchmark interest rate available and are therefore strongly encouraging the transition away from LIBORs and have identified risk-free rates to replace such LIBORs as primary benchmarks. This includes (amongst others):

- (i) for sterling LIBOR ("**GBP LIBOR**"), the Sterling Overnight Index Average ("**SONIA**");
- (ii) for EUR LIBOR, the Euro Short-Term Rate ("**EuroSTR**", "**ESTR**" or "**€STR**"); and
- (iii) for USD LIBOR, the Secured Overnight Financing Rate ("**SOFR**").

The EU Benchmarks Regulation and UK Benchmarks Regulation

The EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**EU Benchmarks Regulation**") and the EU Benchmarks Regulation as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended) and regulations made thereunder (the "**UK Benchmarks Regulation**", and together with the EU Benchmarks Regulation, the "**Benchmarks Regulations**") are a key element of the ongoing regulatory reform in the EU and the UK and have applied since 1 January 2018 and been subject to subsequent amendments.

In addition to so-called "critical benchmarks" such as LIBOR and EURIBOR, other interest rates, foreign exchange rates and certain indices, will in most cases be within scope of both versions of the Benchmarks Regulations as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including (i) in the case of the EU Benchmarks Regulation, Securities traded on an EU regulated market or EU multilateral trading facility (MTF) and (ii) in the case of the UK Benchmarks Regulation, Securities traded on a UK recognised investment exchange or a UK MTF), and in a number of other circumstances.

The EU Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of "benchmarks" provided by administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

The UK Benchmarks Regulation contains most of the same provisions as the EU Benchmarks Regulation, but has narrower geographical scope of application. The UK Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the UK. The onus of compliance with the UK Benchmarks Regulation rests on UK benchmark administrators and UK supervised entities.

The ESMA maintains a public register of benchmark administrators and third country benchmarks pursuant to the EU Benchmarks Regulation (the "**ESMA Register**"). Benchmark administrators which were authorised, registered or recognised by the UK Financial Conduct Authority ("**FCA**") prior to 31 December 2020 were removed from the ESMA Register on 1 January 2021. From 1 January 2021 onwards, the FCA maintains a separate public register of benchmark administrators and non-UK benchmarks pursuant to the UK Benchmarks Regulation (the "**UK Register**"). The UK Register retains UK benchmark administrators which were authorised, registered or recognised by the FCA prior to 31 December 2020.

The EU Benchmarks Regulation and the UK Benchmarks Regulation could have a material impact on any Securities linked to or referencing a "benchmark". For example:

- a rate or index which is a "benchmark" within the meaning of the EU Benchmarks Regulation may not be used in certain ways by an EU supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration from any EU competent authority (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision and the benchmark is not endorsed). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration or, if a non-EU entity, "equivalence" is not available and it is not recognised and the benchmark is not endorsed, then the Securities may be redeemed prior to maturity;
- a rate or index which is a "benchmark" within the meaning of the UK Benchmarks Regulation may not be used in certain ways by a UK supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration from the FCA (or, if a non-UK entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision and the benchmark is not endorsed). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration or, if a non-UK entity, "equivalence" is not available and it is not recognised and the benchmark is not endorsed, then the Securities may be redeemed prior to maturity; and
- the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the EU Benchmarks Regulation or UK Benchmarks Regulation, as applicable, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and (depending on the terms of the particular Securities could lead to adjustments to the terms of the Securities as the Calculation Agent deems necessary or appropriate.

Any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" and/or (iii) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Securities linked to or referencing a "benchmark" and the Calculation Agent may be entitled to make corresponding adjustments to the terms and conditions of the Securities.

Discontinuance and replacement of Interbank Offered Rates

Certain base rates, including LIBOR and EURIBOR, are the subject of ongoing national and international regulatory scrutiny and reform. Some of these reforms are already effective, while others are still to be implemented or formulated as follows:

(a) LIBOR

LIBOR (published in 7 maturities and 5 currencies) ceased or became non-representative of the underlying market and economic reality that such rate is intended to measure immediately after 31 December 2021, with the exception of certain USD LIBOR settings, for which this will occur immediately after 30 June 2023. Investors should refer to "*Section C – Investment Considerations – Cessation or Non-Representativeness of LIBOR*" for more information on the cessation or non-representativeness of LIBOR.

On 8 September 2021, the Critical Benchmarks (References and Administrators' Liability) Bill (the "**Bill**") was introduced to the House of Lords and had its first reading. The Bill has been designed specifically in light of the FCA's new powers under the Financial Services Act 2021 to designate a critical benchmark (or specified tenors/currencies of such benchmark) as an A.23A

benchmark under the UK Benchmarks Regulation where it is not representative of the market or economic reality it is intended to measure or the representativeness of the benchmark is at risk and the representativeness of the benchmark cannot or should be maintained or restored. These powers would enable the FCA to change the LIBOR methodology so as to allow the LIBOR rate on the reference screen to continue to be published on the basis of the revised methodology: "synthetic LIBOR". Further detail applies, but among other things, the Bill introduces provisions intended to have the statutory effect under English law governed contracts of ensuring that references to LIBOR will be construed to include synthetic LIBOR.

The EU has also amended the EU Benchmarks Regulation to include a power for regulators to designate one or more replacement benchmarks in certain limited circumstances for critical benchmarks or systemically important benchmarks where certain triggers are satisfied, relating to non-representativeness, cessation or orderly wind-down of the benchmark or where its use by supervised entities in the European Union is no longer permitted. This legislation is also primarily intended to assist contracts that do not have fallbacks or do not have suitable fallbacks for permanent cessation. Implementing regulations designating a statutory replacement rate for certain settings of CHF LIBOR and for the benchmark Euro overnight index average (EONIA) were published in the Official Journal of the European Union on 22 October 2021 and have applied from 1 January 2022 and 3 January 2022, respectively.

The New York ("NY") legislation originally proposed by the Alternative Reference Rates Committee (the "ARRC") to assist the transition of certain financial contracts governed by NY law which reference USD LIBOR (among other things) provides that, by operation of law, any contract that has a fallback based on USD LIBOR or no fallback will fallback to the recommended benchmark replacement plus spread adjustment. A United States federal legislative solution may also be enacted in the future. Absent this, the application of the New York legislative solution will however be limited.

Whilst the above proposed legislative solutions may assist some tough legacy trades, regulators have made clear that they are not an alternative to active transition. Parties who rely on potential legislative solutions will not have control over the economic terms of that action. Also there is a risk that such legislative solutions may not be effective in time, may not be able to address all issues or be practicable in all circumstances and the existence of different solutions in different jurisdictions could also give rise to potential conflicts of law in the absence of harmonisation.

(b) EURIBOR

Unlike LIBOR, EURIBOR is expected to continue to be published by the European Money Markets Institute (EMMI) past 2021, using a reformed or hybrid methodology, in compliance with the EU Benchmarks Regulation. However, no assurance can be given this will be the case. The euro risk-free rate working group for the euro area has published a set of guiding principles and, on 11 May 2021, its recommendations on EURIBOR fallback trigger events and fallback rates. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system.

IBOR transition and risks relating to anticipatory trigger events

For any Securities where the reference rate or benchmark is a LIBOR, the announcements by the FCA and IBA on 5 March 2021 that all LIBOR settings will cease to be published or will no longer be representative may have triggered certain fallback provisions (such trigger being an "**anticipatory trigger**"). Whilst fallback provisions may have been triggered, the effective date and consequences of such fallbacks may not take effect until after the date of such announcements. Consequences of such fallbacks may require the Calculation Agent or the Issuer (or both) to identify a replacement rate or benchmark, calculate a spread to be applied to the replacement rate or benchmark, make adjustments and fulfil other related obligations under relevant fallback provisions in the terms and conditions of the Securities. The Issuer and/or the Calculation Agent may make all determinations and/or adjustments in respect of the Securities as are provided for in connection with the occurrence of an anticipatory trigger, notwithstanding that such anticipatory trigger may have occurred before the Issue Date of the Securities. The Calculation Agent will give notice to holders of the Securities prior to making changes to the terms of the Securities but may not give notice significantly in advance. Holders of the Securities should ensure that they read the fallback provisions applicable to their particular Securities and the related risk factors in light of this possibility. Whilst an anticipatory trigger may not result in the immediate replacement of the applicable rate or benchmark with a successor rate or benchmark, when changes are made there is a risk that the return on the Securities will be adversely affected (including that holders of the Securities receive a significantly lower amount of interest) or that the Securities may be early redeemed.

Key risks relating to the reform and eventual replacements of IBORs with risk free rates

The reform and eventual replacement of IBORs with risk-free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any of these developments could have a material adverse effect on the value of and return on Securities linked to any such rates and in addition, the Group's business, financial condition and results of operations could be impacted materially adversely and/or it could be subject to disputes, litigation or other actions with counterparties or relative participants.

The risk-free rates have different calculation methodologies and other important differences from the IBORs they will eventually replace (see "*Differences in methodologies*" below). Market terms for Securities linked to such "risk free rates" may evolve over time, and trading prices of such Securities may be lower than those of later-issued Securities as a result. Furthermore, if the relevant risk-free rate (such as SONIA or SOFR) fails to gain market acceptance or does not prove to be widely used in the capital markets, the trading price of Securities linked to risk free rates may be lower than those of Securities linked to rates that are more widely used and as a result, investors may not be able to sell their Securities at all or may not be able to sell their Securities at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

To the extent that any Securities reference an IBOR, prospective investors in Securities should understand (i) what fallbacks might apply in place of such rate (if any), (ii) when those fallbacks will be triggered and (iii) what unilateral amending rights (if any) on the part of the Issuer or the Calculation Agent apply under the terms of such Securities. See the risk factors set out below.

Differences in methodologies

Risk-free rates may differ from LIBOR, EURIBOR or other IBORs in a number of material respects, including (without limitation) by being backwards-looking in most cases and being calculated on a compounded or weighted average basis, whereas such interbank offered rates are generally expressed on the basis of a forward-looking term and include a risk-element based on interbank lending. As such, prospective investors should be aware that LIBOR, EURIBOR and other interbank offered rates and any risk-free rates may behave materially differently as interest reference rates for the Securities.

Interest on Securities which reference a backwards-looking risk-free rate is not determined until the end of the relevant interest calculation period. Therefore, the Securityholders may be unable to reliably estimate in advance the amount of interest which will be payable on such Securities. Also, some investors may be unable or unwilling to trade such Securities without changes to their information technology or other operational systems, which could adversely impact the liquidity of such Securities. Further, if such Securities become due and payable following an Event of Default, or are otherwise redeemed early on a date which is not an Interest Payment Date, where a separate amount in respect of accrued interest is payable, the final Interest Rate and/or Interest Amount payable in respect of such Securities shall be determined by reference to a shortened period ending immediately prior to the date on which the Securities become due and payable or are scheduled for redemption.

Developing markets for SONIA, SOFR and €STR and potential impact on performance and returns

The market continues to develop in relation to adoption of SONIA, SOFR and €STR as reference rates in the capital markets for sterling, U.S. dollar or euro bonds, respectively, and their adoption as alternatives to the relevant interbank offered rates. In addition, market participants and relevant working groups are exploring alternative reference rates based on risk-free rates, including term SONIA, SOFR and €STR reference rates (which seek to measure the market's forward expectation of an average SONIA rate, SOFR or €STR over a designated term).

The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the terms and conditions and used in relation to Securities that reference such risk-free rates issued under this Base Prospectus. In respect of SONIA, while the terms and conditions include a compounded daily SONIA formula and there have been a number of capital markets issuances to date referencing compounded daily SONIA, on 3 August 2020 the Bank of England began publishing the SONIA daily Compounded Index. Term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term) have been published from January 2021 and term SOFR rates have also become available for use. It is possible that market participants may seek to apply compounded rates or term rates for capital markets issuances, although UK authorities have made clear their preference for the market to adopt a broad-based transition to SONIA compounded in arrears for new transactions, with use of a term SONIA reference rate being more limited than current use of LIBOR.

The Issuer may in the future also issue Securities referencing SONIA, SOFR, €STR or other risk-free rates that differ materially in terms of interest determination when compared with any previous SONIA, SOFR, €STR or other risk-free rate referenced Securities issued by it under this Base Prospectus.

The development of new risk-free rates could result in reduced liquidity or increased volatility, or could otherwise affect the market price of any Securities that reference a risk-free rate issued under this Base Prospectus from time to time.

The new risk free rates may have no established trading market, and an established trading market may never develop or may not be very liquid. Market terms for Securities indexed to the new risk free rates may evolve over time, and may lead to impacts on trading prices and values, and such Securities may not be able to be sold or may not be able to be sold at prices that will provide a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Similarly, the manner of adoption or application of risk-free rates in the Eurobond markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Prospective investors should carefully consider how any mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Securities referencing such risk-free rates.

Interest on Securities linked to a Reference Rate will be calculated using a Replacement Reference Rate selected by the Calculation Agent if a Reference Rate Event occurs

Occurrence of a Reference Rate Event

If the Reference Rate Event Provisions apply pursuant to Valuation and Settlement Condition 9, there is a risk that a Reference Rate Event may occur in respect of such Reference Rate (for an overview of how the Reference Rate Event Provisions apply, see "*Section C – Investment Considerations – Application of Fallback Provisions in respect of Reference Rates and Benchmarks*" below).

It is uncertain as to if or when a Reference Rate Event may occur in respect of a Reference Rate and the circumstances which could trigger such an event are outside of the Issuer's control. Whether a Reference Rate Event has occurred will be determined by the Calculation Agent, and any subsequent use of a replacement Reference Rate is likely to result in changes to the terms and conditions of the Securities (which could be extensive) and/or interest or other payments under the Securities that are lower than or that do not otherwise correlate over time with the payments that could have been made on such Securities if the relevant Reference Rate remained available in its current form.

Subject to the terms and conditions of the Securities, each Securityholder will bear the risks arising from any such change and will not be entitled to any form of compensation as a result of any such change.

Determination of alternative benchmark and any Adjustment Spread

If the Calculation Agent determines that a Reference Rate Event has occurred in respect of a Reference Rate, it will:

- (A) seek to identify a Replacement Reference Rate;
- (B) calculate the adjustment, if any, to the Replacement Reference Rate that it determines is required in order to reduce any transfer of economic value from (i) the relevant Issuer to the Securityholders or (ii) the Securityholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate with the Replacement Reference Rate (an "**Adjustment Spread**");
- (C) determine such other amendments to the Securities which it considers are necessary and/or appropriate in order to account for the effect of the replacement of the relevant Reference Rate with the Replacement Reference Rate (as adjusted by the Adjustment Spread); and
- (D) determine the timing for when the Replacement Reference Rate, Adjustment Spread and such other adjustments will become effective in relation to the relevant Securities.

Investors should be aware that:

- (I) the application of any Replacement Reference Rate (notwithstanding the inclusion of any Adjustment Spread), together with any consequential amendments (or, if applicable, any changes made following a material change), could result in a lower amount being payable than would otherwise have been the case;
- (II) more than one possible replacement rate may exist and if so it is possible that the Calculation Agent may select the least favourable replacement rate. In the case of IBOR linked swap rates, there is currently no industry-wide approach for dealing with the discontinuance or non-representativeness of such swap rates across all currencies and a complete consensus does not exist as to what rate or rates may become accepted replacements. It is impossible to predict the effect of any such replacements on the value of the Securities. Additionally, even where administrators have published new swap rates linked to risk free rates, there can be no guarantee that such rates will be liquid or recognised or acknowledged as being an industry standard, and the method by which such new swap rates are calculated may change in the future. Consequently, the outcomes of determinations by the Calculation Agent may be unpredictable and the exercise of discretion by the Calculation Agent may adversely affect the market value of, and return (if any) on, the Securities;
- (III) any such Replacement Reference Rate (as adjusted by any Adjustment Spread) and any consequential amendments (or, if applicable, any changes made following a material change) shall apply without requiring the consent of the holders of Securities; and
- (IV) if the Calculation Agent determines that it is not possible or commercially reasonable to adjust the terms and conditions of the Securities to account for the effect of any Reference Rate Event or to identify a Replacement Reference Rate or calculate an Adjustment Spread, then absent a determination that no Replacement Reference Rate or other amendments to the terms of the Securities are required, the Securities may, at the Issuer's option, be the subject of an early redemption, in which case investors may lose some or all of their investment. There is no guarantee that a Replacement Reference Rate will be identified or that an Adjustment Spread will be calculated by the Calculation Agent.

The Adjustment Spread may be positive, negative or zero and/or determined pursuant to a formula or methodology. There can be no assurance that the replacement adjustment will fully mitigate the transfer of economic value between the Issuer and holders and the proposed replacement adjustments are not intended, or able, to replicate the dynamic bank credit risk premium embedded in an IBOR.

Interim adjustments

If, following a Reference Rate Event but prior to any adjustments or replacement having occurred, the relevant Reference Rate is required for any determination in respect of the Securities and at that time, no amendments have occurred in accordance with the foregoing and:

- (A) if the Reference Rate is still available, and it is still permitted under applicable law or regulation for the Securities to reference the Reference Rate and for the Issuer to use the Reference Rate, the level of the Reference Rate shall be determined pursuant to the terms that would apply to the determination of the Reference Rate as if no Reference Rate Event had occurred; or
- (B) if the Reference Rate is no longer available or it is no longer permitted under applicable law or regulation for the Securities to reference the Reference Rate or for the Issuer to use the Reference Rate, the level of the Reference Rate shall be determined by the Calculation Agent in its sole and absolute discretion, after consulting any source it deems to be reasonable, as
 - (a) a substitute or successor rate that it has determined is the industry-accepted (in the derivatives market) substitute or successor rate for the relevant Reference Rate (including

any temporary substitute or successor rate) or the rate published at the relevant time on the last day on which the Reference Rate was published or was permitted to be used in accordance with applicable law or regulation (the "**Last Permitted Rate**") or (b) if it determines there is no such industry-accepted (in the derivatives market) substitute or successor rate or the use of the Last Permitted Rate would not produce a commercially reasonable result, a substitute or successor rate that it determines is a commercially reasonable alternative to the Reference Rate, taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

To the extent that any Securities reference a Reference Rate with respect to which a Reference Rate Event is likely to occur during the term of such Securities, prospective investors should be aware that the consequence of the occurrence of a Reference Rate Event described above will be realised if such a Reference Rate Event occurs.

The interests of the Calculation Agent in making the determinations described above may be adverse to the investors' interests as holders of Securities. The selection of a Replacement Reference Rate, and any decisions made by the Calculation Agent in connection with implementing a Replacement Reference Rate with respect to the Securities, could have a material adverse effect on the value of and return on the Securities. Further, there is no assurance that the characteristics of any Replacement Reference Rate will be similar to the relevant Reference Rate or that any Replacement Reference Rate will produce the economic equivalent of such Reference Rate. In particular, any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the relevant Securities if the previous rate had continued being published in its current form.

Interest on Securities linked to USD LIBOR will be calculated using a Benchmark Replacement selected by the Calculation Agent if a Benchmark Transition Event occurs

USD LIBOR may be replaced by a successor or substitute interest rate

If the USD LIBOR Fallback Provisions apply pursuant to Valuation and Settlement Condition 9, and if the Calculation Agent determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to USD LIBOR, then a Benchmark Replacement will be determined by the Calculation Agent and substituted for USD LIBOR for all purposes of the Securities (for an overview of how the USD LIBOR Fallback Provisions apply, see "*Section C – Investment Considerations – Application of Fallback Provisions in respect of Reference Rates and Benchmarks*"). Such a determination and any related decisions, determinations or elections made by the Calculation Agent in connection with implementing a Benchmark Replacement with respect to the Securities could result in adverse consequences to the relevant rate of interest, which could adversely affect the return on, value of and market for the Securities.

The occurrence of a Benchmark Transition Event and the potential reliance on SOFR to determine the rate of interest may adversely affect the return on and the market value of the Securities

Pursuant to the terms of Valuation and Settlement Condition 7, if the Calculation Agent determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to USD LIBOR, then an alternative rate based on SOFR (if it can be determined and assuming no interpolated benchmark is available) will be substituted for USD LIBOR for all purposes of the Securities (unless a Benchmark Transition Event also occurs with respect to the Benchmark Replacements that are linked to SOFR, in which case the next-available Benchmark Replacement will be used). In the following discussion of SOFR, when referred to SOFR-linked Securities, Securities at any time when the applicable Benchmark Replacement is based on SOFR are meant.

SOFR differs fundamentally from, and may not be a comparable replacement for, USD LIBOR

The NY Federal Reserve began to publish SOFR in April 2018 and began publishing SOFR Averages (a SOFR Index) in March 2020. Term SOFR is provided by CME Group and was formally recommended by the ARRC in July 2021 for use in certain areas, in particular, where use of overnight SOFR or SOFR Averages has proven difficult. SOFR is intended to be a broad measure of the cost of borrowing cash overnight collateralised by Treasury securities. The NY Federal Reserve reports that SOFR includes all trades in the Broad General Collateral Rate, plus bilateral Treasury repurchase agreement ("**repo**") transactions cleared through the delivery-versus-payment service offered by the Fixed Income Clearing Corporation (the "**FICC**"), a subsidiary of The Depository Trust & Clearing Corporation ("**DTCC**"). SOFR is filtered by the NY Federal Reserve to remove a portion of the foregoing transactions considered to be "specials". According to the NY Federal Reserve, "specials" are repos for specific-issue collateral which take place at cash-lending rates below those for general collateral repos because cash providers are willing to accept a lesser return on their cash in order to obtain a particular security. The NY Federal Reserve reports that SOFR is calculated as a volume-weighted median of transaction-level tri-party repo data collected from The Bank of New York Mellon, which currently acts as the clearing bank for the tri-party repo market, as well as General Collateral Finance Repo transaction data and data on bilateral Treasury repo transactions cleared through the FICC's delivery-versus-payment service. The NY Federal Reserve notes that it obtains information from DTCC Solutions LLC, an affiliate of DTCC.

SOFR differs fundamentally from LIBOR. For example, SOFR is a secured overnight rate, while USD LIBOR is an unsecured rate that represents interbank funding over different maturities. In addition, because SOFR is a transaction-based rate, it is backward-looking, whereas USD LIBOR is forward-looking. Because of these and other differences, there can be no assurance that the SOFR will perform in the same way as USD LIBOR would have done at any time, and there is no guarantee that it is a comparable substitute for USD LIBOR.

Furthermore, the NY Federal Reserve notes on its publication page for SOFR that use of SOFR is subject to important limitations, indemnification obligations and disclaimers, including that the NY Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to holders of SOFR-linked Securities. If the manner in which SOFR is calculated is changed or if SOFR is discontinued, that change or discontinuance may adversely affect the return on and value of the relevant Securities.

No reliance on historical data

Although the NY Federal Reserve has also begun publishing historical indicative SOFR going back to 2014, such pre-publication historical data inherently involves assumptions, estimates and approximations. Investors should not rely on any historical changes or trends in SOFR as an indicator of the future performance of SOFR. Since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in comparable benchmark or market rates. As a result, the return on and value of SOFR-linked Securities may fluctuate more than floating rate Securities that are linked to less volatile rates.

The Calculation Agent may make determinations or elections that could adversely affect the return on, value of and market for Securities linked to USD LIBOR

If the Calculation Agent determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to USD LIBOR, then it may make certain determinations, decisions and elections with respect to the rate of interest on such Securities. Any such determination, decision or election could affect the amount of interest payable on such Securities. For example, if the Calculation Agent determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, then it will determine, among other things, the Benchmark Replacement Conforming Changes. Any exercise of discretion by the Calculation Agent under the terms and conditions of the Securities, could present a conflict of interest. In making the determinations, decisions and elections, the Calculation Agent may have economic interests that are adverse to the interests of the holders of the Securities, and such determinations, decisions or elections could have a material adverse effect on the return on, value of and market for such Securities. All determinations, decisions or elections by the Calculation Agent pursuant to the Benchmark Transition Provisions will be conclusive and binding absent manifest error, will be made in the sole discretion of the Calculation Agent and shall become effective without consent from the holders of Securities or any other party.

Interim adjustments

If, following a Benchmark Transition Event but prior to any adjustments or replacement having occurred, the relevant USD Benchmark is required for any determination in respect of the Securities and at that time, a Benchmark Replacement and any Benchmark Replacement Adjustment have not been determined and relevant Benchmark Replacement Conforming Changes have not been made and:

- (A) if the USD Benchmark is still available, and it is still permitted under applicable law or regulation for the Securities to reference the USD Benchmark and for the Issuer and/or the Calculation Agent to use the USD Benchmark, the USD Benchmark shall be determined pursuant to the terms that would apply to the determination of the USD Benchmark as if no Benchmark Transition Event had occurred; or
- (B) if the USD Benchmark is no longer available or it is no longer permitted under applicable law or regulation for the Securities to reference the USD Benchmark or for the Issuer and/or the Calculation Agent to use the USD Benchmark, the USD Benchmark shall be determined by the Calculation Agent in its sole and absolute discretion, after consulting any source it deems to be reasonable, as (a) a substitute or successor rate that it has determined is the industry-accepted (in the derivatives market) substitute or successor rate for USD LIBOR of the relevant tenor or (b) if it determines there is no such industry-accepted (in the derivatives market) substitute or successor rate, a substitute or successor rate that it determines is a commercially reasonable alternative to the USD Benchmark, taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

To the extent that any Securities reference a USD Benchmark with respect to which a Benchmark Transition Event is likely to occur during the term of such Securities, prospective investors should be aware that the consequence of the occurrence of a Benchmark Transition Event described above will be realised if such a Benchmark Transition Event occurs and the USD LIBOR Fallback Provisions apply pursuant to Valuation and Settlement Condition 9.

The interests of the Calculation Agent in making the determinations described above may be adverse to the investors' interests as holders of Securities. The selection of a Benchmark Replacement, and any decisions made by the Calculation Agent in connection with implementing a Benchmark Replacement with respect to the Securities, could have a material adverse effect on the value of and return on the Securities. Further, there is no assurance that the characteristics of any Benchmark Replacement will be similar to the relevant USD Benchmark or that any Benchmark Replacement will produce the economic equivalent of such USD Benchmark. In particular, any of these fallback provisions may result in interest

payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the relevant Securities if the previous rate had continued being published in its current form.

Risks relating to the occurrence of an Administrator/Benchmark Event

The occurrence of an Administrator/Benchmark Event (if applicable) in respect of any relevant Benchmark may mean adjustments are made to the Securities which may include selecting one or more successor benchmarks and making related adjustments to the Securities, including if applicable to reflect any increased costs of the Issuer of providing exposure to the replacement or successor rate(s) and/or benchmark(s). Alternatively, early redemption of the Securities may apply. For an overview of how the Administrator/Benchmark Event provisions apply, see "*Section C – Investment Considerations – Application of Fallback Provisions in respect of Reference Rates and Benchmarks*" below. Any such adjustment may have an adverse effect on the value of, return on or market for the Securities, and if the Securities are early redeemed, the amount repaid to investors could be substantially less than their initial investment and investors could therefore sustain a loss.

Risks relating to the discontinuance or unavailability of an Interest Rate

If (x) the provisions of Underlying Schedule 10 relating to the determination of the Underlying Closing Level of an interest rate on any Scheduled Trading Day in the event of the occurrence of any Disrupted Day and (y) the provisions relating to the consequences of any such Disrupted Day set out in the terms and conditions of the Securities apply pursuant to Valuation and Settlement Condition 9, if (i) the relevant Electronic Page is not available, or (ii) the percentage rate of the relevant interest rate for the relevant Scheduled Trading Day does not appear on the Electronic Page, and/or (iii) the relevant interest rate is not provided or published by the relevant administrator or a relevant authorised distributor and/or (iv) a component of the relevant interest rate is not provided or published, the Calculation Agent shall determine the underlying closing level for such interest rate as it deems appropriate and in good faith and in a commercially reasonable manner, having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market)) and may make such adjustments to the terms and conditions of the Securities as it determines necessary or appropriate to reflect any industry-accepted practices for the successor interest rate, including applying an adjustment factor. Any such amendments may result in payments under the Securities being different from those originally anticipated, and could have a material adverse effect on the value of and return on the Securities.

Swap Rates may be materially amended or discontinued

More generally, Swap Rates (as defined below) may be subject to reform in the future. These reforms may cause one or more Swap Rate(s) to be discontinued, to be modified, or to be subject to other changes. Any such consequence could also have a material adverse effect on the value of and return on Securities the payout of which is dependent on the performance of such Swap Rate.

EURIBOR, GBP LIBOR, USD LIBOR and other "IBORs" and certain risk-free rates are used as the floating leg in the calculation of certain swap rates (collectively, the "**Swap Rates**", and each a "**Swap Rate**"), respectively. Consequently, if the calculation methodologies of EURIBOR, GBP LIBOR, USD LIBOR and/or other relevant "IBORs" are reformed, this could have a material effect on the calculation of the relevant Swap Rate(s). Furthermore, if or when EURIBOR, GBP LIBOR, USD LIBOR and/or other relevant "IBORs" are discontinued (as described above), it may not be possible to calculate the relevant Swap Rate(s), and different fallback provisions would apply based on the fallback provisions described in Valuation and Settlement Condition 9. Such fallback provisions will be applied in the order set out therein. This will mean that, where ISDA Determination applies, any permanent cessation fallback provisions included as part of the applicable ISDA Definitions will not apply. In this regard it is worth

noting that IBA ceased publication of GBP LIBOR ICE Swap Rate for all tenors immediately after publication on 31 December 2021 and expects to consult on the potential cessation of USD LIBOR ICE Swap Rate in due course. Publication of the Tokyo Swap Rate (as presented on Eikon page <17143> and other RICs) ceased immediately following publication on 30 December 2021.

Progress towards identifying appropriate fallbacks to apply following the discontinuance or non-representativeness of Swap Rates comprising EURIBOR, GBP LIBOR, USD LIBOR and/or other relevant "IBORs" has not occurred at the same rate across all currencies. For example, on 23 July 2021, ISDA announced the results of its consultation on fallbacks for the GBP LIBOR ICE Swap Rate and the USD LIBOR ICE Swap Rate (the "**ISDA Consultation**"). The results indicated that a significant majority of respondents agreed with the fallback provisions set out in the draft amendments attached to the ISDA Consultation, which implement the fallbacks suggested by the Non-Linear Task Force ("**NLTF**") of the Working Group on Sterling Risk-Free Reference Rates in the UK and a Subcommittee of the ARRC in the US. The fallbacks are first to a published 'all-in' fallback rate that is calculated in accordance with the methodology suggested by NLTF or ARRC (as applicable) or, if such a published fallback rate is not available, then to a calculation performed by the Calculation Agent in accordance with the applicable methodology. In contrast, Refinitiv published its own consultation on 19 April 2021 inviting feedback on the introduction of a new TONA based total return swap, and the design of a fallback rate for use in swap rate products that currently reference JPY LIBOR. Pursuant to the results of its consultation, Refinitiv launched a TONA-based Tokyo Swap Rate ("**TSR**") in October 2021 following a prototype period as well as the Tokyo Swap Rate Fallback settings intended for adoption by users of Tokyo Swap Rate that have legacy JPY LIBOR TSR contracts that mature after 2021. ISDA has prepared updates to the 2006 ISDA Definitions and the 2021 ISDA Definitions in relation to these fallbacks.

Even where progress has been made towards identifying appropriate fallbacks and administrators have published new swap rates linked to risk free rates, such as the GBP SONIA ICE Swap Rate launched by the IBA on 14 December 2020, there can be no guarantee that such rates will be liquid, and the method by which such new swap rates are calculated may change in the future. Consequently, the outcomes of determinations made by the Issuer and/or the Calculation Agent following a Reference Rate Event in respect of a relevant Swap Rate may be unpredictable and the exercise of discretion by the Issuer and/or the Calculation Agent may adversely affect the market value of, and return (if any) on, the Securities. Further, there is no assurance that the characteristics of any Replacement Reference Rate will be similar to the relevant Swap Rate, or that the Replacement Reference Rate will produce the economic equivalent of the relevant Swap Rate.

In any event, prior to any date of actual cessation or non-representativeness in respect of a relevant Swap Rate, the occurrence of a Reference Rate Event in respect of a relevant Swap Rate may discourage market participants from contributing to the underlying instruments, such as constant maturity swaps, by reference to which such Swap Rate is determined. Consequently, there may be inconsistent, limited or no liquidity in such instruments. This may happen more frequently as the relevant date of actual cessation or non-representativeness approaches. In particular, this may occur at times when the Issuer and/or the Calculation Agent is required to make a determination in respect of such rate under the Securities, and may adversely affect the market value of, and return (if any) on, such Securities.

The Calculation Agent may make consequential changes to the terms and conditions of the Securities if the methodology of a relevant rate is amended

In the event that the administrator of a rate referenced by Floating Rate Securities or Interest Rate Linked Securities amends the methodology of such interest rate (including, without limitation, amendments to the time of publication of the relevant rate), the Calculation Agent may but shall not be required to make any related or consequential changes to the terms and conditions of the Securities not otherwise provided for in the Reference Rate Event Provisions, Administrator/Benchmark Event provisions, Underlying Rate

Fallback provisions, SRD Fallback Provisions, ISDA Determination provisions, SONIA Fallback provisions or SOFR Fallback provisions (including, without limitation, any technical, administrative or operational changes, changes to timing and frequency of determining rates and making payments of interest and changes to the definition of Designated Maturity (where applicable)) that the Calculation Agent determines to be appropriate in a manner substantially consistent with market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no appropriate market practice exists, in such other manner as the Calculation Agent determines is reasonably necessary). Investors should be aware that such changes to the terms and conditions of the Securities may adversely affect the market value of, and return (if any) on, such Securities.

Risks in connection with "Shift" and "Lag" methodologies

Where SONIA Floating Rate Determination (Non-Index Determination) or SOFR Floating Rate Determination is specified in the applicable Final Terms as the manner in which the interest rate is to be determined and, in respect of SOFR Floating Rate Determination, Index Determination is specified to be not applicable in the applicable Final Terms, either "Shift" or "Lag" will be specified as applicable. "Shift" and "Lag" have emerged as conventions for daily compounding of rates in arrears. The conventions differ in the period that each method uses when weighting each business day's overnight rate for the relevant risk free rate. The "Shift" approach weights the relevant risk free rate according to the relevant number of days that apply in a separate observation period which 'shadows' the Interest Period (e.g. the observation period might start and end five business days preceding the relevant start and end of the Interest Period). The "Lag" approach weights the relevant risk free rate according to the number of days that apply in the relevant Interest Period. Investors should be aware that divergence between the "Shift" and "Lag" methodologies could lead to a difference in the interest being determined even where the relevant risk free rate is the same for the Securities and may not be what investors expected.

Methodologies for determining interest payable in respect of Securities linked to SONIA or SOFR may differ substantially

The amount of interest payable in respect of Securities linked to SONIA or SOFR will be calculated by reference to (i) the rate of return of a daily compound interest investment (with the daily SONIA or SOFR, as applicable, as the reference rate for the calculation of interest); or (ii) where SONIA Floating Rate Determination (Index Determination) or Index Determination in respect of SOFR Floating Rate Determination applies, a screen rate, formula or value as may be published by the administrator of SONIA or SOFR, as applicable. There can be no assurance that amounts of interest determined pursuant to (i) and (ii) will be similar, and over time the market may adopt an application of these methodologies that differs significantly from that set out in the terms and conditions of the Securities. Further, investors should refer to "*Developing markets for SONIA, SOFR and €STR and potential impact on performance and returns*" above for a description of the key risks relating to the development of risk free rates across the market generally.

Risks associated with certain types of Securities and certain product features

Risks relating to Fixed Rate Securities

Investment in Fixed Rate Securities involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Securities, this will adversely affect the value of the Fixed Rate Securities.

Risks relating to Fixed/Floating Rate Securities

Fixed/Floating Rate Securities may bear interest at a rate that converts from a fixed rate to a floating rate or from a floating rate to a fixed rate. Where the relevant Issuer has the right to effect such a conversion,

this will affect the secondary market in, and the market value of, the Securities, since the relevant Issuer may be expected to convert the rate when it is likely to result in a lower overall cost of borrowing for the relevant Issuer. If the relevant Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Securities may be less favorable than then prevailing spreads on comparable Floating Rate Securities tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other floating rate Securities issued by the relevant Issuer. If the relevant Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than the prevailing market rates.

Mandatory early redemption or "autocall"

If "Mandatory Early Redemption" is specified as applicable in the applicable Final Terms, then such Final Terms will specify what constitutes a "MER Barrier Event" (or "Exit Barrier Event") and, following the occurrence of a MER Barrier Event (or Exit Barrier Event), the Securities are redeemed on the relevant MER date and the relevant MER amount (or exit amount) specified in the applicable Final Terms becomes payable and no further amount shall be payable in respect of such Securities after the MER date. In this case, investors are subject to a reinvestment risk, as they may not be able to replace their investment in such Securities with an investment that has a similar profile of chances and risks as the relevant Securities.

If any Securities are redeemed early in accordance with the above, the amount received by the relevant holders will be limited to the MER amount (or exit amount) irrespective of the price of the relevant Underlying(s) or any other reference factor(s) applicable to such Underlying(s). Furthermore, investors will not benefit from any movement in the price of relevant Underlying(s) that may occur during the period between the relevant date of early redemption and the maturity date.

Unless the MER amount (or exit amount) is a specified fixed amount in respect of each calculation amount and such amount is greater than an investor's initial investment in the Securities, then investors should note that, unless a scheduled minimum redemption amount is specified in all circumstances, then they may lose all or part of their investment.

Securities subject to optional redemption by the Issuer

An optional redemption feature of Securities, as set out in General Condition 4 (*Redemption and Purchase*) and any related provisions in the applicable Final Terms, is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate. Prospective investors should consider reinvestment risk in light of other investments available at that time.

Redemption amount or Entitlement due on the maturity date

Where the redemption amount or assets deliverable at maturity is determined by reference to the performance of the relevant Underlying(s), investors should note that, unless a minimum redemption amount is specified in all circumstances, then they may lose all or part of their investment.

Securities subject to a cap

Where the terms of the Securities provide that the amount payable or deliverable is subject to a maximum amount (cap), the Securityholder's ability to participate in any change in the value of the Underlying(s) over the term of the Securities will be limited, no matter how much the level, price or other applicable

value of the Underlying(s) rises above the cap level over the term of the Securities. Accordingly, the value of or return on the Securities may be significantly less than if the Securityholder had purchased the Underlying(s) directly or through another product not subject to a cap.

Risks relating to FX provisions

Where FX Provisions are included in the applicable Final Terms and a relevant Underlying is denominated in a currency other than the relevant Specified Currency of the Securities then values of such Underlying will be converted into the relevant Specified Currency. Such conversion may, as provided in the terms and conditions of the Securities, be determined by referring to a cross rate (meaning that such conversion will be determined via the exchange rate of a third currency). Therefore, amounts due or assets deliverable in respect of the Securities will also be linked to the performance of the relevant exchange rate and negative performance of such exchange rate could negate positive performance of the relevant Underlying(s).

Risks relating to Securities that are Physical Delivery Securities

Settlement disruption event and failure to deliver

In the case of Physical Delivery Securities, if a Settlement Disruption Event occurs or exists on any date specified for the delivery of the relevant Entitlement, settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The relevant Issuer in these circumstances may select to deliver the relevant Entitlement in such other commercially reasonable manner as it may select or it may pay the Disruption Cash Redemption Amount in lieu of delivering the Entitlement.

If, in relation to Physical Delivery Securities, "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms and it is impossible or impracticable, in the opinion of the Calculation Agent, to deliver, when due, some or all of the Relevant Assets where such failure to deliver is due to illiquidity in the market for such Relevant Assets, the relevant Issuer has the right to pay the Failure to Deliver Redemption Amount in lieu of delivering some or all of such Relevant Assets which are affected by such illiquidity.

If "Aggregation of Entitlements" is specified as applicable in the applicable Final Terms, Physical Delivery Securities which are held by the same Securityholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Securities and such aggregate Entitlements will be rounded down to the nearest Tradeable Amount of the Relevant Asset(s), in such manner as the relevant Calculation Agent shall determine. If "Aggregation of Entitlements" is not specified as applicable in the applicable Final Terms, the Entitlement in respect of each Calculation Amount will be rounded down to the nearest whole multiple of the Tradeable Amount of the Relevant Asset(s) in such manner as the relevant Calculation Agent shall determine. Amounts of the Relevant Asset less than the Tradeable Amount shall not be delivered and no cash or other adjustment will be made in respect of such rounding unless "Cash Adjustment" is specified as applying in the applicable Final Terms, in which case, the relevant Issuer shall pay to the relevant Securityholder a cash amount equal to the value of any such lesser amount.

Consequently, Securityholders may not receive the Entitlements that they expect to receive, may receive less than they would otherwise expect or may receive a cash amount instead.

Issuer's option to Substitute Assets or to pay the Alternative Cash Redemption Amount

If the Securities are Physical Delivery Securities, the relevant Issuer may, if the Calculation Agent determines that the Relevant Asset or Relevant Assets, as the case may be, comprises securities which are not freely tradeable and deliverable, elect either (i) to substitute a Substitute Asset or Substitute Assets, as the case may be, for the Relevant Asset or Relevant Assets, or (ii) not to deliver or procure the

delivery of the relevant Entitlement or the relevant Substitute Asset or Substitute Assets, as the case may be, to the relevant Securityholders, but in lieu of such delivery to make payment to the relevant Securityholders on the maturity date of the Alternate Cash Redemption Amount. In these circumstances, Securityholders may receive assets which are different to, or cash instead of, the assets that they expected to receive.

Expenses

All Expenses arising from the delivery of the Entitlement in respect of Physical Delivery Securities shall be for the account of the relevant Securityholder.

Expenses in respect of Physical Delivery Securities shall be deducted by the relevant Issuer from any cash amount owing to such Securityholder and paid by the relevant Issuer on behalf of the Securityholder or paid by the relevant Issuer on behalf of such Securityholder by converting such amount of the Relevant Asset(s) due to be delivered as necessary to pay the Expenses, as specified by the Securityholder in the relevant Asset Transfer Notice. If any Expenses are not so paid, the relevant Securityholder shall be deemed to authorise the relevant Issuer to convert and the relevant Issuer may convert such amount of the Relevant Asset(s) into cash sufficient to cover the Expenses in respect of the relevant Security from which the relevant Intermediary shall deduct such Expenses.

Variation of Settlement

In respect of Physical Delivery Securities, the relevant Issuer has an option to vary settlement in respect of such Securities and, in lieu of delivering or procuring delivery of the relevant Entitlement, to pay an amount determined to be equal to the fair market value of the Entitlement on the maturity date.

In such circumstances, a Securityholder will not receive any Relevant Assets as the Securities will only be cash settled and the redemption amount received by a Securityholder may be significantly less than their initial investment in the Securities. Furthermore, a Securityholder would not benefit from any increase in the price of the Relevant Assets that would have otherwise been deliverable if the Securities had been settled by physical delivery after the date of determination of such fair market value.

Risks relating to Securities that are Dual Currency Securities

If the Securities are Dual Currency Securities, then amounts payable in respect of the Securities will be determined by converting all amounts due under the Securities from the Denomination Currency into the Relevant Currency by multiplying such amount by the Dual Currency Exchange Rate for the last occurring valuation date. In such circumstances, amounts that Securityholders receive in respect of the Securities are also linked to the performance of the Underlying which is the exchange rate used for such conversions. Investors should therefore also have regard to the risk factors relating to Securities linked to a currency exchange rate as set out above (in particular the risk factor entitled "*Risks associated with Securities linked to currency exchange rates*").

SECTION C – INVESTMENT CONSIDERATIONS

General

Before investing in Securities investors should determine whether an investment in Securities is appropriate in their particular circumstances and should consult with their legal, business and tax advisers to determine the consequences of an investment in Securities and to arrive at their own evaluation of the investment. In particular, the relevant Issuer, the CGMHI Guarantor (if applicable) and the CGMFL Guarantor (if applicable) recommend that investors take independent tax advice before committing to purchase any Securities. None of the relevant Issuer, the CGMHI Guarantor (if applicable) and the CGMFL Guarantor (if applicable) provides tax advice and therefore responsibility for any tax implications of investing in any Securities rests entirely with each investor. Investors should note that the tax treatment will differ from jurisdiction to jurisdiction. Investors will assume and be solely responsible for any and all taxes of any jurisdiction or governmental or regulatory authority, including (without limitation) any state or local taxes or other similar assessment or charge that may be applicable to any payment in respect of the Securities.

An investment in Securities is only suitable for investors who:

- (a) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in Securities;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their financial situation;
- (c) are capable of bearing the economic risk of an investment in Securities for an indefinite period of time; and
- (d) recognise that it may not be possible to dispose of Securities for a substantial period of time, if at all.

Prospective investors in Securities should make their own independent decision to invest in Securities and as to whether the investment in Securities is appropriate or proper for them based upon their own judgement and upon advice from such advisers as they may deem necessary. Prospective investors in Securities should not rely on any communication (written or oral) of the relevant Issuer, the CGMHI Guarantor (if applicable) and the CGMFL Guarantor (if applicable), any Dealer or any of their affiliates or their respective officers or agents as investment advice or as a recommendation to invest in Securities, it being understood that information and explanations related to Securities shall not be considered to be investment advice or a recommendation to invest in Securities. No communication (written or oral) received from the relevant Issuer, the CGMHI Guarantor (if applicable) and the CGMFL Guarantor (if applicable), any Dealer or any of their affiliates or their respective officers or agents shall be deemed to be an assurance or guarantee as to the expected results of an investment in Securities.

Hedging arrangements in respect of the Securities

Any Issuer and/or the CGMHI Guarantor and/or the CGMFL Guarantor and/or any of their affiliates may enter into arrangements to hedge the relevant Issuer's and/or the CGMHI Guarantor's and/or the CGMFL Guarantor's obligations under the Securities and/or the CGMHI Deed of Guarantee and/or the CGMFL Deeds of Guarantee but are not required to do so. If they do so, any Issuer and/or the CGMHI Guarantor and/or the CGMFL Guarantor and/or any such affiliate will have certain rights under such hedging arrangements and may pursue actions and take steps that they deem appropriate to protect their own interests under such hedging arrangements without regard to the consequences for Securityholders. Investors will not have recourse to the applicable counterparty under any such hedging arrangements and any such hedging arrangements will not confer any rights or entitlements on any Securityholders and

will constitute separate obligations of the relevant Issuer and/or the CGMHI Guarantor and/or the CGMFL Guarantor and/or any such affiliate.

Prospective investors intending to purchase Securities to hedge against the market risk associated with investing in the particular Underlying(s) should recognise the complexities of utilising Securities in this manner. For example, the value of the relevant Securities may not exactly correlate with the value of the relevant Underlying(s). Due to fluctuating supply and demand for Securities, there is no assurance that their value will correlate with movements of the Underlying(s). For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant Underlying, and the investor may suffer a loss accordingly.

Certain factors affecting the value and trading price of Securities

The amounts due and/or value of any assets to be delivered in respect of the Securities at any time prior to the relevant maturity date is typically expected to be less than the trading price of such Securities at that time. The difference between the trading price and such amounts due and/or value of any assets to be delivered, as the case may be, will reflect, among other things, the "time value" of the Securities. The "time value" of the Securities will depend partly upon the length of the period remaining to maturity and expectations concerning the value of the Underlying(s).

Securities pose some additional risks with regard to interim value. The interim value of Securities varies as the price or level of the Underlying(s) varies, as well as due to a number of other interrelated factors, including (i) the trading price of the relevant Securities, (ii) the value and volatility of the Underlying(s), (iii) the remaining tenor, (iv) in the case of Cash Settled Securities, the probable range of any Redemption Amounts, (v) any change(s) in interim interest rates and dividend yields if applicable, (vi) any change(s) in currency exchange rates, (vii) the depth of the market or liquidity of the Underlying(s) and (viii) any related transaction costs.

Any sale of Securities prior to their scheduled redemption may be at a substantial discount from the original purchase price and Securityholders may lose some or all of their investment.

Application of Fallback Provisions in respect of Reference Rates and Benchmarks

The fallback provisions described in Valuation and Settlement Condition 9 in respect of Reference Rates and Benchmarks apply as follows:

USD LIBOR:

- If a Benchmark Transition Event occurs and if the applicable Final Terms specify U.S. Dollar LIBOR ("**USD LIBOR**") to be applicable in respect of the Securities, Valuation and Settlement Condition 7 (the "**USD LIBOR Fallback Provisions**") shall apply.
- A Benchmark Transition Event occurs with respect to a USD Benchmark (which could be USD LIBOR or the relevant Benchmark Replacement) where there has been a public statement or publication of information by, amongst others, the administrator of the USD Benchmark which states that the administrator of the USD Benchmark has ceased or will cease to provide the USD Benchmark permanently or indefinitely, or by the regulatory supervisor for the administrator of the USD Benchmark announcing that the USD Benchmark is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such USD Benchmark is intended to measure.
- If the Calculation Agent cannot determine the relevant USD Benchmark by interpolating from other tenors of the USD Benchmark, the next-available alternative under the USD LIBOR Fallback Provisions will apply to replace the relevant USD Benchmark in respect of the Securities. In order, these replacement alternatives are as follows:

- (a) (a) the replacement rate shall be the applicable fallback reference rate as determined by the International Swap Dealers Association, Inc. ("ISDA"), together with an adjustment;
 - (b) if (a) is not available, if a form of Term SOFR has been selected or recommended by the Relevant Governmental Body, then the replacement rate shall be such Term SOFR, together with an adjustment;
 - (c) if (a) and (b) are not available, if a form of compounded SOFR has been selected or recommended by the Relevant Governmental Body or alternatively the Calculation Agent, then the replacement rate shall be such Compounded SOFR, together with an adjustment;
 - (d) if (a), (b) and (c) are not available, if an alternate rate of interest has been selected or recommended by the Relevant Governmental Body, then the replacement rate shall be such alternate rate, together with an adjustment;
 - (e) if (a), (b), (c) and (d) are not available, then the replacement rate shall be as determined by the Calculation Agent, together with an adjustment.
- The Calculation Agent has powers to make conforming changes to the terms of the Securities as it decides may be appropriate to reflect the adoption of the replacement rate, and to determine a USD Benchmark to apply in respect of the Securities on an interim basis. For related risks see *"Interest on Securities linked to USD LIBOR will be calculated using a Benchmark Replacement selected by the Calculation Agent if a Benchmark Transition Event occurs"*.

Reference Rates:

- If a Reference Rate Event occurs and if the applicable Final Terms specify any Reference Rate to be applicable in respect of the Securities, provided that the USD LIBOR Fallback Provisions do not apply to the relevant Reference Rate as a result of the relevant event or circumstance, Valuation and Settlement Condition 6 (the "**Reference Rate Event Provisions**") shall apply.
- A Reference Rate Event occurs with respect to a Reference Rate (which means any interest rate howsoever described in the terms and conditions of the Securities and as amended from time to time pursuant to the provisions of the Reference Rate Event Provisions) where the Calculation Agent determines that (i) the Reference Rate has been or will be materially changed, has ceased or will cease to be provided permanently or indefinitely and there is no successor administrator or provider that will continue to provide the Reference Rate, or a regulator or other official sector entity has prohibited or will prohibit the use of or it is otherwise not permitted to use such Reference Rate in respect of the Securities; (ii) any authorisation or similar in respect of the Reference Rate or the administrator or sponsor of the Reference Rate has not been, or will not be, obtained or has been, or will be, refused or similar and as a result the Issuer or any other entity is not or will not be permitted under applicable law or regulation to use the relevant Reference Rate to perform its or their obligations under the Securities; (iii) unless the applicable Final Terms specify that *"Reference Rate Event (Limb (iii))"* does not apply, it is not commercially reasonable to continue use of the Reference Rate due to licensing restrictions or changes in licensing costs; (iv) the administrator or sponsor of the relevant Reference Rate, any national, regional or other supervisory or regulatory authority which is responsible for either (a) supervising the administrator or sponsor of the Reference Rate or (b) regulating the Reference Rate, the central bank for the currency of the Reference Rate or other official body with applicable responsibility announcing that the Reference Rate is no longer, or as of a specified future date will no longer be representative of any underlying market and or economic reality that

such Reference Rate is intended to measure and that representativeness will not be restored; or (v) the relevant Reference Rate is the subject of any market-wide development in the over-the-counter derivatives market (which may be in the form of a protocol, publication of standard terms or otherwise by ISDA) pursuant to which such Reference Rate is or will be replaced with a replacement rate with respect to over-the-counter derivatives transactions which reference such Reference Rate.

- The Calculation Agent will seek to determine a replacement Reference Rate which must be one of the following:
 - (a) where applicable, if a replacement Reference Rate can be determined by interpolating from other tenors of the relevant Reference Rate, such interpolated Reference Rate, together with an adjustment; or
 - (b) a pre-nominated replacement Reference Rate, together with an adjustment; or
 - (c) an index, benchmark, other price source or rate or fall-back rate or methodology for calculating an index, benchmark, other price source, rate or fall-back rate which is recognised or acknowledged as being an industry standard replacement for over-the-counter derivative transactions which reference such Reference Rate, together with an adjustment; or
 - (d) an index, benchmark or other price source that the Calculation Agent determines to be a commercially reasonable alternative for the Reference Rate, together with an adjustment.
- In the alternative, the Calculation Agent may determine that no replacement Reference Rate is required or may adjust the term of the Securities as it determines necessary or appropriate to account for the effect of such Reference Rate Event. Where applicable, if no such determination and/or adjustments are made, and if the Calculation Agent determines that it is not possible or commercially reasonable to identify a replacement Reference Rate or calculate the relevant adjustment, the Issuer may redeem the Securities early.
- The Calculation Agent has powers to make amendments to the terms of the Securities as it considers are necessary and/or appropriate to account for the effect of the replacement Reference Rate, and to determine the level of the Reference Rate to apply in respect of the Securities on an interim basis. For related risks see "*Interest on Securities linked to a Reference Rate will be calculated using a Replacement Reference Rate selected by the Calculation Agent if a Reference Rate Event occurs*" above.

Benchmarks:

- If an Administrator/Benchmark Event occurs with respect to the relevant rate, provided that the USD LIBOR Fallback Provisions and the Reference Rate Event Provisions do not apply to the relevant event or circumstance, Valuation and Settlement Condition 8 (the "**Administrator/Benchmark Event provisions**") shall apply.
- An Administrator/Benchmark Event occurs with respect to a Benchmark (which means any figure or rate and where any amount payable or deliverable under the Securities, or the value of the Securities, is determined by reference in whole or in part to such figure or rate) where the Calculation Agent determines that (i) a Benchmark is materially changed, cancelled or its use is prohibited by a regulator or other official sector entity in respect of the Securities; (ii) any authorisation or similar in respect of a relevant Benchmark or the administrator or sponsor of a relevant Benchmark has not been, or will not be, obtained or has been, or will be, rejected or similar with the effect that the Issuer or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Benchmark to perform

its or their respective obligations under the Securities; (iii) unless the applicable Final Terms specify that "*Administrator/Benchmark Event (Limb (3))*" does not apply, it is not commercially reasonable to continue use of the Benchmark due to licensing restrictions or changes in licence costs; or (iv) a relevant supervisor and/or sponsor officially announces the benchmark is no longer representative, or as of a specified future date will no longer be capable of being representative, of any relevant underlying market(s) or economic reality that such Benchmark is intended to measure.

- The Calculation Agent may make adjustment(s) to the terms of the Securities as it determines necessary or appropriate to account for the effect of the relevant event or circumstance, including, without limitation, the selection of a successor benchmark. Alternatively and if applicable, the Issuer may redeem the Securities early. For related risks see "*Risks relating to the occurrence of an Administrator/Benchmark Event*" above.

Interest Rate as an Underlying:

- If an event or circumstance occurs with respect to an interest rate which is an Underlying and if the applicable Final Terms specify an interest rate as an Underlying, provided that none of the USD LIBOR Fallback Provisions, the Reference Rate Event Provisions and the Administrator/Benchmark Event provisions apply to the relevant interest rate as a result of such relevant event or circumstance, the provisions of Underlying Schedule 10 relating to the determination of the Underlying Closing Level of an interest rate on any Scheduled Trading Day in the event of the occurrence of any Disrupted Day and the provisions relating to the consequences of any such Disrupted Day set out in the terms and conditions of the Securities shall apply. For related risks, see "*Risks relating to the discontinuance or unavailability of an Interest rate*" above.

Screen Rate Determination or USD LIBOR Screen Rate Determination:

- If a floating rate cannot be determined and if the applicable Final Terms specify any of Screen Rate Determination, USD LIBOR Screen Rate Determination or ISDA Determination to be applicable, provided that none of the USD LIBOR Fallback Provisions, the Reference Rate Event Provisions, the Administrator/Benchmark Event provisions and the Underlying Interest Rate Conditions apply to the relevant floating rate as a result of such relevant event or circumstance, the relevant provisions of Valuation and Settlement Condition 3(a) shall apply.
- Where Screen Rate Determination is applicable, if the Page is not available or if no offered quotation or fewer than three offered quotations appear or no rate is provided or published by the relevant administrator or a relevant authorised distributor or a component of the relevant rate is not provided or published (as applicable), in each case as at the Specified Time, or by 10.30 a.m. Sydney time in the case of BBSW, the Calculation Agent will determine the Screen Rate in good faith and in a commercially reasonable manner having regard to such source as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). Such rate may be (without limitation) a rate published by another authorised distributor, a rate formally recommended by the administrator of the relevant rate or the administrator or supervisor or competent authority responsible for supervising such administrator, the last published rate or the arithmetic mean of quotations provided by reference banks selected by the Calculation Agent.
- Where USD LIBOR Screen Rate Determination is applicable, if the relevant Reference Rate cannot be determined, the Calculation Agent will determine the Reference Rate as follows:

- (a) if two or more offered quotations are provided by reference banks, then the Reference Rate for the relevant date or period will be the arithmetic average of such quotations;
- (b) if a) is not available, if three or more New York City banks selected by the Calculation Agent quote certain rates to leading European banks at approximately 11:00 a.m. (New York City time) on the relevant Interest Determination Date, then the Reference Rate for the relevant date or period will be the arithmetic average of such rates; or
- (c) if a) and b) are not available, then notwithstanding anything to the contrary in the terms and conditions of the Securities, the Reference Rate for the relevant date or period will be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to alternative benchmarks then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

ISDA Determination:

Where ISDA determination is selected as the method of calculation of a rate of interest, the relevant rate will be determined on the same basis as the rate that would be calculated under an 'over-the-counter' derivative transaction documented using the market standard interest rate definitions published by ISDA. These definitions provide a standard method of calculating interest and include certain 'fallback' provisions which may be used to determine an interest rate in the event of temporary or permanent discontinuation of the relevant rate. However, for the purposes of the Securities, the fallback provisions set out in the relevant ISDA interest rate definitions will only apply in certain circumstances as described below.

The ISDA interest rate definitions have been amended, supplemented and replaced from time to time and, as at the date of this document, there are two versions which are relevant for the purposes of the Securities: the 2006 ISDA Definitions published by ISDA as amended or supplemented from time to time (the "**2006 Definitions**") and the 2021 ISDA Interest Rate Derivatives Definitions published by ISDA as restated from time to time (the "**2021 Definitions**"). The applicable Final Terms will indicate the version of the ISDA definitions which apply in respect of the Securities.

- Where ISDA Determination is applicable, and the 2006 Definitions are specified in the applicable Final Terms, if the Calculation Agent determines that the ISDA Rate cannot be determined, then notwithstanding anything to the contrary in the Terms and conditions of the Securities, and prior to the application of any provisions relating to an index cessation event (howsoever described) or other permanent cessation fallback provisions in the 2006 Definitions (including where applicable such fallbacks set out in any supplement to the 2006 Definitions), the ISDA Rate for the relevant period and/or date shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to alternative benchmarks then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). It should be noted, however, that even though relevant fallback provisions may be included in accordance with the terms of the ISDA Determination itself or the above provision, if prior ranking fallback provisions described in Valuation and Settlement Condition 9 apply then these prior ranking fallback provisions will be applied first, meaning that any fallback provisions included as part of the ISDA Determination itself may not apply.
- Where ISDA Determination is applicable and the 2021 Definitions are specified in the applicable Final Terms, any fallback provisions relating to temporary cessation will apply in respect of the Securities. However, prior to the application of any provisions relating to permanent cessation or an Administrator/Benchmark Event in the 2021 Definitions

(including, for the avoidance of doubt any discontinued rates maturities provisions), then, subject as provided in "*Hierarchy Provisions and Adjustments*" below and notwithstanding anything to the contrary in the terms and conditions of the Securities, the ISDA Rate for the relevant period and/or date shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to alternative benchmarks then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market). See further "*The unavailability, disruption or discontinuance of any interest rate to which the Securities are linked will result in the application of certain fallback provisions*" above.

- For related risks, see "*If a floating rate becomes unavailable it may be determined in the Calculation Agent's discretion or by alternative methods*" above.

SONIA Floating Rate Determination, SOFR Floating Rate Determination:

- If a floating rate cannot be determined and SONIA Floating Rate Determination (Non-Index Determination), SONIA Floating Rate Determination (Index Determination) and/or SOFR Floating Rate Determination are specified in the applicable Final Terms, provided that none of the Reference Rate Event Provisions, the Administrator/Benchmark Event provisions and the Underlying Interest Rate Conditions apply to the relevant floating rate as a result of the relevant event or circumstance, the relevant provisions of Valuation and Settlement Condition 3(a) shall apply.
- Where SONIA Floating Rate Determination (Non-Index Determination) is applicable, if the Calculation Agent determines that the SONIA rate is not available on the relevant Page or has not otherwise been published by the relevant authorised distributors on a relevant day, the Calculation Agent will determine such SONIA rate as being:
 - (a) (i) the Bank of England's Bank Rate (the "Bank Rate") prevailing at close of business on such day in the relevant Observation Period; plus (ii) the mean of the spread of the SONIA rate to the Bank Rate over the previous five days on which a SONIA rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those spreads) and the lowest spread (or, if there is more than one lowest spread, one only of those spreads) to the Bank Rate; or
 - (b) if the Bank Rate is not published by the Bank of England at close of business on such day in the relevant Observation Period, the SONIA rate published on the relevant Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA rate was published on such Page (or otherwise published by the relevant authorised distributors).

Notwithstanding the foregoing, in the event the Bank of England publishes guidance as to (A) how the SONIA rate is to be determined or (B) any rate that is to replace the SONIA rate, the Calculation Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA rate for the purpose of the Securities for so long as the SONIA rate is not available or has not been published by the authorised distributors. For related risks, see "*If a floating rate becomes unavailable it may be determined in the Calculation Agent's discretion or by alternative methods*" above.

- If the relevant rate is unavailable and the SONIA Floating Rate Determination provisions of Valuation and Settlement Condition 3(a) and/or the SOFR Floating Rate Determination provisions of Valuation and Settlement Condition 3(a) apply, subject as provided in Valuation and Settlement Condition 9, the relevant SONIA Index value, or SOFR or SOFR Index value, as applicable, will be determined by the Calculation Agent in good faith and in

a commercially reasonable manner having regard to such sources as it deems appropriate and any alternative benchmark then available and taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market).

Cessation or Non-Representativeness of LIBOR

On 5 March 2021, ICE Benchmark Administration Limited ("**IBA**"), the authorised and regulated administrator of LIBOR, announced its intention to cease the publication of all 35 LIBOR settings on 31 December 2021, or for certain USD LIBOR settings, on 30 June 2023 (the "**IBA Announcement**"). The IBA notified the FCA of its intention and on the same date, the FCA published an announcement on the future cessation and loss of representativeness of the 35 LIBOR benchmarks (the "**FCA Announcement**"). The FCA Announcement states that all 35 LIBOR maturities and currencies will either cease to be published by any administrator or will no longer be representative as follows:

- (i) all 7 euro LIBOR ("**EUR LIBOR**") settings, all 7 Swiss franc LIBOR ("**CHF LIBOR**") settings, the Spot Next, 1-week, 2-month and 12-month Japanese yen LIBOR ("**JPY LIBOR**") settings, the overnight, 1-week, 2-month and 12-month GBP LIBOR settings, and the 1-week and 2-month USD LIBOR settings ceased to be published immediately after 31 December 2021;
- (ii) the overnight and 12-month USD LIBOR settings will cease to be published immediately after 30 June 2023;
- (iii) the 1-month, 3-month and 6-month JPY LIBOR settings and the 1-month, 3-month and 6-month GBP LIBOR settings are no longer representative immediately since 31 December 2021; and
- (iv) the 1-month, 3-month and 6-month USD LIBOR settings will no longer be representative immediately after 30 June 2023.

On 8 September 2021, the Critical Benchmarks (References and Administrators' Liability) Bill (the "**Bill**") was introduced to the House of Lords and had its first reading.

The Bill has been designed specifically in light of the FCA's new powers under the Financial Services Act 2021 to designate a critical benchmark (or specified tenors/currencies of such benchmark) as an A.23A benchmark under the UK Benchmarks Regulation where it is not representative of the market or economic reality it is intended to measure or the representativeness of the benchmark is at risk and the representativeness of the benchmark cannot or should be maintained or restored. These powers would enable the FCA to change the LIBOR methodology so as to allow the LIBOR rate on the reference screen to continue to be published on the basis of the revised methodology: "synthetic LIBOR". Further detail applies, but among other things, the Bill introduces provisions intended to have the statutory effect under English law governed contracts of ensuring that references to LIBOR will be construed to include synthetic LIBOR.

In June 2021, the FCA consulted on its proposed decision to require synthetic LIBOR for 1-month, 3-month and 6-month sterling and JPY LIBOR settings and has since confirmed the methodology that it will require ICE Benchmark Administration to use to calculate such rates.

As of 1 January 2022, the 1-month, 3-month and 6-month GBP and JPY settings ("**Synthetic LIBOR**") have been designated by the FCA as A.23A benchmarks. Since this date, any new use (within the meaning given to such term in the UK Benchmarks Regulation) of Synthetic LIBOR by any supervised entity in scope of the UK Benchmarks Regulation is prohibited. Legacy use (within the meaning given to such term in the UK Benchmarks Regulation) of Synthetic LIBOR by supervised entities in scope of the UK Benchmarks Regulation is however permitted until further notice, except in cleared derivatives transactions.

Such Synthetic LIBOR is calculated on a forward-looking term basis plus a fixed spread but, there is no guarantee that any such rate will be similar to the original LIBOR rate. In addition, there is no guarantee as to how long any Synthetic LIBOR rate will continue to be available. The FCA only intend to compel publication of the 1, 3 and 6 month JPY LIBOR settings for one year until the end of 2022. No clear statement has been made as to how long the FCA intend to compel publication of the 1, 3 and 6 month GBP LIBOR settings. No decision has been made on the introduction of synthetic LIBOR for those USD LIBOR settings continuing until June 2023 but "new use" (within the meaning given to such term in the UK Benchmarks Regulation) of these USD LIBOR settings by supervised entities has been prohibited since 1 January 2022.

The EU has also amended the EU Benchmarks Regulation to include a power for regulators to designate one or more replacement benchmarks in certain limited circumstances for critical benchmarks or systemically important benchmarks where certain triggers are satisfied, relating to non-representativeness, cessation or orderly wind-down of the benchmark or where its use by supervised entities in the European Union is no longer permitted. This legislation is also primarily intended to assist contracts that do not have fallbacks or do not have suitable fallbacks for permanent cessation. Implementing regulations designating a statutory replacement rate for certain settings of CHF LIBOR and for the benchmark Euro overnight index average (EONIA) were published in the Official Journal of the European Union on 22 October 2021 and have applied from 1 January 2022 and 3 January 2022, respectively.

The New York ("NY") legislation originally proposed by the Alternative Reference Rates Committee (the "ARRC") to assist the transition of certain financial contracts governed by NY law which reference USD LIBOR (among other things) provides that, by operation of law, any contract that has a fallback based on USD LIBOR or no fallback will fallback to the recommended benchmark replacement plus spread adjustment. A United States federal legislative solution may also be enacted in the future. Absent this, the application of the New York legislative solution will however be limited.

Whilst the above proposed legislative solutions may assist some tough legacy trades, regulators have made clear that they are not an alternative to active transition. Parties who rely on potential legislative solutions will not have control over the economic terms of that action. Also there is a risk that such legislative solutions may not be effective in time, may not be able to address all issues or be practicable in all circumstances and the existence of different solutions in different jurisdictions could also give rise to potential conflicts of law in the absence of harmonisation.

If "*2021 Definitions Linear Interpolation*" is specified as applicable in the applicable Final Terms, then the provisions relating to "*Linear Interpolation*" set out in the 2021 Definitions will apply to the relevant Floating Rate Option. The Floating Rate Option shall be determined at the level of the related swap or hedging arrangement by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period, provided that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the calculation agent for the relevant swap shall determine such rate at such time and by reference to such sources as it determines appropriate. In such circumstances, the linear interpolation provisions set out in Valuation and Settlement Condition 3(f) of the terms and conditions of the Securities shall not apply to the Securities.

Leveraging Risk

Borrowing to fund the purchase of the Securities (leveraging) can have a significant negative impact on the value of and return on the investment. Investors considering leveraging the Securities should obtain further detailed information as to the applicable risks from the leverage provider.

Change of law (including applicable tax law) or tax practice

The terms and conditions of the Securities are based on relevant laws in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to such laws or administrative practices after the date of this Base Prospectus and any such change could materially adversely impact the value of any Securities affected by it.

In addition, any relevant tax law, regulations or practice applicable as at the date of this Base Prospectus and/or the date of purchase or subscription of any Securities may change at any time (including during any subscription period or the term of any Securities) and it is not possible to predict the precise tax treatment which will apply to the Securities at any given time. Any such change may have an adverse effect on the investor including that its Securities may be redeemed before their due date, their liquidity may decrease and/or the tax treatment of amounts payable or receivable by or to the Investor may be less favorable than otherwise expected by it.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to securities issued under the Programme, including any Securities. The credit rating agencies may have different rating methodologies, criteria, models and requirements from one another. The ratings may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be reduced, withdrawn or qualified by the rating agency at any time. If the ratings on any Securities are reduced, withdrawn or qualified, it could adversely affect the liquidity or the market value of such Securities.

Additionally, the global landscape of financial sector regulation itself is undergoing significant change. In the U.S., the Dodd-Frank Act, among other things, expands regulatory oversight of Citigroup Inc. (and its subsidiaries) and credit rating agencies. It is not clear how this expanded regulatory oversight will impact the ratings on the Securities or the rating of the relevant Issuer, the CGMHI Guarantor and/or the CGMFL Guarantor.

In general, European (excluding United Kingdom) regulated investors are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). If the status of the rating agency rating the Securities changes, European (excluding United Kingdom) regulated investors may no longer be able to use the rating for regulatory purposes and the Securities may have a different regulatory treatment. This may result in European (excluding United Kingdom) regulated investors selling the Securities which may impact the value of the Securities and any secondary market. The list of registered and certified rating agencies published by ESMA on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

In general, United Kingdom regulated investors are restricted under the UK CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the UK and registered under the UK CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by non-UK credit rating agencies, unless the relevant credit ratings are endorsed by a UK-registered credit rating agency or the relevant non-UK rating agency is certified in accordance with the UK CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). If the status of the rating agency rating the Securities changes, United Kingdom regulated investors may no longer be able to use the rating for regulatory purposes and the Securities may have a different regulatory treatment. This may result in United Kingdom regulated investors selling the Securities which may impact the value of the Securities and any secondary market. The list of registered and certified rating agencies published by the FCA on its website in accordance with the UK CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated FCA list.

Information relating to the current ratings of Citigroup Inc., CGMHI and CGML is available at www.citigroup.com.

Citi, its management and its businesses must continually review, analyse and successfully adapt to ongoing regulatory and other uncertainties and changes in the U.S. and globally

Despite the adoption of final regulations and laws in numerous areas impacting Citigroup Inc. and its businesses over the past several years, Citigroup Inc., its management and its businesses continually face ongoing regulatory and legislative uncertainties and changes, both in the United States of America ("U.S.") and globally. While the areas of ongoing regulatory and legislative uncertainties and changes facing Citigroup Inc. are too numerous to list completely, various examples include, but are not limited to (i) potential fiscal, monetary, regulatory, tax and other changes arising from the U.S. federal government and other governments, including as a result of the differing priorities of the current U.S. presidential administration, changes in regulatory leadership or focus and actions of Congress or in response to the pandemic; (ii) potential changes to various aspects of the regulatory capital framework and requirements applicable to Citigroup Inc.; and (iii) future legislative and regulatory requirements in the U.S. and globally related to climate change, including any new disclosure requirements. When referring to "regulatory", Citigroup Inc. is including both formal regulation and the views and expectations of its regulators in their supervisory roles.

Ongoing regulatory and legislative uncertainties and changes make Citigroup Inc.'s and its management's long-term business, balance sheet and strategic budget planning difficult, subject to change and potentially more costly. U.S. and other regulators globally have implemented and continue to discuss various changes to certain regulatory requirements, which would require ongoing assessment by management as to the impact to Citigroup Inc., its businesses and business planning. For example, while the Basel III post-crisis regulatory reforms and revised market risk framework have been finalised at the international level, there remain significant uncertainties with respect to the integration of these revisions into the U.S. regulatory capital framework. Business planning is required to be based on possible or proposed rules or outcomes, which can change dramatically upon finalisation, or upon implementation or interpretive guidance from numerous regulatory bodies worldwide, and such guidance can change.

Moreover, U.S. and international regulatory and legislative initiatives have not always been undertaken or implemented on a coordinated basis, and areas of divergence have developed and continue to develop with respect to the scope, interpretation, timing, structure or approach, leading to inconsistent or even conflicting requirements, including within a single jurisdiction. For example, in May 2019, the European Commission adopted, as part of Capital Requirements Directive V, a new requirement for major banking

groups headquartered outside the EU (which would include Citigroup Inc.) to establish an intermediate EU holding company where the foreign bank has two or more institutions (broadly meaning banks, broker-dealers and similar financial firms) established in the EU. While in some respects the requirement mirrors an existing U.S. requirement for non-U.S. banking organizations to form U.S. intermediate holding companies, the implementation of the EU holding company requirement could lead to additional complexity with respect to Citigroup Inc.'s resolution planning, capital and liquidity allocation and efficiency in various jurisdictions.

Regulatory and legislative changes have also significantly increased Citigroup Inc.'s compliance risks and costs and can adversely affect Citigroup Inc.'s businesses, results of operations and financial condition.

Green Bonds

The Final Terms relating to any issuance of specific Securities may provide that it will be the relevant Issuer's intention to apply an amount equal to the net proceeds of such Securities to fund, in whole or in part, the financing or refinancing of "Eligible Green Assets", which refers to loans and/or investments made by entities within the Group for assets or projects that meet the Green Bond Eligibility Criteria (as specified in the Green Bond Framework) of the Group in accordance with its Green Bond Framework where the use of such funds supports the sustainable progress strategy of the Group ("**Green Bonds**"). Potential investors should make their own independent decision to invest in Green Bonds and as to whether an investment in such Securities is appropriate or proper for them based upon their own judgement, circumstances and investment criteria or guidelines and upon advice from such advisers as they may deem necessary.

Green Bond Framework

The Group has developed a Green Bond Framework (the "**Green Bond Framework**") for securities issuances in order to finance projects that contribute to climate change mitigation as well as projects that promote sustainable infrastructure. The below description is based on the Green Bond Framework as at the date of this Base Prospectus. However, the Green Bond Framework may be amended or updated from time to time and investors should therefore refer to the most recent version of the Green Bond Framework which will be available on the Group's website (https://www.citigroup.com/citi/fixedincome/green_bonds.htm) and the applicable Final Terms for information on the use of proceeds of the relevant Securities.

As at the date of this Base Prospectus, the Green Bond Framework has received a second party opinion by an independent consultant as detailed therein. Any such opinion is only current as of the date that opinion was issued and is not, nor should be deemed to be, a recommendation by the relevant Issuer, the Dealers or any other person to buy, sell or hold Green Bonds. Potential investors must determine for themselves the relevance of any such opinion and/or the information contained therein for the purpose of any investment in Green Bonds. As at the date of this Base Prospectus, the providers of such opinions are not subject to any specific oversight or regulatory or other regime. For the avoidance of doubt, the Green Bond Framework and any such opinion are not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Eligible Green Projects

The Green Bond Eligibility Criteria specified in the Green Bond Framework reflect good practices for supporting the transition to a low-carbon economy through projects in one or more of the following areas (or any other eligible area described in the applicable Final Terms) ("**Eligible Green Projects**"):

- *Renewable energy*: proceeds may be allocated towards the acquisition, development, operation and maintenance of new and ongoing renewable energy activities, including related costs.

- *Energy efficiency*: proceeds may be allocated towards the financing or refinancing of warehouse facilities for residential energy efficiency loans or consumer finance companies that provide residential energy efficiency loans for projects or assets that reduce energy consumption or mitigate greenhouse gas (GHG) emissions.
- *Sustainable transportation*: proceeds may be allocated towards building or operating mass transit and creating or constructing infrastructure to support mass transit.
- *Water quality and conservation*: proceeds may be allocated towards projects that improve water quality, efficiency and conservation.
- *Green building*: proceeds may be allocated towards financing of existing or new construction / renovation of residential and commercial buildings that earn certain efficiency and environmental certifications.

The Group has developed a list of exclusionary criteria ("**Exclusionary Criteria**") for the use of proceeds from the sale of Green Bonds (for example, certain large-scale hydropower plants, nuclear power plants and fossil fuel projects) and commits itself to not knowingly being involved in financing any such projects or activities through the proceeds of any such sale.

Green Bond Asset Portfolio and Management of Proceeds

Under the Green Bond Framework, the Group will maintain a single pool for Eligible Green Assets (the "**Green Bond Asset Portfolio**"). If the investment by any entity within the Group in any asset in the Green Bond Asset Portfolio is terminated or if an asset no longer meets the Green Bond Eligibility Criteria, the asset will be removed from the Green Bond Asset Portfolio.

The Group's Green Bond Asset Working Group (the "**GBA Working Group**") is responsible for supervising the Green Bond Asset Portfolio and the aggregate amount of Green Bonds issued by entities within the Group with the aim of ensuring that the aggregate amount in the Green Bond Asset Portfolio is equal to or greater than the aggregate amount raised by such Green Bonds. For this purpose, the aggregate size and maturity of the Green Bond Asset Portfolio is monitored quarterly. If for any reason the aggregate amount in the Green Bond Asset Portfolio is less than the aggregate amount of Green Bonds issued, the unallocated amount will be held in cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) in the liquidity portfolio of the Group until the amount can be allocated towards the Green Bond Asset Portfolio.

Reporting

Under the Green Bond Framework, a report (the "**Green Bond Report**") will be published by the Group on its website (https://www.citigroup.com/citi/fixedincome/green_bonds.htm) within a year from any issuance of any Green Bonds which will be renewed annually until full allocation and in case of any material changes. No other or separate notification will be provided to investors in particular Green Bonds as to the Green Bond Asset Portfolio.

The Green Bond Report will give details of (i) the total amount of assets in the Green Bond Asset Portfolio and the total outstanding amount raised by Green Bond issuances; (ii) the eligible assets within the Green Bond Asset Portfolio along with the Issuer's financial commitments to each asset; (iii) the total amount of unallocated proceeds, if any; and (iv) environmental impacts of the Green Bond Asset Portfolio to the extent it is practical to do so. Any such report is only current as of the date that report was issued and is not, nor should be deemed to be, a recommendation by the Issuer, the Dealers or any other person to buy, sell or hold Green Bonds.

Under the Green Bond Framework, the Issuer has also engaged external independent accountants to review that the assets included in the Green Bond Asset Portfolio meet the Green Bond Eligibility Criteria

and are not invested in assets as defined by the Exclusionary Criteria and that the aggregate amount in the Green Bond Asset Portfolio is equal to or greater than the aggregate amount raised by Green Bonds (or, to the extent the total amount of the outstanding bonds is less than the aggregate amount in Green Bond Asset Portfolio, that the difference is held in the manner described in the Green Bond Framework). Any review report is only current as of the date that report was issued and investors must determine for themselves the relevance of any such report and/or the information contained therein for the purposes of their investment considerations or expectations.

For the avoidance of doubt, neither the Green Bond Report nor the report of any third party is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Social Bonds issued by CGMHI

The Final Terms relating to any issuance of specific Securities may provide that it will be the relevant Issuer's intention to apply an amount equal to the net proceeds of such Securities to fund the financing or refinancing, in whole or in part, of a portion of the Group's portfolio of affordable housing assets ("**Social Bonds**"). Prospective investors should make their own independent decision to invest in Social Bonds and as to whether an investment in such Securities is appropriate or proper for them based upon their own judgement, circumstances and investment criteria or guidelines and upon advice from such advisers as they may deem necessary.

Social Bonds shall not be issued by CGMFL.

Social Bond Framework

The Group has developed a Social Bond Framework for Affordable Housing (the "**Social Bond Framework**") for securities issuances in order to finance projects that contribute to affordable and supportive housing. The Social Bond Framework may be amended or updated from time to time and investors should therefore refer to the most recent version of the Social Bond Framework which will be available on the Group's website (https://www.citigroup.com/citi/fixedincome/housing_bonds.htm) and the applicable Final Terms for information on the use of proceeds of the relevant Securities.

As at the date of this Base Prospectus, the Social Bond Framework has received a second party opinion by an independent consultant as detailed therein. Any such opinion is only current as of the date that opinion was issued and is not, nor should be deemed to be, a recommendation by the Issuer, the Dealers or any other person to buy, sell or hold Social Bonds. Potential investors must determine for themselves the relevance of any such opinion and/or the information contained therein for the purpose of any investment in Social Bonds. As at the date of this Base Prospectus, the providers of such opinions are not subject to any specific oversight or regulatory or other regime. For the avoidance of doubt, the Social Bond Framework and any such opinion are not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Affordable Housing Bond Asset Portfolio and Management of Proceeds

Under the Social Bond Framework, an amount equivalent to the net proceeds of Social Bonds is allocated to finance or refinance a portion of the Group's portfolio of affordable housing assets (the "**Affordable Housing Bond Asset Portfolio**"), which consist of selected eligible financing instruments which are used to finance the construction, rehabilitation and/or the preservation of quality affordable housing for low-moderate income populations in the United States (the "**Social Bond Eligibility Criteria**"). If the investment in any asset in the Affordable Housing Bond Asset Portfolio is terminated or if an asset no longer meets the Social Bond Eligibility Criteria, the asset will be removed from the Affordable Housing Bond Asset Portfolio.

The Group's Affordable Housing Bond Asset Working Group (the "**AFBA Working Group**") is responsible for oversight of the Affordable Housing Bond Asset Portfolio and monitoring the aggregate

amount of Social Bonds issued by entities within the Group with the aim of ensuring that the aggregate amount in the Affordable Housing Bond Asset Portfolio is equal to or greater than the aggregate amount raised by such Social Bonds. For this purpose, the continued eligibility and aggregate size of the Affordable Housing Bond Asset Portfolio is monitored quarterly. If for any reason the aggregate amount in the Affordable Housing Bond Asset Portfolio is less than the outstanding amount of Social Bonds issued, the unallocated amount will be held in cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) until the amount can be allocated towards the Affordable Housing Bond Asset Portfolio.

The Group has developed a list of exclusionary criteria ("**Exclusionary Criteria**") for the proceeds of the Affordable Housing Bond Asset Portfolio (for example, certain loans or investments for projects outside the United States, mortgage-backed securities and other derivatives, etc., all as further described in the Social Bond Framework) and commits itself to not knowingly be involved in financing any such projects or activities through the proceeds of any such sale.

Reporting

Under the Social Bond Framework, a report (the "**Affordable Housing Bond Report**") will be published by the Group on its website (https://www.citigroup.com/citi/fixedincome/housing_bonds.htm) within a year from any issuance of the inaugural Social Bonds and which will cover all Social Bonds issued during the reporting period specified therein and any material changes in the Affordable Housing Bond Asset Portfolio. No other or separate notification will be provided to investors in particular Social Bonds as to the Affordable Housing Bond Asset Portfolio.

The Affordable Housing Bond Report will provide information on (i) the total outstanding par amount of Social Bonds issued during the reporting period; (ii) the total outstanding amount of funded financial assets that comprise the Affordable Housing Bond Asset Portfolio; (iii) the total amount of unallocated proceeds, if any, assigned to cash, cash equivalent and/or other liquid marketable instruments; and (iv) social impacts of the Social Bonds by providing information about the housing properties associated with the Affordable Housing Bond Asset Portfolio. Any such report is only current as of the date that report was issued and is not, nor should be deemed to be, a recommendation by the Issuer, the Dealers or any other person to buy, sell or hold Social Bonds.

Under the Social Bond Framework, the Issuer will also engage external independent accountants to review that the assets included in the Affordable Housing Bond Asset Portfolio meet the Social Bond Eligibility Criteria and are not invested in assets as defined by the Exclusionary Criteria and that the aggregate amount in the Affordable Housing Bond Asset Portfolio is equal to or greater than the aggregate amount raised by the issuance of Social Bonds (or, to the extent the total amount of the outstanding Social Bonds is less than the aggregate amount in the Affordable Housing Bond Asset Portfolio, that the difference is held in the manner described in the Social Bond Framework). Any review report is only current as of the date that report was issued and investors must determine for themselves the relevance of any such report and/or the information contained therein for the purpose of their investment considerations or expectations.

For the avoidance of doubt, neither the Affordable Housing Bond Report nor the report of any third party is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Social Finance Bonds issued by CGMHI

The Final Terms relating to any issuance of specific Securities may provide that it will be the relevant Issuer's intention to allocate an amount equal to the net proceeds of such Securities to finance or refinance a portion of certain of the Group's portfolio of assets (such assets, the "**Social Finance Assets**" and any such portfolio, the "**Social Finance Assets Portfolio**") that meet the Group's Social Finance Asset Portfolio Eligibility Criteria (as specified in the Social Finance Framework) and do not meet any of the

Exclusionary Criteria (as specified in the Social Finance Framework). Potential investors should make their own independent decision to invest in the Social Finance Bonds and as to whether an investment in such Securities is appropriate or proper for them based upon their own judgement, circumstances and investment criteria or guidelines and upon advice from such advisers as they may deem necessary.

Social Finance Bonds shall not be issued by CGMFL.

Social Finance Framework

The Group has developed the Citigroup Social Finance Framework (the "**Social Finance Framework**") for securities issuances in order to support lending to social businesses across Citigroup's emerging market footprint. The below description is based on the Social Finance Framework as at the date of this Base Prospectus. However, the Social Finance Framework may be amended or updated from time to time and you should therefore refer to the most recent version of the Social Finance Framework which will be available on the Group's website (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) and the applicable Issue Terms for information on the use of proceeds of the relevant Securities.

The Social Finance Framework has been developed in line with the International Capital Market Association (ICMA) Social Bond Principles 2021. As at the date of this Base Prospectus, the Social Finance Framework has received a "second party opinion" by an independent consultant as detailed therein. Any such opinion is only current as of the date that opinion was issued and is not, nor should be deemed to be, a recommendation by the relevant Issuer, the Dealers or any other person to buy, sell or hold Social Finance Bonds. Potential investors must determine for themselves the relevance of any such opinion and/or the information contained therein for the purpose of any investment in Social Finance Bonds. As at the date of this Base Prospectus, the providers of such opinions are not subject to any specific oversight or regulatory or other regime. For the avoidance of doubt, the Social Finance Framework and any such opinion are not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Social Finance Assets

The Social Finance Assets must meet the Social Finance Asset Portfolio Eligibility Criteria by falling into one of the categories outlined below:

- (1) *Access to essential services*: financing expanding access to financial services to unbanked and underserved individuals and small and medium-sized enterprises (SMEs);
- (2) *Affordable housing*: financing for companies and financial service providers enabling access to housing and housing improvements for underserved individuals;
- (3) *Affordable basic infrastructure*: financing for companies that expand availability of water, sanitation, or clean energy for off-grid communities in emerging markets;
- (4) *Access to essential services (healthcare)*: financing for companies that expand access to inclusive healthcare, ensure healthy lives and promote well-being;
- (5) *Access to essential services (education)*: financing for companies and organisations that deliver and promote inclusive lifelong learning opportunities for underserved individuals lacking access to education and in emerging markets; and
- (6) *Access to essential services (smallholder farmer finance)*: financing for social enterprises that deliver products and services to smallholder farmers.

The Group has developed a list of exclusionary criteria for the use of the proceeds from Social Finance Bonds (the "**Exclusionary Criteria**") (for example, certain loans or investments (i) for projects in high

income economies, (ii) in institutions not meeting employment regulations, (iii) supporting fossil fuel energy generation, (iv) which may result in economic loss to the Group, (v) in activities which are incompatible with the Social Finance Framework or the Group's social finance criteria or which generate significant adverse social impacts or (vi) in "prohibited activities" as defined in the Social Finance Framework) and commits itself to not intentionally including any of the projects or activities in the Social Finance Asset Portfolio.

Eligible Social Finance Asset Selection and Evaluation Process

The Group's specialist Social Finance team will review assets to check they meet the Social Finance Asset Portfolio Eligibility Criteria and will identify a unique Social Finance Asset Portfolio for the aggregate principal amount of securities issued during a given reporting period that are intended to be used for Social Finance Assets ("**Social Finance Bonds**"). Once screened, Social Finance Assets will be added to the relevant Social Finance Asset Portfolio. The selection process for the Social Finance Assets takes into account whether the potential eligible asset satisfies the criteria for inclusion in the Social Finance Assets Portfolio. Additionally, the selection of Social Finance Assets is also governed by risk approval guidelines and credit monitoring standards in each relevant jurisdiction. If the Group's investment in any asset in any Social Finance Asset Portfolio is terminated or if an asset no longer meets the Social Finance Asset Portfolio Eligibility Criteria or satisfies any of the Exclusionary Criteria, the Social Finance team will remove such asset from the relevant Social Finance Asset Portfolio and may include additional eligible assets in a Social Finance Asset Portfolio.

Management of Proceeds

The Group's Sustainable Bond Working Group (the "**SB Working Group**") is responsible for oversight of the Social Finance Asset Portfolio, and its responsibilities include monitoring the total aggregate amount of Social Finance Bonds issued and tracking the portfolio using an internal asset management system. The SB Working Group aims to ensure that the aggregate amount in each Social Finance Asset Portfolio is equal to or greater than the aggregate amount raised by Social Finance Bonds issued during the associated reporting period by reviewing the aggregate size and maturity of the Social Finance Asset Portfolio each quarter. If for any reason the aggregate amount in any Social Finance Asset Portfolio is less than the total outstanding amount of such Social Finance Bonds issued, the Group will assign the unallocated balance to cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) until the amount can be allocated towards the Social Finance Asset Portfolio.

Reporting

The Group will publish a report (the "**Sustainable Bond Report**") on its website (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) within one year from issuance of the Group's inaugural Social Finance Bonds and will renew such report annually until full allocation of the proceeds and in case of any material changes. The Sustainable Bond Report will cover allocation and impact reporting for all Social Finance Bonds issued during the reporting period specified therein and will provide updated information should a material change in the Social Finance Asset Portfolio occur. You should note that no other or separate notification will be provided to investors in particular Social Finance Bonds as to the Social Finance Asset Portfolio.

External Review

The Group will engage external independent accountants to review that the assets included in the Social Finance Asset Portfolio meet the Social Finance Asset Portfolio Eligibility Criteria and are not invested in assets defined in the Exclusionary Criteria. Further, the independent accountants will be engaged to confirm that the aggregate amount in the Social Finance Asset Portfolio is equal to or greater than the aggregate amount raised by the relevant Social Finance Bonds and, to the extent the total amount of the relevant outstanding Social Finance Bonds is greater than the aggregate amount in the Social Finance

Asset Portfolio, that the difference is held in cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) in the Group's liquidity portfolio. Any review report is only current as of the date that report was issued and you must determine for yourself the relevance of any such report and/or the information contained therein for the purposes of your own investment considerations or expectations.

For the avoidance of doubt, neither the Sustainable Bond Report nor the report of any third party is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus and is not, nor should be deemed to be a recommendation by the relevant Issuer or any Dealer to buy, sell or hold the Securities.

Securities or Underlying(s) labelled or marketed as having "green", "sustainable", "social", "ESG" or similar objectives

Securities or the Underlying(s) of Securities (e.g. a Security Index) may be described or marketed as having "green", "sustainable", "social", "ESG" or similar objectives.

Notwithstanding the use of such term(s) in the title and/or marketing materials of the Securities or in the description of the Underlying(s), such Securities or Underlying(s) (or the administrator(s) thereof):

- may not meet investors' objectives or expectations as regarding investments which are "green", "sustainable", "social", "ESG" or other similar label; and/or
- may not fulfil legislative or regulatory requirements or criteria as regarding investments which are "green", "sustainable", "social", "ESG" or other similar label (including as set out under the EU Benchmarks Regulation, Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the so called EU Taxonomy Regulation) or either of those regulations as they form part of the domestic law of the UK).

There is currently no universally agreed framework (legal, regulatory, or any other) or market consensus on what constitutes a "green", "sustainable", "social", "ESG" or similar product or the precise attributes required for a particular product to be defined as such, and no assurance can be given that such a universally accepted framework or consensus will develop over time. While there have been regulatory efforts in some jurisdictions and regions (particularly within the European Economic Area and the UK) to define similar concepts, the legal and regulatory framework governing sustainable finance is still developing and there can be no assurance that these local regimes will be more widely adopted in global financial markets.

Accordingly, no assurance can be given to investors that any product will meet any or all of the investor's objectives or expectations regarding investments which are "green", "sustainable", "social", "ESG" or other similar label or that no environmental, social and/or other impacts will occur in the implementation of the product.

**SECTION E – INFORMATION RELATING TO THE ISSUERS, THE CGMHI
GUARANTOR AND THE CGMFL GUARANTOR**

SECTION E.1 – DESCRIPTION OF CITIGROUP INC.

Citigroup Inc. ("**Citi**", the "**Company**", or "**Citigroup**") is a global diversified financial services holding company whose businesses provide consumers, corporations, governments and institutions with a broad, yet focused, range of financial products and services. Citigroup Inc. has approximately 200 million customer accounts and does business in more than 160 countries and jurisdictions. Citigroup Inc. is a bank holding company within the meaning of the U.S. Bank Holding Company Act of 1956 registered with, and subject to examination by, the Board of Governors of the Federal Reserve System (the "**Federal Reserve**"). Some of Citi's subsidiaries are subject to supervision and examination by their respective federal and state authorities. At 31 December 2021, Citigroup Inc. had approximately 200,000 full-time employees worldwide.

Citigroup Inc.'s objects and purpose is to "engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware", as stated in Article THIRD of Citi's Restated Certificate of Incorporation. As of the first quarter of 2022, Citigroup was managed pursuant to three operating segments: *Institutional Clients Group*, *Personal Banking and Wealth Management* and *Legacy Franchises* with the remaining operations in *Corporate/Other*. Its businesses conduct their activities across the North America, Latin America, Asia and Europe, Middle East and Africa regions. Citigroup's principal subsidiaries are Citibank, N.A., Citigroup Global Markets Inc. and Grupo Financiero Banamex, S.A. de C.V., each of which is a wholly owned, indirect subsidiary of Citigroup.

Citigroup Inc. is a holding company and services its obligations primarily by earnings from its operating subsidiaries. Citigroup Inc. may augment its capital through issuances of common stock, perpetual preferred stock and equity issued through awards under employee benefit plans, among other issuances. Citigroup Inc. and Citigroup Inc.'s subsidiaries that operate in the banking and securities businesses can only pay dividends if they are in compliance with the applicable regulatory requirements imposed on them by federal and state bank regulatory authorities and securities regulators in the United States. Citigroup Inc.'s subsidiaries may be party to credit agreements that also may restrict their ability to pay dividends. Citigroup Inc. currently believes that none of these regulatory or contractual restrictions on the ability of its subsidiaries to pay dividends will affect Citigroup Inc.'s ability to service its own debt. Citigroup Inc. must also maintain the required capital levels of a bank holding company, and must submit a capital plan, subjected to stress testing, to the Federal Reserve, to which the Federal Reserve does not object, before it may pay dividends on its stock.

Under longstanding policy of the Federal Reserve, a bank holding company is expected to act as a source of financial strength for its subsidiary banks. As a result of this regulatory policy, the Federal Reserve might require Citigroup Inc. to commit resources to its subsidiary banks when doing so is not otherwise in the interests of Citigroup Inc. or its shareholders or creditors.

The principal offices for Citigroup Inc. are located at 388 Greenwich Street, New York, NY 10013, and its telephone number is + 1 212 559-1000. The website of Citigroup Inc. is www.citigroup.com. Unless specifically incorporated by reference herein, no information in such website should be deemed to be incorporated in, or form a part of, this Base Prospectus. Citigroup Inc. was established as a corporation incorporated in Delaware on 8 March 1988, registered at the Delaware Division of Corporations with perpetual duration pursuant to the Delaware General Corporation Law with file number 2154254. Citi's authorised capital stock consists of 6 billion shares of common stock and 30 million shares of preferred stock. As at 31 December 2021, there were 1,984,355,194 fully paid common stock shares outstanding and 759,800 fully paid preferred shares outstanding. A common stock share carries one vote, and no pre-emptive or other subscription rights or conversion rights. A preferred stock share carries no general voting rights.

No shareholder, or associated group of shareholders acting together, owns enough shares of Citigroup Inc.'s common stock to directly or indirectly exercise control over Citi.

Citi Resolution Plan (CSA, etc.) in relation to Securities issued by Citigroup Global Markets Holdings Inc.

Citigroup Inc. is required under Title I of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "**Dodd-Frank Act**") and the rules promulgated by the FDIC and Federal Reserve to periodically submit a plan for Citigroup Inc.'s rapid and orderly resolution under the U.S. Bankruptcy Code in the event of material financial distress or failure. On 17 December 2019, the Federal Reserve and FDIC issued feedback on the resolution plans filed on 1 July 2019 by the eight U.S. Globally Systemically Important Banks, including Citigroup Inc. The Federal Reserve and FDIC identified one shortcoming, but no deficiencies, in Citigroup Inc.'s resolution plan relating to governance mechanisms. Based on regulatory changes effective 31 December 2019, Citigroup Inc.'s 2021 resolution plan submission, which was filed on 1 July 2021 (the "**Resolution Plan**") was a "targeted" resolution plan, only including a subset of the information of a full resolution plan and additional information, identified by the Federal Reserve and FDIC on 1 July 2020. Citigroup Inc. will alternate between submitting a full resolution plan and a targeted resolution plan on a biennial cycle. For additional information on Citigroup Inc.'s resolution plan submissions, see "Managing Global Risk—Liquidity Risk—Resolution Plan" in Citigroup Inc.'s most recent Annual Report on Form 10-K. Citigroup Inc.'s preferred resolution strategy is "single point of entry" under the U.S. Bankruptcy Code.

Under Citigroup Inc.'s preferred "single point of entry" resolution plan strategy, only Citigroup Inc., the parent holding company, would enter into bankruptcy, while Citigroup Inc.'s material legal entities, including CGMHI (as further defined in the public section of its 2021 resolution plan, which can be found on the Federal Reserve and FDIC's websites) would remain operational and outside of any resolution or insolvency proceedings. Citigroup Inc. believes its resolution plan has been designed to minimize the risk of systemic impact to the U.S. and global financial systems, while maximizing the value of the bankruptcy estate for the benefit of Citigroup Inc.'s creditors. In addition, in line with the Federal Reserve's final total loss-absorbing capacity ("**TLAC**") rule, Citigroup Inc. believes it has developed the resolution plan so that Citigroup Inc.'s shareholders and unsecured creditors – including creditors claiming under the Citigroup Inc. guarantee of Notes issued by CGMHI – bear any losses resulting from Citigroup Inc. bankruptcy.

In response to feedback received from the Federal Reserve and FDIC (together, the "**Agencies**"), Citigroup Inc. took the following actions:

- (i) Citicorp LLC ("**Citicorp**"), an existing wholly-owned subsidiary of Citigroup Inc., was established as an intermediate holding company (an "**IHC**") for certain of Citigroup Inc.'s operating material legal entities, including CGMHI
- (i) Citigroup Inc. executed an inter-affiliate agreement with Citicorp, Citigroup Inc.'s operating material legal entities and certain other affiliated entities pursuant to which Citicorp is required to provide liquidity and capital support to Citigroup Inc.'s operating material legal entities in the event Citigroup Inc. were to enter bankruptcy proceedings (the "**Citi Support Agreement**");
- (ii) pursuant to the Citi Support Agreement:
 - Citigroup Inc. made an initial contribution of assets, including certain high-quality liquid assets and inter-affiliate loans (the "**Contributable Assets**"), to Citicorp, and

Citicorp became the business as usual funding vehicle for Citigroup Inc.'s operating material legal entities;

- Citigroup Inc. will be obligated to continue to transfer Contributable Assets to Citicorp over time, subject to certain amounts retained by Citigroup Inc. to, among other things, meet Citigroup Inc.'s near-term cash needs;
 - in the event of a Citigroup Inc. bankruptcy, Citigroup Inc. will be required to contribute most of its remaining assets to Citicorp; and
- (iii) the obligations of both Citigroup Inc. and Citicorp under the Citi Support Agreement, as well as the Contributable Assets, are secured pursuant to a security agreement.

The Citi Support Agreement provides two mechanisms, besides Citicorp's issuing of dividends to Citigroup Inc., pursuant to which Citicorp will be required to transfer cash to Citigroup Inc. during business as usual so that Citigroup Inc. can fund its debt service as well as other operating needs: (i) one or more funding notes issued by Citicorp to Citigroup Inc.; and (ii) a committed line of credit under which Citicorp may make loans to Citigroup Inc.

Under the terms and conditions of the Securities, a Citigroup Inc. bankruptcy, insolvency or resolution proceeding will not constitute an event of default with respect to any series of Securities issued by Citigroup Global Markets Holdings Inc. Moreover, it will not constitute an event of default with respect to any series of Securities issued by Citigroup Global Markets Holdings Inc. if the guarantee of the Securities by Citigroup Inc. (as CGMHI Guarantor) ceases to be (or is claimed not to be) in full force and effect for any reason, including by Citigroup Inc.'s insolvency or resolution. Should the Citigroup Inc. guarantee no longer be in effect, Citigroup Global Markets Holdings Inc., will become the sole obligor under its Securities, and there can be no assurance that it would be able to continue to meet its obligations under such Securities.

In the event that Citigroup Global Markets Holdings Inc. also enters bankruptcy, at the time of Citigroup Inc.'s bankruptcy filing or at a later time, you, as a holder of Securities issued by Citigroup Global Markets Holdings Inc. would be an unsecured creditor of Citigroup Inc. in respect of the Citigroup Inc. guarantee and, accordingly, you cannot be assured that the Citigroup Inc. guarantee would protect you against losses resulting from a default by Citigroup Global Markets Holdings Inc.

SECTION E.2 – DESCRIPTION OF CITIGROUP GLOBAL MARKETS HOLDINGS INC.

Citigroup Global Markets Holdings Inc. ("CGMHI"), operating through its subsidiaries, engages in full-service investment banking and securities brokerage business. As used in this description, CGMHI refers to CGMHI and its consolidated subsidiaries. CGMHI operates in the *Institutional Clients Group* business segment.

CGMHI's parent, Citigroup Inc. ("**Citigroup**" or "**Citi**") is a global diversified financial services holding company whose businesses provide consumers, corporations, governments and institutions with a broad, yet focused, range of financial products and services, including consumer banking and credit, corporate and investment banking, securities brokerage, trade and securities services and wealth management. Citi has approximately 200 million customer accounts and does business in more than 160 countries and jurisdictions.

As of the first quarter of 2022, Citigroup was managed pursuant to three operating segments: *Institutional Clients Group*, *Personal Banking and Wealth Management* and *Legacy Franchises*, with the remaining operations in *Corporate/Other*. The principal offices of CGMHI are located at 388 Greenwich Street, New York, NY 10013, telephone number +1 (212) 559-1000. CGMHI was incorporated in New York on 23 February 1977 and is the successor to Salomon Smith Barney Holdings Inc. On 7 April 2003, CGMHI filed a Restated Certificate of Incorporation changing its name from Salomon Smith Barney Holdings Inc. to Citigroup Global Markets Holdings Inc. CGMHI's Federal Employee Identification Number ("**FEIN**" or "**EIN**") issued by the US Internal Revenue Service is 11-2418067. The website of CGMHI is www.citigroup.com. Unless specifically incorporated by reference herein, no information in such website should be deemed to be incorporated in, or form a part of, this Base Prospectus.

The Legal Entity Identifier (LEI) of CGMHI is 82VOJDD5PTRDMVVMGV31.

Institutional Clients Group

Institutional Clients Group ("**ICG**") includes *Services*, *Markets* and *Banking*. *ICG* provides corporate, institutional, public sector and high-net-worth clients around the world with a full range of wholesale banking products and services, including fixed income and equity sales and trading, foreign exchange, prime brokerage, derivative services, equity and fixed income research, corporate lending, investment banking and advisory services, private banking, cash management, trade finance and securities services. *ICG* transacts with clients in both cash instruments and derivatives, including fixed income, foreign currency, equity and commodity products.

ICG revenue is generated primarily from fees and spreads associated with these activities. *ICG* earns fee income for assisting clients with transactional services and clearing and providing brokerage and investment banking services and other such activities. Such fees are recognised at the point in time when Citigroup's performance under the terms of a contractual arrangement is completed, which is typically at the trade/execution date or closing of a transaction. Revenue generated from these activities is recorded in *Commissions and fees* and *Investment banking*. Revenue is also generated from assets under custody and administration, which is recognised as/when the associated promised service is satisfied, which normally occurs at the point in time the service is requested by the customer and provided by Citi. Revenue generated from these activities is primarily recorded in *Fiduciary fees*.

In addition, as a market maker, *ICG* facilitates transactions, including holding product inventory to meet client demand, and earns the differential between the price at which it buys and sells the products. These price differentials and the unrealised gains and losses on the inventory are recorded in *Principal*

transactions (for additional information on *Principal transactions* revenue, see Note 2 to the CGMHI Consolidated Financial Statements included in the CGMHI 2021 Annual Report).

The amount and types of *Markets* revenues are impacted by a variety of interrelated factors, including market liquidity; changes in market variables such as interest rates, foreign exchange rates, equity prices, commodity prices and credit spreads, as well as their implied volatilities; investor confidence and other macroeconomic conditions. Assuming all other market conditions do not change, increases in client activity levels or bid/offer spreads generally result in increases in revenues. However, changes in market conditions can significantly impact client activity levels, bid/offer spreads and the fair value of product inventory. For example, a decrease in market liquidity may increase bid/offer spreads, decrease client activity levels and widen credit spreads on product inventory positions.

ICG's management of the *Markets* businesses involves daily monitoring and evaluation of the above factors at the trading desk as well as the country level.

In the *Markets* businesses, client revenues are those revenues directly attributable to client transactions at the time of inception, including commissions, interest or fees earned. Client revenues do not include the results of client facilitation activities (e.g., holding product inventory in anticipation of client demand) or the results of certain economic hedging activities.

For additional information on *ICG's* business activities, see *Institutional Clients Group* in the Citigroup Inc. 2021 Form 10-K.

ICG's international presence is supported by trading floors in approximately 80 countries and a proprietary network in 96 countries and jurisdictions. At 31 December 2021, *ICG* had \$1.86 trillion in assets and \$789 billion in deposits. Securities services managed \$24.0 trillion under custody and administration as of 31 December 2021, of which Citi provided both custody and administrative services to certain clients related to \$1.9 trillion of such assets. Managed assets under trust were \$3.8 trillion at 31 December 2021.

2 Deed of Guarantee

Subject as provided herein, the Guarantor irrevocably and unconditionally guarantees by way of deed poll to each Beneficiary that if, for any reason, CGMFL does not pay any sum payable by it to such Beneficiary under or in respect of any Liability including any premium or any other amounts of whatever nature or additional amounts which may become payable under the foregoing as and when the same shall become due and payable under any of the foregoing, the Guarantor will duly and promptly pay to such Beneficiary on the request of such Beneficiary the sum or the amount payable by CGMFL to or for such Beneficiary.

3 Guarantor as Principal Obligor

Without affecting CGMFL's obligations, the Guarantor will be liable under this Deed of Guarantee as if it were the sole principal obligor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal obligor (including (a) any time, indulgence, waiver or consent at any time given to CGMFL or any other person, (b) any amendment to any Liability or to any security or other guarantee or indemnity, (c) the making or absence of any demand on CGMFL or any other person for payment, (d) the enforcement or absence of enforcement of any Liability or of any security or other guarantee or indemnity, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of CGMFL or any other person, (g) the illegality, invalidity or unenforceability of or any defect in any provision of any Liability or any of CGMFL's obligations under or in respect of a Liability or (h) any other act, event or omission which but for this sub-Clause might

operate to discharge, impair or otherwise affect the obligations expressed to be assumed by the Guarantor herein or any of the rights, powers or remedies conferred upon the Beneficiaries or any of them by this Deed of Guarantee or by law).

4 Guarantor's Obligations Continuing

The Guarantor's obligations under this Deed of Guarantee are irrevocable and are and will remain in full force and effect by way of continuing security in respect of any outstanding Liabilities. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Beneficiary, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

5 Repayment to CGMFL

If any payment or amount received by a Beneficiary is, on the subsequent liquidation or insolvency of CGMFL, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Deed of Guarantee will continue to apply as if such payment or amount had at all times remained owing by CGMFL.

6 Indemnity

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum amount expressed to be payable by CGMFL under or in respect of any Liability but which is for any reason (whether or not now known or becoming known to CGMFL, the Guarantor or any Beneficiary) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Beneficiary on the request of such Beneficiary subject as provided herein. This indemnity constitutes a separate and independent obligation from the other obligations in this Deed of Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Beneficiary.

7 Status of Deed of Guarantee

This Deed of Guarantee shall take effect as a deed poll for the benefit of each Beneficiary from time to time and for the time being, each of which shall be entitled severally to enforce this Deed of Guarantee against the Guarantor. The payment obligations of the Guarantor under this Deed of Guarantee constitute direct, unconditional, unsubordinated and unsecured obligations of the Guarantor and rank and will at all times at least rank *pari passu* with all other unsecured and unsubordinated outstanding obligations of the Guarantor, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

8 Settlement Conditional

Any settlement or discharge between the Guarantor and the Beneficiaries or any of them shall be conditional upon no payment to the Beneficiaries or any of them by the Guarantor or any other person on the Guarantor's behalf being avoided or reduced by virtue of any laws relating to bankruptcy, insolvency, liquidation or similar laws of general application for the time being in force and, in the event of any such payment being so avoided or reduced, the Beneficiaries shall be entitled to recover the amount by which such payment is so avoided or reduced from the Guarantor subsequently as if such settlement or discharge had not occurred PROVIDED THAT such recovery is not contrary to any law applicable thereto.

9 No Prior Action Required

No Beneficiary shall be obliged before exercising any of the rights, powers or remedies conferred upon it by this Deed of Guarantee or by law:

- (a) to make any demand of CGMFL;
- (b) to take any action or obtain judgment in any court against CGMFL; or
- (c) to make or file any claim or proof in a winding-up or dissolution of CGMFL, and the Guarantor hereby expressly waives presentment, demand, protest and notice of dishonour in respect of each Liability.

10 Postponement of Guarantor's Rights

The Guarantor agrees that, so long as any sums and or amounts are or may be owed by CGMFL under or in respect of the Liabilities or CGMFL is under any other actual or contingent obligation thereunder or in respect thereof, the Guarantor will not exercise any right which the Guarantor may at any time have by reason of the performance by the Guarantor of its obligations hereunder:

- (a) to claim any contribution from any other guarantor of CGMFL's obligations under or in respect of the Liabilities;
- (b) to take the benefit (in whole or in part) of any security enjoyed in connection with the Liabilities by any Beneficiary; or
- (c) to be subrogated to the rights of any Beneficiary against CGMFL in respect of amounts paid by the Guarantor under this Deed of Guarantee.

11 Taxation

All payments by the Guarantor under or in connection with this Deed of Guarantee shall be made free and clear of and without deduction for or on account of all Taxes. All Taxes in respect of this Deed of Guarantee and payments thereunder shall be for the account of and shall be paid by the Guarantor for its own account prior to the date on which penalties attach thereto. If the Guarantor is compelled by law to make payment subject to any Tax and a Beneficiary does not actually receive for its own benefit on the due date the full amount provided for hereunder, the Guarantor will pay all necessary additional amounts to ensure receipt by the Beneficiary of the full amount so provided for. The Guarantor will indemnify each Beneficiary in respect of all such Taxes.

12 Power to Execute

The Guarantor hereby warrants, represents and covenants with each Beneficiary that it has all corporate power, and that it has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Deed of Guarantee, and that this Deed of Guarantee constitutes a legal, valid and binding obligation of the Guarantor in accordance with its terms.

13 NO SET-OFF OR COUNTERCLAIM

All payments to be made by the Guarantor under this Deed of Guarantee will be calculated and be made without (and free and clear of any deduction for) set-off or counterclaim.

14 Production of Deed of Guarantee

The Guarantor hereby acknowledges the right of every Beneficiary to the production of, and the right of every Beneficiary to obtain (upon payment of a reasonable charge) a copy of, this Deed of Guarantee,

and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Beneficiary, and that each Beneficiary shall be entitled severally to enforce the said obligations against the Guarantor.

15 Stamp Duties

The Guarantor shall pay all stamp, registration and other taxes and duties (including any interest and penalties thereon or in connection therewith) which are payable upon or in connection with the execution and delivery of this Deed of Guarantee, and shall indemnify each Beneficiary against any claim, demand, action, liability, damages, cost, loss or expense (including, without limitation, legal fees and any applicable value added tax) which it incurs as a result or arising out of or in relation to any failure to pay or delay in paying any of the same.

16 Partial Invalidity

If at any time any provision thereof is or becomes illegal, invalid or unenforceable in any respect under the laws of any jurisdiction, neither the legality, validity or enforceability of the remaining provisions hereof nor the legality, validity or enforceability of such provision under the laws of any other jurisdiction shall in any way be affected or impaired thereby.

17 Notices

All notices, demands and other communications to the Guarantor hereunder shall be made in writing (by letter) and shall be sent to the Guarantor at:

19 Rights of Third Parties

made by entities within the Group for assets or projects that meet the Green Bond Eligibility Criteria (as specified in the Green Bond Framework) of the Group in accordance with its Green Bond Framework where the use of such funds supports the sustainable progress strategy of the Group (Green Bonds). Potential investors should make their own independent decision to invest in Green Bonds and as to whether an investment in such Securities is appropriate or proper for them based upon their own judgement, circumstances and investment criteria or guidelines and upon advice from such advisers as they may deem necessary.

Green Bond Framework

The Group has developed a Green Bond Framework for securities issuances in order to finance projects that contribute to climate change mitigation as well as projects that promote sustainable infrastructure. The below description is based on the Green Bond Framework as at the date of this Base Prospectus. However, the Green Bond Framework may be amended or updated from time to time and investors should therefore refer to the most recent version of the Green Bond Framework which will be available on the Group's website (https://www.citigroup.com/citi/fixedincome/green_bonds.htm) and the applicable Final Terms for information on the use of proceeds of the relevant Securities.

As at the date of this Base Prospectus, the Green Bond Framework has received a second party opinion by an independent consultant as detailed therein. Any such opinion is only current as of the date that opinion was issued and is not, nor should be deemed to be, a recommendation by the relevant Issuer, the Dealers or any other person to buy, sell or hold Green Bonds. Potential investors must determine for themselves the relevance of any such opinion and/or the information contained therein for the purpose of any investment in Green Bonds. As at the date of this Base Prospectus, the providers of such opinions are not subject to any specific oversight or regulatory or other regime. For the avoidance of doubt, the Green Bond Framework and any such opinion are not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Green Bond Asset Portfolio and Management of Proceeds

Under the Green Bond Framework, the Group will maintain a Green Bond Asset Portfolio. If the investment by any entity within the Group in any asset in the Green Bond Asset Portfolio is terminated or if an asset no longer meets the Green Bond Eligibility Criteria, the asset will be removed from the Green Bond Asset Portfolio.

The Group's GBA Working Group is responsible for supervising the Green Bond Asset Portfolio and the aggregate amount of Green Bonds issued by entities within the Group with the aim of ensuring that the aggregate amount in the Green Bond Asset Portfolio is equal to or greater than the aggregate amount raised by such Green Bonds. For this purpose, the aggregate size and maturity of the Green Bond Asset Portfolio is monitored quarterly. If for any reason the aggregate amount in the Green Bond Asset Portfolio is less than the aggregate amount of Green Bonds issued, the unallocated amount will be held in cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) in the liquidity portfolio of the Group until the amount can be allocated towards the Green Bond Asset Portfolio.

Reporting

Under the Green Bond Framework, a Green Bond Report will be published by the Group on its website (https://www.citigroup.com/citi/fixedincome/green_bonds.htm) within a year from any issuance of any Green Bonds which will be renewed annually until full allocation and in case of any material changes. No other or separate notification will be provided to investors in particular Green Bonds as to the Green Bond Asset Portfolio.

The Green Bond Report will give details of (i) the total amount of assets in the Green Bond Asset Portfolio and the total outstanding amount raised by Green Bond issuances; (ii) the eligible assets within the Green Bond Asset Portfolio along with the Issuer's financial commitments to each asset; (iii) the total amount of unallocated proceeds, if any; and (iv) environmental impacts of the Green Bond Asset Portfolio to the extent it is practical to do so. Any such report is only current as of the date that report was issued and is not, nor should be deemed to be, a recommendation by the Issuer, the Dealers or any other person to buy, sell or hold Green Bonds.

Under the Green Bond Framework, the Issuer has also engaged external independent accountants to review that the assets included in the Green Bond Asset Portfolio meet the Green Bond Eligibility Criteria and are not invested in assets as defined by the Exclusionary Criteria and that the aggregate amount in the Green Bond Asset Portfolio is equal to or greater than the aggregate amount raised by Green Bonds (or, to the extent the total amount of the outstanding bonds is less than the aggregate amount in Green Bond Asset Portfolio, that the difference is held in the manner described in the Green Bond Framework). Any review report is only current as of the date that report was issued and investors must determine for themselves the relevance of any such report and/or the information contained therein for the purposes of their investment considerations or expectations.

For the avoidance of doubt, neither the Green Bond Report nor the report of any third party is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

No other or separate notification will be provided to investors in particular Social Bonds as to the Affordable Housing Bond Asset Portfolio.

The Affordable Housing Bond Report will provide information on (i) the total outstanding par amount of Social Bonds issued during the reporting period; (ii) the total outstanding amount of funded financial assets that comprise the Affordable Housing Bond Asset Portfolio; (iii) the total amount of unallocated proceeds, if any, assigned to cash, cash equivalent and/or other liquid marketable instruments; and (iv) social impacts of the Social Bonds by providing information about the housing properties associated with the Affordable Housing Bond Asset Portfolio. Social Finance Bonds shall not be issued by CGMFL.

Social Finance Framework

The Group has developed the Citigroup Social Finance Framework (the "**Social Finance Framework**") for securities issuances in order to support lending to social businesses across Citigroup's emerging market footprint. The below description is based on the Social Finance Framework as at the date of this Base Prospectus. However, the Social Finance Framework may be amended or updated from time to time and you should therefore refer to the most recent version of the Social Finance Framework which will be available on the Group's website (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) and the applicable Issue Terms for information on the use of proceeds of the relevant Securities.

The Social Finance Framework has been developed in line with the International Capital Market Association (ICMA) Social Bond Principles 2021. As at the date of this Base Prospectus, the Social Finance Framework has received a "second party opinion" by an independent consultant as detailed therein. Any such opinion is only current as of the date that opinion was issued and is not, nor should be deemed to be, a recommendation by the relevant Issuer, the Dealers or any other person to buy, sell or hold Social Finance Bonds. Potential investors must determine for themselves the relevance of any such opinion and/or the information contained therein for the purpose of any investment in Social Finance Bonds. As at the date of this Base Prospectus, the providers of such opinions are not subject to any specific oversight or regulatory or other regime. For the avoidance of doubt, the Social Finance Framework and any such opinion are not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

Social Finance Assets

The Social Finance Assets must meet the Social Finance Asset Portfolio Eligibility Criteria by falling into one of the categories outlined below:

- (1) *Access to essential services*: financing expanding access to financial services to unbanked and underserved individuals and small and medium-sized enterprises (SMEs);
- (2) *Affordable housing*: financing for companies and financial service providers enabling access to housing and housing improvements for underserved individuals;
- (3) *Affordable basic infrastructure*: financing for companies that expand availability of water, sanitation, or clean energy for off-grid communities in emerging markets;
- (4) *Access to essential services (healthcare)*: financing for companies that expand access to inclusive healthcare, ensure healthy lives and promote well-being;
- (5) *Access to essential services (education)*: financing for companies and organisations that deliver and promote inclusive lifelong learning opportunities for underserved individuals lacking access to education and in emerging markets; and
- (6) *Access to essential services (smallholder farmer finance)*: financing for social enterprises that deliver products and services to smallholder farmers.

The Group has developed a list of exclusionary criteria for the use of the proceeds from Social Finance Bonds (the "**Exclusionary Criteria**") (for example, certain loans or investments (i) for projects in high income economies, (ii) in institutions not meeting employment regulations, (iii) supporting fossil fuel energy generation, (iv) which may result in economic loss to the Group, (v) in activities which are incompatible with the Social Finance Framework or the Group's social finance criteria or which generate significant adverse social impacts or (vi) in "prohibited activities" as defined in the Social Finance Framework) and commits itself to not intentionally including any of the projects or activities in the Social Finance Asset Portfolio.

Eligible Social Finance Asset Selection and Evaluation Process

The Group's specialist Social Finance team will review assets to check they meet the Social Finance Asset Portfolio Eligibility Criteria and will identify a unique Social Finance Asset Portfolio for the aggregate principal amount of securities issued during a given reporting period that are intended to be used for Social Finance Assets ("**Social Finance Bonds**"). Once screened, Social Finance Assets will be added to the relevant Social Finance Asset Portfolio. The selection process for the Social Finance Assets takes into account whether the potential eligible asset satisfies the criteria for inclusion in the Social Finance Assets Portfolio. Additionally, the selection of Social Finance Assets is also governed by risk approval guidelines and credit monitoring standards in each relevant jurisdiction. If the Group's investment in any asset in any Social Finance Asset Portfolio is terminated or if an asset no longer meets the Social Finance Asset Portfolio Eligibility Criteria or satisfies any of the Exclusionary Criteria, the Social Finance team will remove such asset from the relevant Social Finance Asset Portfolio and may include additional eligible assets in a Social Finance Asset Portfolio.

Management of Proceeds

The Group's Sustainable Bond Working Group (the "**SB Working Group**") is responsible for oversight of the Social Finance Asset Portfolio, and its responsibilities include monitoring the total aggregate amount of Social Finance Bonds issued and tracking the portfolio using an internal asset management system. The SB Working Group aims to ensure that the aggregate amount in each Social Finance Asset Portfolio is equal to or greater than the aggregate amount raised by Social Finance Bonds issued during the associated reporting period by reviewing the aggregate size and maturity of the Social Finance Asset Portfolio each quarter. If for any reason the aggregate amount in any Social Finance Asset Portfolio is less than the total outstanding amount of such Social Finance Bonds issued, the Group will assign the unallocated balance to cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) until the amount can be allocated towards the Social Finance Asset Portfolio.

Reporting

The Group will publish a report (the "**Sustainable Bond Report**") on its website (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) within one year from issuance of the Group's inaugural Social Finance Bonds and will renew such report annually until full allocation of the proceeds and in case of any material changes. The Sustainable Bond Report will cover allocation and impact reporting for all Social Finance Bonds issued during the reporting period specified therein and will provide updated information should a material change in the Social Finance Asset Portfolio occur. You should note that no other or separate notification will be provided to investors in particular Social Finance Bonds as to the Social Finance Asset Portfolio.

External Review

The Group will engage external independent accountants to review that the assets included in the Social Finance Asset Portfolio meet the Social Finance Asset Portfolio Eligibility Criteria and are not invested in assets defined in the Exclusionary Criteria. Further, the independent accountants will be engaged to confirm that the aggregate amount in the Social Finance Asset Portfolio is equal to or greater than the aggregate amount raised by the relevant Social Finance Bonds and, to the extent the total amount of the relevant outstanding Social Finance Bonds is greater than the aggregate amount in the Social Finance Asset Portfolio, that the difference is held in cash, cash equivalents and/or other liquid marketable instruments (including U.S. Treasury securities) in the Group's liquidity portfolio. Any review report is only current as of the date that report was issued and you must determine for yourself the relevance of any such report and/or the information contained therein for the purposes of your own investment considerations or expectations.

For the avoidance of doubt, neither the Sustainable Bond Report nor the report of any third party is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus and is not, nor should be deemed to be a recommendation by the relevant Issuer or any Dealer to buy, sell or hold the Securities.”

The particular underlying(s), including the name of its issuer (where applicable) and/or the name of the index (where applicable) and the relevant identification number, will be specified in the applicable Final Terms. The Securities linked to the several types of underlyings are summarised as set out below.

Security Index Linked Securities – The amount payable in interest and/or on redemption, whether at maturity or otherwise, in respect of Security Index Linked Securities will be calculated by reference to a single equity security or basket of equity securities.

Inflation Index Linked Securities – The amount payable in interest and/or on redemption, whether at maturity or otherwise in respect of Inflation Index Linked Securities will be calculated by reference to a single index or a basket of indices. Such index or constituent of a basket of indices may be a well-known and widely published index or other entity which may not be widely published or available.

Interest and Redemption of the Securities

The Securities provide for different interest profiles and interest payments (if any) may be linked to certain interest underlyings or other conditions for payment. Payment of any redemption amount depends on the applicable redemption profile of the Securities. The Securities may redeem at maturity or extraordinarily prior to maturity. The Securities may be linked to a single or various underlyings or a combination of underlyings in a worst-of basket or a best-of basket. In case a basket of underlyings is specified in the applicable Final Terms, a disclosure of the relevant weightings of each underlying in the basket shall not be required since all amounts due or assets deliverable are linked to the lowest performing underlying only (worst of basket observation) or to the highest performing underlying only (best of basket observation).

Formulae for determining amounts due or assets deliverable under the Securities may be subject to one or a combination of the features described below. In such circumstances, the relevant calculation will not be made only by reference to the performance of one or more underlying and the application of such features may result in the calculation being subject to a minimum and/or maximum amount or otherwise increasing or decreasing the amount that would otherwise have been calculated had no such feature(s) been applicable. Movements in the value of the relevant underlying will be magnified where a participation rate applies and may therefore result in greater gains or losses than if no participation rate applied. Therefore, amounts due or assets deliverable in respect of the Securities will also be linked to

the performance of the relevant exchange rate and negative performance of such exchange rate could negate positive performance of the relevant Underlying(s).

Interest profiles

The Securities may be zero coupon securities, fixed rate securities, floating rate securities, inflation rate securities, interim performance interest securities.

A brief description of each interest profile is set out below.

(a) **Zero coupon securities**

Zero coupon securities do not bear any interest and may be issued at a discount to par.

(b) **Fixed rate securities**

Fixed rate securities bear fixed interest and any interest amount due will be payable in the specified currency on the relevant interest payment date.

(c) **Floating rate securities**

Floating rate securities bear floating interest from the interest commencement date and any interest due will be payable in arrear on the interest payment date(s) in the specified currency and in respect of the interest period ending on the interest period end date falling on or about such interest payment date.

(d) **CMS rate securities**

CMS rate securities bear interest linked to a constant maturity swap (CMS) reference rate or the difference between or the lesser of two CMS reference rates, as the case may be, from the interest commencement date and any interest due will be payable in arrear on the interest payment date(s) in the specified currency and in respect of the interest period ending on the interest period end date falling on or about such interest payment date.

(e) **Inflation rate securities**

Inflation rate securities may bear interest and any interest amount due, subject to and if applicable, (i) the relevant underlying closing level, (ii) any margin, (iii) the relevant day count fraction and (iv) any interest participation rate, will be payable in the specified currency on the relevant interest payment date.

(f) **Interim performance interest securities**

Interim performance interest securities may bear interest and any interest amount due, subject to and if applicable, (i) the relevant interim performance, (ii) the interest participation rate, (iii) any FX rate or FX rate performance and (iv) any interest adjustment(s), will be payable in the specified currency on the relevant interest payment date.

The payment of the relevant interest amount may be subject to the occurrence or non-occurrence of an interest barrier event. The Securities may have the following additional interest profile features:

(a) **Interest barrier lock-in**

In case of the interest barrier lock-in feature, an interest barrier event will occur if an interest lock-in event has occurred in respect of any prior interest payment date. An interest lock-in event will occur if an interest barrier event has occurred and on such date and further conditions as specified in the applicable Final Terms are met with regard to the interest lock-in event.

(b) **Lookback**

In the case of the lookback feature any interest amount due amounts to the interest amount plus (if applicable) the sum of the interest amounts in respect of all interest payment dates falling prior to such interest payment date on which an interest barrier event did not occur and which have not been accounted for on any prior interest payment date, will be payable in the specified currency on the relevant interest payment date.

(c) **Multi-chance**

In case of the multi-chance feature, any interest amount due, will be payable in the specified currency on the relevant interest payment date, subject to the number of interest barrier underlyings for which an interest barrier event occurred.

(d) **Accrual**

In case of the accrual feature in case of fixed rate securities any interest amount due will be payable in arrear on the interest payment date(s) in the specified currency in respect of the interest period ending on (but excluding) the interest period end date falling on or about such date.

(e) **Range accrual**

In case of the range accrual feature any interest amount due shall be multiplied by the product of the applicable day count fraction and the applicable accrual rate, as determined on each range accrual determination date. The accrual rate is equal to the number of interest barrier observation dates in the relevant interest period on which an interest barrier event occurs divided by the number of range accrual determination dates in such interest period.

(f) **Twin win interim performance**

In case of the twin win feature in case of interim performance securities the interim performance component of the interest amount will be converted to its absolute value.

(g) **Reverse interim performance**

In case of the reverse interim performance feature in case of interim performance securities the interim performance component will be subtracted from a specified percentage.

(h) **Cap, floor or collar**

Any interest amount may be subject to a maximum interest amount (a cap), a minimum interest amount (a floor) or both (a collar).

Interest Underlyings

Interest underlyings may apply (i) in case of interim performance interest securities, as a component of the interim performance and (ii) for the purpose of determining the occurrence or non-occurrence of an interest barrier event.

An interest underlying can be any of the following: Security index, inflation index, commodity, share, depositary receipt, exchange traded fund share, FX rate, dividend futures contract, rate.

Reference Rates

In case of floating rate securities, the interest amount will be linked to a reference interest rate. A brief description of the interest rate is set out below.

A reference rate may be any one or more of the European Interbank Offered Rate (EURIBOR), the London Interbank Offered Rate (LIBOR), the Sterling Overnight Index Average (SONIA), the Stockholm Interbank Offered Rate ("STIBOR"), the Copenhagen Interbank Offered Reference Rate ("CIBOR"), the Norwegian Interbank Offered Rate ("NIBOR"), the Tokyo Interbank Offered Rate ("TIBOR"), the Hong Kong Interbank Offered Rate ("HIBOR"), the Australian Financial Markets Association (AFMA) Bank-Bill Reference Rate ("BBSW"), the New Zealand Bank Bill Benchmark Rate ("BKBM") or any other interest or other rate that appears on a reference page.

If the reference rate for the Securities is EURIBOR, LIBOR, STIBOR, CIBOR, NIBOR, TIBOR or HIBOR, the floating rate will be determined by reference to the relevant reference page.

- (i) EURIBOR is the rate of interest quoted by banks operating in the European interbank market for the Euro sponsored by the European Banking Federation.
- (ii) LIBOR is the rate of interest quoted by banks operating in the London interbank market for certain specified currencies.
- (iii) STIBOR is the rate of interest based on the interest rates at which banks offer to lend unsecured funds to other banks in the Stockholm interbank market.
- (iv) CIBOR is the rate of interest based on the interest rates at which banks offer to lend unsecured funds to other banks in the Copenhagen interbank market.
- (v) NIBOR is the rate of interest lenders require for unsecured money market lending in Norwegian Kroner (NOK).
- (vi) TIBOR is the rate of interest based on the interest rates at which banks offer to lend unsecured funds to other banks in the Tokyo interbank market.
- (vii) HIBOR is the rate of interest based on the interest rates at which banks offer to lend unsecured funds to other banks in the Hong Kong interbank market.
- (viii) BBSW is the rate of interest based on the interest rates at which banks offer to lend unsecured funds to other banks in the Sydney interbank market.
- (ix) BKBM is the rate of interest based on the interest rates at which banks offer to lend unsecured funds to other banks in the New Zealand interbank market.

If the floating or other variable rate of interest is calculated by reference to a reference rate that is different to those contemplated above, then the reference page for such reference rate will be set out in the applicable Final Terms.

Redemption profiles

A brief description of each redemption profile is set out below.

(a) **Redemption amount (cash settled or physical delivery)**

Any redemption amount due will be paid in the specified currency or delivered in the form of an entitlement in case of physical delivery securities by the relevant Issuer on the maturity date. The redemption amount may be equal to fixed percentage per calculation amount or equal to the performance-linked redemption amount. The performance-linked redemption amount depends, each as applicable, on the following factors: any relevant percentage, any final performance of the final performance underlying, any final participation rate, any redemption adjustment, any FX performance, any global participation rate, any final participation rate put,

final participation rate call, put call sum floor of the final performance underlying, any market timer percentage, any final reference level of the final performance underlying, any annuity floor, any annuity factor and annuity.

(b) **Redemption amount upon redemption barrier event (cash settled or physical delivery)**

The redemption amount may depend on the occurrence or non-occurrence of a redemption barrier event. If a redemption barrier event has occurred, either no amount will be payable or the specified redemption amount will be payable in the specified currency or in case of physical delivery securities the entitlement will be delivered. The redemption amount may be equal to fixed percentage per calculation amount or equal to the performance-linked redemption amount.

(c) **Redemption amount upon redemption barrier event and redemption upper barrier event (cash settled or physical delivery)**

In case a redemption barrier event is applicable and has not occurred but a redemption upper barrier event has occurred an amount specified as a percentage of the calculation amount or the performance-linked redemption amount will be payable. If no redemption upper barrier event has occurred, an amount specified as a percentage of the calculation amount or the performance-linked redemption amount will be payable.

Redemption types

The Securities may be redeemed at maturity or in certain extraordinary circumstances prior to maturity.

(a) **Redemption at maturity**

If Securities are redeemed at maturity the redemption amount may be equal to the principal amount (redemption at par) or determined by reference to the value or performance of one or more Underlying.

(b) **Redemption at the Option of the Issuer**

If redemption at the option of the relevant Issuer (Issuer Call) is specified as applicable in the applicable Final Terms, the relevant Issuer may, having given the number of days' notice specified in the applicable Final Terms or, if none is so specified: not less than, five nor more than 60 days' notice to the Securityholders (which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Securities then outstanding on any Optional Redemption Date and, in respect of each principal amount of the Securities equal to the Calculation Amount at the Optional Redemption Amount specified in, or determined in the manner specified in, the Valuation and Settlement Schedule or specified in the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a principal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Final Terms.

In the case of a redemption of some only of the Securities, the Securities to be redeemed will be selected in accordance with the rules of the Relevant Clearing System (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg, to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion).

(c) **Mandatory early redemption**

If a mandatory early redemption ("MER") is specified in the applicable Final Terms the mandatory early redemption amount ("MER amount") or exit amount will be payable on the mandatory early redemption date ("MER date"). Such amounts in respect of the calculation amount may be:

- (i) a specified fixed amount,
- (ii) the performance-linked MER amount,
- (iii) in case of the occurrence of a MER upper barrier event a specified fixed amount and if such event has not occurred a specified fixed amount.

The MER amount or exit amount may be subject to a maximum amount (a cap), a minimum amount (a floor) or both (a collar).

(d) **Extraordinary early redemption provisions**

If the Securities are extraordinarily redeemed prior to maturity and if specified in the applicable Final Terms, hedge costs may be deducted from the relevant early redemption amount. United States of America

The Securities, the CGMHI Deed of Guarantee and the CGMFL Deeds of Guarantee have not been and will not be registered under the Securities Act or any state securities laws. Trading in the Securities has not been approved by the United States Commodity Futures Trading Commission under the United States Commodity Exchange Act, as amended. No issue of Securities may be offered or sold within the United States or to, or for the account or benefit of, U.S. persons. The Securities, the CGMHI Deed of Guarantee and the CGMFL Deeds of Guarantee do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act, as amended, and trading in the Securities has not been approved by the United States

Commodity Futures Trading Commission under the United States Commodity Exchange Act, as amended. Terms used in this section have the meanings given to them by Regulation S under the Securities Act.

Each Dealer has represented and agreed that (i) it, its affiliates (if any) and any person acting on its or their behalf have not offered or sold and will not offer or sell any Securities at any time within the United States or to, or for the account or benefit of, U.S. persons and (ii) at or prior to confirmation of sale of Securities, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases such Securities from it a confirmation or other notice stating that such distributor, dealer or person is subject to the restrictions on offers and sales of such Securities within the United States or to, or for the account or benefit of, U.S. persons that are set forth herein.

An offer or sale of Securities within the United States or to, or for the account or benefit of, a U.S. person by any dealer (whether or not participating in the offering) at any time may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Securities specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area ("**EEA**"). For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, varied or replaced from time to time, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"); and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

If the relevant Final Terms in respect of any Securities specify "*Prohibition of Sales to EEA*" as "*Not Applicable*", in relation to each member state of the EEA (each, a "**Relevant State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant State except that it may make an offer of such Securities to the public in that Relevant State and/or for the specified periods:

- (a) if the Final Terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State ("**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Final Terms

- contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
 - (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
 - (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,
- provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "offer of Securities to the public" in relation to any Securities in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities, and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129 (as amended).

Each Dealer has represented and agreed, and each further Dealer appointed under this Programme will be required to represent and agree that, in relation to any offering of Securities to which MiFID II and Regulation (EU) No 600/2014 ("**MiFIR**") applies, that such offering is in accordance with the applicable rules set out in MiFID II (including any applicable national transposition of MiFID II) and MiFIR, including that any commission, fee or non-monetary benefit received from the Issuer complies with such rules.

United Kingdom

Prohibition of Sales to UK Retail Investors

Unless the Final Terms in respect of any Securities specifies "*Prohibition of Sales to UK Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
 - (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the *European Union (Withdrawal) Act 2018* ("**EUWA**"); or
 - (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or
 - (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the "**UK Prospectus Regulation**"); and
- (b) the expression "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities.

If the Final Terms in respect of any Securities specify "*Prohibition of Sales to UK Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the

Programme will be required to represent and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Securities to the public in the United Kingdom:

- (a) if the Final Terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to section 86 of the FSMA (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Securities which either (i) has been approved by the *Financial Conduct Authority* ("**FCA**"), or (ii) is to be treated as if it had been approved by the FCA in accordance with the transitional provision in Regulation 74 of the Prospectus (Amendment etc.) (EU Exit) Regulations 2019, provided that any such prospectus has subsequently been completed by Final Terms contemplating such Public Offer, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression "offer of Securities to the public" in relation to any Securities means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities and the expression "**UK Prospectus Regulation**" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

Other regulatory restrictions

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Securities in circumstances in which section 21(1) of the FSMA does not apply to the Issuer; and
- (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom.

Austria

In addition to the cases described in the section entitled "*Prohibition of Sales to EEA Retail Investors*" above, the Securities may be offered for the first time in Austria only once a notification with the Austrian Control Bank (*Oesterreichische Kontrollbank Aktiengesellschaft*), all as prescribed by the Austrian Capital Market Act 2019 (*Kapitalmarktgesetz 2019*), as amended, has been filed as soon as possible prior to the commencement of the relevant offer of the Securities.

General

These selling restrictions may be amended by the agreement of the Issuers, the CGMHI Guarantor, the CGMFL Guarantor and the relevant Dealers. Any such amendment will be set out in either the

subscription agreement or the dealer accession letter, as relevant or in a supplement to this Base Prospectus.

No action has been taken or will be taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of this Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where, or under circumstances in which, action for that purpose is required and has not been taken. No offers, sales, resales or deliveries of any Securities, or distribution of any offering material relating to any Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuers, the CGMHI Guarantor, the CGMFL Guarantor and/or any Dealer.

Each Dealer has agreed that it will comply with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Securities or has in its possession or distributes this Base Prospectus, any other offering material or any Final Terms, in all cases at its own expense, and the Issuers, the CGMHI Guarantor and the CGMFL Guarantor shall not have responsibility therefor.

SECTION F.4 – TAXATION

TAXATION WARNING

The tax legislation of the state of residence of a prospective purchaser of Securities and the Issuers', the CGMHI Guarantor's and the CGMFL Guarantor's country of incorporation may have an impact on the income received from the Securities.

Prospective purchasers of Securities are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of the Securities.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of certain U.S. federal income tax consequences that may be relevant to the ownership and disposition by Non-U.S. Holders (as defined below) of Securities that are in registered form for U.S. federal income tax purposes. This summary does not purport to be a comprehensive description of all of the tax consequences that may be relevant to the decision to purchase Securities by any particular Non-U.S. Holder, including tax consequences that arise from rules of general application to all taxpayers or to certain classes of taxpayers or that are generally believed to be known by investors. For example, this summary does not address the tax consequences to Non-U.S. Holders who may be subject to special treatment under U.S. federal income tax law, such as (i) Non-U.S. Holders whose income or gain from a Security is effectively connected with the conduct of a United States trade or business, (ii) Non-U.S. Holders that are present in the United States for 183 days or more within a taxable year in which they own Securities or (iii) Non-U.S. Holders that are "controlled foreign corporations" or "passive foreign investment corporations" and investors therein.

This summary is based on the Internal Revenue Code of 1986, as amended (the "**Code**"), U.S. Treasury regulations and judicial and administrative interpretations thereof, in each case as in effect on the date hereof. Changes to any of the foregoing could affect the tax consequences described below, possibly with retroactive effect. Further, this summary does not describe any tax consequences arising out of the tax laws of any state, local or non-U.S. jurisdiction, or any U.S. federal taxes other than income taxes and, to a limited extent, estate taxes. Prospective purchasers of the Securities should consult their tax advisers regarding the U.S. federal, state, local and non-U.S. tax consequences of owning and disposing of Securities in light of their own particular circumstances.

This discussion does not address the U.S. federal tax consequences of the ownership or disposition of the Underlying that a Non-U.S. Holder may receive in respect of a Physical Delivery Security. Prospective purchasers should consult their tax advisers regarding the relevant U.S. federal tax consequences of the ownership and disposition of the Underlying.

The Issuer will not attempt to ascertain whether any issuer of any shares, shares that underlie an Index, or any other equity interest to which a Security relates should be treated as a "United States real property holding corporation" ("**USRPHC**") within the meaning of Section 897 of the Code (including a non-corporate entity treated as a USRPHC for relevant purposes of Section 897 of the Code). If any such relevant issuer were so treated, certain adverse U.S. federal income tax consequences might apply to a Non-U.S. Holder upon the sale, exchange or other disposition of such a Security. Prospective purchasers of the Securities are urged to refer to information filed with the Securities and Exchange Commission or another governmental authority by the relevant issuer and consult their tax advisers regarding the possible consequences if any such relevant issuer is or becomes a USRPHC.

For the purposes hereof, the term "**Non-U.S. Holder**" means a beneficial owner of a Security that for U.S. federal income tax purposes is a non-resident alien individual, a foreign corporation or a foreign estate or trust.

If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds a Security, the tax treatment of a partner in the partnership generally will depend on the status of the partner and upon the activities of the partnership. Prospective purchasers that are partnerships should consult their tax advisers regarding the tax consequences to their partners of an investment in the Securities.

The Securities are not intended for purchase by persons other than Non-U.S. Holders. The U.S. federal tax consequences to a United States person of the ownership and disposition of a Security may be unclear in certain circumstances and may be adverse.

This discussion may be supplemented, modified or superseded by further discussion regarding U.S. federal tax considerations set out in the applicable Final Terms, which a prospective purchaser is urged to read before making a decision to invest in the relevant Securities.

Securities Issued by the U.S. Issuer

Securities Treated as Debt

This section describes certain generally applicable U.S. federal income tax consequences to Non-U.S. Holders in respect of Securities issued by CGMHI (the U.S. Issuer) that the U.S. Issuer intends to treat as debt for U.S. federal income tax purposes as evidenced by the statement under "United States Tax Considerations" in the applicable Final Terms. It generally assumes that the U.S. Issuer's intended treatment is respected. Prospective purchasers of the Securities should consult their tax advisors about the risk that the IRS challenges the U.S. Issuer's treatment of the Securities. Certain exceptions to these general rules are discussed below under "Other U.S. Federal Tax Considerations for Non-U.S. Holders" and "FATCA", and therefore this discussion is subject to, and should be read in conjunction with, the discussions contained in those sections.

Interest payments on a Security issued by the U.S. Issuer should not be subject to U.S. federal withholding tax, as long as (1) the Non-U.S. Holder does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of the U.S. Issuer entitled to vote, (2) the Non-U.S. Holder is not (i) a controlled foreign corporation for U.S. federal income tax purposes that is related to the U.S. Issuer through stock ownership or (ii) a bank extending credit pursuant to a loan agreement entered into in the ordinary course of its trade or business, (3) such interest is not contingent on the U.S. Issuer's profits, revenues or changes in the value of its property and is not otherwise excluded from the definition of "portfolio interest" by Section 871(h)(4) of the Code, and (4) the Non-U.S. Holder provides a statement signed under penalties of perjury that certifies that it is a non-United States person in compliance with applicable requirements (generally, an appropriate IRS Form W-8) or satisfies certain documentary evidence requirements for establishing that it is a non-United States person. Gain realised by a Non-U.S. Holder on the taxable disposition of a Security (which excludes amounts attributable to accrued interest) generally will not be subject to U.S. federal withholding or income tax.

If the U.S. Issuer designates a substitute for itself, or there is another change to the Securities that results in the Securities being treated as reissued for U.S. federal income tax purposes, the treatment of the Securities after such an event could differ from their prior treatment. Except where specifically stated, the discussion herein assumes that no such deemed retirement and reissuance has occurred.

As discussed under "Other U.S. Federal Tax Considerations for Non-U.S. Holders – Possible Alternative Tax Treatments of an Investment in the Securities" below, there is no authority regarding the U.S. federal income tax treatment of Securities that do not provide for the return of a holder's investment under all circumstances. The U.S. Issuer's intended treatment of such Securities is not binding on the IRS, and the IRS could disagree with it. If such a Security were treated as an instrument other than debt, interest payments on the Security could be subject to withholding at a rate of 30 per cent., subject to reduction under an applicable income tax treaty. Insofar as it has responsibility as a withholding agent in respect of such Securities, the U.S. Issuer currently does not intend to withhold on payments on such Securities to Non-U.S. Holders (subject to the certification requirements and the exceptions described herein). However, it is possible that other withholding agents may withhold on interest payments on such Securities, and in the future the U.S. Issuer may determine that it is required to so withhold.

Securities Not Treated as Debt

This section describes certain generally applicable U.S. federal income tax consequences to Non-U.S. Holders in respect of Securities issued by the U.S. Issuer that the Issuer intends to treat as a financial instrument other than debt for U.S. federal income tax purposes, as evidenced by the statement under "United States Tax Considerations" in the applicable Final Terms. It generally assumes that the U.S. Issuer's intended treatment is respected. Certain exceptions to these general rules are discussed below under "– Other U.S. Federal Tax Considerations for Non-U.S. Holders" and "FATCA", and therefore this discussion is subject to, and should be read in conjunction with, the discussions contained in those sections. Prospective purchasers should note that the U.S. Issuer will not be required to pay any additional amounts with respect to U.S. federal income taxes, if any, withheld, whether by the U.S. Issuer or by another withholding agent, with respect to Securities not treated as debt for U.S. federal income tax purposes.

If the U.S. Issuer designates a substitute for itself, or there is another change to the Securities that results in the Securities being treated as reissued for U.S. federal income tax purposes, the treatment of the Securities after such an event could differ from their prior treatment. Except where specifically stated, the discussion herein assumes that no such deemed retirement and reissuance has occurred.

Securities Treated as Prepaid Forward Contracts or Options

Generally, subject to the discussion in the next paragraph, a Non-U.S. Holder should not be subject to U.S. federal withholding or income tax in respect of the taxable disposition of a Security, not providing for any payments prior to maturity or early redemption, that is treated for U.S. federal income tax purposes as a prepaid forward contract or an option.

In some cases, a Security may provide for amounts that are fixed or accrue prior to maturity but are paid at maturity. In that event, such amounts paid to a Non-U.S. Holder might be subject to withholding tax at a rate of 30 per cent. (which may be reduced under an applicable income tax treaty). Even if the U.S. Issuer or an applicable withholding agent generally treats such amounts as eligible for an exemption from withholding, in light of the uncertain treatment of such amounts the U.S. Issuer or an applicable withholding agent might require a Non-U.S. Holder to provide a statement signed under penalties of perjury that certifies that it is a non-United States person in compliance with applicable requirements (generally an appropriate IRS Form W-8) or to satisfy certain documentary evidence requirements for establishing that it is a non-United States person. Prospective purchasers should consult their tax advisors regarding the treatment of such payments.

Securities Treated as Prepaid Forward Contracts or Options with Associated Periodic Payments

With respect to Securities treated as prepaid forward contracts or options with associated periodic payments, to the extent the U.S. Issuer has withholding responsibility in respect of the Securities, it intends to treat the periodic payments as subject to withholding at a rate of 30 per cent., unless the Non-U.S. Holder provides a properly executed and appropriate IRS Form W-8 claiming eligibility for a reduction of or an exemption from withholding under an applicable income tax treaty. A Non-U.S. Holder generally should not be subject to U.S. federal withholding or income tax with respect to the taxable disposition of a Security (although any amount received in respect of a periodic payment may be treated as subject to withholding). Unless otherwise specified in the applicable Final Terms, this discussion also applies to a Security that provides for non-periodic payment(s) prior to maturity or early retirement.

Securities Treated as Put Options and Deposits

A Non-U.S. Holder generally should not be subject to U.S. federal withholding or income tax in respect of amounts paid on a Security treated as a Put Option and a Deposit, as long as the requirements in the second paragraph under "– Securities Treated as Debt" are met. While the U.S. Issuer currently does not intend to withhold on payments to Non-U.S. Holders on Securities treated as Put Options and Deposits (assuming these requirements are met), in light of the uncertain treatment of the Securities other persons having withholding responsibility in respect of the Securities may treat some or all of each periodic payment on a Security as subject to withholding tax at a rate of 30 per cent. (which may be reduced under an applicable income tax treaty). Moreover, it is possible that in the future the U.S. Issuer may determine that it should so withhold at a rate of 30 per cent., subject to reduction under an applicable income tax treaty, on periodic payments on the Securities. A Non-U.S. Holder generally should not be subject to U.S. federal withholding or income tax with respect to the taxable disposition of a Security (other than with respect to amounts attributable to an accrued periodic payment, which are discussed above).

Securities Issued by the Non-U.S. Issuer

In the case of Securities issued by CGMFL (the Non-U.S. Issuer), subject to the discussions below under "Other U.S. Federal Tax Considerations for Non-U.S. Holders", the Non-U.S. Issuer currently intends to treat payments made with respect to such Securities as not subject to U.S. federal withholding tax.

Other U.S. Federal Tax Considerations for Non-U.S. Holders

Except where specified otherwise, the discussion in this section applies to any Security issued by either the Non-U.S. Issuer or the U.S. Issuer.

Possible Alternative Tax Treatments of an Investment in the Securities

Depending on the facts and circumstances regarding a particular offering of Securities, it is possible that the Internal Revenue Service (the "IRS") could treat the Securities in a manner different from their expected treatment. For example, it is possible that a Non-U.S. Holder could be treated as owning the Underlying, in which case the tax consequences to the Non-U.S. Holder might be materially and adversely affected.

If all or any portion of a Security issued by a U.S. Issuer that the Issuer treats as a debt instrument were recharacterised as a financial instrument other than debt, certain payments made to a Non-U.S. Holder could be treated as being subject to U.S. federal withholding or income tax, as discussed above under "Securities Issued by the U.S. Issuer – Securities Not Treated as Debt". If all or any portion of a Security issued by a U.S. Issuer that the Issuer treats as a financial instrument other than debt were recharacterised as a debt instrument, any payment made to a Non-U.S. Holder with respect to the Security generally

would not be subject to U.S. federal withholding or income tax as long as the requirements in the second paragraph under "Securities Issued by the U.S. Issuer—Securities Treated as Debt" are met. Moreover, if the payment at maturity on a non-debt Security were to become fixed or subject to a minimum level prior to maturity, a Non-U.S. Holder might be required to treat the Security as debt after that date.

The U.S. Treasury Department and the IRS have issued a notice requesting comments on the U.S. federal income tax treatment of "prepaid forward contracts" and similar instruments. Among the issues addressed in the notice is the degree, if any, to which any income with respect to these instruments should be subject to U.S. federal withholding tax. While the notice requests comments on appropriate transition rules and effective dates, it is possible that any Treasury regulations or other guidance promulgated after consideration of these issues might adversely affect the withholding tax consequences of an investment in the Securities, possibly with retroactive effect. If withholding is required, the Issuer will not be required to pay any additional amounts with respect to amounts so withheld.

Section 871(m) Withholding on Dividend Equivalents

Section 871(m) of the Code and the Treasury regulations thereunder ("**Section 871(m)**") impose a 30 per cent. (or lower treaty rate) withholding tax on "dividend equivalents" paid or deemed paid to Non-U.S. Holders with respect to certain financial instruments linked to U.S. equities ("**Underlying Securities**"), as defined under the applicable Treasury regulations, or indices that include Underlying Securities. Section 871(m) generally applies to "specified equity-linked instruments" ("**Specified ELIs**"), which are financial instruments that substantially replicate the economic performance of one or more Underlying Securities, as determined based on tests set forth in the applicable Treasury regulations and discussed further below. Section 871(m) provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations ("**Qualified Indices**") as well as securities that track such indices ("**Qualified Index Securities**").

Although the Section 871(m) regime became effective in 2017, Treasury regulations, as modified by an IRS notice, phase in the application of Section 871(m) as follows:

- For financial instruments issued prior to 2023, Section 871(m) will generally apply only to financial instruments that have a "delta" of one.
- For financial instruments issued in 2023 and thereafter, Section 871(m) will apply if either (i) the "delta" of the relevant financial instrument is at least 0.80, if it is a "simple" contract, or (ii) the financial instrument meets a "substantial equivalence" test, if it is a "complex" contract.

Delta is generally defined as the ratio of the change in the fair market value of a financial instrument to a small change in the fair market value of the number of shares of the Underlying Security. The "substantial equivalence" test measures whether a complex contract tracks its "initial hedge" (shares of the Underlying Security that would fully hedge the contract) more closely than would a "benchmark" simple contract with a delta of 0.80.

The calculations are generally made at the calculation date, which is the earlier of (i) the time of pricing of the Security, i.e., when all material terms have been agreed on, and (ii) the issuance of the Security. However, if the time of pricing is more than 14 calendar days before the issuance of the Security, the calculation date is the date of the issuance of the Security. In those circumstances, information regarding the Issuer's final determinations for purposes of Section 871(m) may be available only after the time of pricing of the Security. As a result, a Non-U.S. Holder should acquire such a Security only if it is willing

to accept the risk that the Security is treated as a Specified ELI subject to withholding under Section 871(m).

In addition, Securities of a Series that are issued in different Tranches, or otherwise priced on different dates, may have different calculation dates for purposes of determining whether they are Specified ELIs. As a result, Securities acquired by a Non-U.S. Holder may be Specified ELIs, and therefore subject to withholding under Section 871(m), even if other Securities of the same Series are not Specified ELIs. In such a situation, a withholding agent may treat all of the Securities in that Series as being subject to Section 871(m) withholding if it is not able to distinguish among those Securities.

If the terms of a Security are subject to a “significant modification” (for example, upon an Issuer or, as the case may be, CGMHI Guarantor or CGMFL Guarantor substitution), the Security generally will be treated as reissued for this purpose at the time of the significant modification, in which case the Securities could become Specified ELIs at that time.

If a Security is a Specified ELI, withholding in respect of dividend equivalents will, depending on the applicable withholding agent’s circumstances, generally be required either (i) on the underlying dividend payment date or (ii) when cash payments are made on the Security or upon the date of maturity, lapse or other disposition by the Non-U.S. Holder of the Security, or possibly upon certain other events. Depending on the circumstances, the applicable withholding agent may withhold the required amounts from interest or other payments on the Security, from proceeds of the retirement or other disposition of the Security, or from other cash or property of the Non-U.S. Holder held by the withholding agent.

The dividend equivalent amount will include the amount of any actual or, under certain circumstances, estimated dividend. If the dividend equivalent amount is based on the actual dividend, it will be equal to the product of: (i) in the case of a “simple” contract, the per-share dividend amount, the number of shares of an Underlying Security and the delta; or (ii) in the case of a “complex” contract, the per-share dividend amount and the initial hedge. The dividend equivalent amount for Specified ELIs issued prior to 2023 that have a “delta” of one will be calculated in the same manner as (i) above, using a “delta” of one. The per-share dividend amount will be the actual dividend (including any special dividends) paid with respect to a share of the Underlying Security. If the dividend equivalent amount is based on an estimated dividend, the Final Terms will generally state the estimated amounts.

Depending on the terms of a Security and whether or not it is issued prior to 2023, the Final Terms may contain additional information relevant to Section 871(m), such as whether the Security references a Qualified Index or Qualified Index Security; whether it is a “simple” contract; the “delta” and the number of shares multiplied by delta (for a simple contract); and whether the “substantial equivalence test” is met and the initial hedge (for a complex contract).

Prospective purchasers of the Securities should consult their tax advisors regarding the potential application of Section 871(m) to the Securities and, if withholding applies, whether they are eligible for a refund of any part of the withholding tax discussed above on the basis of an applicable U.S. income tax treaty, as well as the process for obtaining such a refund (which will generally require the filing of a U.S. federal income tax return). In some circumstances, it may not be possible for a Non-U.S. Holder to obtain the documentation necessary to support a refund claim under an applicable treaty. The Issuer’s determination is generally binding on Non-U.S. Holders and withholding agents, but it is not binding on the IRS. The Section 871(m) regulations require complex calculations to be made with respect to Securities linked to Underlying Securities and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that certain Securities are not Specified ELIs, the IRS could challenge the Issuer’s determination and assert that withholding is required in respect of those Securities.

Moreover, the consequences under Section 871(m) may depend on the particular circumstances of the Non-U.S. Holder. For example, if a Non-U.S. Holder enters into other transactions relating to an Underlying Security, the Non-U.S. Holder could be subject to withholding tax or income tax liability under Section 871(m) even if the Securities are not Specified ELIs subject to Section 871(m) as a general matter. Non-U.S. Holders should consult their tax advisers regarding the application of Section 871(m) in their particular circumstances.

Specified Current Payment Securities

The following discussion applies to certain Securities that are Specified ELIs and that provide solely for (i) a payment at maturity or earlier retirement or exercise that is determined by reference to the value of the Underlying(s) (or physical delivery of the Underlying(s)) and (ii) cash payments equal to dividends (if any) on each Underlying Security to which the Security relates multiplied by the number of shares of such Underlying Security to which the Security relates (such cash payments, "**U.S. dividend-linked payments**" and each such Security, a "**Specified Current Payment Security**"). It is expected that each U.S. dividend-linked payment will be made on the payment date for the related dividend.

The Issuer will treat each U.S. dividend-linked payment as the payment of a dividend equivalent. Accordingly, Non-U.S. Holders should expect withholding agents to withhold 30 per cent. (or a lower rate under the dividend provision of an applicable income tax treaty) of each U.S. dividend-linked payment. However, because the application of Section 871(m) to Specified Current Payment Securities is not entirely clear, it is possible that a withholding agent could treat such a Security as subject to additional withholding, for example from amounts due at maturity or exercise of the Security. In addition, a withholding agent may withhold at the 30 per cent. (or other applicable maximum) rate regardless of whether the Non-U.S. Holder is eligible for the benefits of an income tax treaty in respect of the payment.

Specified Net Total Return Securities

The following discussion applies to certain Securities that are Specified ELIs and that provide solely for a payment at maturity or earlier retirement or exercise that is determined by reference to the value of the Underlying(s) (or physical delivery of the Underlying(s)), where such final value, in the case of an Underlying that is an Underlying Security, reflects the deemed reinvestment of any dividends paid over the term of the Security in respect of the number of shares of such Underlying Security to which the Security relates, net of the maximum amount of U.S. withholding tax that would be applicable to each such dividend (currently, 30 per cent.) (such net amount, the "**Net Dividend Amount**"). The discussion herein refers to each such Security as a "**Specified Net Total Return Security**".

Upon the payment of a dividend with respect to an Underlying Security in respect of a Specified Net Total Return Security, the Issuer will deposit with the IRS an amount equal to the relevant gross dividend amount multiplied by the maximum applicable U.S. withholding tax rate on dividends (not reduced by the application of any U.S. income tax treaty). Because (i) the Net Dividend Amount plus (ii) the amount to be deposited with the IRS will equal 100 per cent. of the gross dividend amount, the Issuer will treat the aggregate of (i) and (ii) as the payment of a dividend equivalent equal to 100 per cent. of such gross dividend amount for purposes of Section 871(m).

The Issuers, the CGMHI Guarantor and the CGMFL Guarantor will not be required to pay any additional amounts in respect of amounts withheld under Section 871(m).

Prospective purchasers of the Securities should note that if a Section 871(m) Event (as defined under "*Section B—Risk Factors—Risks relating to Securities generally—Section 871(m) Event*") occurs, an Early Redemption Event will occur, in which case the relevant Securities may be redeemed as more fully set out in the terms and conditions of such Securities.

FIRPTA

Section 897 of the Code, commonly referred to as "FIRPTA", applies to certain interests in entities that beneficially own significant amounts of United States real property interests (each, a "USRPI"). As discussed above, the Issuer will not attempt to ascertain whether any issuer of the Underlying, shares that underlie an Index, or any other equity interest to which the Securities relate should be treated as a USRPHC for purposes of Section 897 of the Code (including a non-corporate entity treated for relevant purposes of Section 897 of the Code as a USRPHC). If a relevant issuer were so treated, it is possible that, subject to the exceptions discussed in the following paragraph, a Security could be treated as a USRPI, in which case any gain from the disposition of the Security would generally be subject to U.S. federal income tax and would be required to be reported by the Non-U.S. Holder on a U.S. federal income tax return, generally in the same manner as if the Non-U.S. Holder were a United States person, and would in certain cases be subject to withholding in the amount of 15 per cent. of the gross proceeds of such disposition.

An exception to the FIRPTA rules applies in respect of interests in entities that have a regularly traded class of interests outstanding. Under this exception, a Security that is not "regularly traded" on an established securities market generally should not be subject to the FIRPTA rules unless its fair market value upon acquisition exceeds 5 per cent. of the relevant issuer's regularly traded class of interests as specified in the applicable Treasury regulations. In the case of Securities that are "regularly traded," a holding of 5 per cent. or less of the outstanding Securities of that class or series generally should not be subject to the FIRPTA rules. Certain attribution and aggregation rules apply, and prospective purchasers are urged to consult their tax advisers regarding whether their ownership interest in the Securities will be subject to an exemption from the FIRPTA rules in light of their circumstances, including any other interest they might have in a relevant issuer.

U.S. Federal Estate Tax

The Security may be subject to U.S. federal estate tax if an individual Non-U.S. Holder, or an entity the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers), holds the Security at the time of the individual's death. The gross estate of a Non-U.S. Holder domiciled outside the United States includes only property deemed situated in the United States. Individual Non-U.S. Holders, and the entities mentioned above, should consult their tax advisors regarding the U.S. federal estate tax consequences of an investment in the Securities in their particular situation.

Reportable Transactions

A taxpayer that participates in a "reportable transaction" is subject to information reporting requirements under Section 6011 of the Code. "Reportable transactions" include, among other things, certain transactions identified by the IRS. In 2015, the U.S. Treasury Department and the IRS released notices designating certain "basket options," "basket contracts" and substantially similar transactions as reportable transactions. The notices apply to specified transactions in which a taxpayer or its "designee" has, and exercises, discretion to change the assets or an algorithm underlying the transaction. While an exercise of the type of discretion that would give rise to such reporting requirements in respect of the Securities is not expected, if the Issuer, an Index sponsor or calculation agent or other person were to exercise discretion under the terms of a Security or an Index underlying a Security and were treated as a Securityholder's "designee" for these purposes, unless an exception applied certain holders of the relevant Securities would be required to report certain information to the IRS, as set forth in the applicable Treasury regulations, or be subject to penalties. The Issuer might also be required to report

information regarding the transaction to the IRS. Prospective purchasers should consult their tax advisers regarding these rules.

Information Reporting and Backup Withholding

Payments on the Securities, as well as the proceeds of a sale, exchange or other disposition (including retirement) of the Securities, may be subject to information reporting and, if a beneficial owner fails to provide certain identifying information or meet certain other conditions, may also be subject to backup withholding at the rate specified in the Code. A Non-U.S. Holder that provides the applicable withholding agent with the appropriate IRS Form W-8 generally will establish an exemption from backup withholding. Amounts withheld under the backup withholding rules are not additional taxes and may be refunded or credited against a holder's U.S. federal income tax liability, provided the relevant information is timely furnished to the IRS.

FATCA

Legislation commonly referred to as "**FATCA**" generally imposes a withholding tax of 30 per cent. on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements (that are in addition to, and potentially significantly more onerous than the requirement to deliver an IRS Form W-8) have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity's jurisdiction may modify these requirements. Pursuant to Treasury regulations, this legislation generally will apply to (1) Securities that pay U.S.-source interest or other U.S.-source "fixed or determinable annual or periodical" ("**FDAP**") income and (2) Securities that are subject to FATCA solely because they are treated as paying dividend equivalents pursuant to Section 871(m) and, in the case of non-"delta one" Securities (as defined in "*Other U.S. Federal Tax Considerations for Non-U.S. Holders – Section 871(m) Withholding on Dividend Equivalents*"), are issued more than six months after 1 January 2023. Withholding (if applicable) will apply to payments of interest, dividend equivalents and other FDAP income. While existing Treasury regulations would also require withholding on payments of gross proceeds from the taxable disposition of relevant Securities (other than any portion treated as FDAP income), the U.S. Treasury Department has stated in subsequent proposed regulations its intent to eliminate this requirement. The U.S. Treasury Department has indicated that taxpayers may rely on these proposed regulations pending their finalization. If withholding applies to the Securities, the Issuer will not be required to pay any additional amounts with respect to amounts withheld. Prospective purchasers should consult their tax advisers regarding FATCA, including the availability of certain refunds or credits.

THE TAX CONSEQUENCES OF THE OWNING AND DISPOSING OF SECURITIES ARE UNCLEAR. SECURITYHOLDERS SHOULD CONSULT THEIR TAX ADVISERS REGARDING THE TAX CONSEQUENCES OF OWNING AND DISPOSING OF THE SECURITIES, INCLUDING THE POSSIBLE EFFECTS OF CHANGES IN U.S. FEDERAL OR OTHER TAX LAWS.

vorzeitiger Rückzahlung ausgeübt werden kann, den von der Berechnungsstelle in Bezug auf dieses Wahlrecht gewählten Tag der Feststellung des Fairen Marktwerts (der zeitlich nach dem Tag dieser Mitteilung liegen kann) sowie den vorzeitigen Rückzahlungstag enthalten.

(B) Um sich wirksam dafür zu entscheiden, seine unter vorstehendem Buchstaben (A) aufgeführte Option zur Rückzahlung eines Teils oder der Gesamtheit seiner Wertpapiere zum Fairen Marktwert bei vorzeitiger Rückzahlung auszuüben, muss ein Wertpapierinhaber, wenn das jeweilige Wertpapier durch eine Sammelurkunde verbrieft ist und das Clearing über Euroclear oder Clearstream, Luxemburg, erfolgt, die Registerstelle spätestens an dem in der Mitteilung der Emittentin über die Vorzeitige Rückzahlung genannten Stichtag gemäß den Standardverfahren von Euroclear bzw. (1) die Entscheidung, die Option des Wertpapierinhabers zur Rückzahlung dieser Wertpapiere zum Fairen Marktwert bei vorzeitiger Rückzahlung auszuüben, wirksam getroffen wurde, dass der Vorzeitige Rückzahlungsbetrag der Höhe nach dem Fairen Marktwert der Wertpapiere an dem in der Mitteilung der Emittentin über die Vorzeitige Rückzahlung angegebenen Tag entspricht, wobei dieser Betrag an dem in der Mitteilung der Emittentin über die Vorzeitige Rückzahlung angegebenen vorzeitigen Rückzahlungstag gezahlt wird, und

(2) keine Entscheidung, die Option des Wertpapierinhabers zur Rückzahlung dieser Wertpapiere zum Fairen Marktwert bei vorzeitiger Rückzahlung auszuüben, wirksam getroffen wurde, dass der Vorzeitige Rückzahlungsbetrag dem Mindesteinlösebetrag zuzüglich Optionswert zuzüglich etwaiger aufgelaufener Zinsen entspricht, wobei dieser Betrag am Fälligkeitstag gezahlt wird.

In both cases no other amounts of principal or interest will be payable following the date the Issuer's Notice of Early Redemption is given.

(i) In the case of Securities subject to early redemption for which the Early Redemption Amount is specified as "Principal Amount plus accrued interest (if any) at maturity" or "Minimum Return Amount plus Option Value plus accrued interest (if any) at maturity", then such Early Redemption Amount shall be payable on the Maturity Date, notwithstanding anything else in the Conditions and no other amounts of principal or interest will be payable following the date the notice of early redemption is given.

(ii) As used above in respect of a principal amount of Securities equal to the Calculation Amount:

"Accrued Interest" means, in respect of such Calculation Amount, an amount in the Specified Currency equal to the sum of the interest amounts calculated in respect of each day in the period from but excluding the day on which the Option Value is determined to but excluding the Maturity Date, where each such interest amount is determined as the product of the Option Value, an overnight interest rate or an achievable market rate of interest for the Specified Currency and the relevant day and a day count fraction customary for calculation of overnight interest in respect of the Specified Currency, all as determined by the Calculation Agent in a commercially reasonable manner and acting in good faith.

"Early Redemption Date" means, in respect of each Security and the Early Redemption Amount payable in respect of such Security, a date notified by the Issuer to the relevant Securityholder in accordance with Condition 10 (*Notices*) as the date for the payment of the Early Redemption Amount.

In beiden Fällen sind nach dem Tag, an dem die Mitteilung der Emittentin über die Vorzeitige Rückzahlung erfolgt, keine weiteren Nenn- oder Zinsbeträge zu zahlen.

(i) Bei Wertpapieren, die der vorzeitigen Rückzahlung unterliegen und für die der Vorzeitige Rückzahlungsbetrag als "Nennbetrag zuzüglich etwaiger bei Fälligkeit aufgelaufener Zinsen" oder "Mindesteinlösebetrag zuzüglich Optionswert zuzüglich etwaiger bei Fälligkeit aufgelaufener Zinsen" angegeben ist, wird dieser Vorzeitige Rückzahlungsbetrag ungeachtet sonstiger Bestimmungen in den Bedingungen am Fälligkeitstag gezahlt und nach dem Tag der Mitteilung über die vorzeitige Rückzahlung werden keine weiteren Nenn- oder Zinsbeträge gezahlt.

(ii) Wie vorstehend in Bezug auf einen Nennbetrag der Wertpapiere, der dem Berechnungsbetrag entspricht, verwendet, bezeichnet:

"Aufgelaufene Zinsen" in Bezug auf diesen Berechnungsbetrag einen Betrag in der Festgelegten Währung, der der Summe der Zinsbeträge entspricht, die in Bezug auf jeden Tag in dem Zeitraum ab (ausschließlich) dem Tag, an dem der Optionswert festgelegt wird, bis (ausschließlich) zum Fälligkeitstag berechnet werden, wobei jeder Zinsbetrag als das Produkt aus dem Optionswert, einem Tagesgeldzinssatz oder einem für die Festgelegte Währung und den entsprechenden Tag erreichbaren Marktzinssatz und einem in Bezug auf die Festgelegte Währung für die Berechnung von Tagesgeldzinssätzen üblichen Zinstagequotient festgelegt wird, wie jeweils von der Berechnungsstelle auf wirtschaftlich angemessene Weise und nach Treu und Glauben festgelegt.

"Vorzeitiger Rückzahlungstag" in Bezug auf jedes Wertpapier und den in Bezug auf ein solches Wertpapier zu zahlenden Vorzeitigen Rückzahlungsbetrag einen Tag, den die Emittentin dem jeweiligen Wertpapierinhaber gemäß Bedingung 10 (*Mitteilungen*) als Tag für die Zahlung des Vorzeitigen Rückzahlungsbetrags mitteilt.

8 Determinations, Exercise of Discretion

(a) Disclaimer of liability and responsibility

The Issuer and/or the Calculation Agent and/or such other person make no express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Securities, (ii) the value of the Securities at any particular time on any particular date, or (iii) any amounts that may become payable or deliverable in respect of the Securities.

Without limiting any of the foregoing, in no event shall, subject to mandatory law, the Calculation Agent and/or such other persons have any liability (whether in negligence or otherwise) to any Securityholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

8 Feststellungen, Ermessensspielraum

(a) Ausschluss jeglicher Haftung und Verantwortung

Die Emittentin und/oder die Berechnungsstelle und/oder entsprechende sonstige Personen geben keine ausdrücklichen oder stillschweigenden Zusicherungen oder Gewährleistungen ab in Bezug auf (i) die Zweckmäßigkeit einer Anlage in die Wertpapiere oder eines Exposures in Bezug auf die Wertpapiere, (ii) den Wert der Wertpapiere zu einem bestimmten Zeitpunkt an einem bestimmten Tag oder (iii) Beträge, die in Bezug auf die Wertpapiere gegebenenfalls fällig oder lieferbar werden.

Ohne Einschränkung des Vorstehenden haften die Berechnungsstelle und/oder entsprechende sonstige Personen, vorbehaltlich zwingender gesetzlicher Vorschriften, in keinem Fall (aufgrund von Fahrlässigkeit oder anderweitig) gegenüber Wertpapierinhabern für unmittelbare, mittelbare, besondere, Straf-, Folge- oder sonstige Schäden (einschließlich entgangener Gewinne), selbst wenn sie über die mögliche Entstehung entsprechender Schäden in Kenntnis gesetzt wurden.

The Calculation Agent and/or such other persons shall not have any responsibility to any holder for any errors or omissions in any calculations or determinations in respect of the Securities and act solely as agents of the Issuer, the CGMHI Guarantor and the CGMFL Guarantor and do not assume any obligations towards or relationship of agency or trust for or with any holder.

(b) Conflict of Interest

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Securities including, but not limited to, for example, being involved in arrangements relating to any Underlying(s) (for example as a calculation agent). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Securities or any Underlying and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Securities shall owe any duty or responsibility to any Securityholder to avoid any conflict or to act in the interests of any Securityholder.

(c) Exercise of Discretion

In exercising its discretion in respect of the Securities as provided herein, each of the Issuer and the Calculation Agent or such other person may take into account such factors as it determines reasonable in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the Hedging Arrangements entered into by a Hedging Party (as defined in the

Die Berechnungsstelle und/oder entsprechende sonstige Personen übernehmen keine Verantwortung gegenüber Wertpapierinhabern für etwaige Fehler oder Auslassungen bei Berechnungen oder Feststellungen in Bezug auf die Wertpapiere und handeln ausschließlich als beauftragte Stellen der Emittentin, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin und gehen keine Verpflichtungen und kein Vertretungs- oder Treuhandverhältnis für einen oder mit einem Wertpapierinhaber ein.

(b) Interessenkonflikte

Neben der Bereitstellung von Berechnungsstellendiensten für die Emittentin kann die Berechnungsstelle oder eines ihrer Verbundenen Unternehmen weitere oder alternative Funktionen in Zusammenhang mit der Emittentin und einer Serie von Wertpapieren übernehmen, u. a. beispielsweise die Beteiligung an Geschäften in Zusammenhang mit einem oder mehreren Basiswerten (beispielsweise als Berechnungsstelle). Des Weiteren können die Berechnungsstelle oder eines ihrer Verbundenen Unternehmen Verträge mit der Emittentin schließen und/oder Transaktionen eingehen, die in Zusammenhang mit der Emittentin, den Wertpapieren oder einem Basiswert stehen, und infolge dessen kann der Berechnungsstelle ein Konflikt zwischen ihren Verpflichtungen als Berechnungsstelle und ihren eigenen Interessen und/oder den Interessen ihrer Verbundenen Unternehmen in anderen Funktionen entstehen. Vorbehaltlich sämtlicher aufsichtsrechtlicher Verpflichtungen sind weder die Emittentin noch die Berechnungsstelle in Bezug auf die Wertpapiere gegenüber den Wertpapierinhabern verpflichtet oder dafür verantwortlich, Konflikte zu vermeiden oder im Interesse der Wertpapierinhaber zu handeln.

(c) Ermessensspielraum

Bei Ausübung ihres Ermessensspielraums in Bezug auf die Wertpapiere, wie gemäß diesen Allgemeinen Bedingungen vorgesehen, können die Emittentin, die Berechnungsstelle oder eine andere Person jeweils Faktoren berücksichtigen, die sie im jeweiligen Fall als angemessen erachten, einschließlich insbesondere solcher Umstände oder Ereignisse, die wesentliche Auswirkungen auf die

Valuation and Settlement Schedule) in respect of the Securities. The exercise of the Issuer's and/or the Calculation Agent's and/or such other person's discretion in respect of the Securities as provided herein are necessary because certain circumstances or events (for example a material modification or disruption to an Underlying to which the Securities are linked) may occur subsequent to the issuance of the Securities which may materially affect the costs to a Hedging Party of maintaining the relevant Securities or relevant Hedging Arrangements. Such circumstances or events may not have been reflected in the pricing of the Securities. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source), it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any Underlying or otherwise in connection with the Securities to be made, thus making it necessary for the Issuer and/or the Calculation Agent to exercise its discretion in such a case.

mit einer Hedgingpartei geschlossenen Hedginggeschäfte (wie im Bewertungs- und Abwicklungsanhang definiert) in Bezug auf die Wertpapiere haben oder haben können. Die Ausübung des Ermessensspielraums der Emittentin und/oder der Berechnungsstelle und/oder einer entsprechenden anderen Person in Bezug auf die Wertpapiere, wie in diesen Allgemeinen Bedingungen aufgeführt, ist erforderlich, da bestimmte Umstände oder Ereignisse (beispielsweise eine wesentliche Änderung oder Störung eines Basiswerts, auf den sich die Wertpapiere beziehen) nach der Ausgabe der Wertpapiere eintreten können, die sich wesentlich auf die Kosten einer Hedgingpartei zur Aufrechterhaltung der betreffenden Wertpapiere oder Hedginggeschäfte auswirken können. Entsprechenden Umständen oder Ereignissen wurde in der Preisgestaltung der Wertpapiere gegebenenfalls nicht Rechnung getragen. Des Weiteren ist es gegebenenfalls infolge bestimmter Umstände oder Ereignisse (beispielsweise Nicht-Verfügbarkeit oder Störung einer Referenzquelle) nicht länger durchführbar oder anderweitig angemessen, dass bestimmte Bewertungen in Zusammenhang mit einem Basiswert oder anderweitig in Zusammenhang mit den Wertpapieren vorgenommen werden; folglich ist es erforderlich, dass die Emittentin und/oder die Berechnungsstelle in diesem Fall ihren Ermessensspielraum ausüben.

Such Hedging Arrangements may be carried out on a portfolio basis (i.e. where the Hedging Party maintains arrangements for hedging the Securities together with other obligations of the Issuer and/or its Affiliates). Eine Hedgingpartei wird versuchen, solche Hedginggeschäfte auszuwählen, die für sie im Zusammenhang mit dem steuerlichen, aufsichtsrechtlichen und geschäftlichen Umfeld, in dem sie tätig ist, effizient sind, ohne dabei jedoch die Interessen der Wertpapierinhaber zu berücksichtigen. Eine Hedgingpartei kann Hedginggeschäfte bei Veranlassung auch anpassen, jedoch nicht in jedem Fall nachteilige Kosten, Steuern oder regulatorische Änderungen vermeiden, die sich auf ihre Hedginggeschäfte auswirken. Zur Klarstellung: Keine Hedgingpartei ist zum Abschluss von Hedginggeschäften verpflichtet und die Wertpapierinhaber erlangen im Falle des Abschlusses von Hedginggeschäften keine Rechte oder Ansprüche durch solche Geschäfte und können nicht auf diese Hedginggeschäfte zurückgreifen.

Zahlungen erfolgen in Euro per Gutschrift

(a) *Korrektur veröffentlichter oder bekannt gegebener Kurse oder Stände*

Die Bestimmungen der Bewertungs- und Abwicklungsbedingung 2(i) (*Korrektur veröffentlichter oder bekannt gegebener Kurse oder Stände*) gelten nicht in Bezug auf einen Inflationsindex.

(c) Correction of a manifest error in the level of an Inflation Index

If the Calculation Agent determines that the Index Sponsor of an Inflation Index has corrected an Underlying Closing Level for such Inflation Index to correct a manifest error no later than the earlier to occur of (i) the relevant Manifest Error Cut-off Date; and (ii) 30 calendar days following the first publication and announcement of such Underlying Closing Level, then the Calculation Agent may use such corrected Underlying Closing Level for the purposes of any calculation in respect of any relevant Valuation Date. Any correction to an Underlying Closing Level of such Inflation Index published after the relevant Manifest Error Cut-off Date will not be used in any calculation in respect of any relevant Valuation Date. In the event of any inconsistency (as determined by the Calculation Agent) between this Inflation Index Condition [5][6](c) and Inflation Index Condition [5][6](b) (*Revision of the level of an Inflation Index*), the operation of this Inflation Index Condition [5][6](c) shall prevail.

[Insert in case Inflation Index Substitution is applicable:

(c) Substitution of an Inflation Index

(c) Korrektur eines offensichtlichen Fehlers beim Stand eines Inflationsindex

Stellt die Berechnungsstelle fest, dass der Indexsponsor eines Inflationsindex bis spätestens zu dem früheren der nachfolgenden Termine einen Schlusstand des Basiswerts für diesen Inflationsindex korrigiert hat, um einen offensichtlichen Fehler zu korrigieren: (i) dem maßgeblichen Stichtag für einen Offensichtlichen Fehler und (ii) 30 Kalendertage nach der ersten Veröffentlichung und Bekanntgabe dieses Schlusstands des Basiswerts, so kann die Berechnungsstelle diesen korrigierten Schlusstand des Basiswerts für die Zwecke einer Berechnung in Bezug auf einen maßgeblichen Bewertungstag verwenden. Eine nach dem betreffenden Stichtag für einen Offensichtlichen Fehler veröffentlichte Korrektur eines Schlusstands des Basiswerts dieses Inflationsindex wird nicht bei einer Berechnung eines betreffenden Bewertungstags verwendet. Im Falle von (von der Berechnungsstelle festgestellten) Widersprüchen zwischen dieser Inflationsindex-Bedingung [5][6](c) und Inflationsindex-Bedingung [5][6](b) (*Revision des Stands eines Inflationsindex*) ist die Anwendung dieser Inflationsindex-Bedingung [5][6](c) maßgeblich.

[Einfügen, falls eine Inflationsindexersetzung anwendbar ist:

(c) Ersetzung eines Inflationsindex

Stellt die Berechnungsstelle fest, dass entweder (i) ein Stand eines Inflationsindex für zwei aufeinanderfolgende Monate nicht veröffentlicht oder bekannt gegeben wurde und/oder (ii) der Indexsponsor bekannt gibt, dass er die Veröffentlichung oder Bekanntgabe dieses Inflationsindex einstellt und/oder (iii) der Indexsponsor diesen Inflationsindex einstellt, kann die Berechnungsstelle diesen Inflationsindex anhand der folgenden Methode durch einen Nachfolgeindex (ein "**Nachfolgeindex**") ersetzen:

(i) wurde von der Berechnungsstelle im Rahmen einer betreffenden Fallbackanleihe zu einem beliebigen Zeitpunkt ein Nachfolgeindex in Bezug auf einen Inflationsindex gemäß den

Fallback Bond, then such successor index may be designated a "Successor Index" for such Inflation Index for the purposes of all subsequent Valuation Dates, notwithstanding that any other Successor Index may previously have been determined under sub-paragraph (ii) or (iii);

(ii) if a Successor Index has not been determined under sub-paragraph (i) and a notice has been given or an announcement has been made by the relevant Index Sponsor, specifying that such Inflation Index will be superseded by a replacement inflation index specified by the relevant Index Sponsor, and the Calculation Agent determines that such replacement inflation index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, then such replacement index shall be such Inflation Index for purposes of the Securities from the date that such replacement Inflation Index comes into effect;

(iii) if no Successor Index has been determined under sub-paragraph (i) or (ii) by the fifth Business Day prior to the Cut-off Date in respect of the next following Payment Date, then the Calculation Agent will determine an appropriate alternative index and such index will be deemed a "Successor Index".

If a Successor Index is determined in accordance with the above, the Calculation Agent may make such adjustment(s) to the provisions of these Terms and Conditions as the Calculation Agent determines necessary or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Securities.

If no Successor Index can be determined pursuant to the above, the provisions of Inflation Index Condition [4][5] (*Additional Early Redemption Events*) shall apply.]

Bedingungen dieser Fallbackanleihe bestimmt, so gilt dieser Nachfolgeindex als "Nachfolgeindex" für diesen Inflationsindex für die Zwecke aller nachfolgenden Bewertungstage, wobei ungeachtet dessen ein anderer Nachfolgeindex zu einem früheren Zeitpunkt gemäß Unterabsatz (ii) oder (iii) bestimmt worden sein kann;

(ii) wurde kein Nachfolgeindex gemäß Unterabsatz (i) bestimmt und ist eine Mitteilung oder Bekanntgabe des maßgeblichen Indexsponsor erfolgt, dass dieser Inflationsindex durch einen von dem maßgeblichen Indexsponsor festgelegten Ersatzinflationsindex ersetzt wird, und stellt die Berechnungsstelle fest, dass dieser Ersatzinflationsindex anhand derselben oder einer im Wesentlichen ähnlichen Formel oder Berechnungsmethode berechnet wird wie die bei der Berechnung des vormals geltenden Inflationsindex verwendete, so gilt dieser Ersatzindex für die Zwecke der Wertpapiere ab dem Datum, ab dem dieser Ersatzinflationsindex wirksam wird, als Inflationsindex;

(iii) wurde kein Nachfolgeindex gemäß Unterabsatz (i) oder (ii) bis zum fünften Geschäftstag vor dem Stichtag für den nächstfolgenden Zahlungstag bestimmt, bestimmt die Berechnungsstelle einen angemessenen alternativen Index und dieser Index gilt als "Nachfolgeindex".

Wird gemäß den vorstehenden Bestimmungen ein Nachfolgeindex bestimmt, kann die Berechnungsstelle eine oder mehrere Anpassungen an den Bestimmungen dieser Bedingungen vornehmen, die die Berechnungsstelle als notwendig oder angemessen erachtet, um dieser Ersetzung Rechnung zu tragen, und den Zeitpunkt bzw. die Zeitpunkte des Inkrafttretens der Änderung(en) an den Wertpapieren festlegen.

Kann gemäß den vorstehenden Bestimmungen kein Nachfolgeindex bestimmt werden, gelten die Bestimmungen von Inflationsindex-Bedingung [4][5] (*Zusätzliche Vorzeitige Rückzahlungseignisse*).]

[(d)][(e)] Modification of an Inflation Index

If, on or prior to any Cut-off Date in respect of a Payment Date, an Index Sponsor announces that it will make a material change to an Inflation Index, then the Calculation Agent shall make such adjustments to the Terms and Conditions [insert in case Fallback Bond is applicable: [(i)] [(if a Fallback Bond is specified for the relevant Inflation Index)] as are consistent with any adjustment made to the relevant Fallback Bond[; or] [insert in case Fallback Bond is not applicable: [(ii)] [(if no Fallback Bond is specified for the relevant Inflation Index)] as are necessary for such modified Inflation Index to continue as an Inflation Index.

If no such adjustment can reasonably be made pursuant to the above, the provisions of Inflation Index Condition [4][5] (*Additional Early Redemption Events*) shall apply.

[(e)][(f)] Rebasings of the Inflation Index

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, then the Inflation Index as so rebased (the "**Rebased Index**") will be used for the purposes of determining any Underlying Closing Level of such Inflation Index from the date of such rebasing.

[Insert in case Fallback Bond is applicable: [If a Fallback Bond is specified for the relevant Inflation Index in the applicable Final Terms, then the][The] Calculation Agent shall make such adjustments to the levels of such Rebased Index as are made by the calculation agent pursuant to the terms and conditions of the relevant Fallback Bond, so that the levels of such Rebased Index reflect the same rate of inflation as the relevant Inflation Index before it was rebased.]

[(d)][(e)] Änderung eines Inflationsindex

Gibt ein Indexsponsor an oder vor einem Stichtag für einen Zahlungstag bekannt, dass er eine wesentliche Änderung an einem Inflationsindex vornimmt, nimmt die Berechnungsstelle entsprechende Änderungen an den Bedingungen vor [einfügen, falls eine Fallbackanleihe anwendbar ist: [(i)] [(wenn für den betreffenden Inflationsindex eine Fallbackanleihe angegeben ist)], die mit den an der entsprechenden Fallbackanleihe vorgenommenen Änderungen übereinstimmen [oder] [einfügen, falls keine Fallbackanleihe anwendbar ist: [(ii)] [(wenn für den betreffenden Inflationsindex keine Fallbackanleihe angegeben ist)], die erforderlich sind, damit dieser geänderte Inflationsindex als Inflationsindex fortbesteht.

Kann eine Anpassung gemäß den vorstehenden Bestimmungen nicht sinnvoll vorgenommen werden, gelten die Bestimmungen von Inflationsindex-Bedingung [4][5] (*Zusätzliche Vorzeitige Rückzahlungsereignisse*).

[(e)][(f)] Bestimmung eines neuen Ausgangswerts des Inflationsindex

Legt die Berechnungsstelle fest, dass ein Inflationsindex zu einem beliebigen Zeitpunkt einen neuen Ausgangswert erhalten hat oder erhalten wird, wird der Inflationsindex mit dem neuen Ausgangswert (der "**Index mit Neuem Ausgangswert**") für die Zwecke der Bestimmung eines Schlusstands des Basiswerts dieses Inflationsindex ab dem Datum der Festlegung dieses neuen Ausgangswerts verwendet.

Any such rebasing shall not affect any prior payments made under the Securities.

The "fair market value" of a Calculation Amount is determined in the reasonable discretion of the Calculation Agent and when determining such value the Calculation Agent will take into consideration the following values:

(i) the sum of two components relating to the Securities (i) a bond component and (ii) an embedded derivative(s) or option component. The value of the bond component will be determined

[Einfügen, falls Fairer Marktwert anwendbar ist:]

"Fairer Marktwert" bezeichnet einen durch die Berechnungsstelle ermittelten Betrag in der Festgelegten Währung, der den fairen Marktwert des Berechnungsbetrags an einem von der Emittentin gewählten Tag darstellt, einschließlich sämtlicher fälliger und zahlbarer Zinsbeträge, wobei im Fall einer Berechnung des fairen Marktwerts gemäß Bedingung 7 (Kündigungereignisse) die Finanzlage der Emittentin, von der angenommen wird, dass sie ihre Verpflichtungen im Hinblick auf die Wertpapiere vollständig erfüllen kann, nicht berücksichtigt wird.

Der "faire Marktwert" eines Berechnungsbetrags wird nach billigem Ermessen der Berechnungsstelle ermittelt, wobei die Berechnungsstelle bei der Ermittlung dieses Werts die folgenden Werte berücksichtigt:

(i) die Summe zweier auf die Wertpapiere bezogener Komponenten, und zwar (i) einer Anleihekomponente und (ii) einer Eingebettete-Derivate-Komponente oder Optionskomponente. Der Wert der Anleihekomponente wird

based on the present value of the stream of cash payments associated with a conventional bond of an amount equal to the then outstanding aggregate principal amount of the Securities discounted by a prevailing internal funding rate (which may be adjusted by a spread) for a term equal to that then outstanding of the Securities. The value of the embedded derivative component will be determined based on internal pricing models which will take into account certain parameters that the Calculation Agent determines appropriate (including, without limitation, factors such as expected interest and dividend rates; and the value, price or level and volatility of any relevant Underlying(s) or other reference item or any futures or options relating to any of them); and/or

(ii) the value of the Securities as determined using any such other factors as the Calculation Agent deems relevant, including but not limited to the time remaining to maturity of the Securities, the interest rates at which banks lend to each other, the interest rate which the Issuer (or its Affiliates) is charged to borrow cash, if the Securities are linked to one or more Underlying(s) or other reference asset(s), the value, expected future performance and/or volatility of such Underlying(s) or other reference asset(s) and any other information the Calculation Agent deems relevant (including, but not limited to the circumstances that resulted in the events causing such redemption).

Such values, along with deductions for any fees, costs or commissions in connection with the issue of the Securities and the cost of entering into any underlying and/or related hedging and funding arrangements in respect of the Securities are expected to have been relevant pricing factors taken into account at or around the trade date to enable the Issuer to determine the terms on which it can issue the Securities on the Issue Date and are therefore relevant factors in determining any Early Redemption Amount.

auf Basis des Barwerts des mit einer herkömmlichen Anleihe verbundenen Barzahlungsstroms bestimmt, wobei der Betrag der Anleihe dem zum jeweiligen Zeitpunkt ausstehenden, mit einem üblichen internen (ggf. um einen Spread angepassten) Finanzierungssatz abgezinsten Gesamtnennbetrag der Wertpapiere und die Laufzeit der Anleihe der zum jeweiligen Zeitpunkt verbleibenden Restlaufzeit der Wertpapiere entspricht. Der Wert der Eingebettete-Derivate-Komponente wird auf Basis interner Preisbildungsmodelle bestimmt, die gewisse von der Berechnungsstelle als angemessen festgelegte Parameter berücksichtigen (darunter Faktoren wie zu erwartende Zins- und Dividendensätze sowie der Wert, Kurs oder Stand und die Volatilität eines maßgeblichen Basiswerts bzw. maßgeblicher Basiswerte, eines sonstigen Referenzgegenstands oder darauf bezogener Futures oder Optionen); und/oder

(ii) den Wert der Wertpapiere, der unter Verwendung jeglicher anderer Faktoren bestimmt wird, die die Berechnungsstelle als maßgeblich erachtet, darunter die bis zur Fälligkeit der Wertpapiere verbleibende Zeit, die Zinssätze, zu denen Banken untereinander Geld verleihen, der Zinssatz, der der Emittentin (oder ihren Verbundenen Unternehmen) für die Aufnahme von Geldern berechnet wird und, falls die Wertpapiere auf einen oder mehrere Basiswerte oder sonstige Referenzvermögenswerte bezogen sind, der Wert, die erwartete zukünftige Wertentwicklung und/oder die Volatilität dieses Basiswerts bzw. dieser Basiswerte oder dieses sonstigen Referenzvermögenswerts bzw. dieser sonstigen Referenzvermögenswerte sowie sämtliche weiteren Informationen, die die Berechnungsstelle als maßgeblich erachtet (darunter die Umstände, die zu den die Rückzahlung verursachenden Ereignissen geführt haben).

Es wird erwartet, dass diese Werte zusammen mit den Abzügen für Gebühren, Kosten oder Provisionen im Zusammenhang mit der Emission der Wertpapiere sowie den Kosten für den Abschluss von den Wertpapieren zugrunde liegenden und/oder mit den Wertpapieren in Zusammenhang stehenden Hedginggeschäften und Finanzierungsvereinbarungen als maßgebliche Preisbildungsfaktoren am oder um den Handelstag berücksichtigt wurden, um der Emittentin die Festlegung der Bedingungen zu ermöglichen, zu denen sie die Wertpapiere am Ausgabebetrag ausgeben kann, weshalb es sich dabei um maßgebliche Faktoren für die Bestimmung eines jeglichen Vorzeitigen Rückzahlungsbetrags handelt.

The "**Interest Rate**" for the relevant Interest Period will be the Reference Rate for such Interest Period[, [plus][minus] the Margin specified as such in the applicable Final Terms][, and multiplied by the Interest Participation Rate].

For each Interest Period, the Reference Rate will equal the rate appearing on the relevant Page at approximately the Specified Time on the relevant Interest Determination Date [[plus] [minus] the Margin][, and multiplied by the relevant Interest Participation Rate], [all] as determined by the Calculation Agent.

Alle Korrekturen, die nach dem zweiten Geschäftstag vor dem Maßgeblichen Planmäßigen Zahlungstag veröffentlicht werden, bleiben bei der Bestimmung des maßgeblichen Bildschirmsatzes unberücksichtigt.

[Subject as provided in Valuation and Settlement Condition 9, the following provisions (the "**USD LIBOR SRD Fallback Provisions**") will apply if the Reference Rate cannot be determined on any Interest Determination Date and the Calculation Agent will determine the Reference Rate as follows:

- (i) The Calculation Agent after consultation with the Issuer, will select the Reference Banks.
- (ii) The Calculation Agent will request that the Reference Banks provide their offered quotations to prime banks in the London interbank market at approximately the Specified Time on the relevant Interest Determination Date. These quotations shall be for deposits in U.S. dollars for the period equal to that which would have been used for the Reference Rate, commencing on the relevant date. Offered quotations must be based on a principal amount equal to at least USD1,000,000.
 - (A) If two or more quotations are provided, the Reference Rate for the relevant Interest Period will be the arithmetic average of those quotations.
 - (B) If fewer than two quotations are provided, the Calculation Agent, after consultation with the Issuer, will select three major banks in New York City and follow the steps in the two paragraphs below.
 - (1) The Calculation Agent will then determine the Reference Rate for the relevant Interest Period as the arithmetic average of rates quoted by those three major banks in New York City to leading European banks at approximately 11:00 a.m. (New York City time) on the relevant Interest Determination Date. The rates quoted will be for loans in U.S. dollars for the period equal to that which would have been used for the Reference Rate commencing on the relevant date

[Vorbehaltlich der Bestimmungen in Bewertungs- und Abwicklungsbedingung 9 gelten die folgenden Bestimmungen (die "**USD LIBOR SRD-Fallback-Bestimmungen**"), sofern der Referenzsatz an einem Zinsfestsetzungstag nicht festgesetzt werden kann und die Berechnungsstelle den Referenzsatz wie folgt festlegt:

- (i) Die Berechnungsstelle wählt nach Rücksprache mit der Emittentin die Referenzbanken aus.
- (ii) Die Berechnungsstelle fordert die Referenzbanken auf, ihre Angebotsquotierungen für erstklassige Kreditinstitute am Londoner Interbankenmarkt ungefähr zum Festgelegten Zeitpunkt am relevanten Zinsfestsetzungstag zur Verfügung zu stellen. Diese Quotierungen sollen ab dem maßgeblichen Datum für Einlagen in US-Dollar für einen Zeitraum gedacht sein, der dem, der für den Referenzsatz angewendet worden wäre, entspricht. Die Angebotsquotierungen müssen auf einem Nennbetrag basieren, der mindestens USD 1.000.000 entspricht.
 - (A) Werden zwei oder mehr Quotierungen zur Verfügung gestellt, so beläuft sich der Referenzsatz für die relevante Zinsperiode auf den arithmetischen Durchschnitt dieser Quotierungen.
 - (B) Werden weniger als zwei Quotierungen zur Verfügung gestellt, wählt die Berechnungsstelle nach Rücksprache mit der Emittentin drei Großbanken in New York City aus und führt die in den nachstehenden beiden Absätzen beschriebenen Schritte aus.
 - (1) Die Berechnungsstelle bestimmt dann den Referenzsatz für die relevante Zinsperiode als arithmetischen Durchschnitt der von diesen drei Großbanken in New York City für führende europäische Banken um ungefähr 11:00 Uhr (New Yorker Zeit) am relevanten Zinsfestsetzungstag quotierten Sätze. For the purposes of this sub-paragraph, "Compounded Daily SONIA" means, in respect of an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) calculated by the Calculation Agent on the relevant Interest Determination Date (and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards):

Für die Zwecke dieses Unterabsatzes bezeichnet "Compounded Daily SONIA" in Bezug auf eine Zinsperiode die Rendite einer täglich aufgezinster verzinslichen Anlage (mit dem täglichen Sterling Overnight Reference Rate als Referenzsatz für die Zinsberechnung), berechnet von der Berechnungsstelle am relevanten Zinsfestsetzungstag (und der sich ergebende Prozentsatz wird, falls erforderlich, auf das nächste Zehntausendstel eines Prozentpunkts gerundet, wobei 0,00005 nach oben gerundet wird):

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA rate in respect of any London Banking Day. The SONIA rate applied to a day that is not a London Banking Day will be taken by applying the SONIA rate for the previous London Banking Day but without compounding.

Zur Klarstellung: Die Formel für die Berechnung des Compounded Daily SONIA zinst nur den SONIA-Satz in Bezug auf einen Londoner Bankarbeitstag auf. Bei Anwendung des SONIA-Satzes auf einen Tag, bei dem es sich nicht um einen Londoner Bankarbeitstag handelt, wird der SONIA-Satz für den vorhergehenden Londoner Bankarbeitstag ermittelt, jedoch ohne Aufzinsung.

(E) Settlement Disruption

If delivery of the Entitlement using the Delivery Method specified in this Valuation and Settlement Schedule or such other commercially reasonable manner is not practicable by reason of a Settlement Disruption Event subsisting on the Maturity Date as determined by the Calculation Agent, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the [Issuer][Intermediary] may elect to deliver the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the [Issuer][Intermediary] determines in its reasonable discretion in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the [Issuer][Intermediary] may elect, in lieu of delivering the Entitlement to pay to the relevant Securityholder the Disruption Cash Redemption Amount on the fifth Business Day following the date that notice of such election is given to the Securityholders in accordance with Condition 10 (*Notices*) of the General Conditions. Zur Klarstellung: Betrifft eine Abwicklungsstörung nur einige, jedoch nicht alle Maßgeblichen Vermögenswerte, ist der Liefertag für die nicht von der Abwicklungsstörung betroffenen Maßgeblichen Vermögenswerte der ursprünglich festgelegte Liefertag. Solange die Lieferung der Lieferungs Menge aufgrund einer Abwicklungsstörung nicht möglich ist, kann [die Emittentin] [der Intermediär] anstelle der physischen Lieferung der Lieferungs Menge und unbeschadet hier aufgeführter anderslautender Bestimmungen nach eigenem Ermessen statt einer Lieferung der Lieferungs Menge am fünften Geschäftstag nach dem Tag, an dem die Mitteilung über die jeweilige Auswahl gemäß Bedingung 10 (*Mitteilungen*) der Allgemeinen Bedingungen an die Wertpapierinhaber erfolgt, den Störungs-Barrückzahlungsbetrag an den jeweiligen Wertpapierinhaber zahlen. (F) Nichtlieferung aufgrund Illiquidität

Wenn es nach Feststellung der Berechnungsstelle unmöglich oder nicht durchführbar ist, einige oder alle der in der Lieferungsmenge enthaltenen Maßgeblichen Vermögenswerte (die "**Betroffenen Maßgeblichen Vermögenswerte**") bei Fälligkeit zu liefern, und diese Nichtlieferung aufgrund einer Illiquidität am Markt für die Maßgeblichen Vermögenswerte eintritt (eine "**Nichtlieferung**"), dann

(c) Certain defined terms

For the purposes of the above:

"Adjustment Spread" means the adjustment, if any, to a Replacement Reference Rate that the Calculation Agent determines is required in order to reduce any transfer of economic value from (i) the Issuer to the Securityholders or (ii) the Securityholders to the Issuer, in each case that would otherwise arise as a result of the replacement of the Reference Rate with the Replacement Reference Rate. Any such adjustment may be an adjustment spread that would be applied for over-the-counter derivatives transactions referencing the relevant Reference Rate in relation to the occurrence of an index cessation event or administrator/benchmark event in respect of such Reference Rate (howsoever described under the terms of the relevant transaction) and/or take account of, without limitation, any anticipated transfer of economic value as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the Reference Rate. The Adjustment Spread may be positive, negative or zero and/or determined pursuant to a formula or methodology.

"Corresponding Tenor" with respect to a Replacement Reference Rate means a tenor (including overnight) having approximately the same length (disregarding business day adjustment) as the applicable tenor for the then-current Reference Rate.

"Interpolated Reference" Rate with respect to the Reference Rate means the rate determined for the Corresponding Tenor by interpolating on a linear basis between: (1) the Reference Rate for the longest period for which the Reference Rate is available that is shorter than the Corresponding Tenor and (2) the Reference Rate for the shortest period for which the Reference Rate is available that is longer than the Corresponding Tenor.

Emittentin, die Wertpapierinhaber über eine solche Feststellung zu informieren, so hat dies keinen Einfluss auf die Gültigkeit einer solchen Feststellung.

(c) Bestimmte definierte Begriffe

Für die Zwecke des Vorstehenden:

"Anpassungsspread" bezeichnet die (etwaige) Anpassung eines Ersatzreferenzsatzes, die die Berechnungsstelle für erforderlich hält, um die Übertragung von wirtschaftlichem Wert von (i) der Emittentin auf die Wertpapierinhaber oder (ii) von den Wertpapierinhabern auf die Emittentin zu reduzieren, die sich in jedem der Fälle andernfalls infolge der Ersetzung des Referenzsatzes durch den Ersatzreferenzsatz ergeben würde. Jede Anpassung kann ein Anpassungsspread darstellen, die bei außerbörslichen Derivatetransaktionen, die sich auf den betreffenden Referenzsatz beziehen, in Bezug auf das Eintreten eines Indexabbruchs oder eines Administrator-/Benchmarkereignisses in Bezug auf diesen Referenzsatz (wie auch immer in den Bedingungen der betreffenden Transaktion beschrieben) angewandt würde, und/oder unter anderem auch jegliche prognostizierte Übertragung von wirtschaftlichem Wert infolge eines Unterschieds in Laufzeitstruktur oder Laufzeit des Ersatzreferenzsatzes im Vergleich zum Referenzsatz berücksichtigen. Der Anpassungsspread kann sich auf eine positive oder eine negative Zahl oder auf null belaufen und/oder gemäß einer Formel oder Methodik berechnet werden.

"Entsprechende Laufzeit" bezeichnet in Bezug auf einen Ersatzreferenzsatz eine Laufzeit (auch über Nacht), die (ohne Geschäftstaganpassung) ungefähr dieselbe Länge hat wie die anwendbare Laufzeit für den dann aktuellen Referenzsatz.

"Interpolierter Referenzsatz" bezeichnet in Bezug auf den Referenzsatz den für die Entsprechende Laufzeit durch lineare Interpolation zwischen: (1) dem Referenzsatz für den längsten Zeitraum, für den der Referenzsatz verfügbar ist, der kürzer als die Entsprechende Laufzeit ist, und (2) dem Referenzsatz für den kürzesten Zeitraum, für den der Referenzsatz verfügbar ist, der länger als die Entsprechende Laufzeit ist, bestimmten Satz.

"Vorbenannter Ersatzreferenzsatz" bezeichnet in Bezug auf den maßgeblichen Referenzsatz den ersten der Indizes, Benchmarks oder anderen Preisquellen oder Sätzen, die in

"Pre-nominated Replacement Reference Rate" means, in respect of the relevant Reference Rate, the first of the indices, benchmarks or other price sources or rates specified in the applicable Final Terms that is not subject to a Reference Rate Event.

"Reference Rate Event" means:

(ii) the Calculation Agent determines that any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the relevant Reference Rate or the administrator or sponsor of the relevant Reference Rate has not been, or will not be, obtained or has been, or is likely to be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that the Issuer or the Calculation Agent or any other entity is not, or will not be, permitted under any applicable law or regulation to use the relevant Reference Rate to perform its or their respective obligations under the Securities;

(iii) save where the relevant Final Terms specify that "Reference Rate Event (Limb (iii))" is not applicable, the Calculation Agent determines that it is not commercially reasonable to continue the use of the relevant Reference Rate in connection with the Securities as a result of any applicable licensing restrictions or changes in the cost of obtaining or maintaining any relevant

The Early Redemption Interest Amount shall be calculated as follows:

- (i) where the Interest Rate and/or Interest Amount and/or Embedded Accrued Interest Amount applicable to the Interest Payment Date falling immediately after the date of early redemption can be determined prior to the relevant date of early redemption, the Early Redemption Interest Amount shall be calculated as the amount of accrued but unpaid interest payable in respect of each Calculation Amount determined on the basis of the Terms and Conditions, adjusted only so that the due date for early redemption is deemed to be the final Interest Payment Date, and applying the Day Count Fraction specified in the applicable Final Terms, or otherwise as the Calculation Agent determines appropriate, taking into account the period elapsed since the previous Interest

(d) Zahlungen für Zinsen bei vorzeitiger Rückzahlung

Der Vorzeitige Rückzahlungszinsbetrag wird wie folgt berechnet:

(i) Wenn der Zinssatz und/oder der Zinsbetrag und/oder der Eingebettete Betrag Aufgelaufener Zinsen, der auf den unmittelbar nach dem Tag der vorzeitigen Rückzahlung liegenden Zinszahlungstag anwendbar ist, vor dem betreffenden Tag der vorzeitigen Rückzahlung bestimmt werden kann, wird der Zinsbetrag für die vorzeitige Rückzahlung als der Betrag der ausgelaufenen, aber nicht gezahlten Zinsen berechnet, der in Bezug auf jeden Berechnungsbetrag zu zahlen ist, der auf der Grundlage der Bedingungen bestimmt wird, nur so angepasst, dass der Fälligkeitstag für die vorzeitige Rückzahlung als der letzte Zinszahlungstag gilt, und unter Anwendung des in den anwendbaren Endgültigen Bedingungen angegebenen Tageszählungsanteils oder auf andere Weise, wie es die Berechnungsstelle für angemessen hält, unter Berücksichtigung des seit dem vorangegangenen Zinsperiodentag oder (falls kein solches festgelegt wurde) dem Ausgabebetrag verstrichenen Zeitraums; oder

(ii) in allen anderen Fällen wird der Vorzeitige Rückzahlungszinsbetrag als ein von der Berechnungsstelle ermittelter Betrag berechnet, der den angemessenen Marktwert des nicht gezahlten Zinsanteils des betreffenden Berechnungsbetrags (falls vorhanden) abzüglich (außer im

or

- (ii) in all other cases, the Early Redemption Interest Amount shall be calculated as an amount determined by the Calculation Agent as reflecting the fair market value of the unpaid interest element of the relevant Calculation Amount (if any) less (except in the case of any early redemption pursuant to General Condition 7 (*Events of Default*)) the proportionate cost to the Issuer and/or its affiliates of unwinding any underlying and/or related hedging and funding arrangements in respect of the Securities (including, without limitation, any options relating to any Underlying hedging the Issuer's obligations under the Securities and, for the purposes of determining the fair market value of such Calculation Amount for the purposes of General Condition 7 (*Events of Default*)), no account shall be taken of the financial condition of the Issuer, the CGMHI Guarantor or the CGMFL Guarantor which, in each case, shall be presumed to be able to perform fully their respective obligations in respect of the Securities.

For the avoidance of doubt, no such Early Redemption Interest Amount which is contingent upon any event shall be payable in respect of the Securities, unless all the relevant events have been satisfied.

(a) USD LIBOR Benchmark-Übergangereignis

Ungeachtet anderslautender Bestimmungen in den Bedingungen gelten, wenn die Berechnungsstelle an oder vor einem Zinsfestsetzungstag oder anderen Tag, an dem eine USD-Benchmark gemäß den Bedingungen der Wertpapiere festgesetzt werden muss, feststellt, dass ein Benchmark-Übergangereignis und der damit verbundene Benchmark-Ersetzungsstichtag (jeweils wie nachstehend definiert) in

(c) Zwischenanpassungen

Sofern nach einem Benchmark-Übergangereignis, aber vor dem Eintreten von Ersetzungen oder Anpassungen gemäß Bewertungs- und Abwicklungsbedingung 8(b), eine USD-Benchmark für eine Festlegung in Bezug auf die Wertpapiere benötigt wird und zum Zeitpunkt der betreffenden Festlegung kein Benchmark-Ersatz und keine Anpassung des Benchmark-Ersatzes festgelegt worden sind und die maßgeblichen Dem Benchmark-Ersatz Entsprechenden Änderungen in Übereinstimmung mit Bewertungs- und Abwicklungsbedingung 8(b) nicht erfolgt sind, und:

- (a) sofern die USD-Benchmark noch immer verfügbar ist und es für die Wertpapiere nach den anwendbaren Gesetzen und Vorschriften immer noch zulässig ist, auf die USD-Benchmark zu referenzieren, und es für die Emittentin und/oder die Berechnungsstelle nach den anwendbaren Gesetzen und Vorschriften immer noch zulässig ist, die USD-Benchmark zur Erfüllung ihrer jeweiligen Verpflichtungen aus den Wertpapieren zu verwenden, bestimmt sich die USD-Benchmark nach Maßgabe der Bedingungen, die für die Festlegung der USD-Benchmark gelten würden, wäre kein Benchmark-Übergangereignis eingetreten; oder

If such USD Benchmark is determined as any such substituted or successor rate, the Calculation Agent may make such other amendments to the Securities which it considers are necessary and/or appropriate to reflect the adoption of such substituted or successor rate.

The Calculation Agent shall notify the Issuer of any determination made by it in accordance with the above and the action that it proposes to take in respect of any such determination. The Issuer shall notify the Securityholders thereof as soon as reasonably practicable thereafter in accordance with General Condition 10 (*Notices*). "Benchmark Replacement" means the Interpolated Benchmark with respect to the then-current USD Benchmark, plus the Benchmark

Vorschriften nicht mehr zulässig ist, die USD-Benchmark zur Erfüllung ihrer jeweiligen Verpflichtungen aus den Wertpapieren zu verwenden, bestimmt die Berechnungsstelle die USD-Benchmark nach ihrem Ermessen und nach Beratung mit einer von der Berechnungsstelle als angemessen erachteten Quelle, als (a) einen Ersatz- oder Nachfolgesatz, für den sie festgestellt hat, dass es sich bei ihm um den in der Branche (im Derivatemarkt) anerkannten Ersatz- oder Nachfolgesatz für den USD-LIBOR mit der maßgeblichen Laufzeit handelt, oder (b) sofern sie feststellt, dass kein in der Branche (im Derivatemarkt) anerkannter Ersatz- oder Nachfolgesatz existiert, als einen Ersatz- oder Nachfolgesatz, für den sie feststellt, dass er unter Berücksichtigung der vorherrschenden Branchenstandards in jedem verbundenen Markt (so unter anderem auch im Derivatemarkt) eine wirtschaftlich sinnvolle Alternative zur USD-Benchmark darstellt. Wird eine solche USD-Benchmark als Ersatz- oder Nachfolgesatz bestimmt, kann die Berechnungsstelle andere Änderungen der Wertpapiere festlegen, die sie für erforderlich und/oder angemessen hält, um der Annahme des Ersatz- oder Nachfolgesatzes Rechnung zu tragen.

Die Berechnungsstelle wird die Emittentin über alle von ihr gemäß dem Vorstehenden getroffenen Feststellungen und die Maßnahmen, die sie in Bezug auf diese Feststellungen zu ergreifen gedenkt, informieren. Die Emittentin wird die Wertpapierinhaber davon so bald wie möglich danach gemäß Bedingung 10 (*Mitteilungen*) in Kenntnis setzen. Versäumt es die Berechnungsstelle, die Emittentin zu benachrichtigen, oder versäumt es die Emittentin, die Wertpapierinhaber über eine solche Feststellung zu informieren, so hat dies keinen Einfluss auf die Gültigkeit einer solchen Feststellung.

"Benchmark-Ersatz" bezeichnet die Interpolierte Benchmark in Bezug auf die dann aktuelle USD-Benchmark zuzüglich der Anpassung des Benchmark-Ersatzes für diese

Replacement Adjustment for such USD Benchmark; provided that if the Calculation Agent cannot determine the Interpolated Benchmark as of the Benchmark Replacement Date, then "Benchmark Replacement" means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- (1) the sum of: (a) the ISDA Fallback Rate and (b) the Benchmark Replacement Adjustment
- (2) the sum of: (a) Term SOFR and (b) the Benchmark Replacement Adjustment;
- (3) the sum of: (a) Compounded SOFR and (b) the Benchmark Replacement Adjustment;

- (5) the sum of: (a) the alternate rate of interest that has been selected by the Calculation Agent as the replacement for the then-current USD Benchmark for the applicable Corresponding Tenor giving due consideration to any industry-accepted rate of interest as a replacement for the then-current USD Benchmark for U.S. dollar-denominated floating rate securities at such time and (b) the Benchmark Replacement Adjustment.

"Benchmark Replacement Adjustment" means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- (1) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, then the ISDA Fallback Adjustment;
- (2) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;

USD-Benchmark, vorausgesetzt, dass "Benchmark-Ersatz" in dem Fall, dass die Berechnungsstelle die Interpolierte Benchmark zum Benchmark-Ersetzungstichtag nicht feststellen kann, sich auf die erste Alternative in der nachfolgend dargestellten Reihenfolge bezieht, die von der Berechnungsstelle zum Benchmark-Ersetzungstichtag festgestellt werden kann:

- (1) die Summe aus: (a) ISDA-Ersatzkurs und (b) der Anpassung des Benchmark-Ersatzes;
- (2) die Summe aus (a) Term SOFR und (b) der Anpassung des Benchmark-Ersatzes,
- (3) die Summe aus: (a) Compounded SOFR und (b) der Anpassung des Benchmark-Ersatzes;

- (5) die Summe aus: (a) dem alternativen Zinssatz, der von der Berechnungsstelle als Ersatz für die dann aktuelle USD-Benchmark für die anwendbare Entsprechende Laufzeit nach angemessener Berücksichtigung eines durch Marktteilnehmer zum relevanten Zeitpunkt anerkannten Zinssatzes als Ersatz für die dann aktuelle USD-Benchmark für auf US-Dollar lautende, variabel verzinsliche Wertpapiere ausgewählt wurde und (b) der Anpassung des Benchmark-Ersatzes.

"Anpassung des Benchmark-Ersatzes" bezeichnet die erste Alternative in der nachfolgend dargestellten Reihenfolge, die die Berechnungsstelle zum Benchmark-Ersetzungstichtag festsetzen kann:

- (1) entspricht der anwendbare Unangepasste Benchmark-Ersatz dem ISDA-Ersatzkurs, dann die ISDA-Ersatzanpassung;
- (2) die Spreadanpassung oder die Methode zur Berechnung oder Festsetzung der Spreadanpassung (die sich auf eine positive oder negative Zahl oder auf null belaufen kann), die von der Maßgeblichen Staatlichen Stelle für den anwendbaren Unangepassten Benchmark-Ersatz ausgewählt oder empfohlen wurde;

(3) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Calculation Agent giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current USD Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate securities at such time.

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including without limitation, changes to determination dates, the timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction of any time delay or lag between the calculation or observation period of a rate and the related payment dates and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Calculation Agent determines is reasonably necessary).

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current USD Benchmark:

(1) in the case of sub-paragraph (1) or (2) of the definition of "Benchmark Transition Event", the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the USD Benchmark permanently or indefinitely ceases to provide the USD Benchmark; or

(2) in the case of sub-paragraph (3) of the definition of "Benchmark Transition Event", the later of (a) the date of the public statement or publication of information referenced therein and

(3) die Spreadanpassung (die sich auf eine positive oder negative Zahl oder auf null belaufen kann), die von der Berechnungsstelle nach angemessener Berücksichtigung einer in der Branche anerkannten Spreadanpassung oder Methode zur Berechnung oder Festlegung der betreffenden Spreadanpassung als Ersatz der dann aktuellen USD-Benchmark mit dem anwendbaren Unangepassten Benchmark-Ersatz für auf US-Dollar lautende, variable verzinsliche Wertpapiere zum betreffenden Zeitpunkt ausgewählt wurde.

"Dem Benchmark-Ersatz Entsprechende Änderungen" bezeichnet in Bezug auf einen Benchmark-Ersatz jegliche technischen, administrativen oder operativen Änderungen (so unter anderem auch Änderungen in Bezug auf Festsetzungstage, den Zeitpunkt und die Häufigkeit der Feststellung von Sätzen und der Leistung von Zahlungen, die Einführung einer Verzögerung oder eines zeitlichen Abstands zwischen der Berechnung oder dem Beobachtungszeitraum eines Satzes und den damit verbundenen Zahlungsterminen und andere Verwaltungsangelegenheiten), bei denen die Berechnungsstelle entscheidet, dass sie angemessen sein können, um der Übernahme eines Benchmark-Ersatzes in einer Art Rechnung zu tragen, die im Wesentlichen den Marktgepflogenheiten entspricht (oder, sofern die Berechnungsstelle entscheidet, dass die Übernahme eines Teils der Marktgepflogenheiten verwaltungstechnisch nicht durchführbar ist, oder wenn die Berechnungsstelle feststellt, dass für die Anwendung des Benchmark-Ersatzes keine Marktgepflogenheiten bestehen, auf eine andere Weise, die die Berechnungsstelle für sinnvollerweise erforderlich hält).

"Benchmark-Ersetzungstichtag" bezeichnet das in Bezug auf die dann aktuelle USD-Benchmark als erstes unter den folgenden eintretende Ereignis:

(1) im Falle von Unterabsatz (1) oder (2) der Definition von "Benchmark-Übergangsereignis", (a) das Datum der öffentlichen Bekanntgabe oder Veröffentlichung von darin in Bezug genommenen Informationen und (b) das Datum, zu dem der Administrator der USD-Benchmark die Bereitstellung der USD-Benchmark auf Dauer oder auf unbefristete Zeit einstellt, je nachdem, welches Datum später eintritt; oder

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current USD Benchmark:

(1) a public statement or publication of information by or on behalf of the administrator of the USD Benchmark announcing that such administrator has ceased or will cease to provide the Benchmark Rate, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark Rate;

Zur Klarstellung: Tritt das Ereignis, dass den Benchmark-Ersetzungsstichtag auslöst, am selben Tag zu einer früheren Zeit als der Referenzzeitpunkt in Bezug auf eine Festsetzung ein, wird der Benchmark-Ersetzungsstichtag als vor dem Referenzzeitpunkt in Bezug auf die Festsetzung eingetreten erachtet.

"Benchmark-Übergangereignis" bezeichnet das Eintreten eines oder mehrerer der nachfolgenden Ereignisse in Bezug auf die dann aktuelle USD-Benchmark:

(2) sofern und soweit die Berechnungsstelle feststellt, dass der Compounded SOFR nicht in Übereinstimmung mit dem vorhergehenden Unterabsatz festgestellt werden kann, dann der Satz oder die Methodik und die Konventionen für diesen Satz, die von der Berechnungsstelle nach angemessener Berücksichtigung der durch Marktteilnehmer zum relevanten Zeitpunkt anerkannten Marktgepflogenheiten für auf US-Dollar lautende, variabel verzinsliche Wertpapiere ausgewählt wurde.

Intended to be held in a manner which would allow Eurosystem eligibility:	[Yes. Note that the designation "yes" simply means that the Securities are intended upon issue to be deposited with one of the International Central Securities Depositories ("ICSDs") as common safekeeper and does not necessarily mean that the Securities will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. [Ja. Es wird darauf hingewiesen, dass die Angabe "ja" lediglich bedeutet, dass beabsichtigt ist, dass die Wertpapiere nach ihrer Begebung bei einem der internationalen Zentralverwahrer ("ICSDs") als gemeinsamem Verwahrer verwahrt werden; es bedeutet nicht notwendigerweise, dass die Wertpapiere bei ihrer Begebung, zu irgendeinem Zeitpunkt während ihrer Laufzeit oder während ihrer gesamten Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Inwertageskredite des Eurosystems anerkannt werden. Das vorliegende Dokument stellt einen Basisprospekt (der "**Basisprospekt**") gemäß Artikel 8 der Verordnung EU 2017/1129 des Europäischen Parlaments und des Rates in ihrer jeweils geltenden Fassung (die "**Prospektverordnung**") für die Ausgabe von Wertpapieren mit einem einzelnen Basiswert und Wertpapieren mit mehreren Basiswerten dar, die von Zeit zu Zeit als Schuldverschreibungen (die "**Schuldverschreibungen**") oder Zertifikate (die "**Zertifikate**"), wie jeweils in den anwendbaren Endgültigen Bedingungen angegeben, im Rahmen des Programms von der Emittentin ausgegeben werden können (jeweils ein "**Wertpapier**" und zusammen die "**Wertpapiere**" und jeder Inhaber eines solchen Wertpapiers ein "**Wertpapierinhaber**" und zusammen die "**Wertpapierinhaber**").

Dieser Basisprospekt hebt den Basisprospekt vom 19. Juli 2021 in seiner Gesamtheit auf und ersetzt ihn.

Die Zahlung und Lieferung sämtlicher in Bezug auf die ausschließlich von der CGMHI ausgegebenen Wertpapiere fälliger Beträge bzw. Mengen wird unbeding und unwiderruflich von der CGMHI-Garantiegeberin gemäß einer Garantieurkunde vom 21. Dezember 2015 (die "**CGMHI-Garantieurkunde**") garantiert.

Die Zahlung und Lieferung sämtlicher in Bezug auf die ausschließlich von der CGMFL ausgegebenen Wertpapiere fälliger Beträge bzw. Mengen wird unbeding und unwiderruflich von der CGMFL-Garantiegeberin gemäß (i) einer Garantieurkunde vom 25. Januar 2019 (die "**CGMFL-Garantieurkunde**") und (ii) einer Garantie bezüglich jeglicher fälligen Zahlungen durch CGMFL in Bezug auf jegliche Verbindlichkeit der CGMFL vom 11. Mai 2017 (die "**Umfassende Garantie**"), in ihrer jeweils geänderten und/oder ergänzten und/oder vollständig neuen und von der CGMFL-Garantiegeberin ausgestellten Fassung garantiert (zusammengenommen die "**CGMFL-Garantieurkunden**").

CGMHI, CGMFL, die CGMHI-Garantiegeberin und die CGMFL-Garantiegeberin sind jeweils nach Maßgabe der Wertpapierbedingungen in diesem Basisprospekt zu Ersetzungen berechtigt.

WICHTIGE HINWEISE

Vertrieb von Wertpapieren

Wertpapiere können laufend an CGML, Citigroup Global Markets Europe AG und/oder einen im Rahmen des Programms zusätzlich ernannten Vertriebspartner (jeweils ein "**Vertriebspartner**" und gemeinsam die "**Vertriebspartner**") ausgegeben werden. Für jede Ausgabe von Wertpapieren werden in den anwendbaren Endgültigen Bedingungen (wie nachstehend definiert) Vertriebspartner angegeben. Jede der Emittentinnen behält sich jedoch vor, Wertpapiere unter Beachtung sämtlicher anwendbarer Regelwerke direkt im eigenen Namen an andere juristische Personen zu verkaufen und in festgelegten Rechtsordnungen über Vertriebsstellen direkt öffentlich anzubieten. Die Wertpapiere können im Rahmen einer Privatplatzierung unter Beachtung sämtlicher anwendbarer Vorschriften und Regelungen angeboten und verkauft werden.

Gemäß diesem Basisprospekt können Wertpapiere ausgegeben werden, deren Rendite (in Bezug auf etwaige auf diese Wertpapiere zu zahlende Zinsen und/oder den Rückzahlungsbetrag dieser Wertpapiere) sich auf einen oder mehrere Wertpapierindizes ("**Auf Wertpapierindizes Bezogene Wertpapiere**") oder auf einen oder mehrere Inflationsindizes ("**Auf Inflationsindizes Bezogene Wertpapiere**") oder auf einen oder mehrere Rohstoffe ("**Auf Rohstoffe Bezogene Wertpapiere**") oder auf eine oder mehrere Aktien ("**Auf Aktien Bezogene Wertpapiere**") oder auf ein oder mehrere Depositary Receipts ("**Auf Depositary Receipts Bezogene Wertpapiere**") oder auf einen oder mehrere Anteile börsennotierter Fonds ("**ETF-Anteil**") ("**Auf ETFs Bezogene Wertpapiere**") oder auf einen oder mehrere Investmentfonds ("**Auf Investmentfonds Bezogene Wertpapiere**") oder auf einen oder mehrere Umtauschkurse ("**Auf Wechselkurse Bezogene Wertpapiere**") oder auf einen oder mehrere Dividendenfuturekontrakte ("**Auf Dividendenfuturekontrakte Bezogene Wertpapiere**") oder auf einen oder mehrere Zinssätze ("**Auf Zinssätze Bezogene Wertpapiere**") bezieht, jeweils ein "**Wertpapier**" und zusammen "**Strukturierte Wertpapiere**", wie in diesem Basisprospekt näher beschrieben.

Bei den Wertpapieren erfolgt die Abwicklung je nach Festlegung im Bewertungs- und Abwicklungsanhang und den anwendbaren Endgültigen Bedingungen entweder durch Barausgleich ("**Wertpapiere mit Barausgleich**") oder physische Lieferung ("**Wertpapiere mit Physischer Lieferung**").

Angabe bezüglich des Registereintrags des Administrators gemäß der Benchmark-Verordnung – Unter den Wertpapieren zahlbare Beträge oder zu liefernde Vermögenswerte können durch Bezugnahme auf einen oder mehrere "Referenzwerte" im Sinne der Verordnung (EU) 2016/1011 (die "**Benchmark-Verordnung**") berechnet werden. In diesem Fall geben die Endgültigen Bedingungen an, ob der Referenzwert von einem Administrator, der im Register der Administratoren und Referenzwerte aufgeführt ist, welches von der Europäischen Wertpapier- und Marktaufsichtsbehörde ("**ESMA**") gemäß Artikel 36 der Benchmark-Verordnung erstellt und geführt wird bereitgestellt wird oder nicht. Gemäß der Übergangbestimmungen der Benchmark-Verordnung muss der Administrator eines bestimmten Referenzwerts unter Umständen zum Zeitpunkt der Endgültigen Bedingungen nicht im Register der Administratoren und Referenzwerte eingetragen sein.

Potentielle Anleger sollten beachten, dass die Kündigungsereignisse in Bezug auf die CGMHI-Garantiegeberin auf die in den Allgemeinen Bedingungen 7(a)(i) und 7(a)(ii) (*Kündigungsereignisse*) genannten Ereignisse in Bezug auf den Ausfall der Zahlung von Kapital oder Zinsen in Bezug auf die Wertpapiere beschränkt sind, jedoch weder die Insolvenz oder den Konkurs der CGMHI-Garantiegeberin (oder ein ähnliches Ereignis), noch jeden sonstigen Ausfall der CGMHI-Garantiegeberin umfassen oder

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

die Garantieurkunde vom 21. Dezember 2015 in ihrer jeweils geänderten und/oder ergänzten und/oder ersetzten Fassung (die "**CGMHI-Garantieurkunde**"), die von CGMHI-Garantiegeberin ausgefertigt wurde und nicht in vollem Umfang in Kraft ist (oder als nicht in Kraft getreten angesehen wird), betreffen. Daher können die Inhaber der von der CGMHI begebenen Wertpapiere, auch wenn die CGMHI-Garantiegeberin für insolvent erklärt wurde oder ein Insolvenzverfahren eingeleitet hat oder die CGMHI-Garantieurkunde abgelehnt hat, keine Kündigungsereignis unter den Wertpapieren auslösen und somit nicht veranlassen, dass die Wertpapiere sofort fällig und zahlbar werden, wodurch die Wertpapiere erst bei Fälligkeit zurückgezahlt werden (es sei denn, in der Zwischenzeit ist ein Kündigungsereignis aufgrund von Nichtzahlung von Zinsen oder Kapital oder eines Konkurses oder eines sonstigen Ausfalls der CGMHI eingetreten). Es ist möglich, dass die Inhaber bei Fälligkeit eine geringere Rendite erhalten, als wenn sie unter solchen Umständen eine sofortige Rückzahlung der Wertpapiere veranlasst hätten.

MiFID II PRODUKTÜBERWACHUNGSPFLICHTEN / ZIELMARKT

Die Endgültigen Bedingungen in Bezug auf die Wertpapiere können eine Erklärung mit der Überschrift "*MiFID II Produktüberwachungspflichten / Zielmarkt*" enthalten, die die Beurteilung des Zielmarktes in Bezug auf die Wertpapiere darstellt und angibt, welche Kanäle für den Vertrieb der Wertpapiere angemessen sind. Jede Person, die in der Folge die Wertpapiere anbietet, verkauft oder empfiehlt (eine "**Vertriebsstelle**") soll die Beurteilung des Zielmarkts berücksichtigen; eine Vertriebsstelle, welcher der Richtlinie 2014/65/EU (in ihrer jeweils geänderten Fassung, "**MiFID II**") unterliegt, ist indes dafür verantwortlich, seine eigene Beurteilung des Zielmarktes im Hinblick auf die Wertpapiere durchzuführen (entweder durch Übernahme oder durch Präzisierung der Beurteilung des Zielmarktes) und angemessene Vertriebskanäle zu bestimmen.

Für jede Emission wird festgelegt, ob ein Vertriebspartner, der Wertpapiere zeichnet, ein Konzepteur in Bezug auf diese Wertpapiere im Sinne der Vorschriften der MiFID zur Produktüberwachung gemäß der Delegierten Richtlinie (EU) 2017/593 (die "**MiFID Produktüberwachungsvorschriften**") ist, andernfalls gelten weder der Arrangeur noch ein Vertriebspartner noch eines ihrer jeweils verbundenen Unternehmen als Konzepteur im Sinne der MiFID Produktüberwachungsvorschriften.

UK MIFIR PRODUKTÜBERWACHUNGSPFLICHTEN / ZIELMARKT

Die Endgültigen Bedingungen in Bezug auf die Wertpapiere können eine Erklärung mit der Überschrift "*Vereinigtes Königreich MiFIR Produktüberwachungspflichten / Zielmarkt*" enthalten, die die Zielmarktbeurteilung in Bezug auf die Wertpapiere und die geeigneten Kanäle für den Vertrieb der Wertpapiere darlegen wird. Jede Person, die die Wertpapiere anschließend anbietet, verkauft oder empfiehlt (ein "**Vertriebsunternehmen**"), sollte die Beurteilung des Zielmarktes berücksichtigen; ein Vertriebsunternehmen, welches dem *Financial Conduct Authority ("FCA") Handbook Product Intervention and Product Governance Sourcebook* (die "**MiFIR Produktüberwachungspflichten des Vereinigten Königreichs**") unterliegt, ist indes dafür verantwortlich, seine eigene Zielmarktbestimmung im Hinblick auf die Wertpapiere durchzuführen (entweder durch die Übernahme oder durch die Präzisierung der Zielmarktbestimmung) und geeignete Vertriebskanäle zu bestimmen.

Für jede Emission wird festgelegt, ob ein Vertriebspartner, der Wertpapiere zeichnet, ein Konzepteur in Bezug auf diese Wertpapiere im Sinne der MiFIR Produktüberwachungspflichten des Vereinigten Königreichs ist, andernfalls gelten weder der Arrangeur noch ein Vertriebspartner noch eines ihrer jeweils verbundenen Unternehmen als Konzepteur im Sinne der MiFIR Produktüberwachungspflichten des Vereinigten Königreichs.

PRIIPS-VERORDNUNG / KLEINANLEGER IM EUROPÄISCHEN WIRTSCHAFTSRAUM

Wenn die Endgültigen Bedingungen in Bezug auf die Wertpapiere eine Erklärung mit der Überschrift "*Verbot des Verkaufs an Kleinanleger im Europäischen Wirtschaftsraum*" enthalten, sind die Wertpapiere nicht für das Angebot, den Verkauf oder die sonstige Form der Zurverfügungstellung an Kleinanleger im Europäischen Wirtschaftsraum (der "EWR") bestimmt und sollten Kleinanlegern im EWR nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Für diese Zwecke bezeichnet der Begriff „Kleinanleger“ eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) sie ist ein Kleinanleger im Sinne von Artikel 4 Abs. 1 Nr. 11 MiFID II; (ii) sie ist ein Kunde im Sinne der Richtlinie (EU) 2016/97 (die "**Versicherungsvertriebsrichtlinie**"), soweit dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 4 Abs. 1 Nr. 10 MiFID II gilt; oder (iii) sie ist kein qualifizierter Anleger im Sinne der Prospektverordnung. Wenn ein solches Verbot des Verkaufs an Kleinanleger im EWR in den Endgültigen Bedingungen enthalten ist, wurde kein sogenanntes Basisinformationsblatt, das gemäß der Verordnung (EU) Nr. 1286/2014 (in ihrer jeweils geltenden Fassung, die "**PRIIPs-Verordnung**") erforderlich ist, für das Angebot oder den Verkauf oder eine sonstige Form der Zurverfügungstellung solcher Wertpapiere an Kleinanleger im EWR erstellt und das Angebot, der Verkauf oder die sonstige Form der Zurverfügungstellung an Kleinanleger im EWR kann daher gemäß der PRIIPs-Verordnung rechtswidrig sein.

VK PRIIPS-VERORDNUNG / KLEINANLEGER IM VEREINIGTEN KÖNIGREICH

Wenn die Endgültigen Bedingungen in Bezug auf die Wertpapiere eine Erklärung mit der Überschrift "*Verbot des Verkaufs an Kleinanleger im Vereinigten Königreich*" enthalten, sind die Wertpapiere nicht für das Angebot, den Verkauf oder die sonstige Form der Zurverfügungstellung an Kleinanleger im Vereinigten Königreich (das "VK") bestimmt und sollten Kleinanlegern im VK nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Für diese Zwecke bezeichnet der Begriff „Kleinanleger“ eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) sie ist ein Kleinanleger im Sinne von Artikel 2 Nummer 8 der Verordnung (EU) Nr. 2017/565, wie sie aufgrund des European Union (Withdrawal) Act 2018 ("**EUWA**") Teil des nationalen Rechts ist; oder (ii) sie ist ein Kunde im Sinne der Bestimmungen des Financial Services and Markets Act 2000 (der "**FSMA**") und jeglicher Vorschriften oder Verordnungen, die im Rahmen des FSMA zur Umsetzung der Richtlinie (EU) 2016/97 erlassen wurden, wenn dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 2 Absatz 1 Nummer 8 der Verordnung (EU) Nr. 600/2014, wie sie durch das EUWA Teil des nationalen Rechts ist, qualifiziert wäre; oder (iii) sie ist kein qualifizierter Anleger im Sinne von Artikel 2 der Prospektverordnung, wie sie aufgrund des EUWA Teil des nationalen Rechts ist. Wenn ein solches Verbot des Verkaufs an Kleinanleger im VK in den Endgültigen Bedingungen enthalten ist, wurde kein nach der Verordnung (EU) Nr. 1286/2014, wie sie aufgrund des EUWA Teil des nationalen Rechts ist (die "**VK PRIIPs-Verordnung**"), erforderliches Basisinformationsblatt für das Angebot oder den Verkauf oder die sonstige Zurverfügungstellung der Wertpapiere an Kleinanleger im VK erstellt; daher kann das Angebot oder der Verkauf oder die sonstige Zurverfügungstellung der Wertpapiere an Kleinanleger im VK nach der VK PRIIPs-Verordnung rechtswidrig sein.

Billigung des Basisprospekts

Sowohl der CGMHI-Basisprospekt als auch der CGMFL-Basisprospekt wurden als Basisprospekt von der *Central Bank of Ireland* ("**CBI**") als der gemäß der Prospektverordnung zuständigen Behörde gebilligt. CBI billigt diesen Basisprospekt lediglich im Hinblick darauf, dass er die seitens der

Non-binding German translation
Unverbindliche deutsche Übersetzung

Prospektverordnung vorgeschriebenen Standards der Vollständigkeit, Verständlichkeit und Konsistenz erfüllt. Diese Billigung sollte nicht als Bestätigung einer der Emittentinnen, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin oder der Qualität der Wertpapiere, die Gegenstand dieses Basisprospekts sind, erachtet werden. Anleger sollten ihre eigene Beurteilung der Eignung einer Anlage in die Wertpapiere vornehmen.

Diese Billigung bezieht sich lediglich auf Wertpapiere, die an einem geregelten Markt im Sinne von MiFID II zum Handel zugelassen oder die öffentlich in Mitgliedstaaten des EWR unter Umständen zum Handel angeboten werden sollen, die die Veröffentlichung eines Prospekts erfordern. Es kann jedoch nicht gewährleistet werden, dass diese Anträge gebilligt werden oder, wenn dies der Fall ist, dass diese Billigung innerhalb eines bestimmten Zeitraums erfolgt.

Die Einbeziehung der Wertpapiere in den Handel im Freiverkehr der Frankfurter Wertpapierbörse ("**FBW**") wird beantragt, jedoch kann nicht gewährleistet werden, dass die Einbeziehung spätestens zum Zeitpunkt der Ausgabe von Wertpapieren bzw. überhaupt erfolgen wird. Auch bei der Irish Stock Exchange plc, firmierend als Euronext Dublin, (die "**Euronext Dublin**") wird die Zulassung von Wertpapieren, die innerhalb von zwölf Monaten ab dem Datum des Basisprospekts ausgegeben werden, zum amtlichen Handel (die "**Official List**") und zum Handel am geregelten Markt beantragt, jedoch kann nicht gewährleistet werden, dass die Börsenzulassung spätestens zum Zeitpunkt der Ausgabe von Wertpapieren bzw. überhaupt erfolgen wird. Eine elektronische Kopie des Basisprospekts wird auf der Euronext Dublin-Website unter <https://live.euronext.com/en/site-home-page> veröffentlicht. Auch bei der Börse Luxemburg wird die Zulassung von Wertpapieren, die innerhalb von zwölf Monaten ab dem Datum des Basisprospekts ausgegeben werden, zum amtlichen Handel und zum Handel am geregelten Markt beantragt, jedoch kann nicht gewährleistet werden, dass die Börsenzulassung spätestens zum Zeitpunkt der Ausgabe von Wertpapieren bzw. überhaupt erfolgen wird. Eine elektronische Kopie des Basisprospekts wird, für die Dauer der Einbeziehung in den Handel der Wertpapiere an der Börse Luxemburg, auf der Seite der Börse Luxemburg unter www.bourse.lu veröffentlicht. Die CBI kann auf Verlangen der Emittentin einer zuständigen Behörde eines anderen Mitgliedstaats des EWR (i) eine Kopie des Basisprospekts und (ii) eine Bescheinigung über die Billigung gemäß Artikel 25 der Prospektverordnung, wonach der Basisprospekt im Einklang mit der Prospektverordnung erstellt wurde, übermitteln. Bezüglich des Vorgenannten und für die Zwecke der Notifizierung des Basisprospekts nach Luxemburg, Deutschland und Österreich beantragen die Emittentinnen, dass die CBI (i) eine Kopie des Basisprospekts und (ii) eine Bescheinigung über die Billigung gemäß Artikel 25 der Prospektverordnung, wonach der Basisprospekt im Einklang mit der Prospektverordnung erstellt wurde, an die entsprechend zuständigen Behörden übermitteln

Der Basisprospekt (in seiner ggf. zum relevanten Zeitpunkt ergänzten Fassung) ist für 12 Monate ab seinem Datum in Bezug auf Wertpapiere gültig, die im EWR zum Handel an einem geregelten Markt zuzulassen sind. Die Verpflichtung zur Erstellung von Nachträgen zu dem Basisprospekt bei Auftreten eines signifikanten neuen Faktors, eines wesentlichen Fehlers oder einer wesentlichen Ungenauigkeit gilt nicht, wenn der Basisprospekt nicht mehr gültig ist.

Dieser Basisprospekt wurde in englischer Sprache erstellt. Falls es eine Abweichung zwischen dem deutschen und dem englischen Text geben sollte, so gilt der englische Text für die Zwecke der Billigung gemäß Verordnung (EU) 2017/1129 des Europäischen Parlaments und des Rates vom 14. Juni 2017 über den Prospekt, der beim öffentlichen Angebot von Wertpapieren oder bei deren Zulassung zum Handel an einem geregelten Markt zu veröffentlichen ist und zur Aufhebung der Richtlinie 2003/71/EG als gebilligt.

Wertpapiere werden in Serien (wie in diesem Basisprospekt definiert) ausgegeben und jede Serie kann aus einer oder mehreren Tranchen (wie in diesem Basisprospekt definiert) von Wertpapieren bestehen.

WICHTIGE HINWEISE ZU NICHTBEFREITEN ANGEBOTEN DER WERTPAPIERE

Widerrufsrechte

Vorbehaltlich und gemäß Artikel 8 Abs. 11 und Artikel 23 Abs. (2a) der Prospektverordnung haben Anleger, die sich bereits vor der Veröffentlichung dieses Basisprospekts zum Erwerb oder zur Zeichnung von Wertpapieren verpflichtet haben, die der Öffentlichkeit in einem Mitgliedstaat des EWR angeboten wurden, das Recht, ihre Annahme innerhalb von drei Arbeitstagen nach Veröffentlichung dieses Basisprospekts zu widerrufen, es sei denn, die Wertpapiere waren zum Zeitpunkt der Veröffentlichung dieses Basisprospekts bereits an sie ausgeliefert worden. Zur Klarstellung: Der letzte Tag, an dem berechnete Anleger ein solches Widerrufsrecht ausüben können, ist der 20. Juli 2022. Anleger, die ihr Widerrufsrecht ausüben wollen, können den zuständigen zugelassenen Anbieter (wie nachstehend definiert) kontaktieren.

Einschränkungen bei Nichtbefreiten Angeboten der Wertpapiere in den Mitgliedstaaten des EWR

Tranchen der Wertpapiere mit einer Stückelung von weniger als EUR 100.000 (oder dem Gegenwert in einer anderen Währung) können auch unter Umständen angeboten werden, unter denen keine Befreiung von der Verpflichtung gemäß der Prospektverordnung zur Veröffentlichung eines Prospekts besteht. Jegliche solche Angebote werden als ein "**Nichtbefreites Angebot**" bezeichnet. Der Basisprospekt wurde auf einer Grundlage erstellt, die Nichtbefreite Angebote der Wertpapiere gestattet. Allerdings darf eine Person, die ein Nichtbefreites Angebot der Wertpapiere in einem Mitgliedstaat des EWR macht oder plant, dies nur vornehmen, wenn der Basisprospekt von der zuständigen Behörde im Mitgliedstaat gebilligt wurde (bzw. in einem anderen Mitgliedstaat gebilligt und die zuständige Behörde in dem Mitgliedstaat unterrichtet wurde) und gemäß der Prospektverordnung veröffentlicht wurde, vorausgesetzt, dass die Emittentin der Verwendung dieses Basisprospekts in Zusammenhang mit einem solchen Angebot gemäß den Bestimmungen des nachstehenden Abschnitts "*Gemäß Artikel 5 Abs. 1 der Prospektverordnung erteilte Zustimmung (Retail Cascades)*" zugestimmt hat und die mit dieser Zustimmung verbundenen Bedingungen von der Person, die das Nichtbefreite Angebot solcher Wertpapiere macht, erfüllt werden.

Außer wie vorstehend vorgesehen, haben weder die Emittentinnen noch die CGMHI-Garantiegeberin (wenn die Emittentin CGMHI ist), die CGMFL-Garantiegeberin (wenn die Emittentin CGMFL ist) oder ein Vertriebspartner gestattet und gestatten sie auch nicht, dass ein Nichtbefreites Angebot der Wertpapiere unter Umständen erfolgt, unter denen für die Emittentin, die Garantiegeberin oder einen Vertriebspartner eine Verpflichtung entsteht, für ein solches Angebot einen Prospekt zu veröffentlichen oder einen Nachtrag zu erstellen.

Gemäß Artikel 5 Abs. 1 der Prospektverordnung erteilte Zustimmung (Retail Cascades)

In Zusammenhang mit einem Nichtbefreiten Angebot solcher Wertpapiere sind die Emittentin, die CGMHI-Garantiegeberin (wenn die Emittentin CGMHI ist) und die CGMFL-Garantiegeberin (wenn die Emittentin CGMFL ist) in den Jurisdiktionen, auf die sich die Zustimmung zur Verwendung des Basisprospekts erstreckt, gemäß Artikel 11 der Prospektverordnung verantwortlich für den Inhalt dieses Basisprospekts gegenüber jeglicher Person (ein "**Anleger**"), die Wertpapiere im Rahmen eines Nichtbefreiten Angebots erwirbt, das seitens einer Person gemacht wird, der die Emittentin die

Zustimmung zur Nutzung dieses Basisprospekts in diesem Zusammenhang erteilt hat (ein "**Zugelassener Anbieter**"), vorausgesetzt dass der Zugelassene Anbieter die mit der Zustimmung verbundenen Bedingungen beachtet. Die Zustimmung und die mit ihr verbundenen Bedingungen werden im Folgenden unter "*Zustimmung*" und "*Allgemeine Bedingungen für die Zustimmung*" beschrieben.

Weder die Emittentin noch die CGMHI-Garantiegeberin (wenn die Emittentin CGMHI ist) oder die CGMFL-Garantiegeberin (wenn die Emittentin CGMFL ist) oder ein Vertriebspartner geben eine Zusicherung hinsichtlich der Einhaltung geltender Wohlverhaltensregeln oder sonstiger geltender aufsichtsrechtlicher oder wertpapierrechtlicher Anforderungen durch den Zugelassenen Anbieter in Bezug auf ein Nichtbefreites Angebots ab und weder die Emittentin noch die CGMHI-Garantiegeberin (bei der die Emittentin CGMHI ist) oder die CGMFL-Garantiegeberin (bei der die Emittentin CGMFL ist) oder ein Vertriebspartner haften oder sind verantwortlich für die Handlungen des Zugelassenen Anbieters.

Außer wie nachstehend vorgesehen, haben weder die Emittentin noch die CGMHI-Garantiegeberin (wenn die Emittentin CGMHI ist) oder die CGMFL-Garantiegeberin (wenn die Emittentin CGMFL ist) oder ein Vertriebspartner gestattet, dass ein Nichtbefreites Angebot von jeglichem Anbieter gemacht wird und hat die Emittentin der Nutzung dieses Basisprospekts durch andere Personen in Zusammenhang mit einem Nichtbefreiten Angebot der Wertpapiere nicht zugestimmt. Die Vornahme eines Nichtbefreiten Angebots ohne die Zustimmung der Emittentin ist unzulässig und weder die Emittentin noch die CGMHI-Garantiegeberin (wenn die Emittentin CGMHI ist) oder die CGMFL-Garantiegeberin (wenn die Emittentin CGMFL ist) oder ein Vertriebspartner haften oder sind verantwortlich für Handlungen von Personen, die ein solches unzulässiges Angebot machen. Sofern einem Anleger in Zusammenhang mit einem Nichtbefreiten Angebot Wertpapiere seitens einer Person angeboten werden, die kein Zugelassener Anbieter ist, sollte der Anleger bei dieser Person nachfragen, ob jemand in Zusammenhang mit dem Nichtbefreiten Angebot für die Zwecke des Artikels 11 der Prospektverordnung für den Basisprospekt verantwortlich ist und, wenn dies der Fall ist, wer diese Person ist. Sofern der Anleger Zweifel hat, ob er sich auf diesen Basisprospekt berufen kann und/oder wer für dessen Inhalt verantwortlich ist, sollte er Rechtsberatung einholen.

Die Zustimmung zur Verwendung des Basisprospekts gilt für den Zeitraum der Gültigkeit des Basisprospekts. Die Zustimmung kann, wie jeweils in den Endgültigen Bedingungen festgelegt, allen Finanzintermediären (generelle Zustimmung) oder nur einem oder mehreren Finanzintermediären (jeder ein Zugelassener Anbieter) (individuelle Zustimmung) erteilt werden und gilt für Irland, Luxemburg, Österreich und Deutschland (jeweils eine "**Rechtsordnung des Öffentlichen Angebots**"), wie jeweils in den Endgültigen Bedingungen festgelegt. Die vorstehende Zustimmung erfolgt vorbehaltlich der Einhaltung der für die Wertpapiere geltenden Verkaufsbeschränkungen und aller jeweils anwendbaren gesetzlichen Vorschriften. Die Zustimmung zur späteren Weiterveräußerung oder endgültigen Platzierung der Wertpapiere durch Finanzintermediäre wird entweder für die Dauer der Gültigkeit des Basisprospekts oder für einen anderen Zeitraum, wie jeweils in den Endgültigen Bedingungen festgelegt, erteilt. Basisprospekt potenziellen Anlegern nur zusammen mit etwaigen Nachträgen (sofern vorhanden) auszuhändigen.

Falls ein Finanzintermediär ein Angebot macht, wird dieser Finanzintermediär die Anleger zum Zeitpunkt der Angebotsvorlage über die Angebotsbedingungen, wie in den Endgültigen Bedingungen angegeben, unterrichten.

Sofern die jeweiligen Endgültigen Bedingungen bestimmen, dass sämtliche Finanzintermediäre in den Rechtsordnungen des Öffentlichen Angebots die Zustimmung zur Verwendung des Basisprospekts erhalten (generelle Zustimmung), hat jeder den Basisprospekt verwendende Finanzintermediär auf seiner Website anzugeben, dass er den Basisprospekt mit Zustimmung des Emittenten und gemäß den Bedingungen, an die die Zustimmung gebunden ist, verwendet.

Der Preis und der Nennbetrag der im Rahmen des Programms auszugebenden Wertpapiere werden von der Emittentin und dem entsprechenden Vertriebspartner zum Zeitpunkt der Ausgabe entsprechend den herrschenden Marktbedingungen festgelegt. Vorbehaltlich der Bestimmungen in den Bedingungen der Wertpapiere (einschließlich etwaiger Kosten, Steuern, Abgaben und/oder Aufwendungen im Zusammenhang mit dem Kauf, der Ausübung und/oder der Rückzahlung der Wertpapiere) sind die Bedingungen der Wertpapiere jedoch derart gestaltet, dass von den Wertpapierinhabern im Falle eines Fehlers oder einer Überzahlung durch die Emittentin keine anderen Zahlungen als der Ausgabepreis zu erwarten sind.

ABSCHNITT A – ALLGEMEINE BESCHREIBUNG DES PROGRAMMS

Jede Emittentin kann im Rahmen des Programmes jeweils Wertpapiere oder Zertifikate begeben, die, vorbehaltlich der Bestimmungen dieses Basisprospekts, auf jede Währung lauten können bzw. in jeder Währung zahlbar sind.

Die anwendbaren Bedingungen eines Wertpapiers werden vor Ausgabe der Wertpapiere zwischen der Emittentin und ggf. dem jeweiligen Vertriebspartner vereinbart und in den Wertpapierbedingungen, d. h. den "*Wertpapierbedingungen*" nach Maßgabe von Teil A der anwendbaren Endgültigen Bedingungen, angegeben.

ABSCHNITT B – RISIKOFAKTOREN

Beim Kauf von Wertpapieren sind Anleger dem Risiko ausgesetzt, dass die maßgebliche Emittentin und, soweit die CGMHI die Emittentin ist, die CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, die CGMFL-Garantiegeberin gegebenenfalls insolvent werden oder anderweitig nicht in der Lage sind, ihren Verpflichtungen aus den Wertpapieren nachzukommen. Es besteht ein weites Spektrum an Faktoren, die einzeln oder zusammen dazu führen könnten, dass die maßgebliche Emittentin und, soweit die CGMHI die Emittentin ist, die CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, die CGMFL-Garantiegeberin nicht mehr in der Lage sind, ihren Verpflichtungen aus den Wertpapieren nachzukommen. Es ist nicht möglich, all diese Faktoren zu bestimmen, da sich die maßgebliche Emittentin und, soweit die CGMHI die Emittentin ist, die CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, die CGMFL-Garantiegeberin gegebenenfalls nicht sämtlicher relevanter Faktoren bewusst sind und bestimmte, von ihnen zum aktuellen Zeitpunkt nicht als wesentlich eingestufte Faktoren infolge des Eintritts von Ereignissen, die außerhalb der Kontrolle der maßgeblichen Emittentin und, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin liegen, wesentlich werden. Die maßgebliche Emittentin und, soweit die CGMHI die Emittentin ist, die CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, die CGMFL-Garantiegeberin haben in vorliegendem Basisprospekt eine Reihe von Faktoren identifiziert, die ihre Geschäftsbereiche und die Fähigkeit, fällige Zahlungen im Rahmen der Wertpapiere zu leisten oder Vermögenswerte auf die oder in Zusammenhang mit den Wertpapiere(n) zu liefern, wesentlich beeinträchtigen könnten.

Alle nachstehend dargestellten Risiken könnten den Handelspreis der Wertpapiere beeinträchtigen und infolge dessen müssen Anleger gegebenenfalls einen teilweisen oder vollständigen Verlust ihrer Anlage hinnehmen.

Zusätzlich werden nachstehend auch Faktoren beschrieben, die für die Zwecke der Einschätzung der Marktrisiken der im Rahmen dieses Basisprospekts ausgegebenen Wertpapiere wesentlich sind.

Potenzielle Anleger müssen die an anderer Stelle in diesem Basisprospekt aufgeführten ausführlichen Informationen lesen, einschließlich der durch Verweis in diesen Basisprospekt einbezogenen Dokumente, und eigene Schlussfolgerungen ziehen, bevor sie eine Anlageentscheidung treffen.

ANLEGER KÖNNEN IHRE GESAMTE ANLAGE ODER GEGEBENENFALLS EINEN TEIL DAVON VERLIEREN. KEINE DER EMITTENTINNEN SICHERT ZU, DASS DIE NACHSTEHENDE LISTE VOLLSTÄNDIG IST. POTENZIELLE ANLEGER SOLLTEN DEN BASISPROSPEKT IN SEINER GESAMTHEIT LESEN UND SICH IHRE EIGENEN SCHLUSSFOLGERUNGEN BEZÜGLICH DER MASSGEBLICHEN EMITTENTIN BILDEN.

Risiken im Zusammenhang mit der CGMHI, der CGMFL, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin

Nachstehend sind bestimmte Risikofaktoren aufgeführt, die das Geschäft, die operative Tätigkeit, die Finanzlage oder die Aussichten der CGMHI, der CGMFL, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin wesentlich beeinträchtigen könnten und dafür sorgen könnten, dass die künftigen Ergebnisse der CGMHI, der CGMFL, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin – und zwar einer oder mehrerer von ihnen - wesentlich von den erwarteten Ergebnissen abweichen. Zudem könnten sich auch die Wettbewerbssituation oder andere Faktoren auf die Ergebnisse der CGMHI, der CGMFL, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin auswirken. Die nachstehend erläuterten Faktoren sollten nicht als vollständige und umfassende

Unverbindliche deutsche Übersetzung

Auflistung aller potenziellen Risiken und Unsicherheiten, denen das Geschäft der CGMHI, der CGMFL, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin jeweils ausgesetzt ist, verstanden werden. Die CGMHI, die CGMFL, die CGMHI-Garantiegeberin und die CGMFL-Garantiegeberin haben jeweils nur die Risiken im Zusammenhang mit ihrer operativen Tätigkeit erläutert, die sie als wesentlich erachten. Es können weitere Risiken bestehen, die die CGMHI, die CGMFL, die CGMHI-Garantiegeberin und/oder die CGMFL-Garantiegeberin derzeit nicht als wesentlich erachten oder denen sie sich derzeit nicht bewusst sind und diese Risiken könnten die vorstehend aufgeführten Folgen haben. Anleger sollten beachten, dass sie das Bonitätsrisiko der maßgeblichen Emittentin, der CGMHI-Garantiegeberin (sofern die CGMHI die Emittentin ist) und der CGMFL-Garantiegeberin (sofern die CGMFL die Emittentin ist) tragen.

Die Fähigkeit der CGMHI, ihren Verpflichtungen aus den Wertpapieren nachzukommen, hängt von den Erträgen der Tochterunternehmen der Citigroup Inc. ab

Die Fähigkeit der CGMHI, ihren Verpflichtungen aus den von ihr ausgegebenen Wertpapieren nachzukommen, hängt davon ab, ob die Konzerngesellschaften, an die sie die durch die Ausgabe dieser Wertpapiere eingesammelten Mittel weiterverleiht, ihren Verpflichtungen im Rahmen dieser Finanzierung fristgerecht nachkommen. Dementsprechend sollten Anleger die für die Citigroup Inc. und ihre Tochterunternehmen (zusammengenommen der "**Konzern**") geltenden, an anderer Stelle in diesem Abschnitt des Basisprospekts aufgeführten Risikofaktoren berücksichtigen. Sind diese gruppenangehörigen Unternehmen nicht in der Lage, ihren Verpflichtungen in Bezug auf die Finanzierung nachzukommen, könnte die Fähigkeit der CGMHI, ihren eigenen Verpflichtungen aus den von ihr ausgegebenen Wertpapieren nachzukommen, beeinträchtigt werden, und in der Folge könnten der Wert und die Rendite der Wertpapiere ebenfalls beeinträchtigt werden.

Die Fähigkeit der CGMFL, ihren Verpflichtungen aus den von ihr begebenen Wertpapieren nachzukommen, ist davon abhängig, dass die CGMFL-Garantiegeberin ihren Gegenparteiverpflichtungen gegenüber der CGMFL nachkommt

Die CGMFL unterliegt dem gruppeninternen Kreditrisiko. Von Zeit zu Zeit schließt die CGMFL Derivategeschäfte mit der CGMFL-Garantiegeberin ab, um ihre Verbindlichkeiten gegenüber Wertpapierinhabern aus von ihr begebenen Wertpapieren (zu denen auch die unter diesem Basisprospekt begebenen Wertpapiere gehören können) zu kompensieren oder abzusichern. Als solche ist die CGMFL dem Kreditrisiko der CGMFL-Garantiegeberin in Form eines Gegenparteirisikos in Bezug auf solche Derivategeschäfte ausgesetzt. Insbesondere hängt die Fähigkeit der CGMFL, ihren Verpflichtungen aus den Wertpapieren nachzukommen, in erster Linie davon ab, dass die CGMFL-Garantiegeberin ihren Gegenparteiverpflichtungen gegenüber der CGMFL in Bezug auf solche Derivategeschäfte fristgerecht nachkommt und jedes Versäumnis der CGMFL-Garantiegeberin diesbezüglich wirkt sich negativ auf die Fähigkeit der CGMFL aus, ihren Verpflichtungen aus den Wertpapieren nachzukommen. Die Wertpapierinhaber haben keinen Rückgriff auf die CGMFL-Garantiegeberin im Rahmen solcher Derivategeschäfte.

Rasch wandelnde Herausforderungen und Ungewissheiten im Zusammenhang mit der COVID-19-Pandemie in den U.S.A. und den Rest der Welt werden wahrscheinlich auch weiterhin einen negativen Einfluss auf die Geschäftsbereiche des Konzerns und die Finanz- und Ertragslage haben

Die COVID-19-Pandemie hat alle Länder und Rechtsordnungen, in denen der Konzern tätig ist, betroffen, einschließlich schwerwiegender Auswirkungen auf die globale Gesundheit, die Finanzmärkte, die Ausgaben von Verbrauchern und Unternehmen und wirtschaftlichen Bedingungen. Das Ausmaß der künftigen Auswirkungen der Pandemie ist nach wie vor ungewiss und wird sich wahrscheinlich

Abhängigkeit von der Dauer und der Schwere der Folgen für die öffentliche Gesundheit und auch von der Dauer und weitere Ausbreitung des Coronavirus sowie etwaige Varianten, die sich weiter ausbreiten und größere Auswirkungen haben; weitere Herstellung, Verteilung, Akzeptanz und Wirksamkeit von Impfstoffen; Verfügbarkeit und Effizienz von Tests; die Reaktion der Öffentlichkeit und die Maßnahmen der Regierung wahrscheinlich je nach Region, Land oder Staat unterschiedlich weiterentwickeln. Die zukünftigen Auswirkungen auf die wirtschaftlichen Bedingungen weltweit könnten auch die folgenden einschließen:

- Weitere Unterbrechung der globalen Lieferketten;
- höhere Inflation;
- höhere Zinssätze;
- die signifikante Störung und Volatilität der Finanzmärkte;
- weitere Schließungen, eine verminderte Geschäftstätigkeit und Ausfälle in vielen Betrieben, in deren Folge Umsatzverluste und Nettoverluste;
- wiederholte Einführung des sozialen Abstandhaltens (*social distancing*) und Beschränkungen der Unternehmen und der Bewegungsfreiheit in und zwischen den U.S.A. und anderen Ländern; und
- Rückgang der Wirtschaftsleistung in den USA und weltweit.

Die Pandemie hat die Geschäftsbereiche und insgesamt die Finanz- und Ertragslage des Konzerns bereits negativ beeinflusst und könnte das auch in Zukunft tun, und dieser negative Einfluss könnte sich als wesentlich erweisen. Das Ausmaß der Beeinflussung der Ertrags- und Finanzlage und des Konzerns, so auch seiner Fähigkeit, seine geschäftlichen Strategien und Initiativen zu verfolgen, wird weiterhin stark von zukünftigen Entwicklungen in den USA und in der gesamten Welt abhängen. Diese Entwicklungen sind unsicher und nicht vorhersagbar, und beinhalten den Verlauf des Coronavirus, sowie jede Schwäche oder Verlangsamung der wirtschaftlichen Erholung oder ein weiterer wirtschaftlicher Abschwung, sei es aufgrund von weitere Unterbrechungen der Lieferkette, Inflationstendenzen, höhere Zinssätze oder anderes.

Es ist möglich, dass sich die Pandemie über einen längeren Zeitraum hinweg aufgrund einer weiteren Infektionsausbreitung oder einer erneuten Masseninfektion nicht ausreichend eindämmen lässt. Eine verlängerte Gesundheitskrise könnte in den USA und anderen Ländern zu einer Abschwächung der wirtschaftlichen Tätigkeit und zu zusätzlichem Beschäftigungsabbau oder Schwäche der Beschäftigungstrends, Rückgang der geschäftlichen Aktivität und Vertrauensverlust auf Seiten der Verbraucher führen. Diese Faktoren könnten sich negativ auf die globale Wirtschaftstätigkeit und Märkte auswirken, anhaltenden Rückgang der Nachfrage nach den Produkten und Leistungen des Konzerns und Umsatzeinbußen verursachen und die Kreditkosten und sonstigen Kosten des Konzerns weiter in die Höhe treiben und kann zu einer Wertminderung von langlebigen Wirtschaftsgütern oder Firmenwert führen. Diese Faktoren könnten auch zu Bilanzwachstum, einer anhaltenden Zunahme der risikogewichteten Aktiva und der Wertberichtigungen für Kreditverluste des Konzerns führen, was zu niedrigeren aufsichtsrechtlichen Eigenkapitalquoten oder Liquiditätsmaßnahmen sowie zu höheren Eigenkapitalanforderungen seitens der Aufsichtsbehörden und/oder Beschränkungen oder Herabsetzungen von Kapitalausschüttungen (wie Rückkäufe von Stammaktien und Dividenden) führt. Jegliche Störung der Erfüllung oder Nichterfüllung der zentralen Geschäftsfunktionen durch den Konzern oder seiner diesbezüglichen Fähigkeit aufgrund der Weiterverbreitung von COVID-19 oder aus anderen Gründen könnte die Geschäftstätigkeit des Konzerns beeinträchtigen.

Non-binding German translation
Unverbindliche deutsche Übersetzung

Die Auswirkungen der Pandemie auf die Verbraucher- und Unternehmenskreditnehmer des Konzerns werden je nach Sektor oder Branche unterschiedlich sein, wobei einige Kreditnehmer einem höheren Belastungsniveau ausgesetzt sein werden, insbesondere wenn die Kreditvergabe und die Kundenbetreuung weiter zurückgehen, was zu einem stärkeren Druck auf ihre Geschäftsergebnisse und ihre Finanzlage, einer höheren Kreditaufnahme oder einer Herabstufung ihrer Kreditwürdigkeit führen könnte, was wiederum höhere Kreditkosten für den Konzern zur Folge haben dürfte. Zu diesen Kreditnehmern gehören u.a. Unternehmen, die direkter von der Institution der sozialen Distanzierung, der Bewegungsfreiheit und der Schließung von Geschäften betroffen sind. Darüber hinaus kann das Belastungsniveau, das die Kreditnehmer des Konzerns letztlich erfahren, von den Annahmen früherer Schätzungen oder Modelle des Konzerns abweichen und stärker ausfallen, was zu einem Anstieg der Wertberichtigungen für Kreditverluste oder der Nettokreditverluste des Konzerns führen kann, insbesondere wenn die Vorteile der fiskalischen Anreize und staatlichen Unterstützungsprogramme abnehmen.

Laufende gesetzliche und aufsichtsrechtliche Änderungen in den USA und weltweit zur Bewältigung der wirtschaftlichen Auswirkungen der Pandemie könnten die Geschäfte, die Geschäftstätigkeit und die finanzielle Leistung des Konzerns weiter beeinträchtigen. Der Konzern könnte bei ihren Bemühungen, Hilfsmaßnahmen zu ergreifen, auch mit rechtlichen und rufschädigenden Herausforderungen konfrontiert sein und einer genauen Prüfung unterzogen werden. Diese Bemühungen haben zu Rechtsstreitigkeiten, einschließlich Sammelklagen, sowie behördliche und staatliche Maßnahmen und Verfahren geführt, bzw. könnten weiter zu diesen führen. Solche Klagen können zu Urteilen, Vergleichen, Strafen und Bußgeldern führen, die für den Konzern nachteilig sind. Darüber hinaus können die verschiedenen Arten staatlicher Maßnahmen je nach Gerichtsbarkeit und Region in Umfang und Dauer variieren und unterschiedlich wirksam sein.

Der Konzern hat Maßnahmen für den Schutz und die Sicherheit seiner Mitarbeiter ergriffen; diese Maßnahmen könnten jedoch zu weiteren Ausgaben führen, und Erkrankungen könnten die Personalausstattung für gewisse Zeit beeinträchtigen. Zusätzlich könnten sich Pandemiebeschränkungen, sowie die konzernweite Impfpflicht für das COVID-19 negativ auf die Fähigkeit des Konzerns auswirken, Mitarbeiter in Kernbereichen anzuwerben, einzustellen und einzuarbeiten.

Des Weiteren ist unklar, wie das makroökonomische Geschäftsumfeld oder die sozialen Normen nach der Pandemie beeinflusst sein werden. Das wirtschaftliche Umfeld kann nach der Pandemie unerwarteten Entwicklungen oder Änderungen der Finanzmärkte, der fiskalpolitischen, währungspolitischen steuerlichen und regulatorischen Rahmenbedingungen und des Verhaltens von Privat- wie Unternehmenskunden ausgesetzt sein. Diese Entwicklungen und Veränderungen könnten die Finanz- und Ertragslage des Konzerns beeinträchtigen. Anhaltende geschäftliche und aufsichtsrechtliche Unsicherheiten und Veränderungen könnten die längerfristige Geschäfts-, Bilanz-, Strategie- und Budgetplanung des Konzerns schwieriger oder aufwändiger gestalten. Der Konzern und sein Management und Geschäftsbereiche könnten in diesem Umfeld auch gesteigerten oder veränderten Herausforderungen des Wettbewerbs oder anderer Natur ausgesetzt sein. Soweit er nicht in der Lage sein sollte, sich anzupassen oder wirksam zu konkurrieren, könnte der Konzern Geschäftsausfall erleiden und seine Finanz- und Ertragslage könnte sich verschlechtern.

Jegliche negative Auswirkung der COVID-19-Pandemie auf den Konzern, einschließlich der maßgeblichen Emittentin, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin, könnte die Fähigkeit der maßgeblichen Emittentin, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin, ihren Verpflichtungen aus den Wertpapieren nachzukommen, beeinträchtigen, und folglich könnten auch der Wert und die Rendite dieser Wertpapiere beeinträchtigt werden.

Die Aufnahme von Bestimmungen über vertragliche Erhaltungsvorschriften in die Bedingungen der Wertpapiere könnte die Rechte der Wertpapierinhaber in einem Auflösungszenario wesentlich nachteilig beeinträchtigen.

Im Herbst 2017 haben das Board of Governors of the Federal Reserve System, die Federal Deposit Insurance Corporation und das Office of the Comptroller of the Currency Regeln erlassen ("**QFC Stay Rules**"), um die Auflösbarkeit und Widerstandsfähigkeit US-amerikanischer globaler systematisch wichtiger Bankenorganisationen ("**G-SIBs**") sowie die US-amerikanischen Tätigkeiten ausländischer G-SIBs durch Risikominimierung von destabilisierenden Abwicklungen qualifizierter Finanzverträge ("**QFCs**"), welche im Rahmen von Auflösungen betrieben werden, zu verbessern. Citigroup Inc. und ihre Tochtergesellschaften, einschließlich der CGMHI, der CGMFL und der CGMFL-Garantiegeberin, sind "**Erfasste Einheiten**" gemäß der QFC Stay Rules. Bestimmte Wertpapiere (solche Wertpapiere, "**Erfasste Instrumente**") und die CGMHI-Garantiekunde sowie die CGMFL-Garantiekunden – insoweit die Garantie sich auf Erfasste Instrumente bezieht – können als QFCs qualifiziert werden.

Die QFC Stay Rules versuchen Hindernisse einer ordentlichen Auflösung eines G-SIB in beiden Szenarien, sowohl wenn der Beschlussfassungsprozess von US-amerikanischen Aufsichtsbehörden unter dem Federal Deposit Insurance Act oder der ordentlichen Liquidationsbehörde unter dem Title II des Dodd Frank Act ("**OLA**") (zusammen, die "**U.S. Special Resolution Regimes**") geführt wird, als auch das Szenario, wenn ein G-SIB in einem Insolvenzverfahren aufgelöst wird, zu beseitigen. Um dies zu erreichen, verpflichten die QFC Stay Rules Erfasste Einheiten (wie die CGMHI, die CGMFL, die CGMHI-Garantiegeberin und die CGMFL-Garantiegeberin) sicherzustellen, dass ihre QFCs gemäß den QFC Stay Rules (eingeschlossen Wertpapiere, die Erfasste Instrumente darstellen) (i) eine ausdrückliche vertragliche Anerkennung der gesetzlichen Erhaltung- und Übertragungsbestimmungen der U.S. Special Resolution Regimes enthalten und (ii) keine Drittverzugsrechte gegen die Erfassten Einheiten, die darauf basieren, dass eine Tochtergesellschaft Gegenstand eines Insolvenzverfahrens wird oder Beschränkungen der Übertragung von damit verbundenen Instrumenten zur Verbesserung der Zahlungsfähigkeit (einschließlich einer Garantie), die von einer Tochtergesellschaft der Erfassten Einheit ausgestellt wurden, nachdem die Tochtergesellschaft Gegenstand eines Insolvenzverfahrens wurde, enthalten.

Um diese Anforderungen zu erfüllen, beinhalten die Wertpapierbedingungen eine ausdrückliche vertragliche Anerkennung, dass, falls die maßgebliche Emittentin, die CGMHI-Garantiegeberin und die CGMFL-Garantiegeberin – und zwar eine oder mehrere von ihnen - Gegenstand eines Verfahrens unter einem U.S. Special Resolution Regime wird, die Übertragung von Wertpapieren, die Erfasste Instrumente darstellen, und (in Bezug auf Erfasste Instrumente) der CGMHI-Garantiekunde und der CGMFL-Garantiekunden (und die Übertragung jeden Rechts und jeder Pflicht an oder im Rahmen solcher Erfassten Instrumente, der CGMHI-Garantiekunde und der CGMFL-Garantiekunden) von der maßgeblichen Emittentin, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin, je nach Sachlage, im gleichen Ausmaß wirksam wäre wie die Übertragung unter dem U.S. Special Resolution Regime. Zusätzlich beinhalten die Bedingungen der Wertpapiere eine ausdrückliche vertragliche Anerkennung, dass, falls die maßgebliche Emittentin, die CGMHI-Garantiegeberin, die CGMFL-Garantiegeberin oder eine der Tochtergesellschaften – und zwar eine oder mehrere von ihnen - Gegenstand eines Verfahrens unter einem U.S. Special Resolution Regime wird, Rechte im Falle einer Zahlungsunfähigkeit gegen die maßgebliche Emittentin, die CGMHI-Garantiegeberin oder die CGMFL-Garantiegeberin bezüglich der Erfassten Instrumente, der CGMHI-Garantiekunde oder der CGMFL-Garantiekunden nicht in stärkerem Maße ausgeübt werden können, als sie unter dem U.S. Special Resolution Regime ausgeübt werden könnten. Zu diesem Zwecke umfassen Rechte im Falle einer Zahlungsunfähigkeit das Recht, einen QFC zu kündigen, zu liquidieren, fällig zu stellen oder Zahlung

oder Lieferung zu verlangen. Siehe jeweils Allgemeine Bedingung 18 oder 19 (*Anerkennung der United States Special Resolution Regimes*).

Sowohl die Citigroup Inc. als US-amerikanisches Unternehmen mit Sitz in Delaware als auch die CGMHI als ein US-amerikanisches Unternehmen mit Sitz im Staat New York könnte Gegenstand eines Verfahrens unter OLA werden, falls gewisse Feststellungen von den zuständigen US-amerikanischen Aufsichtsbehörden getroffen werden. Jedoch sind nach geltendem Recht zum Zeitpunkt dieses Basisprospekts weder die CGMFL noch die CGMFL-Garantiegeberin als nicht US-amerikanische Unternehmen geeignet, Gegenstand eines Verfahrens unter den U.S. Special Resolution Regimes zu werden, obwohl beide „erfasste Einheiten“ für Zwecke der QFC Stay Rules und angehalten sind, die obigen Anerkennungen in entsprechende QFCs einzubeziehen.

Die Ausübung einer Befugnis im Rahmen der U.S. Special Resolution Regimes könnte die Rechte der Inhaber der von der CGMHI begebenen Wertpapiere (beispielsweise in Bezug auf das Recht, eine Zahlung zu verlangen) wesentlich beeinträchtigen und entsprechend auch den Preis oder Wert ihrer Anlagen in ein solches Wertpapier und/oder die Fähigkeit der maßgeblichen Emittentin, ihren Verpflichtungen aus den Wertpapieren nachzukommen.

Zum Zeitpunkt dieses Basisprospekts entwickeln sich die Auslegung der Anwendbarkeit der entsprechenden Voraussetzungen und der Marktstandard noch weiter. Falls Anleger Zweifel bezüglich der Einstufung von Wertpapieren als QFCs und die Wirkung eines Vorgehens im Rahmen eines U.S. Special Resolution Regime in Bezug auf die Wertpapiere haben, sollten sie diejenigen professionellen Berater zurate ziehen, die sie für erforderlich halten.

Möglichkeit, die CGMHI-Garantiegeberin oder die CGMFL-Garantiegeberin in der Insolvenz zu ersetzen

Die Wertpapierbedingungen sehen ausdrücklich vor, dass nichts in den Allgemeinen Bedingungen unter 11 (*Ersetzung der Emittentin, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin*) die Möglichkeit einschränken wird, die CGMHI-Garantiegeberin oder die CGMFL-Garantiegeberin zu ersetzen, nachdem die maßgebliche Rechtsträgerin Gegenstand einer Abwicklung, einer Restrukturierung oder Reorganisation oder eines ähnlichen Verfahrens wird. Dies bedeutet, dass eine derartige Ersetzung der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin nicht die in den Allgemeinen Bedingungen unter 11 (*Ersetzung der Emittentin, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin*) niedergelegten Kriterien der Ersetzung einhalten muss. Eine derartige Ersetzung könnte die Rechte der Wertpapierinhaber, den Preis und/oder den Wert ihrer Anlage in diesen Wertpapieren und/oder die Wertentwicklung im Rahmen der CGMHI-Garantieurkunde oder der CGMFL-Garantieurkunden, je nach Sachlage, beeinträchtigen.

Eine Herabstufung der Ratings der maßgeblichen Emittentin und/oder, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin könnte den Marktwert und die Liquidität der maßgeblichen Wertpapiere mindern

Der Wert der Wertpapiere wird voraussichtlich teilweise durch die allgemeine Bewertung der Bonität der maßgeblichen Emittentin, der CGMHI-Garantiegeberin, der CGMFL-Garantiegeberin und/oder ihrer verbundenen Unternehmen durch die Anleger beeinflusst werden. Eine entsprechende Wahrnehmung ist in der Regel durch die Ratings der ausstehenden Wertpapiere der maßgeblichen Emittentin, der CGMHI-Garantiegeberin, der CGMFL-Garantiegeberin und/oder ihrer verbundenen Unternehmen, die von den gängigen Agenturen für statistische Ratings wie Moody's, S&P und Fitch vergeben werden, geprägt. Eine etwaige Herabstufung des Ratings der (gegebenenfalls vorhandenen) ausstehenden Schuldtitel der

Emittentinnen, der CGMHI-Garantiegeberin, der CGMFL-Garantiegeberin und/oder der von einem ihrer verbundenen Unternehmen ausgegebenen Wertpapiere durch eine dieser Ratingagenturen könnte eine Minderung des Handelswerts der Wertpapiere nach sich ziehen.

Jede Ratingagentur kann zu einem beliebigen künftigen Zeitpunkt ein Rating einer Emittentin, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin herabsetzen, aussetzen oder zurücknehmen, wenn ihrer Beurteilung nach die Umstände eine Änderung rechtfertigen. Keine Ratingagentur ist verpflichtet, ihre Ratings auf ihrem aktuellen Niveau zu belassen. Die Ratingagenturen bewerten die Citigroup Inc. und ihre Tochterunternehmen kontinuierlich, und ihre Ratings der langfristigen und kurzfristigen Schuldtitel der Citigroup Inc. und ihrer Tochterunternehmen basieren auf einer Reihe von Faktoren, einschließlich der Finanzstärke, sowie Faktoren, die nicht vollständig innerhalb der Kontrolle der Citigroup Inc. und ihrer Tochterunternehmen liegen, wie Umstände, die die Finanzdienstleistungsbranche im Allgemeinen beeinflussen. Wenn eine Ratingagentur ihr Rating einer Emittentin und/oder, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin und/oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin und/oder ihrer verbundenen Unternehmen herabsetzt, aussetzt oder zurücknimmt, wirkt sich dies voraussichtlich nachteilig auf die Liquidität und den Marktwert der Wertpapiere sowie, gegebenenfalls, die Fähigkeit der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin, ihren Pflichten als Garantiegeberin nachzukommen, aus.

Ferner können Ratingherabstufungen durch Fitch, Moody's oder S&P beträchtliche und unmittelbare Auswirkungen auf die Finanzierung und Liquidität der Citigroup Inc. durch Barverpflichtungen, eine geminderte Finanzierungskapazität und Derivate-Trigger sowie zusätzliche Margin-Verpflichtungen (*additional margin requirements*) haben. Ratingherabstufungen könnten dabei auch andere Finanzierungsquellen, wie besicherte Finanzierung und andere Margin-Verpflichtungen, für die keine ausdrücklichen Trigger vorhanden sind, beeinträchtigen. Einige Unternehmen könnten zudem Ratingbeschränkungen in Bezug auf ihre zulässigen Gegenparteien unterliegen, die der Citigroup Inc. eventuell bekannt sind. Eine Herabstufung der Bonitätsbewertungen der Citigroup Inc. oder ihrer Tochterunternehmen könnte zudem für eine Ausweitung der Credit Spreads der Citigroup Inc. sorgen oder anderweitig ihre Kreditkosten erhöhen und ihren Zugang zu den Kapitalmärkten beschränken. Jeder der vorstehenden Faktoren kann den Wert und die Rendite der Wertpapiere nachteilig beeinflussen.

Informationen zum Rating der Emittentinnen, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin finden sich im Abschnitt mit der Überschrift "*Ratings*" auf vorstehender Seite 845.

Die Ergreifung von Maßnahmen im Rahmen des Banking Act in Bezug auf die CGMFL-Garantiegeberin könnte den Wert und die Rendite der von der CGMFL ausgegebenen Wertpapiere wesentlich beeinträchtigen

Im Rahmen des *Banking Act* von 2009 (der "***Banking Act***") werden dem Finanzministerium des Vereinigten Königreichs (*HM Treasury*), der *Bank of England*, der *Financial Conduct Authority* und der *Prudential Regulation Authority* (zusammen die "***Behörden***") im Rahmen eines spezifischen Abwicklungssystems (*special resolution regime* – das "***SRR***") wesentliche Befugnisse übertragen. Diese Befugnisse können in Bezug auf gewisse Rechtsträger im Vereinigten Königreich (jeweils ein "***Maßgeblicher Rechtsträger***"), so auch in Bezug auf Investmentgesellschaften aus dem Vereinigten Königreich wie die CGMFL-Garantiegeberin, ausgeübt werden.

Das *SRR* beinhaltet fünf Stabilisierungsoptionen und zwei spezielle Insolvenzverfahren (Bankeninsolvenzverwaltung und Bankeninsolvenz). Die Stabilisierungsoptionen sehen Folgendes vor: (i) die vollständige oder teilweise Übertragung des Geschäfts des Maßgeblichen Rechtsträgers im

privaten Sektor; (ii) die vollständige oder teilweise Übertragung des Geschäfts des Maßgeblichen Rechtsträgers auf ein sich vollständig im Eigentum der *Bank of England* befindliches Brückeninstitut (*bridge bank*); (iii) die vollständige oder teilweise Übertragung des Geschäfts des Maßgeblichen Rechtsträgers auf eine sich im Eigentum der *Bank of England* befindliche und von dieser kontrollierte Zweckgesellschaft zur Vermögensverwaltung; (iv) die Abschreibung bestimmter Forderungen unbesicherter Gläubiger des Maßgeblichen Rechtsträgers und/oder die Umwandlung bestimmter unbesicherter Forderungen in Eigenkapital (die "**Bail-In-Option**"), wobei dieses Eigenkapital ebenfalls Gegenstand einer Einziehung, Übertragung oder Verwässerung in der Zukunft sein kann, und (v) das vorübergehende staatliche Eigentum (Verstaatlichung) an dem Maßgeblichen Rechtsträger oder seiner Holdinggesellschaft des Vereinigten Königreichs in seiner bzw. ihrer Gesamtheit oder in Teilen. In jedem Fall verfügen die Behörden über weitreichende Befugnisse, beispielsweise die Befugnis, vertragliche Vereinbarungen abzuändern oder Gesetze möglicherweise rückwirkend außer Kraft zu setzen oder abzuändern.

Die maßgeblichen Stabilisierungsoptionen können ausgeübt werden, wenn (a) die maßgebliche Behörde überzeugt ist, dass ein Maßgeblicher Rechtsträger ausfällt oder aller Voraussicht nach ausfallen wird, (b) die maßgebliche Behörde nach Beratung mit den sonstigen Behörden feststellt, dass es nach billigem Ermessen nicht wahrscheinlich ist, dass (ohne Berücksichtigung der Stabilisierungsoptionen) Maßnahmen ergriffen werden, die dazu führen, dass die in (a) aufgeführte Bedingung nicht länger erfüllt ist und (c) die Behörden die Ausübung der Stabilisierungsoptionen im Hinblick auf bestimmte Erwägungen des öffentlichen Interesses als notwendig erachten. Die Stabilisierungsoptionen könnten vor der Insolvenz ausgeübt werden, und die Zahlungen an Wertpapierinhaber könnten sich verzögern oder niedriger sein als erwartet.

Beispielsweise könnte die Ausübung der Stabilisierungsoptionen (unter anderem) die Änderung oder Nichtanwendung der Bedingungen der CGMFL-Garantieurkunden ohne Zustimmung der Wertpapierinhaber bedeuten. Dies könnte ihre Rechte, den Preis oder Wert ihrer Anlage und die Fähigkeit der CGMFL-Garantiegeberin, ihren Verpflichtungen nachzukommen, beeinträchtigen.

Würde die CGMFL-Garantiegeberin ferner einer teilweisen Übertragung ihres Geschäfts auf einen anderen Rechtsträger unterfallen, würde die Qualität der Vermögenswerte und die Höhe der Verbindlichkeiten, die nicht übertragen werden (was gegebenenfalls die CGMFL-Garantieurkunden einschließt), die Bonität der CGMFL-Garantiegeberin beeinträchtigen. Folglich könnte die CGMFL-Garantiegeberin ggf. nicht in der Lage sein, ihren Verpflichtungen in Bezug auf die CGMFL-Garantieurkunden nachzukommen und/oder Gegenstand einer Insolvenzverwaltung werden.

Unter bestimmten Umständen haben Wertpapierinhaber einen Anspruch auf Ausgleich nach Maßgabe des *Banking Act*, wobei sie ggf. nicht unverzüglich Ausgleich erhalten oder dieser ggf. nicht den tatsächlich entstandenen Verlusten entspricht.

Maßnahmen, die im Rahmen der BRRD in Bezug auf die CGMFL ergriffen werden, könnten den Wert und die Rendite der seitens der CGMFL ausgegebenen Wertpapiere wesentlich beeinträchtigen

Die Richtlinie 2014/59/EU des Europäischen Parlaments und des Rates vom 15. Mai 2014 zur Festlegung eines Rahmens für die Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen in ihrer jeweils geltenden Fassung (die "**BRRD**") wurde durch das Luxemburger Gesetz vom 18. Dezember 2015 über die Maßnahmen zur Abwicklung, Sanierung und Liquidation von Kreditinstituten und bestimmten Wertpapierunternehmen und über Einlagensicherungs- und Anlegernetzschädigungssysteme in seiner jeweils geltenden Fassung (das "**BRR-Gesetz 2015**") umgesetzt. Gemäß dem BRR-Gesetz 2015 ist die zuständige Behörde die *Commission de surveillance*

du secteur financier (die "CSSF") und die Abwicklungsbehörde ist die CSSF, die als Abwicklungsrat (*Conseil de résolution*) (der "Abwicklungsrat") fungiert.

Das BRR-Gesetz 2015 umfasst vier Abwicklungsinstrumentarien und -Befugnisse, die eingesetzt werden können, wenn der Abwicklungsrat der Ansicht ist, dass (a) ein Institut ausfällt oder wahrscheinlich ausfällt, (b) nach vernünftigem Ermessen keine Aussicht besteht, dass der Ausfall dieses Instituts innerhalb eines angemessenen Zeitrahmens durch alternative Maßnahmen der Privatwirtschaft abgewendet werden kann, und (c) eine Abwicklungsmaßnahme im öffentlichen Interesse steht.

Das BRR-Gesetz 2015 sieht die Befugnis vor, eine Aussetzung der Aktivitäten anzuordnen, so auch eine teilweise oder vollständige Aussetzung der Erfüllung von Vereinbarungen, die von einem in Luxemburg gegründeten, in den Anwendungsbereich fallenden Unternehmen (wie der CGMFL) eingegangen wurden. Gemäß dem BRR-Gesetz 2015 erhält der Abwicklungsrat zudem die Befugnis, eine Reihe von anderen Abwicklungsmaßnahmen zu ergreifen, u. a. (i) einen Zwangsverkauf des Geschäfts eines in Luxemburg gegründeten, in den Anwendungsbereich fallenden Unternehmens insgesamt oder teilweise, (ii) die Gründung eines insgesamt oder teilweise unter die öffentliche Kontrolle fallenden Unternehmens (ein **Brückeninstitut**), das gegebenenfalls die Fähigkeit eines in Luxemburg gegründeten, in den Anwendungsbereich fallenden Unternehmens, seinen Rückzahlungspflichten nachzukommen, einschränkt, oder (iii) die Zwangsübertragung aller oder eines Teils der Vermögenswerte, Rechte oder Verpflichtungen eines in Luxemburg gegründeten, in den Anwendungsbereich fallenden Unternehmens und (iv) die Anwendung des allgemeinen Bail-in-Instruments, um bestimmte Ansprüche unbesicherter Gläubiger - auch auf null - abzuschreiben und bestimmte unbesicherte Forderungen in Eigenkapital oder andere Eigentumstitel umzuwandeln, wobei dieses Eigenkapital oder diese anderen Titel ebenfalls Gegenstand einer Einziehung, Übertragung oder Verwässerung in der Zukunft sein können.

Unterliegen von der CGMFL ausgegebene Wertpapiere einem Bail-in-Instrument, könnten die Inhaber der Wertpapiere ihre Anlage vollständig oder teilweise verlieren. Auch Bedingungen der Verpflichtungen im Rahmen der Wertpapiere können vom Abwicklungsrat verändert werden (z. B. Aussetzung der Zahlungen). Änderungen des BRRD der jüngeren Zeit und die sonstige diesbezügliche EU-Gesetzgebung sehen ferner ein neues Moratorium-Instrument im Vorfeld einer Auflösung und neue Befugnisse zur Aussetzung der Erfüllung von Vereinbarungen (auch von Zahlungen) durch das betreffende Institut (wie der CGMFL) vor.

Die Ausübung der vorstehenden Befugnisse könnte die Rechte der Inhaber der von der CGMFL begebenen Wertpapiere, den Preis oder Wert ihrer Anlage in diesen Wertpapieren und/oder die Fähigkeit der CGMFL, ihre Verpflichtungen aus diesen Wertpapieren zu erfüllen, wesentlich beeinträchtigen. Unter bestimmten Umständen haben Wertpapierinhaber einen Anspruch auf Ausgleich nach Maßgabe des BRR-Gesetzes 2015, wobei sie ggf. nicht unverzüglich Ausgleich erhalten oder dieser ggf. nicht den tatsächlich entstandenen Verlusten entspricht.

Anti-Steuervermeidungsrichtlinien

Die Richtlinie (EU) 2016/1164, die sogenannte Anti-Steuervermeidungsrichtlinie ("**ATAD**") wurde am 12. Juli 2016 erlassen, um gemeinsame Maßnahmen zur Bekämpfung von Steuervermeidungspraktiken in den nationalen Rechtsrahmen der EU-Mitgliedstaaten umzusetzen. Die ATAD legt Folgendes fest: (i) Vorschriften für beherrschte ausländische Unternehmen, (ii) Vorschriften für das Vorgehen gegen hybride Gestaltungen im EU-Kontext, (iii) Vorschriften zu allgemeinen Zinsschranken, (iv) eine allgemeine Vorschrift zur Verhinderung von Missbrauch und (v) Vorschriften zur Wegzugsbesteuerung. Nach Erlass der ATAD haben sich die EU-Mitgliedstaaten entschlossen, in Bezug auf das Vorgehen gegen hybride Gestaltungen mit Drittländern noch einen Schritt weiter zu gehen und haben am 29. Mai 2017 die

Richtlinie (EU) 2017/952 ("**ATAD 2**") erlassen, die die ATAD-Bestimmungen in Bezug auf das Vorgehen gegen hybride Gestaltungen ändern. Die ATAD musste von den EU-Mitgliedstaaten zum 1. Januar 2019 und die ATAD 2 zum 1. Januar 2020 umgesetzt sein. Luxemburg erließ (i) das Gesetz vom 21. Dezember 2018 zur Umsetzung der ATAD mit Wirkung zum 1. Januar 2019 und (ii) das Gesetz vom 20. Dezember 2019 zur Umsetzung der ATAD 2 mit Wirkung zum 1. Januar 2020 (mit Ausnahme der Vorschriften zu umgekehrt hybriden Gestaltungen, die zum 1. Januar 2022 in Kraft treten). Diese Vorschriften könnten die steuerliche Bemessungsgrundlage der von der maßgeblichen Emittentin ausgegebenen Wertpapiere erhöhen und/oder die zur Ausschüttung an Wertpapierinhaber verfügbaren Beträge verringern.

Die Militäraktion Russlands in der Ukraine und die damit verbundenen Sanktionen, Exportkontrollen und ähnliche Maßnahmen oder Gesetze könnten die Geschäftsaktivitäten und Kunden des Konzerns beeinträchtigen

Nach der Militäraktion Russlands in der Ukraine haben die USA finanzielle und wirtschaftliche Sanktionen und Exportkontrollen gegen bestimmte russische Organisationen und/oder Einzelpersonen verhängt und werden dies wahrscheinlich auch in Zukunft tun; ähnliche Maßnahmen wurden von der Europäischen Union, dem Vereinigten Königreich und anderen Ländern durchgeführt und/oder geplant. Die Fähigkeit des Konzerns, mit bestimmten privaten und institutionellen Unternehmen in Russland und der Ukraine zusammenzuarbeiten oder Geschäfte, die bestimmte russischen oder ukrainische Unternehmen und Kunden involvieren, durchzuführen, hängt zum Teil davon ab, ob ein solches Engagement durch aktuelle oder zu erwartende Sanktionen und Gesetze der USA, der Europäischen Union, des Vereinigten Königreichs oder anderer Länder eingeschränkt ist oder angesichts dieser Entwicklungen anderweitig eingestellt wird. Sanktionen und Exportkontrollen sowie etwaige Maßnahmen Russlands könnten sich nachteilig auf die Geschäftstätigkeit der Gruppe und ihre Kunden in und aus Russland und der Ukraine auswirken. Jegliche negativen Auswirkungen der Handlungen Russlands in der Ukraine und damit verbundener Sanktionen, Exportkontrollen und ähnlicher Handlungen oder Gesetze auf den Konzern, einschließlich der maßgeblichen Emittentin, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin, könnten die Fähigkeit der maßgeblichen Emittentin, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin, ihre Verpflichtungen aus den Wertpapieren zu erfüllen, beeinträchtigen und folglich könnten der Wert und die Rendite der Wertpapiere ebenfalls nachteilig beeinflusst werden.

Risiken in Bezug auf Wertpapiere allgemein

Eine Anlage in Wertpapiere ist mit Risiken verbunden (wie in den nachstehenden Absätzen näher beschrieben) und sollte erst nach Evaluierung der Richtung, des zeitlichen Ablaufs und des Umfangs potenzieller künftiger Änderungen des Marktes (z. B. beim Wert der Wertpapierindizes, Inflationsindizes, Rohstoffe, Aktien, Depositary Receipts, börsennotierten Fonds, Investmentfonds, Währungen, Dividendenfuturekontrakte, Zinssätze oder anderer Instrumente, die den/die Basiswert(e) beinhalten oder sich darauf beziehen) sowie der Bedingungen der Wertpapiere erfolgen. Mehrere Risikofaktoren können sich gleichzeitig auf die Wertpapiere auswirken, so dass die Wirkung eines bestimmten Risikofaktors nicht vorhergesagt werden kann. Daneben können mehrere Risikofaktoren eine kombinierte Wirkung haben, die nicht vorhergesagt werden kann.

Möglicher vollständiger oder teilweiser Verlust der Anlage

Anleger sollten darauf vorbereitet sein, einen vollständigen oder teilweisen Verlust des Kaufpreises ihrer Wertpapiere in Kauf zu nehmen.

Ausgenommen Wertpapiere mit einem planmäßigen Mindestrückzahlungswert können erworbene Wertpapiere bei Rückzahlung wertlos sein. Ferner werden Wertpapiere nur dann zu einem zumindest dem Ausgabepreis entsprechenden Betrag zurückgezahlt, wenn die anwendbaren Endgültigen Bedingungen vorsehen, dass der Rückzahlungsbetrag bei Fälligkeit mindestens diesem Betrag entspricht. Sehen die Wertpapiere vor, dass der Rückzahlungsbetrag unter dem Ausgabepreis liegen kann, kann die Rückzahlung der Wertpapiere zu einem unter diesem liegenden Preis erfolgen. Werden die Wertpapiere zu einem Betrag unter dem Ausgabepreis zurückgezahlt oder werden die Wertpapiere nach Maßgabe ihrer Bedingungen gekündigt oder vorzeitig zurückgezahlt, liegt der Betrag, den ein Wertpapierinhaber erhält, ggf. unter dem Betrag seiner ursprünglichen Anlage.

Des Weiteren können die Wertpapiere am Sekundärmarkt gehandelt oder vorzeitig zurückgezahlt werden, und sollte dies der Fall sein, liegt der Preis, zu dem ein Wertpapier gegebenenfalls verkauft oder vorzeitig zurückgezahlt wird, unter Umständen unter dem Nennbetrag dieses Wertpapiers und/oder dem Betrag der ursprünglichen Anlage eines Anlegers in den Wertpapieren.

Bei einem auf einen oder mehrere Basiswerte bezogenen Wertpapier muss der Käufer eines Wertpapiers, um das investierte Kapital und eine Rendite aus seiner Anlage zu erhalten, im Allgemeinen die Richtung, den Zeitrahmen und den Umfang einer erwarteten Änderung des Werts des betreffenden Basiswerts bzw. der betreffenden Basiswerte richtig einschätzen. Bei Annahme ansonsten gleichbleibender Faktoren gilt, dass je weiter ein Wertpapier "*aus dem Geld*" (*out of the money*) und je kürzer die Restlaufzeit ist, desto höher ist das Risiko, dass Käufer dieser Wertpapiere ihre Anlage teilweise oder vollständig verlieren. Die einzige Möglichkeit, wie ein Wertpapierinhaber vor dem Fälligkeitstag eine Wertschöpfung aus dem Wertpapier realisieren kann, ist ein Verkauf dieses Wertpapiers zu dem zum entsprechenden Zeitpunkt vorliegenden Marktpreis an einem verfügbaren Sekundärmarkt (sofern vorhanden). Schwankungen des Werts, der Rendite (falls zutreffend) oder der maßgeblichen Devisenkurse (falls zutreffend) des maßgeblichen Basiswerts bzw. der maßgeblichen Basiswerte wirken sich auf den Wert der maßgeblichen Wertpapiere aus. Käufer der Wertpapiere sind dem Risiko des Verlusts ihrer gesamten Anlage ausgesetzt, wenn der Wert der maßgeblichen Basiswerte sich nicht in die erwartete Richtung bewegt.

Auch kann es sein, dass Wertpapierinhaber während der Laufzeit der Wertpapiere keine Zinsen erhalten.

Wertpapiere sind unbesicherte Verpflichtungen und unterliegen dem Kreditrisiko der maßgeblichen Emittentin, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin

Alle Wertpapiere begründen unbesicherte und vorrangige Verbindlichkeiten der maßgeblichen Emittentin und alle von ihr ausgegebenen Wertpapiere sind untereinander und mit sämtlichen anderen unbesicherten und vorrangigen Verbindlichkeiten der maßgeblichen Emittentin gleichrangig. Die Verbindlichkeiten der CGMHI-Garantiegeberin im Rahmen der CGMHI-Garantiekunde sind unbesichert und vorrangig sowie gleichrangig mit sämtlichen sonstigen ausstehenden unbesicherten und vorrangigen Verbindlichkeiten der CGMHI-Garantiegeberin. Die Verbindlichkeiten der CGMFL-Garantiegeberin im Rahmen der CGMFL-Garantiekunden sind unbesichert und vorrangig sowie gleichrangig mit sämtlichen sonstigen ausstehenden unbesicherten und vorrangigen Verbindlichkeiten der CGMFL-Garantiegeberin. Siehe Allgemeine Bedingung 2 (*Status*). Die Verbindlichkeiten der maßgeblichen Emittentin im Rahmen der von ihr ausgegebenen Wertpapiere, die Verbindlichkeiten der CGMHI-Garantiegeberin im Rahmen der CGMHI-Garantiekunde und die Verbindlichkeiten der CGMFL-Garantiegeberin im Rahmen der CGMFL-Garantiekunden stellen allgemeine vertragliche Pflichten des jeweiligen Rechtsträgers und keiner anderen Person dar. Die CGMHI-Garantiegeberin gibt ausschließlich eine Garantie zugunsten der von der CGMHI ausgegebenen Wertpapiere. Die CGMFL-Garantiegeberin gibt ausschließlich eine Garantie zugunsten der von der CGMFL ausgegebenen Wertpapiere.

Somit unterliegen sämtliche Zahlungen im Rahmen der Wertpapiere dem Kreditrisiko der maßgeblichen Emittentin und, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Garantiegeberin ist, der CGMFL-Garantiegeberin. Wertpapierinhaber haben keinen Rückgriff auf besichertes Vermögen der maßgeblichen Emittentin und, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Garantiegeberin ist, der CGMFL-Garantiegeberin im Falle, dass die maßgebliche Emittentin oder die maßgebliche Garantiegeberin nicht in der Lage ist, ihren Verpflichtungen aus den Wertpapieren nachzukommen, so beispielsweise auch nicht im Insolvenzfall, und riskieren damit den gesamten oder teilweisen Verlust ihrer Anlage.

Ein Verkauf von Wertpapieren vor ihrer planmäßigen Rückzahlung kann für den Anleger zu einem Verlust führen

Der Wert von Wertpapieren variiert vor ihrer planmäßigen Rückzahlung, da der Preis oder Stand des Basiswerts bzw. der Basiswerte sich ändert, und auch aufgrund einer Reihe anderer zusammenhängender Faktoren, darunter auch die folgenden: (i) der Handelspreis der maßgeblichen Wertpapiere, (ii) der Wert und die Volatilität eines oder mehrerer Basiswerte, (iii) die Restlaufzeit, (iv) im Falle von Wertpapieren mit Barausgleich, die voraussichtliche Spanne der Rückzahlungsbeträge, (v) (jede) Änderung(en) der Zwischenzinssätze und Dividendenrenditen, falls zutreffend, (vi) (jede) Änderung(en) der Devisenkurse, (vii) die Tiefe des Marktes oder die Liquidität eines oder mehrerer Basiswerte und (viii) dazugehörige Transaktionskosten. In Abhängigkeit von den vorstehenden Faktoren (z. B., sofern Bewegungen beim Preis oder Stand des Basiswerts bzw. der Basiswerte die wahrscheinliche Bandbreite der Rückzahlungsbeträge schmälert) kann ein Verkauf von Wertpapieren vor ihrer planmäßigen Rückzahlung zu einem wesentlichen Abschlag von ihrem ursprünglichen Kaufpreis erfolgen, wodurch der Anleger seine Anlage vollständig oder teilweise verlieren kann.

Wertpapiere, die mit erheblichem Abschlag oder Aufschlag begeben werden

Der Marktwert von Wertpapieren, die mit einem erheblichen Abschlag oder Aufschlag auf ihren Nennbetrag begeben werden, unterliegt bei allgemeinen Zinsänderungen in der Regel stärkeren Schwankungen als Kurse von herkömmlicheren verzinslichen Wertpapieren. Im Allgemeinen gilt: Je länger die Restlaufzeit dieser Wertpapiere, desto höher ist die Volatilität des Preises im Vergleich zu herkömmlicheren verzinslichen Wertpapieren mit ähnlichen Restlaufzeiten. Diese Preisvolatilität könnte zu höheren Verlusten als ansonsten bei Verkauf des Wertpapiers vor seiner planmäßigen Rückzahlung oder zur Unmöglichkeit des Verkaufs des Wertpapiers am Sekundärmarkt führen.

Auswirkungen von Gebühren, Provisionen und/oder Zuwendungen auf den Ausgabepreis und/oder Angebotspreis

Der Ausgabepreis und/oder Angebotspreis von Wertpapieren kann Gebühren und/oder andere Provisionen und Zuwendungen beinhalten (z. B. Platzierungs-, Vertriebs- und Strukturierungsgebühren). Gebühren und/oder sonstige Provisionen und Zuwendungen werden bei der Bestimmung des Preises dieser Wertpapiere am Sekundärmarkt nicht berücksichtigt, was zu einer Differenz zwischen dem Ausgabepreis und/oder dem Angebotspreis der Wertpapiere und dem von einem Intermediär am Sekundärmarkt gestellten Geld-/Briefkurs führt. Eine solche Differenz hat einen Rückgang des Werts einer Emission von Wertpapieren und daher einen Verlust für den Anleger zur Folge, insbesondere im Zusammenhang mit Wertpapieren, die unmittelbar nach dem Ausgabetag oder dem Angebotszeitraum dieser Wertpapiere verkauft werden.

Der Sekundärmarkt

Non-binding German translation
Unverbindliche deutsche Übersetzung

Möglicherweise existiert bei Ausgabe der Wertpapiere kein etablierter Markt, auf dem sie gehandelt werden, und unter Umständen wird sich ein solcher nie entwickeln; Anleger sollten daher darauf vorbereitet sein, ihre Wertpapiere bis zur Fälligkeit zu halten. Falls sich ein Markt entwickelt, ist er unter Umständen nicht sehr liquide, reagiert möglicherweise sensibel auf Änderungen an den Finanzmärkten und Anleger sind gegebenenfalls nicht in der Lage, rechtzeitig einen Käufer zu finden bzw. einen geeigneten Käufer zu finden. Sollte es möglich sein, Wertpapiere zu verkaufen, würde dies zu dem am Markt geltenden Geldkurs erfolgen und es fällt unter Umständen eine Transaktionsgebühr an. Der geltende Geldkurs kann durch verschiedene Faktoren beeinflusst werden, wie u. a. durch die Wertentwicklung eines jeweiligen Basiswerts, zum Zeitpunkt des Verkaufs geltende Zinsen, die Restlaufzeit, die Bonität der maßgeblichen Emittentin und/oder, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin sowie durch Faktoren, die im Allgemeinen die Kapitalmärkte beeinflussen. Die Einführung zusätzlicher oder konkurrierender Produkte am Markt kann sich ebenfalls nachteilig auf den Preis der Wertpapiere auswirken. Folglich kann es sein, dass es Anlegern nicht möglich ist, ihre Wertpapiere auf einfachem Wege oder zu Preisen, mit denen eine ähnliche Rendite erzielt wird wie bei vergleichbaren Anlagen, für die ein entwickelter Sekundärmarkt besteht, oder zu Preisen, die über dem Betrag der ursprünglichen Anlage des Anlegers liegen, zu veräußern, und tatsächlich kann der Preis wesentlich niedriger als ihr ursprünglicher Kaufpreis sein. Anleger sollten daher bei der Ausarbeitung ihrer Anlagestrategie sicherstellen, dass die Laufzeit der Wertpapiere im Einklang mit ihrem zukünftigen Liquiditätsbedarf steht. Dies gilt insbesondere, wenn die maßgebliche Emittentin in eine finanzielle Schieflage geraten sein sollte, die einen Verkauf der Wertpapiere mit einem wesentlichen Abschlag auf den Nennbetrag oder Ausgabepreis oder Angebotspreis zur Folge hat, bzw. für Wertpapiere, die besonders sensibel auf Zinsänderungs-, Währungs- oder Marktrisiken reagieren, die für bestimmte Anlageziele oder -strategien entwickelt wurden oder die so strukturiert sind, dass sie die Anlagebedürfnisse eines begrenzten Kreises von Anlegern erfüllen. Für diese Arten von Wertpapieren bestünde in der Regel ein in höherem Maße eingeschränkter Sekundärmarkt und eine höhere Preisvolatilität als für herkömmliche Schuldtitel. Aufgrund von Illiquidität kann es zu erheblichen nachteiligen Auswirkungen auf den Marktwert der Wertpapiere kommen. Die Liquidität der Wertpapiere wird darüber hinaus von der Art der Anleger beeinflusst, an die diese Wertpapiere verkauft werden. Soweit eine Emission von Wertpapieren illiquide ist oder wird, müssen Anleger unter Umständen die betreffenden Wertpapiere bis zur Fälligkeit halten, bevor eine Realisierung des Werts möglich ist.

Die maßgebliche Emittentin kann eine Emission von Wertpapieren an einer Börse oder einem regulierten Markt notieren lassen, ist dazu aber nicht verpflichtet. Werden die Wertpapiere nicht an einer Börse oder einem regulierten Markt notiert oder gehandelt, kann es unter Umständen schwieriger sein, Preisinformationen für die betreffenden Wertpapiere zu erhalten, und die Liquidität dieser Wertpapiere kann beeinträchtigt werden.

Werden Wertpapiere nicht an einer Börse oder einem regulierten Markt notiert oder gehandelt, können sie über Handelssysteme, die den jeweils geltenden Gesetzen und Vorschriften unterliegen (wie beispielsweise multilaterale Handelssysteme oder "MTF"), oder über andere Handelssysteme (wie beispielsweise bilaterale Systeme oder gleichwertige Handelssysteme) gehandelt werden. Findet der Handel mit diesen Wertpapieren außerhalb solcher Börsen, regulierten Märkte oder Handelssysteme statt, ist die Art und Weise der Bestimmung des Preises dieser Wertpapiere unter Umständen weniger transparent und die Liquidität dieser Wertpapiere kann beeinträchtigt sein. Anleger sollten beachten, dass weder die maßgebliche Emittentin noch die Garantiegeberin oder ein Vertriebspartner eine Gewährleistung gegenüber den Wertpapierinhabern bezüglich der Methodik abgibt, die zur Feststellung des Preises von Wertpapieren verwendet wird, welche außerhalb eines Handelssystems gehandelt

werden. Bestimmt jedoch die maßgebliche Emittentin oder eines ihrer verbundenen Unternehmen den Preis dieser Wertpapiere, wird diese bzw. dieses die jeweils vorherrschenden Marktparameter gemäß den geltenden gesetzlichen Bestimmungen berücksichtigen. Selbst wenn Wertpapiere zum Handel notiert und/oder zugelassen sind, geht dies nicht zwingend mit einer höheren Liquidität einher.

Die maßgebliche Emittentin, (falls zutreffend) die Garantiegeberin und ein Vertriebspartner sind jeweils berechtigt, jedoch nicht verpflichtet, jederzeit Wertpapiere zu einem beliebigen Preis am freien Markt, im Tendersverfahren oder im Rahmen eines Privatvertrags zu erwerben. Alle auf diese Weise erworbenen Wertpapiere können gehalten, weiterverkauft oder zur Einziehung übergeben werden. Werden diese Wertpapiere zur Einziehung übergeben, so sinkt die Anzahl der ausstehenden Wertpapiere, was die Liquidität der ausstehenden Wertpapiere mindert. Entsprechende Aktivitäten können sich nachteilig auf den Preis der maßgeblichen Wertpapiere am Sekundärmarkt und/oder das Bestehen eines Sekundärmarktes auswirken.

Die maßgebliche Emittentin, (falls zutreffend) die Garantiegeberin, ein Vertriebspartner oder verbundenes Unternehmen eines entsprechenden Unternehmens kann jeweils gegebenenfalls im Rahmen ihrer bzw. seiner Aktivitäten als Broker und Vertriebspartner von Renten- und Dividendenpapieren und dazugehörigen Produkten oder anderweitig einen Sekundärmarkt für beliebige Wertpapiere aufbauen und täglich indikative Geldkurse stellen. Auf diese Weise zur Verfügung gestellte indikative Preise werden von der betreffenden Partei nach alleinigem Ermessen unter Berücksichtigung der vorherrschenden Marktbedingungen bestimmt und stellen keine Zusicherung dieser Partei dar, dass Wertpapiere zu den entsprechenden Preisen (bzw. überhaupt) gekauft oder verkauft werden können, und jede der vorstehend aufgeführten Parteien kann das Market Making oder die Bereitstellung indikativer Preise ohne Ankündigung jederzeit und aus einem beliebigen Grund aussetzen oder einstellen. Unter diesen Umständen existiert unter Umständen kein Markt für die maßgeblichen Wertpapiere und Anleger sollten nicht davon ausgehen, dass ein entsprechender Markt existiert. Dementsprechend muss ein Anleger bereit sein, die Wertpapiere bis zum Fälligkeitstag zu halten, und ist ggf. nicht in der Lage, sie vor dem Fälligkeitstag zu verkaufen oder, falls er sie verkaufen kann, so nur mit Verlust.

Risiken im Zusammenhang mit der Umsetzung aufsichtsrechtlicher Reformen

Die Umsetzung der Gesetzgebung zur US-Finanzreform kann den Wert eines oder mehrerer Basiswerte sowie die Fähigkeit zum Hedging der Verpflichtungen der maßgeblichen Emittentin im Rahmen der Wertpapiere beeinträchtigen. Dies kann wiederum den Marktwert, den Handelspreis und die Funktionsfähigkeit der Wertpapiere sowie ihre Rendite beeinträchtigen. Der Grund dafür ist, dass die im Rahmen der Wertpapiere erhaltenen Beträge und/oder der Wert der in ihrem Rahmen zu liefernden Vermögenswerte (unter anderem) von der Wertentwicklung des Basiswerts bzw. der Basiswerte abhängen, und die Wertpapiere können infolge von Ereignissen im Zusammenhang mit Hedginggeschäften der vorzeitigen Rückzahlung unterliegen. Zusätzlich können im Rahmen der Wertpapiere fällige Beträge und/oder zu liefernde Vermögenswerte reduziert werden, um die mit den Hedginggeschäften verbundenen Kosten abzubilden.

So würde beispielsweise der *Dodd-Frank Act* bei vollständiger Umsetzung die Positionen, die ein einzelner Händler in einem bestimmten Basiswert oder bestimmten Basiswerten maximal halten darf, begrenzen und bestimmte Transaktionen neuen aufsichtsrechtlichen Maßnahmen unterwerfen, die ein Hindernis für bestimmte Arten von Hedgingtransaktionen der maßgeblichen Emittentin und/oder der Hedgingparteien oder ihrer jeweiligen verbundenen Unternehmen darstellen und die damit verbundenen Kosten erhöhen könnten. Andere Vorschriften des *Dodd-Frank Act* könnten erfordern, dass ein bestimmter Basiswert oder bestimmte Basiswerte oder Hedgingtransaktionen gecleart, an einer regulierten Börse gehandelt und Aufsichtsbehörden, zentralen Datenarchiven und – in bestimmten Fällen

– der Öffentlichkeit gemeldet werden, was ebenfalls ihren Wert, ihre Funktionsfähigkeit und ihre Kosten beeinträchtigen könnte. Der *Dodd-Frank Act* erweitert auch die Registrierungspflichten für Unternehmen und legt Anforderungen an das Geschäftsgebaren von auf dem Swap-Markt aktiven Personen fest (dies kann neue Kapitalanforderungen und Margin-Verpflichtungen umfassen), was den Wert eines oder mehrerer relevanter Basiswerte oder den Wert und/oder die Kosten von Hedgingtransaktionen beeinflussen kann. Solche aufsichtsrechtlichen Maßnahmen können folglich den Marktwert, den Handelspreis und die Funktionsfähigkeit der Wertpapiere sowie ihre Rendite beeinträchtigen.

Änderungen von Wechselkursen und Devisenkontrollen könnten zu einer Minderung des Werts der und der Zahlungen in Bezug auf die Wertpapiere in der Währung der Rechtsordnung eines Anlegers führen

Eine Anlage in Wertpapiere, die auf eine festgelegte Währung lauten und/oder in einer Währung zahlbar sind, bei der es sich nicht um die Währung der Rechtsordnung eines bestimmten Anlegers (die "**Anlegerwährung**") handelt, ist mit hohen Risiken verbunden, die nicht mit einer ähnlichen Anlage in ein auf die Anlegerwährung lautendes Wertpapier einhergehen. Diese Risiken umfassen unter anderem:

- die Möglichkeit wesentlicher Marktveränderungen der Wechselkurse zwischen der Anlegerwährung und der festgelegten Währung und/oder Zahlungswährung;
- die Möglichkeit wesentlicher Veränderungen der Wechselkurse zwischen der Anlegerwährung und der festgelegten Währung und/oder Zahlungswährung aufgrund einer offiziellen Währungsumstellung oder Neubewertung der festgelegten Währung und/oder Zahlungswährung; und
- die Möglichkeit der Einführung oder Änderung von Devisenkontrollen durch die Rechtsordnung des Anlegers oder durch ausländische Regierungen.

Diese Risiken hängen in der Regel von Faktoren ab, die außerhalb der Kontrolle der maßgeblichen Emittentin und (falls zutreffend) der Garantiegeberin liegen und die nicht ohne Weiteres vorhersehbar sind, wie zum Beispiel wirtschaftliche und politische Ereignisse sowie das Angebot an und die Nachfrage nach maßgeblichen Währungen.

In den vergangenen Jahren unterlagen die Wechselkurse zwischen einigen Fremdwährungen, auf die die Wertpapiere lauten und/oder in der die Wertpapiere zahlbar sein können, Schwankungen. Mit solchen Schwankungen ist auch künftig zu rechnen. Die in der Vergangenheit eingetretenen Schwankungen eines bestimmten Wechselkurses sind jedoch nicht zwingend ein Indikator für die Schwankungen dieses Wechselkurses, die während der Laufzeit eines Wertpapiers auftreten können. Die Abwertung der festgelegten Währung und/oder Zahlungswährung eines Wertpapiers gegenüber der Anlegerwährung würde dazu führen, dass die effektive Rendite dieses Wertpapiers unter den Kuponzinssatz des Wertpapiers (falls vorhanden) fällt und könnte zu einem wesentlichen Verlust des Anlegers in der Anlegerwährung führen.

Regierungen und Währungsbehörden haben von Zeit zu Zeit Devisenkontrollen eingeführt und können in der Zukunft Devisenkontrollen einführen, die die anwendbaren Wechselkurse sowie die Verfügbarkeit einer festgelegten Währung und/oder Zahlungswährung zum Zeitpunkt der Zahlung von Beträgen in Bezug auf ein Wertpapier beeinflussen können. Es kann keine Zusicherung gegeben werden, dass Zahlungen im Rahmen der Wertpapiere, die auf eine solche festgelegte Währung und/oder Zahlungswährung lauten, nicht durch Devisenkontrollen beschränkt oder untersagt werden.

Selbst wenn es keine tatsächlichen Devisenkontrollen gibt, ist es möglich, dass eine festgelegte Währung und/oder Zahlungswährung aufgrund von Umständen, die außerhalb der Kontrolle der maßgeblichen

Emittentin und/oder der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin liegen, nicht für die maßgebliche Emittentin und/oder, soweit die CGMHI die Emittentin ist, für die CGMHI-Garantiegeberin und/oder, soweit die CGMFL die Emittentin ist, für die CGMFL-Garantiegeberin verfügbar ist, wenn Zahlungen in Bezug auf ein Wertpapier fällig sind. Jegliche Beschränkung, Untersagung oder Nichtverfügbarkeit der relevanten Währung kann den Wert und die Rendite der Wertpapiere beeinträchtigen und könnte für den Anleger zu einem beträchtlichen Verlust führen.

Die vorstehenden Risiken können sich erhöhen, wenn es sich bei einer Festgelegten Währung und/oder der Zahlungswährung und/oder der Anlegerwährung um die Währung eines Schwellenlandes handelt.

Die Nichtverfügbarkeit von Währungen könnte zu einer Minderung des Werts der Wertpapiere und der Zahlungen in Bezug auf die Wertpapiere führen

Die Währung, in der Zahlungen in Bezug auf ein Wertpapier zu leisten sind, kann beispielsweise umgestellt werden, weil diese Währung:

- aufgrund der Einführung von Devisenkontrollen oder aufgrund anderer Umstände, die außerhalb der Kontrolle der maßgeblichen Emittentin und/oder, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin und/oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin liegen, nicht verfügbar ist;
- von der Regierung des Landes, das die Währung ausgibt, nicht mehr verwendet wird; oder
- von öffentlichen Einrichtungen des internationalen Bankensektors nicht mehr für die Abwicklung von Transaktionen verwendet wird.

Wenn die Währung, in der Zahlungen in Bezug auf ein Wertpapier zu leisten sind, aus anderen Gründen als aufgrund einer Wirtschafts- und Währungsunion offiziell umgestellt wird – beispielsweise durch eine offizielle Umstellung einer Währung, bei der es sich um eine Korbwährung handelt –, so belaufen sich die unmittelbar nach der Währungsumstellung bestehenden Zahlungsverpflichtungen der maßgeblichen Emittentin und/oder, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin und/oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin im Zusammenhang mit diesem Wertpapier auf den Betrag in der umgestellten Währung, der dem Betrag der unmittelbar vor der Währungsumstellung bestehenden Zahlungsverpflichtungen der maßgeblichen Emittentin und/oder, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin und/oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin entspricht.

In Bezug auf die Wertpapiere ist keine Anpassung eines zu zahlenden Betrags aufgrund der folgenden Ereignisse vorgesehen:

- einer Änderung des Werts der Festgelegten Währung und/oder der Zahlungswährung dieser Wertpapiere im Verhältnis zu einer anderen Währung ausschließlich aufgrund von Wechselkursschwankungen; oder
- der Umstellung einer Währungskomponente einer Korbwährung, es sei denn, die Korbwährung selbst wird offiziell umgestellt.

Entsprechend kann eine Währungsumstellung zu einem wesentlichen Verlust an Wert und Rendite der Wertpapiere führen.

Bestimmte Überlegungen im Zusammenhang mit öffentlichen Angeboten von Wertpapieren im EWR und im VK

Wie in den geltenden Endgültigen Bedingungen aufgeführt, können Wertpapiere im Rahmen eines öffentlichen Angebots in dem/den spezifischen Mitgliedstaat(en) des EWR oder im VK während einem in den geltenden Endgültigen Bedingungen festgelegten Angebotszeitraum vertrieben werden. Während dieses Angebotszeitraums können sich die maßgebliche Emittentin und/oder eine sonstige in den geltenden Endgültigen Bedingungen angegebene Person das Recht vorbehalten, dieses Angebot zu widerrufen und/oder im Falle einer Überzeichnung oder in anderen in den geltenden Endgültigen Bedingungen aufgeführten Situationen im Hinblick auf die Zeichnungsanträge für dieses Angebot Beschränkungen vornehmen. Unter diesen Umständen werden einem antragstellenden Anleger möglicherweise gar keine oder weniger Wertpapiere als ursprünglich beantragt zugeteilt. Sämtliche Zahlungen, die ein antragstellender Anleger für Wertpapiere geleistet hat, die diesem aus einem beliebigen Grund nicht zugeteilt werden, werden erstattet. Eine solche Erstattung erfolgt jedoch mit einem zeitlichen Abstand, es werden keine Zins- oder Ausgleichszahlungen für diese Beträge geleistet, und der antragstellende Anleger ist gegebenenfalls einem Wiederanlagerisiko ausgesetzt.

Des Weiteren können die maßgebliche Emittentin und/oder andere in den geltenden Endgültigen Bedingungen angegebene Rechtsträger unter Umständen das Angebot durch eine unmittelbare Aussetzung der Annahme weiterer Zeichnungsanträge und öffentliche Mitteilung gemäß den geltenden Endgültigen Bedingungen vorzeitig beenden. Eine solche Beendigung kann auch erfolgen, wenn der Höchstbetrag der Zeichnung für dieses Angebot (wie in den geltenden Endgültigen Bedingungen festgelegt) noch nicht erreicht ist; unter diesen Umständen kann eine vorzeitige Beendigung des Angebots Auswirkungen auf die Gesamtzahl der ausgegebenen Wertpapiere haben. Dies kann wiederum die Liquidität der maßgeblichen Wertpapiere beeinträchtigen und im Ergebnis dazu führen, dass ein Anleger ggf. nicht in der Lage ist, sie vor dem Fälligkeitstag zu verkaufen oder, falls er sie verkaufen kann, so nur mit Verlust.

Anleger sollten des Weiteren beachten, dass die Wertpapiere unter bestimmten Umständen nicht an dem ursprünglich vorgesehenen Ausgabetag ausgegeben werden können, beispielsweise weil sich die Emittentin und/oder eine sonstige in den geltenden Endgültigen Bedingungen angegebene Person das Recht vorbehalten hat, diesen Ausgabetag auf einen späteren Termin zu verschieben, oder weil die Emittentin im Anschluss an die Veröffentlichung eines Nachtrags zu diesem Basisprospekt beschlossen hat, diesen Ausgabetag auf einen späteren Termin zu verschieben, um den Anlegern, die vor dem Tag der Veröffentlichung des betreffenden Nachtrags die Zeichnung von Wertpapieren beantragt hatten, Gelegenheit zu geben, ihr Recht auf Widerruf ihrer Anträge auszuüben. Wird der Ausgabetag entsprechend verschoben, so fallen (falls anwendbar) keine Zinsen bis zum Ausgabetag der Wertpapiere an und es werden keine Ausgleichszahlungen geleistet.

Feststellungen und mögliche Interessenkonflikte

Die Bedingungen der Wertpapiere übertragen der maßgeblichen Emittentin, der Berechnungsstelle und bestimmten anderen Personen einen gewissen Ermessensspielraum bei Beurteilungen, Feststellungen und Berechnungen im Zusammenhang mit den Wertpapieren, u. a. mit einem oder mehreren Basiswerten und dem Eintritt verschiedener Ereignisse. Die maßgebliche Emittentin, die Berechnungsstelle oder entsprechende andere Personen handeln in gutem Glauben und nach billigem Ermessen (§§ 315, 317 BGB), aber es kann keine Zusicherung gegeben werden, dass die Ausübung dieses Ermessensspielraums nicht den Wert der Wertpapiere beeinflusst oder zum Eintritt einer vorzeitigen Rückzahlung in einer Höhe führt, die unter dem ursprünglichen Anlagebetrag eines Anlegers liegt.

Ist die Berechnungsstelle ein verbundenes Unternehmen der maßgeblichen Emittentin, so kann dies zu potenziellen Interessenkonflikten zwischen der Berechnungsstelle und den Wertpapierinhabern führen, einschließlich im Zusammenhang mit von der Berechnungsstelle gemäß den Wertpapieren vorgenommenen Beurteilungen, Feststellungen und Bewertungen, die sich auf die in Bezug auf die Wertpapiere zu erhaltenden Beträge oder zu liefernden spezifischen Vermögenswerte auswirken können.

Die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin und/oder ihre verbundenen Unternehmen und/oder Dritte oder Unternehmen, die nicht der Aufsicht nach dem Recht der Vereinigten Staaten oder des EWR oder des Vereinigten Königreichs unterliegen, können jeweils als Sponsor eines Basiswerts fungieren und Werte oder Preise oder andere Bonitätsprognosen in Zusammenhang mit einem Basiswert veröffentlichen. Zudem können die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin und/oder ihre verbundenen Unternehmen vorbehaltlich der Anforderungen sämtlicher geltender Gesetze und Vorschriften jeweils im Rahmen ihres Eigenhandels oder für Rechnung anderer von ihnen verwalteter Konten Transaktionen eingehen, die einen oder mehrere Basiswerte betreffen. Die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin und/oder ihre verbundenen Unternehmen können zudem jeweils andere derivative Instrumente in Bezug auf einen oder mehrere Basiswerte emittieren. Die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin und/oder ihre verbundenen Unternehmen können des Weiteren jeweils im Rahmen von künftigen Emissionen von Anteilen oder anderen Wertpapieren, die mit einer Emission von Wertpapieren im Zusammenhang stehen, als Underwriter oder Gegenpartei agieren oder als Finanzberater für bestimmte Unternehmen oder Unternehmen, deren Wertpapiere einen oder mehrere Basiswerte im Rahmen einer oder mehrerer Emissionen von Wertpapieren darstellen, oder als Geschäftsbank dieser Unternehmen tätig sein. Diese Aktivitäten können positive oder negative Auswirkungen auf den Wert des jeweiligen Basiswerts bzw. der jeweiligen Basiswerte und somit auf den Wert der Wertpapiere haben.

Die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin, ein Vertriebspartner und/oder ihre verbundenen Unternehmen können jeweils zum Datum dieses Basisprospekts oder zu einem späteren Zeitpunkt über Informationen hinsichtlich eines Basiswerts verfügen, die wesentlich sind oder sein können und den Wertpapierinhabern frei zugänglich sein können, aber nicht sein müssen. Die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin, oder ein Vertriebspartner sind nicht zur Weitergabe solcher Informationen an potenzielle Anleger in die Wertpapiere oder an Wertpapierinhaber verpflichtet.

Die CGMHI, die CGMHI-Garantiegeberin, die CGMFL, die CGMFL-Garantiegeberin, ein Vertriebspartner und/oder ihre verbundenen Unternehmen können jeweils in Bezug auf einen oder mehrere Basiswerte bestehende oder künftige Geschäftsbeziehungen mit dem Emittenten eines oder mehrerer Basiswerte oder einem mit einem oder mehreren Basiswerten verbundenen Rechtsträger (u. a. als Kreditgeber, Depotstelle, Risikomanagement- oder Beratungsunternehmen sowie als Anbieter von Bankdienstleistungen) unterhalten und werden Handlungen und Maßnahmen ergreifen, die sie zum Schutz ihrer Interessen aus diesen Beziehungen für erforderlich oder angemessen halten, ohne dabei die Folgen für einen Wertpapierinhaber in Betracht zu ziehen, was den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen könnte.

Werden Wertpapiere öffentlich angeboten, könnten potenzielle Interessenkonflikte entstehen, da der bzw. die maßgebliche(n) Vertriebspartner und etwaige Vertriebsstellen im Rahmen eines von der maßgeblichen Emittentin erteilten Mandats handeln und Gebühren auf Grundlage der erbrachten Dienstleistungen und des Ergebnisses der Platzierung der Wertpapiere erhalten.

Ersetzung der CGMFL und/oder der CGMFL-Garantiegeberin

Non-binding German translation
Unverbindliche deutsche Übersetzung

Anleger sollten beachten, dass im Zusammenhang mit Wertpapieren, soweit die CGMFL die Emittentin ist, die Emittentin und/oder die CGMFL-Garantiegeberin ohne die Zustimmung der Inhaber der Wertpapiere, aber vorbehaltlich bestimmter Bedingungen, sich selbst in Bezug auf diese Wertpapiere oder in Bezug auf die CGMFL-Garantiekunden durch eine Tochtergesellschaft ersetzen können, die zum Datum dieser Ersetzung nach Ansicht der Emittentin bzw. der CGMFL-Garantiegeberin eine mindestens gleichwertige Stellung und Kreditwürdigkeit aufweist. Eine solche Ersetzung könnte die Rechte der Wertpapierinhaber, den Wert und die Rendite der Wertpapiere und/oder die Wertentwicklung im Rahmen der CGMFL-Garantiekunden wesentlich beeinträchtigen.

Realisierungsstörung

Tritt ein Realisierungsstörungsereignis ein (wobei es sich zusammenfassend um (i) ein Ereignis, das zur Auferlegung von Beschränkungen, Steuern, Gebühren oder Abzügen in Bezug auf die Wertpapiere und/oder Hedginggeschäfte in Zusammenhang mit den Wertpapieren führt, die die Verpflichtungen der maßgeblichen Emittentin im Rahmen der Wertpapiere wesentlich einschränken oder die Kosten der Verpflichtungen der Emittentin im Rahmen der Wertpapiere wesentlich erhöhen bzw. die Verpflichtungen einer Hedgingpartei im Rahmen dieses Hedginggeschäfts wesentlich einschränken oder die Kosten der Verpflichtungen der Hedgingpartei im Rahmen dieses Hedginggeschäfts wesentlich erhöhen würde, oder (ii) den Eintritt oder das Vorliegen eines Ereignisses, das entweder den Umtausch, die Lieferung oder Übertragung der Zahlungswährung der Wertpapiere oder eines Hedginggeschäfts in Bezug auf die Wertpapiere wesentlich einschränkt oder die Bestimmung eines Wechselkurses in Bezug auf diese Währung einschränkt, handelt), so (a) werden gegebenenfalls die Bedingungen der Wertpapiere (einschließlich etwaiger Zahlungs- oder Lieferpflichten) angepasst, um den wirtschaftlichen Folgen des spezifischen Realisierungsstörungsereignisses Rechnung zu tragen oder (b) zahlt die maßgebliche Emittentin gegebenenfalls die Wertpapiere zurück.

Etwaige von der Berechnungsstelle vorgenommene Anpassungen können u. a. Folgendes umfassen: (i) Zahlungen im Rahmen der Wertpapiere in einer anderen Währung als der vorab festgelegten Zahlungswährung der Wertpapiere; (ii) den Abzug geltender Steuern, Gebühren oder Abzüge von in Bezug auf die Wertpapiere fälligen Zahlungen, was zu geringeren Zahlungen in Bezug auf die Wertpapiere oder zur Lieferung einer Liefermenge, die der Zahlung eines anteiligen Betrags dieser Steuer, Gebühr oder dieses Abzugs durch den betreffenden Wertpapierinhaber unterliegt, führt; (iii) die Verzögerung von Zahlungen oder Lieferungen in Bezug auf die Wertpapiere bis die betreffenden Einschränkungen aufgehoben werden; (iv) die Festlegung der betreffenden Wechselkurse durch die Berechnungsstelle unter Berücksichtigung aller verfügbaren Informationen, die diese als relevant erachtet, was zu einem anderen Kurs führen kann als dem Kurs, der maßgeblich gewesen wären, wenn das Realisierungsstörungsereignis nicht eingetreten wäre, und (v) (soweit rechtlich gestattet) die physische Lieferung eines oder mehrerer Basiswerte anstatt der Zahlung eines Barbetrags in Bezug auf die Wertpapier (oder umgekehrt). Vorstehend Aufgeführtes könnte dazu führen, dass sich die Rückzahlung wesentlich von der ursprünglich erwarteten Rückzahlung in Bezug auf die Wertpapiere unterscheidet, und den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen.

Falls die Wertpapiere gemäß Ziffer (b) des vorstehenden ersten Absatzes vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin jedem Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an die Anleger zurückgezahlte Betrag kann wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger würde daher einen Verlust erleiden.

Siehe weiterführend Bewertungs- und Abwicklungsbedingung 2(h) (*Realisierungsstörung*).

Rechtswidrigkeit im Zusammenhang mit Wertpapieren

Ist "Rechtswidrigkeit" in den Endgültigen Bedingungen als einschlägig aufgeführt und legt die maßgebliche Emittentin fest, dass die Ausübung ihrer Verpflichtungen im Rahmen einer Emission von Wertpapieren bzw., soweit die CGMHI die Emittentin ist, legt die CGMHI-Garantiegeberin fest, dass die Ausübung ihrer Verpflichtungen im Rahmen der CGMHI-Garantieurkunde in Bezug auf diese Wertpapiere oder, soweit die CGMFL die Emittentin ist, legt die CGMFL-Garantiegeberin fest, dass die Ausübung ihrer Verpflichtungen im Rahmen der CGMFL-Garantieurkunden in Bezug auf diese Wertpapiere aus einem beliebigen Grund insgesamt oder teilweise rechtswidrig geworden ist, kann die maßgebliche Emittentin die Wertpapiere vorzeitig zurückzahlen und zahlt, falls und soweit nach geltendem Recht zulässig, an jeden Wertpapierinhaber (i) für Strukturierte Wertpapiere in Bezug auf einen Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der in Bezug auf jeden Berechnungsbetrag, ungeachtet dieser Rechtswidrigkeit, nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird und (ii) in Bezug auf Wertpapiere, bei denen es sich nicht um Strukturierte Wertpapiere handelt, einen Betrag, der gemäß der maßgeblichen Bedingung oder wie in den geltenden Endgültigen Bedingungen angegeben berechnet wird. Der an die Anleger zurückgezahlte Betrag kann wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger würde daher einen Verlust erleiden.

Section-871(m)-Ereignis

Bei Umständen, die ein "Section-871(m)-Ereignis" darstellen (d. h. zu einem beliebigen Zeitpunkt der Eintritt von Umständen, in denen die maßgebliche Emittentin und/oder die maßgebliche Garantiegeberin und/oder eine Hedgingpartei einer Quellenbesteuerung oder einer Meldepflicht gemäß *Section 871(m)* (wie unter *Abschnitt F.4 – Besteuerung – Überlegungen zum Ertragssteuerrecht auf US-Bundesebene – Quellensteuer auf dividendenähnliche Zahlungen nach Section 871(m)* beschrieben) in Bezug auf die betreffenden Wertpapiere und/oder die maßgebliche(n) Garantieurkunde(n) und/oder zugrunde liegende Hedgingpositionen unterliegen (oder es nach Feststellung der Berechnungsstelle hinreichend wahrscheinlich ist, dass dies innerhalb der nächsten 30 Geschäftstage in Bezug auf die maßgebliche Emittentin und/oder die maßgebliche Garantiegeberin und/oder die Hedgingpartei der Fall sein wird), tritt, wenn dies in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt ist, ein Vorzeitiges Rückzahlungsereignis ein, wobei in diesem Fall die maßgeblichen Wertpapiere, wie näher in den Bedingungen dieser Wertpapiere beschrieben, zurückgezahlt werden.

Werden die Wertpapiere entsprechend vorzeitig zurückgezahlt, zahlt die maßgebliche Emittentin an jeden Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird bzw. einen anderen Betrag, wie in dem Bewertungs- und Abwicklungsanhang und in den geltenden Endgültigen Bedingungen angegeben. Der an die Anleger zurückgezahlte Betrag könnte wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Wertpapierinhabers, und der Wertpapierinhaber könnte daher einen Verlust erleiden.

Grüne Anleihen, Soziale Anleihen und Social-Finance-Anleihen

Der Abschnitt "*Anlageüberlegungen*" in diesem Basisprospekt gibt Auskunft über Grüne Anleihen, Soziale Anleihen und Social-Finance-Anleihen (jeweils wie im Abschnitt "*Anlageüberlegungen*" definiert) und alle einschlägigen Rahmenwerke.

Auch wenn es in der Absicht des Konzerns liegt, einen Betrag in Höhe der Nettoerlöse aus Grünen Anleihen, Sozialen Anleihen oder Social-Finance-Anleihen zumindest im Wesentlichen in der in diesem Basisprospekt und/oder den anwendbaren Endgültigen Bedingungen beschriebenen Art und Weise einzusetzen, bringt eine maßgebliche Anlage ggf. nicht die Resultate oder Ergebnisse, die von der maßgeblichen Emittentin ursprünglich erwartet oder antizipiert wurden, oder die Anlage erreicht ggf. nicht die Ziele der einschlägigen Rahmenwerke; auch kann es sein, dass die maßgebliche Emittentin oder eines ihrer verbundenen Unternehmen vielleicht nicht in der Lage ist, einen Betrag in Höhe der Nettoerlöse nach Maßgabe eines spezifischen Zeitplans anzulegen, der für Wertpapierinhaber oder die Wertpapiere relevant ist. Darüber hinaus kann ein relevantes Rahmenwerk bei Veranlassung vom Konzern auf eine Art verändert werden, die den Wert der maßgeblichen Grünen Anleihen, der Sozialen Anleihen oder der Social-Finance-Anleihen, je nach Sachlage, beeinträchtigen kann.

Gegenwärtig existieren keine eindeutige (rechtliche, aufsichtsrechtliche oder anderweitige) Definition und auch kein Marktkonsens darüber, was ein "grünes", "soziales", "inklusives", "nachhaltiges" oder mit einem gleichwertigen Etikett versehenes Projekt oder einen ebensolchen Vermögenswert ausmacht oder darüber, welche genauen Attribute ein bestimmtes Projekt oder ein bestimmter Vermögenswert haben muss, um als "grün", "sozial", "inklusive" oder "nachhaltig" definiert oder mit einem gleichwertigen Etikett belegt zu werden. Eine eindeutige Definition oder ein Konsens entwickelt sich vielleicht nicht, oder, sollte sich ein Marktkonsens entwickeln, könnte sich dieser Konsens vom maßgeblichen Rahmenwerk unterscheiden oder sich im Zeitverlauf substantiell verändern, was den Wert Grüner Anleihen, Sozialer Anleihen oder Social-Finance-Anleihen beeinträchtigen könnte. Daher erfüllen Anlagen in Unternehmen oder Projekte, die in den einschlägigen Rahmenvereinbarungen beschrieben sind, und jegliche damit verbundenen Gutachten und/oder Berichte vielleicht nicht die Erwartungen der Anleger oder die verbindlichen oder unverbindlichen rechtlichen oder sonstigen Normen in Bezug auf unmittelbare oder mittelbare Umweltauswirkungen (eingeschlossen heute oder in Zukunft geltende Gesetze oder Vorschriften oder Statuten oder andere geltende Regeln, Richtlinien oder Anlagemandate, die für Anleger gelten). Potenzielle Anleger sollten jegliche Beschreibungen der einschlägigen Projekte und Förderfähigkeitskriterien in jeder geltenden Rahmenvereinbarung und die anwendbaren Endgültigen Bedingungen beachten und sich selbst ein Urteildarüber bilden, welche Relevanz diese Informationen und Gutachten und/oder Berichte für sie haben und ob alle für sie geltenden Normen erfüllt werden.

Jegliche Gutachten, Bestätigungen oder Berichte Dritter, die im Zusammenhang mit Grünen Anleihen, Sozialen Anleihen oder Social-Finance-Anleihen zur Verfügung gestellt werden, können Veränderungen unterliegen oder nicht beibehalten werden. Auch ist es möglich, dass solche Gutachten, Bestätigungen oder Berichte zur Verfügung stellende Parteien keiner besonderen Beaufsichtigung oder Regulierung unterliegen. Auch wenn Grüne Anleihen, Soziale Anleihen oder Social-Finance-Anleihen möglicherweise in einem dezidiert "grünen", "ökologischen", "inklusive", "nachhaltigen" oder mit einem sonstigen gleichwertigen Etikett belegten Segment einer (regulierten oder unregulierten) Börse oder eines (regulierten oder unregulierten) Wertpapiermarkts gelistet werden oder dort zum Handel zugelassen sind, sollten Anleger sich darüber im Klaren sein, dass die Kriterien für das Listing oder die Zulassung zum Handel variieren können und ihre Erwartungen ggf. nicht erfüllen, und es besteht das Risiko, dass das Listing oder die Zulassung zum Handel vielleicht seitens der maßgeblichen Emittentin nicht beibehalten oder zurückgezogen wird. Dies kann den Marktwert jeder Grünen Anleihe, Sozialen

Anleihe oder Social-Finance-Anleihe mit der Folge beeinträchtigen, dass Wertpapierinhaber ggf. nicht in der Lage sind, ihre Anlage insgesamt oder teilweise zu realisieren.

Versäumt es die maßgebliche Emittentin oder eine andere maßgebliche Stelle, einen dem Nettoerlös entsprechenden Betrag so zuzuweisen (oder die Allokation zu veranlassen), wie es im einschlägigen Rahmenwerk beschrieben ist, oder Berichte zur Verfügung zu stellen, oder versäumt es eine externe Prüfstelle, ein Gutachten über ein einschlägiges Rahmenwerk oder die Einhaltung der Nachhaltigkeitsstrategie des Konzerns durch einen Bericht oder das einschlägige Rahmenwerk, je nach Sachlage, zu erstellen, so stellt dies kein Kündigungsereignis gemäß einer ausgegebenen Serie von Wertpapieren dar und löst auch keine Rechte auf vorzeitige Rückzahlung (weder seitens der maßgeblichen Emittentin oder eines Wertpapierinhabers) aus. Zusätzlich und zur Klarstellung: Die Erlöse aus Grünen Anleihen, Sozialen Anleihen oder Social-Finance-Anleihen werden von der maßgeblichen Emittentin oder einer anderen Stelle im Konzern nicht von ihrem Kapital und anderen Vermögenswerten getrennt, und es besteht keine unmittelbare oder vertragliche Verbindung zwischen Grünen Anleihen, Sozialen Anleihen oder Social-Finance-Anleihen und Förderfähigen Grünen Vermögenswerten, dem Portfolio der Vermögenswerte für Anleihen für Bezahlbaren Wohnraum oder Social-Finance-Vermögenswerten.

Jeder der vorstehenden Faktoren (und jegliche Ereignisse, die den Wert anderer Wertpapiere der Emittentin beeinträchtigen, bei denen die Absicht besteht, "grüne", "soziale", "inklusive", "nachhaltige" oder mit einem gleichwertigen Etikett belegte Projekte oder Vermögenswerte zu finanzieren) könnte sich wesentlich nachteilig auf den Wert der betreffenden Wertpapiere auswirken.

Risiken im Zusammenhang mit der steuerlichen Behandlung der Wertpapiere in den Vereinigten Staaten

Mögliche U.S. Quellensteuer nach Section 871(m)

Gemäß *Section 871(m)* des *United States Internal Revenue Code* von 1986 in seiner jeweils geltenden Fassung (der "**Code**") wird eine Quellensteuer von 30 % (oder einen niedrigeren Steuersatz) auf bestimmte "dividendenähnliche Zahlungen" (*dividend equivalents*) erhoben, die an Wertpapierinhaber für bestimmte Finanzinstrumente, die auf US-Aktien bezogen sind oder unter bestimmten Umständen Indizes, die US-Aktien umfassen, gezahlt wurden oder als gezahlt gelten. *Section 871(m)* nachgelagerte Verordnungen (*United States Treasury regulations*) erfordern gegebenenfalls, dass Wertpapierinhaber Quellensteuer auf dividendenähnliche Zahlungen, die für bestimmte Wertpapiere als gezahlt gelten, entrichten müssen, ungeachtet dessen, ob die Wertpapiere von der US-Emittentin oder der Nicht-US-Emittentin (wie in "*Abschnitt F.4 – Besteuerung*" definiert) begeben werden. Gemäß diesen nachgelagerten Verordnungen gilt diese Quellenbesteuerung in der Regel für Wertpapiere, die in wesentlichem Umfang die Wertentwicklung einer oder mehrerer US-Aktien als Basiswert nachbilden, wie anhand von einem oder zwei in den nachgelagerten Verordnungen aufgeführten Tests bestimmt. Laut einer Mitteilung der US-Bundessteuerbehörde (*Internal Revenue Service (der "IRS")*) unterliegen jedoch vor 2023 emittierte Wertpapiere in der Regel nur einer Quellensteuer, wenn sie in Bezug auf die betreffende US-Aktie als Basiswert ein "Delta" von eins aufweisen. Die nachgelagerten Bestimmungen sehen bestimmte weitere Ausnahmen von dieser Quellenbesteuerung vor, insbesondere für auf bestimmte breitgefächerte Indizes bezogene Instrumente, die die Anforderungen der nachgelagerten Verordnungen erfüllen, sowie für Instrumente, die sich auf solche Indizes abbildenden Wertpapiere beziehen. Die maßgebliche Emittentin ist nicht verpflichtet, zusätzliche Beträge in Bezug auf nach *Section 871(m)*

einbehaltene Beträge zu zahlen, und der Wertpapierinhaber kann daher eine wesentlich niedrigere Rendite auf die Wertpapiere erhalten als die, die er ohne den Einbehalt erhalten würde.

Potenzielle Käufer der Wertpapiere sollten ihre Steuerberater hinsichtlich der möglichen Anwendung von *Section 871(m)* auf ein bestimmtes Wertpapier zurate ziehen.

Wenn die maßgebliche Emittentin feststellt, dass die in Bezug auf die Wertpapiere oder ein zugrunde liegendes Hedginggeschäft der maßgeblichen Emittentin gezahlten Beträge in Bezug auf die Wertpapiere einem Einbehalt oder Meldepflichten gemäß *Section 871(m)* unterliegen, kann die maßgebliche Emittentin die Wertpapiere zurückzahlen und, sofern und soweit dies nach geltendem Recht gestattet ist, jedem Wertpapierinhaber in Bezug auf jedes Wertpapier einen Betrag auszahlen, der dem fairen Marktwert des betreffenden Wertpapiers entspricht, wobei sie auch die Kosten, die der maßgeblichen Emittentin und/oder ihren verbundenen Unternehmen bei der Abwicklung diesbezüglich zugrunde liegender Hedginggeschäfte entstanden sind, von dem Betrag in Abzug bringen kann. Der an die Anleger zurückgezahlte Betrag kann wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger könnte daher einen Verlust erleiden.

Die steuerliche Behandlung bestimmter Wertpapiere in den Vereinigten Staaten ist unklar

Für die Zwecke der Besteuerung auf Bundesebene in den USA ist unklar, wie Wertpapiere, die nicht als Schuldtitel (ganz allgemein handelt es sich dabei um Wertpapiere, die bei Fälligkeit nicht die Rückzahlung der Anlage des Inhabers vorsehen) behandelt werden, richtig zu behandeln und zu charakterisieren sind. Folglich sind Zeitpunkt und Art der Einkünfte aus einem solchen Wertpapier unsicher, und für Nicht-US-Anleger besteht das Risiko, dass Zahlungen auf ein solches Wertpapier der Quellensteuer unterliegen können. Ist dies der Fall, muss die maßgebliche Emittentin in Bezug auf die einbehaltenen Beträge keine zusätzlichen Beträge zahlen, und Anleger können daher eine wesentlich niedrigere Rendite auf die Wertpapiere erhalten als die, die sie ohne den Einbehalt erhalten würden.

Darüber hinaus könnten, selbst wenn die Behandlung der Wertpapiere durch die Emittentin beachtet wird, "gewisse Änderungen" der Bedingungen der Wertpapiere können für Zwecke des Ertragsteuerrechts auf US-Bundesebene als "wesentliche Änderungen" der Wertpapiere behandelt werden, in welchem Fall die Wertpapiere grundsätzlich insgesamt oder teilweise als eingezogen und neu begeben behandelt würden. Signifikante Änderungen könnten auch darin bestehen, dass die maßgebliche Emittentin für sich selbst eine Ersatzgesellschaft angibt, und bestimmte Änderungen des Basiswerts in Bezug auf ein Wertpapier vorgenommen werden. Das Ereignis einer gewissen Änderung könnte sich auf die steuerliche Behandlung des Wertpapiers auf US-Bundesebene auswirken, was für Nicht-US-Anleger möglicherweise quellensteuerliche Folgen haben könnte. Potenzielle Käufer sollten ihre Steuerberater in Bezug auf das Risiko eines solchen Ereignisses zurate ziehen.

Das Finanzministerium der Vereinigten Staaten und der IRS haben um Kommentare zur ertragsteuerlichen Behandlung von "Termingeschäften mit Zahlung bei Abschluss (*prepaid forward contracts*)" und ähnlichen Instrumenten auf US-Bundesebene gebeten und angedeutet, dass solche Transaktionen zukünftigen Verordnungen oder anderen Handlungsempfehlungen unterliegen können. Auch haben Mitglieder des Kongresses Vorschläge für Änderungen der Gesetzgebung zur steuerlichen Behandlung von Derivatkontrakten eingebracht. Gesetze, nachgelagerte Verordnungen oder andere Handlungsempfehlungen, die nach der Auseinandersetzung mit diesen Fragen verkündet werden, könnten sich – möglicherweise rückwirkend – nachteilig auf die Steuerfolgen einer Anlage in den Wertpapieren auswirken.

Potenzielle US-Bundesquellensteuer auf Zinszahlungen

Non-binding German translation
Unverbindliche deutsche Übersetzung

Die Behandlung bestimmter Wertpapiere für Zwecke der U.S.-Bundesquellensteuer ist unklar. Insbesondere ist die US-Bundesquellensteuerbehandlung von Zinszahlungen der CGMHI auf Wertpapiere, die nicht als Schuldtitel behandelt werden, ungewiss.

Bei von der CGMHI begebenen Wertpapieren, die als vorausbezahlte Terminkontrakte (*prepaid forward contracts*) oder Optionen mit damit verbundenen periodischen Zahlungen behandelt werden, beabsichtigt die CGMHI, von Zinszahlungen auf diese Wertpapiere einen Steuereinbehalt vorzunehmen, und zwar in der Regel in Höhe von 30 %, es sei denn, ein Anleger ist berechtigt, die Vorteile eines Einkommensteuerabkommens in Anspruch zu nehmen, durch das dieser Steuereinbehalt reduziert oder aufgehoben würde.

Bei von der CGMHI begebenen Wertpapieren, die als Verkaufsoptionen und Einlagen behandelt werden, beabsichtigt die Emittentin nicht, einen Einbehalt auf Zinszahlungen auf diese Schuldverschreibungen vorzunehmen, sofern der zweite Absatz unter *Abschnitt F.4-Besteuerung - Überlegungen zum Ertragssteuerrecht auf US-Bundesebene - von US-Emittenten begebene Wertpapiere - als Schuldtitel behandelte Wertpapiere* erfüllt sind. Aufgrund der unsicheren Behandlung solcher Zahlungen ist es jedoch möglich, dass eine anwendbare Quellensteuerstelle die Zahlungen als quellensteuerpflichtig behandeln könnte (im Allgemeinen mit einem Satz von 30 %). Darüber hinaus könnte die CGMHI in Zukunft feststellen, dass ein Steuereinbehalt erforderlich ist.

Potenzielle Wertpapierinhaber sollten die Ausführungen unter *Abschnitt F.4-Besteuerung - Überlegungen zum Ertragssteuerrecht auf US-Bundesebene - von US-Emittenten begebene Wertpapiere* lesen und ihre Steuerberater hinsichtlich dieser potenziellen Quellensteuerüberlegungen konsultieren. Weder die CGMHI noch die CGMHI-Garantiegeberin sind verpflichtet, zusätzliche Beträge in Bezug auf diese Quellensteuern zu zahlen.

Meldepflichtige Transaktionen

Im Jahr 2015 hatten das Finanzministerium der Vereinigten Staaten und der IRS Mitteilungen veröffentlicht, die besagen, dass bestimmte "*Basket Options*", "*Basket Contracts*" und im Wesentlichen ähnliche Transaktionen als meldepflichtige Transaktionen ("*reportable transactions*") gelten. Die Mitteilungen gelten für spezifische Transaktionen, bei denen ein Steuerzahler oder sein "Beauftragter" (*designee*) einen Ermessensspielraum hat und ausübt, die der Transaktion zugrunde liegenden Vermögenswerte oder den der Transaktion zugrunde liegenden Algorithmus zu ändern. Zwar wird eine Ausübung der Art von Ermessen, die zu solchen Meldepflichten in Bezug auf die Wertpapiere führen würde, nicht erwartet, wenn die maßgebliche Emittentin, ein Indexsponsor, eine Berechnungsstelle oder eine sonstige Person ihren bzw. seinen Ermessensspielraum gemäß den Bedingungen eines Wertpapiers oder eines Index, auf den sich ein Wertpapier bezieht, ausüben und zu diesem Zwecke als "Beauftragter" des Wertpapierinhabers gelten würde, bestimmte Inhaber der betreffenden Wertpapiere gezwungen, sofern keine Ausnahmeregelung gilt, bestimmte Informationen an den IRS zu melden, wie in den geltenden nachgelagerten Verordnungen (*United States Treasury regulations*) aufgeführt, bzw. unterlägen diese Strafen. Die maßgebliche Emittentin ist unter Umständen auch verpflichtet, dem IRS bestimmte Informationen zu der Transaktion zu melden.

Potenzielle Käufer sollten dringend ihre Steuerberater hinsichtlich der Steuerfolgen auf US-Bundesebene, die sich aus einer Anlage in den Wertpapieren ergeben, konsultieren.

Risiken in Bezug auf auf einen oder mehrere Basiswerte bezogene Wertpapiere

Allgemeine Risiken in Bezug auf auf einen oder mehrere Basiswerte bezogene Wertpapiere

Eine Anlage in auf einen oder mehrere Basiswerte bezogene Wertpapiere ist mit hohen Risiken verbunden, die nicht mit einer ähnlichen Anlage in ein konventionelles Wertpapier (wie einem Schuldtitel, das einen vorab festgelegten Nennbetrag aufweist, auf die Währung des Anlegers lautet und einen festen oder variablen Zinssatz auf Basis von im Inland veröffentlichten Referenzzinssätzen aufweist), einhergehen, da in Bezug auf solche Wertpapiere fällige Beträge oder zu liefernde Vermögenswerte auf die Wertentwicklung des oder der relevanten Basiswerte bezogen sind.

Die Risiken, die mit einem auf einen oder mehrere Basiswerte bezogenen spezifischen Wertpapier einhergehen, hängen in der Regel von Faktoren ab, die außerhalb der Kontrolle der Emittentin, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin liegen und die nicht ohne Weiteres vorhersehbar sind, und die Rendite von auf einen oder mehrere Basiswerte bezogenen Wertpapieren kann mit bestimmten Risiken behaftet sein die denen einer tatsächlichen Anlage in den/die maßgeblichen Basiswert/e gleichen. Zu diesen Risiken gehören wirtschaftliche und politische Ereignisse sowie das Angebot an und die Nachfrage nach einem oder mehreren maßgeblichen Basiswerten.

Jedes dieser Risiken kann den Stand, Preis, Satz oder einen anderen anwendbaren Wert eines Basiswerts beeinflussen, die während der gesamten Laufzeit der Wertpapiere sinken oder steigen können; derartige Schwankungen können den Wert und die Rendite der Wertpapiere beeinflussen.

Des Weiteren unterlagen die Preise für verschiedene Basiswerte in den vergangenen Jahren starken Schwankungen. Mit solchen Schwankungen ist auch künftig zu rechnen. Die in der Vergangenheit eingetretenen Schwankungen der Sätze, Stände oder Preise sind jedoch nicht zwingend ein Indikator für die Schwankungen, die während der Laufzeit von auf einen oder mehrere Basiswerte bezogenen Wertpapieren auftreten können.

Zudem wird der Wert eines oder mehrerer Basiswerte gegebenenfalls von einer Emittentin, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin oder einem verbundenen Unternehmen bestimmt oder veröffentlicht bzw. von Dritten oder Rechtsträgern bestimmt oder veröffentlicht, die nicht der Aufsicht nach dem Recht der Vereinigten Staaten, des EWR oder des Vereinigten Königreichs unterliegen.

Das Verlustrisiko infolge einer Bindung der Zahlung von Kapital-, Zins- und/oder Beendigungsbeträgen an einen oder mehrere Basiswerte kann beträchtlich ausfallen und die Zahlung von Kapital-, Zins- und/oder Beendigungsbeträgen kann vom Eintritt bestimmter Ereignisse in Bezug auf den oder die Basiswerte abhängen, die unter Umständen nicht eintreten.

Keine Eigentumsrechte am Basiswert bzw. an den Basiswerten

Die Wertpapiere begründen keine tatsächliche Beteiligung und auch kein tatsächliches Eigentum an dem maßgeblichen Basiswert bzw. den maßgeblichen Basiswerten. Außer unter bestimmten Umständen, wenn es sich bei den Wertpapieren um Wertpapiere mit Physischer Lieferung handelt, begründet ein Wertpapier keinen Anspruch gegen einen Basiswert und, sollte der bei Rückzahlung der Wertpapiere gezahlte Betrag unter dem Nennwert der Wertpapiere liegen, hat der Wertpapierinhaber keinen Rückgriffsanspruch im Rahmen eines maßgeblichen Wertpapiers auf Wertpapierindizes, Rohstoffe, Aktien, Depositary Receipts, börsennotierte Fonds, Investmentfonds, Währungen, Dividendenfuturekontrakte, Zinssätze oder andere Instrumente, die gegebenenfalls den/die maßgeblichen Basiswert(e) dieser Wertpapiere beinhalten. Das Exposure in Bezug auf den/die maßgeblichen Basiswert(e) ist fiktiv und eine Anlage in die Wertpapiere stellt keine Anlage in den/die

maßgeblichen Basiswert(e) dar. Obwohl sich die Wertentwicklung des maßgeblichen Basiswerts bzw. der maßgeblichen Basiswerte auf die Wertpapiere auswirkt, stellen der maßgebliche Basiswert bzw. die maßgeblichen Basiswerte und die Wertpapiere separate Verbindlichkeiten verschiedener Rechtsträger dar. Anleger haben kein rechtliches oder wirtschaftliches Eigentum an dem/den maßgeblichen Basiswert(en). Dementsprechend kann ein Anleger eine niedrigere Rendite aus den Wertpapieren erhalten, als er erhalten hätte, hätte er unmittelbar oder durch ein anderes Produkt in den/die Basiswert(e) investiert.

Risiken im Zusammenhang mit auf Wertpapierindizes bezogenen Wertpapieren

Der Stand eines Wertpapierindexes basiert in der Regel auf dem Wert der in diesem Index enthaltenen Wertpapiere; Anleger sollten jedoch beachten, dass es möglich ist, dass der Stand eines Wertpapierindexes zu einem beliebigen Zeitpunkt die Wiederanlage der Rendite der in diesem Wertpapierindex enthaltenen Wertpapiere nicht berücksichtigt. Unter anderem weltweite wirtschaftliche, finanzielle und politische Entwicklungen können wesentliche Auswirkungen auf den Wert der in einem Wertpapierindex enthaltenen Wertpapiere und/oder die Entwicklung eines Wertpapierindexes haben, und dies kann wiederum den Wert und die Rendite der Wertpapiere beeinträchtigen.

Die Risiken eines bestimmten auf einen Wertpapierindex bezogenen Wertpapiers hängen von den Bedingungen dieses Wertpapiers ab. Diese Risiken können die Möglichkeit wesentlicher Änderungen der folgenden Faktoren umfassen:

- der Kurse der in dem betreffenden Index oder den betreffenden Indizes enthaltenen Wertpapiere und die Gewichtung der einzelnen enthaltenen Wertpapiere innerhalb des betreffenden Indexes oder der betreffenden Indizes;
- anderer objektiver Kurse; und
- der wirtschaftlichen oder sonstigen Messgrößen, die den betreffenden Wertpapierindex oder die betreffenden Wertpapierindizes ausmachen.

Die Marktvolatilität spiegelt den Grad der Instabilität und erwarteten Instabilität der Entwicklung eines Wertpapierindexes und der enthaltenen Wertpapiere wider. Der Grad der Marktvolatilität hängt weitgehend von den Preisen für Finanzinstrumente ab, die die Anleger vor dieser Marktvolatilität schützen sollen. Die Preise dieser Finanzinstrumente werden grundsätzlich vom Angebot und der Nachfrage in den Options- und Derivatemärkten bestimmt. Das Angebot und die Nachfrage werden wiederum von Faktoren wie der tatsächlichen Marktvolatilität, der erwarteten Volatilität, wirtschaftlichen Faktoren und Spekulation beeinflusst. In den vergangenen Jahren unterlagen Wechselkurse und Preise für enthaltene Wertpapiere starken Schwankungen. Mit solchen Schwankungen ist auch künftig zu rechnen. Die in der Vergangenheit eingetretenen Schwankungen der Wechselkurse oder Preise sind jedoch nicht zwingend ein Indikator für die Schwankungen, die während der Laufzeit eines auf Wertpapierindizes bezogenen Wertpapiers auftreten können.

Die vorstehenden Faktoren können sich auf die Wertentwicklung eines Wertpapierindexes auswirken, und dies kann wiederum den Wert und die Rendite der Wertpapiere beeinträchtigen.

Anleger sollten beachten, dass Dividenden, sonstige Ausschüttungen, Vermögenswerte und/oder Beträge, die die Inhaber der enthaltenen Wertpapiere erhalten, nicht an die maßgebliche Emittentin, die CGMHI-Garantiegeberin (soweit die CGMHI die Emittentin ist), die CGMFL-Garantiegeberin (soweit die CGMFL die Emittentin ist) oder die Wertpapierinhaber geleistet werden. Die Rendite der Wertpapiere umfasst daher keine solche Vermögenswerte und/oder Beträge, die Anleger andernfalls erhalten würden,

Non-binding German translation
Unverbindliche deutsche Übersetzung

die eine Direktanlage in ein enthaltenes Wertpapier getätigt haben. Folglich kann die Rendite der Wertpapiere unter der Rendite einer Direktanlage in enthaltene Wertpapiere liegen.

Bei der Entscheidung über den Kauf von auf Wertpapierindizes bezogenen Wertpapieren sollten Anleger sich darüber im Klaren sein, dass bei der Berechnung der im Zusammenhang mit auf Wertpapierindizes bezogenen Wertpapiere zu zahlenden Beträge bzw. fälligen Vermögenswerte auf Folgendes zurückgegriffen werden kann:

- einen Index, der von einem verbundenen Unternehmen der maßgeblichen Emittentin, der CGMHI-Garantiegeberin (falls zutreffend) und/oder der CGMFL-Garantiegeberin (falls zutreffend) festgelegt wird; oder
- Kurse, die ausschließlich von Dritten oder Unternehmen veröffentlicht werden, die keiner Aufsicht gemäß dem Recht der Vereinigten Staaten, des EWR, des Vereinigten Königreichs oder der Rechtsordnung des jeweiligen Anlegers unterliegen.

Dementsprechend können Anleger eine niedrigere Rendite aus auf Wertpapierindizes bezogenen Wertpapieren erhalten, als sie erhalten hätten, hätten sie eine Direktanlage in ein enthaltenes Wertpapier oder in ein anderes Produkt getätigt.

Siehe Basiswertanhang 1 (*Wertpapierindexbedingungen*), für die spezifischen Bedingungen von auf Wertpapierindizes bezogenen Wertpapieren.

Die Art und die Regeln des Wertpapierindex (oder der Wertpapierindizes), an den/die die Wertpapiere gekoppelt sind, können sich nachteilig auf den Wert und die Rendite der Wertpapiere auswirken

Kursrendite- und Gesamrendite-Indizes

Die Regeln für die Zusammensetzung und Berechnung des jeweiligen Wertpapierindex können vorsehen, dass Dividenden, die auf seine Bestandteile gezahlt werden, in die Berechnung des Indexstandes einbezogen werden (ein "Total Return"-Index) oder nicht in die Berechnung des Indexstandes einbezogen werden (ein "Price Return"-Index).

Wenn Wertpapiere an einen "Preisrendite"-Index gekoppelt sind, partizipieren die Inhaber der Wertpapiere nicht an den Dividenden, die auf die Komponenten gezahlt werden, aus denen der Wertpapierindex besteht. Infolgedessen würden die Inhaber von Wertpapieren, die an einen solchen Wertpapierindex gekoppelt sind, nicht von den Dividenden profitieren, die von den Bestandteilen des Wertpapierindex gezahlt werden, und diese Wertpapiere entwickeln sich möglicherweise nicht so gut wie eine Position, bei der der Inhaber direkt in diese Bestandteile oder in eine "Total Return"-Version des Wertpapierindex oder in ein anderes Produkt investiert hätte.

Bei Wertpapieren, die an einen "Total Return"-Index gekoppelt sind, werden die auf seine Bestandteile gezahlten Nettodividenden (im Falle eines "Net Total Return"-Index) oder Bruttodividenden (im Falle eines "Gross Total Return"-Index) in die Berechnung des Indexstands einbezogen. Im Falle eines "Netto-Gesamrendite"-Index werden die auf seine Bestandteile gezahlten Dividenden möglicherweise nicht vollständig in den Wertpapierindex reinvestiert, und dementsprechend erhalten Sie möglicherweise eine geringere Rendite auf Wertpapiere, die an einen solchen Wertpapierindex gekoppelt sind, als Sie erhalten

*Non-binding German translation

hätten, wenn Sie direkt in die Bestandteile eines solchen Wertpapierindex oder in ein anderes Produkt investiert hätten.

Dekrement-Indizes

Wenn der Wertpapierindex ein "Dekrement"-Merkmal hat, wird die Rendite eines solchen Wertpapierindex durch Reinvestition der Nettodividenden oder Bruttodividenden (je nach Art und Regeln des Wertpapierindex), die von seinen Bestandteilen gezahlt werden, und durch den täglichen Abzug eines vordefinierten Betrags (eine "**synthetische Dividende**") berechnet. Die Synthetische Dividende kann als Prozentsatz des Indexstandes oder als eine feste Anzahl von Indexpunkten definiert werden. Anleger sollten beachten, dass sich die folgenden Faktoren gegebenenfalls negativ auf den Wert und die Rendite von Wertpapieren auswirken können, die an einen "Dekrement"-Index gebunden sind:

- Ein Wertpapierindex mit einem "Decrement"-Merkmal wird sich schlechter entwickeln als ein "Total Return"-Index, der als Basisindex für die Berechnung eines solchen Wertpapierindex verwendet wird, da letzterer ohne den Abzug einer synthetischen Dividende berechnet wird. Ähnlich verhält es sich, wenn ein solcher Wertpapierindex die Wertentwicklung eines einzelnen Wertpapierbestandteils abbildet: Der Wertpapierindex wird sich schlechter entwickeln als eine Direktanlage in diesen Wertpapierbestandteil, da eine solche Anlage von den Dividenden profitieren würde, die von dem Wertpapierbestandteil ohne Abzug einer Synthetischen Dividende gezahlt werden.
- Ein Wertpapierindex mit einem "Dekrement"-Merkmal entwickelt sich schlechter als der entsprechende "Preisrendite"-Index, wenn der Betrag der von den Komponenten eines solchen Wertpapierindex gezahlten Dividenden geringer ist als der Betrag der abgezogenen Synthetischen Dividende. Wenn ein solcher Wertpapierindex die Wertentwicklung eines einzelnen Wertpapierbestandteils abbildet, wird sich der Wertpapierindex schlechter entwickeln als eine Direktanlage in diesen Wertpapierbestandteil, da eine solche Anlage von den Dividenden profitieren würde, die von dem Wertpapierbestandteil ohne Abzug einer Synthetischen Dividende gezahlt werden.
- Wenn die Synthetische Dividende als eine feste Anzahl von Indexpunkten (im Gegensatz zu einem Prozentsatz des Indexstandes) definiert ist, wird die Rendite der Synthetischen Dividende (berechnet als das Verhältnis des festen Indexpunktabzugs zum entsprechenden abnehmenden Indexstand) in einem fallenden Aktienmarkt steigen, da die Synthetische Dividende ein fester Betrag ist. In einem solchen Szenario wird sich der feste Abzug stärker negativ auf den Indexstand des betreffenden Wertpapierindex auswirken, als wenn die Synthetische Dividende als Prozentsatz des Indexstandes definiert wäre. Es ist sogar möglich, dass der Indexstand in einem stark fallenden Marktszenario negativ wird, da der in Indexpunkten ausgedrückte Betrag des Rückgangs nicht mit dem Stand des Rückgangsindex variiert.

Störungstage, Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Wertpapierindizes bezogenen Wertpapieren

Da die Bedingungen auf Wertpapierindizes bezogener Wertpapiere Bestimmungen beinhalten, die die Verschiebung eines Bewertungstags aufgrund des Eintritts eines Störungstags regeln, können solche Verschiebungen oder in den Bedingungen solcher Wertpapiere enthaltene alternative Bestimmungen zur Bewertung sich nachteilig auf den Wert dieser Wertpapiere auswirken. Bestimmte nachstehend beschriebene Ereignisse oder Vorkommnisse sind nur dann relevant, wenn die damit verbundenen Anpassungsereignisse und Vorzeitigen Rückzahlungsereignisse in den geltenden Endgültigen Bedingungen als für einen Wertpapierindex einschlägig aufgeführt sind.

Wenn die Berechnungsstelle feststellt, dass ein Anpassungsereignis in Bezug auf einen Wertpapierindex eintritt (wobei es sich jeweils um (a) den Eintritt einer Gesetzesänderung zu einem beliebigen Zeitpunkt, die sich auf eine den Wertpapieren zugrunde liegende Hedgingposition auswirkt oder zu einer wesentlichen Erhöhung der Kosten der maßgeblichen Emittentin für die Erfüllung ihrer Pflichten in Bezug auf die Wertpapiere führt, oder eine Hedgingstörung oder Erhöhte Hedgingkosten, (b) die Tatsache, dass dieser Wertpapierindex (i) nicht von dem maßgeblichen Indexsponsor oder im Auftrag des maßgeblichen Indexsponsors, sondern von einem Nachfolger des maßgeblichen Indexsponsors oder im Auftrag eines Nachfolgers des maßgeblichen Indexsponsors berechnet und bekannt gegeben oder (ii) durch einen Nachfolgeindex ersetzt wird, bzw. (c) ein in den geltenden Endgültigen Bedingungen aufgeführtes Zusätzliches Störungsereignis handelt), so nimmt die Berechnungsstelle die Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen, oder die Berechnungsstelle kann den von dem Anpassungsereignis betroffenen Wertpapierindex durch einen neuen Wertpapierindex ersetzen, wobei sie eine nach der Einschätzung der Berechnungsstelle gleiche oder im Wesentlichen ähnliche Berechnungsformel und -methode anwendet, wie sie bei der Berechnung des Stands dieses Wertpapierindexes angewendet wurde. Eine solche Anpassung kann im Fall Erhöhter Hedgingkosten Anpassungen dahingehend umfassen, dass diese Erhöhten Hedgingkosten an die Wertpapierinhaber weitergegeben werden (dies umfasst unter anderem die Reduzierung von in Bezug auf die Wertpapiere zu zahlenden oder zu liefernden Beträgen, um den erhöhten Kosten Rechnung zu tragen). Solche Anpassungen können sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Wenn die Berechnungsstelle feststellt, dass ein Anpassungsereignis für Wertpapierindizes eintritt (wobei es sich in Bezug auf einen Wertpapierindex jeweils um die Tatsache handelt, dass der maßgebliche Indexsponsor eine wesentliche Änderung eines maßgeblichen Wertpapierindexes ankündigt, dass der Indexsponsor den Index dauerhaft einstellt und kein Nachfolgeindex existiert bzw. dass der Indexsponsor oder eine in seinem Auftrag handelnde andere Person oder ein seinem Auftrag handelndes anderes Unternehmen den maßgeblichen Index nicht berechnet und bekannt gibt), so kann die Berechnungsstelle feststellen, ob dieses Anpassungsereignis für Wertpapierindizes wesentliche Auswirkungen auf die maßgeblichen Wertpapiere hat und, falls dies der Fall ist, wird sie (A) den maßgeblichen Stand dieses Wertpapierindexes nach der vor der jeweiligen Änderung, Einstellung oder Nichtberechnung zuletzt gültigen Berechnungsformel oder -methode für den maßgeblichen Wertpapierindex berechnen und/oder (B) den betroffenen Wertpapierindex durch einen Ersatzindex ersetzen, wobei sie eine nach der Einschätzung der Berechnungsstelle gleiche oder im Wesentlichen ähnliche Berechnungsformel und -methode anwendet, wie sie bei der Berechnung des Stands dieses Wertpapierindexes angewendet wurde, und Anpassungen der Bedingungen der Wertpapiere festlegen, die erforderlich sind, um dieser Ersetzung Rechnung zu tragen und/oder (C) die Anpassungen an den Bedingungen der Wertpapiere vornehmen, die sie für erforderlich oder angemessen hält, um den Auswirkungen dieses Anpassungsereignisses für Wertpapierindizes Rechnung zu tragen. Eine solche Berechnung, Ersetzung und/oder Anpassung kann sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Berechnung oder Ersetzung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis für Wertpapierindizes ein Vorzeitiges Rückzahlungsereignis dar.

Wenn ein Vorzeitiges Rückzahlungsereignis eintritt (wobei es sich jeweils um (a) Umstände, unter denen die Berechnungsstelle feststellt, dass nach einem Anpassungsereignis eine Anpassung oder Ersetzung nicht sinnvoll vorgenommen werden kann, (b) dass nach einem Anpassungsereignis für

Falls die Wertpapiere vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin jedem Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an die Anleger zurückgezahlte Betrag kann unter dem Betrag der ursprünglichen Anlage des Anlegers liegen, und der Anleger kann daher einen Verlust erleiden.

Risiken im Zusammenhang mit auf Inflationsindizes bezogenen Wertpapieren

Die Risiken eines bestimmten auf Inflationsindizes bezogenen Wertpapiers hängen von den Bedingungen dieses Wertpapiers ab. Ein Inflationsindex und folglich der Wert von auf Inflationsindizes bezogenen Wertpapieren können von vielen ökonomischen und Marktfaktoren beeinflusst werden, u. a. durch allgemeine wirtschaftliche, finanzielle, politische oder aufsichtsrechtliche Bedingungen und/oder Ereignisse und/oder Schwankungen der Preise verschiedener Vermögenswerte, Güter, Dienstleistungen und Energieressourcen (u. a. als Reaktion auf deren Angebot und Nachfrage) und/oder die Inflationsrate der Volkswirtschaft des betreffenden Landes sowie die Inflationserwartung. Insbesondere kann der Stand eines Inflationsindex von Faktoren beeinflusst werden, die nicht mit den Finanzmärkten in Zusammenhang stehen. Ein solcher Faktor kann einen oder mehrere andere Faktoren entweder ausgleichen oder diesen bzw. diese verstärken.

Die Wertentwicklung eines Inflationsindex wirkt sich auf die Beträge aus, die in Bezug auf auf Inflationsindizes bezogene Wertpapiere zu zahlen sind, und kann dazu führen, dass Anleger weniger als ihre ursprüngliche Anlage und/oder keine Rendite auf ihre Anlage oder unter bestimmten Umständen null erhalten.

Der auf auf Inflationsindizes bezogene Zinswertpapiere (etwaig) zu zahlende Zinssatz variiert für jede fällige Zinszahlung und kann unter dem Zinssatz liegen, der auf einen konventionellen, festverzinslichen, unkündbaren Schuldtitel der maßgeblichen Emittentin mit vergleichbarer Fälligkeit zahlbar wäre.

Siehe Basiswertanhang 2 (*Inflationsindexbedingungen*), für die spezifischen Bedingungen von auf Inflationsindizes bezogenen Wertpapieren.

Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Inflationsindizes bezogenen Wertpapieren

Wurde ein Schlusstand des Basiswerts eines Inflationsindex für einen spezifischen Referenzmonat nicht fünf Geschäftstage vor dem maßgeblichen Zahlungstag veröffentlicht oder bekannt gegeben, bestimmt die Berechnungsstelle einen Ersatzindexstand. Eine solche Ersetzung kann sich negativ auf den Wert dieser Wertpapiere auswirken.

Anleger sollten beachten, dass bestimmte Ereignisse unter Umständen keine Anwendung finden, je nachdem, ob diese in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt sind. Dementsprechend sind bestimmte nachfolgend aufgeführte Ereignisse oder Umstände nur relevant, wenn die dazugehörigen Anpassungsereignisse oder Vorzeitigen Rückzahlungsereignisse in den geltenden Endgültigen Bedingungen als für einen Inflationsindex einschlägig aufgeführt sind.

Stellt die Berechnungsstelle fest, dass ein Anpassungsereignis in Bezug auf einen Inflationsindex eingetreten ist (wobei es sich, sofern anwendbar, jeweils um Folgendes handelt: (a) den Eintritt einer

Gesetzesänderung zu einem beliebigen Zeitpunkt, die sich auf eine den Wertpapieren zugrunde liegende Hedgingposition auswirkt oder zu einer wesentlichen Erhöhung der Kosten der maßgeblichen Emittentin für die Erfüllung ihrer Pflichten in Bezug auf die Wertpapiere führt, oder eine Hedgingstörung oder Erhöhte Hedgingkosten oder (b) die Erhebung höherer oder unerwarteter Gebühren und Kosten für die Verwendung dieses Index gegenüber der maßgeblichen Emittentin und/oder ihren verbundenen Unternehmen durch den maßgeblichen Indexsponsor, die die Berechnungsstelle als wesentlich einstuft), so nimmt die Berechnungsstelle (eine) entsprechende Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen, u. a. Anpassungen, um im Falle Erhöhter Hedgingkosten diese an die Wertpapierinhaber weiterzugeben (u. a. durch Minderung von in Bezug auf die Wertpapiere zu zahlenden oder liefernden Beträgen, damit diesen erhöhten Kosten Rechnung getragen wird). Solche Anpassungen können sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt ein solches Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Ist für einen Inflationsindex in den geltenden Endgültigen Bedingungen "Revision" als einschlägig angegeben, gilt eine Revision eines Schlusstands des Basiswerts eines Inflationsindex, die vor dem maßgeblichen Revisionsstichtag erfolgt, für den Zweck einer in Bezug auf die Wertpapiere erfolgten Feststellung als endgültig und abschließend. Ist in den geltenden Endgültigen Bedingungen "Keine Revision" als einschlägig angegeben (bzw. ist "Revision" nicht als einschlägig angegeben), dann ist die erste Veröffentlichung und Bekanntgabe eines Schlusstands des Basiswerts für diesen Inflationsindex endgültig und abschließend. Stellt des Weiteren die Berechnungsstelle fest, dass der Indexsponsor eines Inflationsindex zur Korrektur eines offensichtlichen Fehlers einen Schlusstand des Basiswerts dieses Index bis spätestens zum Stichtag für einen offensichtlichen Fehler oder dreißig Kalendertage nach der ersten Veröffentlichung und Bekanntgabe dieses Stands (je nachdem, welcher Termin früher eintritt) vorgenommen hat, kann die Berechnungsstelle den korrigierten Stand dieses Inflationsindex für die Zwecke einer Berechnung in Zusammenhang mit dem maßgeblichen Zahlungstag verwenden. Im Falle von Widersprüchen zwischen einer Revision und einer Korrektur eines offensichtlichen Fehlers, ist die Korrektur eines offensichtlichen Fehlers maßgeblich. Eine entsprechende Anpassung (bzw. eine für die Zwecke der Wertpapiere nicht erfolgte Anpassung) am Stand eines Inflationsindex kann sich nachteilig auf den Wert der Wertpapiere auswirken.

Stellt die Berechnungsstelle fest, dass entweder (a) ein Stand eines Inflationsindex für zwei aufeinanderfolgende Monate nicht veröffentlicht oder bekannt gegeben wurde und/oder (b) der maßgebliche Indexsponsor bekannt gibt, dass er die Veröffentlichung oder Bekanntgabe dieses Inflationsindex einstellt und/oder (c) der maßgebliche Indexsponsor diesen Inflationsindex einstellt, kann die Berechnungsstelle den ursprünglich festgelegten Inflationsindex durch einen Nachfolgeindex ersetzen. Entsprechende Änderungen können sich nachteilig auf den Wert der Wertpapiere auswirken und, wenn kein Nachfolgeindex festgelegt werden kann, tritt in Bezug auf die Wertpapiere ein Vorzeitiges Rückzahlungsereignis ein.

Gibt ein Indexsponsor in Bezug auf einen Inflationsindex bekannt, dass er eine wesentliche Anpassung an einem betreffenden Inflationsindex vornehmen wird, nimmt die Berechnungsstelle sich daraus ergebende Anpassungen an den Bedingungen der Wertpapiere vor, die in Einklang mit an einer maßgeblichen Fallbackanleihe vorgenommenen Anpassungen stehen oder für diesen modifizierten Inflationsindex erforderlich sind, damit dieser für die Wertpapiere als Inflationsindex fortbesteht. Entsprechende Anpassungen können sich nachteilig auf den Wert der entsprechenden Wertpapiere auswirken und wenn die Berechnungsstelle feststellt, dass nach billigem Ermessen keine entsprechende

Anpassung vorgenommen werden kann, tritt in Bezug auf die Wertpapiere ein Vorzeitiges Rückzahlungsereignis ein.

Wenn ein Vorzeitiges Rückzahlungsereignis eintritt (wobei es sich jeweils um Folgendes handelt: (a) Umstände, unter denen die Berechnungsstelle feststellt, dass nach einem Anpassungsereignis eine Anpassung nicht sinnvoll vorgenommen werden kann, (b) es kann kein Nachfolgeindex bestimmt werden kann bzw. nach einer wesentlichen Änderung an einem maßgeblichen Inflationsindex kann eine Anpassung nicht sinnvoll vorgenommen werden, (c) ein *Section 871(m)*-Ereignis oder (d) ein Vorzeitiges Beendigungsereignis Hedgingstörung (vorausgesetzt, dass dieses in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt ist)), können die Wertpapiere, wie näher in den Bedingungen der maßgeblichen Wertpapiere aufgeführt, zurückgezahlt werden. Falls die Wertpapiere vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin jedem Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an die Anleger zurückgezahlte Betrag könnte wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger könnte daher einen Verlust erleiden.

Risiken im Zusammenhang mit auf Rohstoffe bezogenen Wertpapieren

Die Preise der maßgeblichen Rohstoffe können erheblichen Schwankungen unterliegen, die möglicherweise nicht mit den Änderungen bei Zinssätzen, Währungen oder anderen Indizes korrelieren, und der Zeitpunkt der Änderung des jeweiligen Preises eines oder mehrerer Rohstoffe kann sich auf die tatsächliche Rendite der Wertpapiere auswirken, auch wenn das durchschnittliche Niveau den Erwartungen der Anleger entspricht. Je früher die Änderung des Preises oder der Preise der Rohstoffe eintritt, desto größer sind in der Regel die Auswirkungen auf die Rendite der Wertpapiere.

Wareterminmärkte sind sehr volatil. Warenmärkte werden unter anderem durch Änderungen des Verhältnisses zwischen Angebot und Nachfrage, durch das Wetter, durch Regierungs-, Landwirtschafts-, Wirtschafts- und Handelsprogramme und –politik zur Beeinflussung der Rohstoffpreise, durch weltpolitische und weltwirtschaftliche Ereignisse sowie durch Änderungen bei den Zinssätzen beeinflusst. Darüber hinaus sind Anlagen in Termin- und Optionskontrakte mit zusätzlichen Risiken verbunden, darunter das Leverage-Risiko (die Sicherheitsleistung ist in der Regel ein prozentualer Anteil am Nennbetrag des Kontrakts, während das Exposure nahezu unbegrenzt sein kann). Der Inhaber einer Terminposition kann feststellen, dass diese Position illiquide wird, weil bestimmte Warenbörsen die Schwankungen bei bestimmten Preisen für Terminkontrakte an einem Tag durch Regelungen begrenzen, die als "tägliche Preisschwankungsgrenzen" oder "Tageslimits" bezeichnet werden. Gemäß diesen Tageslimits dürfen an einem einzelnen Handelstag keine Geschäfte zu Preisen abgewickelt werden, die die Tageslimits überschreiten. Sobald der Preis für einen bestimmten Terminkontrakt um einen dem Tageslimit entsprechenden Betrag gestiegen oder gesunken ist, können Positionen in diesem Terminkontrakt weder aufgebaut noch liquidiert werden, es sei denn, die Händler sind dazu bereit, Geschäfte zum Limit oder innerhalb des Limits abzuwickeln. Dies könnte den Inhaber daran hindern, ungünstige Positionen zeitnah zu liquidieren und dazu führen, dass er erhebliche Verluste erleidet. Die Preise für Terminkontrakte über verschiedene Rohstoffe haben zeitweise für mehrere aufeinanderfolgende Tage das Tageslimit überschritten, sodass wenig oder gar kein Handel stattfand. Ähnliche Vorkommnisse könnten die Liquidierung ungünstiger Positionen verhindern und daher den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen.

Siehe Basiswertanhang 3 (*Bedingungen für Rohstoffe*), für die spezifischen Bedingungen von auf Rohstoffe bezogenen Wertpapieren.

Risiko im Zusammenhang mit dem möglichen Rolling-Mechanismus bei Warenterminkontrakten

Es ist möglich, dass die Rendite von auf Rohstoffe bezogenen Wertpapieren nicht vollständig mit der Entwicklung des Preises der zugrunde liegenden Rohstoffe korreliert, da die Nutzung solcher Warenterminkontrakte in der Regel einen Rolling-Mechanismus umfasst. Dies bedeutet, dass die Warenterminkontrakte, die vor dem maßgeblichen Zahlungstag in Bezug auf die betreffenden Wertpapiere auslaufen, durch Warenterminkontrakte ersetzt werden, die zu einem späteren Zeitpunkt auslaufen. Anleger können daher nur unwesentlich von einem Anstieg/Rückgang der Preise für diese Rohstoffe profitieren.

Anleger sollten auch beachten, dass die Warenterminkontrakte eine Entwicklung aufweisen könnten, die sich erheblich von der Entwicklung der Kassamärkte für Rohstoffe unterscheidet. Die Entwicklung des Preises für einen Warenterminkontrakt im Vergleich zu dem zugrunde liegenden Rohstoff hängt eng mit dem gegenwärtigen und zukünftigen Produktionsniveau des zugrunde liegenden Rohstoffs oder der Höhe der geschätzten natürlichen Reserven – insbesondere bei Energierohstoffen – zusammen. Darüber hinaus kann der Preis des betreffenden Warenterminkontrakts nicht als genaue Prognose eines Marktpreises angesehen werden, da er auch die sogenannten "Haltekosten" (wie zum Beispiel Lagerkosten, Versicherung für die Waren, Transport etc.) umfasst, die bei der Festlegung des Preises der Warenterminkontrakte ebenfalls eine Rolle spielen. Diese Faktoren, die die Rohstoffpreise direkt beeinflussen, erklären im Wesentlichen die unvollständige Korrelation zwischen den Kassamärkten für Rohstoffe und den Warenterminkontrakten. Dementsprechend können Anleger eine niedrigere Rendite auf auf einen oder mehrere Warenterminkontrakte bezogene Wertpapiere erhalten, als sie erhalten würden, hätten sie in den oder die maßgeblichen Kassamärkte für Rohstoffe oder in ein anderes verwandtes Produkt investiert.

Störungstage, Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Rohstoffe bezogenen Wertpapieren

Da die Bedingungen auf Rohstoffe bezogener Wertpapiere alternative Bestimmungen zur Bewertung und/oder Bestimmungen beinhalten, die die Verschiebung eines Bewertungstags aufgrund des Eintritts eines Störungstags regeln, können solche alternativen Bestimmungen zur Bewertung oder Verschiebung sich wesentlich nachteilig auf den Wert und die Rendite dieser Wertpapiere auswirken.

Bestimmte nachstehend beschriebene Ereignisse oder Vorkommnisse sind nur dann relevant, wenn die damit verbundenen Anpassungsereignisse und Vorzeitigen Rückzahlungsereignisse in den geltenden Endgültigen Bedingungen als für Rohstoffe einschlägig aufgeführt sind.

Wenn die Berechnungsstelle feststellt, dass ein Anpassungsereignis in Bezug auf einen Rohstoff eintritt (wobei es sich jeweils um den Eintritt einer Gesetzesänderung zu einem beliebigen Zeitpunkt, die sich auf eine den Wertpapieren zugrunde liegende Hedgingposition auswirkt oder zu einer wesentlichen Erhöhung der Kosten der maßgeblichen Emittentin für die Erfüllung ihrer Pflichten in Bezug auf die Wertpapiere führt, oder eine Hedgingstörung oder Erhöhte Hedgingkosten handelt), so nimmt die Berechnungsstelle die Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen, wobei dies im Fall Erhöhter Hedgingkosten Anpassungen dahingehend umfasst, dass diese Erhöhten Hedgingkosten an die Wertpapierinhaber weitergegeben werden (dies umfasst unter anderem die Reduzierung von in Bezug auf die Wertpapiere zu zahlenden oder zu liefernden Beträgen, um den erhöhten Kosten Rechnung zu tragen). Solche Anpassungen können sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Risiken im Zusammenhang mit auf Aktien bezogenen Wertpapieren

Auf Aktien bezogene Wertpapiere begründen Verpflichtungen der maßgeblichen Emittentin und, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin; sie begründen keine Verpflichtungen des Emittenten einer Aktie, und Anleger haben dementsprechend keinerlei Rückgriffsanspruch gegen einen solchen Emittenten einer Aktie.

Die Emittenten dieser Aktien waren nicht an der Erstellung der geltenden Endgültigen Bedingungen oder an der Ausarbeitung der Bedingungen der Wertpapiere beteiligt, und weder die maßgebliche Emittentin noch die CGMHI-Garantiegeberin (falls zutreffend), die CGMFL-Garantiegeberin (falls zutreffend) noch ein Vertriebspartner wird im Zusammenhang mit einem solchen Angebot Nachforschungen oder Erkundigungen bezüglich der Informationen über einen solchen Emittenten von Aktien anstellen bzw. einziehen, die in diesen Endgültigen Bedingungen oder in den Dokumenten, aus denen diese Informationen entnommen wurden, enthalten sind. Folglich kann keine Zusicherung gegeben werden, dass alle Ereignisse, die vor dem maßgeblichen Ausgabebetrag eintreten (einschließlich Ereignisse, die sich auf die Richtigkeit oder Vollständigkeit der in diesem Absatz oder in geltenden Endgültigen Bedingungen beschriebenen öffentlich zugänglichen Dokumente auswirken würden) und die den Handelspreis der Aktie beeinflussen würden, auch öffentlich bekannt gegeben werden. Die nachträgliche Bekanntgabe solcher Ereignisse, die Bekanntgabe wesentlicher künftiger Ereignisse, die einen solchen Emittenten von Aktien betreffen, sowie die Nichtbekanntgabe wesentlicher künftiger Ereignisse, die einen solchen Emittenten von Aktien betreffen, könnten den Handelspreis der Aktien und damit den Handelspreis der betreffenden Wertpapiere beeinflussen.

Soweit in den geltenden Endgültigen Bedingungen in Bezug auf Wertpapiere mit Physischer Lieferung nichts anderes bestimmt ist, haben Wertpapierinhaber weder Stimmrechte noch ein Recht auf Dividenden oder Ausschüttungen noch sonstige Rechte in Bezug auf die jeweiligen Aktien, auf die diese Wertpapiere sich beziehen. Es ist daher möglich, dass die Rendite dieser Wertpapiere Dividenden oder andere Ausschüttungen, die Anleger erhalten würden, die eine Direktanlage in die betreffenden Aktien getätigt haben, nicht umfasst. Folglich kann die Rendite von auf Aktien bezogenen Wertpapieren unter der Rendite einer Direktanlage in die betreffenden Aktien liegen.

Die Risiken eines auf Aktien bezogenen Wertpapiers hängen von den Bedingungen dieses Wertpapiers ab. Diese Risiken können unter anderem die Möglichkeit wesentlicher Änderungen des Kurses bzw. der Kurse der Aktie oder der Aktien umfassen. Der Wert von Aktien kann sinken oder steigen, und es ist möglich, dass der Wert einer Aktie zu einem beliebigen Zeitpunkt nicht die Wertentwicklung der Aktie in einem früheren Zeitraum widerspiegelt. Es kann keine Zusicherung im Hinblick auf den künftigen Wert einer Aktie oder im Hinblick auf den Fortbestand einer Aktie oder des Emittenten einer Aktie gegeben werden. Dementsprechend sollten potenzielle Anleger unter anderem sorgfältig die Wert- und Kursvolatilität der maßgeblichen Aktien bedenken, bevor sie eine Anlageentscheidung im Hinblick auf Wertpapiere treffen, da diese den Wert und die Rendite der Wertpapiere beeinträchtigen kann.

Ferner kann für die Berechnung der im Zusammenhang mit diesen Wertpapieren zu zahlenden Beträge auf die Wertentwicklung einer oder mehrerer Aktien über einen bestimmten Zeitraum und auf Aktien zurückgegriffen werden, deren Emittent(en) außerhalb der Vereinigten Staaten, des EWR und des Vereinigten Königreichs gegründet wurde(n).

Dementsprechend können Anleger eine niedrigere Rendite auf eine oder mehrere Aktien bezogene Wertpapiere erhalten, als sie erhalten hätten, hätten sie direkt in die Aktien oder in ein anderes Produkt investiert.

Die Verwaltungsstelle, der Berater oder Manager in Bezug auf einen Investmentfonds war nicht an der Erstellung der geltenden Endgültigen Bedingungen oder an der Ausarbeitung der Bedingungen der Wertpapiere beteiligt, und weder die maßgebliche Emittentin noch die CGMHI-Garantiegeberin (falls zutreffend), die CGMFL-Garantiegeberin (falls zutreffend) noch ein Vertriebspartner wird im Zusammenhang mit einem solchen Angebot Nachforschungen oder Erkundigungen bezüglich der Informationen über einen solchen Investmentfonds anstellen bzw. einziehen, die in diesen Endgültigen Bedingungen oder in den Dokumenten, aus denen diese Informationen entnommen wurden, enthalten sind. Folglich kann keine Zusicherung gegeben werden, dass alle Ereignisse, die vor dem maßgeblichen Ausgabetag eintreten (einschließlich Ereignisse, die sich auf die Richtigkeit oder Vollständigkeit der in diesem Absatz oder in geltenden Endgültigen Bedingungen beschriebenen öffentlich zugänglichen Dokumente auswirken würden) und die den Wert des Investmentfondsanteils beeinflussen würden, auch öffentlich bekannt gegeben werden. Die nachträgliche Bekanntgabe solcher Ereignisse, die Bekanntgabe wesentlicher künftiger Ereignisse, die einen solchen Investmentfondsanteil betreffen, sowie die Nichtbekanntgabe wesentlicher künftiger Ereignisse, die einen solchen Investmentfonds betreffen, könnten den Wert des Investmentfondsanteils und damit den Handelspreis der Wertpapiere beeinflussen.

Soweit in den geltenden Endgültigen Bedingungen in Bezug auf Wertpapiere mit Physischer Lieferung nichts anderes bestimmt ist, haben Wertpapierinhaber weder Stimmrechte noch ein Recht auf Dividenden oder Ausschüttungen noch sonstige Rechte in Bezug auf die jeweiligen Investmentfondsanteile, auf die diese Wertpapiere sich beziehen. Es ist daher möglich, dass die Rendite dieser Wertpapiere Dividenden oder andere Ausschüttungen, die Sie erhalten würden, hätten Sie eine Direktanlage in die betreffenden Investmentfondsanteile getätigt, nicht umfasst. Folglich kann die Rendite von auf Investmentfondsanteile bezogenen Wertpapieren unter der Rendite einer Direktanlage in die betreffenden Investmentfondsanteile liegen.

Die Risiken eines auf Investmentfondsanteile bezogenen Wertpapiers hängen von den Bedingungen dieses Wertpapiers ab. Diese Risiken können unter anderem die Möglichkeit wesentlicher Änderungen des Werts bzw. der Werte der Investmentfondsanteile umfassen. Der Wert von Investmentfondsanteilen kann sinken oder steigen, und es ist möglich, dass der Wert eines Investmentfondsanteils zu einem beliebigen Zeitpunkt nicht die Wertentwicklung des Investmentfondsanteils in einem früheren Zeitraum widerspiegelt. Es kann keine Zusicherung im Hinblick auf den künftigen Wert eines Investmentfondsanteils oder im Hinblick auf den Fortbestand eines Investmentfondsanteils oder des Emittenten dieses Investmentfondsanteils gegeben werden. Dementsprechend sollten Sie unter anderem sorgfältig die Wert- und Kursvolatilität der betreffenden Investmentfondsanteile bedenken, bevor Sie eine Anlageentscheidung im Hinblick auf Wertpapiere treffen, da diese den Wert und die Rendite der Wertpapiere beeinträchtigen kann.

Ferner können Investmentfonds mit einer breiten Palette von Anlagen handeln und in diese investieren, darunter auch Schuldtitel und Beteiligungswertpapiere, Rohstoffe und Devisen, und Derivategeschäfte wie unter anderem auch Termin- und Optionskontrakte schließen. Investmentfondsanteile können illiquide sein, und es ist möglich, dass sie nur selten gehandelt werden. Die Handelsstrategien von Investmentfonds sind häufig undurchsichtig. Investmentfonds und die Märkte und Instrumente, in denen sie ihre Anlagen tätigen, unterliegen häufig keiner Aufsicht durch Regierungsbehörden, Selbstregulierungsbehörden oder andere Aufsichtsbehörden. Auch kann der Wert von Investmentfondsanteilen von der Entwicklung der betreffenden Fondsdienstleister und insbesondere des betreffenden Fondsberaters beeinträchtigt werden.

Aus den vorstehenden Gründen gelten direkte oder indirekte Anlagen in Investmentfonds generell als risikobehaftet. Entwickelt sich der zugrunde liegende Investmentfonds nicht hinreichend gut, sinkt der Wert der Wertpapiere und kann unter bestimmten Umständen null betragen.

Ferner kann für die Berechnung der im Zusammenhang mit diesen Wertpapieren zu zahlenden Beträge auf die Wertentwicklung eines oder mehrerer Investmentfondsanteile über einen bestimmten Zeitraum und auf Investmentfondsanteile zurückgegriffen werden, deren Emittent(en) außerhalb der Vereinigten Staaten, des EWR und des Vereinigten Königreichs gegründet wurde(n).

Dementsprechend können Anleger eine niedrigere Rendite auf auf eine oder mehrere Investmentfondsanteile bezogene Wertpapiere erhalten, als sie erhalten hätten, hätten sie direkt in die Investmentfondsanteile oder in ein anderes Produkt investiert.

Siehe Basiswertanhang 7 (*Bedingungen für Investmentfondsanteile*), für die spezifischen Bedingungen von auf Investmentfondsanteile bezogenen Wertpapieren.

Störungstage, Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Investmentfondsanteile bezogenen Wertpapieren

Da die Bedingungen für auf Investmentfondsanteile bezogene Wertpapiere Bestimmungen beinhalten, die die Verschiebung eines Bewertungstags aufgrund des Eintritts eines Störungstags regeln, können solche Verschiebungen oder in den Bedingungen solcher Wertpapiere enthaltene alternative Bestimmungen zur Bewertung sich nachteilig auf den Wert und die Rendite dieser Wertpapiere auswirken.

Bestimmte nachstehend beschriebene Ereignisse oder Vorkommnisse sind nur dann relevant, wenn die damit verbundenen Anpassungsereignisse und Vorzeitigen Rückzahlungsereignisse in den geltenden Endgültigen Bedingungen als für einen Investmentfondsanteil einschlägig aufgeführt sind.

Wenn die Berechnungsstelle feststellt, dass ein Anpassungsereignis in Bezug auf einen Investmentfondsanteil eintritt (wobei es sich jeweils um (a) den Eintritt einer Gesetzesänderung zu einem beliebigen Zeitpunkt, die sich auf eine den Wertpapieren zugrunde liegende Hedgingposition auswirkt oder zu einer wesentlichen Erhöhung der Kosten der maßgeblichen Emittentin für die Erfüllung ihrer Pflichten in Bezug auf die Wertpapiere führt, oder eine Hedgingstörung oder Erhöhte Hedgingkosten bzw. (b) eine gesellschaftsrechtliche Maßnahme, eine Insolvenz, ein Fusionsereignis, eine Verstaatlichung, ein Beraterrücktrittsereignis, eine fondsbezogene Änderung, einen Strategiebruch, aufsichtsrechtliche Maßnahmen, eine Meldestörung, übergreifende Auswirkungen, ein Ausfall eines Fondsdienstleisters und/oder ein in den geltenden Endgültigen Bedingungen aufgeführtes Zusätzliches Störungsereignis handelt), so nimmt die Berechnungsstelle die Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen, oder die Berechnungsstelle kann den von dem Anpassungsereignis betroffenen Investmentfondsanteil durch einen neuen Investmentfondsanteil ersetzen, der von der Berechnungsstelle ausgewählt wird (wobei es sich um einen Fonds handelt, der tägliche Liquidität bietet, dessen Anteile oder Einheiten vom Fonds gezeichnet, veräußert oder zurückgezahlt werden können (vorbehaltlich einer Kündigungsfrist von maximal zwei Fondsgeschäftstagen und ohne Erhebung von Kosten durch den Fonds) und der nach Feststellung der Berechnungsstelle dieselben oder im Wesentlichen ähnliche Strategien verfolgt und auf dieselbe Währung lautet wie der betroffene Investmentfonds). Eine solche Anpassung kann im Fall Erhöhter Hedgingkosten Anpassungen dahingehend umfassen, dass diese Erhöhten Hedgingkosten an die Wertpapierinhaber weitergegeben werden (dies umfasst unter anderem die Reduzierung von in Bezug auf die Wertpapiere zu zahlenden oder zu liefernden Beträgen, um den erhöhten Kosten Rechnung zu tragen). Eine solche Anpassung kann auch die Monetarisierung

einschließen, bei der die Berechnungsstelle den Wert des vom maßgeblichen Anpassungsereignis betroffenen Investmentfondsanteils an einem von der Berechnungsstelle ausgewählten Datum festlegt und Anpassungen an den Bedingungen der Wertpapiere vornimmt, damit die Wertpapiere auf diesen Wert (und darauf entfallende Zinsen) und nicht auf den Investmentfondsanteil bezogen sind. Eine solche Anpassung oder Ersetzung kann sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung oder Ersetzung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Wenn ein Vorzeitiges Rückzahlungsereignis eintritt (wobei es sich jeweils, falls zutreffend, um (a) Umstände, unter denen die Berechnungsstelle feststellt, dass nach einem Anpassungsereignis eine Anpassung oder Ersetzung nicht sinnvoll vorgenommen werden kann, (b) die Feststellung auf Seiten der Berechnungsstelle, dass eine Monetarisierung nicht sinnvoll vorgenommen werden kann, (c) ein *Section-871(m)*-Ereignis bzw. (d) ein Vorzeitiges Beendigungsereignis Hedgingstörung (vorausgesetzt, dass dieses in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt ist) handelt), so können die Wertpapiere wie näher in den Bedingungen der betreffenden Wertpapiere beschrieben zurückgezahlt werden. Falls die Wertpapiere vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin jedem Wertpapierinhaber einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an Sie zurückgezahlte Betrag könnte wesentlich niedriger sein als der Betrag Ihrer ursprünglichen Anlage, und Sie könnten daher einen Verlust erleiden.

Risiken im Zusammenhang mit auf Wechselkurse bezogenen Wertpapieren

Eine Anlage in auf Wechselkurse bezogene Wertpapiere kann ähnliche Marktrisiken aufweisen wie eine Direktanlage in Devisen.

Wechselkursbewegungen können erheblichen Schwankungen unterliegen, die möglicherweise nicht mit den Änderungen bei Zinssätzen oder anderen Indizes korrelieren, und der Zeitpunkt von Änderungen der Wechselkurse kann sich auf die tatsächliche Rendite der Anleger auswirken, auch wenn das durchschnittliche Niveau ihren Erwartungen entspricht. Zudem können auf Wechselkurse bezogene Wertpapiere sich auf Währungen von Schwellenländern beziehen und daher einer höheren Volatilität und einer geringeren Sicherheit hinsichtlich künftiger Niveaus oder im Vergleich zu anderen Währungen ausgesetzt sein. Währungen aus Schwellenländern sind in hohem Maße dem Risiko einer künftigen Währungskrise ausgesetzt, was zum Eintritt eines Störungstags führen kann – siehe nachstehend "*Störungstage*".

Wechselkursschwankungen und die implizite Volatilität der betreffenden Währung (oder des betreffenden Währungskorbs) wirken sich auf den Wert der betreffenden Wertpapiere aus. Der Wert einer Währung kann von komplexen politischen und wirtschaftlichen Faktoren beeinflusst werden, u. a. staatlichen Maßnahmen, um den Wert einer Währung/der Währungen ungeachtet anderer Marktkräfte zu stabilisieren oder zu unterstützen, was den Wert und die Rendite der Wertpapiere des betreffenden Wertpapierinhabers wesentlich beeinträchtigen könnte (siehe vorstehend "*Änderungen von Wechselkursen und Devisenkontrollen könnten zu einer Minderung des Werts der und der Zahlungen in Bezug auf die Wertpapiere in der Währung der Rechtsordnung eines Anlegers führen*").

Dementsprechend können Anleger eine niedrigere Rendite auf eine oder mehrere Wechselkurse bezogene Wertpapiere erhalten, als sie erhalten hätten, hätten sie direkt in die maßgebliche/n Währung/en oder in ein anderes Produkt investiert.

Siehe Basiswertanhang 8 (*Wechselkursbedingungen*), für die spezifischen Bedingungen von auf Wechselkurse bezogenen Wertpapieren.

Störungstage, Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Wechselkurse bezogenen Wertpapieren, sofern die Bestimmungen der EMTA in den geltenden Endgültigen Bedingungen nicht als einschlägig aufgeführt sind

(b) die rechtmäßige Umwandlung oder den rechtmäßigen Umtausch der Währung eines Landes in eine Nachfolgewährung handelt), so nimmt die Berechnungsstelle die Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen, wobei dies im Fall Erhöhter Hedgingkosten Anpassungen dahingehend umfasst, dass diese Erhöhten Hedgingkosten an die Wertpapierinhaber weitergegeben werden (dies umfasst unter anderem die Reduzierung von in Bezug auf die Wertpapiere zu zahlenden oder zu liefernden Beträgen, um den erhöhten Kosten Rechnung zu tragen). Solche Anpassungen können sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Falls die Wertpapiere vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin dem Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an die Anleger zurückgezahlte Betrag könnte wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger könnte daher einen Verlust erleiden.

Diese in den Bedingungen der Wertpapiere enthaltenen alternativen Bestimmungen zur Bewertung können sich nachteilig auf den Wert dieser Wertpapiere auswirken. Die gegebenenfalls geltenden Bestimmungen zur Bewertungsverzögerung können dazu führen, dass ein Wertpapierinhaber Zahlungen aus den Wertpapieren nach dem ursprünglich festgesetzten Zahlungstag erhält.

Eine oder mehrere solche Anpassung(en) kann bzw. können sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Risiken im Zusammenhang mit auf Dividendenfuturekontrakte bezogenen Wertpapieren

Wenn sie Anlagen in auf Dividendenfuturekontrakte bezogene Wertpapiere tätigen, sollten Anleger mit Anlagen auf den weltweiten Kapitalmärkten und mit Aktienindex-Dividenderderivaten im Allgemeinen vertraut sein. Der Wert eines Dividendenfuturekontrakts bildet in der Regel die Dividenden ab, die von Unternehmen (jeweils ein "**Maßgebliches Unternehmen**") in einem Kalenderjahr von Zeit zu Zeit ausgeschüttet werden, die in dem Aktienindex (der "**Maßgebliche Index**") enthalten sind, auf den sich der betreffende Dividendenfuturekontrakt bezieht. Unter anderem weltweite wirtschaftliche, finanzielle und politische Entwicklungen haben wesentliche Auswirkungen auf die Wertentwicklung dieser Maßgeblichen Unternehmen und damit auf den Wert der von diesen Maßgeblichen Unternehmen ausgeschütteten Dividenden und den Wert des betreffenden Dividendenfuturekontrakts, und dies kann wiederum den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen.

Auf Dividendenfuturekontrakte bezogene Wertpapiere begründen Verpflichtungen der maßgeblichen Emittentin und, soweit die CGMHI die Emittentin ist, der CGMHI-Garantiegeberin oder, soweit die CGMFL die Emittentin ist, der CGMFL-Garantiegeberin; sie begründen keine Verpflichtungen im Rahmen des maßgeblichen Dividendenfuturekontrakts oder Verpflichtungen eines Maßgeblichen Unternehmens, und Anleger haben dementsprechend keinerlei Rückgriffsanspruch gegen einen Sponsor eines Dividendenfuturekontrakts oder ein Maßgebliches Unternehmen. Die Sponsoren der betreffenden Dividendenfuturekontrakte waren nicht an der Erstellung der geltenden Endgültigen Bedingungen oder an der Ausarbeitung der Bedingungen der Wertpapiere beteiligt.

Es sind unter Umständen nicht alle Arten an von einem Maßgeblichen Unternehmen ausgeschütteten Dividenden maßgeblich für die Bestimmung des Preises eines Dividendenfuturekontrakts (beispielsweise werden im Allgemeinen von einem Maßgeblichen Unternehmen beschlossene, reguläre (in bar oder in Aktien ausgeschüttete) Dividenden als realisierte Dividenden betrachtet, die, sofern dies in den Kontraktsspezifikationen für den maßgeblichen Dividendenfuturekontrakt entsprechend aufgeführt ist, für die Bestimmung des Preises von Dividendenfuturekontrakten maßgeblich sind, wohingegen Sonder- oder außerordentliche Dividenden in der Regel nicht als realisierte Dividenden gelten und daher, sofern dies in den Kontraktsspezifikationen für den maßgeblichen Dividendenfuturekontrakt entsprechend aufgeführt ist, nicht maßgeblich für den Zweck der Bestimmung des Preises dieser Dividendenfuturekontrakte sind). Des Weiteren können sich die Maßgeblichen Unternehmen nach Maßgabe der Regeln des Maßgeblichen Index von Zeit zu Zeit ändern und eine entsprechende Änderung der Maßgeblichen Unternehmen kann sich nachteilig auf den Preis der Dividendenfuturekontrakte und

die in Bezug auf die Wertpapiere zu zahlenden Beträge auswirken. Anleger sollten Einzelheiten zu den Berechnungsmethoden (einschließlich Angaben dazu, welche Dividenden in der Berechnung des Dividendenfuturekontrakts berücksichtigt sind) und etwaige diesbezügliche Anpassungen (u. a. an den in dem Maßgeblichen Index enthaltenen Maßgeblichen Unternehmen) den Kontraktspezifikationen des Dividendenfuturekontrakts und den Indexregeln in Zusammenhang mit dem Maßgeblichen Index entnehmen. Anleger sollten beachten, dass die Wertentwicklung ähnlicher Dividendenfuturekontrakte in Bezug auf vorherige Kontraktlaufzeiten nicht zwingend auf die Wertentwicklung des maßgeblichen Dividendenfuturekontrakts, auf den sich die Wertpapiere beziehen, schließen lässt.

Der Marktwert der Wertpapiere kann jederzeit von bestimmten Faktoren im Zusammenhang mit Dividendenfuturekontrakten abhängen, die u. a. mit möglichen wesentlichen Änderungen bei Folgendem einhergehen:

- der in dem Maßgeblichen Index enthaltenen Maßgeblichen Unternehmen und der Erwartungen hinsichtlich der in diesem Zusammenhang angekündigten Dividenden;
- Marktzinsen und Renditen;
- der Restlaufzeit bis zum finalen Abwicklungstag des maßgeblichen Dividendenfuturekontrakts, und
- wirtschaftliche, politische und makroökonomische Faktoren.

Dementsprechend sollten potenzielle Anleger vor dem Kauf von auf Dividendenfuturekontrakte bezogenen Wertpapieren unter anderem die Wert- und Preisvolatilität von Dividendenfuturekontrakten sowie die Wertentwicklung der Maßgeblichen Unternehmen, die in dem Maßgeblichen Index enthaltenen sind, auf dessen Grundlage die in Bezug auf die betreffenden Wertpapiere zu zahlenden Beträge berechnet werden, sorgfältig bedenken, da diese den Wert und die Rendite der Wertpapiere beeinträchtigen können.

Der Wert der von den Maßgeblichen Unternehmen ausgeschütteten Dividenden kann ferner von vielen Faktoren abhängig sein, u. a. von den Erträgen und der Dividendenpolitik der jeweiligen Maßgeblichen Unternehmen, Änderungen von geltenden Gesetzen und Vorschriften, globalen wirtschaftlichen, finanziellen und politischen Entwicklungen sowie strukturellen Angebots- und Nachfragefaktoren. Die Maßgeblichen Unternehmen schütten unter Umständen geminderte oder keine Dividenden für die betreffende Kontraktlaufzeit aus. Der Betrag der von den Maßgeblichen Unternehmen in Bezug auf ähnliche Zeiträume ausgeschütteten Dividenden steht unter Umständen in keinem Zusammenhang mit während der maßgeblichen Kontraktlaufzeit ausgeschütteten Dividenden. Entsprechende Änderungen können den Betrag der entsprechenden von den Maßgeblichen Unternehmen ausgeschütteten Dividenden und folglich den Preis des betreffenden Dividendenfuturekontrakts und die in Bezug auf die Wertpapiere zu zahlenden Beträge beeinträchtigen.

Dementsprechend können Anleger eine niedrigere Rendite auf auf eine oder mehrere Dividendenfuturekontrakte bezogene Wertpapiere erhalten, als sie erhalten hätten, hätten sie direkt in die Dividendenfuturekontrakte oder in ein anderes Produkt investiert.

Siehe Basiswertanhang 9 (*Dividendenfuturekontraktbedingungen*), für die spezifischen Bedingungen von auf Dividendenfuturekontrakte bezogenen Wertpapieren.

Anpassungen an Bewertungstage, Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Dividendenfuturekontrakte bezogenen Wertpapieren

Da die Bedingungen von auf Dividendenfuturekontrakte bezogenen Wertpapieren Bestimmungen beinhalten können, die die Verschiebung eines Bewertungstags aufgrund des Eintritts eines Störungstags oder die Änderung eines Bewertungstags nach der Ankündigung des betreffenden Sponsors des Dividendenfuturekontrakts, dass der Verfallstag eines Dividendenfuturekontrakts an einem anderen Tag als dem ursprünglich vorgesehenen Tag erfolgt, regeln, können solche Verschiebungen, Änderungen oder in den Bedingungen solcher Wertpapiere enthaltene alternative Bestimmungen zur Bewertung sich wesentlich nachteilig auf den Wert und die Rendite dieser Wertpapiere auswirken.

Bestimmte nachstehend beschriebene Ereignisse oder Vorkommnisse sind nur dann relevant, wenn die damit verbundenen Anpassungsereignisse und Vorzeitigen Rückzahlungsereignisse in den geltenden Endgültigen Bedingungen als für Dividendenfuturekontrakte einschlägig aufgeführt sind.

Wenn die Berechnungsstelle feststellt, dass ein Anpassungsereignis in Bezug auf einen Dividendenfuturekontrakt eintritt (wobei es sich jeweils um (a) den Eintritt einer Gesetzesänderung zu einem beliebigen Zeitpunkt, die sich auf eine den Wertpapieren zugrunde liegende Hedgingposition auswirkt oder zu einer wesentlichen Erhöhung der Kosten der maßgeblichen Emittentin für die Erfüllung ihrer Pflichten in Bezug auf die Wertpapiere führt, oder eine Hedgingstörung oder Erhöhte Hedgingkosten bzw. (b) die Tatsache, dass dieser Dividendenfuturekontrakt (i) nicht von dem maßgeblichen Sponsor des Dividendenfuturekontrakts oder im Auftrag des maßgeblichen Sponsors des Dividendenfuturekontrakts, sondern von einem Nachfolger des maßgeblichen Sponsors des Dividendenfuturekontrakts oder im Auftrag eines Nachfolgers des maßgeblichen Sponsors des Dividendenfuturekontrakts berechnet und bekannt gegeben oder (ii) durch einen Nachfolgedividendenfuturekontrakt ersetzt wird, handelt), so nimmt die Berechnungsstelle die Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen, wobei dies im Fall Erhöhter Hedgingkosten Anpassungen dahingehend umfasst, dass diese Erhöhten Hedgingkosten an die Wertpapierinhaber weitergegeben werden (dies umfasst unter anderem die Reduzierung von in Bezug auf die Wertpapiere zu zahlenden oder zu liefernden Beträgen, um den erhöhten Kosten Rechnung zu tragen). Solche Anpassungen können sich nachteilig auf den Wert der Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Wenn ein Anpassungsereignis für Dividendenfuturekontrakte eintritt (wobei es sich in Bezug auf einen Dividendenfuturekontrakt jeweils um die Tatsache handelt, dass (i) die maßgebliche Börse und/oder der maßgebliche Sponsor des Dividendenfuturekontrakts unter Umständen eine wesentliche Änderung oder Anpassung eines maßgeblichen Dividendenfuturekontrakts ankündigt, (ii) die maßgebliche Börse und/oder der maßgebliche Sponsor des Dividendenfuturekontrakts unter Umständen den Dividendenfuturekontrakt dauerhaft einstellt oder aussetzt oder anderweitig eine dauerhafte Aussetzung des Handels besteht oder der Handel mit diesem Dividendenfuturekontrakt nie aufgenommen wurde und kein Nachfolgedividendenfuturekontrakt existiert, oder (iii) ein "Schlussabrechnungspreis" nicht auf der betreffenden elektronischen Seite oder von der Börse zum maßgeblichen Bewertungszeitpunkt angezeigt oder veröffentlicht wird), so kann die Berechnungsstelle feststellen, ob dieses Anpassungsereignis für Dividendenfuturekontrakte wesentliche Auswirkungen auf die Wertpapiere hat und, falls dies der Fall ist, wird sie (A) den "Schlussabrechnungspreis" dieses Dividendenfuturekontrakts berechnen, indem sie den Wert der maßgeblichen Dividenden für die geltende Kontraktlaufzeit dieses Dividendenfuturekontrakts unter Anwendung der Formel und der zuletzt geltenden Berechnungsmethode für einen dazugehörigen Dividend Point Index oder entsprechende andere von ihr als geeignet erachtete

Quellen berechnet und/oder (B) die Anpassungen an den Bedingungen der Wertpapiere vornehmen, die sie für erforderlich oder angemessen hält, um den Auswirkungen des betreffenden Anpassungsereignisses für Dividendenfuturekontrakt Rechnung zu tragen und/oder (C) ausschließlich im Falle von (iii) oben diesen Dividendenfuturekontrakt durch einen Ersatzdividendenfuturekontrakt ersetzen und etwaige Anpassungen feststellen, die erforderlich sind, um dieser Ersetzung Rechnung zu tragen. Eine solche Berechnung, Ersetzung und/oder Anpassung kann sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Berechnung oder Ersetzung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis für Dividendenfuturekontrakte ein Vorzeitiges Rückzahlungsereignis dar.

Wenn ein Vorzeitiges Rückzahlungsereignis eintritt (wobei es sich jeweils um (a) Umstände, unter denen die Berechnungsstelle feststellt, dass nach einem Anpassungsereignis eine Anpassung oder Ersetzung nicht sinnvoll vorgenommen werden kann, (b) Umständen, unter denen nach einem Anpassungsereignis für Dividendenfuturekontrakte eine Berechnung, Ersetzung oder Anpassung nicht sinnvoll vorgenommen werden kann, (c) ein *Section-871(m)*-Ereignis oder (d) ein Vorzeitiges Beendigungsereignis Hedgingstörung (vorausgesetzt, dass dieses in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt ist) handelt), so können die Wertpapiere wie näher in den Bedingungen der Wertpapiere beschrieben zurückgezahlt werden. Falls die Wertpapiere vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin jedem Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an die Anleger zurückgezahlte Betrag könnte wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger könnte daher einen Verlust erleiden.

Risiken im Zusammenhang mit auf Zinssätze bezogenen Wertpapieren

Der Marktwert der Wertpapiere kann jederzeit von bestimmten Faktoren im Zusammenhang mit Zinssätzen abhängen, die u. a. mit möglichen wesentlichen Änderungen beim Stand des Zinssatzes, makroökonomischen, politischen oder finanziellen Faktoren, Spekulation und der Intervention einer Zentralbank und Regierung einhergehen.

Die in der Vergangenheit aufgetretenen Schwankungen eines Zinssatzes sind jedoch nicht zwingend ein Indikator für die Schwankungen dieses Zinssatzes, die während der Laufzeit eines Wertpapiers auftreten können. Dementsprechend sollten potenzielle Anleger vor dem Kauf von Wertpapieren unter anderem sorgfältig die Wert- und Kursvolatilität der maßgeblichen Zinssätze bedenken, da diese den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen kann.

Je nach Bedingungen der Wertpapiere erhalten Anleger aufgrund der Wertentwicklung der betreffenden Zinssätze unter Umständen keine Beträge oder Vermögenswerte und verlieren gegebenenfalls einen wesentlichen Teil ihrer Anlage. Zudem sollten Anleger sicherstellen, dass sie die Bedingungen der betreffenden Wertpapiere prüfen, da diese unter Umständen fällige Beträge oder zu liefernde Vermögenswerte vorsehen, die anhand einer auf den maßgeblichen Zinssatz bezogenen Option oder Formel bestimmt werden, und es sich nicht um herkömmliche Schuldtitel handelt, denen ein Zinssatz zugrunde liegt, wie ein Schuldtitel der mit einem spezifischen variablen Satz verzinst ist. Dementsprechend erhalten Anleger gegebenenfalls eine niedrigere Rendite auf die auf einen oder mehrere Zinssätze bezogenen Wertpapiere als sie erhalten hätten, hätten sie in ein anderes Produkt investiert, dass auf einen Zinssatz verweist.

Störungstage, Anpassungsereignisse und Vorzeitige Rückzahlungsereignisse bei auf Zinssätze bezogenen Wertpapieren

Da die Bedingungen auf Zinssätze bezogener Wertpapiere Bestimmungen beinhalten, die die Folgen eines Störungstags regeln, einschließlich der Zugrundelegung alternativer Preisquellen oder der Bestimmung des maßgeblichen Zinssatzes durch die Berechnungsstelle oder auf Grundlage von Quotierungen von Referenzhändlern, können sich solche in den Bedingungen der entsprechenden Wertpapiere vorgesehene alternative Bestimmungen zur Bewertung wesentlich nachteilig auf den Wert und die Rendite der entsprechenden Wertpapiere auswirken.

Bestimmte nachstehend beschriebene Ereignisse oder Vorkommnisse sind nur dann relevant, wenn die damit verbundenen Anpassungsereignisse und Vorzeitigen Rückzahlungsereignisse in den geltenden Endgültigen Bedingungen als für Zinssätze einschlägig aufgeführt sind.

Wenn die Berechnungsstelle feststellt, dass ein Anpassungsereignis in Bezug auf einen Zinssatz eintritt (wobei es sich jeweils um den Eintritt einer Gesetzesänderung zu einem beliebigen Zeitpunkt, die sich auf eine den Wertpapieren zugrunde liegende Hedgingposition auswirkt oder zu einer wesentlichen Erhöhung der Kosten der maßgeblichen Emittentin für die Erfüllung ihrer Pflichten in Bezug auf die Wertpapiere führt, oder eine Hedgingstörung oder Erhöhte Hedgingkosten handelt), so nimmt die Berechnungsstelle die Anpassung(en) an den Bedingungen der Wertpapiere vor, die sie für erforderlich hält, um den Auswirkungen dieses Anpassungsereignisses Rechnung zu tragen. Eine solche Anpassung kann im Fall Erhöhter Hedgingkosten Anpassungen dahingehend umfassen, dass diese Erhöhten Hedgingkosten an die Wertpapierinhaber weitergegeben werden (dies umfasst unter anderem die Reduzierung von in Bezug auf die Wertpapiere zu zahlenden oder zu liefernden Beträgen, um den erhöhten Kosten Rechnung zu tragen). Solche Anpassungen können sich nachteilig auf den Wert dieser Wertpapiere auswirken, und wenn die Berechnungsstelle feststellt, dass eine Anpassung auf diese Weise nicht sinnvoll vorgenommen werden kann, stellt das Anpassungsereignis ein Vorzeitiges Rückzahlungsereignis dar.

Wenn ein Vorzeitiges Rückzahlungsereignis eintritt (wobei es sich jeweils um (a) Umstände, unter denen die Berechnungsstelle feststellt, dass nach einem Anpassungsereignis eine Anpassung oder Ersetzung nicht sinnvoll vorgenommen werden kann, (b) ein *Section-871(m)*-Ereignis oder (c) ein Vorzeitiges Beendigungsereignis Hedgingstörung (vorausgesetzt, dass dieses in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt ist) handelt), so können die Wertpapiere wie näher in den Bedingungen der betreffenden Wertpapiere beschrieben zurückgezahlt werden. Falls die Wertpapiere vorzeitig zurückgezahlt werden, zahlt die maßgebliche Emittentin jedem Wertpapierinhaber in Bezug auf jeden Berechnungsbetrag dieses Wertpapierinhabers einen Betrag, der nach der in den geltenden Endgültigen Bedingungen angegebenen Methode berechnet wird, wie von der Berechnungsstelle festgelegt. Der an die Anleger zurückgezahlte Betrag könnte wesentlich niedriger sein als der Betrag der ursprünglichen Anlage des Anlegers, und der Anleger könnte daher einen Verlust erleiden.

Risiken im Zusammenhang mit auf Zinssätze bezogene Wertpapiere, mit der Benchmark-Reform sowie mit der Einstellung und dem Ersatz von "IBORS"

Die Nicht-Verfügbarkeit, Störung oder Einstellung von Zinssätzen, auf die sich die Wertpapiere beziehen, führt zur Anwendung bestimmter Fallback-Bestimmungen

In Bezug auf jegliches Ereignis oder jeglichen Umstand mit Auswirkungen auf einen Zinssatz kommen die in der Bewertungs- und Abwicklungsbedingung 9 beschriebenen Fallback-Bestimmungen in der dort angegebenen Reihenfolge zur Anwendung, und zwar jeweils soweit für den betreffenden Zinssatz und das Ereignis oder den Umstand zutreffend. Trifft die erste aufgeführte mögliche Option nicht auf den betreffenden Zinssatz und das betreffende Ereignis oder den betreffenden Umstand zu, ist die nächste zutreffende Option anzuwenden. Möglicherweise ließe sich der betreffende Zinssatz nach der Anwendung solcher Fallback-Bestimmungen an einem anderen als dem ursprünglich beabsichtigten Tag und/oder von der Berechnungsstelle nach eigenem Ermessen feststellen. Es besteht das Risiko, dass die Feststellung des betreffenden Zinssatzes in Übereinstimmung mit einer dieser Fallback-Bestimmungen zu niedrigeren, an die Anleger im Rahmen der Wertpapiere zu zahlenden Beträgen oder zu einem geringeren Marktwert der Wertpapiere führt.

Anpassungen der Wertpapierbedingungen (einschließlich der Feststellung eines Spreads oder Faktors gleich welcher Definition), die nach Feststellung der Berechnungsstelle nach den in den Wertpapierbedingungen in Bezug auf Zinssätze niedergelegten Bestimmungen der USD LIBOR-Fallback-Bestimmungen, der Referenzsatzereignis-Bestimmungen und der Administrator/Benchmark-Ereignis-Bestimmungen, werden, soweit angemessenerweise praktikabel, vorgenommen, wobei jedoch auch die vorherrschenden Branchenstandards in jedem verbundenen Markt (so unter anderem auch des Derivatemarkts) berücksichtigt werden, und können, falls zutreffend, unter anderem auch das Folgende einschließen:

- technische, administrative oder operative Änderungen, die die Berechnungsstelle für angemessen hält;
- die Anwendung eines Anpassungsfaktors oder eines Anpassungsspreads; und
- (vorbehaltlich der Einhaltung der geltenden Gesetze und/oder behördlichen Vorschriften in der jeweiligen Rechtsordnung) Anpassungen zur Abbildung jeglicher erhöhter Kosten für die Emittentin für die Gewährung der Exposure zum Nachfolgesatz bzw. zu den Nachfolgesätzen und/oder zu der oder den Nachfolge-Benchmark(s).

Derartige Anpassen können auch ein- oder mehrmals vorgenommen werden, zu einem oder mehreren Zeitpunkten in Kraft treten und können, aber müssen nicht, die Auswahl eines Nachfolge- oder Ersatzsatzes einschließen, der auf der Grundlage einer rückwärtsgerichteten Aufzinsung unter Bezugnahme auf einen "risikofreien Satz" bestimmt wird und bei dem es sich um den maßgeblichen Satz in Bezug auf die zu diesem Zeitpunkt aktuellen und alle zukünftigen Festsetzungstage handelt, es sei denn, aus dem Zusammenhang geht etwas anderes hervor oder dies ist nicht angemessen.

Einen Überblick über die Art und Weise und den Zeitpunkt der Anwendung derartiger Fallback-Bestimmungen gibt Anlegern "*Abschnitt C – Anlageüberlegungen – Anwendung von Fallback-Bestimmungen in Bezug auf Referenzsätze und Benchmarks*".

Ist ein variabler Zinssatz nicht mehr verfügbar, kann er nach Ermessen der Berechnungsstelle oder durch alternative Methoden festgestellt werden

Wenn der maßgebliche Satz nicht verfügbar ist und die Bestimmungen zur Bildschirmfestsetzung der Bewertungs- und Abwicklungsbedingung Bedingung 3(a) anwendbar sind, wird die Berechnungsstelle, vorbehaltlich der Bewertungs- und Abwicklungsbedingung 9, den maßgeblichen Satz nach gutem Glauben und in wirtschaftlich sinnvoller Weise unter Berücksichtigung der Quellen, die sie für angemessen hält, jeder zu diesem Zeitpunkt verfügbaren alternativen Benchmark und der

vorherrschenden Branchenstandards in jedem verbundenen Markt (einschließlich, ohne Einschränkung, des Derivatemarktes), unter Bezugnahme auf die von Drittbanken bereitgestellten Quotierungen feststellen. Infolgedessen kann die Rendite der Wertpapiere niedriger als erwartet ausfallen und/oder den Wert der Wertpapiere nachteilig beeinflussen und die Berechnungsstelle übernimmt gegenüber der Emittentin oder einem Dritten keine Verantwortung, wenn die Berechnungsstelle aufgrund einer von einer Drittbank bereitgestellten Quotierung gehandelt hat.

Wenn der maßgebliche Satz nicht verfügbar ist und die Bestimmungen zur USD LIBOR Bildschirmfestsetzung der Bewertungs- und Abwicklungsbedingung Bedingung 3(a) anwendbar sind, wird der maßgebliche Zinssatz unter Bezugnahme auf die von Drittbanken bereitgestellten Quotierungen bestimmt und die Berechnungsstelle ist weder gegenüber der Emittentin noch gegenüber Dritten dafür verantwortlich, dass die Berechnungsstelle aufgrund solcher bereitgestellten Quotierungen gehandelt hat. Kann der betreffende Zinssatz nicht durch Bezugnahme auf Bankquotierungen bestimmt werden, ist der Zinssatz derjenige, der von der Berechnungsstelle in gutem Glauben und in wirtschaftlich sinnvoller Weise bestimmt wird, wobei die Berechnungsstelle zu dem betreffenden Zeitpunkt verfügbare alternative Benchmarks und die vorherrschenden Branchenstandards in jedem verbundenen Markt (einschließlich, ohne Einschränkung, des Derivatemarktes) berücksichtigt. Als Folge kann die Rendite auf die Wertpapiere niedriger als erwartet ausfallen, und/oder der Wert der Wertpapiere kann beeinträchtigt werden.

Sofern die Bestimmungen zur ISDA-Festsetzung in Bewertungs- und Abwicklungsbedingung 3(a) anwendbar sind, vorbehaltlich der Bewertungs- und Abwicklungsbedingung 9, wenn der maßgebliche Zinssatz nicht durch Bezugnahme auf die maßgeblichen ISDA-Definitionen bestimmt werden kann (einschließlich der in den ISDA-Definitionen enthaltenen Bestimmungen zur vorübergehenden Beendigung, die auch Quotierungen von Referenzbanken enthalten können), ist der Zinssatz derjenige, der von der Berechnungsstelle in gutem Glauben und in wirtschaftlich sinnvoller Weise bestimmt wird, wobei die Berechnungsstelle zu dem betreffenden Zeitpunkt verfügbare alternative Benchmarks und die vorherrschenden Branchenstandards in jedem verbundenen Markt (einschließlich, ohne Einschränkung, des Derivatemarktes) berücksichtigt.

Sofern die SFRD (Nicht-Index)-Fallback-Bestimmungen in Bewertungs- und Abwicklungsbedingung 3(a)(i) gemäß Bewertungs- und Abwicklungsbedingung 9 anwendbar sind und der maßgebliche Satz nicht verfügbar ist, wird die Höhe der auf diese Wertpapiere zu zahlenden Zinsen berechnet unter Verwendung (a) des Diskontsatzes der Bank of England (für die Zwecke dieses Absatzes der "**Diskontsatz**") für den betreffenden Tag zuzüglich des Mittelwerts des Spread zwischen dem SONIA-Satz und dem Diskontsatz oder (b) ist am betreffenden Tag kein Diskontsatz verfügbar, der SONIA-Satz, der für den unmittelbar vorhergehenden Bankgeschäftstag in London, an dem der SONIA-Satz veröffentlicht wurde, veröffentlicht wurde. In Bezug auf (a) gibt es keine Gewähr dafür, dass die Eigenschaften des Diskontsatzes und die Spread-Berechnung ähnlich dem SONIA-Satz sind oder das wirtschaftliche Äquivalent des SONIA-Satzes ergeben, auf dem der Compounded Daily SONIA basiert. Wenn die genannten Bestimmungen zur Berechnung des Satzes und des Spread oder alternative Bestimmungen zur Feststellung des SONIA in Bezug auf einen bestimmten Tag anwendbar werden, könnte dies negative Auswirkungen auf die Höhe der auf die Wertpapiere zu zahlenden Zinsen haben, was die Rendite und den Wert der Wertpapiere und den Markt für die Wertpapiere beeinträchtigen könnte.

Sofern die SFRD (Index)-Fallback-Bestimmungen in Bewertungs- und Abwicklungsbedingung 3(a)(i) und/oder die Feststellung Variabler SOFR-Satz-Bestimmungen in Bewertungs- und Abwicklungsbedingung 3(a)(i) gemäß Bewertungs- und Abwicklungsbedingung 9 anwendbar sind und der maßgebliche Satz nicht verfügbar ist, wird der maßgebliche SONIA-Index-Wert, SOFR-Index-Wert bzw. der SOFR, von der Berechnungsstelle in gutem Glauben und in wirtschaftlich sinnvoller Weise

bestimmt wird, wobei die Berechnungsstelle zu dem betreffenden Zeitpunkt verfügbare alternative Benchmarks und die vorherrschenden Branchenstandards in jedem verbundenen Markt (einschließlich, ohne Einschränkung, des Derivatemarktes) berücksichtigt.

Nicht-Benachrichtigung durch die Berechnungsstelle und/oder die maßgebliche Emittentin

Nach Maßgabe der USD LIBOR-Fallback-Bestimmungen, der Referenzsatzereignis-Bestimmungen und der Administrator/Benchmark-Ereignis-Bestimmungen muss die Berechnungsstelle die maßgebliche Emittentin über bestimmte Festlegungen unterrichten, die in Übereinstimmung mit diesen Bestimmungen erfolgt sind, und die maßgebliche Emittentin muss die Wertpapierinhaber darüber oder über bestimmte Auswahlen zur Rückzahlung der Wertpapiere unterrichten. Versäumt es die Berechnungsstelle jedoch, die maßgebliche Emittentin wie dargestellt zu unterrichten, oder versäumt es die maßgebliche Emittentin, die Wertpapierinhaber wie dargestellt zu unterrichten, so berührt das nicht die Gültigkeit der entsprechenden Festlegung oder Auswahl. Jede Feststellung oder Auswahl kann dazu führen, dass die Zahlungen im Rahmen der Wertpapiere geringer ausfallen als ursprünglich erwartet oder die Wertpapiere vorzeitig zurückgezahlt werden, was sich erheblich nachteilig auf den Wert und die Rendite der Wertpapiere auswirken könnte.

Die "Benchmark"-Verordnung und -Reform kann den Wert und die Rendite von auf Benchmarks bezogenen Wertpapieren oder Wertpapieren, die auf solche "Referenzwerte" verweisen, beeinträchtigen

Benchmarks bezogen auf Zinssätze spielen eine wichtige Rolle auf den Finanzmärkten und es ist daher entscheidend, dass Benchmarks, die in großem Umfang verwendet werden, robust sind und auf aktiven, liquiden Märkten beruhen. Infolgedessen sind Zinssätze und Indizes oder andere Arten, die als "Benchmarks" gelten (einschließlich der, aber nicht darauf beschränkt, London Interbank Offered Rate ("**LIBOR**") und der Euro Interbank Offered Rate ("**EURIBOR**")), in jüngster Zeit Gegenstand nationaler und internationaler aufsichtsrechtlicher Prüfungen und Reformen geworden und bestimmte Benchmarks wie der LIBOR wurden in Frage gestellt, weil es mangels relevanter aktiver etablierter Märkte und möglicher negativer Anreize (möglicherweise auch als Ergebnis von Benchmark-Reformen) für Marktteilnehmer wenig Bewandtnis gab, weiterhin solche Benchmarks zu verwenden. Im Gegensatz zu Benchmarks wie dem LIBOR, repräsentieren "risikofreie Zinssätze" wie SONIA und SOFR weitgehend etablierte Märkte, aus denen sich Daten im Laufe der Zeit ableiten lassen, um zu evaluieren, ob solche Benchmarks sich an künftige Veränderungen auf den Geldmärkten dynamisch anpassen und weiterhin robust sind. Die Tatsache, dass risikofreie Zinssätze auf tatsächlichen Transaktionen und nicht auf Expertenschätzungen gestützt sind, verringert auch die Verhaltensrisiken, die mit solchen Benchmarks verbunden sind.

Die Aufsichtsbehörden und Zentralbanken betrachten die risikofreien Tagesgeldsätze als die robustesten verfügbaren Benchmark-Zinssätze und fördern daher nachdrücklich den Übergang von den LIBORs und haben risikofreie Sätze ermittelt, die diese LIBORs als primäre Benchmarks ersetzen sollen. Dazu gehören (unter anderem anderen):

- (i) für den Sterling-LIBOR ("**GBP LIBOR**"), der Sterling Overnight Index Average ("**SONIA**");
- (ii) für den EUR-LIBOR, der Euro Short-Term Rate ("**EuroSTR**", "**ESTR**" oder "**€STR**"); und
- (iii) für den USD LIBOR, die Secured Overnight Financing Rate ("**SOFR**").

Die EU-Benchmark-Verordnung und die UK-Benchmark-Verordnung

Die EU-Verordnung über Indizes, die bei Finanzinstrumenten und Finanzkontrakten als Referenzwert oder zur Messung der Wertentwicklung eines Investmentfonds verwendet werden (die "**EU-Benchmark-**

Verordnung") und die EU-Benchmark-Verordnung, wie sie kraft des *European Union (Withdrawal) Act* aus dem Jahr 2018 (in der jeweils geltenden Fassung) und der darunter erlassenen Verordnungen in englisches Recht umgesetzt wurde (die "**UK-Benchmark-Verordnung**", und zusammen mit der EU-Benchmark-Verordnung die "**Benchmark-Verordnungen**"), sind Kernstück der andauernden Regulierungsreform in der EU und im Vereinigten Königreich und gelten seit dem 1. Januar 2018 und waren Gegenstand von Folgeänderungen.

Neben sogenannten "kritischen Referenzwerten" wie der LIBOR und der EURIBOR sind in den meisten Fällen auch andere ausländische Zinssätze und bestimmte Indizes vom Regelungsbereich beider Versionen der Benchmark-Verordnungen als "Referenzwerte" umfasst und dienen dazu, den im Rahmen bestimmter Finanzinstrumente (so auch (i) im Falle der EU-Benchmark-Verordnung im Rahmen von Wertpapieren, die an einem geregelten Markt in der EU oder über ein multilaterales Handelssystem (MTF) in der EU gehandelt werden, und (ii) im Falle der UK-Benchmark-Verordnung im Rahmen von Wertpapieren, die an einer anerkannten Wertpapierbörse des Vereinigten Königreichs oder über ein MTF im Vereinigten Königreich gehandelt werden) zu zahlenden Betrag oder den Wert dieser Finanzinstrumente zu bestimmen, und werden auch in mehreren anderen Umständen genutzt.

Die EU-Benchmark-Verordnung gilt für die Bereitstellung von Benchmarks, die Bereitstellung von Eingabedaten für eine Benchmark und die Nutzung einer Benchmark innerhalb der EU. Unter anderem (i) verlangt sie von Referenzwert-Administratoren eine Zulassung oder Registrierung (oder, sofern sie in einem Drittstaat ansässig sind, dass sie einem gleichwertigen System unterliegen oder auf andere Weise anerkannt oder bestätigt sind) und (ii) verhindert sie bestimmte Nutzungen durch beaufsichtigte Unternehmen in der EU von "Referenzwerten", die von Administratoren zur Verfügung gestellt wurden, die nicht zugelassen oder registriert sind (oder, sofern sie in einem Drittstaat ansässig sind, die nicht als gleichwertig gelten oder anerkannt oder bestätigt wurden).

Die UK-Benchmark-Verordnung enthält überwiegend dieselben Bestimmungen wie die EU-Benchmark-Verordnung, jedoch ist ihr geographischer Geltungsbereich kleiner. Die UK-Benchmark-Verordnung findet für die Bereitstellung von Benchmarks, die Bereitstellung von Eingabedaten für eine Benchmark und die Nutzung einer Benchmark innerhalb des Vereinigten Königreichs Anwendung. Der Nachweis der Einhaltung der UK-Benchmark-Verordnung obliegt den Administratoren der UK-Benchmark und den im Vereinigten Königreich beaufsichtigten Unternehmen.

Die ESMA führt ein öffentliches Register von Benchmark-Administratoren und Benchmarks aus Drittländern gemäß der EU-Benchmark-Verordnung (das "**ESMA-Register**"). Benchmark-Administratoren, die vor dem 31. Dezember 2020 von der *Financial Conduct Authority* ("**FCA**") im Vereinigten Königreich zugelassen, registriert oder anerkannt wurden, wurden am 1. Januar 2021 aus dem ESMA-Register gelöscht. Seit dem 1. Januar 2021 führt die FCA ein eigenes öffentliches Register von Benchmark-Administratoren und Nicht-UK-Benchmarks gemäß der UK-Benchmark-Verordnung (das "**UK-Register**"). Das UK-Register enthält UK-Benchmark-Administratoren, die von der FCA vor dem 31. Dezember 2020 zugelassen, registriert oder anerkannt wurden.

Die EU-Benchmark-Verordnung und die UK-Benchmark-Verordnung könnten wesentliche Auswirkungen auf auf "Referenzwerte" bezogene Wertpapiere oder Wertpapiere, die auf einen "Referenzwert" verweisen, haben. Zum Beispiel:

- Ein Zinssatz oder Index, bei dem es sich um eine "Benchmark" im Sinne der EU-Benchmark-Verordnung handelt, darf von einem in der EU beaufsichtigten Unternehmen für bestimmte Zwecke nicht genutzt werden, sofern (vorbehaltlich anwendbarer Übergangsbestimmungen) ihr Administrator keine Zulassung oder Registrierung von einer in der EU zuständigen Behörde

erlangt (oder, sofern es sich um ein Nicht-EU-Unternehmen handelt, die Bedingungen der "Gleichwertigkeit" nicht erfüllt und bis zu einer Entscheidung über die Gleichwertigkeit nicht "anerkannt" und die Benchmark nicht bestätigt ist). Erlangt der Referenzwert-Administrator diese Zulassung oder Registrierung nicht oder hält sie (je nach Sachlage) nicht aufrecht, oder besteht bei Nicht-EU-Unternehmen keine "Gleichwertigkeit" und es wird nicht anerkannt, und wird der Referenzwert nicht bestätigt, können die Wertpapiere vor ihrer Fälligkeit zurückgezahlt werden;

- ein Zinssatz oder Index, bei dem es sich um eine "Benchmark" im Sinne der UK-Benchmark-Verordnung handelt, darf von einem im Vereinigten Königreich beaufsichtigten Unternehmen für bestimmte Zwecke nicht genutzt werden, sofern (vorbehaltlich anwendbarer Übergangsbestimmungen) ihr Administrator keine Zulassung oder Registrierung von der FCA erlangt (oder, sofern es sich um ein Nicht-UK-Unternehmen handelt, die Bedingungen der "Gleichwertigkeit" nicht erfüllt und bis zu einer Entscheidung über die Gleichwertigkeit nicht "anerkannt" und die Benchmark nicht bestätigt ist). Erlangt der Referenzwert-Administrator eine solche Zulassung oder Registrierung nicht oder hält sie (je nach Sachlage) nicht aufrecht, oder besteht bei Nicht-UK-Unternehmen keine "Gleichwertigkeit" und es wird nicht anerkannt und die Benchmark nicht bestätigt, können die Wertpapiere vor ihrer Fälligkeit zurückgezahlt werden; und
- die Methodik oder andere Bedingungen der "Benchmark" könnten geändert werden, um die Anforderungen der EU-Benchmark-Verordnung oder der UK-Benchmark-Verordnung, je nach Sachlage, zu erfüllen, und diese Änderungen könnten den Satz oder Stand vermindern oder erhöhen oder die Volatilität des veröffentlichten Satzes oder Stands beeinträchtigen und (abhängig von den Bedingungen der einzelnen Wertpapiere) zu Anpassungen der Wertpapierbedingungen führen, die die Berechnungsstelle für erforderlich oder angemessen erachtet.

Jede der internationalen oder nationalen Reformen oder die allgemein strengeren aufsichtsrechtlichen Prüfungen von "Referenzwerten" könnten zu höheren Kosten und Risiken bei der Verwaltung oder anderweitigen Beteiligung an der Festlegung eines "Referenzwerts" sowie der Einhaltung entsprechender Vorschriften und Anforderungen führen. Diese Faktoren können die folgenden Auswirkungen auf bestimmte "Referenzwerte" haben: (i) sie können Marktteilnehmer davon abhalten, weiterhin den "Referenzwert" zu verwalten oder zu dessen Feststellung beizutragen, (ii) Änderungen an Regeln und Methoden herbeizuführen, die für den "Referenzwert" verwendet werden und/oder (iii) zum Verschwinden des "Referenzwerts" führen. Jede der vorstehenden Veränderungen oder andere Veränderungen infolge internationaler oder nationaler Reformen oder anderer Initiativen oder Untersuchungen könnte den Wert und die Rendite eines auf einen "Referenzwert" bezogenen Wertpapiers oder eines Wertpapiers, das auf einen "Referenzwert" verweist, wesentlich beeinträchtigen, und die Berechnungsstelle kann berechtigt sein, entsprechende Anpassungen an den Bedingungen der Wertpapiere vorzunehmen.

Einstellung und Ersatz von Interbank Offered Rates.

Bestimmte Basiszinssätze, einschließlich LIBOR und EURIBOR sind Gegenstand anhaltender nationaler und internationaler aufsichtsrechtlicher Prüfung und Reform. Einige dieser Reformen sind bereits in Kraft getreten, während andere noch wie folgt umgesetzt oder formuliert werden müssen:

(a) LIBOR

LIBOR (für 7 Fälligkeiten und in 5 Währungen veröffentlicht) wurde unverzüglich nach dem 31. Dezember 2021 eingestellt bzw. nicht mehr repräsentativ für den zugrunde liegenden Markt und die wirtschaftliche Realität, mit Ausnahme in Bezug auf bestimmte USD-LIBOR-Festlegungen, die

unverzüglich nach dem 30. Juni 2023 eingestellt werden. Anleger sollten weitere Informationen zur Einstellung oder Nicht-Repräsentativität des LIBOR "*Abschnitt C – Anlageüberlegungen – Einstellung oder Nicht-Repräsentativität des LIBOR*" entnehmen.

Am 8. September 2021 wurde der Critical Benchmarks (*References and Administrators' Liability*) Bill (der "**Gesetzentwurf**") in das Oberhaus eingebracht und hatte seine erste Lesung. Der Gesetzentwurf wurde speziell im Hinblick auf die neuen Befugnisse der FCA im Rahmen des *Financial Services Act 2021* zur Bestimmung einer kritischen Benchmark entworfen (bzw. bestimmter Tenors/Währungen einer solchen Benchmark) als eine A.23A-Benchmark unter der UK-Benchmark-Verordnung. Ist diese nicht repräsentativ für den Markt oder die wirtschaftliche Realität bzw. ist die Repräsentativität der Benchmark gefährdet, wird beabsichtigt, diese zu messen oder diese nicht beizubehalten oder wiederherzustellen. Diese Befugnisse würden es der FCA ermöglichen, die LIBOR-Methodologie so zu ändern, dass der LIBOR-Satz auf dem Referenzbildschirm weiterhin auf der Grundlage der geänderten Methodik veröffentlicht werden kann: "synthetischer LIBOR". Weitere Einzelheiten gelten, aber unter anderem führt der Gesetzentwurf Bestimmungen ein, die in Verträgen nach englischem Recht sicherstellen sollen, dass Verweise auf den LIBOR so auszulegen sind, dass sie den synthetischen LIBOR einschließen.

Die EU hat ferner die EU-Benchmark-Verordnung angepasst, bei der den Aufsichtsbehörden die Befugnis übertragen wird, eine oder mehrere Ersatz-Benchmarks unter bestimmten begrenzten Umständen als kritische Benchmarks oder systemrelevante Benchmarks zu bezeichnen, sofern bestimmte Trigger erfüllt sind, die sich auf die Nicht-Repräsentativität, Einstellung oder geordnete Abwicklung der Benchmark beziehen, oder sofern ihre Nutzung durch in der Europäischen Union beaufsichtigte Unternehmen nicht mehr gestattet ist. Diese Gesetzgebung soll in erster Linie Verträgen zugute kommen, die für den Fall der permanenten Einstellung keine Ersatzregelungen bzw. keine passenden Fallbacks vorsehen. Durchführungsverordnungen zur Bestimmung eines gesetzlichen Ersatz-Satzes für bestimmte Einstellungen des CHF-LIBOR und für den Benchmark Euro Overnight Index Average (EONIA) wurden im Amtsblatt der Europäischen Union im Oktober 2021 veröffentlicht und gelten seit dem 1. Januar 2022 bzw. dem 3. Januar 2022.

Das New Yorker ("NY") Recht, ursprünglich vorgeschlagen durch das *Alternative Reference Rates Committee* (das "**ARRC**"), um den Übergang bestimmter Finanzkontrakte nach NY-Recht zu unterstützen, die auf USD-LIBOR referenzieren, sieht (unter anderem) vor, dass jeder Kontrakt, dessen Ersatzregelung auf USD-LIBOR gründet oder der keine Ersatzregelung vorsieht, kraft Gesetz als Fallback auf den empfohlenen Benchmark-Ersatz plus Spreadanpassung zurückgreift. Auch in den Vereinigten Staaten könnte in Zukunft eine bundesgesetzliche Lösung in Kraft treten. In Ermangelung wird die Anwendung der New Yorker Gesetzeslösung jedoch begrenzt sein.

Auch wenn die vorstehenden vorgeschlagenen gesetzgeberischen Lösungen bei einigen Tough Legacy Trades hilfreich sein können, haben Aufsichtsbehörden klargestellt, dass sie keine Alternative für einen aktiven Übergang darstellen. Parteien, die sich auf mögliche gesetzgeberische Lösungen verlassen, haben keine Kontrolle über die wirtschaftlichen Bedingungen dieses Vorgehens. Auch besteht das Risiko, dass diese gesetzgeberischen Lösungen möglicherweise nicht rechtzeitig wirksam werden und ggf. nicht in der Lage sind, Antworten auf sämtliche Fragen zu finden oder nicht unter allen Umständen praktikabel sind, und das Vorhandensein unterschiedlicher Lösungen in unterschiedlichen Rechtsordnungen könnte auch in Ermangelung einer Harmonisierung Anlass zu möglichen Gesetzeskollisionen geben.

(b) EURIBOR

Non-binding German translation
Unverbindliche deutsche Übersetzung

Anders als der LIBOR wird beim EURIBOR erwartet, dass er vom European Money Markets Institute (EMMI) noch über 2021 hinaus veröffentlicht wird, wobei in Übereinstimmung mit der EU-Benchmark-Verordnung eine reformierte oder hybride Methode zum Einsatz kommen dürfte. Es kann jedoch nicht gewährleistet werden, dass dies der Fall sein wird. Die Euro-Arbeitsgruppe für risikofreie Zinssätze für den Euroraum hat eine Reihe von Leitprinzipien und am 11. Mai 2021 ihre Empfehlungen zu EURIBOR-Fallback-Trigger-Events veröffentlicht. Die Leitprinzipien weisen unter anderem darauf hin, dass die weitere Bezugnahme auf den EURIBOR in einschlägigen Verträgen (ohne robuste Fallback-Bestimmungen) das Risiko für das Finanzsystem des Euroraums erhöhen kann.

IBOR-Übergang und Risiken im Zusammenhang mit antizipativen Trigger-Ereignissen

Bei Wertpapieren, bei denen der Referenzsatz oder die Benchmark ein LIBOR ist, können die Ankündigungen der FCA und der IBA vom 5. März 2021, dass sämtliche LIBOR-Festlegungen nicht mehr veröffentlicht oder nicht mehr repräsentativ sein werden, ggf. bestimmte Fallback-Bestimmungen ausgelöst haben (wobei es sich bei dem Auslöser um einen "**antizipativen Trigger**" handelt). Auch wenn ggf. Fallback-Bestimmungen ausgelöst worden sind, können der Tag des Inkrafttretens und die Folgen dieser Ersatzregelungen erst nach dem Datum dieser Ankündigungen wirksam werden. Infolge der Ersatzregelungen kann es erforderlich sein, dass die Berechnungsstelle oder die maßgebliche Emittentin (oder beide) einen Ersatz-Satz oder eine Benchmark identifizieren, einen Spread berechnen, der auf den Ersatz-Satz oder die Benchmark anzuwenden ist, Anpassungen vornehmen und sonstige damit verbundene Pflichten im Rahmen der einschlägigen Fallback-Bestimmungen in den Wertpapierbedingungen erfüllen. Unbeschadet anderslautender Bestimmungen in den Fallback-Bestimmungen kann die maßgebliche Emittentin und/oder die Berechnungsstelle sämtliche Festlegungen und/oder Anpassungen in Bezug auf die Wertpapiere vornehmen, die im Zusammenhang mit dem Eintritt eines antizipativen Triggers vorgesehen sind, auch wenn ein solcher antizipativer Trigger möglicherweise vor dem Ausgabetag der Wertpapiere eingetreten ist. Die Berechnungsstelle benachrichtigt die Wertpapierinhaber vor der Vornahme von Änderungen an den Wertpapierbedingungen, jedoch erfolgt diese Benachrichtigung ggf. nicht weit im Voraus. Wertpapierinhaber sollten sicherstellen, dass sie die für ihre jeweiligen Wertpapiere anwendbaren Fallback-Bestimmungen und die diesbezüglichen Risikofaktoren angesichts dieser Möglichkeit lesen. Auch wenn ein antizipativer Trigger möglicherweise nicht zur sofortigen Ersetzung des anwendbaren Satzes oder der Benchmark durch einen Nachfolgesatz oder eine Benchmark führt, besteht bei Änderungen das Risiko, dass die Rendite auf die Wertpapiere beeinträchtigt wird (so auch, dass die Wertpapierinhaber einen wesentlich niedrigeren Zinsbetrag erhalten), oder dass die Wertpapiere ggf. vorzeitig zurückgezahlt werden.

Kernrisiken in Bezug auf die Reform und die mögliche Ersetzungen der IBOR-Sätze durch risikofreie Sätze

Die Reform und mögliche Ersetzung der IBOR-Sätze durch risikofreie Sätze kann dazu führen, dass der relevante IBOR sich anders als in der Vergangenheit entwickelt, vollständig verschwindet oder andere Auswirkungen hat, die nicht vorhergesagt werden können. Jede dieser Entwicklungen könnte den Wert und die Rendite von auf diese Sätze bezogenen Wertpapieren wesentlich beeinträchtigen, und zusätzlich könnten die Geschäftsbereiche, die Finanz- und Ertragslage des Konzerns wesentlich beeinträchtigt werden und/oder der Konzern könnte Gegenstand von Streitigkeiten, Rechtsstreitigkeiten oder anderen Verfahren mit Gegenparteien oder vergleichbaren Teilnehmern sein.

Die risikofreien Sätze verwenden eine andere Methodik und weisen weitere wichtige Unterschiede zu den IBOR-Sätzen auf, die sie letztlich ersetzen werden (siehe im Folgenden "*Unterschiede in den Methoden*"). Die Marktkonditionen für auf die neuen "risikofreien Sätze" bezogene Wertpapiere können

Non-binding German translation
Unverbindliche deutsche Übersetzung

sich im Laufe der Zeit entwickeln, und die Handelspreise solcher Wertpapiere können folglich unter denen liegen, zu denen Wertpapiere gehandelt werden, die später ausgegeben wurden. Sollte der maßgebliche risikofreie Satz (wie beispielsweise SONIA oder SOFR) keine Marktakzeptanz erlangen können oder sich nicht als an den Kapitalmärkten weitverbreiteter Satz erweisen, kann es sein, dass der Handelspreis der auf risikofreie Sätze bezogenen Wertpapiere unter dem Handelspreis von Wertpapieren liegt, die an weitverbreitetere Sätze gebunden sind, und folglich kann es sein, dass Anleger ihre Wertpapiere überhaupt nicht oder nicht zu Preisen verkaufen können, die zu einer Rendite führen, die mit der Rendite ähnlicher Anlagen, für die sich ein Sekundärmarkt entwickelt hat, vergleichbar ist, und daher unter erhöhter Volatilität in der Preisbildung und Marktrisiken leiden.

Soweit Wertpapiere auf einen IBOR verweisen, sollten potenzielle Anleger in Wertpapiere verstehen, (i) welche Ersatzregelung anstelle eines solchen Satzes (ggf.) gelten könnte, (ii) wie diese Ersatzregelung ausgelöst wird und (iii) welche einseitigen Änderungsrechte (ggf.) auf Seiten der maßgeblichen Emittentin oder der Berechnungsstelle gemäß den Bedingungen dieser Wertpapiere gelten. Siehe die nachfolgend beschriebenen Risikofaktoren.

Unterschiede in den Methoden

Risikofreie Zinssätze können sich von LIBOR, EURIBOR und anderen IBORs in einer Reihe wesentlicher Aspekte unterscheiden, so unter anderem auch darin, dass sie zumeist rückwärts gerichtet sind und auf einer aufgezinnten oder gewichteten Durchschnittsbasis berechnet werden, wohingegen Interbank Offered Rates generell auf der Grundlage eines zukunftsbezogenen Zeitraums angegeben werden und auf der Grundlage der Interbankenleihe ein Risikoelement einschließen. Als solche sollten potenzielle Anleger sich darüber bewusst sein, dass LIBOR, EURIBOR und andere Interbank Offered Rates und jegliche risikofreien Sätze sich als Zins-Referenzsätze für die Wertpapiere in erheblichem Maße unterschiedlich verhalten können.

Zinsen auf Wertpapiere, die auf einen rückwärtsgerichteten, risikofreien Satz verweisen, werden zum Ende des relevanten Zinsberechnungszeitraums bestimmt. Daher können die Wertpapierinhaber ggf. nicht in der Lage sein, die Höhe der Zinsen, die auf die Wertpapiere zu zahlen sind, im Voraus zuverlässig zu schätzen. Auch kann es sein, dass einige Anleger nicht in der Lage oder willens sind, in solchen Wertpapieren zu handeln, ohne Änderungen an ihrer Informationstechnologie oder anderen betrieblichen Systemen vornehmen zu müssen, was die Liquidität dieser Wertpapiere beeinträchtigen könnte. Des Weiteren würde der finale Zinssatz und/oder Zinsbetrag, der in Bezug auf diese Wertpapiere im Falle, dass die Wertpapiere nach einem Kündigungsereignis fällig und zahlbar werden oder auf andere Weise vorzeitig zu einem Zeitpunkt zurückgezahlt werden, bei dem es sich nicht um einen Zinszahlungstag, an dem ein gesonderter Betrag für die aufgelaufenen Zinsen zu zahlen ist, handelt, zahlbar ist, unter Bezugnahme auf einen verkürzten Zeitraum ermittelt, der unmittelbar vor dem Datum, zu dem die Wertpapiere fällig und zahlbar oder planmäßig zurückgezahlt werden, endet.

Die sich entwickelnden Märkte für SONIA, SOFR und €STR und der mögliche Einfluss auf Wertentwicklung und Renditen

Der Markt entwickelt sich weiterhin in Bezug auf die Übernahme von SONIA, SOFR und €STR als Referenzsätze in den Kapitalmärkten jeweils für Anleihen in Pfund Sterling, US-Dollar oder Euro, und ihre Übernahme als Alternativen zu den relevanten Interbank Offered Rates. Zusätzlich erforschen Marktteilnehmer und maßgebliche Arbeitsgruppen alternative Referenzsätze auf der Grundlage risikofreier Zinssätze, so auch die Term SONIA, SOFR und €STR-Referenzsätze (die die zukunftsbezogene Erwartung des Marktes hinsichtlich eines durchschnittlichen SONIA-Satzes, eines SOFR- oder STR-Satzes über einen vorbezeichneten Zeitraum zu messen sucht).

Der Markt oder ein bedeutender Teil des Marktes kann sich für eine Anwendung risikofreier Zinssätze entscheiden, die sich signifikant von der in den Bedingungen beschriebenen Anwendung unterscheidet und in Bezug auf Wertpapiere verwendet wird, die auf diese risikofreien Zinssätze verweisen und im Rahmen dieses Basisprospekts ausgegeben wurden. Hinsichtlich SONIA, so enthalten die Bedingungen der Wertpapiere zwar eine Compounded Daily SONIA-Formel mit täglicher Aufzinsung, und es gab bisher eine Reihe von Kapitalmarktmissionen, die sich auf den Compounded Daily SONIA beziehen, hat die Bank of England am 3. August 2020 mit der Veröffentlichung des SONIA daily Compounded Index begonnen. Auch werden Term SONIA-Referenzsätze (die die zukunftsbezogene Erwartung des Marktes hinsichtlich eines durchschnittlichen SONIA-Satzes über einen festgelegten Zeitraum zu messen suchen) seit Januar 2021 veröffentlicht und sind zur Verwendung verfügbar geworden. Es ist möglich, dass Marktteilnehmer aufgezinste Sätze oder die Term-Sätze für Kapitalmarktmissionen anwenden wollen, obwohl die britischen Behörden des Vereinigten Königreichs deutlich gemacht haben, dass sie für den Markt einen breit angelegten Übergang zu SONIA Compounded für neue Transaktionen vorziehen würden, wobei die Verwendung eines Term SONIA-Referenzsatzes begrenzter ist, als die derzeitige Verwendung des LIBOR.

Die maßgebliche Emittentin kann zukünftig auch auf SONIA, SOFR, €STR oder andere risikofreie Sätze referenzierende Wertpapiere begeben, die sich hinsichtlich der Zinsfestsetzung wesentlich von vorhergehenden, auf SONIA, SOFR, €STR oder andere risikofreie Sätze referenzierenden Wertpapieren, die von ihr im Rahmen dieses Basisprospekts emittiert wurden, unterscheiden.

Die Entwicklung der neuen risikofreien Sätze könnte zu reduzierter Liquidität oder erhöhter Volatilität führen oder den Marktpreis von Wertpapieren, die auf einen risikofreien Satz Bezug nehmen und zu gegebener Zeit im Rahmen dieses Basisprospekts begeben wurden, auf andere Weise beeinträchtigen.

Die neuen risikofreien Sätze haben ggf. keinen etablierten Handelsmarkt, und es kann sein, dass sich ein solcher nie entwickelt oder nicht sehr liquide ist. Die Marktkonditionen für an die neuen risikofreien Sätze gebundene Wertpapiere können sich im Laufe der Zeit entwickeln und zu Auswirkungen auf die Handelspreise und Werte führen, und es kann sein, dass die Wertpapiere gar nicht oder nicht zu Preisen verkauft werden können, die zu einer Rendite führen, die mit der Rendite ähnlicher Anlagen, die einen Sekundärmarkt hervorgebracht haben, vergleichbar ist, und daher unter erhöhter Volatilität in der Preisbildung und Marktrisiken leiden.

In ähnlicher Weise kann sich die Art und Weise der Einführung oder Anwendung von risikofreien Sätzen in den Eurobond-Märkten wesentlich unterscheiden im Vergleich zur Anwendung und Einführung von risikofreien Sätzen in anderen Märkten wie beispielsweise den Derivate- und Kreditmärkten. Potenzielle Anleger sollten sorgfältig bedenken, wie sich eine mangelnde Kongruenz zwischen der Einführung solcher Referenzsätze auf den Anleihe-, Kredit- und Derivatemärkten jegliches Absicherungs- oder sonstige Finanzgeschäft, das sie ggf. im Zusammenhang mit dem Erwerb, dem Halten oder der Veräußerung von auf die risikofreien Zinssätze referenzierenden Wertpapieren umsetzen, auswirkt.

Zinsen auf auf einen Referenzsatz bezogene Wertpapiere werden bei Eintritt eines Referenzsatzereignisses unter Verwendung eines von der Berechnungsstelle ausgewählten Ersatz-Referenzsatzes berechnet

Eintritt eines Referenzsatzereignisses

Werden die Referenzsatzereignis-Bestimmungen in Bewertungs- und Abwicklungsbedingung 9 als anwendbar angegeben, besteht das Risiko, dass ein Referenzsatzereignis in Bezug auf einen Referenzsatz eintreten kann (einen Überblick über die Art und Weise der Anwendung von Referenzsatzereignis-

Bestimmungen gibt "Abschnitt C – Anlageüberlegungen – Anwendung von Fallback-Bestimmungen in Bezug auf Referenzsätze und Benchmarks" wie unten dargestellt).

Es ist ungewiss, ob oder wann ein Referenzsatzereignis hinsichtlich eines Referenzsatzes eintreten kann, und die Umstände, die ein solches Ereignis auslösen könnten, liegen außerhalb des Einflussbereichs der maßgeblichen Emittentin. Die Berechnungsstelle legt fest, ob ein Referenzsatzereignis eingetreten ist, und jegliche nachfolgende Nutzung eines Ersatz-Referenzsatzes führt wahrscheinlich zu (möglicherweise umfassenden) Änderungen der Wertpapierbedingungen und/oder zur Zahlung von Zinsen oder sonstigen Beträgen im Rahmen der Wertpapiere, die niedriger sind als die Zahlungen, die auf die betreffenden Wertpapiere geleistet worden wären, wenn der betreffende Referenzsatz weiterhin in seiner aktuellen Form verfügbar gewesen wäre, oder die im Laufe der Zeit nicht mit diesen Zahlungen korrelieren.

Vorbehaltlich der Wertpapierbedingungen trägt jeder Wertpapierinhaber die Risiken, die sich aus einer solchen Änderung ergeben, und hat infolge der Änderung keinen Anspruch auf Entschädigung gleich welcher Art.

Festlegung des alternativen Referenzwertes und des Anpassungsspread

Legt die Berechnungsstelle fest, dass ein Referenzsatzereignis hinsichtlich eines maßgeblichen Referenzsatzes eingetreten ist, wird sie

- (A) dafür sorgen, einen Ersatz-Referenzsatz zu identifizieren,
- (B) ggf. eine Anpassung des Ersatz-Referenzsatzes berechnen, die ihrer Ansicht nach erforderlich ist, um der Übertragung des wirtschaftlichen Wertes von (i) der maßgeblichen Emittentin auf die Wertpapierinhaber oder von (ii) den Wertpapierinhabern auf die maßgebliche Emittentin abzuschwächen, die in jedem der Fälle ansonsten infolge des Ersatzes des Referenzsatzes durch den Ersatz-Referenzsatz erfolgen würde (ein "**Anpassungsspread**");
- (C) andere Anpassungen der Wertpapiere festlegen, die sie für erforderlich und/oder angemessen hält, um den Auswirkungen der Ersetzung des maßgeblichen Referenzsatzes mit dem Ersatz-Referenzsatz (nach Anpassung durch den Anpassungsspread) Rechnung zu tragen; und
- (D) den Zeitpunkt bestimmen, zu dem der Ersatz-Referenzsatz, der Anpassungsspread und solche anderen Anpassungen in Bezug auf die maßgeblichen Wertpapieren in Kraft treten.

Anleger sollten sich darüber im Klaren sein, dass:

- (I) die Anwendung eines Ersatz-Referenzsatzes (unbeschadet der Einbeziehung eines Anpassungsspreads) zusammen mit daraus folgenden Änderungen (oder, falls zutreffend, alle Änderungen, die nach einer wesentlichen Änderung vorgenommen wurden) dazu führen könnte, dass ein niedrigerer Betrag zahlbar ist, als es andernfalls der Fall gewesen wäre;
- (II) es mehr als einen möglichen Ersatz-Referenzsatz geben kann, und es in diesem Fall möglich ist, dass die Berechnungsstelle den für Anleger ungünstigsten Ersatz-Referenzsatz auswählt. Im Falle von IBOR-gebundenen Swap-Sätzen gibt es derzeit keinen branchenweiten Ansatz für den Umgang mit dem Wegfall oder der Nichtrepräsentativität solcher Swap-Sätze, und es besteht kein vollständiger Konsens darüber, welcher Satz oder welche Sätze als Ersatzsätze akzeptiert werden. Es ist nicht möglich, die Auswirkungen einer solchen Ersetzung auf den Wert der Wertpapiere vorherzusagen. Darüber hinaus kann selbst in den Fällen, in denen die Verwalter neue, an risikofreie Sätze gebundene Swapsätze veröffentlicht haben, nicht garantiert werden, dass diese Sätze liquide sind oder als oder als Branchenstandard anerkannt werden, und die Methode, nach

Non-binding German translation
Unverbindliche deutsche Übersetzung

der diese neuen Swapsätze berechnet werden, sich in Zukunft ändern kann. Folglich können die Ergebnisse der Berechnungen durch die Berechnungsstelle unvorhersehbar sein, und die Ausübung des Ermessens der Berechnungsstelle kann sich nachteilig auf den Marktwert und die Rendite (falls vorhanden) der Wertpapiere auswirken;

- (III) jeder Ersatz-Referenzsatz (nach Anpassung durch einen Anpassungsspread) und jegliche daraus folgenden Änderungen (oder gegebenenfalls alle Änderungen, die nach einer wesentlichen Änderung vorgenommen wurden) auch ohne Zustimmung der Inhaber der Wertpapiere gelten; und
- (IV) wenn die Berechnungsstelle feststellt, dass es nicht möglich oder wirtschaftlich sinnvoll ist, die Auswirkungen eines Referenzsatzereignis zu berücksichtigen oder einen Ersatz-Referenzsatz zu identifizieren oder einen Anpassungsspread zu berechnen, können die Wertpapiere nach Wahl der maßgeblichen Emittentin Gegenstand einer vorzeitigen Rückzahlung sein, in welchem Fall die Anleger einen Teil ihrer Anlage oder ihre gesamte Anlage verlieren können. Es gibt keine Gewähr, dass ein Ersatz-Referenzsatz von der Berechnungsstelle identifiziert oder ein Anpassungsspread von ihr berechnet wird.

Der Anpassungsspread kann sich auf eine positive oder eine negative Zahl oder auf null belaufen und/oder gemäß einer Formel oder Methodik bestimmt werden. Es kann nicht garantiert werden, dass die Ersatzanpassung die Übertragung des wirtschaftlichen Wertes zwischen der maßgeblichen Emittentin und den Inhabern vollständig abschwächt, und die vorgeschlagenen Ersatzanpassungen sind nicht dazu bestimmt oder in der Lage, die in einem IBOR eingebettete dynamische Kreditrisikoprämie der Bank zu replizieren.

Zwischenanpassungen

Sofern der maßgebliche Referenzsatz nach einem Referenzsatzereignis, jedoch vor dem Eintritt einer Anpassung oder Ersetzung für eine Festlegung im Hinblick auf die Wertpapiere benötigt wird und zu diesem Zeitpunkt keine Änderungen in Übereinstimmung mit Vorstehendem eingetreten sind und:

- (A) sofern der Referenzsatz noch immer verfügbar ist und es für die Wertpapiere nach den anwendbaren Gesetzen und Vorschriften immer noch zulässig ist, auf den Referenzsatz zu referenzieren und für die Emittentin den Referenzsatz zu verwenden, bestimmt sich die Höhe des Referenzsatzes nach Maßgabe der Bedingungen, die für die Festlegung des Referenzsatzes gelten würden, wäre kein Referenzsatzereignis eingetreten, oder
- (B) sofern der Referenzsatz nicht mehr verfügbar ist oder es für die Wertpapiere nach den anwendbaren Gesetzen und Vorschriften nicht mehr zulässig ist, auf den Referenzsatz zu referenzieren oder für die Emittentin den Referenzsatz zu verwenden, bestimmt die Berechnungsstelle die Höhe des Referenzsatzes nach ihrem eigenen Ermessen und nach Beratung mit einer von ihr als angemessen erachteten Quelle als (a) einen Ersatz- oder Nachfolgesatz, bei dem sie festgestellt hat, dass es sich bei ihm um den in der Branche (im Derivatemarkt) anerkannten Ersatz- oder Nachfolgesatz für den maßgeblichen Referenzsatz handelt (einschließlich eines vorübergehenden Ersatz- oder Nachfolgesatzes) oder der Satz, der zum maßgeblichen Zeitpunkt am letzten Tag, an dem der Referenzsatz veröffentlicht wurde oder gemäß den anwendbaren Gesetzen oder Vorschriften verwendet werden durfte (der "**Letzte Zulässige Satz**"), oder (b) sofern sie feststellt, dass kein in der Branche (im Derivatemarkt) anerkannter Ersatz- oder Nachfolgesatz existiert oder die Verwendung des Letzten Zulässigen Satzes nicht wirtschaftlich sinnvoll wäre, als einen Ersatz- oder Nachfolgesatz, der nach ihrer Feststellung eine wirtschaftlich sinnvolle Alternative zum Referenzsatz darstellt, wobei sie die

vorherrschenden Branchenstandards in jedem verbundenen Markt (so unter anderem auch im Derivatemarkt) berücksichtigt.

Insoweit, als die Wertpapiere auf einen Referenzsatz referenzieren, für den der Eintritt eines Referenzsatzereignisses während der Laufzeit der Wertpapiere wahrscheinlich ist, sollten potenzielle Investoren sich darüber bewusst sein, dass die Folgen des Eintritts des vorstehend beschriebenen Referenzsatzereignisses Wirklichkeit werden, wenn ein solches Referenzsatzereignis eintritt.

Die Interessen der Berechnungsstelle bei Vornahme der vorstehend beschriebenen Festlegungen könnten den Interessen der Anleger als Inhaber der Wertpapiere zuwiderlaufen. Die Auswahl eines Ersatz-Referenzsatzes und sämtliche Entscheidungen der Berechnungsstelle in Verbindung mit der Einführung eines Ersatz-Referenzsatzes in Bezug auf die Wertpapiere könnten den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen. Darüber hinaus gibt es keine Gewähr, dass die Eigenschaften eines Ersatz-Referenzsatzes dem maßgeblichen Referenzsatz ähnlich sind oder dass ein Ersatz-Referenzsatz den wirtschaftlichen Gegenwert des Referenzsatzes erzeugen wird. Insbesondere kann jede dieser Fallback-Bestimmungen zu Zinszahlungen führen, die niedriger sind als die Zahlungen, die auf die betreffenden Wertpapiere geleistet worden wären, wenn der vorherige Satz weiterhin in seiner aktuellen Form veröffentlicht worden wäre, oder die im Laufe der Zeit nicht mit diesen Zahlungen korrelieren.

Zinsen auf auf USD LIBOR bezogene Wertpapiere werden bei Eintritt eines Benchmark-Übergangereignisses unter Verwendung eines von der Berechnungsstelle ausgewählten Benchmark-Ersatzes berechnet

USD LIBOR kann durch einen Ersatz- oder Nachfolgesatz ersetzt werden

Sofern gemäß Bewertungs- und Abwicklungsbedingung 9 USD LIBOR-Fallback-Bestimmungen anwendbar sind, und sofern die Berechnungsstelle feststellt, dass in Bezug auf USD LIBOR ein Benchmark-Übergangereignis und der damit verbundene Benchmark-Ersetzungsstichtag eingetreten sind, wird von der Berechnungsstelle ein Benchmark-Ersatz festgelegt und für alle Zwecke der Wertpapiere wird USD LIBOR gegen den Benchmark-Ersatz ausgetauscht (siehe "*Abschnitt C – Anlageüberlegungen – Anwendung von Fallback-Bestimmungen in Bezug auf Referenzsätze und Benchmarks*"). Eine solche Festlegung und damit verbundene Entscheidungen, Feststellungen oder Auswahlen der Berechnungsstelle im Zusammenhang mit der Einführung eines Benchmark-Ersatzes in Bezug auf die Wertpapiere könnte zu nachteiligen Folgen für den betreffenden Zinssatz führen und damit die Rendite und den Wert der Wertpapiere und den Markt für die Wertpapiere beeinträchtigen.

Der Eintritt eines Benchmark-Übergangereignisses und die mögliche Heranziehung von SOFR zur Festlegung des Zinssatzes können die Rendite und den Marktwert der Wertpapiere beeinträchtigen

Nach Maßgabe der Bedingung 7 des Bewertungs- und Abwicklungsanhangs wird, sofern die Berechnungsstelle feststellt, dass ein Benchmark-Übergangereignis und der damit verbundene Benchmark-Ersetzungsstichtag in Bezug auf USD LIBOR eingetreten sind, ein alternativer, auf SOFR basierender Satz (sofern er bestimmt werden kann und unter der Annahme, dass keine interpolierte Benchmark verfügbar ist) für alle Zwecke der Wertpapiere als Ersatz für USD LIBOR verwendet (es sei denn, auch in Bezug auf die auf SOFR bezogenen Benchmark-Ersatzlösungen tritt ein Benchmark-Übergangereignis ein, in welchem Fall der als nächstes verfügbare Benchmark-Ersatz verwendet wird). In der folgenden Erörterung von SOFR bezeichnet "auf SOFR bezogene Wertpapiere" Wertpapiere zu jedem beliebigen Zeitpunkt, zu dem der anwendbare Benchmark-Ersatz auf SOFR basiert.

SOFR unterscheidet sich grundsätzlich von USD LIBOR und ist möglicherweise kein vergleichbarer Ersatz

Die NY Federal Reserve begann im April 2018 mit der Veröffentlichung des SOFR und im März 2020 mit der Veröffentlichung von SOFR-Durchschnittswerten (ein "SOFR-Index"). Der Term SOFR wird von der CME Group bereitgestellt und wurde offiziell von der ARRC im Juli 2021 zur Verwendung in bestimmten Bereichen empfohlen, insbesondere dort, wo sich die Verwendung von Overnight-SOFR oder SOFR-Durchschnittswerten als schwierig erwiesen hat. Der SOFR soll eine breite Messgröße für die Kosten der Aufnahme von Bargeld über Nacht sein, das durch US-Schatzpapiere besichert ist. Laut der NY Federal Reserve umfasst der SOFR alle Geschäfte der sogenannten "Broad General Collateral Rate" sowie von bilateralen Repo-Transaktionen ("**Repo**") von US-Schatzpapieren, die über den sogenannten "Delivery-versus-Payment-Service" der Fixed Income Clearing Corporation (die "**FICC**"), einer Tochtergesellschaft der Depository Trust & Clearing Corporation ("**DTCC**"), abgewickelt werden. SOFR wird von der NY Federal Reserve insoweit gefiltert, dass ein Teil der vorhergehenden Transaktionen, die als "Sonderfälle" gelten, entfernt werden. Nach Angaben der NY Federal Reserve gelten Repo-Transaktionen für spezielle Sicherheiten, die zu Geldverleihsätzen stattfinden, die geringer sind als die Sätze, die normalerweise für Sicherheiten-Repos verwendet werden, als "Sonderfälle", da die Geldgeber in diesen Fällen bereit sind, eine geringere Rendite für ihr Geld zu akzeptieren, um eine bestimmte Sicherheit zu erhalten. Die NY Federal Reserve berichtet, dass der SOFR als volumengewichteter Mittelwert von Daten aus Repo-Geschäften, an denen drei Parteien beteiligt sind, berechnet wird. Diese Daten werden von der Bank of New York Mellon erhoben, die derzeit als Clearing-Bank für den Drei-Parteien-Repo-Markt fungiert, und ergeben sich aus Transaktionsdaten für allgemeine besicherte Repo-Geschäfte und für bilaterale Repo-Geschäfte von US-Schatzpapieren, die über den "Delivery-versus-Payment-Service" der FICC abgewickelt werden. Laut der NY Federal Reserve stammen die Daten von DTCC Solutions LLC, einer Tochtergesellschaft der DTCC.

Der SOFR unterscheidet sich grundlegend von LIBOR. Beispielsweise ist der SOFR ein besicherter Overnight-Satz, während der USD LIBOR ein unbesicherter Satz ist, der die Interbankenfinanzierung über verschiedene Laufzeiten darstellt. Da der SOFR ein transaktionsbasierter Satz ist, ist er außerdem rückwärtsgerichtet, während der USD LIBOR zukunftsgerichtet ist. Aufgrund dieser und anderer Unterschiede gibt es keine Gewähr, dass sich der SOFR zu jedem Zeitpunkt genauso verhält wie der USD LIBOR, und es gibt keine Garantie, dass er ein vergleichbarer Ersatz für den USD LIBOR ist.

Weiterhin weist die NY Federal Reserve auf ihrer Veröffentlichungsseite für SOFR darauf hin, dass die Verwendung von SOFR bedeutenden Beschränkungen, Freistellungsverpflichtungen sowie Haftungsausschlüssen unterliegt, einschließlich der Befugnis der NY Federal Reserve, jederzeit ohne Mitteilung Änderungen der Berechnungsmethoden, Veröffentlichungstermine, Verfahren zur Überarbeitung von Referenzsätzen oder der Verfügbarkeit des SOFR vorzunehmen. Es gibt keine Garantie dafür, dass SOFR nicht eingestellt oder in einer Weise grundlegend geändert wird, die für Inhaber von auf SOFR bezogene Wertpapiere wesentlich nachteilig ist. Wird die Art der Berechnung des SOFR geändert oder SOFR eingestellt, kann diese Änderung oder Einstellung die Rendite und den Wert der betreffenden Wertpapiere beeinträchtigen.

Kein Verlassen auf historische Daten

Obwohl die NY Federal Reserve außerdem historische Angaben zum SOFR, zurückreichend bis 2014, veröffentlicht hat, beinhalten diese vorveröffentlichten historischen Daten naturgemäß Annahmen, Schätzungen und Annäherungen. Anleger sollten sich nicht auf historische Veränderungen oder Tendenzen hinsichtlich des SOFR als Gradmesser für die zukünftige Entwicklung des SOFR verlassen. Seit der ersten Veröffentlichung des SOFR waren tägliche Veränderungen dieses Satzes gelegentlich

volatiler als tägliche Veränderungen von vergleichbaren Referenzwerten oder Marktsätzen. Dadurch kann die Rendite und der Wert von auf SOFR bezogenen Wertpapieren stärker schwanken als bei variabel verzinslichen Wertpapieren, die sich auf weniger volatile Sätze beziehen.

Die Berechnungsstelle kann Feststellungen oder Auswahlen treffen, die die Rendite und den Wert der auf USD LIBOR bezogenen Wertpapiere und den Markt für diese Wertpapiere beeinträchtigen könnten

Stellt die Berechnungsstelle fest, dass ein Benchmark-Übergangereignis und der damit verbundene Benchmark-Ersetzungsstichtag in Bezug auf USD LIBOR eingetreten sind, kann sie bestimmte Festsetzungen, Entscheidungen und Auswahlen in Bezug auf den Zinssatz für solche Wertpapiere treffen. Jede dieser Festsetzungen, Entscheidungen und Auswahlen könnte die Höhe der auf diese Wertpapiere zahlbaren Zinsen beeinträchtigen. Stellt die Berechnungsstelle zum Beispiel fest, dass ein Benchmark-Übergangereignis und der damit verbundene Benchmark-Ersetzungsstichtag eingetreten sind, so legt sie unter anderem die dem Benchmark-Ersatz Entsprechende Änderungen fest. Jegliche Ermessensausübung durch die Berechnungsstelle im Rahmen der Wertpapierbedingungen könnte einen Interessenkonflikt darstellen. Bei ihren Festsetzungen, Entscheidungen und Auswahlen kann die Berechnungsstelle wirtschaftliche Interessen verfolgen, die den Interessen der Inhaber der Wertpapiere zuwiderlaufen, und die Festsetzungen, Entscheidungen und Auswahlen könnten die Rendite und den Wert der Wertpapiere und den Markt für die Wertpapiere wesentlich beeinträchtigen. Alle Festsetzungen, Entscheidungen oder Auswahlen der Berechnungsstelle gemäß den Benchmark-Übergangbestimmungen sind, außer bei Vorliegen eines offensichtlichen Fehlers, abschließend und verbindlich, erfolgen nach alleinigem Ermessen der Berechnungsstelle und treten ohne Zustimmung der Wertpapierinhaber oder einer anderen Partei in Kraft.

Zwischenanpassungen

Sofern die USD-Benchmark nach einem Benchmark-Übergangereignis, jedoch vor Eintritt einer Anpassung oder Ersetzung für eine Festlegung im Hinblick auf die Wertpapiere benötigt wird und zu diesem Zeitpunkt noch kein Benchmark-Ersatz und keine Anpassung des Benchmark-Ersatzes festgelegt worden sind und die dem Benchmark-Ersatz Entsprechende Änderungen noch nicht durchgeführt wurden und:

- (A) die USD-Benchmark noch immer verfügbar ist und es für die Wertpapiere nach den anwendbaren Gesetzen und Vorschriften immer noch zulässig ist die USD-Benchmark zu referenzieren und für die Emittentin und/oder die Berechnungsstelle die USD-Benchmark zu verwenden, bestimmt sich die Höhe der USD-Benchmark nach Maßgabe der Bedingungen, die für die Festlegung der USD-Benchmark gelten würden, wäre kein Benchmark-Übergangereignis eingetreten; oder
- (B) ist die USD-Benchmark nicht mehr verfügbar oder ist es für die Wertpapiere nach den anwendbaren Gesetzen und Vorschriften nicht mehr zulässig, auf die USD-Benchmark zu referenzieren oder für die Emittentin und/oder die Berechnungsstelle die USD-Benchmark zu verwenden, bestimmt die Berechnungsstelle die Höhe der USD-Benchmark nach ihrem Ermessen und nach Beratung mit einer von ihr als angemessen erachteten Quelle als (a) einen Ersatz- oder Nachfolgesatz, bei dem sie festgestellt hat, dass es sich bei ihm um den in der Branche (im Derivatemarkt) anerkannten Ersatz- oder Nachfolgesatz für USD LIBOR mit der maßgeblichen Laufzeit handelt, oder (b) sofern sie feststellt, dass kein in der Branche (im Derivatemarkt) anerkannter Ersatz- oder Nachfolgesatz existiert, als einen Ersatz- oder Nachfolgesatz, bei dem sie feststellt, dass er eine wirtschaftlich sinnvolle Alternative zur USD-Benchmark darstellt, wobei sie die vorherrschenden Branchenstandards in jedem verbundenen Markt (einschließlich des Derivatemarkts) berücksichtigt.

Insoweit, als die Wertpapiere auf eine USD-Benchmark referenzieren, für die der Eintritt eines Benchmark-Übergangsereignisses während der Laufzeit der Wertpapiere wahrscheinlich ist, sollten potenzielle Investoren sich darüber bewusst sein, dass die Folgen des Eintritts des vorstehend beschriebenen Benchmark-Übergangsereignisses Wirklichkeit werden, wenn ein solches Benchmark-Übergangsereignis eintritt, und die Bewertungs- und Abwicklungsbedingung 9 angibt, dass USD LIBOR-Fallback-Bestimmungen anwendbar sind.

Die Interessen der Berechnungsstelle bei Vornahme der vorstehend beschriebenen Festlegungen könnten den Interessen der Anleger als Inhaber der Wertpapiere zuwiderlaufen. Die Auswahl eines Benchmark-Ersatzes und sämtliche Entscheidungen der Berechnungsstelle in Verbindung mit der Einführung eines Benchmark-Ersatzes in Bezug auf die Wertpapiere könnten den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen. Darüber hinaus gibt es keine Gewähr, dass die Eigenschaften eines Benchmark-Ersatzes der maßgeblichen USD-Benchmark ähnlich sind oder dass ein Benchmark-Ersatz den wirtschaftlichen Gegenwert der USD-Benchmark erzeugen wird. Risiken im Zusammenhang mit dem Eintritt eines Administrator/Benchmark-Ereignisses

Der Eintritt eines Administrator/Benchmark-Ereignisses (falls zutreffend) in Bezug auf eine maßgebliche Benchmark kann bedeuten, dass Anpassungen der Wertpapiere vorgenommen werden, zu denen auch die Auswahl einer oder mehrerer Nachfolge-Benchmarks und die Vornahme diesbezüglicher Anpassungen der Wertpapiere gehören, auch, soweit zutreffend, um erhöhte Kosten der maßgeblichen Emittentin, die das Exposure zu dem bzw. den Ersatz- oder Nachfolge-Zinssatz/Zinssätzen und/oder der bzw. den Benchmark(s) gewährt, abzubilden. Alternativ könnten die Wertpapiere Gegenstand der vorzeitigen Rückzahlung werden. Einen Überblick über die Art und Weise der Anwendung der Bestimmungen für das Administrator/Benchmark-Ereignis gibt im Folgenden "*Abschnitt C – Anlageüberlegungen – Anwendung von Fallback-Bestimmungen in Bezug auf Referenzsätze und Benchmarks*". Eine solche Anpassung kann die Rendite und den Wert der Wertpapiere sowie den Markt für die Wertpapiere beeinträchtigen, und werden die Wertpapiere vorzeitig zurückgezahlt, könnte der den Anlegern zurückgezahlte Betrag wesentlich niedriger sein als ihre ursprüngliche Anlage, und die Anleger könnten daher einen Verlust erleiden.

Risiken in Bezug auf die Einstellung oder Nichtverfügbarkeit eines Zinssatzes

Sofern (x) die Bestimmungen des Basiswert-Anhangs 10 in Bezug auf die Festlegung des Schlusstands des Basiswerts eines Zinssatzes an einem beliebigen Planmäßigen Handelstag im Falle des Eintritts eines beliebigen Störungstags und (y) die in den Wertpapierbedingungen dargelegten Bestimmungen in Bezug auf die Folgen eines solchen Störungstags gemäß Bewertungs- und Abwicklungsbedingung 9 anwendbar sind, sofern (i) die maßgebliche Elektronische Seite nicht verfügbar ist, oder (ii) der Prozentsatz des maßgeblichen Zinssatzes für den maßgeblichen Planmäßigen Handelstag nicht auf der Elektronischen Seite erscheint und/oder (iii) der maßgebliche Zinssatz von dem maßgeblichen Verwalter oder einer maßgeblichen autorisierten Vertriebsstelle nicht bereitgestellt oder veröffentlicht wird und/oder (iv) ein Bestandteil des maßgeblichen Zinssatzes nicht bereitgestellt oder veröffentlicht wird, bestimmt die Berechnungsstelle den Schlusstand des Basiswerts für den betreffenden Zinssatz, den sie für angemessen hält und der in gutem Glauben und in wirtschaftlich sinnvoller Weise unter Berücksichtigung der Quellen, die sie für geeignet hält und jeder alternativen verfügbaren Benchmark, wobei sie die vorherrschenden Branchenstandards in jedem verbundenen Markt (so unter anderem auch im Derivatemarkt) berücksichtigt, und Anpassungen an den Wertpapierbedingungen vornehmen, die sie für

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

erforderlich oder angemessen hält, um in der Branche akzeptierte Gepflogenheiten für den Nachfolgezinssatz abzubilden, einschließlich durch Anwendung eines Anpassungsfaktors. Jede dieser Anpassungen kann dazu führen, dass die Zahlungen im Rahmen der Wertpapiere von den ursprünglich erwarteten abweichen, und den Wert und die Rendite der Wertpapiere wesentlich beeinträchtigen.

Swap-Sätze können wesentlich geändert oder abgeschafft werden

Generell können die Swap-Sätze (wie unten definiert) in der Zukunft reformiert werden. Diese Reformen können dazu führen, dass ein oder mehrere Swap-Sätze eingestellt, modifiziert oder anderen Änderungen unterworfen werden. Jede derartige Konsequenz könnte sich auch wesentlich nachteilig auf den Wert und die Rendite von Wertpapieren auswirken, deren Auszahlung von der Entwicklung eines solchen Swap-Satzes abhängt.

Der EURIBOR, GBP LIBOR, USD LIBOR und andere "IBORs" sowie bestimmte risikofreie Zinssätze werden jeweils als variable Teilposition bei der Berechnung von bestimmten Swap-Sätzen (jeweils ein "**Swap-Satz**" und gemeinsam die "**Swap-Sätze**") herangezogen. Sofern die Berechnungsmethodologien in Bezug auf den EURIBOR, GBP LIBOR, USD LIBOR und andere "IBORs" reformiert werden, könnte dies folglich eine wesentliche Auswirkung auf die Berechnung des jeweiligen Swap-Satzes haben. Soweit darüber hinaus der EURIBOR, GBP LIBOR, USD LIBOR und/oder andere relevante "IBORs" eingestellt werden (wie oben beschrieben), wäre es gegebenenfalls unmöglich den jeweiligen Swap-Satz zu berechnen und andere Fallback-Bestimmungen würden ausgehend von den Fallback-Bestimmungen, die in den Bewertungs- und Abwicklungsbedingungen 9 beschrieben sind, Anwendung finden. Diese Fallback-Bestimmungen werden in der darin festgelegten Reihenfolge angewandt. Dies bedeutet, dass im Anwendungsbereich der ISDA-Festsetzungen, jegliche permanente Beendigungs-Fallback-Bestimmungen, die Teil der anwendbaren ISDA-Festsetzungen sind, keine Anwendung finden. In diesem Zusammenhang ist es erwähnenswert, dass die IBA unmittelbar nach der Bekanntmachung am 31. Dezember 2021, die Veröffentlichung des GBP LIBOR ICE Swap-Satzes für alle Laufzeiten eingestellt hat und erwartet zu gegebener Zeit bezüglich der potenziellen Beendigung des USD LIBOR ICE Swap-Satzes eine Konsultation durchzuführen. Die Veröffentlichung des Tokio Swap-Satzes (wie auf der Eikon-Seite <17143> und anderen RICs dargestellt), wurde nach der Veröffentlichung am 30. Dezember unmittelbar eingestellt.

Fortschritte bezüglich der Ermittlung von zur Anwendung geeigneter Fallbacks in Anlehnung an die Einstellung oder die Nicht-Repräsentativität von Swap-Sätzen, betreffend EURIBOR, GBP LIBOR, USD LIBOR und/oder andere relevante "IBORs", sind nicht in allen Währungen im gleichen Maß aufgetreten. Beispielsweise hat die ISDA am 23. Juli 2021 die Ergebnisse ihrer Abstimmung bezüglich Fallbacks für den GBP LIBOR ICE Swap-Satz und den USD LIBOR ICE Swap-Satz bekanntgegeben (die "**ISDA Abstimmung**"). Die Ergebnisse indizierten, dass eine signifikante Mehrheit der Befragten mit den Fallback Bestimmungen in den der ISDA Abstimmung beigefügten Änderungsentwürfen zustimmen, welche die Fallback Bestimmungen, die von der Non-Linear Task Force ("**NLTF**"), der "*Working Group on Sterling Risk-Free Reference Rates*" im Vereinigten Königreich und einem Unterausschuss des ARRC in den USA, empfohlen wurden. Die Fallbacks beziehen sich zunächst auf einen veröffentlichten ‚all-in‘ Ausweichsatz, der, in Übereinstimmung mit der Methodologie die von NLTF oder ARRC (sofern anwendbar) empfohlen wird, berechnet wird oder, wenn eine solche veröffentlichte Fallback Rate nicht erreichbar ist, mittels der Berechnungsstelle in Übereinstimmung mit der anwendbaren Methodologie berechnet wird. Im Gegensatz dazu veröffentlichte Refinitiv am 19. April 2021 ihre Konsultation, mit dem Aufruf zu Feedback bezüglich der Einführung eines neues TONA basierten total return swaps und der Gestaltung eines Ausweichsatzes für die Verwendung in Swap-Satz Produkten, die sich aktuell auf den JPY LIBOR beziehen. Entsprechend der Ergebnisse der Konsultation, veröffentlichte Refinitiv im Oktober 2021 im Anschluss an eine Prototypenphase, einen TONA basierten

Tokio Swap-Satz ("TSR") sowie die Tokio Swap-Satz Fallback Einstellungen, die sich an Nutzer des Tokio Swap-Satzes richten, die bereits JPY LIBOR TSR Verträge haben und nach dem Jahr 2021 fällig werden. ISDA hat in Bezug auf diese Fallbacks bereits Überarbeitungen der 2006 ISDA Definitionen und der 2021 ISDA Definitionen vorbereitet.

Selbst dort, wo Fortschritte bezüglich der Ermittlung geeigneter Ersatzregelungen erzielt wurden und Administratoren neue, mit risikofreien Zinssätzen verbundene Swap-Sätze veröffentlicht haben, wie beispielsweise den GBP SONIA ICE Swap-Satz, eingeführt durch die IBA am 14. Dezember 2020, besteht keine Garantie, dass diese Zinssätze liquide sein werden und die Methode, nach der diese neuen Swap-Sätze berechnet werden, in der Zukunft keine Änderung erfahren wird. Daher können die Folgen der Bestimmungen der Emittentin und/oder der Berechnungsstelle im Falle des Eintritts eines Referenzsatzereignisses in Bezug auf einen relevanten Swap-Satz unvorhersehbar sein und die Ermessensausübung durch die Emittentin oder die Berechnungsstelle kann den Marktwert und die Rendite (falls vorhanden) der Wertpapiere beeinflussen. Darüber hinaus gibt es keine Sicherheit dahingehend, dass die Eigenschaften eines jeden Ersatzreferenzsatzes denen des jeweiligen Swap-Satzes entsprechen oder, dass der Ersatzreferenzsatz ein zum jeweiligen Swap-Satz wirtschaftliches Äquivalent darstellen wird.

In jedem Fall kann vor dem Eintritt der Beendigung oder der Nicht-Repräsentativität, in Bezug auf den relevanten Swap-Satz, das Eintreten eines Referenzsatzereignisses in Bezug auf den relevanten Swap-Satz, den Marktteilnehmer davon abhalten, Beiträge zu den Basisinstrumenten, wie beispielsweise Swaps mit fixer Laufzeit, zu leisten auf die ein solcher Swap-Satz bestimmt wird. Folglich kann die Liquidität dieser Instrumente uneinheitlich, begrenzt oder vollständig ausgeschlossen sein. Dies kann häufiger der Fall sein, je näher der Zeitpunkt der tatsächlichen Beendigung oder der Nicht-Repräsentativität rückt. Insbesondere kann dies auftreten, wenn die Emittentin und/oder die Berechnungsstelle verpflichtet ist, einen solchen Zinssatz für die Wertpapiere festzulegen, was sich nachteilig auf den Marktwert und die Rendite (falls vorhanden) der Wertpapiere auswirken kann.

Die Berechnungsstelle kann Folgeänderungen an den Bedingungen der Wertpapiere vornehmen, wenn die Methodologie eines relevanten Zinssatzes geändert wird.

Für den Fall, dass der Administrator eines Zinssatzes, auf den sich die Variabel Verzinslichen Wertpapiere oder die auf Zinssätze Bezogene Wertpapiere beziehen, die Methodologie dieses Zinssatzes ändert (einschließlich, aber nicht beschränkt auf Änderungen des Zeitpunkts der Veröffentlichung des betreffenden Zinssatzes), kann die Berechnungsstelle, ohne hierzu verpflichtet zu sein, damit zusammenhängende oder sich daraus ergebende Änderungen an den Bedingungen der Wertpapiere vornehmen, sofern dies nicht anderweitig in den Bestimmungen für Referenzzinsereignisse, Administrator/Benchmark-Ereignis, den Bestimmungen zum Basiszinssatz-Fallback Fallback-Bestimmungen, SRD Fallback-Bestimmungen, ISDA Festsetzungen, SONIA Fallback-Bestimmungen oder SOFR Fallback Bestimmungen (einschließlich, aber nicht beschränkt auf alle technischen, administrativen oder operativen Änderungen, Änderungen des Zeitpunkts und der Häufigkeit der Festsetzung von Zinssätzen und Zinszahlungen sowie Änderungen der Definition des Begriffs "Festgelegte Fälligkeit" (sofern anwendbar)), die die Berechnungsstelle in einer Weise für angemessen hält, die im Wesentlichen der Marktpraxis entspricht (oder, falls die Berechnungsstelle entscheidet, dass die Übernahme eines Teils der Marktpraxis verwaltungstechnisch nicht durchführbar ist, oder falls die Berechnungsstelle feststellt, dass es keine angemessene Marktpraxis gibt, die die Berechnungsstelle nach billigem Ermessen für erforderlich hält). Investoren/Anleger sollten sich bewusst sein, dass solche Änderungen der Bedingungen der Wertpapiere den Marktwert und die Rendite (falls vorhanden) dieser Wertpapiere beeinträchtigen können.

Risiken im Zusammenhang mit "Shift"- und "Lag"-Methoden

Sofern Feststellung Variabler SONIA-Satz (Nicht-Index-Feststellung) oder Feststellung Variabler SOFR-Satz in den anwendbaren Endgültigen Bedingungen als die Art der Festsetzung des Zinssatzes angegeben ist und in Bezug auf die Feststellung Variabler SOFR-Satz ist die Index-Feststellung in den anwendbaren Endgültigen Bedingungen als nicht anwendbar festgelegt, wird entweder "Shift" oder "Lag" als anwendbar angegeben. "Shift" und "Lag" haben sich als Konventionen für die tägliche Zinsberechnung von nachträglich festgesetzten Sätzen herausgebildet. Die Konventionen unterscheiden sich in dem Zeitraum, den jede Methode bei der Gewichtung des Übernacht-Satzes eines jeden Geschäftstages für den jeweiligen risikofreien Satz verwendet. Der "Shift"-Ansatz gewichtet den betreffenden risikofreien Satz entsprechend der jeweiligen Anzahl von Tagen, die in einem separaten Beobachtungszeitraum gelten, der die Zinsperiode nachbildet (beispielsweise kann der Beobachtungszeitraum fünf Geschäftstage vor dem jeweiligen Beginn und Ende der Zinsperiode beginnen und enden). Der "Lag"-Ansatz gewichtet den betreffenden risikofreien Satz nach der Anzahl von Tagen, die in der maßgeblichen Zinsperiode gelten. Anleger sollten sich darüber bewusst sein, dass die Abweichung zwischen der "Shift"- und der "Lag"-Methode zu unterschiedlichen Zinsfestlegungen führen kann, selbst wenn der betreffende risikofreie Satz für die Wertpapiere derselbe ist, die möglicherweise nicht den Erwartungen der Anleger entsprechen.

Methoden zur Festlegung der auf auf SONIA oder SOFR bezogene Wertpapiere zahlbaren Zinsen können sich wesentlich unterscheiden

Die Höhe der auf auf SONIA oder SOFR bezogene Wertpapiere zahlbare Zinsen wird berechnet unter Bezugnahme auf (i) die Rendite einer täglich aufgezinnten verzinslichen Anlage (mit dem täglichen SONIA oder SOFR, je nach Sachlage, als Referenzsatz für die Zinsberechnung); oder (ii) soweit Feststellung Variabler SONIA-Satz (Index-Feststellung) oder Index-Feststellung in Bezug auf Feststellung Variabler SOFR-Satz anwendbar ist, ein Bildschirmsatz, eine Bildschirmformel oder ein Bildschirmwert, der vom Administrator von SONIA oder SOFR, je nach Sachlage, bereitgestellt wird. Es gibt keine Gewähr, dass die Zinsbeträge, die nach Maßgabe von (i) und (ii) festgelegt werden, sich ähneln, und im Zeitverlauf kann sich der Markt für eine Anwendung dieser Methoden entscheiden, die sich signifikant von der in den Wertpapierbedingungen beschriebenen Anwendung unterscheidet. Weiterhin sollten Anleger obigen Text unter "*Die sich entwickelnden Märkte für SONIA, SOFR und €STR und der mögliche Einfluss auf Wertentwicklung und Renditen*" lesen, der eine Beschreibung der wesentlichen Risiken enthält, die im Zusammenhang mit der Entwicklung risikofreier Sätze im gesamten Markt ganz allgemein stehen.

Risiken im Zusammenhang mit bestimmten Arten von Wertpapieren und bestimmten Produkteigenschaften

Risiken im Zusammenhang mit Festverzinslichen Wertpapieren

Anlagen in Festverzinsliche Wertpapiere beinhalten das Risiko, dass bei einem anschließenden Anstieg der Marktzinssätze über den für die Festverzinslichen Wertpapiere gezahlten Satz der Wert der Festverzinslichen Wertpapiere beeinträchtigt wird.

Risiken im Zusammenhang mit Festverzinslichen/Variabel Verzinslichen Wertpapieren

Festverzinsliche/Variabel Verzinsliche Wertpapiere sind unter Umständen zu einem Zinssatz verzinst, der von einem festen in einen variablen Zinssatz oder von einem variablen in einen festen Zinssatz wechselt. Hat die maßgebliche Emittentin das Recht, einen entsprechenden Wechsel vorzunehmen, hat dies Auswirkungen auf den Sekundärmarkt und den Marktwert der Wertpapiere, da davon ausgegangen wird,

Unverbindliche deutsche Übersetzung

dass die maßgebliche Emittentin den Zinssatz dann wechselt, wenn insgesamt niedrigere Fremdkapitalkosten für die maßgebliche Emittentin zu erwarten sind. Wechselt die maßgebliche Emittentin unter diesen Umständen von einem festen Zinssatz zu einem variablen Zinssatz, kann der Aufschlag auf die Festverzinslichen/Variabel Verzinslichen Wertpapiere ungünstiger ausfallen als die zum gegebenen Zeitpunkt bestehenden Aufschläge auf vergleichbare, auf denselben Referenzsatz bezogene Variabel Verzinsliche Wertpapiere. Zudem kann der neue variable Zinssatz zu einem beliebigen Zeitpunkt niedriger sein als die Zinssätze anderer von der maßgeblichen Emittentin ausgegebener variabel verzinslicher Wertpapiere. Wechselt die maßgebliche Emittentin unter diesen Umständen von einem variablen Zinssatz zu einem festen Zinssatz, kann der feste Zinssatz unter den zum gegebenen Zeitpunkt vorhandenen Marktsätzen liegen.

Zwingende vorzeitige Rückzahlung oder "Autocall"

Wird die "Zwingende Vorzeitige Rückzahlung" in den maßgeblichen Endgültigen Bedingungen als anwendbar festgelegt, geben die Endgültigen Bedingungen an, wobei es sich um ein "ZVR-Barrierereignis" (oder "Exit-Barrierereignis") handelt, und die Wertpapiere werden nach Eintritt eines ZVR-Barrierereignisses (oder Exit-Barrierereignisses) am relevanten ZVR-Tag vorzeitig zurückgezahlt, und der in den maßgeblichen Endgültigen Bedingungen angegebene ZVR-Betrag (oder Exit-Betrag) wird zahlbar, und nach dem ZVR-Tag sind keine weiteren Beträge in Bezug auf diese Wertpapiere zahlbar. In diesem Fall unterliegen die Anleger einem Wiederanlagerisiko, da sie gegebenenfalls nicht in der Lage sind, ihre Anlage in diese Wertpapiere durch eine Anlage mit einem ähnlichen Chancen- und Risikoprofil wie die betreffenden Wertpapiere zu ersetzen.

Werden Wertpapiere nach Maßgabe des Vorstehenden vorzeitig zurückgezahlt, ist der Betrag, den die betreffenden Inhaber erhalten, auf den ZVR-Betrag (oder Exit-Betrag) beschränkt, ungeachtet des Preises des betreffenden Basiswerts bzw. der betreffenden Basiswerte oder eines oder mehrerer sonstiger Referenzfaktoren, die für diese(n) betreffenden Basiswert(e) gelten. Des Weiteren profitieren Anleger nicht von Schwankungen des Preises des betreffenden Basiswerts bzw. der betreffenden Basiswerte, die in dem Zeitraum zwischen dem betreffenden Tag der vorzeitigen Rückzahlung und dem Fälligkeitstag auftreten.

Sofern es sich bei dem ZVR-Betrag (oder Exit-Betrag) nicht um einen spezifischen Festbetrag in Bezug auf einen Berechnungsbetrag handelt, und dieser Betrag nicht höher ist als der Betrag der ursprünglichen Anlage eines Anlegers in die Wertpapiere, sollten Anleger sich darüber im Klaren sein, dass sie, sofern nicht unter allen Umständen ein planmäßiger Mindestrückzahlungsbetrag gilt, gegebenenfalls den vollständigen oder teilweisen Verlust ihrer Anlage hinnehmen müssen.

Wertpapiere mit wahlweiser Rückzahlung durch die Emittentin

Sind die Wertpapiere mit wahlweiser Rückzahlung ausgestattet, wie in der Allgemeinen Bedingung 4 (*Rückzahlung und Kauf*) und den diesbezüglichen Bestimmungen in den maßgeblichen Endgültigen Bedingungen ausgeführt, so führt dies wahrscheinlich zu einer Beschränkung ihres Marktwerts. In einem Zeitraum, in dem die maßgebliche Emittentin die Rückzahlung von Wertpapieren beschließen kann, dürfte der Marktwert dieser Wertpapiere im Allgemeinen nicht deutlich über den Wert steigen, zu dem sie zurückgezahlt werden können. Dies kann auch vor einem Rückzahlungszeitraum der Fall sein.

Eine Rückzahlung von Wertpapieren durch die maßgebliche Emittentin ist zu erwarten, wenn ihre Fremdkapitalkosten unter dem Zinssatz für die Wertpapiere liegen. Zu diesem Zeitpunkt könnte ein Anleger den Rückzahlungserlös generell nicht zu einem effektiven Zinssatz wiederanlegen, der so hoch wie der Zinssatz der zurückgezahlten Wertpapiere ist, und kann eine Wiederanlage nur zu einem deutlich

niedrigeren Zinssatz vornehmen. Potenzielle Anleger sollten angesichts anderer, zum relevanten Zeitpunkt zur Verfügung stehender Anlagen das Wiederanlagerisiko bedenken.

Am Fälligkeitstag fälliger Rückzahlungsbetrag bzw. fällige Lieferungs Menge

Wird der Rückzahlungsbetrag bei Fälligkeit bzw. werden die bei Fälligkeit zu liefernden Vermögenswerte auf Grundlage der Wertentwicklung des betreffenden Basiswerts bzw. der betreffenden Basiswerte bestimmt, sollten Anleger sich darüber im Klaren sein, dass sie, sofern nicht unter allen Umständen ein Mindestrückzahlungsbetrag gilt, gegebenenfalls den vollständigen oder teilweisen Verlust ihrer Anlage hinnehmen müssen.

Einem Cap unterliegende Wertpapiere

Soweit die Bedingungen der Wertpapiere vorsehen, dass der zu zahlende Betrag oder die zu liefernde Menge einem Höchstbetrag (Cap) unterliegt, ist die Fähigkeit des Wertpapierinhabers, an einer Änderung des Werts des Basiswerts bzw. der Basiswerte über die Laufzeit der Wertpapiere zu partizipieren, eingeschränkt, und zwar ungeachtet der Höhe des Anstiegs des Stands, des Preises oder eines anderen anwendbaren Werts des Basiswerts bzw. der Basiswerte über den Cap-Stand über die Laufzeit der Wertpapiere. Entsprechend kann der Wert oder die Rendite der Wertpapiere deutlich niedriger sein, als wenn der Wertpapierinhaber den oder die Basiswerte direkt oder über ein anderes Produkt, das keinem Cap unterliegt, erworben hätte.

Risiken im Zusammenhang mit Wechselkursbestimmungen

Sind Wechselkursbestimmungen in den geltenden Endgültigen Bedingungen enthalten und lautet ein betreffender Basiswert auf eine Währung, bei der es sich nicht um die betreffende Festgelegte Währung der Wertpapiere handelt, werden die Werte dieses Basiswerts in die betreffende Festgelegte Währung umgerechnet. Eine entsprechende Umrechnung, kann, wie in den Bedingungen der Wertpapiere aufgeführt, anhand einer Kreuzparität erfolgen (d. h. diese Umrechnung erfolgt mithilfe des Wechselkurses einer Drittwährung). Daher sind die in Bezug auf die Wertpapiere fälligen Währungen oder zu liefernden Vermögenswerte auch auf die Wertentwicklung des betreffenden Wechselkurses bezogen und eine negative Entwicklung dieses Wechselkurses könnte die positive Wertentwicklung des betreffenden Basiswerts bzw. der betreffenden Basiswerte zunichtemachen.

Risiken im Zusammenhang mit Wertpapieren, bei denen es sich um Wertpapiere mit Physischer Lieferung handelt

Abwicklungsstörungsereignis und Nichtlieferung

Wenn im Fall von Wertpapieren mit Physischer Lieferung eine Abwicklungsstörung an einem Tag eintritt oder andauert, der für die Lieferung der betreffenden Lieferungs Menge vorgesehen ist, wird die Abwicklung auf den nächstfolgenden Abwicklungsgeschäftstag verschoben, an dem kein Abwicklungsstörungsereignis vorliegt. Unter diesen Umständen kann die maßgebliche Emittentin entscheiden, ob sie die betreffende Lieferungs Menge auf eine andere von ihr gewählte wirtschaftlich sinnvolle Weise liefert oder anstelle der Lieferung der Lieferungs Menge den Störungs-Barrückzahlungsbetrag zahlt.

Wenn im Fall von Wertpapieren mit Physischer Lieferung in den geltenden Endgültigen Bedingungen "Nichtlieferung aufgrund Illiquidität" als einschlägig aufgeführt ist und es nach Auffassung der Berechnungsstelle nicht möglich oder nicht durchführbar ist, die Maßgeblichen Vermögenswerte bei

Fälligkeit vollständig oder teilweise zu liefern, und eine solche Nichtlieferung auf eine Illiquidität des Marktes für diese Maßgeblichen Vermögenswerte zurückzuführen ist, dann hat die maßgebliche Emittentin das Recht, den Rückzahlungsbetrag bei Nichtlieferung zu zahlen anstatt die jeweiligen Maßgeblichen Vermögenswerte, die von dieser Illiquidität betroffen sind, vollständig oder teilweise zu liefern.

Ist in den geltenden Endgültigen Bedingungen die "Zusammenfassung von Liefermengen" als einschlägig aufgeführt, werden Wertpapiere mit Physischer Lieferung, die von ein und demselben Wertpapierinhaber gehalten werden, zur Feststellung der gesamten Liefermengen in Bezug auf diese Wertpapiere zusammengefasst und diese zusammengefassten Liefermengen werden auf die nächste Handelbare Menge des Maßgeblichen Vermögenswerts bzw. der Maßgeblichen Vermögenswerte in der von der betreffenden Berechnungsstelle festgelegten Weise abgerundet. Ist in den geltenden Endgültigen Bedingungen die "Zusammenfassung von Liefermengen" nicht als einschlägig aufgeführt, wird die Liefermenge in Bezug auf jeden Berechnungsbetrag auf das nächste ganzzahlige Mehrfache der Handelbaren Menge des Maßgeblichen Vermögenswerts bzw. der Maßgeblichen Vermögenswerte in der von der betreffenden Berechnungsstelle festgelegten Weise abgerundet. Die Menge des Maßgeblichen Vermögenswerts, die die Handelbare Menge unterschreitet, wird nicht geliefert und es erfolgt keine Barzahlung und kein anderer Ausgleich in Zusammenhang mit dieser Rundung, sofern kein "Barausgleich" in den geltenden Endgültigen Bedingungen als einschlägig aufgeführt ist; in diesem Fall zahlt die maßgebliche Emittentin einen Barbetrag in Höhe des Werts der Restmenge an den betreffenden Wertpapierinhaber.

Folglich kann es sein, dass Wertpapierinhaber nicht die Liefermengen erhalten, die sie erwarten, oder weniger erhalten, als sie andernfalls erwarten, oder stattdessen einen Betrag in bar erhalten.

Wahlrecht der Emittentin hinsichtlich der Ersetzung von Vermögenswerten oder der Zahlung des alternativen Barrückzahlungsbetrags

Handelt es sich bei den Wertpapieren um Wertpapiere mit Physischer Lieferung, kann die maßgebliche Emittentin, sofern nach Feststellung der Berechnungsstelle der Maßgebliche Vermögenswert bzw. die Maßgeblichen Vermögenswerte Wertpapiere enthalten, die nicht frei handel- oder lieferbar sind, entweder (i) den bzw. die Maßgeblichen Vermögenswert(e) durch einen bzw. mehrere Ersatzvermögenswerte ersetzen, oder (ii) sich dafür entscheiden, die Lieferung der betreffenden Liefermenge, des betreffenden Ersatzvermögenswerts bzw. der betreffenden Ersatzvermögenswerte nicht an die entsprechenden Wertpapierinhaber zu liefern bzw. diese nicht zu veranlassen, sondern stattdessen am Fälligkeitstag den Alternativen Barrückzahlungsbetrag an die jeweiligen Wertpapierinhaber zu zahlen. Unter diesen Umständen können Wertpapierinhaber Vermögenswerte erhalten, die sich von den Vermögenswerten, die sie zu erhalten erwarteten, unterscheiden, oder stattdessen Bargeld erhalten.

Auslagen

Sämtliche durch die Lieferung der Liefermenge in Bezug auf die Wertpapiere mit Physischer Lieferung entstehenden Auslagen gehen zulasten des jeweiligen Wertpapierinhabers.

Auslagen in Bezug auf Wertpapiere mit Physischer Lieferung wird die maßgebliche Emittentin von Barbeträgen abziehen, die sie diesem Wertpapierinhaber schuldet und im Namen des Wertpapierinhabers gezahlt hat oder die sie im Namen dieses Wertpapierinhabers durch Umwandlung des Betrags des Maßgeblichen Vermögenswerts bzw. der Maßgeblichen Vermögenswerte zahlt, der für die Begleichung

Non-binding German translation
Unverbindliche deutsche Übersetzung

der Auslagen erforderlich ist, wie von dem Wertpapierinhaber in der maßgeblichen Vermögenswertübertragungsmittelteilung angegeben. Werden Auslagen nicht auf diese Weise gezahlt, wird davon ausgegangen, dass der betreffende Wertpapierinhaber die maßgebliche Emittentin zur Umwandlung ermächtigt hat, und die maßgebliche Emittentin kann den entsprechenden Betrag des Maßgeblichen Vermögenswerts bzw. der Maßgeblichen Vermögenswerte in einen Barbetrag umwandeln, der zur Deckung der Auslagen für das betreffende Wertpapier ausreicht und von dem der betreffende Intermediär diese Auslagen abzieht.

Änderung der Abwicklung

Bei Wertpapieren mit Physischer Lieferung hat die maßgebliche Emittentin die Option, die Abwicklung dieser Wertpapiere zu ändern und anstatt die Lieferung der betreffenden Lieferungsmenge vorzunehmen bzw. zu veranlassen, am Fälligkeitstag einen Betrag in Höhe des fairen Marktwerts der Lieferungsmenge zu zahlen.

In diesen Fällen erhält ein Wertpapierinhaber keine Maßgeblichen Vermögenswerte, da die Wertpapiere ausschließlich in bar abgewickelt werden und der Rückzahlungsbetrag, den ein Wertpapierinhaber erhält, liegt gegebenenfalls weit unter dem Betrag seiner ursprünglichen Anlage in die Wertpapiere. Des Weiteren würde ein Wertpapierinhaber nach dem Tag der Bestimmung des fairen Marktwerts nicht von einem Preisanstieg der Maßgeblichen Vermögenswerte profitieren, die ansonsten lieferbar gewesen wären, wenn die Abwicklung der Wertpapiere durch physische Lieferung erfolgt wäre.

Risiken in Zusammenhang mit Wertpapieren, bei denen es sich um Doppelwährungswertpapiere handelt

Handelt es sich bei den Wertpapieren um Doppelwährungswertpapiere, werden die in Bezug auf die Wertpapiere zu zahlenden Beträge bestimmt, indem alle im Rahmen der Wertpapiere fälligen Beträge aus der Nennwährung durch Multiplikation dieses Betrags mit dem Doppelwährungswchselkurs für den letzten Bewertungstag in die Maßgebliche Währung umgerechnet werden. In diesen Fällen sind Beträge, die Wertpapierinhaber in Bezug auf die Wertpapiere erhalten, auch auf die Wertentwicklung des Basiswerts, d. h. den für diese Umrechnungen verwendeten Wechselkurs, bezogen. Anleger sollten daher auch die vorstehend aufgeführten Risikofaktoren im Zusammenhang mit auf Wechselkurse bezogenen Wertpapieren beachten (insbesondere den Risikofaktor mit der Überschrift "*Risiken im Zusammenhang mit auf Wechselkurse bezogenen Wertpapieren*").

ABSCHNITT C - ANLAGEÜBERLEGUNGEN

Allgemeines

Vor einer Anlage in die Wertpapiere sollten Anleger entscheiden, ob eine Anlage in die Wertpapiere unter Berücksichtigung ihrer spezifischen Umstände angemessen ist und ihre Rechts-, Geschäfts-, und Steuerberater zurate ziehen, um die Folgen einer Anlage in die Wertpapiere abzuschätzen und zu einer eigenen Bewertung der Anlage zu gelangen. Die maßgebliche Emittentin, die CGMHI-Garantiegeberin (falls zutreffend) und die CGMFL-Garantiegeberin (falls zutreffend) empfehlen insbesondere, dass Anleger eine unabhängige Steuerberatung in Anspruch nehmen, bevor sie sich zu einem Kauf von Wertpapieren verpflichten. Weder die maßgebliche Emittentin noch die CGMHI-Garantiegeberin (falls zutreffend) und die CGMFL-Garantiegeberin (falls zutreffend) bieten Steuerberatung an und somit liegt die Verantwortung für alle steuerrechtlichen Implikationen einer Anlage in Wertpapiere vollständig bei dem jeweiligen Anleger. Anleger sollten beachten, dass die steuerliche Behandlung je nach Rechtsordnung variiert. Anleger übernehmen und sind allein verantwortlich für alle Steuern einer Rechtsordnung, Regierungs- oder Aufsichtsbehörde, u. a. Steuern auf bundesstaatlicher oder lokaler Ebene oder sonstige ähnliche Festsetzungen oder Kosten, die gegebenenfalls auf eine Zahlung im Rahmen der Wertpapiere anfallen.

Eine Anlage in die Wertpapiere eignet sich nur für Anleger, die:

- (a) über die erforderliche Kenntnis und Erfahrung in Finanz- und Geschäftsangelegenheiten verfügen, um die Vorteile und Risiken einer Anlage in die Wertpapiere abzuschätzen;
- (b) Zugang zu den und Kenntnis der geeigneten Analyseinstrumente(n) haben, um diese Vorteile und Risiken im Rahmen ihrer Finanzlage zu evaluieren;
- (c) in der Lage sind, das wirtschaftliche Risiko einer Anlage in Wertpapiere für einen unbestimmten Zeitraum zu tragen, und
- (d) sich darüber im Klaren sind, dass es unter Umständen nicht möglich ist, über einen wesentlichen Zeitraum die Wertpapiere zu veräußern, falls dies überhaupt möglich sein sollte.

Potenzielle Anleger in die Wertpapiere sollten auf Grundlage ihrer eigenen Beurteilung, und falls dies ihrer Ansicht nach erforderlich ist, nach Beratung durch die entsprechenden Berater, ihre eigene unabhängige Entscheidung einer Anlage in die Wertpapiere, und ob die Anlage in die Wertpapiere für sie angemessen und geeignet ist, treffen. Potenzielle Anleger in die Wertpapiere sollten sich nicht auf (schriftliche oder mündliche) Kommunikationen der maßgeblichen Emittentin, der CGMHI-Garantiegeberin (falls zutreffend) und der CGMFL-Garantiegeberin (falls zutreffend), eines Händlers oder eines ihrer verbundenen Unternehmen oder ihrer jeweiligen leitenden Angestellten oder Beauftragten als Anlageberatung oder Empfehlung einer Anlage in die Wertpapiere berufen, wobei als vereinbart gilt, dass die Informationen und Erläuterungen zu den Wertpapieren nicht als Anlageberatung oder Empfehlung einer Anlage in die Wertpapiere gelten. Keine (schriftliche oder mündliche) Kommunikation der maßgeblichen Emittentin, der CGMHI-Garantiegeberin (falls zutreffend) und der CGMFL-Garantiegeberin (falls zutreffend), eines Händlers oder eines ihrer verbundenen Unternehmen oder ihrer jeweiligen leitenden Angestellten oder Beauftragten gilt als Zusicherung oder Garantie hinsichtlich der erwarteten Ergebnisse einer Anlage in Wertpapiere.

Hedginggeschäfte in Bezug auf die Wertpapiere

Jede Emittentin und/oder die CGMHI-Garantiegeberin und/oder die CGMFL-Garantiegeberin und/oder ihre verbundenen Unternehmen können Hedginggeschäfte für die Verbindlichkeiten der maßgeblichen

Emittentin und/oder der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin im Rahmen der Wertpapiere und/oder der CGMHI-Garantiekunde und/oder der CGMFL-Garantiekunden abschließen, sind dazu aber nicht verpflichtet. Bei Abschluss entsprechender Geschäfte haben jede Emittentin und/oder die die CGMHI-Garantiegeberin und/oder die CGMFL-Garantiegeberin und/oder ein entsprechendes verbundenes Unternehmen bestimmte Rechte im Rahmen dieser Hedginggeschäfte und können Maßnahmen und Schritte in die Wege leiten, die sie zum Schutz ihrer eigenen Interessen im Rahmen dieser Hedginggeschäfte als angemessen erachten, ohne dabei die Folgen für Wertpapierinhaber zu berücksichtigen. Anleger haben keine Rückgriffsansprüche gegenüber der maßgeblichen Gegenpartei im Rahmen dieser Hedginggeschäfte und diese Hedginggeschäfte begründen keine Rechte oder Ansprüche eines Wertpapierinhabers und stellen separate Verbindlichkeiten der maßgeblichen Emittentin und/oder der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin und/oder eines entsprechenden verbundenen Unternehmens dar.

Potenzielle Anleger, die den Erwerb von Wertpapieren zur Absicherung gegen Marktrisiken in Zusammenhang mit einer Anlage in den bzw. die spezifischen Basiswert(e) beabsichtigen, sollten sich der mit einer solchen Verwendung der Wertpapiere einhergehenden Komplexität bewusst sein. Beispielsweise korreliert der Wert der betreffenden Wertpapiere unter Umständen nicht exakt mit dem Wert des jeweiligen Basiswerts bzw. der jeweiligen Basiswerte. Infolge von Schwankungen bei Nachfrage und Angebot der Wertpapiere kann nicht gewährleistet werden, dass ihr Wert mit der Entwicklung des Basiswerts bzw. der Basiswerte korreliert. Unter anderem aus diesen Gründen ist es u. a. gegebenenfalls nicht möglich, Wertpapiere in einem Portfolio zu Preisen zu kaufen oder zu veräußern, die der Berechnung des Werts eines maßgeblichen Basiswerts zugrunde lagen, und dementsprechend kann der Anleger einen Verlust erleiden.

Bestimmte Faktoren, die sich auf den Wert und Handelspreis der Wertpapiere auswirken

Die zu einem Zeitpunkt vor dem maßgeblichen Fälligkeitstag fälligen Beträge und/oder der Wert der in Bezug auf die Wertpapiere zu liefernden Vermögenswerte liegen typischerweise in der Regel zu jedem beliebigen Zeitpunkt unter dem Handelspreis dieser Wertpapiere liegen. Der Unterschied zwischen dem Handelspreis und diesen fälligen Beträgen und/oder dem Wert der zu liefernden Vermögenswerte spiegelt unter anderem den "Zeitwert" der Wertpapiere wider. Der "Zeitwert" der Wertpapiere hängt teilweise von der Restlaufzeit und den Erwartungen hinsichtlich des Werts des Basiswerts/der Basiswerte ab.

Wertpapiere gehen mit einigen zusätzlichen Risiken in Bezug auf den zwischenzeitlichen Wert einher. Der zwischenzeitliche Wert der Wertpapiere unterliegt Schwankungen, da der Preis oder Stand des Basiswerts/der Basiswerte schwankt, sowie aufgrund einer Reihe weiterer, voneinander abhängiger Faktoren, darunter auch die folgenden: (i) der Handelspreis der relevanten Wertpapiere, (ii) der Wert und die Volatilität eines bzw. mehrerer Basiswerte, (iii) die Restlaufzeit, (iv) im Falle von Wertpapieren mit Barausgleich, die voraussichtliche Spanne eines Rückzahlungsbetrags, (v) (jede) Änderung(en) der Zwischenzinssätze und Dividendenrenditen, falls zutreffend, (vi) (jede) Änderung(en) der Devisenkurse, (vii) die Tiefe des Marktes oder die Liquidität eines oder mehrerer Basiswerte und (viii) dazugehörige Transaktionskosten.

Ein Verkauf von Wertpapieren vor ihrer planmäßigen Rückzahlung kann zu einem wesentlichen Abschlag von ihrem ursprünglichen Kaufpreis erfolgen, wodurch Wertpapierinhaber ihre Anlage vollständig oder teilweise verlieren können.

Anwendung von Fallback-Bestimmungen in Bezug auf Referenzsätze und Benchmarks

Die in Bewertungs- und Abwicklungsbedingung 9 beschriebenen Fallback-Bestimmungen in Bezug auf Referenzsätze und Benchmarks gelten wie folgt:

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

USD LIBOR:

- Bei Eintritt eines Benchmark-Übergangereignisses gelten in Bezug auf die Wertpapiere, die Bewertungs- und Abwicklungsbedingung 7 (die "**USD LIBOR-Fallback-Bestimmungen**"), sofern die geltenden Endgültigen Bedingungen U.S. LIBOR ("**USD LIBOR**") als anwendbar angeben.
- Ein Benchmark-Übergangereignis tritt in Bezug auf eine USD-Benchmark (bei der es sich um USD LIBOR oder den maßgeblichen Benchmark-Ersatz handeln könnte) ein, sofern es eine öffentliche Erklärung oder Veröffentlichung von Informationen unter anderem durch den Administrator der USD-Benchmark gegeben hat, nach der der Administrator der USD-Benchmark die Bereitstellung der USD-Benchmark dauerhaft oder unbefristet eingestellt hat oder einstellen wird, oder durch das aufsichtsrechtliche Kontrollorgan für den Administrator der USD-Benchmark, nach der die USD-Benchmark nicht mehr repräsentativ ist oder ab einem bestimmten zukünftigen Datum nicht mehr repräsentativ für einen oder mehrere relevante zugrundeliegende Märkte oder die wirtschaftliche Realität, die diese USD-Benchmark abbilden soll, sein kann.
- Sofern die Berechnungsstelle die betreffende USD-Benchmark nicht durch Interpolation aus anderen Laufzeiten der USD-Benchmark feststellen kann, findet die im Rahmen der USD LIBOR-Fallback-Bestimmungen nächste verfügbare Alternative Anwendung, um die maßgebliche USD-Benchmark in Bezug auf die Wertpapiere zu ersetzen. Die Ersetzungsalternativen sind in der angegebenen Reihenfolge die folgenden:
 - (a) der Ersatz-Satz ist der seitens der International Swap Dealers Association, Inc. ("ISDA") festgesetzte anwendbare Ersatzreferenzkurs mit einer Anpassung;
 - (b) ist (a) nicht verfügbar, ist der Ersatz-Satz, sofern eine Form des Term SOFR von der Maßgeblichen Staatlichen Stelle ausgewählt oder empfohlen wurde, der Term SOFR mit einer Anpassung;
 - (c) sind (a) und (b) nicht verfügbar, ist der Ersatz-Satz, sofern eine Form des Compounded SOFR von der Maßgeblichen Staatlichen Stelle oder alternativ der Berechnungsstelle ausgewählt oder empfohlen wurde, der Compounded SOFR mit einer Anpassung;
 - (d) sind (a), (b) und (c) nicht verfügbar, ist der Ersatz-Satz, sofern ein alternativer Zinssatz von der Maßgeblichen Staatlichen Stelle ausgewählt oder empfohlen wurde, der alternative Zinssatz mit einer Anpassung;
 - (e) sind (a), (b), (c) und (d) nicht verfügbar, ist der Ersatz-Satz ein von der Berechnungsstelle festgelegter Satz mit einer Anpassung.
- Die Berechnungsstelle ist befugt, die entsprechenden Änderungen der Wertpapierbedingungen, die sie für angemessen hält, um die Annahme des Ersatz-Satzes abzubilden, vorzunehmen und eine USD-Benchmark festzulegen, die einstweilig in Bezug auf die Wertpapiere anwendbar ist. Die damit verbunden Risiken sind beschrieben unter "*Zinsen auf auf USD LIBOR bezogene Wertpapiere werden bei Eintritt eines Benchmark-Übergangereignisses unter Verwendung eines von der Berechnungsstelle ausgewählten Benchmark-Ersatzes berechnet*".

Referenzsätze:

- Bei Eintritt eines Referenzsatzereignisses gelten die Bewertungs- und Abwicklungsbedingung 6 (die "**Referenzsatzereignis-Bestimmungen**"), sofern die geltenden Endgültigen Bedingungen einen Referenzsatz in Bezug auf die Wertpapiere als anwendbar angeben und vorausgesetzt, dass die USD LIBOR-Fallback-Bestimmungen nicht infolge des betreffenden Ereignisses oder Umstands für den maßgeblichen Referenzsatz gelten.
- Ein Referenzsatzereignis tritt in Bezug auf einen Referenzsatz (das heißt jeden gleich auf welche Weise in den Wertpapierbedingungen beschriebenen Zinssatz in seiner bei Veranlassung nach Maßgabe der Bestimmungen der Referenzsatzereignis-Bestimmungen geänderten Form) ein, wenn die Berechnungsstelle feststellt, dass (i) der Referenzsatz wesentlich verändert wurde oder verändert werden wird, nicht mehr dauerhaft oder unbefristet bereitgestellt wird oder bereitgestellt werden wird und kein Nachfolgeadministrator oder Dienstleister wird den Referenzsatz weiterhin bereitstellen oder eine Aufsichtsbehörde oder eine andere Stelle des öffentlichen Sektors die Verwendung des betreffenden Referenzsatzes in Bezug auf die Wertpapiere untersagt hat oder untersagen wird oder wenn es aus anderen Gründen nicht zulässig ist, diesen Referenzsatz zu verwenden; (ii) eine Zulassung oder Ähnliches in Bezug auf den Referenzsatz oder den Administrator oder Sponsor des Referenzsatzes nicht erlangt wurde oder werden wird oder abgelehnt oder Ähnliches wurde oder werden wird, und es infolgedessen der Emittentin oder einem anderen Unternehmen nach den geltenden Gesetzen oder Vorschriften nicht gestattet ist oder sein wird, den betreffenden Referenzsatz zur Erfüllung ihrer bzw. seiner Pflichten im Rahmen der Wertpapiere zu verwenden; (iii) sofern nicht die anwendbaren Endgültigen Bedingungen festlegen, dass "Referenzsatzereignis (Element (iii))" nicht anwendbar ist, es wirtschaftlich nicht sinnvoll ist, die Anwendung des Referenzsatzes aufgrund von Lizenzbeschränkungen oder Änderungen der Lizenzkosten fortzusetzen; (iv) der Administrator oder ein Sponsor des maßgeblichen Referenzsatzes, jede nationale, regionale oder sonstige Aufsichts- oder Regulierungsbehörde, die entweder (a) für die Beaufsichtigung des Verwalters oder Sponsors des Referenzsatzes oder (b) für die Regulierung des Referenzsatzes zuständig ist, die Zentralbank für die Währung des Referenzsatzes oder ein anderes offizielles Gremium mit entsprechender Zuständigkeit für Verkündigungen, dass der Referenzsatz nicht länger für irgendeinen zugrundeliegenden Markt und/oder die wirtschaftliche Realität, die ein solcher Referenzsatz abbilden soll, repräsentativ ist oder ab einem bestimmten zukünftigen Datum nicht mehr repräsentativ sein wird und die Repräsentativität nicht wiederhergestellt wird; oder (v) der maßgebliche Referenzsatz ist Gegenstand einer marktweiten Entwicklung auf dem Markt für over-the-counter-Derivate (die in Form eines Protokolls, einer Veröffentlichung von Standardbedingungen oder auf andere Weise durch die ISDA erfolgen kann), wonach dieser Referenzsatz in Bezug auf over-the-counter-Derivatgeschäfte, die auf diesen Referenzsatz verweisen, durch einen Ersatz-Satz ersetzt wird oder werden soll.
- Die Berechnungsstelle sorgt für die Festlegung eines Ersatzreferenzsatzes, welcher einer der Folgenden sein muss:
 - (a) soweit anwendbar, kann ein Ersatzreferenzsatz durch Interpolation aus anderen Laufzeiten des maßgeblichen Referenzsatzes festgestellt werden, dieser interpolierte Referenzsatz mit einer Anpassung; oder
 - (b) ein vornominierter Ersatzreferenzsatz mit einer Anpassung, oder
 - (c) ein Index, eine Benchmark, eine sonstige Preisquelle oder ein sonstiger Satz, ein Fallback-Satz oder die Methodologie für die Berechnung eines Index, Bechmarks, einer sonstige Preisquelle oder eines sonstiger Satzes oder Fallback-Satzes, der

bzw. die als ein Branchenstandardersatz für Over-the-Counter-Derivategeschäfte, die auf einen solchen Referenzsatz referieren, anerkannt oder bestätigt ist, mit einer Anpassung; oder

- (d) ein Index, eine Benchmark oder andere Preisquelle, welche die Berechnungsstelle mit einer Anpassung als, für den Referenzsatz wirtschaftlich sinnvolle Alternative ansieht.
- Alternativ kann die Berechnungsstelle feststellen, dass kein Referenzsatz erforderlich ist, oder die Wertpapierbedingungen so anpassen, wie sie es für erforderlich oder angemessen erachtet, um den Auswirkungen eines solchen Referenzsatzereignisses Rechnung zu tragen. Falls zutreffend, kann die Emittentin die Wertpapiere vorzeitig zurückzahlen, sofern eine derartige Feststellung und/oder Anpassungen nicht erfolgen und sofern die Berechnungsstelle feststellt, dass es nicht möglich oder wirtschaftlich sinnvoll ist, einen Ersatzreferenzsatz zu identifizieren oder die betreffende Anpassung zu berechnen.
 - Die Berechnungsstelle ist befugt, die Wertpapierbedingungen so anzupassen, wie sie es für erforderlich und/oder angemessen erachtet, um den Auswirkungen des Ersatzreferenzsatzes Rechnung zu tragen, und die Höhe des Referenzsatzes, die einstweilig in Bezug auf die Wertpapiere anwendbar ist, festzulegen. Die damit verbunden Risiken sind beschrieben unter "*Zinsen auf auf einen Referenzsatz bezogene Wertpapiere werden bei Eintritt eines Referenzsatzereignisses unter Verwendung eines von der Berechnungsstelle ausgewählten Ersatzreferenzsatzes berechnet*".

Benchmarks:

- Bei Eintritt eines Administrator/Benchmark-Ereignisses in Bezug auf den maßgeblichen Satz gelten die Bewertungs- und Abwicklungsbedingung 8 (die "**Administrator/Benchmark-Ereignis-Bestimmungen**"), sofern die USD LIBOR-Fallback-Bestimmungen und die Referenzsatzereignis-Bestimmungen nicht für das betreffende Ereignis oder den betreffenden Umstand gelten.
- Ein Administrator/Benchmark-Ereignis tritt in Bezug auf eine Benchmark (das heißt jede Zahl oder jeden Satz und den Fall, dass ein im Rahmen der Wertpapiere zu zahlender oder zu liefernder Betrag oder der Wert der Wertpapiere insgesamt oder teilweise unter Bezugnahme auf eine solche Zahl oder einen solchen Satz bestimmt wird), ein, wenn die Berechnungsstelle feststellt, dass (i) die Benchmark wesentlich verändert oder eingestellt oder ihre Verwendung in Bezug auf die Wertpapiere durch eine Aufsichtsbehörde oder andere Stelle des öffentlichen Sektors untersagt wurde; (ii) eine Zulassung oder Ähnliches in Bezug auf eine maßgebliche Benchmark oder den Administrator oder Sponsor einer maßgeblichen Benchmark nicht erlangt wurde oder nicht erlangt werden wird oder abgelehnt oder Ähnliches wurde oder werden wird, mit der Folge, dass es der Emittentin oder einem anderen Unternehmen nach den geltenden Gesetzen oder Vorschriften nicht gestattet ist oder sein wird, die betreffende Benchmark zur Erfüllung ihrer bzw. seiner jeweiligen Pflichten im Rahmen der Wertpapiere zu verwenden; (iii) sofern nicht die anwendbaren Endgültigen Bedingungen festlegen, dass "Administrator/Benchmark-Ereignis (Element (3))" nicht anwendbar ist, es wirtschaftlich nicht sinnvoll ist, die Anwendung der Benchmark aufgrund von Lizenzbeschränkungen oder Änderungen der Lizenzkosten fortzusetzen; oder (iv) eine maßgebliche Aufsichtsbehörde oder ein Sponsor offiziell verkündet, dass die Benchmark nicht länger für einen oder mehrere relevante zugrundeliegende Märkte oder die wirtschaftliche Realität, die eine solche Benchmark abbilden soll, repräsentativ ist oder ab einem bestimmten zukünftigen Datum nicht mehr repräsentativ sein kann.

Die damit verbundenen Risiken sind im Vorstehenden beschrieben unter "*Risiken im Zusammenhang mit dem Eintritt eines Administrator/Benchmark-Ereignisses*".

Zinssatz als Basiswert:

- Tritt im Hinblick auf einen Zinssatz, der ein Basiswert ist, ein Ereignis oder ein Umstand ein und geben die anwendbaren Endgültigen Bedingungen einen Zinssatz als Basiswert an, vorausgesetzt, dass weder die USD LIBOR-Fallback-Bestimmungen noch die Referenzsatzereignis-Bestimmungen noch die Administrator/Benchmark-Ereignis-Bestimmungen infolge des betreffenden Ereignisses oder Umstands für den betreffenden Zinssatz anwendbar sind, so gelten die Bestimmungen des Basiswertanhangs 10 in Bezug auf die Festlegung des Schlusstands des Basiswerts eines Zinssatzes an jedem Planmäßigen Handelstag im Falle des Eintritts eines Störungstags und die in den Wertpapierbedingungen beschriebenen Bestimmungen in Bezug auf die Folgen von Störungstagen. Die damit verbundenen Risiken sind beschrieben unter "*Risiken im Zusammenhang mit der Einstellung oder Nichtverfügbarkeit eines Zinssatzes*".

Bildschirmfestsetzung oder USD LIBOR-Bildschirmfestsetzung:

- Kann ein variabler Zinssatz nicht festgestellt werden und geben die geltenden Endgültigen Bedingungen die Bildschirmfestsetzung, die USD LIBOR-Bildschirmfestsetzung oder die ISDA-Festsetzung als anwendbar an, gelten die maßgeblichen Bestimmungen in Bewertungs- und Abwicklungsbedingung 3(a), vorausgesetzt, dass weder die USD LIBOR-Fallback-Bestimmungen noch die Referenzsatzereignis-Bestimmungen noch die Administrator/Benchmark-Ereignis-Bestimmungen und auch nicht die Basiswertzinssatz-Bedingungen infolge des betreffenden Ereignisses oder Umstands für den betreffenden variablen Zinssatz gelten.
- Ist die Bildschirmfestsetzung anwendbar, die Seite jedoch nicht verfügbar oder es werden keine oder weniger als drei Angebotsquotierungen angezeigt oder der maßgebliche Administrator oder eine maßgebliche zugelassene Vertriebsstelle keinen Zinssatz zur Verfügung stellt oder veröffentlicht oder ein Bestandteil des maßgeblichen Zinssatzes nicht zur Verfügung gestellt oder veröffentlicht wird (je nach Sachlage), und zwar jeweils zum festgelegten Zeitpunkt oder im Falle von BBSW bis 10.30 Uhr, Ortszeit Sydney, legt die Berechnungsstelle den Bildschirmsatz nach Treu und Glauben und in wirtschaftlich angemessener Weise, unter Berücksichtigung der von ihr als angemessen bewerteten Quellen und aller zu diesem Zeitpunkt verfügbaren alternativen Benchmarks sowie unter Berücksichtigung der vorherrschenden Industriestandards auf allen damit verbundenen Märkten (einschließlich, aber nicht abschließend, auf den Derivatemarkt) fest. Ein solcher Zinssatz kann (nicht abschließend) ein von einer anderen autorisierten Vertriebsstelle veröffentlichter Zinssatz, ein vom Administrator des betreffenden Zinssatzes oder dem Administrator oder der Aufsichtsbehörde oder der für die Beaufsichtigung eines solchen Verwaltungs zuständigen Behörde offiziell empfohlener Zinssatz, der zuletzt veröffentlichte Kurs oder das arithmetische Mittel der von der Berechnungsstelle ausgewählten Referenzbanken bereitgestellten Notierungen sein.

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

- Ist die USD LIBOR-Bildschirmfestsetzung anwendbar, legt die Berechnungsstelle den Referenzsatz wie folgt fest, sofern der betreffende Referenzsatz nicht festgestellt werden kann:
 - (a) Werden von den Referenzbanken zwei oder mehr Angebotsquotierungen bereitgestellt, ist der Referenzsatz für den maßgeblichen Tag oder Zeitraum der arithmetische Durchschnitt dieser Quotierungen;
 - (b) ist a) nicht verfügbar, ist der Referenzsatz für den maßgeblichen Tag oder Zeitraum, sofern drei oder mehr, von der Berechnungsstelle ausgewählte Banken in New York City führenden europäischen Banken am maßgeblichen Zinsfestsetzungstag ungefähr um 11.00 Uhr (Ortszeit New York City) Quotierungen für bestimmte Sätze stellen, der arithmetische Durchschnitt dieser Sätze; oder
 - (c) sind a) und b) nicht verfügbar, ist der Referenzsatz für den maßgeblichen Tag oder Zeitraum unbeschadet anderslautender Bestimmungen in den Wertpapierbedingungen der Satz, den die Berechnungsstelle in gutem Glauben und in wirtschaftlich sinnvoller Weise bestimmt, wobei sie zu dem betreffenden Zeitpunkt verfügbare alternative Benchmarks und die vorherrschenden Branchenstandards in jedem verbundenen Markt (so unter anderem auch im Derivatemarkt) berücksichtigt.

ISDA-Festsetzung:

Wenn die ISDA-Festsetzung als Methode zur Berechnung eines Zinssatzes gewählt wird, wird der maßgebliche Zinssatz auf derselben Grundlage bestimmt wie der Zinssatz, der im Rahmen einer "Over-The-Counter"-Derivatetransaktion berechnet würde, die unter Verwendung der von der ISDA veröffentlichten marktüblichen Zinssatzdefinitionen dokumentiert wird. Diese Definitionen bieten eine Standardmethode für die Zinsberechnung und enthalten bestimmte Fallback-Bestimmungen, die für die Bestimmung eines Zinssatzes im Falle einer vorübergehenden oder dauerhaften Einstellung des maßgeblichen Zinssatzes verwendet werden können. Für die Zwecke der Wertpapiere gelten die einschlägigen ISDA Zinssatzdefinitionen festgelegten Fallback-Bestimmungen jedoch nur unter bestimmten, nachstehend beschriebenen Umständen.

Die ISDA Zinssatzdefinitionen wurden von Zeit zu Zeit geändert, ergänzt und ersetzt, und zum Zeitpunkt der Erstellung dieses Dokuments gibt es zwei Versionen, die für die Zwecke der Wertpapiere relevant sind: die von der ISDA veröffentlichten ISDA Definitionen 2006 in ihrer jeweils geänderten oder ergänzten Fassung (die "**2006 Definitionen**") und die von der ISDA veröffentlichten ISDA Zinssatzderivaten-Definitionen in ihrer jeweils geänderten Fassung (die "**2021 Definitionen**"). Die anwendbaren Endgültigen Bedingungen geben die Version der ISDA Definitionen an, die in Bezug auf die Wertpapiere gelten.

- Ist die ISDA-Festsetzung anwendbar und sind die 2006 Definitionen in den anwendbaren Endgültigen Bestimmungen angegeben, ist der ISDA-Satz für den maßgeblichen Zeitraum und/oder Tag, sofern die Berechnungsstelle feststellt, dass der ISDA-Satz nicht festgesetzt werden kann, unbeschadet anderslautender Bestimmungen in den Wertpapierbedingungen und vor der Anwendung jeglicher Bestimmungen in Bezug auf ein Indexbeendigungsereignis (wie auch immer beschrieben) oder anderer Fallback-Bestimmungen für eine dauerhafte Beendigung in den 2006 Definitionen (einschließlich gegebenenfalls solcher Fallback-Bestimmungen, die in einem Nachtrag zu den 2006 Definitionen festgelegt sind) der Satz, den die Berechnungsstelle in gutem Glauben und in wirtschaftlich sinnvoller Weise bestimmt, wobei sie zu dem betreffenden Zeitpunkt

verfügbare alternative Benchmarks und die vorherrschenden Branchenstandards in jedem verbundenen Markt (so unter anderem auch im Derivatemarkt) berücksichtigt. Jedoch ist zu beachten, dass, sofern die in Bewertungs- und Abwicklungsbedingung 9 beschriebenen vorrangigen Fallback-Bestimmungen anwendbar sind, doch zuerst diese vorrangigen Fallback-Bestimmungen zur Anwendung kommen, obwohl einschlägige Fallback-Bestimmungen gemäß den Bedingungen der ISDA-Festsetzung selbst oder gemäß der vorstehenden Bestimmung enthalten sein können; das bedeutet, dass Fallback-Bestimmungen, die als Teil der ISDA-Festsetzung selbst enthalten sind, möglicherweise nicht anwendbar sind.

- Sind die ISDA Bestimmungen anwendbar und die 2021 Definitionen sind in den Endgültigen Bestimmungen angegeben, gelten jegliche Fallback-Bestimmungen mit Bezug auf eine vorübergehende Beendigung für die Wertpapiere. Vor der Anwendung von Bestimmungen, die sich auf eine dauerhafte Beendigung oder ein Administrator/Benchmark-Ereignis in den 2021 Definitionen beziehen (zur Klarstellung, einschließlich jeglicher Bestimmungen über auslaufende Zinssätze), ist der ISDA-Zinssatz für den maßgeblichen Zeitraum und/oder das maßgebliche Datum jedoch, vorbehaltlich der unten aufgeführten "Hierarchiebestimmungen und – anpassungen" und ungeachtet gegenteiliger Bestimmungen in den Bedingungen der Wertpapiere, derjenige Zinssatz, der durch die Berechnungsstelle nach Treu und Glauben und in wirtschaftliche angemessener Weise unter Berücksichtigung alternativer, zu diesem Zeitpunkt verfügbarer Benchmarks und unter Berücksichtigung der vorherrschenden Industriestandards in einem entsprechenden Markt (insbesondere, aber nicht abschließend, im Derivatemarkt) bestimmt wird.
- Die damit verbundenen Risiken sind beschrieben unter "*Ist ein variabler Zinssatz nicht mehr verfügbar, kann er nach dem Ermessen der Berechnungsstelle oder durch alternative Methoden festgestellt werden*".

Feststellung Variabler SONIA-Satz, Feststellung Variabler SOFR-Satz:

- Kann ein variabler Satz nicht festgestellt werden, und geben die geltenden Endgültigen Bedingungen die Feststellung Variabler SONIA-Satz (Nicht-Index-Feststellung), die Feststellung Variabler SONIA-Satz (Index-Feststellung), und/oder die Feststellung Variabler SOFR-Satz an, sind die maßgeblichen Bestimmungen der Bewertungs- und Abwicklungsbedingung 3(d)(i), der Bewertungs- und Abwicklungsbedingung 3(a)(i) anwendbar, vorausgesetzt, dass weder die Referenzsatzereignis-Bestimmungen noch die Administrator/Benchmark-Ereignis-Bestimmungen noch die Basiswertzinssatz-Bedingungen infolge des betreffenden Ereignisses oder Umstands auf den betreffenden variablen Zinssatz anwendbar sind.
- Ist die Feststellung Variabler SONIA-Satz (Nicht-Index-Feststellung) anwendbar, setzt die Berechnungsstelle den SONIA-Satz wie folgt fest, sofern die Berechnungsstelle feststellt, dass der SONIA-Satz auf der maßgeblichen Seite nicht zur Verfügung steht oder von den betreffenden autorisierten Vertriebsstellen am betreffenden Tag nicht anderweitig veröffentlicht wurde:
 - (a) als den Diskontsatz der Bank of England (der "Diskontsatz"), der per Geschäftsschluss an diesem Tag im relevanten Beobachtungszeitraum vorherrscht; zuzüglich (ii) des Mittelwerts des Spread des SONIA-Satzes zum Diskontsatz über die vorhergehenden fünf Tage, an denen ein SONIA-Satz veröffentlicht wurde, wobei der höchste Spread (oder, sofern es mehr

als einen höchsten Spread gibt, nur einer dieser Spreads) und der niedrigste Spread (oder, sofern es mehr als einen niedrigsten Spread gibt, nur einen dieser Spreads) zum Diskontsatz unberücksichtigt bleiben; oder

- (b) sofern der Diskontsatz per Geschäftsschluss an diesem Tag innerhalb des relevanten Beobachtungszeitraums nicht von der Bank of England veröffentlicht wird, als den SONIA-Satz, der auf der relevanten Seite für den unmittelbar vorhergehenden Londoner Bankarbeitstag, an dem der SONIA-Satz auf dieser Seite veröffentlicht wurde (oder anderweitig von den relevanten autorisierten Vertriebsstellen veröffentlicht wurde) veröffentlicht wird (oder anderweitig von den betreffenden autorisierten Vertriebsstellen veröffentlicht wird).

Unbeschadet des Vorstehenden folgt die Berechnungsstelle im Falle, dass die Bank of England Empfehlungen für (A) die Festlegung des SONIA-Satzes oder (B) einen Satz, der den SONIA-Satz ersetzen soll, herausgibt, den Empfehlungen, soweit dies angemessenerweise praktikabel ist, um den SONIA-Satz für die Zwecke der Wertpapiere festzulegen, solange der SONIA-Satz nicht zur Verfügung steht oder nicht von den autorisierten Vertriebsstellen veröffentlicht wurde. Die damit verbundenen Risiken sind beschrieben unter "*Ist ein variabler Zinssatz nicht mehr verfügbar, kann er nach Ermessen der Berechnungsstelle oder durch alternative Methoden festgestellt werden*".

- Wenn der relevante Zinssatz nicht verfügbar ist und die Bestimmungen zur Feststellung Variabler SONIA-Satz der Bewertungs- und Abwicklungsbedingung 3(a) und/oder die Bestimmungen zur Festlegung Variabler SOFR-Satz der Bewertungs- und Abwicklungsbedingungen 3(a)(i) Anwendung finden, wird der maßgebliche SONIA-Indexwert oder SOFR oder SOFR-Indexwert, wie in der Bewertungs- und Abwicklungsbedingung 9 vorgesehen, von der Berechnungsstelle nach Treu und Glauben und in wirtschaftliche angemessener Weise unter Berücksichtigung der von ihr als geeignet erachteten Quellen und jeder zu diesem Zeitpunkt verfügbaren alternativen Benchmark sowie unter Berücksichtigung der vorherrschenden Industriestandards in allen damit verbundenen Märkten (insbesondere, aber nicht abschließend, im Derivatemarkt) bestimmt.

Einstellung oder Nicht-Repräsentativität des LIBOR

Am 5. März 2021 kündigte die ICE Benchmark Administration Limited ("**IBA**"), der autorisierte, der Regulierung unterliegende Administrator des LIBOR, seine Absicht an, die Veröffentlichung aller 35 LIBOR-Festlegungen am 31. Dezember 2021 bzw. die Veröffentlichung bestimmter USD LIBOR-Festlegungen am 30. Juni 2023 einzustellen (die "**IBA-Ankündigung**"). Die IBA unterrichtete die FCA von ihrer Absicht, und am selben Tag veröffentlichte die FCA eine Ankündigung über die zukünftige Einstellung und den Verlust der Repräsentativität der 35 LIBOR-Benchmarks (die "**FCA-Ankündigung**"). Laut der FCA-Ankündigung werden alle 35 LIBOR-Laufzeiten und -Währungen entweder von keinem Administrator mehr veröffentlicht oder sind wie folgt nicht mehr repräsentativ:

- (i) Die Veröffentlichung aller 7 Euro LIBOR ("**EUR LIBOR**")-Festlegungen, aller 7 Schweizer Franken LIBOR ("**CHF LIBOR**")-Festlegungen, der Japanische Yen LIBOR ("**JPY LIBOR**")-Festlegungen für Spot-Next, 1 Woche, 2 Monate und 12 Monate, der GBP LIBOR-Festlegungen für Overnight, 1 Woche, 2 Monate und 12 Monate und der USD LIBOR-Festlegungen für 1 Woche und 2 Monate unmittelbar nach dem 31. Dezember 2021 eingestellt wurde;
- (ii) die Veröffentlichung der Overnight und 12-Monats-USD LIBOR-Festlegungen wird unmittelbar nach dem 30. Juni 2023 eingestellt;

Unverbindliche deutsche Übersetzung

- (iii) die JPY LIBOR-Festlegungen für 1 Monat, 3 Monate und 6 Monate und die GBP LIBOR-Festlegungen für 1 Monat, 3 Monate und 6 Monate unmittelbar seit dem 31. Dezember 2021 nicht mehr repräsentativ sind; und
- (iv) die USD LIBOR-Einstellungen für 1 Monat, 3 Monate und 6 Monate werden unmittelbar nach dem 30. Juni 2023 nicht mehr repräsentativ sein.

Am 8. September 2021 wurde der Critical Benchmarks (References and Administrators' Liability) Bill (der "**Gesetzesentwurf**") in das House of Lords eingebracht und hatte seine erste Lesung.

Der Gesetzesentwurf wurde speziell im Hinblick auf die neuen Befugnisse der FCA gemäß dem Financial Services Act aus dem Jahr 2021 konzipiert, eine kritische Benchmark (oder bestimmte Tenors/Währungen einer solchen Benchmark) als A.23A-Benchmark gemäß der britischen Benchmark-Verordnung zu benennen, wenn sie nicht repräsentativ für den Markt oder die wirtschaftliche Realität ist, die sie messen soll oder, wenn die Repräsentativität der Benchmark gefährdet ist und die Repräsentativität der Benchmark nicht aufrechterhalten werden kann oder wiederhergestellt werden sollte. Die Befugnisse würden es der FCA ermöglichen, die LIBOR Methodologie so zu ändern, dass der LIBOR Zinssatz auf dem Referenzbildschirm weiterhin auf der Grundlage der geänderten Methodologie veröffentlicht werden kann: "synthetischer LIBOR". Weitere Einzelheiten sind noch zu klären, aber unter anderem führt der Gesetzesentwurf Bestimmungen ein, die nach englischem Recht die gesetzliche Wirkung haben sollen, dass Verweise auf den LIBOR so ausgelegt werden, dass sie den synthetischen LIBOR einschließen.

Im Juni 2021 konsultierte die FCA ihre vorgeschlagene Entscheidung, synthetische LIBORs für 1-Monats-, 3-Monats- und 6-Monats Sterling und JPY LIBORs zu verlangen und hat seitdem die Methodologie bestätigt, die sie von der ICE Benchmark Administration zur Berechnung dieser Sätze verlangen wird.

Mit Wirkung zum 1. Januar 2022 wurden die 1-Monats-, 3-Monats- und 6-Monats-Sätze in GBP und JPY ("**Synthetischer LIBOR**") von der FCA als A.23A-Benchmarks festgelegt. Seit diesem Zeitpunkt ist jede neue Verwendung des Synthetischen LIBOR (im Sinne der britischen Benchmark-Verordnung) durch ein beaufsichtigtes Unternehmen im Geltungsbereich der britischen Benchmark-Verordnung verboten. Jedoch ist die Verwendung des synthetischen LIBOR (im Sinne der britischen Benchmark-Verordnung) durch beaufsichtigte Unternehmen, die in den Anwendungsbereich der britischen Benchmark-Verordnung fallen, bis auf weiteres erlaubt, bis auf bei geclearten Derivatetransaktionen.

Ein solcher Synthetischer LIBOR wird auf einer zukunftsgerichteten Laufzeitbasis zuzüglich eines festen Spreads berechnet, aber es gibt keine Garantie dafür, dass ein solcher Zinssatz dem ursprünglichen LIBOR-Zinssatz ähnelt. Darüber hinaus gibt es keine Garantie dafür, wie lange ein Synthetischer LIBOR-Zinssatz noch verfügbar sein wird. Die FCA beabsichtigt, die Veröffentlichung der 1-, 3- und 6-Monats-JPY-LIBOR-Werte nur für ein Jahr bis Ende 2022 vorzuschreiben. Es wurde keine klare Aussage darüber getroffen, wie lange die FCA beabsichtigt, die Veröffentlichung der 1-, 3- und 6-Monats-GBP-LIBOR-Werte vorzuschreiben. Es wurde keine Entscheidung über die Einführung des synthetischen LIBOR für die USD-LIBOR-Einstellung getroffen, die bis Juni 2023 gelten, aber die "neue Verwendung" (im Sinne der britischen Benchmark-Verordnung) dieser USD-LIBOR-Einstellung durch beaufsichtigte Unternehmen ist seit dem 01. Januar 2022 verboten.

Die EU hat auch die EU-Benchmark-Verordnung geändert, um den Regulierungsbehörden die Befugnis zu geben, unter bestimmten begrenzten Umständen eine oder mehrere Ersatz-Benchmarks für kritische oder systemrelevante Benchmarks zu benennen, wenn bestimmte Auslöser erfüllt sind, die sich auf die mangelnde Repräsentativität, die Einstellung oder die geordnete Abwicklung der Benchmark beziehen

oder wenn ihre Verwendung durch beaufsichtigte Unternehmen in der Europäischen Union nicht mehr zulässig ist. Diese Gesetzgebung ist auch in erster Linie dazu gedacht, Verträge zu unterstützen, die keine Ausweichmöglichkeiten oder keine geeigneten Ausweichmöglichkeiten für eine dauerhafte Einstellung haben. Die Durchführungsverordnung zur Festlegung eines gesetzlichen Ersatz-Satzes für bestimmte Einstellungen des CHF-LIBOR und für den Benchmark EURO Overnight Index Average (EONIA) wurden am 22. Oktober 2021 im Amtsblatt der Europäischen Union veröffentlicht und gelten seit dem 01. Januar 2022 bzw. 3. Januar 2022.

Die ursprünglich vom Alternative Reference Committee (das „ARRC“) vorgeschlagene New Yorker („NY“) Gesetzgebung zur Unterstützung der Umstellung bestimmter Finanzierungsverträge, die dem New Yorker Recht unterliegen und unter anderem auf den USD LIBOR verweisen, sieht vor, dass jeder Vertrag, der auf dem USD LIBOR basiert oder keinen Fallback hat, von Rechts wegen auf den empfohlenen Benchmark-Ersatz zuzüglich Spread-Anpassung zurückfällt. In Zukunft könnte auch eine bundesgesetzliche Lösung in den Vereinigten Staaten in Kraft treten. Sollte dies nicht der Fall sein, wird die Anwendung der New Yorker Gesetzeslösung jedoch begrenzt sein.

Während die oben vorgeschlagenen gesetzgeberischen Lösungen einige schwierige Altgeschäfte unterstützen können, haben die Regulierungsbehörden klargestellt, dass sie keine Alternative zum aktiven Übergang darstellen. Parteien, die sich auf mögliche gesetzliche Lösungen verlassen, haben keine Kontrolle über die wirtschaftlichen Bedingungen dieser Maßnahme. Außerdem besteht das Risiko, dass solche gesetzgeberischen Lösungen nicht rechtzeitig wirksam werden, nicht alle Fragen regeln können oder nicht unter allen Umständen praktikabel sind, und die Existenz unterschiedlicher Lösungen in verschiedenen Rechtsordnungen könnte bei fehlender Harmonisierung auch zu potenziellen Rechtskonflikten führen.

Leverage-Risiko

Eine Aufnahme von Fremdkapital zum Kauf der Wertpapiere (Leverage) kann den Wert und die Rendite der Anlage wesentlich beeinträchtigen. Anleger, die eine Fremdfinanzierung in Bezug auf die Wertpapiere in Betracht ziehen, sollten weitere ausführliche Informationen zu den damit einhergehenden Risiken beim Fremdkapitalgeber anfordern.

Änderungen der Gesetze (auch der einschlägigen Steuergesetze) oder der steuerlichen Praxis

Die Wertpapierbedingungen basieren auf den zum Datum dieses Basisprospekts geltenden einschlägigen Gesetzen. Es kann keine Zusicherung hinsichtlich der Auswirkungen möglicher gerichtlicher Entscheidungen, Änderungen dieser Gesetze oder Verwaltungspraktiken nach dem Datum dieses Basisprospekts gegeben werden, und eine derartige Änderung könnte den Wert der von ihr betroffenen Wertpapiere wesentlich beeinträchtigen.

Die zum Datum dieses Basisprospekts und/oder zum Zeitpunkt des Kaufs oder der Zeichnung von Wertpapieren geltenden Steuergesetze, Steuervorschriften oder die geltende Steuerpraxis können zusätzlich jederzeit Änderungen unterliegen (auch während einer Zeichnungsfrist oder der Laufzeit von Wertpapieren), und es ist nicht möglich, die genaue steuerliche Behandlung, die für die Wertpapiere zu einem gegebenen Zeitpunkt gilt, vorherzusagen. Eine entsprechende Änderung kann sich nachteilig auf den Anleger auswirken, u. a. dahingehend, dass die Wertpapiere unter Umständen vor ihrer Fälligkeit zurückgezahlt werden, ihre Liquidität gegebenenfalls abnimmt und/oder die steuerliche Behandlung von an einen Anleger zu zahlenden oder diesem zustehenden Beträgen ungünstiger ausfallen kann als andernfalls von ihm erwartet.

Ratings spiegeln möglicherweise nicht alle Risiken wider

Eine oder mehrere unabhängige Ratingagentur(en) vergeben unter Umständen Ratings für im Rahmen des Programms begebene Wertpapiere, einschließlich der Wertpapiere. Die von den jeweiligen Ratingagenturen verwendeten Rating-Methoden, -Kriterien, -Modelle und -Anforderungen weichen möglicherweise voneinander ab. Die Ratings spiegeln möglicherweise nicht die potenziellen Auswirkungen sämtlicher vorstehend genannter Risiken im Hinblick auf die Struktur, den Markt sowie sonstige Faktoren, die den Wert der Wertpapiere beeinflussen können, wider. Ein Rating stellt keine Empfehlung zum Kauf, Verkauf oder zum Halten von Wertpapieren dar und kann jederzeit von der Ratingagentur herabgestuft, zurückgezogen oder eingeschränkt werden. Werden die Ratings der Wertpapiere herabgestuft, zurückgezogen oder eingeschränkt, könnte dies die Liquidität oder den Marktwert dieser Wertpapiere beeinträchtigen.

Des Weiteren ist die Regulierung des Finanzsektors selbst weltweit einem umfassenden Wandel unterworfen. In den USA sorgt u. a. der *Dodd-Frank Act* dafür, dass die regulatorische Aufsicht über die Citigroup Inc. (und ihre Tochterunternehmen) und die Ratingagenturen erweitert wird. Es ist nicht eindeutig, wie sich diese erweiterte Aufsicht auf die Ratings der Wertpapiere oder die Ratings der maßgeblichen Emittentin, der CGMHI-Garantiegeberin und/oder der CGMFL-Garantiegeberin auswirkt.

Im Allgemeinen dürfen Anleger, die der Regulierung in Europa (abgesehen vom Vereinigten Königreich) unterliegen, nach den Bestimmungen der EU-CRA-Verordnung Ratings nicht zu aufsichtsrechtlichen Zwecken nutzen, es sei denn, diese Ratings werden von einer in der EU gegründeten und nach der EU-CRA-Verordnung registrierten Ratingagentur vergeben (vorausgesetzt, eine entsprechende Registrierung wurde nicht zurückgenommen oder ausgesetzt, vorbehaltlich der Übergangsbestimmungen, die unter bestimmten Umständen gelten). Eine entsprechende allgemeine Einschränkung gilt ebenfalls für Ratings, die von Nicht-EU-Ratingagenturen vergeben werden, es sei denn, die entsprechenden Ratings werden von einer in der EU registrierten Ratingagentur gebilligt oder die relevante Nicht-EU-Ratingagentur ist gemäß der EU-CRA-Verordnung zertifiziert (vorausgesetzt, eine entsprechende Billigung bzw. Zertifizierung wurde nicht zurückgenommen oder ausgesetzt, vorbehaltlich der Übergangsbestimmungen, die unter bestimmten Umständen gelten). Ändert sich der Status der Ratingagentur, die das Rating der Wertpapiere durchführt, kann es sein, dass Anleger, die der Regulierung in Europa (abgesehen vom Vereinigten Königreich) unterliegen, das Rating nicht mehr zu aufsichtsrechtlichen Zwecken nutzen können, und die Wertpapiere können eine andere aufsichtsrechtliche Behandlung erfahren. Das kann dazu führen, dass Anleger, die der Regulierung in Europa (abgesehen vom Vereinigten Königreich) unterliegen, die Wertpapiere verkaufen, was den Wert der Wertpapiere und jeden Sekundärmarkt beeinflussen kann. Die von der ESMA gemäß der EU-CRA-Verordnung auf ihrer Webseite veröffentlichte Liste der registrierten und zertifizierten Ratingagenturen ist kein abschließender Nachweis des Status der betreffenden in dieser Liste aufgeführten Ratingagentur, da es zwischen der Ergreifung bestimmter aufsichtsrechtlicher Maßnahmen in Bezug auf die betreffende Ratingagentur und der Veröffentlichung der aktualisierten ESMA-Liste zu zeitlichen Verzögerungen kommen kann.

Im Allgemeinen dürfen Anleger, die der Regulierung im Vereinigten Königreich unterliegen, nach den Bestimmungen der UK-CRA-Verordnung Ratings nicht zu aufsichtsrechtlichen Zwecken nutzen, es sei denn, diese Ratings werden von einer im Vereinigten Königreich gegründeten und nach der UK-CRA-Verordnung registrierten Ratingagentur vergeben (und die entsprechende Registrierung wurde nicht zurückgenommen oder ausgesetzt, vorbehaltlich der Übergangsbestimmungen, die unter bestimmten Umständen gelten). Eine entsprechende allgemeine Einschränkung gilt ebenfalls für Ratings, die von Nicht-UK-Ratingagenturen vergeben werden, es sei denn, die entsprechenden Ratings werden von einer

Citi, ihre Geschäftsführung und ihre Geschäftsbereiche müssen kontinuierlich aufsichtsrechtliche und andere Unsicherheitsfaktoren und Änderungen in den USA und weltweit prüfen, analysieren und erfolgreich umsetzen

Trotz der Umsetzung finaler Regelungen und Gesetze in zahlreichen Bereichen, die Auswirkungen auf die Citigroup Inc. und ihre Geschäftsbereiche in den vergangenen Jahren hatten, werden die Citigroup Inc., ihre Geschäftsführung und ihre Geschäftsbereiche fortlaufend mit aufsichtsrechtlichen und die Gesetzgebung betreffenden Unsicherheitsfaktoren und Änderungen, sowohl in den Vereinigten Staaten von Amerika ("USA") als auch weltweit, konfrontiert. Es gibt zu viele Bereiche, in denen die Citigroup Inc. fortlaufend aufsichtsrechtlichen und die Gesetzgebung betreffenden Unsicherheitsfaktoren und Änderungen ausgesetzt ist, um diese vollständig aufzuführen; verschiedene Beispiele umfassen u. a. (i) mögliche steuerrechtliche, geldpolitische, aufsichtsrechtliche, steuerliche und andere Änderungen durch die Regierung in den USA und andere Regierungen, so auch infolge der verschiedenen Prioritäten der aktuellen US-Regierung, Änderungen in der Besetzung der Führungspositionen aufsichtsrechtlicher Institutionen oder Fokus und Initiativen des Kongresses oder als Reaktion auf die Pandemie; (ii) mögliche Änderungen verschiedener Aspekte des für die Citigroup Inc. anzuwendenden regulatorischen Kapitalrahmens und der für sie anzuwendenden regulatorischen Anforderungen; und (iii) zukünftigen gesetzgebenden und aufsichtsrechtlichen Anforderungen in den Vereinigten Staaten und weltweit im Zusammenhang mit dem Klimawandel, einschließlich aller neuen Offenlegungspflichten. Bei der Verwendung von "aufsichtsrechtlich" nimmt Citigroup Inc. sowohl Bezug auf die formelle Aufsicht als auch auf die Meinungen und Erwartungen der Aufsichtsbehörden in ihren Aufsichtsfunktionen.

Anhaltende aufsichtsrechtliche und die Gesetzgebung betreffende Unsicherheitsfaktoren und Änderungen sorgen für eine schwierige langfristige Geschäfts-, Bilanz- und strategische Budgetplanung der Citigroup Inc. und ihrer Geschäftsführung sowie potenzielle diesbezügliche Änderungen, möglicherweise mit höheren Kosten. Die US-amerikanische und andere Aufsichtsbehörden haben weltweit bereits zahlreiche Änderungen an bestimmten aufsichtsrechtlichen Anforderungen vorgenommen und setzen ihre diesbezüglichen Gespräche fort, was anhaltende Prüfungen der Geschäftsführung hinsichtlich der Auswirkungen auf die Citigroup Inc., ihre Geschäftsbereiche und die Geschäftsplanung erfordern würde. Während beispielsweise die aufsichtsrechtlichen Reformen und das

überarbeitete Rahmenwerk hinsichtlich des Marktrisikos unter Basel III im Anschluss an die Krise auf internationaler Ebene abgeschlossen wurden, bestehen noch immer große Unsicherheiten in Bezug auf die Integration dieser Neuregelungen in den Eigenkapital-Regelungsrahmen der USA. Die Geschäftsplanung muss auf potenziellen oder geplanten Regelungen oder Ergebnissen basieren, die sich im Zuge der Finalisierung, der Umsetzung oder im Rahmen von Auslegungsempfehlungen durch zahlreiche Aufsichtsbehörden weltweit stark ändern können, und entsprechende Empfehlungen können Änderungen unterliegen.

Des Weiteren wurden aufsichtsrechtliche Initiativen und Gesetzgebungsinitiativen in den USA und weltweit nicht immer koordiniert ausgeführt oder umgesetzt und in Bezug auf Umfang, Auslegung, Zeitrahmen, Struktur oder Ansatz haben sich bzw. werden sich weiterhin Abweichungen ergeben, die zu inkonsistenten und sogar kollidierenden Anforderungen führen, u. a. auch in einer einzelnen Rechtsordnung. Beispielsweise hat die Europäische Kommission im Mai 2019 als Teil der Eigenkapitalrichtlinie V eine neue Vorgabe für große Bankengruppen mit Sitz außerhalb der EU (was auf die Citigroup Inc. zutreffen würde) eingeführt, eine EU-Zwischenholding zu errichten, wenn eine ausländische Bank zwei oder mehr Institute mit Sitz in der EU besitzt (was im Allgemeinen Banken, Broker-Dealer und ähnliche Finanzunternehmen umfasst). Während diese Vorgabe in einigen Hinsichten das Pendant zu einer bestehenden US-Vorgabe für Nicht-US-Banken zur Errichtung von US-Zwischengesellschaften ist, könnte die Einführung der Vorgabe einer EU-Holdinggesellschaft die Abwicklungsplanung, Kapital- und Liquiditätszuweisung und Effizienz der Citigroup Inc. in zahlreichen Rechtsordnungen komplexer machen.

Aufsichtsrechtliche und die Gesetzgebung betreffende Änderungen haben zudem die Compliance-Risiken und -Kosten der Citigroup Inc. wesentlich erhöht und könnten dessen Geschäfte, Betriebsergebnisse und Finanzlage negativ beeinflussen.

Grüne Anleihen

Die Endgültigen Bedingungen können in Bezug auf die Emission bestimmter Wertpapiere vorsehen, dass es in der Absicht der maßgeblichen Emittentin liegt, einen Betrag in Höhe der Nettoerlöse aus diesen Wertpapieren insgesamt oder teilweise zur Finanzierung oder Refinanzierung von "Förderfähigen Grünen Vermögenswerten" zu verwenden, womit Darlehen von Unternehmen im Konzern für Vermögenswerte oder Projekte oder Anlagen von Unternehmen im Konzern in Vermögenswerte oder Projekte bezeichnet werden, die die Förderfähigkeitskriterien für Grüne Anleihen (wie näher im Rahmenwerk für Grüne Anleihen beschrieben) des Konzerns in Übereinstimmung mit dem Rahmenwerk für Grüne Anleihen des Konzerns erfüllen, bei dem der Einsatz dieser Mittel die Strategie des nachhaltigen Fortschritts des Konzerns fördert ("**Grüne Anleihen**"). Potenzielle Anleger sollten auf der Grundlage ihrer eigenen Beurteilung, ihrer eigenen Umstände und Anlagekriterien oder -leitlinien und nach Beratung durch diejenigen Berater, deren Beratung sie für erforderlich halten, ihre eigene, unabhängige Entscheidung in Bezug auf eine Anlage in Grüne Anleihen sowie darüber treffen, ob eine Anlage in diese Wertpapiere für sie angemessen oder geeignet ist.

Rahmenwerk für Grüne Anleihen

Der Konzern hat ein Rahmenwerk für Grüne Anleihen (das "**Rahmenwerk für Grüne Anleihen**") für die Emission von Wertpapieren zur Finanzierung von Projekten, die dem Klimawandel entgegenwirken, sowie Projekten, die eine nachhaltige Infrastruktur fördern, entwickelt. Die nachstehende Beschreibung basiert auf dem Rahmenwerk für Grüne Anleihen zum Datum dieses Basisprospekts. Jedoch wird das Rahmenwerk für Grüne Anleihen bei Veranlassung möglicherweise geändert oder aktualisiert, weshalb sich Anleger für Informationen über den Einsatz der Erlöse aus den maßgeblichen Wertpapieren auf die jüngste Version des Rahmenwerks für Grüne Anleihen, die auf der Website des Konzerns unter

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

(https://www.citigroup.com/citi/fixedincome/green_bonds.htm) zur Verfügung stehen wird, und die anwendbaren Endgültigen Bedingungen beziehen sollten.

Zum Datum dieses Basisprospekts ist über das Rahmenwerk für Grüne Anleihen ein Zweitgutachten durch einen unabhängigen Berater auf die darin im Einzelnen beschriebene Weise erstellt worden. Ein solches Gutachten ist nur zum Datum seiner Ausstellung aktuell, stellt keine Empfehlung der maßgeblichen Emittentin, der Vertriebspartner oder einer anderen Person zum Kauf, Verkauf oder Halten Grüner Anleihen dar und ist auch nicht so zu verstehen. Potenzielle Anleger müssen für sich selbst entscheiden, inwieweit ein solches Gutachten und/oder die darin enthaltenen Informationen für eine Anlage in Grüne Anleihen relevant sind. Zum Datum dieses Basisprospekts unterliegen die solche Gutachten erstellenden Parteien keiner besonderen Beaufsichtigung oder Regulierung oder einem anderen Regelwerk. Zur Klarstellung: Das Rahmenwerk für Grüne Anleihen und derartige Gutachten sind weder in diesen Basisprospekt einbezogen, noch stellen sie einen Teil dieses Basisprospekts dar und sind auch nicht so zu verstehen.

Förderfähige Grüne Projekte

Die im Rahmenwerk für Grüne Anleihen beschriebenen Förderfähigkeitskriterien für Grüne Anleihen spiegeln bewährte Verfahren zur Förderung des Übergangs zu einer emissionsarmen Wirtschaft durch Projekte in einem oder mehreren der folgenden Bereiche (oder einem anderen, in den anwendbaren Endgültigen Bedingungen beschriebenen geeigneten Bereich) ("**Förderfähige Grüne Projekte**") wider:

- *Erneuerbare Energien:* Eine Allokation von Erlösen ist für den Erwerb, die Entwicklung, den Betrieb und die Instandhaltung neuer und bestehender Initiativen und der damit einhergehenden Kosten im Bereich erneuerbare Energien möglich.
- *Energieeffizienz:* Eine Allokation von Erlösen ist für die Finanzierung oder Refinanzierung von *Warehouse Facilities* für Energieeffizienzdarlehen für Wohngebäude oder für Anbieter von Konsumentenkrediten, die Energieeffizienzdarlehen für Wohngebäude-Projekte oder -Vermögenswerte gewähren, die den Energieverbrauch oder die Emission von Treibhausgasen senken, möglich.
- *Nachhaltiger Transport:* Eine Allokation von Erlösen ist für den Aufbau und Betrieb der öffentlichen Verkehre und die Schaffung oder den Bau einer Infrastruktur zur Förderung der öffentlichen Verkehre möglich.
- *Wasserqualität und Gewässerschutz:* Eine Allokation von Erlösen ist für Projekte zur Verbesserung von Wasserqualität, Effizienz und Gewässerschutz möglich.

Der Arbeitsgruppe Vermögenswerte für Grüne Anleihen (*Green Bond Assets - GBA*) des Konzerns (die "**GBA-Arbeitsgruppe**") obliegt die Überwachung des Portfolios der Vermögenswerte für Grüne Anleihen und der Gesamtsumme der von Unternehmen des Konzerns begebenen Grünen Anleihen, um sicherzustellen, dass das Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen gleich oder größer ist als die im Rahmen solcher Grüner Anleihen aufgebrachte Gesamtsumme. Berichterstattung

Im Rahmen des Rahmenwerks für Grüne Anleihen veröffentlicht der Konzern innerhalb eines Jahres nach der Emission von Grünen Anleihen auf seiner Website unter (https://www.citigroup.com/citi/fixedincome/green_bonds.htm) einen Bericht (der "**Bericht über Grüne Anleihen**"), der bis zur vollständigen Allokation und im Falle wesentlicher Änderungen jährlich erneuert wird. Anlegern in einzelne Grüne Anleihen geht in Bezug auf das Portfolio der Vermögenswerte für Grüne Anleihen keine weitere oder gesonderte Benachrichtigung zu.

Der Bericht über Grüne Anleihen informiert im Einzelnen über (i) den Gesamtbetrag der im Portfolio der Vermögenswerte für Grüne Anleihen enthaltenen Vermögenswerte und die durch die Emission von Grünen Anleihen aufgebrachte ausstehende Gesamtsumme; (ii) die förderfähigen Vermögenswerte im Portfolio der Vermögenswerte für Grüne Anleihen und das finanzielle Obligo der Emittentin in Bezug auf jeden Vermögenswert; (iii) die Gesamthöhe ggf. nicht zugewiesener Erlöse; und (iv) die umweltbezogenen Auswirkungen des Portfolios der Vermögenswerte für Grüne Anleihen, soweit diese Angabe praktikabel ist. Ein solcher Bericht ist nur zum Datum seiner Ausstellung aktuell, stellt keine Empfehlung der Emittentin, der Vertriebspartner oder einer anderen Person zum Kauf, Verkauf oder Halten Grüner Anleihen dar und ist auch nicht so zu verstehen.

Im Rahmen des Rahmenwerks für Grüne Anleihen hat die Emittentin auch unabhängige externe Wirtschaftsprüfer mit der Prüfung der im Portfolio der Vermögenswerte für Grüne Anleihen enthaltenen Vermögenswerte beauftragt, um zu überprüfen, dass diese die Förderfähigkeitskriterien für Grüne Anleihen erfüllen und keine Anlagen in Vermögenswerte erfolgt sind, die der Definition in den Ausschlusskriterien entsprechen, und dass das Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen gleich oder größer ist als die durch Grüne Anleihen aufgebrachte Gesamtsumme (oder, dass, soweit die Gesamtsumme der ausstehenden Anleihen unter dem Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen liegt, der Unterschiedsbetrag auf die im Rahmenwerk für Grüne Anleihen beschriebene Weise gehalten wird). Berichterstattung

Im Rahmen des Rahmenwerks für Soziale Anleihen veröffentlicht der Konzern innerhalb eines Jahres nach der Emission der allerersten Sozialen Anleihen auf seiner Website unter (https://www.citigroup.com/citi/fixedincome/housing_bonds.htm) einen Bericht (der "**Bericht über Anleihen für Bezahlbaren Wohnraum**"), der sämtliche Soziale Anleihen, die im darin angegebenen Berichtszeitraum emittiert wurden, und jegliche wesentlichen Änderungen des Portfolios der Vermögenswerte für Anleihen für Bezahlbaren Wohnraum behandelt. Anlegern in einzelne Soziale Anleihen geht in Bezug auf das Portfolio der Vermögenswerte für Anleihen für Bezahlbaren Wohnraum keine weitere oder gesonderte Benachrichtigung zu.

Der Bericht über Anleihen für Bezahlbaren Wohnraum informiert über (i) den gesamten ausstehenden Nennwert der während des Berichtszeitraums begebenen Sozialen Anleihen; (ii) den gesamten ausstehenden Betrag der finanzierten Finanzanlagen, die das Portfolio der Vermögenswerte für Anleihen für Bezahlbaren Wohnraum beinhalten; (iii) den Gesamtbetrag der ggf. nicht zugewiesenen Erlöse, die Bargeld oder bargeldähnlichen Werten und/oder anderen liquiden marktfähigen Instrumenten zugewiesen wurden; und (iv) die gesellschaftlichen Auswirkungen der Sozialen Anleihen durch Informationen zu den Wohnimmobilien, die mit dem Portfolio der Vermögenswerte für Anleihen für Bezahlbaren Wohnraum verbunden sind. Von der CGMHI ausgegebene Social-Finance-Anleihen

Die Endgültigen Bedingungen für die Emission bestimmter Schuldverschreibungen können vorsehen, dass die betreffende Emittentin beabsichtigt, einen Betrag in Höhe des Nettoerlöses dieser Schuldverschreibungen zur Finanzierung oder Refinanzierung eines Teils eines bestimmten Portfolios von Vermögenswerten des Konzerns (diese Vermögenswerte, die "**Social-Finance-Vermögenswerte**" und jedes solche Portfolio, das "**Social-Finance-Vermögenswerte-Portfolio**") zu verwenden, die die Eignungskriterien für das Social-Finance-Vermögenswerte-Portfolio erfüllen. Potenzielle Anleger sollten ihre eigene unabhängige Entscheidung treffen, ob sie in die Social-Finance-Anleihen investieren wollen und ob eine Anlage in solche Wertpapiere für sie geeignet oder angemessen erscheint, und zwar auf der Grundlage ihres eigenen Urteils, ihrer Umstände und ihrer Anlagekriterien oder -richtlinien sowie auf der Grundlage einer Beratung, sofern sie eine solche für notwendig erachten.

Social-Finance-Anleihen werden nicht von CGMFL emittiert.

Social-Finance-Rahmenwerk

Der Konzern hat das 'Citigroup Social Finance Framework' (das "**Social-Finance-Rahmenwerk**") für Wertpapieremissionen entwickelt, um die Kreditvergabe an soziale Unternehmen in Schwellenländern zu unterstützen. Die nachstehende Beschreibung basiert auf dem Social-Finance-Rahmenwerk in der Fassung zum Zeitpunkt der Erstellung dieses Basisprospekts. Jedoch wird das Social-Finance-Rahmenwerk bei Veranlassung möglicherweise geändert oder aktualisiert, weshalb sich Anleger für Informationen über den Einsatz der Erlöse aus den maßgeblichen Wertpapieren auf die jüngste Version des Rahmenwerks für Social Finance, die auf der Website des Konzerns unter (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) zur Verfügung stehen wird, und die anwendbaren Endgültigen Bedingungen beziehen sollten.

Das Social-Finance-Rahmenwerk wurde im Einklang mit den Social Bond Principles 2021 der International Capital Market Association (ICMA) entwickelt.

Zum Datum dieses Basisprospekts hat das Social-Finance-Rahmenwerk wie darin beschrieben eine "second party opinion" von einem unabhängigen Berater erhalten. Eine solche Stellungnahme ist stets nur zum Zeitpunkt ihrer Abgabe aktuell und stellt keine Empfehlung des Emittenten, des Händlers oder einer anderen Person zum Kauf, Verkauf oder Halten von Social-Finance-Anleihen dar und ist auch nicht als solche zu verstehen. Potenzielle Anleger müssen selbst entscheiden, inwieweit eine solche Stellungnahme und/oder die darin enthaltenen Informationen für die Zwecke einer Investition in Social-Finance-Anleihen für sie relevant sind. Zum Datum dieses Basisprospekts unterliegen die solche Gutachten erstellenden Parteien keiner besonderen Beaufsichtigung oder Regulierung oder einem anderen Regelwerk. Social-Finance-Vermögenswerte

Die Social-Finance-Vermögenswerte müssen die Förderkriterien für das Social-Finance-Vermögenswerte-Portfolio erfüllen, indem sie in eine der unten aufgeführten Kategorien fallen:

- (1) *Zugang zu grundlegenden Dienstleistungen*: Finanzierung einer Erweiterung des Zugangs zu Finanzdienstleistungen für Personen, die keinen Zugang zu Banken haben, und für kleine und mittelständische Unternehmen (KMU);
- (2) *Bezahlbarer Wohnraum*: Finanzierung von Unternehmen und Finanzdienstleistern, die benachteiligten Personen den Zugang zu Wohnraum, sowie die Verbesserung von Wohnraum ermöglichen;
- (3) *Bezahlbare Grundversorgung*: Finanzierung von Unternehmen, die die Verfügbarkeit von Wasser, sanitären Einrichtungen oder sauberer Energie für netzferne Gemeinden in Schwellenländern ausbauen;
- (4) *Zugang zur Grundversorgung (Gesundheitswesen)*: Finanzierung von Unternehmen, die den Zugang zu einer integrativen Gesundheitsversorgung ausweiten, sowie einen gesunden Lebensstil und das Wohlbefinden fördern;
- (5) *Zugang zur Grundversorgung (Bildung)*: Finanzierung von Unternehmen und Organisationen, die integratives, lebenslanges Lernen für benachteiligte Menschen ohne Zugang zu Bildung, sowie für Menschen in Schwellenländern anbieten und fördern;
- (6) *Zugang zur Grundversorgung (Finanzierung von Kleinbauern)*: Finanzierung von sozialen Unternehmen, die Produkte und Dienstleistungen für Kleinbauern anbieten.

Der Konzern hat eine Liste von Ausschlusskriterien für die Verwendung der Erlöse aus Social-Finance-Anleihen (die "**Ausschlusskriterien**") (beispielsweise bestimmte Darlehen oder Investitionen (i) für Projekte in Ländern mit hohem Einkommen, (ii) in Einrichtungen, die die arbeitsrechtlichen Vorgaben nicht einhalten, (iii) zur Unterstützung der Energieerzeugung aus fossilen Brennstoffen, (iv) die zu wirtschaftlichen Verlusten für den Konzern führen könnten, (v) in Aktivitäten, die mit dem Social-Finance-Rahmenwerk unvereinbar sind oder die erhebliche negative soziale Auswirkungen haben, oder (vi) in "verbotene Aktivitäten" gemäß der Definition des Rahmenwerks für Social-Finance) und verpflichtet sich, keines dieser Projekte oder dieser Aktivitäten wissentlich in das Social-Finance-Vermögenswerte-Portfolio aufzunehmen.

Auswahl- und Bewertungsverfahren für förderfähige Social-Finance-Vermögenswerte

Das auf Social-Finance spezialisierte Team des Konzerns wird prüfen, ob Vermögenswerte die Förderkriterien für das Social-Finance-Vermögenswerte-Portfolio erfüllen, und ermittelt ein eindeutiges Social-Finance-Vermögenswerte-Portfolio für den Gesamtnennbetrag der während eines bestimmten Berichtszeitraums ausgegebenen Wertpapiere, die für Social-Finance-Anleihen ("Social-Finance-Anleihen") verwendet werden sollen. Nach der Prüfung werden die Social-Finance-Vermögenswerte in das Social-Finance-Vermögenswerte-Portfolio aufgenommen. Der Auswahlprozess für die Social-Finance-Vermögenswerte berücksichtigt, ob der potenziell förderungsfähige Vermögenswert die Förderkriterien erfüllt. Darüber hinaus unterliegt die Auswahl von Social-Finance-Vermögenswerten auch den Risikobewilligungsrichtlinien und den Kreditüberwachungsstandards der jeweiligen Länder. Wird die Investition der Gruppe in einen Vermögenswert in einem Social-Finance-Vermögenswerte-

Management der Erlöse

Der Arbeitsgruppe 'Sustainable Bond Working Group' des Konzerns (die "**SB-Arbeitsgruppe**") obliegt die Überwachung des Social-Finance-Vermögenswerte-Portfolios und der Gesamtsumme der von Unternehmen des Konzerns begebenen Social-Finance, um sicherzustellen, dass das Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolio gleich oder größer ist als die im Rahmen solcher Social-Finance aufgebrauchte Gesamtsumme. Dafür nutzen sie ein internes Vermögensverwaltungssystem. Zu diesem Zweck werden Gesamtgröße und Fälligkeit des Portfolios der Vermögenswerte für Grüne Anleihen vierteljährlich kontrolliert. Liegt das Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolios aus einem beliebigen Grund unter der Gesamtsumme aus den begebenen Social-Finance, wird der nicht zugewiesene Betrag in Bargeld oder bargeldähnlichen Werten und/oder anderen liquiden marktfähigen Instrumenten (so auch in US-Schatzpapieren) im Liquiditätsbestand des Konzerns gehalten, bis der Betrag dem Social-Finance-Vermögenswerte-Portfolio zugewiesen werden kann.

Berichterstattung

Im Rahmen des Rahmenwerks für Social-Finance veröffentlicht der Konzern innerhalb eines Jahres nach der Emission von Social-Finance-Anleihen auf seiner Website unter (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) einen Bericht (der "**Bericht über Social-Finance-Anleihen**"), der bis zur vollständigen Allokation der Erlöse jährlich und im Falle wesentlicher Änderungen erneuert wird.

Der Bericht über Social-Finance-Anleihen wird die Allokation und die Wirkungsberichterstattung für alle Social-Finance-Anleihen, die innerhalb des darin angegebenen Berichtszeitraums emittiert wurden, beinhalten. Zudem wird er aktualisierte Informationen enthalten, sollte es zu einer wesentlichen Veränderung des Social-Finance-Vermögenswerte-Portfolios kommen.

Bitte beachten Sie, dass Anlegern in einzelne Social-Finance-Anleihen in Bezug auf das Social-Finance-Vermögenswerte-Portfolio keine weitere oder gesonderte Benachrichtigung zugeht.

Externe Prüfung

Im Rahmen des Rahmenwerks für Soziale Anleihen wird der Konzern auch unabhängige externe Wirtschaftsprüfer mit der Prüfung der im Social-Finance-Vermögenswerte-Portfolio enthaltenen Vermögenswerte beauftragen, um zu überprüfen, dass diese die Förderfähigkeitskriterien für Social-Finance-Anleihen erfüllen und keine Anlagen in Vermögenswerte erfolgt sind, die der Definition in den Ausschlusskriterien entsprechen, und dass das Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolio gleich oder größer ist als die im Rahmen der Emission von Social-Finance-Anleihen aufgebrauchte Gesamtsumme (oder, dass, soweit die Gesamtsumme der ausstehenden Social-Finance-Anleihen unter dem Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolio liegt, der Unterschiedsbetrag auf die im Social-Finance-Rahmenwerk beschriebene Weise gehalten wird). Ein Prüfbericht ist nur zum Datum seiner Ausstellung aktuell, und Anleger müssen für sich selbst entscheiden, inwieweit ein solcher Bericht und/oder die darin enthaltenen Informationen für ihre Anlageüberlegungen oder Erwartungen relevant sind.

ABSCHNITT E – INFORMATIONEN ZU DER EMITTENTIN UND DER GARANTIEGEBERIN

ABSCHNITT E.1 – BESCHREIBUNG DER CITIGROUP INC.

Die Citigroup Inc. ("Citi", die "Gesellschaft" oder "Citigroup") ist eine globale, diversifizierte Finanzdienstleistungs-Holdinggesellschaft, deren Geschäftsbereiche Verbrauchern, Unternehmen, Regierungen und Institutionen eine breite und doch fokussierte Palette von Finanzprodukten und -dienstleistungen bietet. Die Citigroup Inc. betreut ungefähr 200 Millionen Kundenkonten und ist in über 160 Ländern und Rechtsordnungen geschäftlich tätig. Bei der Citigroup Inc. handelt es sich um eine Bank-Holdinggesellschaft im Sinne des *U.S. Bank Holding Company Act* aus dem Jahr 1956, die beim *Board of Governors of the Federal Reserve System* (die "Federal Reserve") registriert ist und seiner Prüfung unterliegt. Einige der Tochtergesellschaften der Citi unterliegen der Aufsicht und Prüfung ihrer jeweiligen Behörden auf Bundesebene und einzelstaatlicher Ebene. Zum 31. Dezember 2021 beschäftigte die Citigroup Inc. ungefähr 200.000 Vollzeitmitarbeiter weltweit.

Gegenstand und Zweck der Citigroup Inc. ist es, "alle rechtmäßigen Handlungen und Aktivitäten zu unternehmen, für die Kapitalgesellschaften nach Maßgabe des *General Corporation Law* von Delaware gegründet werden können", wie es im DRITTEN Artikel der Neu Gefassten Gründungsurkunde (*Restated Certificate of Incorporation*) von Citi ausgeführt ist. Zum ersten Quartal 2022 wurde die Citigroup Inc. nach drei operativen Segmenten geführt: in der *Institutional Clients Group*, *Personal Banking and Wealth Management and Legacy Franchises* und für die sonstige Geschäftstätigkeit in dem Segment *Corporate/Other*. Ihre Geschäftsbereiche sind in ganz Nordamerika, Südamerika, Asien und Europa, dem Mittleren Osten und Afrika tätig. Die wichtigsten Tochtergesellschaften der Citigroup Inc. sind die Citibank, N.A., die Citigroup Global Markets Inc. und die Grupo Financiero Banamex, S.A. de C.V.; jede von ihnen ist eine hundertprozentige indirekte Tochtergesellschaft der Citigroup Inc.

Die Citigroup Inc. ist eine Holdinggesellschaft und kommt ihren Verpflichtungen in erster Linie aus den Erlösen ihrer operativen Tochtergesellschaften nach. Die Citigroup Inc. kann ihr Kapital neben anderen Formen der Begebung durch die Emission von Stammaktien, unbefristeten Vorzugsaktien (*perpetual preferred stocks*) und über im Rahmen von Zuteilungen unter Altersvorsorgeplänen begebenes Eigenkapital erhöhen. Die Citigroup Inc. und ihre Tochtergesellschaften, die in den Geschäftsbereichen Banking und Wertpapiergeschäft tätig sind, können nur dann Dividenden zahlen, wenn sie die anwendbaren aufsichtsrechtlichen Anforderungen erfüllen, die ihnen von den Banken- und Wertpapieraufsichtsbehörden in den Vereinigten Staaten auf Bundesebene wie auf einzelstaatlicher Ebene auferlegt werden. Die Tochtergesellschaften der Citigroup Inc. können Kreditvereinbarungen schließen, die auch ihre Fähigkeit zur Zahlung von Dividenden beschränken können. Die Citigroup Inc. ist gegenwärtig der Auffassung, dass keine dieser aufsichtsrechtlichen oder vertraglichen Beschränkungen der Fähigkeit ihrer Tochtergesellschaften, Dividenden zu zahlen, die Fähigkeit der Citigroup Inc., ihren eigenen Schuldendienst zu leisten, beeinträchtigen wird. Bevor sie Dividenden auf ihre Aktien ausschütten kann, muss die Citigroup Inc. ferner Kapital in den für eine Bank-Holdinggesellschaft erforderlichen Höhen vorhalten und der Federal Reserve einen Kapitalplan vorlegen, der einem Stresstest unterzogen wird und gegen den die Federal Reserve keine Einwendungen erhebt.

Nach Maßgabe eines schon lange von der Federal Reserve verfolgten Grundsatzes wird von einer Bank-Holdinggesellschaft erwartet, dass sie ihren Tochterbanken als Quelle der Finanzkraft dient. Infolge dieses regulatorischen Grundsatzes kann die Federal Reserve von der Citigroup Inc. verlangen, ihren

Tochterbanken Ressourcen zu überlassen, auch wenn dies ansonsten nicht im Interesse der Citigroup Inc. oder ihrer Aktionäre oder Gläubiger liegt.

Der Firmensitz der Citigroup Inc. befindet sich in 388 Greenwich Street, New York, NY 10013, und ihre Telefonnummer lautet + 1 212 559-1000. Sofern sie nicht eigens durch Verweis in dieses Dokument einbezogen wurden, sind Informationen auf der Website nicht als in diesen Basisprospekt einbezogen oder als Teil dieses Basisprospekts zu betrachten. Die Citigroup Inc. wurde am 8. März 1988 als Kapitalgesellschaft in Delaware gegründet und unter dem Aktenzeichen 2154254 bei der *Delaware Division of Corporations* auf unbestimmte Dauer nach dem *Delaware General Corporation Law* registriert. Das genehmigte Aktienkapital der Citi besteht aus 6 Milliarden Stammaktien und 30 Millionen Vorzugsaktien. Zum 31. Dezember 2021 befanden sich 1.984.355.194 voll eingezahlte Stammaktien und 759.800 voll eingezahlte Vorzugsaktien in Umlauf. Eine Stammaktie gewährt eine Stimme, ist jedoch nicht mit Vorkaufs- oder sonstigen Bezugs- oder Wandlungsrechten ausgestattet. Eine Vorzugaktie gewährt kein allgemeines Stimmrecht.

Kein Aktionär und kein gemeinsam handelnder Aktionärskreis hält genügend Stammaktien der Citigroup Inc., um eine direkte oder indirekte Kontrolle über die Citi ausüben zu können.

Juli 2019 von den acht global systemrelevanten Banken in den USA, einschließlich Citigroup Inc. Die Federal Reserve und die FDIC stellten im Abwicklungsplan von Citigroup Inc. eine Unzulänglichkeit, aber keine Mängel in Bezug auf die Governance-Mechanismen fest. Auf der Grundlage der am 31. Dezember 2019 in Kraft getretenen aufsichtsrechtlichen Änderungen handelte es sich bei dem am 1. Juli 2021 eingereichten Abwicklungsplan von Citigroup Inc. (der "**Abwicklungsplan**") um einen "gezielten" Abwicklungsplan, der nur einen Teil der Informationen eines vollständigen Abwicklungsplans sowie zusätzliche Informationen enthielt, die von der Federal Reserve und der FDIC am 1. Juli 2020 festgestellt wurden. Citigroup Inc. wird im Zweijahresrhythmus abwechselnd einen vollständigen Abwicklungsplan und einen gezielten Abwicklungsplan vorlegen. Weitere Informationen zu den von Citigroup Inc. eingereichten Abwicklungsplänen finden Sie unter "Managing Global Risk-Liquidity Risk- Resolution Plan" im jüngsten Jahresbericht von Citigroup Inc. auf Formular 10-K. Die bevorzugte Abwicklungsstrategie von Citigroup Inc. ist der "Single Point of Entry" gemäß dem *U.S. Bankruptcy Code*.

Im Rahmen der von Citigroup Inc. bevorzugten "Single Point of Entry"-Strategie des Abwicklungsplans würde nur Citigroup Inc., die Mutterholdinggesellschaft, in Konkurs gehen, während die wesentlichen juristischen Einheiten von Citigroup Inc., einschließlich CGMHI (wie im öffentlichen Teil des Abwicklungsplans von 2021 definiert, der auf den Websites der Federal Reserve und der FDIC zu finden ist), funktionsfähig bleiben und sich außerhalb eines Abwicklungs- oder Insolvenzverfahrens befinden

würden. Die Citigroup Inc. ist der Ansicht, dass ihr Abwicklungsplan darauf ausgelegt ist, das Risiko systemischer Auswirkungen auf das US-amerikanische und das globale Finanzsystem zu minimieren und gleichzeitig den Wert der Konkursmasse zugunsten der Gläubiger der Citigroup Inc. zu maximieren. Darüber hinaus ist die Citigroup Inc. der Ansicht, dass sie den Abwicklungsplan im Einklang mit der endgültigen Regelung der Federal Reserve über die Gesamtverlustabsorptionsfähigkeit ("TLAC") so entwickelt hat, dass die Aktionäre und unbesicherten Gläubiger der Citigroup Inc. - einschließlich der Gläubiger, die Ansprüche im Rahmen der Garantie der Citigroup Inc. für die von der CGMHI ausgegebenen Schuldverschreibungen geltend machen - alle aus dem Konkurs der Citigroup Inc. resultierenden Verluste tragen.

Als Reaktion auf die Rückmeldungen der Federal Reserve und der FDIC (zusammen die "**Behörden**") hat die Citigroup Inc. die folgenden Maßnahmen ergriffen:

- (i) Als Holding-Zwischengesellschaft (*intermediate holding company*, "**IHC**") für bestimmte der wesentlichen operativen Gesellschaften der Citigroup Inc. wurde die Citicorp LLC ("**Citicorp**"), eine bestehende hundertprozentige Tochtergesellschaft der Citigroup Inc., eingesetzt, mitunter CGMHI;
- (ii) die Citigroup Inc. hat mit der Citicorp, den wesentlichen operativen Gesellschaften der Citigroup Inc. und bestimmten anderen verbundenen Unternehmen einen Unternehmensvertrag geschlossen, nach dem die Citicorp für die wesentlichen operativen Gesellschaften der Citigroup Inc. Liquidität und Kapitalhilfen zur Verfügung stellen muss, müsste die Citigroup Inc. in ein Konkursverfahren eintreten (das "**Citi-Support-Agreement**");
- (iii) nach Maßgabe des Citi-Support-Agreement:
 - leistete die Citigroup Inc. eine erste Einlage von Vermögenswerten, darunter bestimmte qualitativ hochwertige liquide Vermögenswerte und Darlehen zwischen verbundenen Unternehmen (die "**Einlagefähigen Vermögenswerte**"), an die Citicorp, und die Citicorp wurde für die wesentlichen operativen Gesellschaften der Citigroup Inc. zum Finanzierungsvehikel im Rahmen des üblichen Geschäftsverkehrs;
 - ist die Citigroup Inc. verpflichtet, auch weiterhin im Laufe der Zeit Einlagefähige Vermögenswerte an die Citicorp zu übertragen, vorbehaltlich bestimmter Beträge, die die Citigroup Inc. unter anderem zur Deckung ihres kurzfristigen Geldbedarfs zurückbehält;
 - muss die Citigroup Inc. im Falle ihres Konkurses den Großteil ihrer verbleibenden Vermögenswerte an die Citicorp übertragen; und
- (iv) die Verpflichtungen sowohl der Citigroup Inc. als auch der Citicorp aus dem Citi-Support-Agreement und auch die Einlagefähigen Vermögenswerte werden gemäß einer Sicherungsvereinbarung besichert.

Das Citi-Support-Agreement sieht neben der Ausschüttung von Dividenden seitens der Citicorp an die Citigroup Inc. zwei Mechanismen vor, nach denen die Citicorp im Rahmen des üblichen Geschäftsverkehrs Barmittel an die Citigroup Inc. übertragen muss, damit letztere ihrem Schuldendienst nachkommen und auch andere betriebliche Anforderungen erfüllen kann; (i) eine oder mehrere seitens der Citicorp an die Citigroup Inc. ausgegebene *Funding Notes*; und (ii) eine zugesagte Kreditlinie, unter der die Citicorp Darlehen an die Citigroup Inc. ausreichen kann.

Nach den Wertpapierbedingungen stellt ein Konkurs-, Insolvenz- oder Abwicklungsverfahren der Citigroup Inc. in Bezug auf eine von der Citigroup Global Markets Holdings Inc. ausgegebene Serie von Wertpapieren kein Kündigungsereignis dar. Auch stellt es kein Kündigungsereignis in Bezug auf eine von der Citigroup Global Markets Holdings Inc. ausgegebene Serie von Wertpapieren dar, wenn die Garantie der Wertpapiere durch die Citigroup Inc. (als CGMHI-Garantiegeberin) aus einem beliebigen Grund, so auch aufgrund von Insolvenz oder Abwicklung der Citigroup Inc., nicht mehr vollumfänglich wirksam und gültig ist (oder behauptet wird, sie sei nicht mehr vollumfänglich wirksam und gültig). Ist die Garantie der Citigroup Inc. nicht mehr gültig, wird die Citigroup Global Markets Holdings Inc. zum alleinigen Schuldner im Rahmen der Wertpapiere, und es gibt keine Gewähr, dass sie in der Lage wäre, ihren Verpflichtungen aus den Wertpapieren weiterhin nachzukommen.

Im Falle, dass auch die Citigroup Global Markets Holdings Inc. zum Zeitpunkt der Konkursanmeldung der Citigroup Inc. oder zu einem späteren Zeitpunkt in Konkurs tritt, wären Sie als Inhaber von Wertpapieren, die von der Citigroup Global Markets Holdings Inc. ausgegeben wurden, ein unbesicherter Gläubiger der Citigroup Inc. in Bezug auf die Garantie der Citigroup Inc. Entsprechend gibt es für Sie keine Gewähr, dass die Garantie der Citigroup Inc. Sie gegen Verluste infolge eines Ausfalls der Citigroup Global Markets Holdings Inc. schützen würde.

ABSCHNITT E.2 – BESCHREIBUNG DER CITIGROUP GLOBAL MARKETS HOLDINGS INC.

Die Citigroup Global Markets Holdings Inc. ("CGMHI") ist über ihre Tochtergesellschaften im Bereich des Full Service Investment Banking und im Wertpapierkommissionsgeschäft tätig. Bei der Verwendung in dieser Beschreibung bezieht sich CGMHI auf die CGMHI und ihre Konzerntöchter. CGMHI ist im Geschäftssegment *Institutional Clients Group* tätig.

Die Muttergesellschaft der CGMHI, die Citigroup Inc. ("**Citigroup**" oder "**Citi**") ist eine globale, diversifizierte Finanzdienstleistungs-Holdinggesellschaft, deren Geschäftsbereiche Verbrauchern, Unternehmen, Regierungen und Institutionen eine breite und doch fokussierte Palette von Finanzprodukten und -dienstleistungen bietet, so unter anderem auch im Privatkundengeschäft und Privatkundenkreditgeschäft, im Unternehmenskundengeschäft und Investment Banking, im Wertpapierkommissionsgeschäft, bei den Handels- und Wertpapierdienstleistungen und in der Vermögensverwaltung. Die Citi betreut ungefähr 200 Millionen Kundenkonten und ist in über 160 Ländern und Rechtsordnungen geschäftlich tätig.

Zum ersten Quartal 2022 wurde die Citigroup nach drei operativen Segmenten geführt: in der *Institutional Clients Group, Personal Banking and Wealth Management and Legacy Franchises* und für die sonstige Geschäftstätigkeit in dem Segment *Corporate/Other*.

Der Firmensitz der CGMHI befindet sich in 388 Greenwich Street, New York, NY 10013, Telefonnummer + 1 (212) 559-1000. Die CGMHI wurde am 23. Februar 1977 in New York gegründet und ist Nachfolgerin der Salomon Smith Barney Holdings Inc. Am 7. April 2003 reichte die CGMHI eine Neu Gefasste Gründungsurkunde (*Restated Certificate of Incorporation*) ein, mit der ihre Firma von Salomon Smith Barney Holdings Inc. zu Citigroup Global Markets Holdings Inc. geändert wurde. Die vom *US Internal Revenue Service* vergebene *Federal Employee Identification Number* ("**FEIN**" oder "**EIN**") der CGMHI lautet 11-2418067. Die Website der CGMHI ist unter www.citigroup.com zu finden. Sofern sie nicht eigens durch Verweis in dieses Dokument einbezogen wurden, sind Informationen auf der Website nicht als in diesen Basisprospekt einbezogen oder als Teil dieses Basisprospekts zu betrachten.

Der Legal Entity Identifier (LEI) von CGMHI ist 82VOJDD5PTRDMVVMGV31.

Institutional Clients Group

Zur *Institutional Clients Group* ("**ICG**") gehören *Services, Markets und Banking*. Die ICG bietet Unternehmenskunden, institutionellen Kunden, Kunden des öffentlichen Sektors und vermögenden Privatkunden auf der ganzen Welt eine komplette Palette von Produkten und Leistungen im Wholesale Banking, so auch im Verkaufs- und Handelsgeschäft für Aktien und festverzinsliche Produkte, Foreign Exchange, Prime Brokerage, Derivative, Equity und Fixed Income Research, Firmenkreditgeschäft, Investment Banking und Beratungsleistungen, Privatkundengeschäft, Cash Management, Handelsfinanzierung und Wertpapierdienstleistungen. Die ICG führt Kundenorders für Kassainstrumente und Derivate aus, darunter festverzinsliche Produkte, Devisen, Aktien und Rohwaren.

Ihre Erlöse erwirtschaftet die ICG primär durch Gebühren und Spreads, die im Rahmen dieser Tätigkeiten anfallen. Die ICG berechnet ihren Kunden Gebühren für transaktionsbezogene Leistungen und Clearing sowie für die Bereitstellung von Leistungen in den Bereichen Brokerage und Investment Banking und für weitere ähnliche Leistungen. Diese Gebühren werden zu dem Zeitpunkt erfasst, zu dem die Leistung der Citigroup gemäß den Bedingungen einer vertraglichen Vereinbarung abgeschlossen ist,

Non-binding German translation
Unverbindliche deutsche Übersetzung

was typischerweise am Handels-/Ausführungstag oder beim Closing einer Transaktion der Fall ist. Die aus diesen Tätigkeiten erzielten Erlöse werden unter *Provisionen und Gebühren* sowie *Investment Banking* erfasst. Erlöse werden ferner aus der Verwahrung und Verwaltung von Vermögenswerten erzielt und erfasst, sobald die zugehörige versprochene Leistung erfüllt ist, was üblicherweise zu dem Zeitpunkt der Fall ist, zu dem der Kunde die Leistung anfordert und Citi sie erbringt. Die aus diesen Tätigkeiten erzielten Erlöse werden in erster Linie unter *Treuhandgebühren* erfasst.

Als Market Maker vereinfacht die ICG Transaktionen, indem sie unter anderem auch einen Produktbestand vorhält, um die Kundennachfrage zu befriedigen, und verdient den Kursunterschied zwischen Einkauf und Verkauf der Produkte. Dieser Kursunterschied und die nicht realisierten Gewinne und Verluste auf den Bestand werden unter *Haupttransaktionen* ausgewiesen (nähere Informationen zu den Erlösen aus den *Haupttransaktionen* finden Sie in Ziffer 2 des Anhangs des CGMHI-Konzernabschlusses im Geschäftsbericht der CGMHI 2020).

Höhe und Arten der Erlöse im Bereich *Markets* unterliegen einer Vielzahl, zueinander in Wechselbeziehung stehender Faktoren, darunter auch die Marktliquidität; Änderungen der Marktvariablen wie Zinssätze, Devisenkurse, Aktienkurse, Rohstoffpreise und Credit Spreads sowie deren implizite Volatilitäten; das Vertrauen der Anleger und andere gesamtwirtschaftliche Bedingungen. Unter der Annahme, dass sämtliche andere Marktbedingungen unverändert bleiben, führen höhere Aktivitätsniveaus auf Kundenseite oder höhere Geld-/Brief-Spannen im Allgemeinen zu höheren Erlösen. Veränderungen der Marktbedingungen jedoch können die Kundenaktivitäten, die Geld-/Brief-Spannen und den fairen Marktwert des Produktbestands erheblich beeinflussen. Beispielsweise kann eine Verringerung der Marktliquidität die Geld-/Brief-Spannen erhöhen, die Kundenaktivitätsniveaus vermindern und die Credit Spreads auf Positionen des Produktbestands ausweiten.

Zum Management der *Markets*-Geschäftsbereiche durch die ICG gehören die tägliche Überwachung und Auswertung der vorstehenden Faktoren auf der Ebene der Handelsabteilung und auf Länderebene.

In den *Markets*-Geschäftsbereichen sind die Erlöse aus Kundengeschäften diejenigen, die zum Zeitpunkt ihrer Entstehung unmittelbar Kundentransaktionen zuzuordnen sind, so auch Provisionen, Zinsen oder erwirtschaftete Gebühren. Die Erlöse aus Kundengeschäften lassen Ergebnisse aus der Erleichterung von Kundentransaktionen (beispielsweise das Vorhalten von Produktbeständen in Erwartung einer Kundennachfrage) oder Ergebnisse bestimmter ökonomischer Hedging-Aktivitäten unberücksichtigt.

Weitere Informationen zur Geschäftstätigkeit der ICG finden sich unter der Überschrift "*Institutional Clients Group*" in Form 10-K der Citigroup Inc. 2021.

Die internationale Präsenz der ICG wird durch Börsenparkette in ungefähr 80 Ländern und ein proprietäres Netzwerk in 96 Ländern und Rechtsordnungen unterstützt. Per 31. Dezember 2021 verzeichnete die ICG USD 1,86 Billionen an Vermögenswerten und USD 789 Milliarden an Einlagen. Wertpapierdienstleistungen hatten USD 24,0 Billionen an verwalteten Vermögen in Verwahrung per 31. Dezember 2021, wovon die Citi für bestimmte Kunden sowohl Verwahrungs- als auch Verwaltungsdienstleistungen im Zusammenhang mit \$1,9 Billionen dieser Vermögenswerte erbrachte. Das treuhänderisch verwaltete Vermögen belief sich zum 31. Dezember 2021 auf \$3,8 Billionen. .

ABSCHNITT E.7 – UMFASSENDE ZAHLUNGSGARANTIE

Nur in Bezug auf den CGMFL-Basisprospekt enthält dieser Abschnitt die Bestimmungen der von CGMFL am 11. Mai 2017 ausgestellten Umfassenden Zahlungsgarantie.

DIESE GARANTIEURKUNDE wird am 11. Mai 2017 von der Citigroup Global Markets Limited (die Garantiegeberin) zugunsten jedes Begünstigten (gemäß nachstehender Definition) ausgestellt.

DIESE URKUNDE sieht Folgendes vor:

1 Definitionen

Es gelten folgende Definitionen:

"Begünstigter" bezeichnet jede Person, der ein von der CGMFL im Rahmen einer Verbindlichkeit oder in Bezug auf eine Verbindlichkeit zu zahlender Betrag geschuldet wird.

"CGMFL" bezeichnet die Citigroup Global Markets Funding Luxembourg S.C.A.

"Verbindlichkeiten" bezeichnet sämtliche Verbindlichkeiten der CGMFL jeglicher Art und in jeglicher Währung (unabhängig davon, ob es sich um gegenwärtige oder künftige Verbindlichkeiten, tatsächliche Verbindlichkeiten oder Eventualverbindlichkeiten handelt und ob sie allein oder gemeinsam mit einer anderen Person eingegangen wurden) einschließlich sämtlicher von der CGMFL im Zusammenhang mit der jeweiligen Verbindlichkeit zu zahlender Gebühren, Provisionen, Zinsen und Aufwendungen.

"Steuern" umfasst sämtliche von dem Vereinigten Königreich oder für das Vereinigte Königreich erhobenen gegenwärtigen und künftigen Ertragsteuern und sonstigen Steuern, Abgaben, Abzüge, Gebühren und Einbehalte, ggf. zuzüglich darauf anfallender Zinsen und diesbezüglicher Strafzuschläge.

Soweit der Kontext dies zulässt, umfasst der Singular den Plural und umgekehrt. Überschriften dienen lediglich der leichteren Auffindbarkeit.

2 Garantieurkunde

Vorbehaltlich der Bestimmungen dieser Garantieurkunde garantiert die Garantiegeberin jedem Begünstigten im Wege einer Urkunde über ein einseitiges Rechtsgeschäft (*deed poll*) unwiderruflich und unbedingte, dass, falls die CGMFL aus welchen Gründen auch immer einen von ihr im Rahmen einer Verbindlichkeit oder in Bezug auf eine Verbindlichkeit an diesen Begünstigten zu zahlenden Betrag einschließlich möglicherweise gemäß dem Vorstehenden fällig werdender Aufschläge oder sonstiger Beträge jeglicher Art oder zusätzlicher Beträge bei Fälligkeit gemäß dem Vorstehenden nicht zahlt, die Garantiegeberin auf Verlangen dieses Begünstigten den von der CGMFL an oder für diesen Begünstigten zu zahlenden Betrag rechtzeitig und umgehend an diesen Begünstigten zahlen wird.

3 Garantiegeberin als Hauptschuldner

Unbeschadet der Verpflichtungen der CGMFL haftet die Garantiegeberin im Rahmen dieser Garantieurkunde, als wäre sie der alleinige Hauptschuldner und nicht lediglich ein Garant. Dementsprechend werden Umstände, die nicht zur Befreiung der Garantiegeberin führen würden oder sich nicht auf die Haftung der Garantiegeberin auswirken würden, wenn die Garantiegeberin der alleinige Hauptschuldner wäre (einschließlich (a) der CGMFL oder einer anderen Person zu einem beliebigen Zeitpunkt gewährten Fristen, Stundungen, Verzichte oder Zustimmungen, (b) Änderungen einer Verbindlichkeit oder einer Sicherheit oder einer anderen Garantie oder Freistellung, (c) des Vorliegens

Unverbindliche deutsche Übersetzung

oder Nichtvorliegens einer Zahlungsaufforderung gegenüber der CGMFL oder einer anderen Person, (d) der Durchsetzung oder Nichtdurchsetzung einer Verbindlichkeit oder einer Sicherheit oder einer anderen Garantie oder Freistellung, (e) der Freigabe einer solchen Sicherheit, Garantie oder Freistellung, (f) der Auflösung, Fusion, Sanierung oder Reorganisation der CGMFL oder einer anderen Person, (g) der Rechtswidrigkeit, Unwirksamkeit oder Undurchsetzbarkeit einer Bestimmung einer Verbindlichkeit oder einer Verpflichtung der CGMFL im Rahmen einer Verbindlichkeit oder in Bezug auf eine Verbindlichkeit bzw. eines Mangels einer Bestimmung einer Verbindlichkeit oder einer Verpflichtung der CGMFL im Rahmen einer Verbindlichkeit oder in Bezug auf eine Verbindlichkeit oder (h) sonstiger Handlungen, Ereignisse oder Unterlassungen, die ohne diese Ziffer möglicherweise zur Befreiung von den oder zur Beeinträchtigung der von der Garantiegeberin gemäß dieser Garantiekunde zu übernehmenden Verpflichtungen oder den Begünstigten oder einem der Begünstigten durch diese Garantiekunde oder gesetzlich übertragenen Rechten, Befugnissen oder Rechtsmitteln führen würden oder sich anderweitig auf die von der Garantiegeberin gemäß dieser Garantiekunde zu übernehmenden Verpflichtungen oder die den Begünstigten oder einem der Begünstigten durch diese Garantiekunde oder gesetzlich übertragenen Rechte, Befugnisse oder Rechtsmittel auswirken würden) nicht zur Befreiung der Garantiegeberin führen und sich nicht auf die Haftung der Garantiegeberin auswirken.

4 Fortbestand der Verpflichtungen der Garantiegeberin

Die Verpflichtungen der Garantiegeberin im Rahmen dieser Garantiekunde sind unwiderruflich und sind und bleiben als fortbestehende Sicherheiten in Bezug auf ausstehende Verbindlichkeiten vollständig in Kraft. Darüber hinaus bestehen diese Verpflichtungen der Garantiegeberin zusätzlich zu den – und nicht anstelle der – zu einem beliebigen Zeitpunkt zugunsten eines Begünstigten bestehenden Sicherheiten, sonstigen Garantien oder Freistellungen, unabhängig davon, ob diese von der Garantiegeberin oder anderweitig gewährt wurden. Die Garantiegeberin verzichtet unwiderruflich auf Mitteilungen und Ersuchen jeglicher Art.

5 Rückzahlung an die CGMFL

Wird eine Zahlung oder ein Betrag, die bzw. den ein Begünstigter erhalten hat, im Rahmen der späteren Liquidation oder Insolvenz der CGMFL gemäß einem Gesetz zur Liquidation oder Insolvenz angefochten, wird diese Zahlung nicht behandelt, als wäre durch sie die Verbindlichkeit der Garantiegeberin abgegolten oder verringert worden, und diese Garantiekunde gilt weiterhin, als wäre diese Zahlung oder dieser Betrag zu jedem beliebigen Zeitpunkt unverändert von der CGMFL geschuldet worden.

6 Freistellung

Mittels einer gesonderten und alternativen Bestimmung erklärt sich die Garantiegeberin unbedingt und unwiderruflich damit einverstanden, dass von der CGMFL im Rahmen einer Verbindlichkeit oder in Bezug auf eine Verbindlichkeit zu zahlende Beträge, die aus welchen Gründen auch immer (unabhängig davon, ob diese Gründe der CGMFL, der Garantiegeberin oder einem der Begünstigten bekannt sind oder werden) nicht auf der Grundlage einer Garantie von der Garantiegeberin erlangt werden können, dennoch von der Garantiegeberin erlangt werden können, als handelte es sich bei der Garantiegeberin um den alleinigen Hauptschuldner, und dass solche Beträge vorbehaltlich der Bestimmungen dieser Garantiekunde auf Verlangen des Begünstigten von der Garantiegeberin an den Begünstigten gezahlt werden. Diese Freistellung begründet eine gesonderte und von den anderen in dieser Garantiekunde vorgesehenen Verpflichtungen unabhängige Verpflichtung, führt zu einem gesonderten und

unabhängigen Klagegrund und gilt unabhängig von Stundungen, die von den Begünstigten gewährt wurden.

7 Status der Garantieurkunde

Diese Garantieurkunde wird jeweils bis auf Weiteres als Urkunde über ein einseitiges Rechtsgeschäft zugunsten eines jeden Begünstigten wirksam; jeder Begünstigte ist einzeln dazu berechtigt, diese Garantieurkunde gegen die Garantiegeberin durchzusetzen. Die Zahlungsverpflichtungen der Garantiegeberin im Rahmen dieser Garantieurkunde begründen unmittelbare, unbedingte, nicht nachrangige und unbesicherte Verbindlichkeiten der Garantiegeberin, die im gleichen Rang wie alle sonstigen unbesicherten und nicht nachrangigen ausstehenden Verbindlichkeiten der Garantiegeberin stehen (und jederzeit mindestens im gleichen Rang wie diese stehen werden); hiervon ausgenommen sind Verpflichtungen, die aufgrund gesetzlicher Bestimmungen, die sowohl zwingender Natur als auch allgemein anwendbar sind, vorrangig zu behandeln sind.

8 Abwicklungsbedingungen

Die Abgeltung oder Tilgung im Verhältnis zwischen der Garantiegeberin und den Begünstigten oder einem der Begünstigten ist an die Bedingung geknüpft, dass keine von der Garantiegeberin oder im Auftrag der Garantiegeberin von einer anderen Person an die Begünstigten oder einen der Begünstigten geleistete Zahlung gemäß Gesetzen zum Konkurs, zur Insolvenz oder zur Liquidation oder ähnlichen, zum jeweiligen Zeitpunkt geltenden allgemein anwendbaren Gesetzen angefochten oder reduziert wird; wird eine Zahlung auf diese Weise angefochten oder reduziert, sind die Begünstigten berechtigt, den angefochtenen Betrag bzw. den Betrag, um den die Zahlung reduziert wird, zu einem späteren Zeitpunkt von der Garantiegeberin zu erlangen, als hätte die Abgeltung oder Tilgung nicht stattgefunden, VORAUSGESETZT, DASS eine solche Erlangung nicht gemäß den darauf anwendbaren Gesetzen unzulässig ist.

9 Keine Maßnahmen im Vorfeld erforderlich

Kein Begünstigter ist verpflichtet, vor der Ausübung bzw. Einlegung der ihm durch diese Garantieurkunde oder gesetzlich übertragenen Rechte, Befugnisse oder Rechtsmittel:

- (e) Forderungen an die CGMFL zu stellen,
- (f) vor einem Gericht Klage gegen die CGMFL einzureichen oder von einem Gericht ein Urteil gegen CGMFL zu erwirken, oder
- (g) im Rahmen der Abwicklung oder Auflösung der CGMFL Ansprüche geltend zu machen oder Nachweise vorzulegen, und die Garantiegeberin verzichtet hiermit in Bezug auf sämtliche Verbindlichkeiten ausdrücklich auf Vorlegung, Aufforderung, Protesterhebung und die Mitteilung der Nichtzahlung.

10 Aufschub der Rechte der Garantiegeberin

Die Garantiegeberin erklärt sich damit einverstanden, dass die Garantiegeberin, solange die CGMFL im Rahmen der Verbindlichkeiten oder in Bezug auf die Verbindlichkeiten Beträge schuldet oder möglicherweise schuldet oder tatsächliche Verbindlichkeiten oder Eventualverbindlichkeiten im Rahmen der Verbindlichkeiten oder in Bezug auf die Verbindlichkeiten hat, kein Recht ausüben wird, das der

11 Besteuerung

Sämtliche Zahlungen der Garantiegeberin im Rahmen dieser Garantieturkunde oder im Zusammenhang mit dieser Garantieturkunde werden ohne Steuern und ohne Abzüge für oder aufgrund von Steuern geleistet. Sämtliche Steuern in Bezug auf diese Garantieturkunde und auf Zahlungen im Rahmen dieser Garantieturkunde gehen zulasten der Garantiegeberin und sind von der Garantiegeberin auf eigene Rechnung vor dem Tag zu zahlen, ab dem Strafbzuschläge auf die Steuern anfallen. Ist die Garantiegeberin gesetzlich verpflichtet, Zahlungen vorbehaltlich von Steuern zu leisten und erhält ein Begünstigter bei Fälligkeit nicht den vollen im Rahmen dieser Garantieturkunde vorgesehenen Betrag zu seinen eigenen Gunsten, so zahlt die Garantiegeberin alle zusätzlichen Beträge, die erforderlich sind, um sicherzustellen, dass der Begünstigte den vollen vorgesehenen Betrag erhält. Die Garantiegeberin stellt jeden Begünstigten in Bezug auf sämtliche dieser Steuern frei.

Die Garantiegeberin erkennt hiermit das Recht eines jeden Begünstigten auf Vorlage dieser Garantieturkunde und auf Erhalt einer Kopie dieser Garantieturkunde (gegen Zahlung einer angemessenen Gebühr) an und erkennt weiterhin an und sichert zu, dass die im Rahmen dieser Garantieturkunde festgelegten, für sie verbindlichen Verpflichtungen gegenüber jedem einzelnen Begünstigten und zugunsten jedes einzelnen Begünstigten zu erfüllen sind und dass jeder Begünstigte einzeln berechtigt ist, die genannten Verpflichtungen gegen die Garantiegeberin durchzusetzen.

15 Stempelsteuern

Die Garantiegeberin zahlt sämtliche Stempelsteuern, Eintragungssteuern und sonstigen Steuern und Abgaben (einschließlich auf diese Steuern und Abgaben oder im Zusammenhang mit diesen Steuern und Abgaben anfallender Zinsen und Strafzuschläge), die auf die ordnungsgemäße Ausstellung dieser Garantieurkunde oder im Zusammenhang mit der ordnungsgemäßen Ausstellung dieser Garantieurkunde zu zahlen sind, und stellt jeden Begünstigten von sämtlichen Ansprüchen, Forderungen, Klagen, jeglicher Haftung, sämtlichen Schäden, Kosten, Verlusten oder Aufwendungen (einschließlich Rechtsberatungskosten und anfallender Umsatzsteuern) frei, die dem Begünstigten infolge der Nichtzahlung oder der verspäteten Zahlung dieser Steuern und Abgaben, im Zusammenhang mit Nichtzahlung oder der verspäteten Zahlung dieser Steuern und Abgaben oder in Bezug auf die Nichtzahlung oder die verspätete Zahlung dieser Steuern und Abgaben entstehen.

16 Salvatorische Klausel

Sollte zu irgendeinem Zeitpunkt eine Bestimmung dieser Garantieurkunde in irgendeiner Hinsicht gemäß den Gesetzen einer beliebigen Rechtsordnung rechtswidrig, unwirksam oder undurchsetzbar sein oder werden, berührt oder beeinträchtigt dies in keiner Weise die Rechtmäßigkeit, Wirksamkeit oder Durchsetzbarkeit der übrigen Bestimmungen dieser Garantieurkunde und die Rechtmäßigkeit, Wirksamkeit oder Durchsetzbarkeit der betreffenden Bestimmung in einer anderen Rechtsordnung.

Potenzielle Anleger sollten auf der Grundlage ihrer eigenen Beurteilung, ihrer eigenen Umstände und Anlagekriterien oder -leitlinien und nach Beratung durch diejenigen Berater, deren Beratung sie für erforderlich halten, ihre eigene, unabhängige Entscheidung in Bezug auf eine Anlage in Grüne Anleihen sowie darüber treffen, ob eine Anlage in diese Wertpapiere für sie angemessen oder geeignet ist.

Rahmenwerk für Grüne Anleihen

Der Konzern hat ein Rahmenwerk für Grüne Anleihen für die Emission von Wertpapieren zur Finanzierung von Projekten, die dem Klimawandel entgegenwirken, sowie Projekten, die eine nachhaltige Infrastruktur fördern, entwickelt. Die nachstehende Beschreibung basiert auf dem Rahmenwerk für Grüne Anleihen zum Datum dieses Basisprospekts. Jedoch wird das Rahmenwerk für Grüne Anleihen bei Veranlassung möglicherweise geändert oder aktualisiert, weshalb sich Anleger für Informationen über den Einsatz der Erlöse aus den maßgeblichen Wertpapieren auf die jüngste Version des Rahmenwerks für Grüne Anleihen, die auf der Website des Konzerns unter

Zum Datum dieses Basisprospekts ist über das Rahmenwerk für Grüne Anleihen ein Zweitgutachten durch einen unabhängigen Berater auf die darin im Einzelnen beschriebene Weise erstellt worden. Ein solches Gutachten ist nur zum Datum seiner Ausstellung aktuell, stellt keine Empfehlung der maßgeblichen Emittentin, der Vertriebspartner oder einer anderen Person zum Kauf, Verkauf oder Halten Grüner Anleihen dar und ist auch nicht so zu verstehen. Potenzielle Anleger müssen für sich selbst entscheiden, inwieweit ein solches Gutachten und/oder die darin enthaltenen Informationen für eine Anlage in Grüne Anleihen relevant sind. Zum Datum dieses Basisprospekts unterliegen die solche Gutachten erstellenden Parteien keiner besonderen Beaufsichtigung oder Regulierung oder einem anderen Regelwerk. Zur Klarstellung: Das Rahmenwerk für Grüne Anleihen und derartige Gutachten sind weder in diesen Basisprospekt einbezogen, noch stellen sie einen Teil dieses Basisprospekts dar und sind auch nicht so zu verstehen.

Förderfähige Grüne Projekte

Die im Rahmenwerk für Grüne Anleihen beschriebenen Förderfähigkeitskriterien für Grüne Anleihen spiegeln bewährte Verfahren zur Förderung des Übergangs zu einer emissionsarmen Wirtschaft durch Förderfähige Grüne Projekte in einem oder mehreren der folgenden Bereiche (oder einem anderen, in den anwendbaren Endgültigen Bedingungen beschriebenen geeigneten Bereich) wider:

- *Erneuerbare Energien:* Eine Allokation von Erlösen ist für den Erwerb, die Entwicklung, den Betrieb und die Instandhaltung neuer und bestehender Initiativen und der damit einhergehenden Kosten im Bereich erneuerbare Energien möglich.
- *Energieeffizienz:* Eine Allokation von Erlösen ist für die Finanzierung oder Refinanzierung von *Warehouse Facilities* für Energieeffizienzdarlehen für Wohngebäude oder für Anbieter von Konsumentenkrediten, die Energieeffizienzdarlehen für Wohngebäude-Projekte oder -Vermögenswerte gewähren, die den Energieverbrauch oder die Emission von Treibhausgasen senken, möglich.
- *Nachhaltiger Transport:* Eine Allokation von Erlösen ist für den Aufbau und Betrieb der öffentlichen Verkehre und die Schaffung oder den Bau einer Infrastruktur zur Förderung der öffentlichen Verkehre möglich.
- *Wasserqualität und Gewässerschutz:* Eine Allokation von Erlösen ist für Projekte zur Verbesserung von Wasserqualität, Effizienz und Gewässerschutz möglich.
- *Umweltfreundliche Gebäude:* Eine Allokation von Erlösen ist für die Finanzierung bestehender oder den Bau neuer Wohn- und Gewerbebauten, die bestimmte Effizienz- und Umweltzertifizierungen erworben haben, oder ihre Sanierung möglich.

Der Konzern hat eine Liste von Ausschlusskriterien ("**Ausschlusskriterien**") für den Einsatz der Erlöse aus dem Vertrieb von Grünen Anleihen erstellt (beispielsweise keine Verwendung für bestimmte Großwasserkraftwerke, Kernkraftwerke und fossile Kraftwerksprojekte) und verpflichtet sich, die Erlöse aus dem Vertrieb nicht wissentlich zur Finanzierung solcher Projekte einzusetzen.

Portfolio der Vermögenswerte für Grüne Anleihen und Management der Erlöse

Unternehmens des Konzerns in einen im Portfolio der Vermögenswerte für Grüne Anleihen enthaltenen Vermögenswert beendet oder erfüllt ein Vermögenswert die Förderfähigkeitskriterien für Grüne Anleihen nicht mehr, wird der Vermögenswert aus dem Portfolio der Vermögenswerte für Grüne Anleihen entfernt.

Der GBA-Arbeitsgruppe des Konzerns obliegt die Überwachung des Portfolios der Vermögenswerte für Grüne Anleihen und der Gesamtsumme der von Unternehmen des Konzerns begebenen Grünen Anleihen, um sicherzustellen, dass das Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen gleich oder größer ist als die im Rahmen solcher Grüner Anleihen aufgebrachte Gesamtsumme. Zu diesem Zweck werden Gesamtgröße und Fälligkeit des Portfolios der Vermögenswerte für Grüne Anleihen vierteljährlich kontrolliert. Liegt das Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen aus einem beliebigen Grund unter der Gesamtsumme aus den begebenen Grünen Anleihen, wird der nicht zugewiesene Betrag in Bargeld oder bargeldähnlichen Werten und/oder anderen liquiden marktfähigen Instrumenten (so auch in US-Schatzpapieren) im Liquiditätsbestand des Konzerns gehalten, bis der Betrag dem Portfolio der Vermögenswerte für Grüne Anleihen zugewiesen werden kann.

Berichterstattung

Im Rahmen des Rahmenwerks für Grüne Anleihen veröffentlicht der Konzern innerhalb eines Jahres nach der Emission von Grünen Anleihen auf seiner Website unter (https://www.citigroup.com/citi/fixedincome/green_bonds.htm) einen Bericht über Grüne Anleihen, der bis zur vollständigen Allokation und im Falle wesentlicher Änderungen jährlich erneuert wird. Anlegern in einzelne Grüne Anleihen geht in Bezug auf das Portfolio der Vermögenswerte für Grüne Anleihen keine weitere oder gesonderte Benachrichtigung zu.

Der Bericht über Grüne Anleihen informiert im Einzelnen über (i) den Gesamtbetrag der im Portfolio der Vermögenswerte für Grüne Anleihen enthaltenen Vermögenswerte und die durch die Emission von Grünen Anleihen aufgebrachte ausstehende Gesamtsumme; (ii) die förderfähigen Vermögenswerte im Portfolio der Vermögenswerte für Grüne Anleihen und das finanzielle Obligo der Emittentin in Bezug auf jeden Vermögenswert; (iii) die Gesamthöhe ggf. nicht zugewiesener Erlöse; und (iv) die umweltbezogenen Auswirkungen des Portfolios der Vermögenswerte für Grüne Anleihen, soweit diese Angabe praktikabel ist. Ein solcher Bericht ist nur zum Datum seiner Ausstellung aktuell, stellt keine Empfehlung der Emittentin, der Vertriebspartner oder einer anderen Person zum Kauf, Verkauf oder Halten Grüner Anleihen dar und ist auch nicht so zu verstehen.

Im Rahmen des Rahmenwerks für Grüne Anleihen hat die Emittentin auch unabhängige externe Wirtschaftsprüfer mit der Prüfung der im Portfolio der Vermögenswerte für Grüne Anleihen enthaltenen Vermögenswerte beauftragt, um zu überprüfen, dass diese die Förderfähigkeitskriterien für Grüne Anleihen erfüllen und keine Anlagen in Vermögenswerte erfolgt sind, die der Definition in den Ausschlusskriterien entsprechen, und dass das Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen gleich oder größer ist als die durch Grüne Anleihen aufgebrachte Gesamtsumme (oder, dass, soweit die Gesamtsumme der ausstehenden Anleihen unter dem Gesamtvolumen des Portfolios der Vermögenswerte für Grüne Anleihen liegt, der Unterschiedsbetrag auf die im Rahmenwerk für Grüne Anleihen beschriebene Weise gehalten wird). Ein Prüfbericht ist nur zum Datum seiner Ausstellung aktuell, und Anleger müssen für sich selbst entscheiden, inwieweit ein solcher Bericht und/oder die darin enthaltenen Informationen für ihre eigenen Anlageüberlegungen oder Erwartungen relevant sind.

Zur Klarstellung: Weder der Bericht über Grüne Anleihen noch der Bericht eines Dritten ist in diesen Basisprospekt einbezogen oder stellt einen Teil dieses Basisprospekts dar und ist auch nicht so zu verstehen.

Im Rahmen des Rahmenwerks für Soziale Anleihen wird ein Betrag in Höhe der Nettoerlöse aus Sozialen Anleihen der Finanzierung oder Refinanzierung eines Teils des Konzern-Portfolios der Vermögenswerte für Anleihen für Bezahlbaren Wohnraum zugewiesen, das aus ausgewählten förderfähigen Finanzierungsinstrumenten besteht, die zur Finanzierung des Baus, der Sanierung und/oder der Erhaltung der Qualität bezahlbaren Wohnraums für einkommensschwache Haushalte in den Vereinigten Staaten eingesetzt werden (Förderfähigkeitskriterien für Soziale Anleihen). Die Endgültigen Bedingungen für die Emission bestimmter Schuldverschreibungen können vorsehen, dass die betreffende Emittentin beabsichtigt, einen Betrag in Höhe des Nettoerlöses dieser Schuldverschreibungen zur Finanzierung oder Refinanzierung eines Teils eines bestimmten Portfolios von Vermögenswerten des Konzerns (diese Vermögenswerte, die "**Social-Finance-Vermögenswerte**" und jedes solche Portfolio, das "**Social-Finance-Vermögenswerte-Portfolio**") zu verwenden, die die Eignungskriterien für das Social-Finance-Vermögenswerte-Portfolio erfüllen. Potenzielle Anleger sollten ihre eigene unabhängige Entscheidung treffen, ob sie in die Social-Finance-Anleihen investieren wollen und ob eine Anlage in solche Wertpapiere für sie geeignet oder angemessen erscheint, und zwar auf der Grundlage ihres eigenen Urteils, ihrer Umstände und ihrer Anlagekriterien oder -richtlinien sowie auf der Grundlage einer Beratung, sofern sie eine solche für notwendig erachten.

Social-Finance-Anleihen werden nicht von CGMFL emittiert.

Social-Finance-Rahmenwerk

Der Konzern hat das 'Citigroup Social Finance Framework' (das "**Social-Finance-Rahmenwerk**") für Wertpapieremissionen entwickelt, um die Kreditvergabe an soziale Unternehmen in Schwellenländern zu unterstützen. Die nachstehende Beschreibung basiert auf dem Social-Finance-Rahmenwerk in der Fassung zum Zeitpunkt der Erstellung dieses Basisprospekts. Jedoch wird das Social-Finance-Rahmenwerk bei Veranlassung möglicherweise geändert oder aktualisiert, weshalb sich Anleger für Informationen über den Einsatz der Erlöse aus den maßgeblichen Wertpapieren auf die jüngste Version des Rahmenwerks für Social-Finance, die auf der Website des Konzerns unter (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) zur Verfügung stehen wird, und die anwendbaren Endgültigen Bedingungen beziehen sollten.

Das Social-Finance-Rahmenwerk wurde im Einklang mit den Social Bond Principles 2021 der International Capital Market Association (ICMA) entwickelt.

Zum Datum dieses Basisprospekts hat das Social-Finance-Rahmenwerk wie darin beschrieben eine "second party opinion" von einem unabhängigen Berater erhalten. Eine solche Stellungnahme ist stets nur zum Zeitpunkt ihrer Abgabe aktuell und stellt keine Empfehlung des Emittenten, des Händlers oder einer anderen Person zum Kauf, Verkauf oder Halten von Social-Finance-Anleihen dar und ist auch nicht als solche zu verstehen. Der Konzern hat eine Liste von Ausschlusskriterien für die Verwendung der Erlöse aus Social-Finance-Anleihen (die "**Ausschlusskriterien**") (beispielsweise bestimmte Darlehen oder Investitionen (i) für Projekte in Ländern mit hohem Einkommen, (ii) in Einrichtungen, die die arbeitsrechtlichen Vorgaben nicht einhalten, (iii) zur Unterstützung der Energieerzeugung aus fossilen Brennstoffen, (iv) die zu wirtschaftlichen Verlusten für den Konzern führen könnten, (v) in Aktivitäten, die mit dem Social-Finance-Rahmenwerk unvereinbar sind oder die erhebliche negative soziale Auswirkungen haben, oder (vi) in "verbotene Aktivitäten" gemäß der Definition des Rahmenwerks für Social-Finance) und verpflichtet sich, keines dieser Projekte oder dieser Aktivitäten wesentlich in das Social-Finance-Vermögenswerte-Portfolio aufzunehmen.

Auswahl- und Bewertungsverfahren für förderfähige Social-Finance-Vermögenswerte

Das auf Social-Finance spezialisierte Team des Konzerns wird prüfen, ob Vermögenswerte die Förderkriterien für das Social-Finance-Vermögenswerte-Portfolio erfüllen, und ermittelt ein eindeutiges Social-Finance-Vermögenswerte-Portfolio für den Gesamtnennbetrag der während eines bestimmten Berichtszeitraums ausgegebenen Wertpapiere, die für Social-Finance-Anleihen ("**Social-Finance-Anleihen**") verwendet werden sollen. Nach der Prüfung werden die Social-Finance-Vermögenswerte in das Social-Finance-Vermögenswerte-Portfolio aufgenommen. Der Auswahlprozess für die Social-Finance-Vermögenswerte berücksichtigt, ob der potenziell förderungsfähige Vermögenswert die Förderkriterien erfüllt. Darüber hinaus unterliegt die Auswahl von Social-Finance-Vermögenswerten auch den Risikobewilligungsrichtlinien und den Kreditüberwachungsstandards der jeweiligen Länder. Wird die Investition der Gruppe in einen Vermögenswert in einem Social-Finance-Vermögenswerte-Portfolio beendet oder erfüllt ein Vermögenswert nicht mehr die Förderkriterien des Social-Finance-Vermögenswerte-Portfolios oder eines der Ausschlusskriterien liegt vor, wird das Social-Finance-Team diesen Vermögenswert aus dem betreffenden Social-Finance-Vermögenswerte-Portfolio entfernen und kann stattdessen weitere förderfähige Vermögenswerte in ein Social-Finance-Vermögenswerte-Portfolio aufnehmen.

Management der Erlöse

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

Der Arbeitsgruppe 'Sustainable Bond Working Group' des Konzerns (die "**SB-Arbeitsgruppe**") obliegt die Überwachung des Social-Finance-Vermögenswerte-Portfolios und der Gesamtsumme der von Unternehmen des Konzerns begebenen Social-Finance, um sicherzustellen, dass das Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolio gleich oder größer ist als die im Rahmen solcher Social-Finance aufgebraachte Gesamtsumme. Dafür nutzen sie ein internes Vermögensverwaltungssystem. Zu diesem Zweck werden Gesamtgröße und Fälligkeit des Portfolios der Vermögenswerte für Grüne Anleihen vierteljährlich kontrolliert. Liegt das Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolios aus einem beliebigen Grund unter der Gesamtsumme aus den begebenen Social-Finance, wird der nicht zugewiesene Betrag in Bargeld oder bargeldähnlichen Werten und/oder anderen liquiden marktfähigen Instrumenten (so auch in US-Schatzpapieren) im Liquiditätsbestand des Konzerns gehalten, bis der Betrag dem Social-Finance-Vermögenswerte-Portfolio zugewiesen werden kann.

Berichterstattung

Im Rahmen des Rahmenwerks für Social-Finance veröffentlicht der Konzern innerhalb eines Jahres nach der Emission von Social-Finance-Anleihen auf seiner Website unter (https://www.citigroup.com/citi/fixedincome/social_finance_bonds.htm) einen Bericht (der "**Bericht über Social-Finance-Anleihen**"), der bis zur vollständigen Allokation der Erlöse jährlich und im Falle wesentlicher Änderungen erneuert wird.

Der Bericht über Social-Finance-Anleihen wird die Allokation und die Wirkungsberichterstattung für alle Social-Finance-Anleihen, die innerhalb des darin angegebenen Berichtszeitraums emittiert wurden, beinhalten. Zudem wird er aktualisierte Informationen enthalten, sollte es zu einer wesentlichen Veränderung des Social-Finance-Vermögenswerte-Portfolios kommen.

Bitte beachten Sie, dass Anlegern in einzelne Social-Finance-Anleihen in Bezug auf das Social-Finance-Vermögenswerte-Portfolio keine weitere oder gesonderte Benachrichtigung zugeht.

Externe Prüfung

Im Rahmen des Rahmenwerks für Soziale Anleihen wird der Konzern auch unabhängige externe Wirtschaftsprüfer mit der Prüfung der im Social-Finance-Vermögenswerte-Portfolio enthaltenen Vermögenswerte beauftragen, um zu überprüfen, dass diese die Förderfähigkeitskriterien für Social-Finance-Anleihen erfüllen und keine Anlagen in Vermögenswerte erfolgt sind, die der Definition in den Ausschlusskriterien entsprechen, und dass das Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolio gleich oder größer ist als die im Rahmen der Emission von Social-Finance-Anleihen aufgebraachte Gesamtsumme (oder, dass, soweit die Gesamtsumme der ausstehenden Social-Finance-Anleihen unter dem Gesamtvolumen des Social-Finance-Vermögenswerte-Portfolio liegt, der Unterschiedsbetrag auf die im Social-Finance-Rahmenwerk beschriebene Weise gehalten wird). Ein Prüfbericht ist nur zum Datum seiner Ausstellung aktuell, und Anleger müssen für sich selbst entscheiden, inwieweit ein solcher Bericht und/oder die darin enthaltenen Informationen für ihre Anlageüberlegungen oder Erwartungen relevant sind.

Zur Klarstellung: Weder der Bericht über Social-Finance-Anleihen noch der Bericht eines Dritten ist in diesen Basisprospekt einbezogen oder stellt einen Teil dieses Basisprospekts dar und ist auch nicht als

Verzinsung und Rückzahlung der Wertpapiere

Für die Wertpapiere gibt es unterschiedliche Zinsprofile; gegebenenfalls erfolgende Zinszahlungen können auf bestimmte Zinsbasiswerte oder sonstige Zahlungsbedingungen bezogen sein. Die Zahlung eines Rückzahlungsbetrags ist abhängig von dem jeweils anwendbaren Rückzahlungsprofil der Wertpapiere. Die Wertpapiere können bei oder vor ihrer Fälligkeit im Wege einer außerordentlichen Rückzahlung zurückgezahlt werden. Die Wertpapiere können auf einen oder mehrere Basiswerte bzw. eine Kombination aus Basiswerten in einem Worst-of-Basket oder einem Best-of-Basket bezogen sein. Falls nach den anwendbaren Endgültigen Bedingungen ein Basiswertkorb vorgesehen ist, ist die Angabe

Non-binding German translation
Unverbindliche deutsche Übersetzung

der jeweiligen Gewichtungen der einzelnen Basiswerte im Korb nicht erforderlich, da alle fälligen Beträge bzw. lieferbaren Vermögenswerte ausschließlich auf den Basiswert mit der schlechtesten Wertentwicklung (Worst-of-Basket-Beobachtung) bzw. mit der besten Wertentwicklung (Best-of-Basket-Beobachtung) bezogen sind.

Formeln zur Bestimmung von in Bezug auf die Wertpapiere fälligen Beträgen bzw. zu liefernden Vermögenswerten können eines der nachstehend beschriebenen Ausstattungsmerkmale bzw. eine Kombination dieser Ausstattungsmerkmale aufweisen. In solchen Fällen erfolgt die relevante Bewertung nicht ausschließlich auf Grundlage der Wertentwicklung eines oder mehrerer Basiswerte und die Anwendung dieser Ausstattungsmerkmale kann dazu führen, dass die Berechnung einem Mindest- und/oder Höchstbetrag unterliegt oder den Betrag, der ohne Anwendung des entsprechenden Ausstattungsmerkmals bzw. der entsprechenden Ausstattungsmerkmale berechnet worden wäre, anderweitig erhöht oder mindert. Schwankungen des Werts des betreffenden Basiswerts werden verstärkt, wenn ein Partizipationssatz Anwendung findet, was folglich zu höheren Gewinnen oder Verlusten führen kann, als dies der Fall gewesen wären, wenn kein Partizipationssatz angewandt worden wäre. Daher sind die in Bezug auf die Wertpapiere fälligen Beträge oder zu liefernden Vermögenswerte auch auf die Entwicklung der maßgeblichen Wechselkurse bezogen und eine negative Entwicklung dieses Wechselkurses könnte die positive Wertentwicklung des betreffenden Basiswerts bzw. der betreffenden Basiswerte zunichtemachen.

Zinsprofile

Bei den Wertpapieren kann es sich um Nullkupon-Wertpapiere, festverzinsliche Wertpapiere, variabel verzinsliche Wertpapiere, Inflationsrate-Wertpapiere oder Zwischenwertentwicklung-Zinswertpapiere handeln.

Im Folgenden werden die Zinsprofile jeweils kurz beschrieben.

a) **Nullkupon-Wertpapiere**

Nullkupon-Wertpapiere werden nicht verzinst und möglicherweise mit einem Abschlag gegenüber dem Nennwert ausgegeben.

b) **Festverzinsliche Wertpapiere**

Festverzinsliche Wertpapiere werden fest verzinst; ein fälliger Zinsbetrag ist in der festgelegten Währung an dem jeweiligen Zinszahlungstag zu zahlen.

c) **Variabel verzinsliche Wertpapiere**

Variabel verzinsliche Wertpapiere werden ab dem Verzinsungsbeginn variabel verzinst; ein fälliger Zinsbetrag ist nachträglich an dem Zinszahlungstag bzw. den Zinszahlungstagen in der festgelegten Währung für diejenige Zinsperiode, die an dem Zinsperiodenendtag endet, der (genau oder ungefähr) auf diesen Zinszahlungstag fällt, zu zahlen.

d) **Mit dem CMS-Satz verzinsliche Wertpapiere**

Mit dem CMS-Satz verzinsliche Wertpapiere werden ab dem Verzinsungsbeginn je nach Sachlage mit einem Swap-Referenzsatz mit konstanter Fälligkeit (*constant maturity swap*, CMS) oder dem Spread zwischen zwei CMS-Referenzsätzen oder dem niedrigeren von zwei CMS-Referenzsätzen verzinst; ein fälliger Zinsbetrag ist nachträglich an dem Zinszahlungstag bzw. den Zinszahlungstagen in der festgelegten Währung für diejenige Zinsperiode, die an dem Zinsperiodenendtag endet, der (genau oder ungefähr) auf diesen Zinszahlungstag fällt, zu zahlen.

Unverbindliche deutsche Übersetzung

e) **Inflationsrate-Wertpapiere**

Inflationsrate-Wertpapiere werden möglicherweise verzinst; ein fälliger Zinsbetrag ist, vorbehaltlich (i) des jeweiligen Schlusstands des Basiswerts, (ii) einer Marge, (iii) des jeweiligen Zinstagequotienten und (iv) eines Zinspartizipationssatzes – jeweils soweit anwendbar – in der festgelegten Währung an dem jeweiligen Zinszahlungstag zu zahlen.

f) **Zwischenwertentwicklung-Zinswertpapiere**

Zwischenwertentwicklung-Zinswertpapiere werden möglicherweise verzinst; ein fälliger Zinsbetrag ist, vorbehaltlich (i) der jeweiligen Zwischenwertentwicklung, (ii) des Zinspartizipationssatzes, (iii) eines Wechselkurses oder der Wertentwicklung eines Wechselkurses und (iv) einer oder mehrerer etwaiger Zinsanpassungen – jeweils soweit anwendbar – in der festgelegten Währung an dem jeweiligen Zinszahlungstag zu zahlen.

Die Zahlung des jeweiligen Zinsbetrags kann von dem Eintritt oder Nichteintritt eines Zinsbarrierenereignisses abhängig sein. Die Wertpapiere können die folgenden zusätzlichen Zinsprofilausstattungsmerkmale aufweisen:

a) **Zinsbarriere (Lock-in)**

Bei dem Ausstattungsmerkmal der Zinsbarriere (Lock-in) tritt ein Zinsbarrierenereignis ein, wenn eine Festsetzung der Zinsen (Lock-in) in Bezug auf einen früheren Zinszahlungstag eingetreten ist. Eine Festsetzung der Zinsen (Lock-in) tritt ein, wenn an dem betreffenden Tag ein Zinsbarrierenereignis eingetreten ist und weitere, in den anwendbaren Endgültigen Bedingungen festgelegte Bedingungen in Bezug auf die Festsetzung der Zinsen (Lock-in) erfüllt sind.

b) **Lookback**

Bei dem Ausstattungsmerkmal Lookback wird ein fälliger Zinsbetrag, der dem Zinsbetrag zuzüglich (soweit anwendbar) der Summe der Zinsbeträge für alle Zinszahlungstage entspricht, die vor demjenigen Zinszahlungstag liegen, an dem ein Zinsbarrierenereignis nicht eingetreten ist, soweit diese nicht bereits an einem früheren Zinszahlungstag berücksichtigt wurden, in der festgelegten Währung an dem jeweiligen Zinszahlungstag zahlbar.

c) **Multi-Chance**

Bei dem Ausstattungsmerkmal Multi-Chance wird ein fälliger Zinsbetrag in der festgelegten Währung an dem jeweiligen Zinszahlungstag zahlbar, in Abhängigkeit von der Anzahl von Basiswerten der Zinsbarriere, in Bezug auf die ein Zinsbarrierenereignis eingetreten ist.

d) **Accrual**

Bei dem Ausstattungsmerkmal Accrual wird bei festverzinslichen Wertpapieren ein fälliger Zinsbetrag nachträglich an dem Zinszahlungstag bzw. den Zinszahlungstagen in der festgelegten Währung für diejenige Zinsperiode zahlbar, die an dem Zinsperiodenendtag (ausschließlich) endet, der (genau oder ungefähr) auf diesen Tag fällt.

e) **Range Accrual**

Bei dem Ausstattungsmerkmal Range Accrual wird ein fälliger Zinsbetrag mit dem an jedem Range-Accrual-Festsetzungstag ermittelten Produkt aus dem anwendbaren Zinstagequotienten und dem anwendbaren Accrual-Satz multipliziert. Der Accrual-Satz entspricht der Anzahl von Beobachtungstagen der Zinsbarriere in der jeweiligen Zinsperiode, an denen ein

Unverbindliche deutsche Übersetzung

Zinsbarrierenereignis eintritt, geteilt durch die Anzahl von Range-Accrual-Festsetzungstagen in dieser Zinsperiode.

f) **Twin-Win-Zwischenwertentwicklung**

Bei dem Ausstattungsmerkmal Twin-Win wird bei Zwischenwertentwicklung-Wertpapieren der Zwischenwertentwicklungsanteil des Zinsbetrags in einen Absolutwert umgerechnet.

g) **Ausstattungsmerkmal der reversen Zwischenwertentwicklung**

Bei dem Ausstattungsmerkmal der reversen Zwischenwertentwicklung wird bei Zwischenwertentwicklung-Wertpapieren der Zwischenwertentwicklungsanteil von einem festgelegten Prozentsatz subtrahiert.

h) **Cap, Floor oder Collar**

Ein Zinsbetrag unterliegt möglicherweise einem maximalen Zinsbetrag (einem Cap), einem minimalen Zinsbetrag (einem Floor) oder beiden (einem Collar).

Zinsbasiswerte

Zinsbasiswerte können (i) bei verzinslichen Zwischenwertentwicklung-Wertpapieren als Anteil der Zwischenwertentwicklung und (ii) zur Feststellung des Eintritts oder Nichteintritts eines Zinsbarrierenereignisses anwendbar sein.

Bei Zinsbasiswerten kann es sich um Folgendes handeln: einen Wertpapierindex, einen Inflationsindex, einen Rohstoff, eine Aktie, ein Depositary Receipt, einen ETF-Anteil, einen Wechselkurs, einen Dividendenfuturekontrakt, einen Zinssatz.

Referenzzinssätze

Bei variabel verzinslichen Wertpapieren ist der Zinsbetrag auf einen Referenzzinssatz bezogen. Im Folgenden wird der jeweilige Zinssatz kurz beschrieben.

Als Referenzzinssatz kommen einer oder mehrere der folgenden infrage: der European Interbank Offered Rate (EURIBOR), der London Interbank Offered Rate (LIBOR), der Sterling Overnight Index Average (SONIA), der Stockholm Interbank Offered Rate ("**STIBOR**"), der Copenhagen Interbank Offered Reference Rate ("**CIBOR**"), der Norwegian Interbank Offered Rate ("**NIBOR**"), der Tokyo Interbank Offered Rate ("**TIBOR**"), der Hong Kong Interbank Offered Rate ("**HIBOR**"), der Australian Financial Markets Association (AFMA) Bank-Bill Reference Rate ("**BBSW**"), der New Zealand Bank Bill Benchmark Rate ("**BKBM**") oder eine sonstige Verzinsung bzw. ein sonstiger Zins- oder anderer Satz, die bzw. der auf einer Referenzseite erscheint.

Ist der Referenzzinssatz für die Wertpapiere EURIBOR, LIBOR, STIBOR, CIBOR, NIBOR, TIBOR oder HIBOR, wird der variable Zinssatz unter Bezugnahme auf die jeweilige Referenzseite ermittelt.

- (i) EURIBOR ist der von auf dem europäischen Interbankenmarkt tätigen Banken quotierte Zinssatz für den Euro, der von der Europäischen Bankenvereinigung fixiert wird.
- (ii) LIBOR ist der von auf dem Londoner Interbankenmarkt tätigen Banken quotierte Zinssatz für bestimmte festgelegte Währungen.
- (iii) STIBOR ist der auf Zinssätzen, zu denen Banken auf dem Stockholmer Interbankenmarkt anbieten, anderen Banken unbesicherte Mittel zu leihen, basierende Zinssatz.
- (iv) CIBOR ist der auf Zinssätzen, zu denen Banken auf dem Kopenhagener Interbankenmarkt anbieten, anderen Banken unbesicherte Mittel zu leihen, basierende Zinssatz.

Non-binding German translation
Unverbindliche deutsche Übersetzung

- (v) NIBOR ist der Zinssatz, den Darlehensgeber bei unbesicherten Geldmarktleihen in norwegischen Kronen (NOK) verlangen.
- (vi) TIBOR ist der auf Zinssätzen, zu denen Banken auf dem Tokioter Interbankenmarkt anbieten, anderen Banken unbesicherte Mittel zu leihen, basierende Zinssatz.
- (vii) HIBOR ist der auf Zinssätzen, zu denen Banken auf dem Hongkonger Interbankenmarkt anbieten, anderen Banken unbesicherte Mittel zu leihen, basierende Zinssatz.
- (viii) BBSW ist der auf Zinssätzen, zu denen Banken auf dem Interbankenmarkt in Sydney anbieten, anderen Banken unbesicherte Mittel zu leihen, basierende Zinssatz.
- (ix) BKBM ist der auf Zinssätzen, zu denen Banken auf dem neuseeländischen Interbankenmarkt anbieten, anderen Banken unbesicherte Mittel zu leihen, basierende Zinssatz.

Wird der variable oder sonstige veränderliche Zinssatz unter Bezugnahme auf einen Referenzzinssatz, der sich von den vorstehenden unterscheidet, ermittelt, so ist die entsprechende Referenzseite für diesen Referenzzinssatz in den anwendbaren Endgültigen Bedingungen genannt.

Rückzahlungsprofile

Im Folgenden werden die einzelnen Rückzahlungsprofile jeweils kurz beschrieben.

(a) **Rückzahlungsbetrag (Barausgleich oder physische Lieferung)**

Ein fälliger Rückzahlungsbetrag wird in der festgelegten Währung gezahlt oder – bei Wertpapieren mit physischer Lieferung – als Liefermenge von der maßgeblichen Emittentin am Fälligkeitstag geliefert. Der Rückzahlungsbetrag kann einem festen Prozentsatz je Berechnungsbetrag oder dem wertentwicklungsbezogenen Rückzahlungsbetrag entsprechen. Die Höhe des wertentwicklungsbezogenen Rückzahlungsbetrags hängt von den folgenden Faktoren, jeweils wie anwendbar, ab: einem maßgeblichen Prozentsatz, einer finalen Wertentwicklung des Basiswerts der Finalen Wertentwicklung, einem finalen Partizipationssatz, einer Rückzahlungsanpassung, einer Wechselkursentwicklung, einem globalen Partizipationssatz, einem Finalen Partizipationssatz-Put, Finalen Partizipationssatz-Call, einem Put Call Sum Floor des Basiswerts der Finalen Wertentwicklung, einem Market-Timer-Prozentanteil, einem Referenzendstand des Basiswerts der Finalen Wertentwicklung, einem Annuitäten-Floor, einem Annuitätenfaktor und einer Annuität.

(b) **Rückzahlungsbetrag bei Rückzahlungsbarrierenereignis (Barausgleich oder physische Lieferung)**

Der Rückzahlungsbetrag kann von dem Eintritt oder Nichteintritt eines Rückzahlungsbarrierenereignisses abhängen. Ist ein Rückzahlungsbarrierenereignis eingetreten, ist entweder nichts zu zahlen oder es wird der festgelegte Rückzahlungsbetrag in der festgelegten Währung gezahlt bzw. – bei Wertpapieren mit physischer Lieferung – die Liefermenge geliefert. Der Rückzahlungsbetrag kann einem festen Prozentsatz je Berechnungsbetrag oder dem wertentwicklungsbezogenen Rückzahlungsbetrag entsprechen.

(c) **Rückzahlungsbetrag bei Rückzahlungsbarrierenereignis und Rückzahlungsbarrierenereignis (Obere Barriere) (Barausgleich oder physische Lieferung)**

Ist ein Rückzahlungsbarrierenereignis zwar anwendbar, aber nicht eingetreten, dafür jedoch ein Rückzahlungsbarrierenereignis (Obere Barriere) eingetreten, ist ein als Prozentsatz des Berechnungsbetrags oder des wertentwicklungsbezogenen Rückzahlungsbetrags angegebener Betrag zu zahlen. Ist kein Rückzahlungsbarrierenereignis (Obere Barriere) eingetreten, ist ein

Non-binding German translation
Unverbindliche deutsche Übersetzung

als Prozentsatz des Berechnungsbetrags oder des wertentwicklungsbezogenen Rückzahlungsbetrags angegebener Betrag zu zahlen.

Rückzahlungsarten

Die Wertpapiere können bei Fälligkeit oder – unter bestimmten außerordentlichen Umständen – vor ihrer Fälligkeit zurückgezahlt werden.

(a) **Rückzahlung bei Fälligkeit**

Werden Wertpapiere bei Fälligkeit zurückgezahlt, kann der Rückzahlungsbetrag dem Nennbetrag (Rückzahlung zu pari) entsprechen oder unter Bezugnahme auf den Wert oder die Wertentwicklung eines oder mehrerer Basiswerte bestimmt werden.

(b) **Rückzahlung nach Wahl der Emittentin**

Ist Rückzahlung nach Wahl der maßgeblichen Emittentin (Issuer Call) in den anwendbaren Endgültigen Bedingungen als anwendbar angegeben, kann die maßgebliche Emittentin durch Mitteilung innerhalb der in den anwendbaren Endgültigen Bedingungen angegebenen Frist bzw., falls keine entsprechende Frist angegeben ist, innerhalb von mindestens fünf und höchstens 60 Tagen an die Wertpapierinhaber (wobei die Mitteilungen nicht widerrufen werden können und den für die Rückzahlung festgelegten Tag enthalten müssen), an einem Optionalen Rückzahlungstag alle oder einige der dann ausstehenden Wertpapiere zurückzahlen, und zwar in Bezug auf jeden Nennbetrag der Wertpapiere, der dem Berechnungsbetrag entspricht, zum Optionalen Rückzahlungsbetrag, welcher im Bewertungs- und Abwicklungsanhang festgelegt ist bzw. auf die im Bewertungs- und Abwicklungsanhang festgelegte Weise bestimmt wird oder in den anwendbaren Endgültigen Bedingungen festgelegt ist, zusammen mit den bis zum betreffenden Optionalen Rückzahlungstag (ausschließlich) ggf. aufgelaufenen Zinsen. Der Nennbetrag einer solchen Rückzahlung darf nicht niedriger als der Mindestrückzahlungsbetrag und nicht höher als der Höchstrückzahlungsbetrag sein, wie jeweils ggf. in den anwendbaren Endgültigen Bedingungen festgelegt.

Bei einer Rückzahlung von lediglich einigen Wertpapieren werden die zurückzuzahlenden Wertpapiere gemäß den Bestimmungen des Maßgeblichen Clearing-Systems (bei Wertpapieren, deren Clearing über Euroclear und/oder Clearstream, Luxemburg, erfolgt, wird dies in den Aufzeichnungen von Euroclear und Clearstream, Luxemburg, entweder als Pool Factor oder, nach eigenem Ermessen, durch Minderung des Nennwerts verzeichnet) ausgewählt.

(c) **Zwingende vorzeitige Rückzahlung**

Ist eine zwingende vorzeitige Rückzahlung ("**ZVR**") in den anwendbaren Endgültigen Bedingungen festgelegt, ist der Rückzahlungsbetrag der zwingenden vorzeitigen Rückzahlung ("**ZVR-Betrag**") oder Exit-Betrag am Rückzahlungstag der zwingenden vorzeitigen Rückzahlung ("**ZVR-Tag**") zu zahlen. Bei diesen Beträgen kann es sich in Bezug auf den Berechnungsbetrag um Folgendes handeln:

- (i) einen festgelegten festen Betrag,
- (ii) den wertentwicklungsbezogenen ZVR-Betrag,
- (iii) bei Eintritt eines ZVR-Barrierenereignisses (Obere Barriere): einen festgelegten festen Betrag bzw. sofern kein ZVR-Barrierenereignis (Obere Barriere) eingetreten ist: einen festgelegten festen Betrag.

*Non-binding German translation
Unverbindliche deutsche Übersetzung*

Der ZVR-Betrag oder Exit-Betrag unterliegt möglicherweise einem Höchstbetrag (einem Cap), einem Mindestbetrag (einem Floor) oder beiden (einem Collar).

(d) **Bestimmungen zur außerordentlichen vorzeitigen Rückzahlung**

Bei einer außerordentlichen Rückzahlung der Wertpapiere vor ihrer Fälligkeit können, sofern dies in den anwendbaren Endgültigen Bedingungen so festgelegt ist, Hedgingkosten von dem jeweiligen vorzeitigen Rückzahlungsbetrag abgezogen werden. Eine außerordentliche Rückzahlung der Wertpapiere vor deren Fälligkeit kann entweder (i) nach dem Eintritt eines Anpassungsereignisses oder (ii) nach dem Eintritt eines zusätzlichen vorzeitigen Rückzahlungsereignisses erfolgen. In beiden Fällen sind möglicherweise basiswertspezifische Ereignisse anwendbar, die im Folgenden kurz zusammengefasst werden.

(i) Nach einem Anpassungsereignis

Die folgenden Ereignisse können ein Anpassungsereignis darstellen:

- eine Gesetzesänderung,
- eine Hedgingstörung,
- erhöhte Hedgingkosten,
- ein zusätzliches Anpassungsereignis.

Ein zusätzliches Anpassungsereignis ist spezifisch für den jeweiligen Basiswert. Die folgenden zusätzlichen Anpassungsereignisse sind möglicherweise auf die Basiswerte anwendbar:

Die Wertpapiere können ferner in syndizierten Tranchen begeben werden, die von mindestens zwei Vertriebspartnern gesamtschuldnerisch übernommen werden.

Die Emittentinnen, die CGMHI-Garantiegeberin und die CGMFL-Garantiegeberin haben vereinbart, die Vertriebspartner von bestimmten Verbindlichkeiten im Zusammenhang mit dem Angebot und dem Verkauf der von der maßgeblichen Emittentin begebenen Wertpapiere freizustellen, u. a. auch im Zusammenhang mit Verbindlichkeiten, die gemäß dem *Securities Act* begründet werden. Sofern in den Endgültigen Bedingungen in Bezug auf Wertpapiere das "*Verbot des Verkaufs an Kleinanleger im EWR*" nicht als "*Nicht Anwendbar*" angegeben ist, hat jeder Vertriebspartner zugesichert und sich verpflichtet (und wird auch jeder weitere im Rahmen des Programms bestellte Vertriebspartner zusichern und sich verpflichten müssen), dass er keine Wertpapiere, die Gegenstand des Basisprospekts (in der durch die darauf bezogenen Endgültigen Bedingungen vervollständigten Fassung) vorgesehenen Angebots sind, einem *Kleinanleger* im Europäischen Wirtschaftsraum (der "**EWR**") angeboten, verkauft oder auf sonstige Weise zur Verfügung gestellt hat und dass er diese nicht anbieten, verkaufen oder auf sonstige Weise zur Verfügung stellen wird. Für die Zwecke dieser Bestimmung bezeichnet:

- (a) der Begriff "**Kleinanleger**" eine Person, die eines (oder mehrere) der nachstehenden Kriterien erfüllt:
 - (i) sie ist Kleinanleger im Sinne von Artikel 4 Absatz 1 Nr. 11 der Richtlinie 2014/65/EU (in ihrer jeweils geänderten, ergänzten oder ersetzten Fassung, die "**MiFiD II**") oder
 - (ii) sie ist Kunde im Sinne der Richtlinie (EU) 2016/97 (die "**Versicherungsvertriebsrichtlinie**"), sofern dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 4 Absatz 1 Punkt 10 der MiFID II einzustufen wäre, oder
 - (iii) sie ist kein qualifizierter Anleger im Sinne der Verordnung (EU) 2017/1129 (in ihrer jeweils geltenden Fassung die "**Prospektverordnung**") und

Sofern in den relevanten Endgültigen Bedingungen in Bezug auf Wertpapiere "*Verbot des Verkaufs an Kleinanleger im EWR*" als "*Nicht Anwendbar*" angegeben ist, hat in Bezug auf jeden Mitgliedstaat des EWR (jeweils ein "**Maßgeblicher Staat**"), jeder Vertriebspartner zugesichert und sich verpflichtet (und wird auch jeder weitere im Rahmen des Programms bestellte Vertriebspartner zusichern und sich verpflichten müssen), dass er in diesem Maßgeblichen Staat kein Angebot von Wertpapieren, die Gegenstand des Basisprospekts (in der durch die darauf bezogenen Endgültigen Bedingungen vervollständigten Fassung) vorgesehenen öffentlichen Angebots in diesem Maßgeblichen Staat sind, durchgeführt hat oder künftig durchführen wird, jedoch mit der Ausnahme, dass er ein öffentliches Angebot dieser Wertpapiere in diesem Maßgeblichen Staat und/oder für die spezifizierten Zeiträume durchführen kann,

Allgemein

Eine Änderung der Verkaufsbeschränkungen kann mit Zustimmung der Emittentinnen, der CGMHI-Garantiegeberin, der CGMFL Garantiegeberin und der maßgeblichen Vertriebspartner erfolgen. Eine solche Änderung wird entweder in dem Übernahmevertrag oder der Vertriebspartner-Beitrittserklärung (soweit maßgeblich) oder in einem Nachtrag zu diesem Basisprospekt dargelegt.

Es wurden und werden auch künftig keine Maßnahmen in einer Rechtsordnung ergriffen, die ein öffentliches Angebot der Wertpapiere oder den Besitz oder die Verbreitung dieses Basisprospektes oder sonstiger Angebotsmaterialien oder Endgültigen Bedingungen in einem Land oder einer Rechtsordnung bzw. unter Umständen, in denen diesbezüglich Maßnahmen erforderlich sind und nicht ergriffen wurden, ermöglichen würden. Angebote, Verkäufe, Weiterverkäufe und Lieferungen von Wertpapieren sowie die Verbreitung von Angebotsmaterialien in Bezug auf Wertpapiere dürfen nicht in oder aus einer Rechtsordnung erfolgen, sofern dies nicht unter Umständen geschieht, welche die Einhaltung aller

anwendbaren Gesetze und Vorschriften zur Folge haben und durch die der Emittentinnen, der CGMHI-Garantiegeberin, der CGMFL Garantiegeberin und/oder einem Vertriebspartner keine Verpflichtung auferlegt wird.

Jeder Vertriebspartner hat sich dazu verpflichtet, in jeder Rechtsordnung, in der er Wertpapiere kauft, anbietet, verkauft oder liefert, diesen Basisprospekt, andere Angebotsmaterialien oder Endgültige Bedingungen in seinem Besitz hat oder verbreitet, sämtliche einschlägigen Gesetze, Verordnungen und Richtlinien einzuhalten, und zwar in allen Fällen auf eigene Kosten; die Verantwortung hierfür liegt nicht bei den Emittentinnen, der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin.

ABSCHNITT F.4 – BESTEUERUNG

WARNHINWEIS ZUR BESTEUERUNG

Die Steuergesetze des Wohnsitzstaats eines potenziellen Käufers von Wertpapieren und der Gründungsstaat der Emittentin, der CGMHI-Garantiegeberin und der CGMFL-Garantiegeberin können die erhaltenen Einkünfte aus den Wertpapieren beeinflussen.

Potenziellen Käufern der Wertpapiere wird geraten, ihre eigenen Steuerberater im Hinblick auf die Steuerfolgen des Erwerbs, des Eigentums und der Veräußerung der Wertpapiere zurate zu ziehen.

ÜBERLEGUNGEN ZUM ERTRAGSTEUERRECHT AUF US-BUNDESEBENDE

Im Folgenden werden bestimmte Ertragsteuerfolgen auf US-Bundesebene zusammengefasst, die relevant sein können, wenn Nicht-US-Anleger (wie nachstehend definiert) Wertpapiere, die für Zwecke des Ertragssteuerrechts auf US-Bundesebene Namenspapiere darstellen Eigentümer solcher Wertpapiere sind oder über solche Wertpapiere verfügen. Diese Zusammenfassung soll keine umfassende Beschreibung aller Steuerfolgen darstellen, die für die Entscheidung eines bestimmten Nicht-US-Anlegers über den Kauf der Wertpapiere relevant sein können, darunter Steuerfolgen, die sich aus Regeln ergeben, die allgemein auf alle Steuerpflichtigen oder auf bestimmte Klassen von Steuerpflichtigen anwendbar sind, oder von denen grundsätzlich anzunehmen ist, dass sie den Anlegern bekannt sind. Beispielsweise geht diese Zusammenfassung nicht auf die Steuerfolgen für Nicht-US-Anleger ein, die möglicherweise einer besonderen Behandlung gemäß dem Ertragsteuerrecht auf US-Bundesebene unterliegen, wie z. B. (i) Nicht-US-Anleger, deren Einkünfte oder Gewinne aus einem Wertpapier tatsächlich mit dem Betreiben eines US-amerikanischen Gewerbes oder Geschäfts in Zusammenhang stehen, (ii) Nicht-US-Anleger, die sich an 183 Tagen oder mehr als 183 Tagen innerhalb eines Steuerjahrs, in dem sie Eigentümer von Wertpapieren sind, in den Vereinigten Staaten aufhalten, oder (iii) Nicht-US-Anleger, bei denen es sich um "beherrschte ausländische Gesellschaften (*controlled foreign corporations*)" oder um "passive ausländische Investmentgesellschaften (*passive foreign investment corporations*)" oder in solche Gesellschaften investierte Anleger handelt.

Diese Zusammenfassung basiert auf den Steuergesetzen der Vereinigten Staaten, einschließlich dem *Internal Revenue Code* von 1986 in der jeweils geltenden Fassung (der "**Code**"), bestehende und vorgeschlagene nachgelagerten Verordnungen darunter und Auslegungen des *Code* und der nachgelagerten Verordnungen durch Gerichte und Verwaltungsstellen in der jeweils zum Datum dieses Prospekts geltenden Fassung. Änderungen der vorstehenden Regelungen könnten sich – möglicherweise rückwirkend – auf die nachstehend beschriebenen Steuerfolgen auswirken. Des Weiteren enthält diese Zusammenfassung keine Beschreibung von Steuerfolgen, die sich aus den Steuergesetzen einer einzelstaatlichen oder lokalen US-Rechtsordnung oder einer ausländischen Rechtsordnung ergeben, oder von anderen Steuern auf US-Bundesebene als Ertragsteuern, und, in einem begrenzten Umfang, Erbschaftssteuern. Potenzielle Käufer der Wertpapiere sollten ihre Steuerberater hinsichtlich der Steuerfolgen auf US-Bundesebene, der einzelstaatlichen Steuerfolgen, der lokalen Steuerfolgen und der ausländischen Steuerfolgen, die sich angesichts ihrer spezifischen persönlichen Situation aus dem Eigentum an und der Veräußerung von Wertpapieren ergeben, konsultieren.

Diese Erörterung geht nicht auf die Steuerfolgen auf US-Bundesebene ein, die sich aus dem Eigentum an einem Basiswert oder der Verfügung über einen Basiswert, den ein Nicht-US-Anleger

möglicherweise in Bezug auf ein Wertpapier mit Physischer Lieferung erhält, ergeben. Potenzielle Käufer sollten ihre Steuerberater hinsichtlich der relevanten Steuerfolgen auf US-Bundesebene, die sich aus dem Eigentum an dem Basiswert und der Verfügung über den Basiswert ergeben, konsultieren.

Die Emittentin wird nicht versuchen festzustellen, ob ein Emittent von Aktien, von einem Index zugrunde liegenden Aktien oder von sonstigen Eigenkapitalanteilen, auf die sich ein Wertpapier bezieht, als "US-Immobilien-Holdinggesellschaft (*United States real property holding corporation – USRPHC*)" ("**US-Immobilien-Holdinggesellschaft**") im Sinne von *Section 897* des *Code* zu behandeln ist (einschließlich einer nicht als juristische Person eingetragenen Gesellschaft (*non-corporate entity*), die für die relevanten Zwecke von *Section 897* des *Code* als US-Immobilien-Holdinggesellschaft behandelt wird). Falls ein solcher relevanter Emittent so behandelt wird, könnten sich für einen Nicht-US-Anleger beim Verkauf oder Tausch solch eines Wertpapiers oder bei einer anderweitigen Verfügung über die Wertpapiere bestimmte nachteilige Ertragsteuerfolgen auf US-Bundesebene ergeben. Potenzielle Käufer der Wertpapiere werden dazu angehalten, auf die von dem relevanten Emittenten bei der *Securities and Exchange Commission* oder einer anderen staatlichen Behörde eingereichten Informationen zurückzugreifen und ihre Steuerberater hinsichtlich der möglichen Folgen zu konsultieren, falls ein solcher relevanter Emittent eine US-Immobilien-Holdinggesellschaft ist oder wird.

Für die Zwecke dieses Prospekts bezeichnet der Begriff "**Nicht-US-Anleger**" einen wirtschaftlichen Eigentümer eines Wertpapiers, der für Ertragsteuerzwecke auf US-Bundesebene als eine nicht in den Vereinigten Staaten ansässige ausländische natürliche Person, eine ausländische Kapitalgesellschaft oder eine ausländische Vermögensmasse oder ein ausländisches Treuhandvermögen angesehen wird.

Hält eine Personengesellschaft (einschließlich jeglicher Gesellschaft oder Vereinbarung, die für Ertragsteuerzwecke auf US-Bundesebene als Personengesellschaft behandelt wird) ein Wertpapier, hängt die steuerliche Behandlung eines Gesellschafters der Personengesellschaft im Allgemeinen vom Status des Gesellschafters und von den Aktivitäten der Personengesellschaft ab. Potenzielle Käufer, bei denen es sich um Personengesellschaften handelt, sollten ihre Steuerberater hinsichtlich der Steuerfolgen, die sich für ihre sie und ihre Gesellschafter aus einer Anlage in den Wertpapieren ergeben, konsultieren.

Die Wertpapiere sind nicht zum Kauf durch Personen, bei denen es sich nicht um Nicht-US-Anleger handelt, bestimmt. Die Steuerfolgen auf US-Bundesebene, die sich für eine US-Person aus dem Eigentum an einem Wertpapier oder der Verfügung über ein Wertpapier ergeben, können unter bestimmten Umständen unklar sein oder nachteilig sein.

Diese Erörterung kann durch weitere Erörterungen im Hinblick auf Überlegungen zum Steuerrecht auf US-Bundesebene in den geltenden Endgültigen Bedingungen ergänzt, geändert oder ersetzt werden; potenzielle Käufer werden angehalten, die geltenden Endgültigen Bedingungen zu lesen, bevor sie eine Entscheidung über die Anlage in den jeweiligen Wertpapieren treffen.

Von US-Emittenten begebene Wertpapiere

Als Schuldtitel behandelte Wertpapiere

Dieser Abschnitt beschreibt bestimmte allgemein anwendbare U.S.-Bundeseinkommensteuerfolgen für Nicht-US-Anleger in Bezug auf von CGMHI (der U.S.-Emittentin) begebene Wertpapiere, die die U.S.-Emittentin für U.S.-Bundeseinkommensteuerzwecke als Schuldtitel zu behandeln beabsichtigt, wie aus

der Erklärung unter "*Überlegungen zum US-Steuerrecht*" in den anwendbaren Endgültigen Bedingungen hervorgeht. Es wird grundsätzlich davon ausgegangen, dass die von der U.S.-Emittentin beabsichtigte Behandlung berücksichtigt wird. Potenzielle Käufer der Wertpapiere sollten ihre Steuerberater zu dem Risiko befragen, dass der IRS die Behandlung der Wertpapiere durch die U.S.-Emittentin anfecht. Bestimmte Ausnahmen von diesen allgemeinen Regeln werden nachstehend unter "*Sonstige U.S.-Bundessteuererwägungen für Nicht-US-Anleger*" und "*FATCA*" erörtert, und daher unterliegt diese Erörterung den in diesen Abschnitten enthaltenen Erörterungen und sollte in Verbindung mit diesen gelesen werden.

Zinszahlungen auf ein vom U.S.-Emittenten begebenes Wertpapier sollten nicht der U.S.-Bundesquellensteuer unterliegen, solange (1) der Nicht-US-Anleger nicht tatsächlich oder faktisch 10 Prozent oder mehr der gesamten kombinierten Stimmrechte aller stimmberechtigten Aktienklassen des U.S.-Emittenten besitzt, (2) der Nicht-US-Anleger nicht (i) eine für US-Bundeseinkommenssteuerzwecke kontrollierte ausländische Gesellschaft, die mit dem U.S.-Emittenten durch Aktienbesitz verbunden ist, oder (ii) eine Bank ist, die Kredite im Rahmen eines Darlehensvertrags vergibt, der im Rahmen ihres gewöhnlichen Geschäftsbetriebs abgeschlossen wurde, (3) eine solche Beteiligung nicht von den Gewinnen, Einkünften oder Wertveränderungen des U.S.-Emittenten abhängig und auch nicht anderweitig von der Definition des Begriffs "Portfoliobeteiligung" gemäß Section 871(h)(4) des Codes ausgeschlossen ist, und (4) der Nicht-US-Anleger eine eidesstattlich unterzeichnete Erklärung vorlegt, in der er bestätigt, dass er eine Nicht-US-Person in Übereinstimmung mit den geltenden Anforderungen ist (im Allgemeinen ein entsprechendes IRS-Formular W-8), oder er bestimmte Anforderungen an den Nachweis erfüllt, dass er eine Nicht-US-Person ist. Ein von einem Nicht-US-Anleger bei der steuerpflichtigen Veräußerung eines Wertpapiers erzielter Gewinn (ausgenommen sind Beträge, die aufgelaufenen Zinsen zuzurechnen sind) unterliegt im Allgemeinen nicht der US-Bundesquellensteuer oder Einkommensteuer.

Wenn die US-Emittentin einen Ersatz für sich selbst bestimmt oder eine andere Änderung an den Wertpapieren eintritt, die dazu führt, dass die Wertpapiere für US-Bundeseinkommensteuerzwecke als neu ausgegeben behandelt werden, könnte die Behandlung der Wertpapiere nach einem solchen Ereignis von ihrer vorherigen Behandlung abweichen. Sofern nicht ausdrücklich angegeben wird in den vorliegenden Ausführungen davon ausgegangen, dass keine solche fiktive Rücknahme und Neuemission stattgefunden hat.

Wie nachstehend unter "*Sonstige U.S.-Bundessteuererwägungen für Nicht-US-Anleger - Mögliche alternative steuerliche Behandlung einer Anlage in die Wertpapiere*" erörtert, gibt es keine Regelungshoheit hinsichtlich der U.S.-Bundeseinkommensteuerbehandlung von Wertpapieren, die nicht unter allen Umständen die Rückgabe der Anlage des Inhabers vorsehen. Die von der US-Emittentin beabsichtigte Behandlung solcher Wertpapiere ist für die IRS nicht bindend, und die IRS könnte ihr widersprechen. Würde ein solches Wertpapier als ein anderes Instrument als ein Schuldtitel behandelt, könnten Zinszahlungen auf das Wertpapier einer Quellensteuer in Höhe von 30 Prozent unterliegen, vorbehaltlich einer Ermäßigung gemäß einem anwendbaren Einkommensteuerabkommen. Soweit sie in Bezug auf solche Wertpapiere als Quellensteuerstelle zuständig ist, beabsichtigt die US-Emittentin derzeit nicht, Zahlungen auf solche Wertpapiere an Nicht-US-Anleger einzubehalten (vorbehaltlich der hierin beschriebenen Bescheinigungsanforderungen und Ausnahmen). Es ist jedoch möglich, dass andere abzugsverpflichtete Zinszahlungen auf diese Wertpapiere einbehalten, und die US-Emittentin kann in Zukunft feststellen, dass sie zu einem solchen Einbehalt verpflichtet ist.

Nicht als Schuldtitel behandelte Wertpapiere

Dieser Abschnitt beschreibt bestimmte allgemein anwendbare US-Bundeseinkommenssteuerfolgen für Nicht-US-Anleger in Bezug auf von der US-Emittentin begebene Wertpapiere, die die Emittentin für US-Bundeseinkommenssteuerzwecke als ein anderes Finanzinstrument als einen Schuldtitel zu behandeln beabsichtigt, wie aus der Erklärung unter "*Überlegungen zum US-Steuerrecht*" in den anwendbaren Endgültigen Bedingungen hervorgeht. Es wird grundsätzlich davon ausgegangen, dass die von der U.S.-Emittentin beabsichtigte Behandlung berücksichtigt wird. Bestimmte Ausnahmen von diesen allgemeinen Regeln werden nachstehend unter "*Sonstige U.S.-Bundessteuererwägungen für Nicht-US-Anleger*" und "*FATCA*" erörtert, und daher unterliegt diese Erörterung den in diesen Abschnitten enthaltenen Erörterungen und sollte in Verbindung mit diesen gelesen werden. Potenzielle Käufer sollten beachten, dass die U.S.-Emittentin nicht verpflichtet ist, zusätzliche Beträge in Bezug auf etwaige U.S.-Bundeseinkommenssteuern zu zahlen, die von der U.S.-Emittentin oder einer anderen Abzugsstelle in Bezug auf Wertpapiere einbehalten werden, die für Zwecke der U.S.-Bundeseinkommenssteuer nicht als Schuldtitel behandelt werden.

Wenn die US-Emittentin einen Ersatz für sich selbst bestimmt oder eine andere Änderung an den Wertpapieren eintritt, die dazu führt, dass die Wertpapiere für Zwecke der US-Bundeseinkommensteuer als neu ausgegeben behandelt werden, könnte die Behandlung der Wertpapiere nach einem solchen Ereignis von ihrer vorherigen Behandlung abweichen. Sofern nicht ausdrücklich angegeben, wird bei den Ausführungen in diesem Dokument davon ausgegangen, dass keine solche fiktive Rücknahme und Neuemission stattgefunden hat.

Wertpapiere, die als vorausbezahlte Terminkontrakte oder Optionen behandelt werden

Im Allgemeinen sollte ein Nicht-US-Anleger, vorbehaltlich der Ausführungen im nächsten Absatz, keiner US-Bundesquellensteuer oder Einkommensteuer in Bezug auf die steuerpflichtige Veräußerung eines Wertpapiers unterliegen, das keine Zahlungen vor Fälligkeit oder vorzeitiger Rückzahlung vorsieht und das für US-Bundeseinkommensteuerzwecke als vorausbezahlter Terminkontrakt oder Option behandelt wird.

In einigen Fällen kann ein Wertpapier Beträge vorsehen, die vor der Fälligkeit festgelegt sind oder anfallen, aber bei Fälligkeit gezahlt werden. In diesem Fall können solche Beträge, die an einen Nicht-US-Anleger gezahlt werden, der Quellensteuer mit einem Satz von 30 Prozent unterliegen. (der im Rahmen eines anwendbaren Einkommensteuerabkommens reduziert werden kann). Selbst wenn die US-Emittentin oder eine anwendbare Quellensteuerstelle solche Beträge im Allgemeinen als von der Quellensteuer befreit behandelt, kann die US-Emittentin oder eine andere zuständige Quellensteuerstelle angesichts der unsicheren Behandlung solcher Beträge von einem Nicht-US-Anleger verlangen, dass er eine eidesstattlich unterzeichnete Erklärung vorlegt, in der er bestätigt, dass er eine Nicht-US-Person in Übereinstimmung mit den geltenden Anforderungen ist (im Allgemeinen ein entsprechendes IRS-Formular W-8), oder dass er bestimmte Anforderungen an den Nachweis erfüllt, dass er eine Nicht-US-Person ist. Potenzielle Käufer sollten sich bezüglich der Behandlung solcher Zahlungen mit ihren Steuerberatern beraten.

Wertpapiere, die als vorausbezahlte Terminkontrakte oder Optionen mit zugehörigen periodischen Zahlungen behandelt werden

In Bezug auf Wertpapiere, die als vorausbezahlte Terminkontrakte oder Optionen mit zugehörigen periodischen Zahlungen behandelt werden, beabsichtigt die US-Emittentin, soweit sie für die Einbehaltung von Quellensteuer in Bezug auf die Wertpapiere verantwortlich ist, die periodischen Zahlungen als mit einem Satz von 30 Prozent einbehalten zu behandeln, es sei denn, der Nicht-US-

Inhaber legt ein ordnungsgemäß ausgefülltes und angemessenes IRS-Formular W-8 vor, in dem er die Berechtigung zur Ermäßigung oder Befreiung von der Einbehaltung gemäß einem anwendbaren Einkommensteuerabkommen geltend macht. Ein Nicht-US-Anleger sollte im Allgemeinen keiner US-Bundesquellensteuer oder Einkommensteuer in Bezug auf die steuerpflichtige Veräußerung eines Wertpapiers unterliegen (obwohl jeder Betrag, den er in Bezug auf eine periodische Zahlung erhält, als einbehaltungspflichtig behandelt werden kann). Sofern in den maßgeblichen Endgültigen Bedingungen nicht anders angegeben, gilt diese Erörterung auch für ein Wertpapier, das nichtperiodische Zahlung(en) vor Fälligkeit oder vorzeitiger Pensionierung vorsieht.

Wertpapiere, die als Verkaufsoptionen und Einlagen behandelt werden

Ein Nicht-US-Anleger sollte im Allgemeinen nicht der US-Bundesquellensteuer oder Einkommensteuer in Bezug auf Beträge unterliegen, die auf ein als Verkaufsoption und Einlage behandeltes Wertpapier gezahlt werden, solange die Anforderungen im zweiten Absatz unter "*Als Schuldtitel behandelte Wertpapiere*" erfüllt sind. Während die US-Emittentin derzeit nicht beabsichtigt, Zahlungen an Nicht-US-Anleger auf Wertpapiere, die als Verkaufsoptionen und Einlagen behandelt werden, einzubehalten (sofern diese Voraussetzungen erfüllt sind), können andere Personen, die für die Einbehaltung von Steuern in Bezug auf die Wertpapiere verantwortlich sind, angesichts der unsicheren Behandlung der Wertpapiere einen Teil oder die Gesamtheit jeder periodischen Zahlung auf ein Wertpapier als quellensteuerpflichtig mit einem Satz von 30 Prozent behandeln (der im Rahmen eines anwendbaren Einkommensteuerabkommens reduziert werden kann). Darüber hinaus ist es möglich, dass die U.S.-Emittentin in Zukunft bestimmt, dass sie die periodischen Zahlungen auf die Wertpapiere mit einem Satz von 30 Prozent (vorbehaltlich einer Reduzierung gemäß einem anwendbaren Einkommensteuerabkommen) einbehält. Ein Nicht-US-Anleger sollte im Allgemeinen keiner US-Bundesquellensteuer oder Einkommensteuer in Bezug auf die steuerpflichtige Veräußerung eines Wertpapiers unterliegen (mit Ausnahme von Beträgen, die einer aufgelaufenen periodischen Zahlung zuzuordnen sind, die oben erörtert werden).

Von der Nicht-US-Emittentin begebene Wertpapiere

Im Fall von Wertpapieren, die von CGMFL (der Nicht-US-Emittentin) begeben werden, beabsichtigt die Nicht-US-Emittentin derzeit, vorbehaltlich der nachstehenden Ausführungen unter "*Sonstige U.S.-Bundessteuererwägungen für Nicht-US-Anleger*", Zahlungen in Bezug auf diese Wertpapiere als nicht der U.S.-Bundesquellensteuer unterliegend zu behandeln.

Sonstige U.S.-Bundessteuererwägungen für Nicht-US-Anleger

Soweit nicht anders angegeben gelten die Ausführungen in diesem Abschnitt für alle Wertpapiere, die entweder von der Nicht-US-Emittentin oder von der US-Emittentin begeben werden.

Mögliche alternative steuerliche Behandlungen einer Anlage in die Wertpapiere

Abhängig von den mit einem bestimmten Angebot von Wertpapieren zusammenhängenden Tatsachen und Umständen ist es möglich, dass die US-Bundessteuerbehörde (*U.S. Internal Revenue Service*, der "**IRS**") die Wertpapiere anders als erwartet behandelt. Beispielsweise könnte es sein, dass ein Nicht-US-Anleger als Eigentümer des Basiswerts behandelt wird; dies könnte wesentliche und nachteilige Auswirkungen auf die Steuerfolgen für den Nicht-US-Anleger haben.

Wenn ein von einem US-Emittenten begebenes Wertpapier, das von der Emittentin als Schuldtitel behandelt wird, ganz oder teilweise in ein anderes Finanzinstrument als ein Schuldtitel umqualifiziert würde, könnten bestimmte Zahlungen an einen Nicht-US-Anleger so behandelt werden, als unterlägen

sie der US-Bundesquellensteuer oder der Einkommensteuer, wie vorstehend unter "*Von US-Emittenten begebene Wertpapiere - Nicht als Schuldtitel behandelte Wertpapiere*" erläutert. Würde ein von einem US-Emittenten begebenes Wertpapier, das von der Emittentin als ein anderes Finanzinstrument als ein Schuldtitel behandelt wird, ganz oder teilweise in einen Schuldtitel umqualifiziert, unterläge jede an einen Nicht-US-Anleger geleistete Zahlung in Bezug auf das Wertpapier im Allgemeinen nicht der US-Bundesquellensteuer oder der Einkommensteuer, sofern die im zweiten Absatz unter "*Von US-Emittenten begebene Wertpapiere - Als Schuldtitel behandelte Wertpapiere*" genannten Voraussetzungen erfüllt sind. Darüber hinaus könnte ein Nicht-US-Anleger verpflichtet sein, das Wertpapier nach dem Fälligkeitstermin als Schuldtitel zu behandeln, wenn die Zahlung bei Fälligkeit eines Nicht-Schuldtitels vor dem Fälligkeitstermin festgelegt wird oder einer Mindesthöhe unterliegt.

Das Finanzministerium der Vereinigten Staaten und der IRS haben eine Mitteilung veröffentlicht, in der sie um Kommentare zur ertragsteuerlichen Behandlung von "Termingeschäften mit Zahlung bei Abschluss (*prepaid forward contracts*)" und ähnlichen Instrumenten auf US-Bundesebene bitten. Eine der in der Mitteilung angesprochenen Fragen ist die Frage, in welchem Maße – wenn überhaupt – Einkünfte in Bezug auf diese Instrumente der US-Quellensteuer auf Bundesebene unterliegen sollten. In der Mitteilung wird zwar um Kommentare zu angemessenen Übergangsregelungen und Zeitpunkten des Inkrafttretens gebeten; es ist jedoch möglich, dass nachgelagerte Verordnungen oder andere Handlungsempfehlungen, die nach der Auseinandersetzung mit diesen Fragen verkündet werden, sich – möglicherweise rückwirkend – nachteilig auf die Quellensteuerfolgen einer Anlage in den Wertpapieren auswirken. Ist der Einbehalt von Quellensteuer erforderlich, ist die Emittentin nicht verpflichtet, zusätzliche Beträge in Bezug auf Beträge zu zahlen, die auf diese Weise einbehalten wurden.

Abschnitt 871(m) Einbehaltung von Dividendenäquivalenten

Gemäß *Section 871(m)* des *Code* und den dieser *Section* nachgelagerten Verordnungen ("**Section 871(m)**") wird eine Quellensteuer von 30 % (oder ein niedrigerer Steuersatz je nach Abkommen) auf "dividendenähnliche Zahlungen" erhoben, die an Nicht-US-Anleger für bestimmte Finanzinstrumente, die auf US-Wertpapiere ("**Wertpapiere als Basiswert**"), wie unter den geltenden Finanzvorschriften definiert, bezogen sind oder Indizes, die US-Wertpapiere als Basiswert umfassen, gezahlt wurden oder als gezahlt gelten. *Section 871(m)* gilt grundsätzlich für festgelegte auf US-Wertpapiere bezogene Instrumente ("**Festgelegte Auf Wertpapiere Bezogene Instrumente**"), bei denen es sich um Finanzinstrumente handelt, die die in wesentlichem Umfang die Wertentwicklung einer oder mehrerer Wertpapiere als Basiswert nachbilden, wie anhand von in den geltenden nachgelagerten Verordnungen aufgeführten Tests bestimmt und nachstehend erörtert. *Section 871(m)* sieht bestimmte Ausnahmen von dieser Quellenbesteuerung vor, insbesondere für auf bestimmte breitgefächerte Indizes bezogene Instrumente, die die Anforderungen der geltenden nachgelagerten Verordnungen erfüllen ("**Qualifizierte Indizes**"), sowie für Instrumente, die sich auf solche Indizes abbildende Wertpapiere beziehen ("**Qualifizierte Indizes Abbildende Wertpapiere**").

Obwohl die Regelungen nach *Section 871(m)* seit 2017 wirksam sind, lauten die Finanzbestimmungen, die durch eine IRS-Mitteilung geändert wurden, bei der Anwendung von *Section 871 (m)* wie folgt:

- Bei vor 2023 begebenen Finanzinstrumenten gilt *Section 871(m)* im Allgemeinen nur für Finanzinstrumente mit einem "Delta" von eins.
- Bei im Jahr 2023 oder danach begebenen Finanzinstrumenten gilt *Section 871(m)*, wenn entweder (i) das "Delta" des entsprechenden Finanzinstruments mindestens 0.80 beträgt, sofern es sich um ein "einfaches" Instrument (*simple contract*) handelt, oder (ii) wenn das Finanzinstrument einen

"*Substantial Equivalence*"-Test besteht, sofern es sich um ein "komplexes" Instrument (*complex contract*) handelt.

Delta ist in der Regel definiert als das Verhältnis der Veränderung des fairen Marktwerts eines Finanzinstruments zu einer geringfügigen Änderung des fairen Marktwerts der Anzahl der Anteile der Wertpapiere als Basiswert. Der "*Substantial Equivalence*"-Test gibt an, ob ein komplexes Instrument sein "ursprüngliches Hedging-Geschäft (*initial hedge*)" (Anteile der Wertpapiere als Basiswert, die eine vollständige Absicherung des Geschäfts darstellen würden) genauer abbildet als dies ein einfaches "Benchmark"-Instrument mit einem Delta von 0,80 getan hätte.

Die Berechnungen erfolgen in der Regel am Berechnungstag, d. h. dem früheren der folgenden beiden Zeitpunkte: (i) der Preisfeststellung des Wertpapiers, d. h. wenn alle wesentlichen Bedingungen vereinbart wurden, oder (ii) der Ausgabe des Wertpapiers. Liegt der Zeitpunkt der Preisfeststellung jedoch mehr als 14 Kalendertage vor der Ausgabe des Wertpapiers, ist der Berechnungstag der Tag der Ausgabe des Wertpapiers. Unter diesen Umständen sind Informationen zu den finalen Bestimmungen der Emittentin für die Zwecke von *Section 871(m)* gegebenenfalls erst verfügbar, nachdem der Preis des Wertpapiers ermittelt wurde. Folglich sollte ein Nicht-US-Anleger ein entsprechendes Wertpapier nur erwerben, wenn er bereit ist, das Risiko zu tragen, dass das Wertpapier als Festgelegtes Auf Wertpapiere Bezogenes Instrument gilt, das der Quellensteuer gemäß *Section 871(m)* unterliegt.

Darüber hinaus können Wertpapiere einer Serie, die in verschiedenen Tranchen ausgegeben werden oder deren Preisfeststellung anderweitig an verschiedenen Tagen erfolgt, für die Zwecke der Feststellung, ob es sich bei diesen Wertpapieren um Festgelegte Auf Wertpapiere Bezogene Instrumente handelt, unterschiedliche Berechnungstage haben. Folglich können von einem Nicht-US-Anleger erworbene Wertpapiere Festgelegte Auf Wertpapiere Bezogene Instrumente sein und daher der Quellensteuer gemäß *Section 871(m)* unterliegen, auch wenn andere Wertpapiere derselben Serie keine Festgelegten Auf Wertpapiere Bezogenen Instrumente sind. In einer solchen Situation kann ein Abzugsverpflichteter (*withholding agent*) alle Wertpapiere dieser Serie als der Quellensteuer nach *Section 871(m)* unterliegend behandeln, wenn er nicht in der Lage ist, zwischen diesen Wertpapieren zu unterscheiden.

Unterliegen die Bedingungen eines Wertpapiers einer "umfassenden Änderung" (beispielsweise bei Ersetzung einer Emittentin oder der CGMHI-Garantiegeberin oder der CGMFL-Garantiegeberin), wird das Wertpapier in der Regel für diese Zwecke als zum Zeitpunkt der umfassenden Änderung erneut ausgegeben betrachtet; in diesem Fall könnten die Wertpapiere zu diesem Zeitpunkt zu Festgelegten Auf Wertpapiere Bezogenen Instrumenten werden.

Handelt es sich bei einem Wertpapier um ein Festgelegtes Auf Wertpapiere Bezogenes Instrument, ist der Einbehalt von Quellensteuer in Bezug auf dividendenähnliche Zahlungen je nach der Situation des zuständigen Abzugsverpflichteten in der Regel entweder (i) am zugrunde liegenden Dividendenzahlungstag oder (ii) zu dem Zeitpunkt, wenn in Bezug auf das Wertpapier am Fälligkeitstag, bei Verfall oder einer sonstigen Verfügung durch den Nicht-US-Anleger des Wertpapiers oder möglicherweise bei bestimmten anderen Ereignissen Barzahlungen vorgenommen werden, erforderlich. In Abhängigkeit von der Situation kann der zuständige Abzugsverpflichtete die erforderlichen Beträge von Zins- oder anderen Zahlungen in Bezug auf das Wertpapier, von den Erlösen aus der Rückzahlung des Wertpapiers oder einer anderweitigen Verfügung über das Wertpapier oder sonstigem vom Abzugsverpflichteten gehaltenem Barvermögen oder Vermögen des Nicht-US-Anlegers einbehalten.

Der dividendenähnliche Betrag umfasst den Betrag einer tatsächlichen oder unter bestimmten Umständen geschätzten Dividende. Basiert der dividendenähnliche Betrag auf der tatsächlichen Dividende, entspricht er dem Produkt aus: (i) dem Dividendenbetrag je Anteil, der Anzahl der Anteile

eines Wertpapier als Basiswert und dem Delta bei einem "einfachen" Instrument oder (ii) dem Dividendenbetrag je Anteil und dem ursprünglichen Hedging-Geschäft bei einem "komplexen" Instrument. Der dividendenähnliche Betrag für vor 2023 ausgegebene festgelegte auf Wertpapiere bezogene Instrumente, die ein "Delta" von eins aufweisen, wird ebenso berechnet wie in vorstehendem Buchstaben (i) aufgeführt, wobei ein Delta von eins verwendet wird. Der Dividendenbetrag je Anteil ist die in Bezug auf einen Anteil des Wertpapier als Basiswert gezahlte tatsächliche Dividende (einschließlich Sonderdividenden). Basiert der dividendenähnliche Betrag auf einer geschätzten Dividende, sind die geschätzten Beträge in der Regel in den endgültigen Bedingungen aufgeführt.

In Abhängigkeit von den Bedingungen eines Wertpapiers und davon, ob es vor 2023 ausgegeben wird, können die endgültigen Bedingungen zusätzliche in Zusammenhang mit *Section 871(m)* relevante Informationen enthalten, wie Angaben dazu, ob das Wertpapier sich auf einen qualifizierten Index oder ein qualifizierte Indizes abbildendes Wertpapier bezieht, ob es sich um ein "einfaches" Instrument handelt sowie Angaben zu dem "Delta" und der Anzahl der mit Delta multiplizierten Anteile (bei einem einfachen Instrument), und Angaben dazu, ob der "Substantial Equivalence"-Test bestanden wurde sowie Angaben zum ursprünglichen Hedging-Geschäft (bei einem komplexen Instrument).

Potenzielle Käufer der Wertpapiere sollten ihre Steuerberater im Hinblick auf die mögliche Anwendung von *Section 871(m)* auf die Wertpapiere konsultieren und, falls ein Steuereinbehalt anfällt, prüfen, ob sie auf der Grundlage eines anwendbaren US-Einkommensteuerabkommens Anspruch auf eine Erstattung eines Teils der oben genannten Quellensteuer haben, sowie das Verfahren zur Erlangung einer solchen Erstattung (die im Allgemeinen die Einreichung einer US-Bundeseinkommensteuererklärung erfordert) in Erfahrung bringen. Unter bestimmten Umständen kann es für einen Nicht-US-Anleger nicht möglich sein, die für einen Erstattungsanspruch gemäß einem anwendbaren Abkommen erforderliche Dokumentation zu erhalten. Die Feststellung der Emittentin ist für Nicht-US-Anleger und Abzugsverpflichtete in der Regel bindend, sie ist jedoch nicht bindend für den IRS. Die Vorschriften von *Section 871(m)* erfordern komplexe Berechnungen bei auf Wertpapiere als Basiswert bezogenen Wertpapieren, und ihre Anwendung auf eine bestimmte Emission von Wertpapieren bleibt unter Umständen mit Unsicherheiten behaftet. Selbst wenn die Emittentin feststellt, dass bestimmte Wertpapiere keine festgelegten auf Wertpapiere bezogenen Instrumente sind, könnte der IRS dementsprechend die Feststellung der Emittentin ablehnen und bestimmen, dass in Bezug auf diese Wertpapiere der Einbehalt von Quellensteuer erforderlich ist.

Darüber hinaus können die Folgen einer Anwendung von *Section 871(m)* von den Umständen des Einzelfalls des Nicht-US-Anlegers abhängen. Geht ein Nicht-US-Anleger beispielsweise andere Transaktionen in Zusammenhang mit einem Wertpapier als Basiswert ein, könnte der Nicht-US-Anleger einer Quellensteuer oder Ertragsteuer gemäß *Section 871(m)* unterliegen, selbst wenn die Wertpapiere keine festgelegten auf Wertpapiere bezogenen Instrumente sind, die im Allgemeinen *Section 871(m)* unterliegen. Nicht-US-Anleger sollten ihre Steuerberater hinsichtlich der Anwendung von *Section 871(m)* in ihrer spezifischen Situation konsultieren.

Wertpapiere mit festgelegten laufenden Zahlungen

Die folgende Erörterung bezieht sich auf bestimmte Wertpapiere, bei denen es sich um festgelegte auf Wertpapiere bezogene Instrumente handelt und die ausschließlich Folgendes vorsehen: (i) eine Zahlung bei Fälligkeit oder früherer Rückzahlung oder Ausübung, die auf Grundlage des Werts des Basiswerts bzw. der Basiswerte (oder der physischen Lieferung des Basiswerts bzw. der Basiswerte) ermittelt wird, und (ii) Barzahlungen, die etwaigen Dividenden in Bezug auf jedes Wertpapier als Basiswert, auf die sich das Wertpapier bezieht, multipliziert mit der Anzahl der Anteile dieses Wertpapier als Basiswert, auf die sich das Wertpapier bezieht, entsprechen (solche Barzahlungen **"Mit US-Dividenden**

*Non-binding German translation

Zusammenhängende Zahlungen" und solche Wertpapiere jeweils ein **"Wertpapier mit Festgelegten Laufenden Zahlungen"**). Es wird erwartet, dass jede Mit US-Dividenden Zusammenhängende Zahlung an dem Zahlungstag für die entsprechende Dividende geleistet wird.

Die Emittentin wird jede Mit US-Dividenden Zusammenhängende Zahlung als dividendenähnliche Zahlung behandeln. Dementsprechend sollten Nicht-US-Anleger damit rechnen, dass Abzugsverpflichtete 30 % (oder einen niedrigeren Satz gemäß der Dividendenbestimmung eines geltenden Ertragsteuerabkommens) von jeder Mit US-Dividenden Zusammenhängenden Zahlung einbehalten. Da jedoch nicht ganz sicher ist, ob *Section 871(m)* auf Wertpapiere mit Festgelegten Laufenden Zahlungen Anwendung findet, ist es möglich, dass ein Abzugsverpflichteter ein solches Wertpapier so behandelt, als unterliege es einem zusätzlichen Einbehalt von Quellensteuer, z. B. von Beträgen, die bei Fälligkeit oder Ausübung des Wertpapiers fällig sind. Darüber hinaus kann ein Abzugsverpflichteter den Steuersatz von 30 % (oder einen anderen geltenden Höchststeuersatz) unabhängig davon einbehalten, ob der Nicht-US-Anleger in Bezug auf die Zahlung Anspruch auf Vergünstigungen gemäß einem Ertragsteuerabkommen hat.

Wertpapiere mit Festgelegter Nettogesamtrendite

Die folgende Erörterung bezieht sich auf bestimmte Wertpapiere, bei denen es sich um Festgelegte Auf Wertpapiere Bezogene Instrumente handelt und die ausschließlich eine Zahlung bei Fälligkeit oder früherer Rückzahlung oder Ausübung vorsehen, die auf Grundlage des Werts des Basiswerts bzw. der Basiswerte (oder der physischen Lieferung des Basiswerts bzw. der Basiswerte) ermittelt wird, wobei dieser endgültige Wert bei einem Basiswert, bei dem es sich um ein Wertpapier als Basiswert handelt, die fiktive Wiederanlage sämtlicher Dividenden, die während der Laufzeit des Wertpapiers in Bezug auf die Anzahl der Anteile des Wertpapier als Basiswert, auf die sich das Wertpapier bezieht, gezahlt werden, abzüglich des Höchstbetrags der auf jede dieser Dividenden entfallenden US-Quellensteuer (derzeit 30 %) (dieser Nettobetrag der **"Nettodividendenbetrag"**) berücksichtigt. In dieser Erörterung wird ein solches Wertpapier als **"Wertpapier mit Festgelegter Nettogesamtrendite"** bezeichnet.

Nach der Zahlung einer Dividende auf ein Wertpapier als Basiswert in Bezug auf ein Wertpapier mit Festgelegter Nettogesamtrendite hinterlegt die Emittentin beim IRS einen Betrag, der dem jeweiligen Bruttodividendenbetrag multipliziert mit dem für Dividenden geltenden US-Quellensteuerhöchstsatz (ohne Abzüge aufgrund eines US-Ertragsteuerabkommens) entspricht. Da (i) der Nettodividendenbetrag zusammen mit (ii) dem beim IRS zu hinterlegenden Betrag 100 % des Bruttodividendenbetrags entspricht, wird die Emittentin die Summe aus (i) und (ii) für die Zwecke von *Section 871(m)* als dividendenähnliche Zahlung in Höhe von 100 % dieses Bruttodividendenbetrags behandeln.

Die Emittentinnen, die CGMHI-Garantiegeberin und die CGMFL-Garantiegeberin sind nicht verpflichtet, zusätzliche Beträge in Bezug auf nach *Section 871(m)* einbehaltene Beträge zu zahlen.

Potenzielle Käufer der Wertpapiere sollten sich darüber im Klaren sein, dass bei Eintritt eines *Section-871(m)*-Ereignisses (wie in *"Abschnitt B – Risikofaktoren – Allgemeine Risiken in Zusammenhang mit Wertpapieren – Section-871(m)-Ereignis"* definiert) ein Vorzeitiges Rückzahlungsereignis eintritt; in diesem Fall können die betreffenden Wertpapiere wie näher in den Bedingungen der betreffenden Wertpapiere beschrieben zurückgezahlt werden.

FIRPTA

Section 897 des *Code*, gemeinhin als **"FIRPTA"** bezeichnet, gilt für bestimmte Anteile an Unternehmen, die eine bedeutende Menge von Anteilen an US-Immobilienvermögen (*United States real property interests – USRPI*) (einzeln jeweils ein **"Anteil an US-Immobilienvermögen"**) wirtschaftlich halten. Wie oben erörtert, wird die Emittentin nicht versuchen festzustellen, ob ein Emittent des Basiswertes,

von einem Index zugrunde liegenden Aktien oder von sonstigen Eigenkapitalanteilen, auf die sich die Wertpapiere beziehen, für die Zwecke von *Section 897* des *Code* als US-Immobilien-Holdinggesellschaft zu behandeln ist (einschließlich einer nicht als juristische Person eingetragenen Gesellschaft, die für die relevanten Zwecke von *Section 897* des *Code* als US-Immobilien-Holdinggesellschaft behandelt wird). Falls ein relevanter Emittent so behandelt wird, ist es vorbehalten, dass im nachstehenden Absatz erörterten Ausnahmefälle möglich, dass ein Wertpapier als Anteil an US-Immobilienvermögen behandelt wird; in diesem Fall unterläge jeglicher Gewinn aus der Verfügung über das Wertpapier in der Regel der US-Bundesertragsteuer und wäre vom Nicht-US-Anleger in der US-Bundesertragsteuererklärung anzugeben – in der Regel genau so, als handelte es sich bei dem Nicht-US-Anleger um eine US-Person – und unterläge in bestimmten Fällen einer Quellensteuer in Höhe von 15 % des Bruttoerlöses aus dieser Verfügung.

Eine Ausnahme von den FIRPTA-Vorschriften gilt in Bezug auf Anteile an Unternehmen, die über eine regelmäßig gehandelte Klasse von in Umlauf befindlichen Anteilen verfügen. Im Rahmen dieser Ausnahme dürfte ein nicht "regelmäßig" auf einem etablierten Wertpapiermarkt "gehandeltes" Wertpapier in der Regel nicht den FIRPTA-Vorschriften unterliegen, es sei denn, sein fairer Marktwert beim Erwerb übersteigt 5 % der regelmäßig gehandelten Anteilsklasse des betreffenden Emittenten, wie in den geltenden nachgelagerten Verordnungen näher bestimmt. Bei "regelmäßig gehandelten" Wertpapieren dürfte ein Bestand von 5 % oder weniger der in Umlauf befindlichen Wertpapiere dieser Klasse oder Serie in der Regel nicht den FIRPTA-Vorschriften unterliegen. Es gelten bestimmte Vorschriften bezüglich Zurechnung (*attribution*) und Zusammenfassung (*aggregation*) und potenzielle Käufer werden angehalten, ihre Steuerberater hinsichtlich der Frage zu konsultieren, ob ihr Eigentum an den Wertpapieren angesichts ihrer jeweiligen Situation, einschließlich aller weiteren möglicherweise von ihnen gehaltenen Anteile an einem relevanten Emittenten, einer Befreiung von den FIRPTA-Vorschriften unterliegen.

U.S.-Bundesnachlasssteuer

Das Wertpapier kann der U.S.-Bundesnachlasssteuer unterliegen, wenn eine natürliche Person, die nicht in den USA ansässig ist, oder eine juristische Person, deren Vermögen für Zwecke der U.S.-Bundesnachlasssteuer potenziell in den Bruttonachlass einer solchen Person einbezogen werden kann (z. B. ein von einer solchen Person gegründeter Trust, in Bezug auf den sich die Person bestimmte Interessen oder Befugnisse vorbehalten hat), das Wertpapier zum Zeitpunkt des Todes der Person hält. Das Bruttovermögen eines Nicht-US-Anleger mit Wohnsitz außerhalb der Vereinigten Staaten umfasst nur Vermögen, das als in den Vereinigten Staaten gelegen gilt. Einzelne Nicht-US-Anleger und die oben genannten juristischen Personen sollten ihre Steuerberater hinsichtlich der U.S.-Bundesnachlasssteuerfolgen einer Anlage in die Wertpapiere in ihrer jeweiligen Situation konsultieren.

Meldepflichtige Transaktionen

Ein an einer "meldepflichtigen Transaktion" beteiligter Steuerpflichtiger unterliegt den Auskunftspflichten gemäß *Section 6011* des *Code*. "Meldepflichtige Transaktionen" umfassen unter anderem bestimmte, von der IRS ausgewiesene Transaktionen. Im Jahr 2015 veröffentlichten das Finanzministerium der Vereinigten Staaten und der IRS Mitteilungen, die besagen, dass bestimmte "Basket-Optionen", "Basket-Kontrakte" und im Wesentlichen ähnliche Transaktionen als meldepflichtige Transaktionen anzusehen sind. Die Mitteilungen gelten für spezifische Transaktionen, bei denen ein Steuerpflichtiger oder sein "Beauftragter (*designee*)" einen Ermessensspielraum hat und ausübt, die der Transaktion zugrunde liegenden Vermögenswerte oder einen der Transaktion zugrunde liegenden Algorithmus zu ändern. Es wird zwar nicht erwartet, dass der Emittent einen Ermessensspielraum ausübt, der zu solchen Meldepflichten in Bezug auf die Wertpapiere führen würde,

aber falls die Emittentin, ein Indexsponsor, eine Berechnungsstelle oder eine sonstige Person ihren bzw. seinen Ermessensspielraum gemäß den Bedingungen eines Wertpapiers oder eines einem Wertpapier zugrunde liegenden Indexes ausüben und für diese Zwecke als "Beauftragter" eines Wertpapierinhabers behandelt würde, wären bestimmte Inhaber der betreffenden Wertpapiere verpflichtet, sofern keine Ausnahmeregelung gilt, dem IRS nach Maßgabe der geltenden nachgelagerten Verordnungen bestimmte Auskünfte zu erteilen bzw. unterlegen Strafzahlungen. Auch die Emittentin ist gegebenenfalls verpflichtet, dem IRS Auskünfte bezüglich der Transaktion zu erteilen. Potenzielle Käufer sollten hinsichtlich dieser Vorschriften ihre Steuerberater konsultieren.

Meldepflicht und Sicherungseinbehalt

Zahlungen auf die Wertpapiere sowie die Erlöse aus einem Verkauf, einem Tausch oder einer sonstigen Verfügung (einschließlich der Einziehung) über die Wertpapiere können der Meldepflicht unterliegen und, falls ein wirtschaftlicher Eigentümer bestimmte Identifizierungsinformationen nicht zur Verfügung stellt oder bestimmte andere Bedingungen nicht erfüllt, können sie auch einer Ersatzeinbehaltung zu dem im Code festgelegten Satz unterliegen. Ein Nicht-US-Anleger, der der zuständigen Quellensteuerstelle das entsprechende IRS-Formular W-8 vorlegt, ist im Allgemeinen von der Ersatzeinbehaltung befreit. Beträge, die gemäß den Regeln für den Ersatzeinbehalt einbehalten werden, sind keine zusätzlichen Steuern und können zurückerstattet oder mit der US-Bundeseinkommenssteuerschuld eines Inhabers verrechnet werden, vorausgesetzt, die entsprechenden Informationen werden dem IRS rechtzeitig vorgelegt.

FATCA

Gemäß den gemeinhin als "**FATCA**" bezeichneten Rechtsvorschriften wird in der Regel eine Quellensteuer von 30 % auf Zahlungen an bestimmte nicht in den USA ansässige Unternehmen (einschließlich Finanzintermediären) in Bezug auf bestimmte Finanzinstrumente erhoben, es sei denn, es wurden diverse US-Auskunfts- und Sorgfaltspflichten (die zusätzlich zu der Anforderung, ein IRS-Formular W-8 abzugeben, bestehen und potenziell wesentlich aufwändiger sind als diese) erfüllt. Durch ein zwischenstaatliches Abkommen zwischen den USA und der Rechtsordnung des nicht in den USA ansässigen Unternehmens können sich diese Pflichten ändern. Gemäß Verordnungen (*Treasury regulations*) wird diese Gesetzgebung angewendet auf (1) Wertpapiere, die US-Zinsen oder andere "feste oder bestimmbare jährliche oder periodische" ("**FDAP**") Erträge aus US-Quellen zahlen und (2) Wertpapiere, die allein deshalb dem FATCA unterliegen, weil sie als Dividendenäquivalente gemäß Section 871(m) behandelt werden und im Fall von Nicht-"Delta-One"-Wertpapieren (wie in "*Sonstige U.S.-Bundessteuererwägungen für Nicht-US-Anleger - "Abschnitt 871(m) Einbehaltung von Dividendenäquivalenten"*" definiert) mehr als sechs Monate nach dem 1. Januar 2023 ausgegeben werden. Der Einbehalt (falls zutreffend) gilt für Zahlungen von Zinsen, Dividendenäquivalenten und anderen FDAP-Erträgen. Während die bestehenden Vorschriften des US-Finanzministeriums auch die Einbehaltung von Zahlungen von Bruttoerlösen aus der steuerpflichtigen Veräußerung von relevanten Wertpapieren (mit Ausnahme eines Teils, der als FDAP-Einkommen behandelt wird) vorschreiben würden, hat das US-Finanzministerium in nachfolgenden Verordnungsvorschlägen seine Absicht erklärt, dieses Erfordernis zu beseitigen. Das Finanzministerium der Vereinigten Staaten hat signalisiert, dass sich Steuerzahler auf diese vorgeschlagenen Verordnungen, bis zu deren Finalisierung, berufen können. Falls die Quellenbesteuerung für die Wertpapiere gilt, ist die Emittentin nicht verpflichtet, zusätzliche Beträge in Bezug auf einbehaltene Beträge zu zahlen. Potenzielle Käufer sollten ihre Steuerberater hinsichtlich FATCA, einschließlich der Möglichkeiten im Hinblick auf Steuererstattungen und -gutschriften, konsultieren.
